To emphasize, where appropriate, the Canadian geographic, cultural, social, and governmental context in which libraries and information agencies operate.

To stress the professional obligation to keep informed of social and technological developments, with particular emphasis on Canadian issues.

111.2.4 Objectives of the MLIS Program

Upon completion of the program:

Students will be familiar with the history, the philosophy, and the service orientation of libraries and librarianship.

Students will have an understanding of concepts of knowledge and concepts of information and of the methods of preservation and transmission of cultural records.

Students will be aware of the responsibility of librarians and information specialists with respect to the free flow of ideas and access to information.

Students will have an understanding of the functions of librarians and information specialists within the larger societal framework, and of the factors influencing the creation, dissemination, and use of knowledge and information.

Students will be knowledgeable about basic principles of selection, acquisition, organization, storage, retrieval, and use of recorded knowledge and information resources of all kinds.

Students will be knowledgeable about the theories and concepts of administration and organizational behaviour and their application to the management of libraries and information agencies.

Students will possess the skills necessary to evaluate library and information systems and services.

Students will have an understanding of the principles of systems analysis and systems design for libraries and information agencies.

Students will understand current information technology as an integral part of the operations and services of libraries and information agencies.

Students will be able to evaluate published research in library and information studies and to apply basic principles and techniques of research in library and information studies.

Students will be aware of the links between library and information studies and other disciplines, including shared methodologies and common concerns.

Students will understand the importance of cooperation among libraries and information agencies and of the development and maintenance of collegial relationships with their fellow professionals.

Students will be aware of the need for continuing professional education and be ready to play an active role in associations and engage in other professional activities.

111.2.5 Student Organizations

The Library and Information Studies Students' Association represents all students enrolled in the Faculty of Library and Information Studies. Students elect their own officers, with the presiding officer representing them at meetings of the Faculty Council. LISSA provides liaison between students and faculty and encourages participation in a variety of academic, professional, and extracurricular activities.

111.2.6 Faculty Library Facilities

The Faculty of Library and Information Studies maintains a library. The collection, designed to supplement that of the University Libraries, includes standing reserve materials to support specific courses of study, representative materials for children and young adults, library reports, and selected index, acquisition, reference tools, and FLIS research projects. In addition to library space, there are facilities for group and individual work and study.

111.2.7 Faculty Computing Facilities

The Faculty of Library and Information Studies maintains a computer laboratory with a Local Area Network of microcomputer workstations and computer terminals which are available to Faculty members and students for instruction, research, and demonstrations. The University computing facilities are accessible as are external databases such as DIALOG, UTLAS, Wilsonline, CANOLE, and others.

112 Faculty Regulations

112.1 Classification of Students

112.1.1 Classification of Graduate Students

Graduate students at the University of Alberta are classified in one of the following six categories:

(1) **Qualifying graduate student:** A student who holds a three-year bachelor's degree from the University of Alberta, or a similar qualification from some other institution, may be admitted as a qualifying graduate student. A graduate of a four-year program entering a completely new field may also be admitted as a qualifying graduate student. On satisfactorily completing a qualifying year in the department, a student may be reclassified as a probationary graduate student or as a candidate for a master's degree.

(2) **Probationary graduate student:** Such a student is one whose academic record is either (i) difficult to assess, as in the case of some foreign students, or (ii) below the standard normally required. After the completion of one academic year, probationary graduate students who have proved their competence to the satisfaction of their department and the Faculty, may be accepted as a candidate for a master's degree or a provisional candidate for a doctor's degree. If accepted then on the recommendation of the department, they may have courses completed during their probationary year credited towards the

requirements for a degree. Each such application will be considered on its merits.

(3) **Candidate for a master's degree (Category A):** Such a student is one who is a graduate of a four-year degree program continuing in the same field (equivalent of an honors degree or degree with specialization from the University of Alberta).

(4) **Candidate for a master's degree (Category B):** Such a student is one who is a graduate of a four-year degree program (beyond senior matriculation), specializing for the first time but not requiring a qualifying year.

(5) **Special graduate student:** Such a student is one who is in every respect eligible for admission to the Faculty and who, though not registered in a degree program at this University, takes one or more graduate courses, with the permission of the department concerned.

(6) **Visiting graduate student:** Such a student is a bona fide student of another university or college who has been permitted to take one or more courses for transfer of credit to his/her own institution which has agreed in advance to such an arrangement.

112.1.2 Classification of Library and Information Studies Students

Students admitted to the Faculty of Library and Information Studies are classified as candidates for a master's degree (Category B).

Students admitted to the program who already hold the BLS degree are classified as either probationary graduate students or as candidates for a Master's degree (Category A).

Applicants with the BLS Degree

Applicants with a BLS degree from an accredited library school or its equivalent, and an academic record acceptable to the Faculty of Graduate Studies and Research and to the Faculty of Library and Information Studies, will normally be admitted as candidates for the MLIS degree and should be able to complete the required work in one year.

112.2 Admission

112.2.1 Admission Requirements for the MLIS Program

(1) An applicant holding a four-year undergraduate degree from the University of Alberta or another accredited university and with academic standing acceptable to the Faculty of Graduate Studies and Research and to the Faculty of Library and Information Studies may be admitted as a candidate (Category B) for the MLIS degree. Individuals with a three-year degree must satisfy the requirements of a four-year degree or its equivalent. (See §204.44.1 of this Calendar).

(2) Applicants with degrees only from other countries may be required to take the Graduate Record Examination Aptitude Tests administered by the Educational Testing Service (see §112.2.2(3) below). Acceptable scores are 600 in the Verbal Section, 525 in the Quantitative Section, and 600 in the Analytical Section. Students taking this examination should arrange for the testing agency to report results to the Faculty of Library and Information Studies, which will judge whether or not the results are satisfactory.

(3) Preference is given to applicants who have had library experience under professional supervision before registration. Such experience tests a candidate's aptitude for library work and gives some knowledge of library terminology and processes.

(4) Applicants are judged not only upon their academic record but also on their professional promise as indicated in three letters of reference. A personal interview, arranged at a time and place convenient to the applicant, may also be requested by the Faculty or by the applicant.

The minimum requirements for admission to the Faculty of Graduate Studies and Research as a graduate student are outlined below. Even though an applicant may appear to satisfy the general admission requirements, acceptance into the MLIS program is not guaranteed.

112.2.2 Admission Requirements for the Faculty of Graduate Studies and Research

The requirements for admission as a graduate student are:

(1) A four-year baccalaureate degree, with a grade point average of at least 6.5 in the work of the last two undergraduate years at the University of Alberta, or an equivalent qualification from another institution, and

(2) A statement from the chair of the department concerned to the effect that the applicant is, in all respects, acceptable to the department. A special graduate student or a visiting graduate student, however, not being a candidate for a degree, does not require departmental recommendation.

(3) All applicants who have not previously received a degree (for which the language of instruction was English) from a university in Canada, the UK, the USA, Australia, or New Zealand must obtain a score of 600 on the Test of English as a Foreign Language, or a score of 85 on the Michigan English Language Examination in order to be admissable to the MLIS program.
See §202.2.2.

112.2.3 Refusal of Admission

Notwithstanding the Admission Requirements referred to above, the University of Alberta may at its discretion refuse admission to any applicant.

112.2.4 Application Procedures

Application for admission must be submitted on forms supplied by the Faculty of Library and Information Studies. No assurance can be given that applications received after June 15 (for first term, Winter Session) can be processed in time to permit registration in that session. Graduates of other universities must arrange with the registrar of those institutions to forward two transcripts of their academic records to the Dean of the Faculty of Library and Information Studies prior to this date. The Dean of the Faculty of Graduate Studies and Research or the Dean of the Faculty of Library and Information Studies may require applicants to furnish an official description of the content of the courses listed on the transcripts.

112.3 Registration

Particulars will be provided when a student is officially admitted to the Faculty. On entering the MLIS program all students are assigned a program supervisor who will assist them in planning their course of studies.

112.3.1 Changes in Registration

Deletion of courses, changes from "credit" to "audit", or changes from "audit" to "credit", may be made only on recommendation of the department in which the student is taking the graduate degree.

Such changes of registration, first approved by the Dean, must be received by the Faculty of Graduate Studies and Research no later than the following dates:

- adding first term and full session courses - September 11;
- changing from "credit" to "audit" in first term courses - September 12-16;
- withdrawing or changing from "credit" to "audit" in first term courses - October 18;
- changing from "credit" to "audit" in full session courses - January 10;
- adding or changing from "credit" to "audit" in second term courses - January 13-15;
- withdrawing or changing from "credit" to "audit" in second term and full session courses - February 14.

No credit will be given for any course unless it is included in the student's registration or covered by an official change of registration.

Note: Individual departments may require an earlier deadline date for changes in course registration.

112.3.2 Maintenance of Registration

Every student in a graduate degree program must register once a year in order to keep the program active. This registration entitles students to the use of University facilities and to assistance from their supervisors for a twelve month period. Registration during the final year of the program permits students to graduate at either of the two following convocations.

The procedure for re-registration is the same as for initial registration.

Students who fail to maintain continuous registration will be considered to have withdrawn from their programs. If they wish to resume work on a program, they must apply for re-admission to the Faculty of Graduate Studies and Research and have the program reassessed in terms of the regulations in force at the time of reapplication. If they are recommended for readmission, a readmission fee of $598.00 will be charged in addition to the fees assessed in the regular manner.

112.3.3 May-August Summer Period

Graduate students who are working full-time on their graduate program during part or all of the period from May to September are encouraged to record their presence on campus at their departmental office. Those holding University awards during this period must also record their presence. Residence credit may be given for this period if the student has signed the record.

112.3.4 Cancellation of Registration

A student who wishes to withdraw from the University should complete "Notice of Withdrawal" forms which must then be submitted to the Dean for approval. A student who withdraws without completing such forms will not be eligible for any refund of fees, nor for exemption from fees in the event that they have not been paid.

A fee adjustment will be made and refunds will be authorized in accordance with the table published in §15.2.5 of the University Calendar. The date used for the purpose of calculating the refund is that on which the withdrawal is approved by the Dean.

112.4 Residence Requirements

Residence is an essential component of all graduate degree programs. The purpose of residence is to encourage students to gain insight and intellectual stimulation through direct contact with the University environment, staff, and other students.

To fulfill the residence requirement students must be registered as full-time for the period of residence specified, enabling them to participate fully in on-campus activities related to their degree program.

Minimum period of residence is: Master's degree programs: two (four-month) terms*.

*For purposes of residence, a term is defined as Fall (September-December) or Winter (January-April). An academic year is defined as the eight-month period from September to April.

Students who cannot enroll in at least nine units of course weight per term (full-time attendance), and whose employment relates directly to their academic studies, may petition the Faculty of Graduate Studies and Research to have the normal residency requirement waived. Petitions should be made through the Dean of the Faculty of Library and Information Studies.

112.5 Academic Standing

The pass mark in any course taken for credit towards the Master of Library and Information Studies degree is a grade of 6. A student with a grade of 5 or less in any course must petition the Faculty to remain in the program. An overall average of 6.5 must be maintained for successful completion of the program.

A student who does not achieve a pass mark in any required course must repeat the course or, subject to the approval of the Faculty, may be permitted to take an appropriate alternate course.

A student who does not achieve a pass mark in an elective course must repeat the course or substitute another elective course.

Reexamination

Graduate students are not permitted to take re-

examinations. If, after consulting the department or the committee concerned, the Faculty decides that a graduate student is not making satisfactory progress in either course work or research, the student may be required to withdraw.

112.6 Appeals and Grievances

Students who believe they have academic grievances should first approach the instructor concerned. Failing satisfaction, they should then seek redress from their Faculty adviser, then the Dean of the Faculty of Library and Information Studies. Should the Dean not be able to resolve the matter, the student may request, formally in writing, the formation of a Faculty Appeal Committee. If the Committee's recommendation is not acceptable to the student, he or she may then appeal to the Chair of the Faculty of Graduate Studies and Research Academic Appeals Committee, and then to the General Faculties Council Academic Appeals Committee.

112.7 Time Limits for Completion of Program

To be recommended for a Master's degree, candidates must have completed all the requirements within four years of the time they are first registered as a probationary graduate student or candidate in the Master's program.

113 Programs of Study

113.1 The Degree of MLIS

The Faculty of Library and Information Studies offers a two-year (four-term) program for university graduates leading to the degree of Master of Library and Information Studies (MLIS). The normal course load is four three-weight courses per term.

A full-time student who is registered as a candidate for the MLIS degree program normally will be able to complete the degree requirements in two academic years. The minimum requirement for the MLIS degree is either 39 units of course weight of graduate courses and a thesis, or 48 units of course weight of graduate courses. The first term of study during which 12 units of course weight of required courses normally are taken must be spent in full-time attendance. A second term of full-time attendance as defined by the Faculty of Graduate Studies and Research (at least nine units of course weight during one term) is required to complete the residence requirement.

Credit for courses taken elsewhere may be granted as advanced credit by the Dean of the Faculty of Graduate Studies and Research on the recommendation of the Faculty of Library and Information Studies provided that the courses have not been counted towards a previous degree. (Please note the special provision for applicants with the BLS degree.)

Inquiries regarding program and course details and financial assistance other than University scholarships should be made to the Dean of the Faculty of Library and Information Studies. Inquiries about University scholarships should be made to the Student Awards Office.

114 Details of Courses

114.1 General Information

In the following list of courses, each course is designated by the abbreviation for Library and Information Studies and its number.

Following the title of the course is the symbol "★", standing for "units of course weight", and a number indicating the weight of the course as used in calculating grade-point averages.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: The first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. If the course is a single term course, the term in which it is offered is mentioned.

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors concerned and all further details must be sought from the Faculty of Library and Information Studies.

Physical Requirements for University Courses

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the Department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

114.2 The MLIS Program

The following courses are required for both the thesis and course-based routes of the MLIS program: LIS 501, 502, 503, 504, 505, 506, and one of LIS 412, 511, 512, 513, 514, 515, 516, 517, 518, 519. LIS 501, 502, 503, and 504 are prerequisites to the rest of the program. In the thesis route, THES 900 or THES 999 is required; in the course-based route LIS 900 is required. Not all the courses listed in the Calendar will be offered in any one year.

LIS 412 Storytelling
★3 (either term, 3-0-0). To examine the past and present forms of storytelling, including the oral tradition, the function of the storyteller, the selection of material and the techniques of telling stories and listening to stories.

LIS 432 Survey of Children's Literature
★3 (either term, 3-0-0). A survey of literature for children from infancy through the elementary school years. The emphasis is on books currently read by children. Principles of evaluation, children's reading needs and interests, and current issues and trends will be examined. This course is not open to MLIS students.

LIS 501 Introduction to Library and Information Studies
★3 (first term, 3-1s-0). To provide an overview of the historical, current and potential roles of library and information professionals in western society. To introduce the study of environmental factors affecting library and information services. Economic, social, legal, political, technological and professional factors will be examined. Required course.

LIS 502 Organization of Knowledge and Information
★3 (first term, 3-1s-0). To introduce students to the organization of knowledge and information, including bibliographic control, classification, indexing and abstracting. Required course.

LIS 503 Library Materials and Information Services
★3 (first term, 3-1s-0). To understand the function of information services programs, to examine policies designed to build materials collections in support of such programs, and to become familiar with examples of major reference/information sources. Required course.

LIS 504 Management Principles for Library and Information Services
★3 (first term, 3-1s-0). To introduce principles of management applicable to the organization of library and information services. Required course.

LIS 505 Research Methods for Library and Information Studies
★3 (second term, 3-0-0). To develop an ability to understand the nature of research and its methodologies and techniques used in library and information studies. Required course.

LIS 506 Introduction to Automation and Bibliographic Information
★3 (second term, 3-0-1). To provide an introduction to, and an understanding of the general field of automation and its implications for library and information services. Required course.

LIS 511 Adult Materials
★3 (second term, 3-0-0). To develop an awareness of the recreational, educational and professional library and information needs of adults (including the less specialized needs of the high school, college and university communities), and of the materials available to meet the needs.

LIS 512 Information Resources in the Social Sciences
★3 (either term, 3-0-0). To understand the nature, function and communication patterns of the social sciences and to be able to select, organize and effectively use relevant information resources.

LIS 513 Resources in the Humanities and Fine Arts
★3 (second term, 0-3s-0). To examine and to develop an understanding of the nature of the humanities and fine arts, and of the types of library materials and information services necessary to support scholarship, research, and general information-seeking in these disciplines.

LIS 514 Scientific Information Resources
★3 (second term, 3-0-0). To introduce the nature of science and its information resources.

LIS 515 Survey of Materials for Young Adults
★3 (either term, 3-0-0). To survey print and non-print materials for young adults of junior and senior high school age. To examine young adults' reading interests and current trends and issues in young adults' literature.

LIS 516 Canadian Materials
★3 (second term, 3-0-0). To survey, analyze, and examine print and non-print materials available for building Canadiana collections, and to consider issues in the development of such collections.

LIS 517 Government Publications
★3 (either term, 3-0-0). To examine Canadian government publications and to investigate methods of control and dissemination as a model applicable to all political jurisdictions.

LIS 518 Information Materials for Children and Young Adults
★3 (first term, 3-0-0). To survey information materials that children and young adults use and the ways in which these materials are used. Prerequisite: Either LIS 432 or 515.

LIS 519 Introduction to Children's Literature
★3 (second term, 3-0-0). An introduction to literature for children from infancy through the elementary school years. Principles of evaluation and selection will be developed, and current issues and trends will be examined.

LIS 531 Collection Management
★3 (first term, 3-0-0). To develop an analytical approach to collection management including the acquisition, review and evaluation of collections.

LIS 532 Cataloguing and Classification
★3 (either term, 3-0-0). To prepare students to construct a catalogue and to describe and classify various forms of materials for either manual or computerized situations.

LIS 533 Advanced Cataloguing and Classification
★3 (second term, 3-0-0). To prepare students to specialize in cataloguing and classification work in a traditional or computerized setting. Prerequisite: LIS 532.

LIS 535 Indexing and Abstracting
★3 (either term, 3-0-0). To examine the principles and practice of indexing and abstracting in a traditional or computerized centre.

LIS 536 Advanced Information Services
★3 (either term, 3-0-0). To consider the varied means used to disseminate information, and to become familiar with more advanced types of information sources. There is a $50 fee for taking this course.

LIS 537 Management of Information Technology
★3 (first term, 3-0-1). To identify areas of library and information operations suitable for computer applications and to evaluate them critically. Emphasis on: microcomputer applications, information technology such as CD-ROM, software evaluation, and installation.

LIS 538 Automation in Libraries and Information Centres
★3 (first term, 3-0-1). To develop students' ability to design and implement typical automated procedures related to library and information studies. Includes computer programming, file organization, and data structures.

LIS 540 School Media Centres
★3 (either term, 3-0-0). To examine the concept and organization of media resource centres in elementary and secondary schools. Prerequisite: Teaching Certificate.

LIS 541 Public Libraries
★3 (second term, 3-0-0). To develop an understanding of public libraries and public library systems, their structure and management.

LIS 542 Academic Libraries
★3 (second term, 2-1s-0). To develop an understanding of the nature and functions of university, community college, and technical college libraries.

LIS 543 Special Libraries and Information Centres
★3 (second term, 3-0-0). To develop an understanding of the special libraries and information centres, their purpose, structure and management with an emphasis on service.

LIS 544 Special Collections Librarianship
★3 (second term, 3-0-0). To develop an understanding of the nature and importance of special collections in libraries, and to consider primary aspects of the administration of such collections.

LIS 545 Management of Human Resources in Library and Information Services
★3 (either term, 3-0-0). To introduce the field of personnel management as an area of critical importance.

LIS 546 Marketing Library and Information Services
★3 (either term, 3-0-0). To develop an understanding of the principles of marketing and public relations for nonprofit organizations with an emphasis on library and information services.

LIS 547 Financial Management of Library and Information Services
★3 (second term, 3-0-0). To provide the student with a basic understanding of trends and issues in the financial management of libraries and information services as an integral part of the planning and political process.

LIS 548 Library Services to Children and Young People
★3 (second term, 3-0-0). To develop a knowledge of the principles and practices of programming library services for children and young adults. Prerequisite: One of LIS 432 or 515.

LIS 581 Bibliography: Systematic, Historical, Analytical and Descriptive
★3 (second term, 0-3s-0). To study the field of bibliography from intellectual to physical aspects affecting the transmission of the text. Prerequisite: LIS 586.

LIS 582 Contemporary Issues in Library and Information Studies
★3 (first term, 0-3s-0). To consider new and continuing topics of concern or debate in the library and information professions and how they influence information attitudes and programs.

LIS 583 Comparative Librarianship
★3 (first term, 0-3s-0). To develop an understanding of the nature of comparative librarianship as a discipline, and to enable the students to apply principles to practice.

LIS 584 Library and Information Systems and Networks
★3 (first term, 3-0-0). To develop a basic understanding of library cooperation and the management of systems and networks.

LIS 586 History of the Book
★3 (first term, 3-0-0). To describe the historical, esthetic and economic bases of the book and its role in the recording and preservation of information and ideas.

LIS 587 Library Buildings
★3 (first term, 3-0-0). To study various types of library building needs, the involvement of librarians and architects in the planning process, and various contemporary building styles.

LIS 588 Communications
★3 (second term, 3-0-0). To develop an understanding of the communication process and the role of librarians and information professionals.

LIS 591 Publishing
★3 (either term, 3-0-0). To examine the organized business of writing, manufacturing and marketing books and other media.

LIS 593 Archives Administration
★3 (either term, 3-0-2). To develop an understanding of archival records and their role in the preservation of information resources.

LIS 594 Records Management
★3 (either term, 3-1s-0). To develop an understanding of records management.

LIS 597 Advanced Research Methods for Library and Information Studies
★3 (first term, 0-3s-0). In-depth examination of research methodologies relevant to the field of library and information studies and to the research interests of students pursuing doctoral programs, thesis-route master's programs, or other advanced projects.

LIS 598 Special Topics
★3 (either term, 3-0-0). A current topic of significance to, or a special aspect of library and information studies may be examined as demand and resources permit.

LIS 599 Directed Study
★3 (either term, 0-3s-0). To assist students in further study of special topics and issues based on knowledge acquired in previous courses or on significant prior experience. Topic to be approved by the Faculty. Prerequisite: LIS 505.

LIS 900 Project. For students in the course-based route. Topic to be approved by the Faculty. Prerequisite: LIS 505.

THES 900 Thesis. Topic to be approved by the Faculty. Prerequisite: LIS 505, 597.

THES 999 Thesis. Topic to be approved by the Faculty. Prerequisite: LIS 505, 597.

114.2.1 Cognate Courses in Education

The following courses in the Elementary Education Department of the Faculty of Education are also available as part of the MLIS program:

ED ES 443 School Librarianship
★3 (first term, 3-0-0). Introduction to the philosophy and administration of school library programs. Prerequisite: Successful completion of practicum requirements or teaching experience.

ED ES 541 School Library Collection Development
★3 (either term, 3-0-0). Prerequisite: ED ES 443 or consent of Department.

ED ES 543 School Library Programs
★3 (second term, 3-0-0). Focus on cooperative planning and implementation of school library programs. Prerequisite: ED ES 443 or consent of Department.

ED ES 546 School Library Information Materials
★3 (either term, 3-0-0). Prerequisite or corequisite: ED ES 443 or consent of Department.

ED ES 547 Organization of School Library Materials
★3 (either term, 3-0-2). Prerequisite or corequisite: ED ES 443 or consent of Department.

ED ES 548 Directed Study in School Library Research
★3 (second term, 3-0-0). Prerequisite or corequisite: ED ES 443 and 543 or consent of Department.

121.1.21 Additional Members of Faculty Council

President and Vice-Chair
P Davenport, PhD

Representatives
GA Chambers (Faculty of Science)
CR James (Vice-President Research)
RE Moskalyk (Dean of Pharmacy)
MJ Wood (Dean of Nursing)
M Piper (Dean of Rehabilitation Medicine)
LR Ohlhauser (Registrar, College of Physicians Surgeons)
RA Burns (Alberta Medical Association)
S Chetner (Medical Librarian)
J Turc (Alberta Cancer Board)
M Spence (Alberta Heritage Foundation for Me Research)
L Evenson (Charles Camsell Hospital)
ALA Field (Cross Cancer Institute)
JG Read (Edmonton General Hospital)
DC Perry (Misericordia Hospital)
T Noseworthy (Royal Alexandra Hospital)
PBR Allen (University of Alberta Hospitals)
D Schurman (University of Alberta Hospitals)
DM Paton (Faculty of Dentistry)
JG Purdell-Lewis (Glenrose Rehabilitation Hospital)
R Wensel (University of Alberta Hospitals)

Registrar of the University
BJ Silzer, MEd

121.2 General Information

The Faculty of Medicine of the University of Al was established in 1913 and until 1922 conduct three-year undergraduate medical program in the l medical sciences.

In 1923 a full program of clinical instruction b and the first Doctor of Medicine degrees were awa in 1925.

The Faculty of Medicine conducts the follo programs:

(1) fully accredited four year program leading t degree of Doctor of Medicine. At least two medical years at university are required b admission to this program.

(2) A program whereby students in the MD pro who fulfill specified requirements in research receive the degree of Doctor of Medicine Honors in Research."

A four-year program leading to the degree of Bachelor of Science in Medical Laboratory Science, which may be entered at the matriculation level.

A one-year program to be taken in addition to the MD program leading to the degree of Bachelor of Science in Medicine.

A program whereby students in the MD Program who fulfill specified requirements may be awarded the Bachelor of Medical Science degree at the conclusion of their second year in the MD program.

At the graduate level, programs leading to the degree of Master of Science or Doctor of Philosophy. Also programs leading to the degree of Master of Health Service Administration or the Diploma in Health Service Administration.

Programs leading to eligibility for specialist qualification by the Royal College of Physicians and Surgeons of Canada are offered in cooperation with affiliated hospitals in all clinical specialties.

An extensive program of continuing medical education for physicians practising in Northern Alberta.

Details of each of these programs are outlined in 3 below.

1.3 Affiliated Hospitals and Institutions

1.3.1 Affiliated Hospitals

The primary teaching hospitals of the Faculty of dicine are the University of Alberta Hospitals which located on the university campus.

The University has formal Affiliation Agreements h six city hospitals: Royal Alexandra Hospital, Gen- l Hospital (Grey Nuns) of Edmonton, Misericordia spital, Glenrose Provincial Hospital, Charles Camsell vincial Hospital and Cross Cancer Institute. These spitals actively participate in the undergraduate and duate teaching programs of the Faculty. The hospi- are represented on the Council of the Faculty of dicine and the Faculty has a representative on the verning Board of each hospital.

By special arrangement and affiliation agreement ne undergraduate and graduate training is conducted the Alberta Hospital, Ponoka; the Alberta Hospital, monton; St. Mary's Hospital, Camrose; Canmore General spital, Canmore; and the Red Deer General Hospital, d Deer.

1.3.2 Northern Health Services Program

Through an affiliation with the Department of Health he Government of NWT a regular rotation of clinical ulty and residents to Inuvik and the Arctic coastal as (Mackenzie Area Ambulatory Program) is main- ed. The Mackenzie Area Ambulatory Program covers mbridge Bay and the surrounding settlements of Gjoa ven, Spence Bay, Pelly Bay, Coppermine, and Holman and.

1.3.3 The University of Alberta — Family Practice Units

Ambulatory patient facilities, specifically designed undergraduate and graduate education in family ctice, are located at the Grey Nuns, Royal Alexandra, d Misericordia Hospitals. These "Family Clinics" pro- e medical and other health science students with an portunity to participate in the provision of comprehen- e and continuing health care to a representative tion of the community under the supervision of mbers of their respective faculties.

1.3.4 The University of Alberta Surgical-Medical Research Institute

The University of Alberta Surgical-Medical Research titute offers facilities including operating room serv- s for large and small animals, and a Histology and chemistry laboratory for members in the Faculty of dicine and other faculties on campus. Scanning and nsmission EM facilities are also located in the Surgi- -Medical Research Institute. Projects are conducted under the supervision and direction of members of the Faculty. The Institute offers four postgraduate courses, three of which are prerequisites for the MSc and PhD degrees in experimental surgery, as well as a microvascular surgery course.

121.3.5 The University of Alberta Cancer Research Group (McEachern Laboratory)

The McEachern Laboratory was a gift to the University of Alberta by the Canadian Cancer Society (Alberta Division). The Laboratory, which occupies 10,000 net square feet in the Medical Sciences Building, accommodates the laboratory programs in several areas of cancer research supported by the National Cancer Institute of Canada, the Medical Research Council, and the Alberta Heritage for Medical Research. Senior members of the McEachern Laboratory hold academic appointments in the Department of Biochemistry. Graduate students are accommodated in the Laboratory through departmental affiliations of academic staff members and opportunities for postdoctoral training are available.

121.4 Internship and Licensure

Internship

Medical graduates of the University of Alberta complete a clinical clerkship (student internship) meeting the requirements of the Federation of Provincial Licensing Authorities. Students graduating in 1975 and subsequently and seeking licensure in Alberta must comply with the requirements of the College of Physicians and Surgeons of Alberta by completing two years of appropriate postgraduate training.

Internship placement is usually arranged through the Canadian Intern Matching Service. Details are provided to final year students.

Educational Register

While taking a student internship, medical students are required to be registered on the Educational Register of the College of Physicians and Surgeons of Alberta. This registration provides limited medical practice privileges in the hospital to which the student is assigned and for the period of assignment only.

All postgraduate students in the Province of Alberta are required, by provincial legislation, to be registered on the Educational Register of the College of Physicians and Surgeons of Alberta. This registration permits the practice of medicine within the hospital designated on the registration. Graduates in residency programs in Alberta who are not licensed registered practitioners in the province are similarly required to be registered on the Educational Register. Application should be made to the Registrar, College of Physicians and Surgeons of Alberta 9901-108 St., Edmonton, Alberta, T5K 1G9.

Requirements for Licence to Practice

After graduates of the University of Alberta have satisfactorily completed an appropriate period of postgraduate training as determined by the Provincial Licensing Authority they are entitled to be licensed by the College of Physicians and Surgeons of this province and are eligible for provincial registration. To become licensed in any other province it is necessary to have passed the qualifying examinations of the Medical Council of Canada and to have met the educational requirements of the licensing body of that province.

Medical Council of Canada Examinations

The qualifying examinations of the Medical Council of Canada are conducted at the University of Alberta at times specified by the Council. Students in the fourth year usually write these examinations prior to graduation. A certificate of eligibility from the College of Physicians and Surgeons of Alberta must be presented when making application to sit these examinations.

Registration for Practice

The holder of a licence to practice must register with the professional organization in the particular province concerned. In Alberta, this is the College of Physicians and Surgeons of the Province of Alberta. For information regarding provincial registration contact the Registrar of the College, 9901-108th Street, Edmonton, Alberta, T5K 1G9. Students who intend to practice in any other province should secure information from the provincial body concerned as early as possible in their medical program so that they may know of any special educational conditions which must be fulfilled.

121.5 Finance

Information on fees charged to students in the Faculty of Medicine is given in §15. In addition, medical students spend approximately $2,000.00 each year for books, supplies, and instruments. Fourth-year medical students pay an examination fee of $500.00 to the Medical Council of Canada in January of their final year.

Some remuneration is presently given to final year MD students by the Department of Hospitals and Medical Care of the Government of Alberta.

Details of scholarships and other forms of financial assistance available to medical students will be found in the Awards section of this Calendar, §§223 to 228 or by contacting the Faculty Student Affairs Office, 2J211 WC Mackenzie Health Science Centre (phone 492-6350).

121.6 Society Memberships

The Medical Students' Association is the officially recognized organization of medical students. It provides many social, recreational, and cultural activities for medical students and sponsors several important community projects. It is authorized to collect a membership fee from each student. The Association provides the following annual awards: The Outstanding Teacher Awards presented to one teacher for excellence as an educator in each of the Phase I, II, and III programs and similarly to one resident; the Shaner Award presented to a graduating student for exceptional contributions to the work of the Association; the Mackenzie Award presented to a graduating student who is judged to be most proficient in clinical skills; and the Fried Award presented to the Phase III student who composes the best written case presentation in Paediatrics. Some of the projects currently sponsored by the MSA and run by medical students are: the University of Alberta branch of Shinerama, a program dedicated to raising money for Cystic Fibrosis research; the Courtyard Concert Series, a noon-hour classical concert series for University Hospital patients, on a grand piano donated by the MSA; and IATROS, a student medical journal dedicated to publication of student articles and to increasing communications between present students and alumni. Many social activities and sports events are also planned throughout the year.

The Medical Alumni Association is an organization of all graduates in Medicine from the University of Alberta. The Association takes an active interest in the Faculty and provides a limited loan fund for undergraduate and graduate students. In addition the Association participates in a number of awards to students and, from time to time, finances specific projects in the Faculty. The Association meets annually in conjunction with the Alberta Medical Association meeting.

122 Admission and Academic Regulations

122.1 Admission

122.1.1 MD Program

The Faculty of Medicine at the University of Alberta offers a four-year program leading to the degree of Doctor of Medicine. Although applicants differ in terms of academic talents and interests, there are a number of common factors relating to the admissions procedure with which those contemplating application should be familiar. Since the number of applicants greatly exceeds the number of places available, a careful process of selection is carried out as described below.

(1) **English Language Proficiency**: English is the language of instruction in the Faculty of Medicine. Good oral communication in English is essential in dealing with patients, physicians, nursing staff, and paramedical personnel. Therefore, regardless of country of origin or of citizenship status, applicants will be required to demonstrate proficiency in the English language as a prerequisite to admission as outlined in §13.2.2 of the University Calendar.

In addition to the University's requirement for English proficiency, all applicants to the Faculty of Medicine who are required to write the TOEFL must also submit the results of the Test of Spoken English and achieve a minimum score of 200.

For further information contact the Examinations and Timetabling Division, Office of the Registrar, Administration Building, University of Alberta, Edmonton, Alberta, T6G 2M7. These examinations, administered by the Educational Testing Service, Princeton, New Jersey, can be written at various sites on several different occasions each year. Applicants must allow sufficient time for the results to reach the Faculty of Medicine by December 31.

(2) **Quotas**: Currently there is a quota of 118 places in Medicine. Two additional positions over quota may be available for qualified aboriginal students (see below).

In quota programs the University's objective is to have, where possible, 5% of the students on student authorization (i.e. foreign students) and 10% non-Alberta Canadians, provided that no one is admitted who is less qualified than any Alberta resident who is denied admission. The remaining minimum of 85% of the positions are taken by Albertans.

A resident of Alberta is defined as a Canadian citizen or permanent resident (landed immigrant) who has been domiciled in the province of Alberta or the Yukon or Northwest Territories for at least one continuous year immediately prior to the first day of classes of the session in which admission is sought.

The one-year residence period shall not be considered broken where the Admissions Committee is satisfied that the applicant was termporarily out of province on vacation, in short term employment, or as a full-time student.

(3) **Aboriginal Students**: The Faculty of Medicine may provide up to two positions over the regular quota of 118 for the MD program to aboriginal applicants. For clarification, it is noted that students who are of aboriginal ancestry within the meaning of the Constitution Act, 1982, Section 35.(2) will be considered in this category.

Candidates will be subject to normal minimum admission requirements as outlined in §121.1(6) and approval by the Faculty of Medicine Admissions Committee. If there are no qualified aboriginal students in any given year, these positions will not be allocated to other applicants.

Aboriginal student applicants and prospective pre-medical students are encouraged to contact the Coordinator, Native Health Careers, Faculty of Medicine for individual counselling and career planning.

(4) **Application Deadlines**: During the university year, a student must file an application for admission to medicine on the assumption that he/she will satisfactorily complete the academic requirements outlined below no later than the Spring Examination of the year for which application is made. Applications must be submitted no later than **November 1** of the year prior to that for which admission is sought.

(5) **Length of Program**: Applicants should be aware of the total length of time required to obtain a medical degree and following this a licence to practice — the usual time is a minimum of two years of pre-medical (normally four years pre-medical), four years of medical studies at which point the MD degree is awarded, and then a minimum of two years of prelicensure internship for licensure in Alberta.

(6) **Requirements for Admission**

a. **Subject Requirements**

All students considering medicine must register in a degree program and maintain good standing in that program. The student must take courses in the following subjects: Inorganic Chemistry (Note: CHEM 100 or CHEM 104 at the University of Alberta **will** be recognized for admission purposes), Organic Chemistry, Physics, Biology, English, and Statistics. (Note: BIOL 110, PHYS 169 and 171, and Astronomy at the University of Alberta will **not** be recognized by the Faculty of Medicine as prerequisites for admission purposes.) Students must have six units of course weight in each of the above subjects with the exception of Statistics where three units of course weight is acceptable. To be considered for admission, students must normally have achieved an average of 7.0 (on University of Alberta 9.0 scale) in two full years of study (the equivalent of 60 units of course weight).

Students are encouraged to obtain a baccalaureate degree prior to admission, but may apply after two or three years in a degree program.

To be considered for entry after only two or three years at university or college, a student must have all the prerequisites as well as exceptional academic (minimum GPA of 8.0) and exceptional personal qualifications. It is recommended that students in the Faculty of Science at the University of Alberta who wish to be considered for this early admission to the Faculty of Medicine be enrolled in an honors program.

Students should ensure that the above prerequisites are completed and that each year consists of a minimum of 30 units of course weight to comply with the best two-year rule (see above).

Students are normally required to conform to the stated requirements as the first year of the MD program is structured on the assumption that all the required material has been covered, and that there will neither be time nor opportunity within that year to make up deficiencies. In addition, students are encouraged to have taken an introductory biochemistry course prior to entry into the MD program.

Students taking the above courses must be registered, as noted previously, in a degree program and are therefore subject to the rules and regulations of that particular Faculty. There are several departments in Science, as well as other Faculties, in which two pre-medical years containing the prerequisite subjects count for full credit toward a four-year degree. The student is therefore advised to study the entrance requirements for the Faculty of choice very carefully, paying particular attention to the high school courses needed for entrance into programs that might be chosen in the event that the student is unsuccessful in gaining admission to the Faculty of Medicine. Transcripts must be received no later than January 31, with the exception of second and third-year students, whose final transcripts must be submitted by June 15.

b. **Medical College Admission Test**

All applicants are required to take the MCAT. This test is conducted in Edmonton by the Examinations and Timetabling Division of the Registrar's Office in the spring and fall of each year and in other test centres. An application to take this test must be sent directly to the American College Testing Program. The MCAT must have been written in the last two years and, at the latest, the autumn prior to admission. The applicant must direct the American College Testing Program, who score the MCAT, to forward results directly to the Faculty of Medicine or alternatively deliver the results by mail or in person to the Faculty of Medicine by **December 31**.

c. **Interview, Autobiographical Essay, and Letters of Reference**

Qualified applicants will be required to present themselves for a personal interview. Closed letters of reference and an autobiographical essay will also be required. Failure to provide these by **December 31** may result in closure of the applicant's file.

(7) **Selection Factors**: Selection of students for admission to the MD program follows guidelines established by the Board of Governors of the University of Alberta, General Faculties Council, and the Faculty Council of the Faculty of Medicine, and is the responsibility of a standing committee of Faculty Council - the Committee on Admissions.

Selection by the Committee on Admissions takes into account the students' grade point average from their best two full years of study (30 units of course weight each year), the grade point average from their prerequisite courses, MCAT scores, interview rating, letters of reference, and autobiographical essay ratings.

The lack of essential personal qualities in an applicant may be deemed sufficient cause for refusal of admission.

There is no discrimination with respect to the sex or age of the applicants in the selection process.

(8) **Medical Examination**: Students admitted to the MD program are required to present a certificate of satisfactory medical examination from a physician of The University of Alberta Health Services as part of the faculty requirements.

(9) **Deposit**: Applicants will be advised of the decision of the Admissions Committee in the spring. Successful applicants, upon acceptance of a place in the first year class, are required to send a deposit of $50.00 to the Comptroller of the University of Alberta. This deposit will be credited to tuition fees when the student registers. Should a candidate withdraw after accepting a position, this deposit will be forfeited.

An admission or readmission decision is normally valid only for the session or term for which it is approved.

121.1.2 Combined MD/PhD Program

A program is available for highly qualified students strongly motivated toward a career in medical research. The program, which is available to all individuals who are admitted to medical school, requires approximately seven years of study and leads to the acquisition of both an MD and PhD degree. Credit for the possession of a PhD is normally granted toward residency when applying to the Royal College in most, if not all, of the specialty fields and can save up to a year.

For further information on this program contact the Associate Dean (Research), Faculty of Medicine, University of Alberta, 2J2 WC MacKenzie Health Sciences Centre, Edmonton, Alberta, T6G 2R7.

122.1.3 BSc Program in Medical Laboratory Science

The matriculation requirements for admission to the BSc program in Medical Laboratory Science are set out in §§13.2 and 13.4.10.

Limited space is available for transfer into the second year of the program from other faculties at the University of Alberta.

Prospective students holding a current registration with the Canadian Society of Laboratory Technologists may be given advanced credit. Further information may be obtained from the Division of Medical Laboratory Science, Clinical Sciences Building, University of Alberta.

English language proficiency requirements are the same as for the MD program. See §121.1.1(1).

Medical laboratory science is not recommended as a pre-medical program. See pre-professional programs listed in this Calendar §193.28.

122.2 Academic Standing and Graduation

122.2.1 MD Program

(1) The Council of the Faculty of Medicine approves the principle that the means of assessing a student's progress and determining a student's grades may vary from one department to another in accordance with the nature of the course. Factors other than examination results may be used to a variable extent by instructors in determining grades but students will be informed at the commencement of the course how grades are to be determined.

(2) The Council of the Faculty of Medicine has established a Student Evaluation Board, consisting of five faculty members and four students, responsible for all student evaluation procedures and for the coordination of examinations.

(3) Students are advised each year of the procedures to be used in their evaluation, the determination and reporting of their grades, and the standards required by the Faculty. Students are also advised of the procedures for appeal established within the Faculty and the University.

(4) Students are awarded a grade point average at the conclusion of each phase of the program on the basis of their performance in course examinations held during the phase and in Phase II and III of the final comprehensive examination.

(5) Students with a grade point average of less than 5.0 will not be permitted to proceed in the MD program except at the discretion of the Faculty.

(6) **Reexaminations**

a. The student who is granted reexamination privileges will be expected to show marked improvement over previous performance and will be expected to obtain a GPA of 5.5 or greater.

b. If a reexamination is approved, satisfactory completion of a remedial program may be required before taking the reexamination.

c. Reexamination privileges may apply to full comprehensive examinations or to individual courses. A student neglecting to take a reexamination will not be allowed to continue in Medicine.

No student will be allowed to proceed to any subsequent year of the medical program unless he or she has completed all the work of the previous year.

No student will be allowed to repeat the first year of the medical program except in special circumstances approved by the Faculty.

A student permitted to repeat a failed year who fails to obtain a satisfactory record in the first term of that year will be required to withdraw from the Faculty.

) Except in very unusual circumstances, a student who is repeating a year will be required to withdraw unless a grade point average of at least 5.5 is obtained on the work of the repeated year.

) Any student whose work, or performance, is deemed unsatisfactory will be required to withdraw from the Faculty of Medicine.

) A student whose performance during a student internship is deemed to be unsatisfactory will be required to satisfactorily complete a remedial period of training in that discipline or may be required to withdraw from the Faculty.

2.2.2 BSc Program in Medical Laboratory Science

Promotion in the Medical Laboratory Science program is dependent on passing grades in all subjects of the previous year with a minimum grade point average of 5.5 as well as the following requirements:

st year:
tudent must obtain a minimum average of 5 in the nbined grades for CHEM 100, 160, and a grade of 5 ILSCI 191.

cond Year:
tudent must obtain a minimum grade of 5 in each of IID 361, MLSCI 230, 250 and 260.

ird Year:
tudent must obtain a minimum grade of 5 in MLSCI), 330, 340, 350, 360, and 370.

urth Year:
tudent must obtain a minimum grade of 5 in MLSCI and one of MLSCI 409 or MMID 410.

The quota for first year students is larger than the quota for second year students. There is an attrition rate built in. Therefore promotion from first to second year is not always guaranteed by obtaining a minimum promotion criteria in first year.

Reexamination: A student in the Medical Laboratory Science program may be granted a reexamination at the discretion of the Divisional Revision Committee. Normally the following guidelines apply:

a. The student must be deemed to have a high probability of success in taking a reexamination. Such recommendations shall only be given in those instances in which the student's performance throughout the year was satisfactory but circumstances were present which led to a poor performance in the final examination. This decision is made by the Director on the recommendation of the course instructor.

b. The student's overall GPA, including the course in which the reexamination is requested, is 5.5 or greater. The grade for the course to be reexamined must be a 3.

c. The course load for the session was at least 27 credits.

d. A student will be eligible to write only one reexamination per session.

The weight of the reexamination will be the same as weight of the original final exam. The final grade r reexamination will appear on the transcript and will used in the calculation of all averages.

For further information refer to §16.5.4 in the endar.

2.3 Appeals and Grievances

A student seeking a review of a Faculty decision on demic standing should first consult with the Dean or Associate Dean for Undergraduate Education. In the nt that the matter still remains unsolved, the student / appeal formally in writing to the Academic Appeals Committee, a committee appointed by the Medical Faculty Council. Full details on Appeal Procedures may be obtained from the Student Affairs Office, Faculty of Medicine, 2J211 WC Mackenzie Health Sciences Centre.

In the event that the matter still remains unsolved, the student may, in accordance with the guidelines of General Faculties Council, take the appeal to the GFC Academic Appeals Committee, by delivery to the Secretary of GFC of a written statement which must include full particulars and the relief requested (See §16.8 of the University Calendar).

Appeals on matters of grades should be discussed with the course coordinator and Department Chair. If resolution is not effected, the appellant should consult with the Associate Dean for Undergraduate Affairs, and may initiate an appeal to the Faculty Academic Appeals Committee, whose decision is final.

Appeals on grievances or other matters should be discussed with the department concerned or the appropriate Associate Dean for advice.

123 Programs of Study

123.1 The Degree of MD

123.1.1 General Information

The four-year program leading to the MD degree is conducted in three phases, each under the direction of an interdepartmental coordinating committee.

Phase I
An academic year (35 week) program in the basic medical sciences with an introduction to clinical medicine. Coordinator: Dr. DW Spady.

Phase II
An academic year (35 week) program in clinical and related basic medical sciences taught in a body system format in the context of the mechanisms of human disease. Coordinator: Dr. S Aaron.

Phase III
The final two years is a continuous program which includes a student internship of not less than 56 weeks and an elective and selective program of approximately 14 weeks developed by each individual student. A wide range of approved elective programs in all aspects of medical science, medical practice, and related areas is available.

During Phase III each student is entitled to a four week holiday period. Coordinator: Dr. PM Crockford.

123.1.2 Phase I (First Year)

		Hours
ANAT 410	Embryology	24
ANAT 411	Preclinical Anatomy	168
ANAT 413	Human Cytology, Histology and Organology	90
BIOCH 412	General Biochemistry	96
CO ME 411	Community Medicine	25
IMMUN 411	Immunology	32
MED 410	Ethics	7
MED 411	Clinical skills	95
MED 413	Nutrition	36
PATH 411	General Pathology	41
PMCOL 411	Principles of Pharmacology	72
PHYSL 411	Human Physiology	136

123.1.3 Phase II (Second Year)

	Hours
MED 421 (Mechanisms of Disease)	
Medically oriented subjects	
(a) Cardiology	48
(b) Clinical Skills	38
(c) Endocrinology	42
(d) Gastroenterology	50
(e) Growth and Development	34
(f) Hematology	52

MED 447	Electives	10
MED 445	Selective	4
F MED 446	Selective	4

123.2 Honors in Research Program

This program is designed for the student who is looking for in-depth exposure to research during medical school. Each candidate is required to spend a minimum of 32 weeks of active involvement in a research project during the four years of medical school under the supervision of a staff member. The program is monitored by the PhD in Medical Sciences Committee. Successful students receive recognition on their transcripts and medical diplomas. For information please contact the Associate Dean (Research), 2J2.00 WC Mackenzie HSC.

123.3 The Degree of BSc in Medical Laboratory Science

123.3.1 General Information

The Faculty of Medicine offers a four-year degree program in Medical Laboratory Science, intended to qualify selected applicants for a career as laboratory supervisors or senior technologists in hospitals or medical science laboratories. The first, second, and fourth years of the program are regular university years. The third year, beginning approximately May 1, consists of a twelve-month period of practical hospital laboratory training under the direct supervision of the Faculty of Medicine. Students will receive some remuneration from the University of Alberta Hospitals during the third year of the program. At the end of this year, they are eligible to take the initial certification examinations with the Canadian Society of Laboratory Technologists.

Note: Because individuals working in hospital laboratories run some risk of infection from materials which they will be handling, all students in the Medical Laboratory Science program must take a series of immunizations approved by the office of the Dean of Medicine before beginning the second year.

123.3.2 Program of Courses

		First Term Hours	Second Term Hours
First year			
CHEM 100	Chemistry	3-1s-3	3-1s-3
CHEM 160	Organic Chemistry	3-0-3	3-0-3
GENET 197	Heredity	3-0-3	—
PHYSL 161	Elementary Physiology	3-0-1	3-0-1
MICRB 193	General Microbiology I	—	3-0-3
MLSCI 191	Introduction to Laboratory Medicine	—	3-0-3
Humanities Option		3-0-0	or 3-0-0

Second year			
MMID 361	Pathogenic Bacteriology	3-0-3	3-0-3
MLSCI 230	Hematology	3-0-6	3-0-6
MLSCI 250	Introduction to Histopathology	3-0-3	—
MLSCI 260	Clinical Biochemistry	3-0-3	3-0-3
An Approved Science Option		—	3-0-0
Humanities Option		3-0-0	3-0-0
Third year			
BIOCH 301	General Biochemistry	3-0-0	3-0-0
MLSCI 320	Report Writing/Teaching Assignment		50 hours
MLSCI 330	Clinical Hematology		clinical rotation
MLSCI 340	Clinical Microbiology		clinical rotation
MLSCI 350	Histopathology		clinical rotation
MLSCI 360	Clinical Biochemistry		clinical rotation
MLSCI 370	Transfusion Medicine (see Note A)		clinical rotation
Fourth year			
MLSCI 401	Medical Laboratory Science	3-0-6	3-0-6
One of MLSCI 409, or MMID 410		—	0-0-3
or MLSCI 490		—	0-0-6
An approved MLS option* (See Note B)		3-0-0	3-0-0
MLSCI 480	Molecular Genetic Approaches to the Study and Diagnosis of Disease	3-0-0	
An approved Science option* (See Note C)		3-0-0 or	—
An approved Arts option		3-0-0	3-0-0
An approved Option		3-0-0 or	3-0-0

*A list of approved Science options will be made available to students prior to registration.

Note A: During the third-year clinical rotation, students will be assigned to hospital laboratories approved for this purpose by the Council of the Faculty of Medicine.

Note B: The MLS option must be two of the following MLS related courses: MLSCI 430, 460, and MMID 426, 427, or 505.

Note C: Three units of course weight in a science option are required if a three-units-of-course-weight project is attempted. Zero units of course weight in a science option are required if a six-units-of-course-weight project is attempted.

123.4 Proposed Honors in Research Program

This proposed program will be designed for the student who is looking for in-depth exposure to research during Medical Laboratory Science Education. Medical Laboratory Science students will be required to spend one summer (16 weeks) plus complete a six units of course weight research course offered by the Division. All students will be under the supervision of a staff member. The program will be monitored by the PhD in Medical Sciences Committee. Successful students would receive recognition on their transcripts and degrees through the rotation, "With Honors in Research." For information, please contact the Director, Division of Medical Laboratory Science, B-117 Clinical Sciences Building.

123.5 The Degree of BSc in Medicine

A one-year program of study in a branch of medical science leading to the degree of Bachelor of Science in Medicine may be undertaken either at the completion of the second year of the medical program or following the degree of MD. The work for this degree may be carried out in any department of the Faculty of Medicine, but may not be taken concurrently with any part of the medical curriculum nor by students carrying any conditions in their medical program.

123.6 The Degree of Bachelor of Medical Science

The degree of Bachelor of Medical Science may be awarded to students in the MD program at the end of the second year of that program who have fulfilled the following requirements at this or another University:

First year
Two Science Courses
Three Arts or Science Courses

Second year
Two Science Courses
Three Arts or Science Courses

Third year
First year (Phase I) MD Program

Fourth year
Second year (Phase II) MD Program

Provided that:

(1) None of the courses in the first and second year have been used for credit toward another degree.

(2) The program does not include more than seven junior arts or science courses.

(3) The science courses include:

a. CHEM 100 or 104 or equivalent,

b. CHEM 160 or 260 or equivalent,

c. Two of BIOL 100, GENET 197, or ZOOL 120, or equivalent.

d. PHYS 105 or equivalent for applicants who have credit in Physics 30.

(4) The Science options do not include first-year courses in biochemistry or physiology.

(5) At least the final two years have been taken at the University of Alberta.

(6) A grade point of 4 or better in all courses and a grade point average in each year of at least 5 or equivalent is presented.

(7) Not more than two reexaminations have been written for the purpose of obtaining passing marks or raising the grade point average to the required 5.

123.7 Graduate Studies

123.7.1 The Degrees of MSc and PhD

In the Faculty of Medicine the degree of Doctor of Philosophy is offered either by individual departments or through the inter-disciplinary PhD in Medical Sciences program, both coordinated through the Faculty of Graduate Studies and Research. The departments participating in the interdisciplinary program are Applied Sciences in Medicine, Immunology, Medicine, Paediatrics, Pathology, Psychiatry, and Radiology and Diagnostic Imaging. The Departments of Anatomy and Cell Biology, Biochemistry, Medical Microbiology and Infectious Diseases, Physiology, Pharmacology, and Surgery have their own PhD programs.

All the above-mentioned departments offer programs leading to the Degree of Master of Science.

For further information, see the Faculty of Graduate Studies and Research section of the Calendar or contact the Graduate Student Adviser in the appropriate department at Faculty of Medicine, University of Alberta, Edmonton, Alberta T6G 2R7.

123.7.2 Degree of Master of Health Services Administration

The Department of Health Services Administration and Community Medicine offers a two-year program leading to the degree Master of Health Services Administration. Students may select either a thesis or a non-thesis route to the degree.

The thesis option emphasizes the development of research and planning expertise relevant to efficient and effective delivery of health and social services. The non-thesis option emphasizes the development of administrative expertise relevant to programs and agencies in the health and social services fields.

The MHSA program is acceptable to the Council of the Royal College of Physicians and Surgeons of Canada as a portion of a specialty training program in Community Medicine.

Qualifying Year

The details of a student's course requirements are determined by the faculty of the Department and consideration is given to the student's prior background of course work and experience as well as the student's career plans. The typical Qualifying Year course requirements are as follows:

Required
H S A 400, 401, 420, 430, 431, 450, 470, and 499; plu
one of: H S A 421, 513; plus two of: H S A 435; 460; 47

Note: The department does not require qualifyin students to take courses listed above in which they hav developed competence at least equal to the level o fered in this program as judged by the instructor co cerned.

Summer Period

H S A 499 Field Practicum (four months)

Candidacy Year

Requirements in the candidacy year will vary a cording to the student's interests and needs, as will th selection of either the thesis or non-thesis route. Th focus and variety of course work must represent logically coherent preparation in reference to the st dent's career interests, research plans, and the needs the field. Consideration may be given to modifications the course work outlined below where special circur stances of prior education, work experience, and/ career interests are present.

Thesis Route

In addition to the thesis, students must norma complete two pairs of the courses from the following l one pair of which must be H S A 530/531 or H S A 56 561: H S A 510/610; 530/531; 535/610; 550/551; 5 561; 570/571; 600/601; and 520/610 (if available).

Non-Thesis Route

Normally, non-thesis students must complete one the above pairs of courses plus:

(1) two additional, approved graduate level H S courses (preferably a linear pair);

(2) four additional, approved electives; two of the must be graduate level courses; at least one these should be an H S A course.

(3) H S A 900 Major Paper Project

To complete degree requirements in the short possible time, students should expect to work the major paper or thesis during the May to Aug period. All degree requirements must be complet within four years of the time when the student fi registered as a candidate.

Part-time Master's Degree Non-Thesis Option

Candidates in the Master's program who choos non-thesis option may complete their candidacy requi ments on a part-time basis. Students can be admittec this part-time program following completion of the qu fying year equivalent through the part-time Post Gra ate Diploma Program, through a full-year qualifying y or potentially by completion of a baccalaureate deg in health services administration.

Requirements for Admission

(1) The department's minimum admission requireme are those set out as minimum acceptable standa by the Faculty of Graduate Studies and Resear These include a baccalaureate degree with a gr point average of at least 6.5 on the 9-point grad system in the work of the last two years of univer education at the University of Alberta, or an equi lent qualification from another institution, an TOEFL score of 550 where applicable.

The Department also requires:

a. three letters of reference;

b. Miller Analogies Test (MAT) results;

c. personal curriculum vitae (in addition to vitae form attached to the application fo including copies of any relevant articles student papers;

d. advise regarding any time limitations relatin the application (for example, notice to employ

e. a statement of intent which includes the foll ing information:

1) why the student is interested in the He Services Administration program;

2) career plans upon completion of the gram;

3) a description of the student's employn experience relevant to health and s services administration and;

4) any additional information the student f is pertinent and useful to the Selection C mittee's consideration of the application

f. recommendation to the Dean of the Facult Graduate Studies and Research from the C of the department (following a Selection C mittee review) that the applicant is in al spects acceptable to the department.

Requests for further information and/or application forms should be forwarded to the Department of Health Services Administration and Community Medicine, Faculty of Medicine, University of Alberta, 13-103 Clinical Sciences Building, Edmonton, Alberta, Canada, T6G 2G3.

123.7.3 The Postgraduate Diploma in Health Services Administration

The Department of Health Services Administration and Community Medicine offers a postgraduate diploma in Health Services Administration. The purpose of the diploma is to provide a high quality postbaccalaureate educational experience in health services administration to a larger number of health care personnel than is currently possible within the framework of the Master's program. This course of studies will be of particular interest to health and welfare executives seeking mid-career educational opportunities.

The diploma may be completed on a full-time or part-time basis but must be finished within four academic years of initial registration. It can be completed in one full-time academic year. Normally, only courses taken within the five years prior to application to a Health Service Administration program may be considered for credit toward the diploma course requirements.

Diploma students and graduates may apply for admission to the Master of Health Services Administration program and, if accepted, health services administration courses which have been completed with a grade of 6 or better may be credited towards the qualifying year of the master's degree. Diploma graduates can normally complete the master's program in one year. Any diploma student or graduate intending to apply for admission to the MHSA program must do so by December 1 of the preceding year so that a placement for the field Practicum (H S A 499) may be arranged for the following summer.

Program Requirements

(1) Required courses:
H S A 400 Health and Welfare Delivery Systems, and H S A 401 Problems and Issues in Health and Welfare Delivery Systems;

(2) Eight elective courses at the 400 level or higher:

a. At least six of these electives are to be H S A courses at the 400 level or higher.

b. Of the eight courses, there should normally be two linear pairs. In addition to the apparent linear parts such as HSA 420/421 or 470/471, the following are considered to be linear: HSA 420/513, HSA 450/460, and HSA 435/535.

(3) Transfer Credit and Exemptions:

a. Transfer credit may be recommended for any approved course provided it (a) was not taken for credit toward another earned degree or diploma, and (b) was taken for credit in the previous five years.

b. A maximum of two exemptions will be allowed for prior equivalent coursework.

c. Within the above context, a minimum of six courses in the Diploma program, including courses for which advanced credit is granted, must be taken at the University of Alberta.

d. Normally, only courses taken within the five years prior to admission to the postgraduate diploma program may be considered for credit toward diploma course requirements.

e. Consideration may be given to modifications in the course work outlined above in exceptional circumstances of prior education, work experience, and/or interest.

f. No language other than English is required for the postgraduate diploma.

g. There is no minimum period of residence.

Requirements for Admission

The department's minimum admission requirements are those set out as minimum acceptable standards by the Faculty of Graduate Studies and Research. These include a baccalaureate degree with a grade point average of at least 6.5 on the 9-point grading system in the work of the last two years of the university education at the University of Alberta, or an equivalent qualification from another institution, and a TOEFL score of 550 where applicable.

The Department also requires:

(1) three letters of reference;

(2) Miller Analogies Test (MAT) results;

(3) personal curriculum vitae (in addition to the vitae form attached to the application form), including copies of any relevant articles or student papers;

(4) advise regarding any time limitation relating to the application (for example, notice to employer);

(5) a statement of intent which includes the following information:

a. why the student is interested in the Health Services Administration program;

b. career plans upon completion of the program;

c. a description of the student's employment experience relevant to health and social services administration, and;

d. any additional information the student feels is pertinent and useful to the Selection Committee's consideration of the application;

(6) recommendation to the Dean of the Faculty of Graduate Studies and Research from the Chair of the department (following a Selection Committee review) that the applicant is in all respects acceptable to the department;

(7) in addition to the above, applicants for the Postgraduate Diploma Program must have had three year's experience in the health or welfare field;

(8) applicants for the Postgraduate Diploma in Health Services Administration will be required to submit (in the letter of intent) the classes they plan to take, and to indicate the relevance of the proposed coursework to the applicant's career. This statement will be used in assessing the application and the acceptability of proposed exemptions or advanced credit.

123.7.4 The Joint PhD Program (Health Care Planning and Evaluation)

The University of Alberta offers a doctoral program with a specialization in Health Care Planning and Evaluation jointly administered by the Department of Sociology and the Department of Health Services Administration and Community Medicine. There is a possibility that joint programs may be arranged with other departments.

The doctoral program is designed to prepare teachers and researchers in health care planning and evaluation by providing an optimal combination of academic and practical experience. The PhD program will require two or three calendar years for completion, depending on the student's academic and practical experience.

Students interested in the joint doctoral program should contact the Department of Health Services Administration and Community Medicine.

123.7.5 Combined MD/PhD Program

Details regarding this program can be found in §121.1.2.

123.8 Postgraduate Training in Medical and Surgical Specialities

Postgraduate training programs fulfilling requirements laid down by the Royal College of Physicians and Surgeons of Canada are offered in the following specialties: Anesthesia, Critical Care, Diagnostic and Therapeutic Radiology (Nuclear Medicine, Radiation Oncology, Radiology and Diagnostic Imaging), Laboratory Medicine (Anatomical Pathology, General Pathology, Hematological Pathology, Medical Biochemistry, Medical Microbiology), Medicine (Cardiology, Dermatology, Endocrinology, Gastroenterology, Geriatric Medicine, Hematology, Infectious Diseases, Internal Medicine, Nephrology, Neurology, Oncology, Pulmonary Medicine, Rheumatology), Obstetrics and Gynaecology, Occupational Medicine, Ophthalmology, Paediatrics (Neonatology), Dermatology, Physical Medicine and Rehabilitation, Psychiatry, and Surgery (Cardiovascular and Thoracic, General, Neuro, Orthopedic, Otolaryngology, Plastic, Urology).

In addition, two-year periods of graduate training for certification by the College of Family Physicians are available under the auspices of the Department of Family Medicine.

In all specialties, the graduate program takes the form of successive residency and sometimes research appointments with increasing responsibility during which seminars and directed reading programs are conducted covering the scope of the specialty. All individuals accepted for specialty programs and including rotating interns are registered as graduate students in the Division of Postgraduate Medical Education of the Faculty of Medicine and are eligible for membership in the Graduate Students' Association on payment of the appropriate fee.

Programs are open to suitably qualified graduates who are eligible to have their names placed on the Educational Register of the College of Physicians and Surgeons of Alberta. All foreign medical graduates will be required to have passed the Evaluating Examination of the Medical Council of Canada to be eligible for registration with the College.

Inquiries regarding these programs should be directed to the Associate Dean, Division of Postgraduate Medical Education, 2J211 W.C. Mackenzie Health Sciences Centre, University of Alberta.

123.9 Continuing Medical Education

The objective of the Division of Continuing Medical Education is to provide the practicing physician with the opportunity to remain up-to-date in knowledge, skills and attitudes. The Division organizes a variety of postgraduate learning events for family practitioners and specialists. These include one to three day conferences in Edmonton or some resort area, regional conferences in outlying hospitals of Central and Northern Alberta, a telephone conference program to physicians in many smaller communities, an evening course series, major university based courses, and clinical traineeship and distance learning programs in the teaching hospitals of Edmonton. The Division co-sponsors teaching events with a variety of para-medical organizations if they appear to be relevant to the improvement of health care. The Division enjoys the support of the College of Family Physicians of Alberta and the Alberta Medical Association.

Inquiries regarding these programs should be directed to the Director, Continuing Medical Education, 12-103 Clinical Sciences Building, University of Alberta, Edmonton, T6G 2G3.

124 Details of Courses

124.1 General Information

In the following sections, courses offered by the various departments and divisions of the Faculty are listed in alphabetical order.

Each course is designated by its computer abbreviation and a number.

Following the title of the course is the symbol "★", standing for "units of course weight", and a number indicating the weight of the course as used in computing grade-point averages. Some courses are offered for credit only and carry no weight.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week or in some cases the total time in the term. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "2s/2" means two seminar hours every second week. The hours of instruction are the same in both terms unless otherwise indicated. If the course lasts only one term, the term in which it may be offered is mentioned before the hours of instruction.

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the department concerned.

Physical Requirements for University

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

124.2 Anaesthesia

124.2.1 Undergraduate Courses

Instruction in theoretical aspects of anaesthetic practice is included in PMCOL 421.

ANAES 446 Student Internship
★1.5 (2 weeks). Student Internship, for Students in Phase III MD program only.

124.2.2 Resident Training

A complete residency program in anaesthesia is offered by the Department of Anaesthesia and affiliated hospitals. It comprises 30 months approved training in clinical anaesthesia, a year of training in neonatal and adult intensive care as well as cardiopulmonary medicine, and six months of research, additional clinical anaesthesia, or alternatives acceptable to the Royal College. In the course of this program which covers a minimum of four years, residents must pass through:
ANAES 541 First Year Anaesthesia
ANAES 542 Second Year Anaesthesia
ANAES 543 Third Year Anaesthesia
ANAES 544 Fourth Year Anaesthesia
and must apply for acceptance into each successive year. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.3 Anatomy and Cell Biology

124.3.1 Undergraduate Courses

ANAT 200 Human Morphology
★3 (second term, 3-0-0). An overview of human structure. Emphasis is placed on the systems of the body and their cooperative role in normal function. A lecture course open to Pharmacy students only.

ANAT 410 Human Embryology
★2 (either term, 24 hours). A course in basic human embryology emphasizing normal development, organ relationships and variations. In addition, the more common congenital defects will be studied to enable the student to recognize and better understand the nature of birth defects.

ANAT 411 Gross Anatomy
★6 (second term, 168 hours). The course is designed to provide basic information on the stucture of the human body which is necessary for medical practice. Lectures emphasize organ relationships that are important for understanding the spread of disease, diagnostic principles, and surgical treatment. Lectures are followed by student dissections of the human body, prosection demonstrations, laboratories of radiological anatomy, and clinics.

ANAT 412 Gross Anatomy
★5.5 (second term, 107 hours). The course is designed to provide basic information on the structure of the human body which is necessary for dental practice. Lectures emphasize organ relationships in the thorax and head and neck that are important for understanding the spread of disease, diagnostic principles, and surgical treatment. Lectures are followed by student dissections of the human body, prosection demonstrations, laboratories of radiological anatomy, and clinics.

ANAT 413 Cell Biology and Histology
★6 (first term, 90 hours). The goal of the course is to equip the students with histological skills and sufficient knowledge of cell structure and function so that normal life processes and diseases can be understood at the cellular level. Topics in modern cell biology as they relate to clinical medicine and dentistry are examined in a series of lectures in the first part of the course. Histology of human tissues is taught in lectures and laboratories.

ANAT 419 Neuroanatomy
★2 (second term, 30 hours). A basic course in the main structural and functional aspects of the central nervous system, with emphasis on the clinical importance of major pathways rather than theoretical concepts. Available only to dental students.

NEURO 421 Neurological Sciences
★5 (105 hours). An integrated course in neuroanatomy, neuropathology, neuroradiology, neuropharmacology, neurophysiology, and neurosurgery. Instructors: members of the Departments of Anatomy and Cell Biology, Neurology, Neuroradiology, Neurosurgery, Pharmacology, and Pathology.

124.3.2 Graduate Courses

Note: First term graduate courses in the Department of Anatomy and Cell Biology commence at the same time as courses in the MD program.

ANAT 612 Research Project
★3 (either term, 2-0-4). Prerequisite: Consent of Department.

ANAT 613 Development and Molecular Neurobiology
★3 (first term, 0-3s-0). This course will explore nine topics in developmental neurobiology, including cell lineage, nerve growth and guidance, myelination, synapse formation, axonal transport and response to injury. In particular, the course will emphasize theoretical and experimental aspects, the expanding role of molecular biology in studies in this field, and areas of present and future research. Prerequisite: Consent of Department. Note: Offered in alternate years (starting Fall 1989).

124.4 Applied Sciences in Medicine

124.4.1 General Information

Research facilities and lecture courses for graduate programs are offered by the Department of Applied Sciences in Medicine. Degree programs can be administered wholly by the Department or by the Department in cooperation with departments in other faculties. The Department offers programs leading to the Master of Science and Doctor of Philosophy degrees.

The areas most actively encouraged for research and education are medical physics, biomedical engineering, medical informatics, and medical instrumentation.

124.4.2 Undergraduate Course

ASM 475 Introduction to Medical Physics
★3 (first term, 3-0-0). Gives an overview of the practical applications of physics in modern clinical medicine. Covers the use of radiation and radioisotopes in therapy and diagnosis, nuclear medicine, medical imaging (via x-rays, gamma rays, nuclear magnetic resonance, positron emission), bio-electricity and -magnetism, optics, acoustics, etc. Prerequisite: PHYS 271 or equivalent.

124.4.3 Graduate Courses

ASM 501 Hospital Information Systems
★3 (either term, 3-0-0). Detailed study of an integrated hospital information system, for lessons in effectiveness, efficiency and elegance, as a vehicle for learning design. Covers program structures and algorithms, data representations and structures, user-visible aspects; stresses soundness and maintainability of programs. Involves a major creative project. Prerequisite: Graduate-level competence in Cobol.

ASM 509 Topics in Medical Informatics
★3 (either term, 3-0-0). Individual sections dealing with such topics as medical databases, biostatistical processing. Prerequisite: Consent of instructor.

EE AS 512 Physical Measurements in Medicine
★3 (either term, 3-1s-0). Properties of the cell membrane, Nernst-Planck equation, Donnan membrane, constant field membrane, membrane impedance. Action potentials, voltage clamp measurements, membrane conductance, H-H equations, nerve conduction. Mathematical models of the axon. Electrodes. Gas and blood gas analysis. The ECG, EEG, and EMG, origin and type of these signals, measurement techniques. Blood flow and blood pressure measurements (invasive and non-invasive). Safety aspects of electrical equipment in medicine. Prerequisite: Consent of Department.

ASM 513 Topics in Biomedical Engineering
★3 (either term, 3-0-0). Individual sections covering such topics as non-ionizing radiation, neurophysiological signal processing. Prerequisite: EE AS 512 or consent of instructor.

EE AS 540 Digital Computer Processing of Images
★3 (either term, 3-0-3). Extension of sampling theory and the Fourier transform to two dimensions, pixel operations including gray-level modification, algebraic and geometric transformations. The design of spatial filters for noise reduction, image sharpening and edge enhancement and some discussion of interpolation techniques. An introduction to the concepts of image restoration from known degradations and the reconstruction of images from parallel and fan projections. Prerequisite: E E 538 or consent of instructor.

ASM 575 Magnetic Resonance in Biology and Medicine I
★3 (first term, 3-0-0). The physical principles behind the application of nuclear magnetic resonance spectroscopy in fields from biochemistry to medicine. Topics include: Fourier transform NMR, multipulse techniques, 2-dimensional NMR, relaxation theory, *in vivo* spectroscopy, NMR imaging. Designed for advanced honors and graduate students interested in the application of NMR to biological systems. Intended to be followed by BIOCH 575. Offered in alternate years. Prerequisite: Consent of instructor.

ASM 579 Topics in Medical Physics
★3 (second term, 3-0-0). Individual sections dealing with such topics as computed tomography, nuclear magnetic resonance, therapeutic radiation. Prerequisite: PHYS 475, 477 or consent of instructor.

ASM 599 Project in Applied Sciences in Medicine
★3 (either term, 0-0-6). Practical application of science to problems in health care; involves report on problem and alternative solutions, plus complete demonstration and documentation of chosen solution. Prerequisite: Any ASM course or consent of Department.

ASM 600 Seminars in Applied Sciences
★2 (0-2s/2-0). A series of seminars designed to expose graduate students to the various areas of research and to provide a forum for progress reports in individual areas. Seminars from research workers from inside and outside the University will be included. Seminars are held in an informal atmosphere with ample opportunity for discussion.

ASM 609 Advanced Topics in Medical Informatics
★3 (either term, 3-0-0). Prerequisite: Consent of Department.

ASM 613 Advanced Topics in Biomedical Engineering
★3 (either term, 3-0-0). Prerequisite: Consent of Department.

ASM 679 Advanced Topics in Medical Physics
★3 (either term, 3-0-0). Prerequisite: Consent of Department.

124.5 Biochemistry

124.5.1 Undergraduate Courses

Details on the BSc (Specialization & Honors) programs in Biochemistry can be found in §193.2.

BIOCH 301 General Biochemistry
★6 (3-0-0). Structure and chemistry of the cell; the chemistry and metabolism of carbohydrates, lipids, proteins and nucleic acids; the molecular biology of enzymes and genes as related to the functioning of the living cell. Prerequisite: CHEM 100 or 104 or 204; and CHEM 160 or 260. Those for whom this course is an option require consent of Department.

BIOCH 303 Introduction to Protein Structure and Function and to Intermediary Metabolism
★3 (first term, 3-0-0). Selected examples of enzyme mechanisms and metabolic controls. Note: Restricted to Honors and Specialization students in Chemistry. Prerequisite: CHEM 100 or 104, and CHEM 160 or 260.

BIOCH 305 Introduction to the Molecular Biology of Membranes and Nucleic Acids
★3 (second term, 3-0-0). Includes the chemistry of these substances and their roles in cellular functions. Note: Restricted to Honors and Specialization students in Chemistry. Prerequisite: BIOCH 303.

BIOCH 401 Advanced Laboratory
★6 (0-0-8). A laboratory course in modern biochemical techniques. Designed for Biochemistry Honors and Specialization students in their third or fourth year. Other interested students may enrol subject to space limitations. Prerequisite: BIOCH 301 and consent of Department.

BIOCH 412 Medical Biochemistry and Molecular Biology
★6 (96 hours). Integrated metabolism of carbohydrates, lipids, proteins, and nucleic acids, and regulation of cell function at the molecular level. The objective of the

course is to provide an understanding of the relationship of molecular structure to biological function in both normal and pathological states. Special emphasis will be given to the molecular biology and etiology of selected diseases. Prerequisite: CHEM 100 or 104; CHEM 160. BIOCH 301 or an equivalent course in general biochemistry is strongly recommended. For medical students only.

124.5.2 Graduate Courses

BIOCH 450 The Molecular Biology of Mammalian Viruses
★3 (second term, 3-0-0). Designed for senior undergraduate and graduate students. This course will focus on virus structure, replication, and interaction with host cells at the molecular level. Lytic viruses with single- or double-stranded DNA or RNA genomes will be discussed, as will the mechanisms of viral oncogenesis. Consideration will also be given to strategies for antiviral therapy and to the use of eukaryotic viruses as cloning vectors. Prerequisite: BIOCH 301 or equivalent and consent of Department. Offered in alternate years.

BIOCH 500 Physical Biochemistry
★6 (3-0-0). A survey of the theory and applications of physical techniques in biochemistry. This will include the solution properties of biological molecules, emphasizing hydrodynamics; the physical basis of optical and magnetic resonance spectroscopy; diffraction techniques such as x-ray crystallography, small angle neutron and x-ray scattering and electron microscopy. The structural characteristics of biological macromolecules and the use of physical techniques to study the structure and function of these macromolecules will be discussed. Prerequisite: BIOCH 301 or equivalent, and CHEM 270 or 372. Offered in alternate years.

BIOCH 501 Advanced Laboratory
★6 (0-0-8). A laboratory course to accompany courses in biochemistry. Emphasis on standard methods and techniques as applied to biochemical research. Note: Available to fourth-year honors and specialization in biochemistry students only.

BIOCH 511 Enzymology
★3 (first term, 3-0-0). Application of kinetics in problems in enzymology is followed by a detailed analysis of the structure-function relationship of crystallized glycolytic enzymes, emphasizing mechanistic principles and methods of elucidation. The regulation of enzyme activity by allosteric phenomena and covalent metabolic interconversion is illustrated by examples and application to glycolysis and gluconeogenesis. Prerequisite: BIOCH 301 or equivalent and CHEM 270 or 372, or consent of Department. Offered in alternate years.

BIOCH 512 Genetic Control Mechanisms
★3 (second term, 3-0-0). Selected topics dealing with the molecular basis of genetic controls in prokaryotic and eukaryotic systems. Focus will be on mechanisms of transcriptional initiation and termination, DNA-protein interaction, mRNA structure and function, and post transcriptional controls. Prerequisite: BIOCH 301 or equivalent. Offered in alternate years.

BIOCH 521 Nucleic Acids
★3 (first term, 3-0-0). This course covers the fundamental physical and chemical properties of nucleic acids, their secondary and tertiary structures with biological implications. Replication, recombination and topology of DNA. Strategies for isolating and manipulating genetic elements. Prerequisite: BIOCH 301 or equivalent. Offered in alternate years.

BIOCH 531 Protein Structure
★3 (second term, 3-0-0). Topics include amino acid analyses, peptide and protein sequencing, chemical modification, cross-linking reagents, chemical synthesis of peptides and proteins, high performance liquid chromatography of peptides and proteins, principles of protein structure, and protein fold patterns. Prerequisite: BIOCH 301 or equivalent, CHEM 270 or 372. Note: Designed for advanced Honors and Graduate students and offered in alternate years.

BIOCH 575 Magnetic Resonance in Biology and Medicine II
★3 (second term, 3-0-0). The application of nuclear magnetic resonance in fields from biochemistry to medicine. Topics to include studies of protein structure and function and enzyme mechanisms by NMR, and applications of *in vivo* NMR spectroscopy and NMR imaging. Designed for advanced honors and graduate students interested in the application of NMR to biological systems. Prerequisite: ASM 575. Offered in alternate years.

BIOCH 590 Structure and Function of Biological Membranes
★3 (first term, 3-0-0). A general survey of the structure and function of biological membranes. Topics will include the structure, properties and composition of biomembranes, the characterization of membrane lipids and proteins, lateral and transverse asymmetry, membrane dynamics and lipid-protein interactions, membrane enzymology, interactions of small molecules with membranes, cell surface receptors, signal transductions and membrane biogenesis. Note: Designed for advanced Honors and Specialization students and graduate students and offered in alternate years. Prerequisite: BIOCH 301 or equivalent or consent of Department.

BIOCH 609 Macromolecular Structure Analysis II
★3 (second term, 3-0-3). The principles of X-ray crystallography as applied to the study of protein and nucleic acid structure. Practical aspects of diffraction and structure solution will be demonstrated by a collaborative study of a suitable small molecule of biological interest. Designed for senior honors and graduate students. Prerequisite: Consent of instructor. Maximum enrollment of 10 students. Offered in alternate years.

BIOCH 623 Special Topics in Research on Polynucleotides
★2 (0-1s-0). This course is designed as a journal club and discussion group in which topics under the general heading of Current Research on nucleic acids are discussed. Specific talks range in scope from biochemistry, genetics and microbiology to nuclear biology and clinical aspects.

BIOCH 626 Special Topics in Protein Research
★2 (0-1s-0). A seminar course for advanced students. Detailed consideration is given to recent advances in research on protein structure and function and mechanism of enzyme action. Prerequisite: BIOCH 511 and 531 or consent of Department.

BIOCH 640 Special Topics in Research on Biomembranes
★2 (0-1s-0). A seminar course for advanced students covering selected topics from the current literature in the field of membrane structure and function. Prerequisite: BIOCH 590 or consent of Department.

BIOCH 671 Recent Advances
★4 (0-2s-0). A seminar course on topics of current interest in Biochemistry. Note: Open to Graduate students in Biochemistry only.

INT D 510 Lipid and Lipoprotein Metabolism
★3 (second term, 3-0-0). An advanced course which focuses on the metabolism of lipids and lipoproteins in eucaryotic cells and animal systems. Topics to be covered include regulation of fatty acids, triacylglycerol, phospholipid, cholesterol, sphingolipid and lipoprotein metabolism. In addition, the assembly of lipids and proteins into membranes and lipoproteins, secretion of lipoproteins, the dynamics of lipoproteins in circulation and the role of lipids and lipoproteins in atherosclerosis will be covered. Prerequisite: BIOCH 301 or equivalent. Offered in alternate years. (Offered jointly by Departments of Biochemistry and Medicine.)

Courses in clinical biochemistry are listed under §124.16 (Pathology).

124.6 Family Medicine

124.6.1 Undergraduate Course

Family Medicine is included in MED 411, MED 421, and MED 447.

F MED 446 Internship in Rural Family Medicine
★3 (4 weeks). For students in Phase III MD program only.

124.7 Health Services Administration and Community Medicine

124.7.1 Undergraduate Courses

Community Medicine

CO ME 411 Whole Class Lectures and Small Group Exercises
★2 (25 hours). The whole class lectures introduce students to epidemiological principles and methods, with emphasis on the application of these principles to clinical and community medicine. Available to medical students only.

CO ME 421 Small Group Discussion
★1 (18 hours). A series of small group discussions are designed to acquaint students with (1) the impact of an illness on an individual, (2) the patient's perception of members of the various health professions, (3) the medical/hospital milieu in determining patient behaviour, and (4) the special problems of the terminally ill. Available to medical students only.

CO ME 431 Formal Presentations
★1 (25 hours). A series of formal presentations on topics pertinent and relevant to the practice of occupational medicine, community health and professional responsibilities in relation to community and government services available in Alberta. Available to medical students only.

Health Services Administration

INT D 357 Health Care Economics
★3 (either term, 3-0-0). Resource allocation in the health care industry; production and cost relationships within various types of institutional settings (hospital, medical firm) the role of the price mechanism in allocating resources. Manpower planning; the role of the Government and professional groups in allocating resources in the non-price sector of the health industry. (Offered jointly by the Departments of Economics and Health Services Administration.) [Health Services Administration]

124.7.2 Graduate Courses

Community Medicine

The Master of Health Services Administration program is acceptable to the Council of the Royal College of Physicians and Surgeons of Canada as a portion of a specialty training program in community medicine.

Health Services Administration

H S A 400 Health and Welfare Delivery Systems
★3 (first term, 3-0-0). A review of the development of the Canadian health and welfare system and of its contemporary structure and functions.

H S A 401 Problems and Issues in Health and Welfare Delivery
★3 (second term, 3-0-0). An analysis of selected problems in the delivery of health and welfare services.

H S A 420 Structure and Process in Health and Welfare Service Agencies
★3 (first term, 3-0-0). An introduction to organizational theory and its application to the management of health and welfare agencies.

H S A 421 Management of Health and Welfare Service Agencies
★3 (second term, 3-0-0). Applications of social science theory and research findings to the administration of health and welfare agencies. Lectures and field projects.

H S A 430 Methods and Statistics in Health Services Administration I
★3 (first term, 3-0-0). An introduction to statistical models and research design as they relate to research and decision making in health service agencies.

H S A 431 Methods and Statistics in Health Services Administration II
★3 (second term, 3-0-0). An introduction to basic methodological procedures fundamental to research and decision making in health services administration.

H S A 435 Survey of Epidemiology
★3 (first term, 3-0-0). An introduction to the principles of epidemiology and the sources of data concerning the etiology and prevention of disease, with special reference to the planning of health programs.

H S A 450 Health Services Accounting and Finance
★3 (either term, 3-0-0). An introduction to managerial accounting with emphasis on understanding financial statements and their interpretation. This course will include budgeting and other managerial control techniques in the health care field.

H S A 460 Information Systems and Data Management in Health Services Administration
★3 (either term, 3-0-0). Introduction to computer systems, data structure, and computer files; use of packaged programs for efficient file management and data analysis; issues in health information systems and problem oriented medical information systems; review of selected hospital and other health information systems.

H S A 470 Introductory Health Care Economics
★3 (first term, 3-0-0). An introductory survey of macroeconomic, microeconomic, and public finance models relevant to the health care field.

H S A 471 Application of Economic Principles to Health Services Administration
★3 (second term, 3-0-0). A survey of health care economic theory and empirical studies. Topics and areas covered include (a) demand, supply, and utilization; (b) production and costs; (c) resource allocation in health care labour markets; (d) selected facets of health care planning; and (e) benefit-cost analysis. The empirical studies examined in this course require an understanding of simple and multiple regression techniques.

H S A 499 Field Practicum
★6 (Intersession, May 1-Aug 31). A four-month summer field experience practicum supervised by the faculty.

H S A 510 Ethical and Legal Issues in Health Services Administration
★3 (either term, 3-0-0). An examination of ethical and legal principles as they relate to health care with analyses of selected ethical and legal issues pertinent to health care administrators, researchers, and policy-makers.

H S A 513 Nursing Service Administration
★3 (second term, 3-0-0). Advanced analysis of major components in nursing service administration in diverse and rapidly changing health care systems, with particular emphasis on the changing role of chief nursing executives in health care agencies.

H S A 520 Advanced Topics in the Structure and Process of Health and Social Service Agencies
★3 (either term, 3-0-0). Topics in organizational theory related to health and social service agencies. Emphasis both on the evaluation of research findings and their application to management and policy. Prerequisite: H S A 420 or permission of instructor.†

H S A 530 Statistics for Health Services Administration
★3 (first term, 3-0-0). Intermediate level coverage of statistical methods for health services planning and research as applied to administrative planning, research, and problem solving in health service agencies. Prerequisite: H S A 431 or equivalent.

H S A 531 Research Methods in Health Services Administration
★3 (second term, 3-0-0). An overview of research needs, priorities, and approaches in health services planning and research. Emphasis on a practical, systematic and valid approach to improving the quality and quantity of health and welfare services. Prerequisite: H S A 530.

H S A 535 Problems and Issues in Epidemiology
★3 (second term, 3-0-0). Review and discussion of contemporary epidemiological problems from the viewpoint of multi-factorial etiology, and the application of epidemiological principles to the study of chronic disease and accidents.

H S A 550 Health Services Finance
★3 (first term, 3-0-0). Cost accounting and budget applications in health and welfare service agencies. Methods of formulating and implementing organization policy in the context of contemporary health and welfare financial structures and policies.

H S A 551 Problems and Issues in Health Services Finance
★3 (second term, 3-0-0). Critical analysis of selected issues and problems in health and welfare services finance.

H S A 560 Systems Analysis and Planning in Health Services Administration
★3 (first term, 3-0-0). Systems approach and management science, classification of patients and hospitals, hospital service population, survey designs and forecasting methods.

H S A 561 Operations Analysis and Planning in Health Services Administration
★3 (second term, 3-0-0). Operations research in the health care field: decision analysis, mathematical programming as applied to resource allocation and scheduling, elements of games theory as related to labour relations; queuing models and simulation techniques in planning and administration of health care delivery.

H S A 570 Health Care Economics
★3 (first term, 3-0-0). Methods of allocating resources to the health care sector of the economy. The role of individuals and organizations in the decision process.

H S A 571 Problems and Issues in Health Care Economics
★3 (second term, 3-0-0). Critical review and discussion of contemporary issues and problems in Canadian health care economics.

H S A 599 Research Practicum
★6 (Intersession, May 1-Aug. 31). A four-month research experience practicum supervised by the faculty.

H S A 600 Seminar on Policy and Planning Issues in Canadian Health and Social Services
★3 (first term, 0-3s-0). Canadian health and social service policy and planning issues are analyzed in an international context.

H S A 601 Project on Policy and Planning in Canadian Health and Social Services
★3 (second term, 0-3s-0). A field project devoted to the development of a long-term strategic plan for a health or social services agency.

H S A 610 Individual Directed Reading and Research
★3 (either term, 0-3s-0). Prerequisite: consent of Department. May be repeated.†

H S A 900 Non-Thesis project

THES 900 Thesis

THES 999 Thesis
†May not be offered in any given year, depending on student interest and available faculty resources.

124.7.3 Reserve List

The Department is unable to offer the following courses regularly. Students should consult the Department for further information.

H S A 300 Health Care in Modern Society
★3 (either term, 3-0-0). An introduction to the structure and functions of the modern health care system.†

H S A 310 Hospital Organization and Management
★3 (either term, 3-0-0). An introduction to the principles and problems of organization and management of the modern hospital.†

H S A 350 Accounting and Finance in Health Service Agencies
★3 (either term, 3-0-0). An introduction to the principles and methods of accounting and finance in health and welfare organizations.†

H S A 351 Managerial Accounting in Health Service Agencies
★3 (either term, 3-0-0). The utilization of accounting and financial data for optimizing the efficiency and effectiveness of health services.†

H S A 410 Hospital Organization and Management
★3 (second term, 3-0-0). The historical, contemporary, and emergent structure, functions, and problems of the hospital as a community health resource.†

H S A 411 Medical Care Administration
★3 (second term, 3-0-0). The development of modalities for the delivery of medical care and their contemporary and emergent structure, functions, and problems.†

H S A 412 Social Welfare Administration
★3 (second term, 3-0-0). An introduction to the structure and functions of social welfare programs.†

H S A 451 Application of Managerial Accounting to Health Service Agencies
★3 (second term, 3-0-0). A review of budgeting and cost control techniques in health and welfare service agencies.†

H S A 500 Advanced Problems in Health Care Delivery
★3 (first term, 3-0-0). Critical analysis of contemporary policy problems and emerging trends in the structure of the health and welfare delivery system in Canada.†

H S A 511 Special Seminar in Health Services Administration
★3 (second term, 0-3s-0). Selected topics in quantitative methods as applied to research in health services administration.†

H S A 521 Advanced Health Services Administration
★3 (second term, 3-0-0). A study of the application of principles and procedures reviewed in H S A 520 to problems of health service management.†

H S A 630 Quantitative Techniques in Health Services Planning and Evaluation I
★3 (first term, 3-0-0). The application of quantitative techniques to the planning and evaluation of health services with particular emphasis on intra-institutional problems.†

H S A 631 Quantitative Techniques in Health Services Planning and Evaluation II
★3 (second term, 3-0-0). Application of quantitative techniques to the planning and evaluation of health services with particular emphasis on inter-institutional and systematic problems.†

124.8 Immunology

124.8.1 Undergraduate Courses

IMMUN 411 Introduction to Immunology
★2 (32 hours). A general introduction to immunology for students in Phase I of the M.D. program.

IMMUN 450 Cellular and Molecular Aspects of Immunobiology
★3 (either term, 3-0-0). Lectures presenting original experiments underlying the basis of modern molecular and cellular immunology. Topics include clonal selection theory, genetic basis of antibody diversity, genetic basis of T cell recognition, molecular basis of nonself recognition, cell interaction in immune responses, antigens, immunogens; MHC molecules and transplantation, concepts of tolerance and self-tolerance, molecular basis of effector mechanisms of immunity. Prerequisite: BIOCH 301, or ZOOL 242, or consent of Department.

Instruction in clinical immunology is included in MED 441. The Department of Immunology also offers elective undergraduate courses. Interested students should also consult the entries for the Departments of Genetics (§194.11), Microbiology (§194.22), and Zoology (§194.32) in the Faculty of Science section of the Calendar.

124.8.2 Graduate Courses

IMMUN 500 Basic Immunological Principles
★3 (first term, 3-0-0). A survey course consisting of lectures based on original factual and theoretical literature. Topics include the origin of antibody diversity, receptors on B and T cells, humoral and cell-mediated immunity, activation of lymphocytes, cellular collaboration, positive and negative regulatory mechanisms in immunity, phylogeny and ontogeny, self tolerance, unresponsive states, major histocompatibility complex antigens, autoimmunity, transplantation, and immunogentics. Offered alternate years. Prerequisite: IMMUN 450 or consent of Department.

IMMUN 501 Current Concepts in Immunology
★3 (second term, 0-3s-0). Lecture and seminar course on three to four areas of immunology of current interest based on original literature. The course will emphasize interpretation of published evidence based on theoretical models in the literature and will involve student participation. Offered sequentially with IMMUN 500 in alternative years. Prerequisite: IMMUN 500 or consent of Department.

IMMUN 502 Selected Topics in Immunology
★3 (either term, 2-1s-0). Lecture and Seminar course covering a particular area of Immunology in depth. Offered in alternate years. Prerequisite: IMMUN 500 or consent of Department.

124.9 Interdepartmental and Interfaculty Courses

124.9.1 Undergraduate Courses

The Faculty conducts some of its instruction on an interdepartmental and interfaculty basis. This is particularly so in relation to courses listed below.

INT D 357 Health Care Economics
★3 (either term, 3-0-0). Resource allocation in the health care industry; production and cost relationships within various types of institutional settings (hospital, medical firm) the role of the price mechanism in allocating resources. Manpower planning; the role of the Government and professional groups in allocating resources in the non-price sector of the health industry. (Offered jointly by the Departments of Economics and Health Services Administration.) [Health Services Administration]

INT D 370 Survey on International Health
★3 (second term, 3-0-0). Overview of health issues and organization in a cross-cultural context with emphasis on developing and newly industrialized countries. Prerequisite: Completion of 10 full courses in any program or consent of the instructor. (Nursing, Dentistry, Medicine, Pharmacy, Rehabilitation Medicine, and Social Sciences).

INT D 407 Intermediary Metabolism
★3 (first term, 3-0-0). A detailed description of enzymatic reactions in biosynthetic pathways of carbohydrate, amino acid, vitamin and coenzyme metabolism, emphasizing interrelationships among microbial and animal cells. Offered in alternate years. Prerequisite: BIOCH 301 and MICRB 311. [Microbiology]

MED 410 Medical Ethics and Jurisprudence
★1 (7 hours). Introduction to central issues in biomedical ethics and to the philosophical methods for dealing with them. Restricted to MD students.

MED 411 Clinical Skills
★4 (95 hours). An introductory course in the communication and clinical skills necessary for effective history taking and in the applied anatomy of the body regions.

MED 413 Introduction to Nutrition
★2 (36 hours). A general introduction to Nutrition for first year medical students.

MED 421 Mechanisms of Disease
★30 (512 hours). **Medically oriented subjects**: (a) Cardiology (48 hours), (b) Clinical Skills (38 hours), (c) endocrinology and Metabolism (42 hours), (d) Gastroenterology (50 Hours), (e) Growth and Development (34 hours), (f) Hematology (52 hours), (g) Medical Ethics

and Jurisprudence (9 hours), (h) Nephrology (35 hours), (i) Pulmonary (62 hours), (j) Paediatrics (6 hours). **Surgically oriented subjects**: (k) Opthalmology (24 hours), (l) Surgery (80 hours), (m) Urology (28 hours).

NEURO 421 Neurological Sciences
★5 (105 hours). An integrated course in neuroanatomy, neuropathology, neuroradiology, neuropharmacology, neurology, and neurosurgery. Instructors: members of the Departments of Anatomy and Cell Biology, Neurology, Neuroradiology, Neurosurgery, Pharmacology, and Pathology.

MED 432 Musculoskeletal Systems
★3 (first term, 73 hours). This interdivisional course will cover the following topics: orthopaedics, rehabilitation medicine and rheumatology. For third year medical students only.

MED 441 Clinical Problems
★0 (36 hours). A lecture series available to students in Phase III, MD program only.

MED 442 Review
★0 (56 hours). A review of topics in Internal Medicine. For fourth year medical students only.

MED 447 Elective
★0 (16 hours). An program of elective courses described in detail in the Faculty Electives catalogue. This program forms a mandatory part of Phase III. For third and fourth year medical students only. Consent of the instructor is required.

124.9.2 Graduate Courses

BINT D 510 Lipid and Lipoprotein Metabolism
★3 (second term, 3-0-0). An advanced course which focuses on the metabolism of lipids and lipoproteins in eucaryotic cells and animal systems. Topics to be covered include regulation of fatty acids, triacylglycerol, phospholipid, cholesterol, sphingolipid and lipoprotein metabolism. In addition, the assembly of lipids and proteins into membranes and lipoproteins, secretion of lipoproteins, the dynamics of lipoproteins in circulation and the role of lipids and lipoproteins in atherosclerosis will be covered. Prerequisite: BIOCH 301 or equivalent. Offered in alternate years. (Offered jointly by the Departments of Biochemistry and Medicine.)

BINT D 544 Physiology of Reproduction
★3 (second term, 3-0-0). [Physiology]

BINT D 545 Physiology of Transport Systems
★3 (second term, 3-1s-0). A consideration of transport mechanisms primarily from the physiological rather than biochemical viewpoint. Major models considered are the vertebrate erythrocyte and a variety of epithelia from vertebrates and invertebrates. Designed for advanced undergraduate and graduate students. Offered in alternate years. Prerequisite: PHYSL 310 or 352 or ZOOL 241 or ZOOL 242. [Physiology]

124.10 Medical Laboratory Science

The following table lists renumbered courses effective 1991-92:

Old	New	Old	New
PATH 231	MLSCI 250	PATH 401	MLSCI 401
PATH 291	MLSCI 191	CLBIO 408	MLSCI 460
CL PA 367	MLSCI 230	PATH 409	MLSCI 409
CL PA 369	MLSCI 260	PATH 503	MLSCI 430

MLSCI 320, 330, 340, 350, 360, and 370 are to be taken as a unit over a 52-week period. They are open to students of Medical Laboratory Science only or by special permission of the Division.

MLSCI 191 Introduction to Laboratory Medicine
★3 (second term, 3-0-3). Designed for first year students in the Medical Laboratory Science program. The course will introduce the students to those aspects unique to clinical laboratories including safety, instrumentation, medical terminology and quality assurance applied to reagents and methodology. Where appropriate, demonstrations of techniques and equipment will be included in laboratory sessions.

MLSCI 230 Hematology
★6 (3-0-6). Lectures: the use and interpretation of laboratory methods as diagnostic aids. Laboratory: exercises to develop a high degree of accuracy and reasonable speed in hematological and other clinical pathological procedures used in modern hospital laboratories. Prerequisite: PHYSL 161 or consent of Department. Corequisite: MLSCI 250.

MLSCI 250 Introduction to Histopathology
★3 (first term, 3-0-3). This course will deal with the structure of the cell, elementary histopathological processes and their appearances in tissue sections. The course content will include the theory and practice of light microscopy and the principles of electron microscopy. Students will be expected to acquire a detailed knowledge of the theory and application of the histological and histochemical techniques used to demonstrate the diagnostic features of disease processes. Studies will include the nature of malignant disease, including its application to exfoliative and aspiration cytology.

MLSCI 260 Clinical Biochemistry
★6 (3-0-3). Principles of instrumentation; quality control; clinical chemistry of blood and urine, gastric, kidney, and liver function tests; disturbances of acid-base, electrolyte, and mineral metabolism. Emphasis on critical appraisal of biochemistry methods as applied to the study of disease. Prerequisite: CHEM 100 or 104 and 160.

MLSCI 320 Report Writing/Teaching Assignment
★2 (50 hours). This course provides an opportunity for students of Medical Laboratory Science to do an in-depth review of the current literature on a specific topic and produce a report as a review. Further, students will have an opportunity to present topics to their peers in seminar style.

MLSCI 330 Clinical Hematology
★5 (clinical rotation). As a part of a clinical laboratory education for Medical Laboratory Science students, this course will provide experience in a modern hospital hematology laboratory along with weekly tutorials followed by comprehensive theoretical and practical examinations.

MLSCI 340 Clinical Microbiology
★5 (clinical rotation). As a part of a clinical laboratory education for Medical Laboratory Science students, this course will provide experience in a modern hospital microbiology laboratory along with weekly tutorials followed by comprehensive theoretical and practical examinations.

MLSCI 350 Histopathology
★3 (clinical rotation). As a part of a clinical laboratory education for Medical Laboratory Science students, this course will provide experience in a modern hospital histopathology laboratory along with weekly tutorials followed by comprehensive theoretical and practical examinations.

MLSCI 360 Clinical Biochemistry
★6 (clinical rotation). As a part of a clinical laboratory education for Medical Laboratory Science students, this course will provide experience in a modern hospital clinical biochemistry laboratory along with weekly tutorials followed by comprehensive theoretical and practical examinations.

MLSCI 370 Transfusion Medicine
★3 (clinical rotation). As a part of a clinical laboratory education for Medical Laboratory Science students, this course will provide experience in a modern hospital transfusion medicine laboratory, along with weekly tutorials, followed by comprehensive theoretical and practical examinations.

MLSCI 401 Medical Laboratory Science II
★6 (3-0-6). Lectures, seminars, and laboratory exercises on the approach and method of investigation of selected medical laboratory problems; laboratory planning and administration; the use of special equipment and techniques.

MLSCI 409 Special Project
★3 (second term, 0-0-3).

MLSCI 430 Advanced Haematology
★3 (second term, 3-0-0).

MLSCI 460 Clinical Biochemistry
★3 (second term, 3-0-0). Advanced lectures on special topics, including: lactic acidosis, gluconeogenesis, ethanol metabolism, cyclic AMP, prostaglandins, clinical enzymology, inborn errors of metabolism, purine metabolism, aging. Prerequisite: BIOCH 301, 372, or 400.

MLSCI 480 Molecular Genetic Approaches to the Study and Diagnosis of Disease
★3 (first term, 3-0-0). Emphasis on the application of techniques of molecular genetics to the practice of Medicine. General subject areas include: organization of the genome, techniques of molecular genetics and their application to medicine, molecular genetics and oncology, and ethical issues involving these techniques as applied to medicine. Prerequisite: GENET 197 and BIOCH 301 or equivalent.

MLSCI 490 Research Project
★6 (0-0-6). Supervisor and topic to be identified by student. Involves review of literature, adequate bench research, and a final report. Note: Available to Medical Laboratory Science students only. Enrollment limited.

124.11 Medical Microbiology and Infectious Diseases

124.11.1 Undergraduate Courses

MMID 224 Basic Virology
★3 (first term, 3-0-3). An introduction to the structure, replication, and taxonomy of bacteriophages, plant, insect, and animal viruses. Their role in disease and methods of control and detection will also be discussed. Prerequisite: BIOL 201 and MICRB 193. Credit may be obtained in only one of MMID 224 or MICRB 224. (See Calendar §194.22).

MMID 233 Medical Microbiology
★3 (either term, 3-0-3). General microbiology course dealing with micro-organisms, their nature, distribution and role in disease. Particular emphasis is placed on the epidemiology of infection, responsibilities of hospitals and prevention and control of infection. Course designed for students in the Nursing programs (RN and BSN) and others interested in medical microbiology.

MMID 361 Pathogenic Microbiology
★6 (3-0-3). The course considers the role of bacteria, viruses, fungi and parasites in human disease. Lectures emphasize mechanisms of microbial pathogenicity and immune response to infection. Laboratory emphasizes diagnostic procedures. Prerequisite: MICRB 193.

MMID 410 Special Projects
★3 (either term, 0-0-3).

MMID 421 Medical Microbiology and Infectious Diseases
★6 (136 Hours). An Introduction to the basic principles of medical microbiology and the investigation and treatment of infectious diseases. Restricted to Phase II medical students.

MMID 422 Bacteriology
★2.5 (first term, 38 hours). An introduction to general bacteriology, aspects of infection and resistance, selected examples of infectious diseases. Special bacteriology of the mouth, including dental caries and periodontal diseases. Course for dental hygiene and dentistry students.

MMID 425 Medical Virology
★3 (second term, 1-0-5). A detailed examination of the principles underlying the identification of viruses of medical importance. Strong emphasis will be placed upon the practical application and rationale of viral diagnostic methods. Prerequisite: MICRB 224 and consent of Department.

MMID 426 Medical Parasitology
★3 (second term, 3-0-3). A survey of the protozoan and metazoan parasites of man. Emphasis will be placed on laboratory methods for detection and identification as an aid to diagnosis and therapy. Prerequisite: A course in medical microbiology or consent of Department.

MMID 427 Medical Mycology
★3 (first term, 3-0-3). Laboratory study of the fungi associated with human disease with particular emphasis on the methods for demonstration, isolation and identification of pathogenic fungi. Attention will also be given to the epidemiology, serology and pathology of fungus diseases. Prerequisite: Introductory medical microbiology or microbiology or BOT 341.

124.11.2 Graduate Courses

MMID 501 Microbiology Literature Review
★3 (either term, 3-0-0). A supervised course dealing with current ideas in microbiology. Students attend discussion sessions in the Department and prepare seminars.

MMID 505 Mechanisms of Pathogenicity
★3 (first term, 3-0-3). A functional approach to the production of disease by microbes emphasizing the biochemical, immunological and physiological properties of host and microbe which account for a pathological process. Prerequisite: Introductory bacteriology or microbiology and biochemistry or consent of Department.

MMID 512 Special Projects
★3 (either term, 0-0-3).

MMID 520 Bacterial Plasmids
★3 (first term, 3-0-0). The biology of plasmids and plasmids as tools for molecular biology The structure and properties of various bacterial plasmids (antibiotic resistance plasmids, colicin and enterotoxin-producing plasmids) will be considered in light of our current understanding of the evolution of plasmids. The involvement of insertion sequences and transposons in plasmids organization will be discussed. The course will focus on the modes of plasmids DNA replication and the

means by which bacterial plasmids are maintained in host cells. Important plasmid-coded functions such as incompatibility and conjugative transfer will be discussed in detail. The effect of plasmids in human and veterinary medicine and on plant pathogenesis (the crown gall disease) will also be considered. The use of plasmids in genetic engineering including the choice of vectors, cloning methods and risks and benefits will complete the course. Note: Designed for advanced honors and graduate students and offered in alternate years. Prerequisite: BIOCH 301 and MICRB 193 or consent of Department.

MMID 525 Immunobiology of Virus Infection
★3 (first term, 2-1s-0). A lecture and seminar course designed for advanced undergraduates and graduate students as well as for residents in Medicine and Medical Microbiology and Infectious Diseases. The course will cover both normal and pathological immune reactions during viral infections. Both experimental and clinical infections will be dealt with during the lectures. Each student will also give a seminar on a selected topic on viral immunopathogenesis. Prerequisite: Consent of Department. Maximum enrollment 12. Offered alternate years during the fall term.

124.11.3 Resident Training

A complete residency program leading to fulfillment of specialist training requirments in medical microbiology is offered by the Department of Medical Microbiology and Infectious Diseases. In the course of the four-year program, residents pass through:
MMID 541 First Year Medical Microbiology
MMID 542 Second Year Medical Microbiology
MMID 543 Third Year Medical Microbiology
MMID 544 Fourth Year Medical Microbiology
and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.12 Medicine

124.12.1 Undergraduate Courses

MED 411 Clinical Skills
★4 (95 hours). An introductory course in the communication and clinical skills necessary for effective history taking and in the applied anatomy of the body regions.

MED 431 Topics in Clinical Skills
★1 (19 hours). For third year medical students only.

MED 433 Topics in Dermatology
★1 (16 hours). For third year medical students only.

MED 434 General Medicine
★1 (second term, 15 hours). General aspects of medicine with particular reference to local and systematic diseases of dental interest.

MED 436 Nephrology — Pathophysiology of Clinical Renal Disease and Related Disorders
★3 (first term, 29 hours). Indepth review of renal physiology and pathophysiology. Will cover normal mechanisms of acid base and fluid balance, renal function testing; pathophysiology associated with urinary tract infection; inflammatory and degenerative disorders, renal failure. Prerequisite: NURS 313 and consent of Division of Nephrology. Preference to students with interest and experience in nephrology nursing.

MED 445 Internship in Geriatrics
★3 (4 weeks). For students in Phase III MD program only.

MED 446 Student Internship
★9 (12 weeks). Student Internship for students in Phase III, MD program only.

124.12.2 Electives

MED 447 Elective
★0 (16 hours). An program of elective courses described in detail in the Faculty Electives catalogue. This program forms a mandatory part of Phase III. For third and fourth year medical students only. Consent of the instructor is required.

124.12.3 Graduate Courses

MED 501 Clinical Pulmonary Physiology
★3 (second term, 2-0-0). Basic and clinical lectures on: Lung Structure; Pulmonary Blood Flow; Airflow; Gaseous Diffusion; Ventilation/Perfusion Matching; Control of Ventilation; Oxygen Transport; Lung Defense; Mucociliary Transport; ARDS; Asthma; Exercise; Lung Growth; Surfactant; Lung Metabolism; Pulmonary Function Testing. Prerequisite: General courses in Physiology, Physics and Biochemistry or consent of Department.

INT D 510 Lipid and Lipoprotein Metabolism
★3 (second term, 3-0-0). An advanced course which focuses on the metabolism of lipids and lipoproteins in eucaryotic cells and animal systems. Topics to be covered include regulation of fatty acids, triacylglycerol, phospholipid, cholesterol, sphingolipid 4nd lipoprotein metabolism. In addition, the assembly of lipids and proteins into membranes and lipoproteins, secretion of lipoproteins, the dynamics of lipoproteins in circulation and the role of lipids and lipoproteins in atherosclerosis will be covered. Prerequisite: BIOCH 301 or equivalent. Offered in alternate years. (Offered jointly by Departments of Biochemistry and Medicine.)

MED 511 Molecular Biology in Medicine
★3 (second term, 3-0-0). This course will review the contributions of advances in molecular biology to the understanding of human diseases, with special emphasis on recombinant DNA and hybridoma technologies. Topics to be discussed will include the isolation and characterization of human genes, the production of pharmaceuticals and biologicals such as immune regulators and subunit vaccines by genetically engineered microorganisms, the molecular basis of selected genetic and infectious diseases, and the application of advanced technology to rapid diagnosis of viral infections and to prenatal diagnosis of genetic defects. Offered in alternate years. Prerequisite: BIOCH 300 or equivalent and consent of Department.

MED 571 Directed Reading in the Basic Medical Sciences
★3 (either term, 3-0-0). Reading and study of basic medical science topics relevant to the student's chosen field of study under the direction of one or more faculty members. Prerequisite: Consent of Department.

MED 573 Directed Reading in Clinical Medicine
★3 (either term, 3-0-0). Reading and study in a field of clinical medicine relevant to the student's chosen field of study under the direction of one or more faculty members. Readings currently available in GI Physiology, Experimental Hematology, Steroid Receptors, Cardiophysiology, Renal Physiology, and Endocrinology. Prerequisite: Consent of Department.

MED 575 Nutrition and Metabolism
★3 (1-1s-0). A seminar and discussion course in advanced nutrition and metabolism that examines current topics in nutrition and features regular seminars on alternate weeks throughout both terms of the winter session. A discussion group meets after each seminar. Preference will be given to graduate and postgraduate students in the area of nutrition and metabolism. Maximum enrollment of 15. Prerequisite: Consent of Department.

MED 673 Research Design and Data Analysis in Clinical Medicine
★3 (second term, 3-0-0). Application of statistical techniques, designing research projects, preparation of grant proposals, and techniques for evaluating the quality of research publications in medicine. Addresses experimental test tube, animal and human research as well as clinical trials using a critical, problem-solving, example-based approach. A basic course in statistics is a recommended prerequisite. Preference will be given to graduate and postgraduate students in the Department of Medicine. Maximum enrollment of 25.

124.12.4 Resident Training

Complete resident programs are offered in internal medicine and in the subspecialties of cardiology, gastroenterology, nephrology, neurology, pulmonary disease, rheumatology, infectious diseases, oncology, and endocrinology by the appropriate divisions of the Department of Medicine.

In the course of these programs, residents complete an appropriate period of training in internal medicine (two or three years depending on the subspecialty involved) followed by two years of advanced experience in the specialty concerned. Opportunities for both clinically oriented and basic research are made available during these latter two years. All programs are designed to meet the requirements of the Royal College of Physicians and Surgeons of Canada and in the course of the programs, which cover four years, residents pass through:
MED 541 First Year Medicine
MED 542 Second Year Medicine
MED 543 Third Year Medicine
MED 544 Fourth Year Medicine
and are assessed before promotion from year to year. Those electing a research experience as part of their programs may register in the Faculty of Graduate Studies and Research in a program leading to the MSc in experimental medicine. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.13 Neuroscience

124.13.1 General Information

The Division of Neuroscience in the Faculty of Medicine offers courses at the undergraduate and graduate levels. Additional courses in Neuroscience are offered by members of the division through individual departments such as Pharmacology, Physiology, Psychiatry, Psychology, Surgery, and Zoology. A graduate program leading to the MSc and PhD degrees has been proposed.

124.13.2 Undergraduate Courses

NEURO 471 Neuroscience I: Cells, Membranes and Molecules
★3 (first term, 3-0-0). Lectures presented by the Faculty of Medicine and the Faculty of Science on excitable membranes, action potential mechanisms, conduction and synaptic mechanisms; factors modifying degeneration, regeneration, development and learning. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or ZOOL 242.

NEURO 472 Neuroscience II: Systems
★3 (second term, 3-0-0). Lectures presented by the Faculty of Science and the Faculty of Medicine on visual and somatosensory systems, motor control via reflexes and central pattern generators; homeostasis, control of feeding, drinking, temperature and reproduction; neurobehavioral aspects of attention, arousal, cognition, memory and cerebral asymmetry. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or equivalent.

124.13.3 Graduate Courses

NEURO 500 Research in Neuroscience
★6 (0-0-6). A practical course in the neurosciences where students spend two months in each of at least three research laboratories approved by the Division's Graduate Committee. Students are expected to complete a research project, supervised by a member of the Division, in each of the research areas chosen. Students are evaluated on both their performance in the laboratory and reports written.

NEURO 503 Seminar in Neuroscience
★0.0 (0-1s-0). Neuroscientists from the University of Alberta and other institutions present their research findings and review recent literature in neuroscience.

PMCOL 509 Neuropharmacology
★3 (either term, 3-0-0). This course aims to provide an examination in depth of the mechanisms of action of drugs that influence the central nervous system. The course includes a review of basic membrane biophysics and transmitter biochemistry, before dealing with the major classes of centrally acting drugs. Time will also be devoted to selected special topics. Prerequisite: Consent of Department.

PSYCI 511 Biological Aspects of Psychiatry
★3 (second term, 3-0-0). Lectures and seminars on: classification, description and measurement of psychiatric disorders; sleep disorders; biochemical theories of psychiatric disorders, and discussions of how the actions of the drugs used to treat these disorders relate to these theories; practical aspects of drug treatment; biological markers; physical methodologies used in studying neurochemical aspects of psychiatry (gas chromatography - mass spectrometry, high pressure liquid chromatography, receptor binding techniques, etc.). Prerequisite: Permission of Department.

PMCOL 512 Neurotransmitters
★3 (either term, 3-0-0). Current concepts of neurotransmitters, neuromodulators and trophic factors are discussed in the context of the normal, diseased and developing nervous systems. Students should have some biological background either in physiology, pharmacology, zoology, or the neurosciences. Prerequisite: Consent of Department.

PSYCO 575 Advanced Physiological Psychology
★3 (second term, 3-0-0).

NEURO 603 Graduate Colloquium in Neuroscience
★3 (second term, 0-2s-0). Graduate students present review seminars or lead discussions based on required readings in the neurosciences. Coordinated by a member of the Division. Division members are invited to attend.

4.14 Obstetrics and Gynaecology

4.14.1 Undergraduate Courses

GY 431 Obstetrics and Gynaecology
(first term, 85 hours). An introduction to obstetrics gynaecology, including some topics in human sexu-y. For third year medical students only.

GY 446 Student Internship
(8 weeks). Student internship for students in Phase MD program only.

4.14.2 Resident Training

A complete four-year residency program is offered obstetrics and gynaecology by the Department of stetrics and Gynaecology and the affiliated hospitals, uding approved training in obstetrics and gynaecol-y and options in the same and related disciplines.

In the course of this program, which covers a nimum of four years, residents pass through:
GY 541 First Year Obstetrics and Gynaecology
GY 542 Second Year Obstetrics and Gynaecology
GY 543 Third Year Obstetrics and Gynaecology
GY 544 Fourth Year Obstetrics and Gynaecology
d are assesed before promotion from year to year of program by on-the-job assessment and formal ex-inations during the year. Every Wednesday afternoon devoted to formal resident education with visiting fessors, rounds, and seminars. During the period of duate specialty training, all residents are registered full-time students in the Division of Postgraduate dical Education of the Faculty of Medicine.

24.15 Oncology

24.15.1 Undergraduate Course

ICOL 431 Topics in Medical Oncology
(24 hours). For third year medical students only.

24.15.2 Graduate Courses

ICOL 520 Tumor Biology
(second term, 3-0-0). This course will make the dent familiar with a number of aspects of tumor logy which are critical to the understanding of the nesis and the behaviour of tumors. Specific topics to covered in detail include: Malignant transformation, rcinogenesis, the growth, differentiation and metasta-of tumors, genetic abnormalities and anomalies of ne expression, and selected topics of tumor metabo-m. Note: Offered in alternate years.

RA 530 Oncological Radiology
(first term, 3-0-0). An advanced description of the ects of ionizing radiation deposited in mammalian lls on cell biomolecules and function. Radiation-in-ced events will be discussed according to their time ale of action. Selected topics include a description of diation physical and radiation chemical mechanisms of evance in mammalian cells will be presented. Phe-menology of mammalian cell radiation response will discussed in the context of specific theoretical mod-, cellular endpoints of proliferative capacity, chromo-me aberration induction, mutation and cell transformation; diation damage in DNA and other biomolecules will be scribed. General topics include the extrapolation of llular radiation response to tissue effects, the radiobi-ogy of solid tumors and estimation of radiation risk at w doses. Note: Offered in alternate years.

24.16 Ophthalmology

24.16.1 Undergraduate Courses

Ophthalmology is included in MED 421, MED 446, d SURG 446.

24.16.2 Resident Training

The Department of Ophthalmology offers a graduate ining program which fulfills the requirements of the Royal College of Physicians and Surgeons of Canada. For residents requiring four years of training, a first year rotation through medical and surgical specialties related to ophthalmology is available, followed by three years of ophthalmic training. For residents requiring only three years of training, a straight three year ophthalmic program may be provided. Over the four-year period, a total of eleven places are available, thus annual vacancies number two or three. Residents pass through:
OPHTH 541 Pre-ophthalmology Rotation in Medicine and Surgery
and/or
OPHTH 542 First Year Ophthalmology
OPHTH 543 Second Year Ophthalmology
OPHTH 544 Third Year Ophthalmology
and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.17 Paediatrics

124.17.1 Undergraduate Course

PAED 431 Topics in Medical Genetics
★1 (22 hours). For third year medical students only.

PAED 446 Student Internship
★6 (8 weeks). Student internship for students in Phase III only.

124.17.2 Resident Training

A complete residency program is offered in paediatrics by the Department of Paediatrics, using affiliated hospitals and other child care facilities in Edmonton. During the course of this program, residents complete three years of basic training in child health and disease, followed by one further year of subspecialty training. Opportunities for basic and applied research are available. The four-year program is designed to meet the requirements of the Royal College of Physicians and Surgeons of Canada for certification in paediatrics, and residents pass through:
PAED 541 First Year Paediatrics
PAED 542 Second Year Paediatrics
PAED 543 Third Year Paediatrics
PAED 544 Fourth Year Paediatrics
and are assessed before promotion from year to year. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.18 Pathology

124.18.1 Undergraduate Courses

PATH 411 General Pathology
★3 (41 hours). Lectures on the pathological reactions of human tissues and laboratory periods.

PATH 421 Special Pathology
★3 (60 hours). Lectures on the special pathology of human disease and laboratory periods.

PATH 422 General Pathology
★3 (first term, 61 hours). Lectures on the principles of pathology, laboratory instruction in histo-pathology and an introduction to the functions of a pathology laboratory in a hospital.

124.18.2 Graduate Courses

Note: PATH 501 and 502 are intended for residents in pathology, medical microbiology, surgery, or medicine. There are currently no other graduate courses available on human diagnostic pathology. PATH 506 and 507 are intended for residents in pathology, medical microbiology, surgery or medicine, and graduate students from the medical laboratory science program. There are currently no other graduate courses available on medical biochemistry.

Note: Not all graduate courses are offered every year. The consent of Department should be consulted regarding the availability of graduate courses in any academic session.

PATH 501 Cellular and Tissue Structure and General Mechanisms of Disease
★6 (78 hours). Advanced seminars on the Cell Cycle; Instrumentation and Techniques of Electron Microscopy; Pathobiology of Lysosomes, Mitochondria and Endoplasmic Reticulum; Humoral and Cellular Mechanisms in Immunology; Hypersensitivity; Autoimmune Diseases; Immunology of Cancer; Immunodeficiency Diseases; Transplantation Immunity; Evaluation of Renal Function; Glomerular Disease; Renal Vascular Diseases; Renal Transplantation; Renal Tumors; Hormonal Mammary Dysplasia; Mammary Tumors; Liver Function Tests; Viral Hepatitis; Cholestasis; Alcoholic Liver Disease; Acute and Chronic Hepatitis; Neoplasms of Liver; Fetal and Neonatal Pathology; Diseases of the Placenta. To be offered in alternate years. Restricted to Postgraduate Medical Education students or consent of Department.

PATH 502 Cellular and Tissue Structure and General Mechanisms of Disease
★6 (78 hours). Advanced seminars on Collagen Structure and Function; Blood Coagulation; Bleeding Disorders; Thrombosis and Embolism; Shock; Atherosclerosis; Amyloidosis; Glycogen Storage Diseases; Diabetes Mellitus; Parathyroid Pathology and Metabolic Bone Disease; Disorders of Melanin Metabolism; Nevi and Melanomas; Pathology of Skeletal Muscle; Pathology of the Small Intestine; Pathology of the Colon; Pulmonary Pathology; Pathology of Lymphoid Organs; Parasitology. To be offered in alternate years. Prerequisite: PATH 501, or consent of Department. Restricted to Postgraduate Medical Education students or consent of Department.

PATH 504 Seminars in General Pathology
★1 (either term, 1-0-0).

PATH 506 Medical Biochemistry
★6 (2-0-0). Advanced seminars on instrumentation, Hepatic, Renal, Pancreatic Endocrine and Exocrine Functions; Enzymology and Diagnostic Applications of Enzyme Determinations, Hyperlipidemias. Prerequisite: Undergraduate courses in Medical Physiology and Biochemistry. To be offered in alternate years.

PATH 507 Medical Biochemistry
★6 (2-0-0). Advanced seminars on Metabolic Disorders of Carbohydrates and Amino Acids, Nutritional Deficiencies and Malnutrition, Endocrine Functions, Organization and Quality Control in Medical Biochemistry. Prerequisite: PATH 506 or consent of Department. To be offered in alternate years.

PATH 510 Cryobiology I
★3 (first term, 2-1s-0). Physiochemical changes in aqueous solutions at low temperatures and responses of living cells and tissues to those changes. Current theories of damage and protection during freezing and thawing.

PATH 511 Cryobiology II
★3 (second term, 2-1s-0). Freeze-thaw responses of enzyme systems, individual cells and organized tissues. Preservation of spermatozoa, blood and bone marrow cells, embryos and various tissues. Approaches to the cryoperservation of organs and whole organisms. Applications in medicine and agriculture. Prerequisite: Consent of Department.

PATH 520 Pathology Research Seminar
★1 (0-1s/2-0). Graduate seminars presented by graduate students, faculty and guests in the Department. Required of all pathology graduate students.

124.18.3 Reserve List

The Department is unable to offer the following courses regularly. Students should consult the Department for further information.

PATH 505 Fundamentals of Histochemistry
★2 (first term, 2-0-0).

PATH 610 Subcellular Morphology
★2 (second term, 2-0-0).

124.18.4 Resident Training

Complete residency programs are offered in the various aspects of laboratory medicine by the Departments of Pathology, Medical Microbiology and Infectious Diseases, and the affiliated hospitals. Programs may be taken in the following branches of laboratory medicine: general pathology, anatomical pathology, haematological microbiology and neuropathology. In the course of these programs, which each covers a minimum of four years, residents pass through:
PATH 541 First Year Pathology
PATH 542 Second Year Pathology
PATH 543 Third Year Pathology
PATH 544 Fourth Year Pathology
and are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.19 Pharmacology

124.19.1 Undergraduate Courses

PMCOL 222 Drugs, Medicine and Man
★3 (either term, 3-0-0). This course is designed to acquaint the student who has limited scientific background with many aspects of drug use and abuse in our society. Some of the topics to be covered will include mind-altering drugs, treatment of pain, herbal and folk medicine, antibiotics, nerve gases, and insecticides, food additives and vitamins, over-the-counter drugs, poisons, and toxins, and health quackery.

PMCOL 292 The Elements of Pharmacology
★3 (first term, 3-0-0). This course will provide an overview of pharmacology as a science from its earliest days to the present. Emphasis will be placed upon the development of concepts of drug action. The student will also be introduced to the standard methodologies of quantitative pharmacology. Prerequisite: Consent of instructor.

PMCOL 300 Introduction to Pharmacology
★3 (first term, 3-0-0). Lectures are used to illustrate the principles of pharmacology including rational application of commonly used drugs to the treatment of disease. This course is available only to students in the health professions.

PMCOL 301 Introduction to Pharmacology
★3 (first term, 3-0-0). Lectures are used to illustrate the principles of pharmacology including rational application of commonly used drugs to the treatment of disease. This course is available only to students in the Faculty of Nursing.

PMCOL 302 Introduction to Pharmacology
★3 (first term, 3-0-0). Lectures are used to illustrate the principle of pharmacology including rational application of commonly used drugs to the treatment of disease. This course is available only to students in the Physical Therapy program.

PMCOL 401 Pharmacology Tutorial
★3 (first term, 3-0-0). Research and Reading course.

PMCOL 402 Pharmacology Tutorial
★3 (second term, 3-0-0). Research and Reading course.

PMCOL 403 Introduction to Toxicology
★3 (first term, 3-0-0). Basic concepts involving the adverse effects of chemicals on biological systems are covered. Dose response and probit analysis are introduced. Ethanol, methanol and carbon monoxide toxicity serve as models to demonstrate some basic principals and standards. The role of drugs in cancer, toxic chemicals in the workplace, teratogenesis, and the toxic effects of drugs on organ systems are explored. Prerequisite: Consent of Department.

PMCOL 404 Opioids in Pharmacology
★3 (second term, 3-0-0). A detailed examination of the opioid drugs and opiate drug receptors. Topics covered include: systematic effects of opioid drugs and the natural ligands, synthesis, structure and functions of the endogenous ligands, effects on excitability in the CNS and on peripheral cells, opioid receptor subtypes, drug interactions, tolerance, and treatement of opioid addiction. This is a reading course with a weekly discussion session designed for honors and specialization students but open to any interested student with a suitable background. Prerequisite: Consent of Department.

PMCOL 405 Introduction to Drug Abuse
★3 (either term, 3-0-0). An introduction to the complexities of drug abuse and the drugs of abuse. The student will be introduced to the psychological and social problems of drug abuse and their impact upon the abuser. Objectives of the course are to develop an understanding of addiction and a detailed knowledge of the nature of the commonly abused substances. Emphasis will be placed upon the pharmacology of drugs of abuse. The specific drugs to be studied will vary, students will have a voice in determining the drugs to be studied. Prerequisite: Consent of instructor.

PMCOL 411 Principles of Pharmacology
★5 (72 hours). Lectures and tutorials are used to illustrate the basic principles of pharmacology. The course is offered only to medical students during Phase I of their program.

PMCOL 421 Basic Principles of Therapeutics and Toxicology
★3 (56 hours). Lectures and panel discussions are used to illustrate the principles of Toxicology and the rational use of drugs in the treatment of common diseases. The course is offered only to medical students during Phase II of their program.

PMCOL 431 General Pharmacology
★6 (3-0-0). The pharmacological actions of drugs selected for their physiological and clinical significance. Basic pharmacological principles are applied to representative clinically important drugs having their primary actions on various organ systems of the body. The course includes a study of chemotherapeutic agents used in the treatment of infections and neoplasia, and an introduction to management of poisoning cases. Restricted to students in the Faculty of Pharmacy.

PMCOL 432 General Pharmacology
★6 (3-0-3). The pharmacological actions of drugs selected for their physiological and clinical significance. Basic pharmacological principles are applied to representative clinically important drugs having their primary actions on various organ systems of the body. The course includes a study of chemotherapeutic agents used in the treatment of infections and neoplasia, and an introduction to management of poisoning cases. Available for graduate and science students. Prerequisite: BIOCH 301 or equivalent, and PHYSL 310 and consent of Department.

PMCOL 433 Topics in Therapeutics and Problem Solving.
★1 (23 hours). For third-year medical students only.

PMCOL 435 Experimental Procedures in Pharmacology
★3 (either term, 1-0-6). A laboratory course intended primarily for honours pharmacology students and advanced students in related disciplines. Using both intact and isolated tissue preparations students will perform a variety of experiments of types commonly encountered in pharmacological research. The laboratory sessions will include didactic material and instruction in animal handling, humane methods of euthanasia, anesthesia, body fluid sampling, administration of drugs and elementary surgical and dissection techniques required in the experiments. Prerequisite: Normally PMCOL 432 or an equivalent course is required as a prerequisite or corequisite. Consent of Department is also necessary.

PMCOL 436 Analytical Techniques
★3 (either term, 1-0-6). A laboratory course in which the use of biochemical techniques as applied to pharmacological problems will be emphasized. The course will include both a theoretical consideration of the procedures under study, together with practical instruction and practice in their execution. Prerequisite: Consent of Department.

PMCOL 498 Pharmacology Research Program
★6 (0-0-6). During their fourth year all honors candidates are required to carry out a program of directed research under the supervision of a staff member. This program will be related to the special interest of the student and will involve experimental work as well as a written report on the part of the student. Prerequisite: Consent of Department. Available to fourth year honors students only.

PMCOL 499 Pharmacology Honors Seminar
★0.0 (0-1s-0). All fourth year honors students will be required to present at least one seminar based upon a selected topic from the literature or from their research project during the course of the academic year. Prerequisite: Consent of Department. Available to fourth year honors students only.

124.19.2 Specialization/Honors Courses

The pharmacology courses which are are offered as part of of the BSc (Specialization/Honors) program are listed in §194 of this Calendar.

124.19.3 Graduate Course

Note: Not all graduate courses of the Department should be consulted regarding the prerequisites for and availabilty of graduate courses in any academic session.

PMCOL 501 Pharmacology Tutorial, Research and Reading Course
★3 (first term, 3-0-0).

PMCOL 502 Pharmacology Tutorial, Research and Reading Course
★3 (second term, 3-0-0). PMCOL 503 Pharmacology Tutorial, Research and Reading Course

PMCOL 503 Pharmacology Tutorial, Research and Reading Course
★3 (Intersession,3-0-0).

PMCOL 505 Cancer Chemotherapy
★3 (either term, 3-0-0). A survey of the cellular and biochemical pharmacology of agents currently employed in chemotherapy of neoplastic disease; drug metabolism, mechanisms of action and of resistance will be discussed. Given in sequence with Division of Oncology courses. Prerequisite: BIOCH 301 or equivalent and consent of Department.

PMCOL 506 The Actions of Drugs on Membranes
★3 (either term, 3-0-0). This course will examine the interactions of drugs with selected membrane lipid receptors, transporters and enzymes. Prerequisite: Consent of Department.

PMCOL 508 Molecular Pharmacology
★3 (either term, 3-0-0). This course aims to provide a understanding of the general mechanisms of drug actio at the molecular level. Theoretical aspects of dru receptor interaction are presented in detail followed by consideration of the mechanisms of signal transductio that have been associated with different receptor type Prerequisite: Consent of Department.

PMCOL 509 Neuropharmacology
★3 (either term, 3-0-0). This course aims to provide a examination in depth of the mechanisms of action drugs that influence the central nervous system. Thi course includes a review of basic membrane biophysic and transmitter biochemistry, before dealing with th major classes of centrally acting drugs. Time will also b devoted to selected special topics. Prerequisite: Cor sent of Department.

PMCOL 510 Advanced Topics
★3 (first term, 3-0-0).

PMCOL 511 Advanced Topics
★3 (second term, 3-0-0).

PMCOL 512 Neurotransmitters
★3 (either term, 3-0-0). Current concepts of neurotrans mitters, neuromodulators and trophic factors are dis cussed in the context of the normal, diseased an developing nervous systems. Students should have som biological background either in physiology, pharmaco ogy, zoology, or the neurosciences. Prerequisite: Cor sent of Department.

PMCOL 515 Cardiovascular Pharmacology
★3 (either term, 3-0-0). This course aims to provid instruction on current concepts of drug action at a molecul level, on both inotropy and rhythmicity the heart, and th selective control of the vasculature as well as providing a overview of current therapeutic options in the treatment c cardiovascular disease. Prerequisite: PMCOL 432 c equivalent and consent of Department.

PMCOL 600 Seminar in Pharmacology
★0 (0-1s-0).

PMCOL 602 Clinical Pharmacology
★3 (either term, 2-0-0). This course is aimed at provid ing residents in the Faculty of Medicine, together wit graduate students in Pharmacology, Phamacy, and Nursin with an understanding of the interaction of basic phar macological principles that occur during the therapeuti action of drugs in the treatment of disease. The cours takes the form of seminars that review clinical cases, wit explanatory input from a panel of experts on each aspec of the cae. Prerequisite: Consent of Department.

124.20 Physical Medicine and Rehabilitation

124.20.1 Resident Training

A complete four year residency training program i offered by the Division of Physical Medicine and Reha bilitation. In the course of the program, residents com plete two years of approved training in physical medicin and rehabilitation and two years of training in the relate disciplines of neurology, orthopaedics, and interna medicine. In the course of this program, which covers minimum of four years, residents pass through:

PHMED 541 First Year Physical Medicine an Rehabilitation Medicine
PHMED 542 Second Year Physical Medicine an Rehabilitation Medicine
PHMED 543 Third Year Physical Medicine an Rehabilitation Medicine
PHMED 544 Fourth Year Physical Medicine an Rehabilitation Medicine

and are assessed before promotion each year. Durin the period of graduate specialty training, all residents ar registered as full-time students in the Division of Post graduate Medical Education of the Faculty of Medicine.

124.21 Physiology

124.21.1 Undergraduate Courses

Details on the BSc Program in Physiology can be found in §193.19.

PHYSL 161 Elementary Physiology
★6 (3-0-1;3-0-1). Available only to students in the Fac ulty of Rehabilitation Medicine (Physical Therapy an

ccupational Therapy) and the Medical Laboratory Sci-nce program in the Faculty of Medicine.

HYSL 162 Elementary Physiology
6 (3-0-0). Available only to students in the Faculty of ursing.

HYSL 310 Physiology
6 (3-0-0). Introductory course in mammalian and uman physiology. Prerequisite: ZOOL 120, CHEM 100 r 104 or 204, CHEM 160 or 260. Departmental ap-roval is required for those students who have taken, or ish to take ZOOL 241 or 242 for credit.

HYSL 352 Human Physiology
6 (3-0-0;3-0-3). An introductory course on mammalian nd human physiology. Available only to students in the aculties of Pharmacy and Home Economics.

HYSL 401 Molecular and Cellular Physiology
3 (first term, 3-0-0). A course which covers the mo-ecular and cellular aspects of physiological processes. ome of the main areas covered will be the structure nd functions of plasma membranes with emphasis on ransport processes and their regulation. The mecha-ism of action of hormones (hormone-receptor interac-ions, receptor regulation and interactions of intracellular ediators), ionic channels, synaptic transmission, neu-onal development and molecular mechanisms for learning nd memory. The physiological significance of these rocesses will be stressed throughout. Prerequisite: HYSL 310 and consent of the instructor.

HYSL 404 Cardiovascular Physiology
3 (second term, 3-0-0). The course will emphasize eneral concepts in human cardiovascular physiology: roperties of the myocardium, hemodynamics and con-rol of the cardiovascular system; there will be limited iscussion of relevant clinical situations. Prerequisite: HYSL 310 or equivalent.

HYSL 410 Modern Techniques in Physiology
3 (second term, 0-0-6). Students will rotate through everal laboratory exercises which will illustrate some urrently used techniques in physiology. Areas will in-lude endocrinology, neurophysiology, membrane and ell physiology. Prerequisite: PHYSL 310 and 401, or onsent of Department.

HYSL 411 Medical Physiology
6 (136 hours). Open to medical students only. Con-ists of a comprehensive lecture course in mammalian nd human physiology, designed to fulfill the requirements f medical students.

124.21.2 Graduate Courses

HYSL 401 Molecular and Cellular Physiology
3 (first term, 3-0-0). A course which covers the mo-ecular and cellular aspects of physiological processes. ome of the main areas covered will be the structure nd functions of plasma membranes with emphasis on ransport processes and their regulation. The mecha-ism of action of hormones (hormone-receptor interac-ions, receptor regulation and interactions of intracellular ediators), ionic channels, synaptic transmission, neu-onal development and molecular mechanisms for learning nd memory. The physiological significance of these rocesses will be stressed throughout. Prerequisite: HYSL 310 and consent of the instructor.

HYSL 404 Cardiovascular Physiology
3 (second term, 3-0-0). The course will emphasize eneral concepts in human cardiovascular physiology: roperties of the myocardium, hemodynamics and con-rol of the cardiovascular system; there will be limited iscussion of relevant clinical situations. Prerequisite: HYSL 310 or equivalent.

HYSL 410 Modern Techniques in Physiology
3 (second term, 0-0-6). Students will rotate through everal laboratory exercises which will illustrate some urrently used techniques in physiology. Areas will in-lude endocrinology, neurophysiology, membrane and ell physiology. Prerequisite: PHYSL 310 and 401, or onsent of Department.

EUROL 471 Neuroscience I: Cells, Membranes and Molecules
3 (first term, 3-0-0). Lectures presented by the Faculty of Medicine and the Faculty of Science on excitable membranes, action potential mechanisms, conduction and synaptic mechanisms; factors modifying degeneration, regeneration, development and learning. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or ZOOL 242.

EUROL 472 Neuroscience II: Systems
3 (second term, 3-0-0). Lectures presented by the Faculty of Science and the Faculty of Medicine on visual and somatosensory systems, motor control via reflexes and central pattern generators; homeostasis, control of feeding, drinking, temperature and reproduction; neu-robehavioral aspects of attention, arousal, cognition, memory and cerebral asymmetry. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or equivalent.

PHYSL 501 Topics in Cardiovascular Physiology
3 (second term, 3-0-0).

PHYSL 502 Problems in Current Research
3 (either term, 0-0-6). Individual study.

PHYSL 506 Tutorial and Seminar Course
3 (either term, 3-0-0). Guided reading course.

INT D 543 Current Problems in Neuroendocrinology
3 (second term, 3-0-3). Discussion of selected topics in neuroendocrinology. Prerequiste: ZOOL 343 or PHYSL 401. Credit for this course may be obtained more than once. Offered alternate years.

INT D 544 Physiology of Reproduction
3 (second term, 3-0-0). [Physiology]

INT D 545 Physiology of Transport Systems
3 (second term, 3-1s-0). A consideration of transport mechanisms primarily from the physiological rather than biochemical viewpoint. Major models considered are the vertebrate erythrocyte and a variety of epithelia from vertebrates and invertebrates. Designed for advanced undergraduate and graduate students. Offered in alternate years. Prerequisite: PHYSL 310 or 352 or ZOOL 241 or 242. [Physiology]

124.21.3 Reserve List

The Department is unable to offer the following courses regularly. Students should consult the Department for further information.

PHYSL 503 Biophysics of Nerve and Muscle
3 (second term, 3-0-0).

PHYSL 505 Topics in Neurophysiology
3 (first term, 3-0-0).

124.22 Psychiatry

124.22.1 Undergraduate Courses

PSYCI 421 Introduction to Psychiatry
2 (34 hours). The course consists of 34 one-hour lectures outlining the major syndromes and conditions in clinical psychiatry.

PSYCI 446 Student Internship
6 (8 weeks). Student internship for students in Phase III, MD program only.

124.22.2 Graduate Courses

PSYCI 511 Biological Aspects of Psychiatry
3 (second term, 3-0-0). Lectures and seminars on: classification, description and measurement of psychiatric disorders; sleep disorders; biochemical theories of psychiatric disorders, and discussions of how the actions of the drugs used to treat these disorders relate to these theories; practical aspects of drug treatment; biological markers; physical methodologies used in studying neurochemical aspects of psychiatry (gas chromatography - mass spectrometry, high pressure liquid chromatography, receptor binding techniques, etc.). Prerequisite: Permission of Department.

124.22.3 Resident Training

A complete residency program in psychiatry, meeting the requirements of the Royal College of Physicians and Surgeons of Canada, is offered by the Department of Psychiatry, and utilizes the University Hospital and other affiliated hospitals, clinics and services. During the program, residents complete two years of approved university-based training in psychiatry, and in addition, two further years of related clinical, basic science or research work. During the four years, residents pass through:
PSYCI 541 First Year Psychiatry
PSYCI 542 Second Year Psychiatry
PSYCI 543 Third Year Psychiatry
PSYCI 544 Fourth Year Psychiatry
and are assessed periodically. Residents attend a series of seminars of approximately 400 hours, covering clinical psychiatry, basic sciences, and related topics. All residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.23 Radiology and Diagnostic Imaging

124.23.1 Undergraduate Courses

Undergraduate training in radiology is included in ANAT 411, MED 421, MED 431 and NEURO 421.

RADDI 446 Student Internship
3 (4 weeks). Student Internship for students in Phase III, MD program only.

124.23.2 Graduate Course

RADDI 511 Physics of Diagnostic Imaging - Fundamentals
3 (2-0-1). This course is divided into two main sections:

(1) Basic Radiation Physics which deals with nuclear and atomic structure using the Bohr model; Radiation Dose, Risk and Safety from low-level ionizing radiation to Diagnostic Radiology, Radiobiology.

(2) General Radiography: production and clinical use of X-rays; the radiographic image and image parameters; patient radiation/imaging concepts.

There will be also a lab component where the student will spend an average of one hour per week in a diagnostic procedure room completing specified imaging tasks/lessons. These labs will not be held at specific times, but will be arranged individually for each student. This course will be offered in alternate years to RADDI 512. Prerequisite or corequisite: PHYS 475/477 or consent of Department.

RADDI 512 Physics of Diagnostic Imaging - Imaging Modalities
3 (2-0-0). This course will build on the curriculum present in RADDI 511 and will discuss in detail the physics involved in the following imaging modalities: Fluoroscopy, Conventional Tomography, Digital Techniques (DSA), Computed Tomography (CT), mammography, Nuclear Medicine, Ultrasound, Magnetic Resonance Imaging (MRI). This course will be offered in alternate years to RADDI 511. Prerequisite or corequisite: RADDI 511, PHYS 475/477 or consent of Department.

ON RA 530 Oncological Radiology
3 (first term, 3-0-0). An advanced description of the effects of ionizing radiation deposited in mammalian cells on cell biomolecules and function. Radiation-induced events will be discussed according to their time scale of action. Selected topics include a description of radiation physical and radiation chemical mechanisms of relevance in mammalian cells will be presented. Phenomenology of mammalian cell radiation response will be discussed in the context of specific theoretical models, cellular endpoints of proliferative capacity, chromosome aberration induction, mutation and cell transformation; radiation damage in DNA and other biomolecules will be described. General topics include the extrapolation of cellular radiation response to tissue effects, the radiobiology of solid tumors and estimation of radiation risk at low doses. Note: Offered in alternate years.

RADDI 600 Special Topics in Radiology Research
2 (second term, 0-2s-0). A seminar course for advanced students covering selected topics from the current literature in the fields of medical imaging, radiological physics, radiation biology and radiation biophysics.

124.23.3 Resident Training

Diagnostic Radiology
A complete residency program is offered in diagnostic radiology by the Department of Radiology and Diagnostic Imaging and the affiliated hospitals. In the course of this program, residents complete four years of training as approved by the Royal College of Physicians and Surgeons of Canada enabling the resident to sit the Royal College Examinations in Diagnositic Radiology. Residents pass through:
RADDI 541 First Year Diagnostic Radiology
RADDI 542 Second Year Diagnostic Radiology
RADDI 543 Third Year Diagnostic Radiology
RADDI 544 Fourth Year Diagnostic Radiology
Residents are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

Nuclear Medicine
A complete residency program is offered in nuclear medicine by the Department of Radiology and Diagnostic Imaging and affiliated hospitals. The training meets

the requirements of the Royal College of Physicians and Surgeons of Canada and qualifies the resident to sit the specialty examinations in Nuclear Medicine set by the Royal College of Physicians and Surgeons. In the course of this program, residents complete two years of approved training in nuclear medicine, one year of approved training in other imaging modalities, and one year of approved training in a variety of options in related disciplines. In the course of this program, taking a minimum of four years, residents pass through:

RADNM 541 First Year Nuclear Medicine
RADNM 542 Second Year Nuclear Medicine
RADNM 543 Third Year Nuclear Medicine
RADNM 544 Fourth Year Nuclear Medicine

Residents are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

Radiation Oncology

A complete residency program is offered in radiation oncology by the Department of Radiology and Diagnostic Imaging and the affiliated hospitals. The program fulfills the criteria set by the Royal College of Physicians and Surgeons of Canada and on successful completion of the program, allows the resident to sit the Royal College of Physicians and Surgeons of Canada examinations in Radiation Oncology. In the course of this program, residents complete three years of approved training in radiation oncology and one year in related disciplines. In the course of this program, residents complete three years of approved training in Radiation Oncology and one year of approved training in related disciplines. In the course of this program, which covers a minimum of four years, residents pass through:

RADTH 541 First Year Radiation Oncology
RADTH 542 Second Year Radiation Oncology
RADTH 543 Third Year Radiation Oncology
RADTH 544 Fourth Year Radiation Oncology

Residents are assessed before promotion from year to year of the program. During the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.24 Surgery

124.24.1 Undergraduate Courses

Surgery is included in MED 421 and MED 432.

SURG 431 Topics in Otolaryngology
★1 (16 hours). For third year medical students only.

SURG 446 Student Internship
★9 (12 weeks). Student internship for students in Phase III only.

124.24.2 Graduate Courses

SURG 500 Experimental Surgery
★3 (second term, 0-0-3). Designed to introduce MSc and PhD candidates to basic experimental surgical procedures. Course will include: (a) surgical anatomy of laboratory animals, (b) basic surgical methods, (c) selected methods in experimental surgery. Prerequisite: Consent of Department.

SURG 520 Directed Reading in Biomedical Research
★3 (2-0-0). Lecture series on research techniques in the biomedical sciences intended for students with an advanced medical background. Prerequisite: Consent of Department

SURG 530 Directed Reading in Biology and Medicine
★3 (either term, 3-0-0). Reading and study of topics in biomedical research of relevance to the student's interest under direction of one or more faculty members.

SURG 600 Research Seminar
★2 (0-1s-0). A weekly series of seminars on current research is held during both terms. Graduate students must attend and make two presentations in this series.

124.24.3 Resident Training

Complete residency programs are offered in general surgery, neurosurgery, plastic surgery, orthopaedic surgery, otolaryngology, thoracic and cardiovascular surgery, and urology by the Department of Surgery. Clinical experience is provided in the affiliated hospitals. All programs are designed to fulfill the requirements of the Royal College of Physicians and Surgeons of Canada, and include appropriate experience in related disciplines. The educational content of the clinical program is enriched through the provision of seminar courses designed officially to meet the needs of trainees at various levels of the program, in addition to usual ward rounds and conferences conducted within the Department. Excellent facilities are available for basic research, which is an integral part of the program for most subspecialties. Trainees electing to prepare for a graduate degree may register in the Faculty of Graduate Studies and Research in programs leading to the MSc and PhD in experimental surgery.

During the period of graduate specialty training, which covers a minimum of four years, residents pass through:

SURG 541 First Year Surgery
SURG 542 Second Year Surgery
SURG 543 Third Year Surgery
SURG 544 Fourth Year Surgery

and in the case of some subspecialty programs where a minimum of five years is required

SURG 545 Fifth Year Surgery

They are assessed before promotion from year to year of the program, and during the period of graduate specialty training, all residents are registered as full-time students in the Division of Postgraduate Medical Education of the Faculty of Medicine.

124.25 Courses by other Faculties

The following table lists renumbered courses effective 1991-92:

Old	New
BIOL 197	GENET 197

124.25.1 Medical Laboratory Science Program

The courses listed below are required in the first year of the Medical Laboratory Science program.

CHEM 100 Introductory University Chemistry
★6 (3-1s-3). Stoichiometry; ideal gases; claorimetry, chemical energy. Hess' Law; equilibrium, acids, bases; bonding; solubility products; oxidation-reduction, electrochemical cells and the Nernst equation; coordination chemistry; chemical kinetics, with applications to inorganic chemistry. Prerequisite: Chemistry 30, or equivalent. Students enrolled in MATH 113 or MATH 114 should register in CHEM 104.

CHEM 160 Organic Chemistry
★6 (3-0-3). The study of functional groups found in the main classes of organic compounds and their molecular conformation and stereochemistry in such a way that the chemistry of some molecules important to biology (eg., amino acids, proteins, medicinals, pesticides, fats, sugars, carbohydrates, nucleic acids) as well as some molecules found in everyday life (soaps, detergents, fibers, perfumes, polymers, etc.) can be discussed. Note: Students with credit in CHEM 100 or 104 normally will proceed to CHEM 260. Such students may enroll in CHEM 160 only if written consent of Department is obtained. Prerequisite: Chemistry 30 or equivalent.

MICRB 193 Introductory Microbiology
★3 (either term, 3-0-4/2). This course provides an introduction to the biology and practical significance of bacteria, viruses and fungi. It describes the structure, nutrition and physiology of microorganisms in a variety of natural and controlled environments. The beneficial and harmful roles of microorganisms in the ecosphere, infectious diseases, industrial processes and biotechnology will be discussed. The laboratory presents a combination of exercises and demonstrations designed to give the student experience in the handling and examination of microorganisms. Prerequisite: Biology 30 and Chemistry 30.

GENET 197 Heredity
★3 (either term, 3-0-3). The cellular and molecular basis of the transmission of hereditary characteristics: Mendelian inheritance and its cytological basis; microbial genetics; cytoplasmic inheritance; linkage and genetic mapping; DNA as genetic material; gene action; the genetic code. Note: Students cannot receive credit for both GENET 197 and GENET 351. Those taking GENET 197 should take GENET 275 for the equivalent of GENET 351. Prerequisite: Biology 30.

University of Alberta
Edmonton

1991/92 Calendar

School of Native Studies

School of Native Studies

131 Introductory

131.1 Members of the School

131.1.1 Officers of the School

Director and Associate Professor
RT Price, MA

Secretary
B Findlay

131.1.2 Academic Staff

Assistant Professor (Cree Language)
E Hunter

Adjunct Professor
D Brown, PhD

Research Associate
M Asch, PhD

131.1.3 Members of the School Council

The School Council was established in 1987 under the authority of the Universities Act and the General Faculties Council (GFC). The composition of the School Council, which was approved by the General Faculty Council in 1984, strikes a balance between the needs of the two primary constituencies — the members of the University community and the Native community. The needs of both constituencies are viewed as complimentary.

In the 1984 rationale for the School Council, the University was to have the majority of members on the Council because "the University is ultimately responsible for the course of study and granting of the academic degree." Also, the University was seen to have an important role in ensuring the academic integrity and excellence of Native Studies. The common commitment to excellence of all School Council members was viewed as a unifying factor. The Native community was given strong representation on the School Council, and it was recognized that Native community influence on the School's program, was vital for the School to achieve its potential.

Accordingly, the School Council is composed of: six Native Studies Faculty members (or other University of Alberta faculty members, who are competent in some area of Native Studies); six Faculty members representing the range of disciplines most affected by the School; six members of the Native Community; plus two Native Studies students, and four ex-officio members (the President, the Registrar, the Director of Native Student Services, and the Director of the School of Native Studies, who shall serve as the Chair of the Council).

Members of the School serve varying terms of office. Strong effort is made to ensure a balanced and fair representation of Native community representatives, especially from Alberta, but also from the NWT and the Yukon. The current members of the School Council who have been appointed by the Vice-President are:

Ex-officio Members
P Davenport, PhD
BJ Silzer, MEd
P Miller, PhD
RT Price, MA

Native Community Representatives
G Buffalo
R Gruben
L McDonald
D Richardson
F Thomspon

University Community Representatives

a. Native Studies Faculty (or Native Studies expertise)

M Asch, PhD, Anthropology
J Foster, PhD, History
M Freeman, PhD, Anthropology
E Hunter, School of Native Studies
T Pocklington, PhD, Political Science

b. Representatives from other Faculties

M Assheton-Smith
M Cox-Bishop
A McLellan
S Pawluk

c. Native Student Representatives

to be named

131.2 General Information

The establishment of an academic unit focusing on Native Studies has been discussed within the University of Alberta since 1972, when such a unit was proposed in a University Senate Committee meeting by representatives of the Indian Association of Alberta.

In 1978, twenty recommendations were made to the University Senate by their task force regarding improved service to Native people and a more coherent involvement in Native Studies. In that same year, General Faculties Council of the University of Alberta established a Standing Committee on Native Studies consisting of University of Alberta faculty members and students and representatives of the Native community at large.

After several years of research, discussion, and consultation with interested individuals and groups, both inside and outside the University, the Committee on Native Studies opted in favour of an ambitious rather than a modest program of Native Studies.

The Committee on Native Studies proposed the establishment of a School of Native Studies that would be multi-disciplinary in character, instead of a small department that would confine itself to Native history, language, and culture. The School would offer a wide range of courses leading to a Bachelor of Arts degree in Native Studies, as well as minor concentrations for students in other faculties. Faculty members and students would engage in research with special attention to language and land use. Though not parochial in its outlook on Native Studies, the School would pay particular attention to Native peoples - Indian, Inuit, and Metis of the Canadian West and North.

The establishment of a School of Native Studies and a Bachelor of Arts in Native Studies were approved by the General Faculties Council and the Board of Governors of the University in the Spring of 1984. In 1988, the General Faculties Council and the Government of Alberta approved a program of study leading to the Bachelor of Arts in Native Studies. In the same year, the Universities Coordinating Council, which coordinates programs offered by the four Alberta universities, also approved the School and the degree.

The School of Native Studies is an academic unit concerned primarily with teaching and research. As such, it is separate both administratively and functionally from the Office of Native Student Services.

131.3 The Objectives of the School of Native Studies

(1) To incorporate academic study and learned discourse in Native Studies and Native issues in a multi-disciplinary administrative unit.

(2) To promote research which will be of benefit to the community generally.

(3) To promote research which will be of specific benefit to Native people and Native communities, for example, by providing information about alternatives in development.

(4) To promote research which will be of benefit to the other disciplines which contribute to that area of study.

(5) To promote the inclusion of Native people in the study of Native people and Native issues.

The specific goals of the School are:

(1) To develop a program, through the initiation of course offerings and the use of existing courses, leading to the degree of Bachelor of Arts in Native Studies.

(2) To develop and encourage multi-disciplinary research programs in Native Studies, in cooperation with other agencies of the University and with the Native community.

(3) To develop courses which may be of service to other academic units of the University, either as options or as secondary fields of concentration.

(4) To coordinate with the Division of Special Sessions off-campus offerings of particular interest or importance to Native communities.

(5) To cooperate with the Faculty of Extension in the offering of non-credit courses, when those are of particular interest or importance to Native people.

These objectives and goals will be phased in gradually, each new phase based on a record of accomplishment in the previous one, both in regard to academic excellence and in service to the community.

132 School Regulations

The General Faculties Council (GFC) policies and regulations that apply to all Faculties and Schools apply to the School of Native Studies.

The requirements of the BA in Native Studies are comparable to those of the Faculty of Arts. This includes such matters as academic standards and academic performance regulations.

132.1 Admission and Transfer

The normal admission requirements of the School of Native Studies will be found in §13.4.11 of this Calendar. Additional general admission information can be found in §§13.8 to 13.9 of this Calendar.

(1) **Non-Matriculated Applicants:** Refer to §13.8.8 of this Calendar for admission criteria. Following admission as a non-matriculated applicant, successful completion of the normal first year of the BA program will stand in lieu of matriculation. An applicant who fails half, or more than half, of the 30 units of course weight in first year, will be required to withdraw from the School of Native Studies, and must complete matriculation requirements before being considered for readmission.

(2) **Language Requirement:** Students admitted to the School of Native Studies must either present Alberta Grade 12 standing or equivalent in a language other than English or take such a course during the first year as part of the program. Matriculated students will not receive credit for the course towards the BA program; non-matriculated applicants will receive credit. Please refer to §132.5 Cree Exams.

Note: Students without a recognized course in a Native Language must register in a Native Studies language course during their first year of study in the program.

(3) **English Language Proficiency:** For details see §13.2.2 of this Calendar.

(4) **Transfer from other faculties in the University:** Students in good standing in their past year's work in another faculty at the University of Alberta may transfer to the School of Native Studies for the regular academic session by submitting an Application for Readmission or On-Campus transfer form to the Registrar's Office. Refer to §14 of this Calendar for School deadlines. Transfer credit for course work already taken which is applicable to the Native Studies program, will be given. Transferring students will be required to clear any matriculation

deficiencies specific to the School of Native Studies. This may be done by taking a suitable course, or courses, at the junior level. Students must register in these courses in the first year in the School. The decision as to whether or not courses will be accepted for degree credit rests with the Director and depends on the nature of the deficiency.

Students with unsatisfactory standing in their past year's work in another faculty may be required to obtain a recommendation from Student Counselling Services before their application for transfer will be considered.

(5) **Course Load Requirement:** Students taking a program of 120 units of course weight in the School of Native Studies must have credit for at least 60 units of course weight from the University of Alberta. The final 30 units of course weight of the program must be taken at the University of Alberta campus.

The Director may make an exemption from this regulation for exceptional circumstances. Students who have fulfilled the 60 units of course weight requirement before beginning the final year may apply to the Director for permission to take one or more of the final 30 units of course weight elsewhere. Also refer to §16.2 of this Calendar.

(6) **Readmission after Requirement to Withdraw:** Normally at least one calendar year must elapse before readmission will be considered.

Readmission of non-matriculated applicants after a failure in half, or more than half, of the 30 units of course weight in first year will be considered only after matriculation requirements have been completed.

132.2 Registration and Changes of Registration

Deadlines are strictly adhered to. See §14.2 of this Calendar.

For further information refer to §15.1 of this Calendar.

(1) **Student Responsibility:** Students are responsible for the completeness and accuracy of their registration and for ensuring their programs are in accordance with degree specifications. Please read the Calendar carefully and if you are in doubt about the regulations pertaining to your program, please consult the School Office.

(2) **Failure to "drop" a course:** Students who do not formally withdraw from a course but who are absent from the final examination without excuse (see §16.5.2 of this Calendar) will be given a mark of zero (0) on the final examination. The final grade in the course will then be determined by combining the appropriately weighted term grade and the assigned zero in the final examination, the mathematical result rounded to the lowest whole number. Students who register in a course but do not attend and do not formally withdraw will receive a grade of 1.

A student who withdraws from a course after the deadline date and who thereby receives a grade of withdraw-failing (WF), will have a grade of 1 calculated into the Grade Point Average.

Also refer to §16.5.2 and §132.6 of this Calendar.

(3) **Course Load Requirement:** Normally, students in the School of Native Studies take a full course load, i.e. 30 units of course weight during the academic session. In exceptional circumstances, and following completion of the first 30 units of course weight, acceleration to the maximum of 36 units of course weight per academic session may be permitted. In the BA in Native Studies program, students are permitted to take less than a full course load.

132.3 Classification and Selection of Courses

(1) **Course Definitions**

a. **Course Designation:** Each course is designated by its computer abbreviation and a number.

b. **Units of Course Weight:** A unit of course weight is an indication of the instructional credit assigned to a course and is designated by the ★ symbol after the course number and name. Units of course weight are used to measure the portion of the degree requirements and are also used in calculating a student's Grade Point Average (GPA) and Cumulative Grade Point Average (CGPA).

c. **Full Course Weight (FCW):** A full course weight (FCW) is a single course or a group of courses whose combined course weight is ★6.

d. **Full Course:** A course with a weighting factor of six or greater, that normally extends over two consecutive University terms.

e. **Half Course:** A course with a weighting factor of less than six that normally extends over one University term.

f. **Normal Course Load:** A normal full academic course load is 30 units of course weight during the winter session.

g. **Options:** The term "option," where it appears in programs, means a School of Native Studies course freely chosen by the student provided the necessary prerequisite requirements have been met. An approved option is an option approved by the School.

h. **Courses extra to the Degree:** Courses taken during the student's tenure in the School which, with the approval of the Director of the School, are not being used for degree credit, are designated as courses extra to the degree.

i. **Research Project:** This course NS 499 may vary in weight according to the length and difficulty of the research project.

(2) **Junior English:** ENGL 101 is required for the Native Studies BA degree program.

(3) **First Year:** Mandatory first year requirements in all programs include a junior English course and a course to clear a deficiency (where applicable). Other first year requirements are listed in §133.1.3 of this Calendar.

(4) **Restricted Enrollment Courses:** The School of Native Studies strives to accommodate all students wishing to enroll in a given course when it is appropriate to the student's program. However, classes in some courses must, for academic reasons, be restricted in size. Such courses will be labelled 'restricted enrollment' courses in the timetable. If such a course is found to be oversubscribed, students whose programs do not require that course may be required to delete it from their registration.

(5) **Junior Courses:** In all programs normally no more than 42 units of course weight at the 100-level may be taken for degree credit. In no case will this limit be extended to permit a student to make up a matriculation deficiency for degree credit, or to include a 'free' option at the junior level.

132.4 Grades and Credits

132.4.1 Matriculation Equivalency Assessment (Native Languages)

Students who have sufficient command of a native language other than English (LOE) may clear an admission deficiency in an LOE by the successful completion of a test indicating they have the equivalent of a 30-level standing, provided the School of Native Studies can provide or facilitate an examiner in the language presented. Inquiries may be made to the School Office. Native language tests (other than Cree) may have to be taken at another University offering that language. See §132.5.1 on Cree Language Exams for further information.

132.4.2 Advanced Placement

Students who do not hold credit in prerequisite courses, but who feel they have sufficient knowledge, may be permitted registration in an upper level course, upon successful completion of a placement test. These tests are normally conducted for language courses (eg. Cree). See also §13.9.4 and §132.5.2 of this calendar.

132.4.3 Transfer of Credit

Refer to §13.9.3, §132.1(5) and §132.1(6) of this Calendar.

132.4.4 Credit by Special Assessment

Note: See also §13.9.5.

A student admitted to a degree program in the School of Native Studies, may receive degree credit in a limited number of courses for knowledge or skill obtained in a non-university context or by private study. "Non-university context" may include work completed at institutions not accredited for degree purposes or may refer to periods of work experience that bear relationship to university courses. The following conditions apply:

(1) **Non-university Context:** A student may apply for credit on this basis, following admission to a degree program.

(2) **Private study:** A student who has been admitted to a degree program and has successfully completed at least one academic year of work (24 or 30 units of course weight) may apply for credit on this basis.

(3) **Number of courses allowed:** Normally, only 18 units of course weight obtained by special assessment may be applied to the degree program. In exceptional circumstances, the Director may permit additional credits by special assessment.

(4) **Limitations:**

a. A student seeking credit in a prerequisite to a course in which advanced placement has been given, must make application for credit by special assessment no later than the last day for course registration in the term in which the advanced course is being taken and must complete the requirements for assessment within the prescribed three months.

b. Except under the special circumstances specified in (3) above, the number of attempts to obtain credit by special assessment is restricted to a maximum of 18 units of course weight.

Note: This limits the number of courses that may be challenged, regardless of results.

(5) **Timing of assessments (deadlines):** The deadline for completion of the examination or assessment is three months from the date of application for credit by special assessment. Unless there are extenuating circumstances, students who fail to complete assessment requirements by the specified deadline will be considered to have cancelled their application and will have to re-apply should they wish to complete that assessment. [see (4) above]

(6) **Courses not accepted:** Graduate courses and Honors courses (i.e., those open only to Honors students and specified as such in the calendar) and normally, "100 level" courses and courses previously audited cannot be attempted by Special Assessment.

(7) **Transfer of "credit by special assessment":** A student who has obtained credits by special assessment (or by similar means) while enrolled in another university, college, faculty, or school, will be given advance credit in such courses only to the extent that the School of Native Studies accepts such courses in its degree programs. [see also (3) above]

(8) **Grades assigned to special assessment courses:** In a course attempted by special assessment, the results will be recorded, either as a grade point or pass/fail according to the practice in the regular course. A student may not appeal the results in a course attempted by special assessment.

(9) **Failure:** A course attempted by special assessment and failed, will be recorded on the transcript of the student concerned and will be computed into his or her academic record.

(10) **Fee:** A fee of $113.00 per three or six units of course weight will be assessed and must be paid before the School undertakes the special assessment. The amount of this fee is subject to change.

132.4.5 Academic Record

Students should be aware that their academic record (i.e., transcript) is a continuing one and that all matters relating to courses, grades, academic standing, probation, etc., will permanently appear on the academic record.

32.5 Cree Language Exams

The School of Native Studies offers the following ree Language exams which may be used to fulfill the latriculation Language other than English requirement MAT LOE) or are relevant to the School of Native tudies and Faculty of Arts Core Program Requirements or a language other than English (Core LOE). Students ishing to take any of these exams should contact the chool of Native Studies to determine in advance the cheduled examination dates and exam arrangements. hese exams must be taken prior to the commencement f classes in September.

32.5.1 Cree Exams

1) Matriculation equivalency assessment is designed for students with a Cree background to fulfill a Language other than English matriculation requirement (MAT LOE). See §132.4.1 for further information.

2) Advanced placement is used for determining placement in NS 101, 102, 151, or 251 for students with a background in Cree other than, or in addition to, high school level 10, 20, 30 courses. For further information, see §132.4.2.

132.5.2 Credit by Special Assessment

Exams are designed for students with a background n Cree. These students can challenge NS 101, 151 or NS 251 for credit. If successful, the student may use hese credits towards fulfilling the Core LOE requirement. Note: NS 101 cannot be used to fulfill both core LOE and he MAT LOE requirements. (Please see Credit Special Assessment, §132.4.4 for further important information, ncluding fee assessment of $100.00.)

132.6 Academic Standing

Beginning Winter Session 1989 academic standing will be assessed on the basis of a cumulative grade-point average (CGPA). Students are expected to maintain a 5.5 minimum CGPA. Students who do not maintain this level of academic performance may be permitted to continue under academic warning or may be required to withdraw.

An initial review of academic performance will be conducted for each student at the end of the winter session, covering the previous calendar year's work; subsequent reviews will be conducted at the end of each session.

The assignment and re-assignment of categories of academic standing is based on a student's performance in a minimum of 12 units of course weight. If, at the time of review, a student has attempted fewer than 12 units of course weight since the last assignment of a category of academic standing, the review will be deferred and the academic standing assigned at the last review will remain in effect until the next review.

(1) **Terms Used in Assessing Academic Standing**

a. **Grade point average (GPA):** Grade point average (GPA) is a sessional measure of academic performance. Rules for the computation of the GPA are listed in §16.4(5).

b. **Cumulative Grade Point Average (CGPA):** The cumulative grade point average (CGPA) is a measure of academic performance obtained by computing a grade-point average for all sessions attended since Spring 1989 using the computational rules in §16.4(5).

For students readmitted on probation after a requirement to withdraw the CGPA will be computed from the time of such readmission.

The GPA is printed on the University transcript. Both averages, the GPA and the CGPA, are printed on the Statement of Results at the end of each session.

c. **Categories of Academic Standing:** There are three categories of academic standing which are determined for each student on the basis of the CGPA

1) **Satisfactory Standing:** a CGPA of 5.5 and above.

2) **Marginal Standing:** a CGPA between 4.5 and 5.4 inclusive.

3) **Unsatisfactory Standing:** a CGPA of 4.4 and below.

(2) **Application of Academic Standings**

a. **Satisfactory Standing:** (CGPA 5.5 and above): Students who maintain a satisfactory standing will be permitted to continue their studies in the School of Native Studies subject to meeting the specific requirements of their degree program and the general requirements of the University of Alberta.

b. **Marginal Standing:** (CGPA 4.5 to 5.4 inclusive): Students receiving the first assessment of marginal standing, are permitted to continue, under academic warning, until the next assignment of academic standing in order to raise the CGPA to 5.5 or higher; providing their specific degree requirements and the general requirements of the University of Alberta are also met. Such students who succeed in raising the CGPA to a least 5.5 may continue their studies with satisfactory standing; but if the CGPA drops below 5.5 in a subsequent review the student is required to withdraw for at least one calendar year.

Students under academic warning who fail to raise the CGPA to at least 5.5 by the next assignment of academic standing will, with one exception, be required to withdraw for at least one calendar year. The exception to the requirement to withdraw is as follows: Students who do not raise the CGPA to at least 5.5 by the next assignment of academic standing but who during the same period, achieve an average of at least 6.0 on all courses attempted will be permitted to continue under academic warning. Continuation over subsequent review periods is permitted, until the CGPA is raised to at least 5.5, as long as the minimum 6.0 average is maintained in each subsequent review period.

c. **Unsatisfactory Standing:** (CGPA 4.4 and below): Students receiving an unsatisfactory standing will be required to withdraw from the School of Native Studies for at least one calendar year.

(3) **Requirement to Withdraw:** In addition to the above, if the average obtained in any review period, on a minimum of two full courses or the equivalent, falls below 4.5, the student will be required to withdraw for at least one calendar year even if the CGPA is 5.5 or higher.

Courses taken during the period of review which resulted in the requirement to withdraw will be retained for credit only if a grade of 5 or higher was achieved.

(4) **Readmission After a Requirement to Withdraw:** A student who was required to withdraw from the School of Native Studies may apply for readmission to the School of Native Studies as a probationary student. Such applications are normally only considered for terms beginning at least one calendar year after the requirement to withdraw. If requested by the School of Native Studies, such applications must be accompanied by a recommendation from Student Counselling Services. Deadlines for submitting applications are listed in §14.

(5) **Probation:** A student admitted, or readmitted, on academic probation remains on probation until the School of Native Studies has ruled that probation has been cleared or failed. Final assessment of a probationary student is made at the end of the term in which the student completes 30 units of course weight. To clear probation a student must have (a) attempted a minimum of 30 units of course weight; (b) achieved in each course a minimum grade of 4; and (c) obtained a minimum 5.5 CGPA on all courses attempted while on probation. A student who clears probation must maintain a satisfactory standing on all subsequent reviews or be required to withdraw.

A student who fails a course will have failed probation even if fewer than 30 units of course weight have been attempted. The final grade on a failed course may be raised through a reexamination if the student is eligible to write a reexamination; however, only one reexamination is permitted during the period of probation.

A student will also have failed probation if the CGPA on a minimum of 30 units of course weight is less than 5.5.

A student who fails probation, or who does not maintain a satisfactory standing after having cleared probation, is required to withdraw from the School of Native Studies and, normally, will not be readmitted.

132.7 Reexamination

(1) An undergraduate student in the School of Native Studies may be permitted a reexamination provided that:

a. The student's GPA for the academic session is 5.5 or greater.

b. The weight of the final examination is 40% or higher.

c. The Director of the School of Native Studies, in consultation with the instructor, indicates that the student will have a high probability of success in taking a reexamination.

(2) If a reexamination is approved the following policies apply:

a. The reexamination will have the same percentage value as the original final examination.

b. The reexamination mark replaces the original final examination mark in determining the final grade in the course.

c. Students are permitted a reexamination in one failed course (three or six units of course weight) per Winter Session.

d. Students on probation are permitted one reexamination only (refer to §42.6(5)).

(3) Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

132.8 Academic Performance

Academic performance for graduation: Students must present credit (with a minimum grade of 4 or equivalent) in a minimum of 120 units of course weight, which satisfy program requirements, with a graduation average of at least 5.5. The graduation average is the quotient of (a) the total number of grade points earned by the student in courses credited to the degree, and (b) the total weight of those courses. In the case that a student has attempted, as part of the program, courses at an institution for which the grades are not precisely equivalent to those of the University of Alberta, the degree will be awarded at the discretion of the School of Native Studies.

132.9 Graduation

(1) **Application:** Students wishing to receive a School of Native Studies degree at an upcoming Convocation must obtain an Application for Degree form from the School Office and submit it in accordance with the deadlines specified in this Calendar.

(2) **Degree Requirements:** These requirements are given in §133 of this Calendar.

132.10 Appeals

Students who wish to appeal a ruling affecting their academic standing should direct their appeal in the first instance to the instructor. Recourse is then available to the School of Native Studies Director and the General Faculties Council Academic Appeals Committee, in that order. Further information on such appeals is available in §16.8 of this Calendar.

Appeals regarding students' standing in a particular course should first be directed to the instructor concerned. Frequently the issue can be resolved at this level. If not, the appeal may then be addressed to the Director of the School of Native Studies. See §16.5.3(2) of this Calendar for reappraisal deadlines.

Grade appeal and academic appeal procedures and regulations are available from the School of Native Studies.

132.11 Academic Offences

A breach of the Code of Student Behavior, for example plagiarism or cheating, may result in penalties being imposed. For further information refer to §19 of this Calendar.

133 Program of Study

133.1 The Degree of Bachelor of Arts in Native Studies

133.1.1 Program of Study Rationale

Two distinct yet related themes underlie the School's Program of Studies. The first theme is respect for indigenous knowledge systems, including languages, cultures, and philosophies. The second theme is the University's emphasis on research excellence. Together the two themes focus on the School's development of a research capability to address issues affecting Indian, Inuit, and Metis people today. In this context, the students' program of study will centre on the development of knowledge, and analytical and research skills suited to address problems of current Native interest.

The program of study objective is to provide students an inter-disciplinary academic experience that will be integrative. Land, language, and self-government are among the most vital issues that have been identified by Native communities in the Canadian West and North. These issues and the stress on research of University and the Native communities have shaped the development of courses. At the same time, Native communities are very dynamic, and the School intends to respond to these changes as well as developments in the broader Canadian Society. With academic excellence as the standard, the School's courses are interrelated and may be grouped in the following key areas of study:

(1) Language and Culture,
(2) Land and Resources,
(3) Self Government,
(4) Community-Based Research and Applied Skills.

133.1.2 The BA Degree in Native Studies

(1) **Duration:** This BA degree is a program with 120 units of course weight. Students must secure credit in a minimum of 36 units of course weight in Native Studies courses. Students will normally complete 30 units of course weight in each academic session and will normally complete the program in four academic calendar years.

(2) **Course load requirements:** Refer to §132.2(3) of this Calendar.

(3) **Transfer of credit:** Refer to §132.1(6) of this Calendar.

Note: The word "course" used in the following context refers to a full-session course of six units of course weight or equivalent (two single-term courses — each of three units of course weight).

133.1.3 Curriculum

(1) **First Year:** Each year consists of 30 units of course weight credited to the program. During the first year students must complete ENGL 101 plus 24 additional units of course weight, normally from the core program. (See Calendar §132.1.2 for first year Native language requirements.) Normally, students must take NS 101 or NS 201 in their first year of study.

Students in the BA degree in Native Studies should seek counselling and program approval from the School of Native Studies.

(2) **Core Native Studies Requirements:** The nine core requirements to be completed in the first two years are:

ENGL 101 - 6 units of course weight

Natural Science & Formal Studies** - 12 units of course weight

Fine Arts* - 6 units of course weight

Humanities* (Group A, B) - 12 units of course weight

Social Sciences* (Group A, B) - 12 units of course weight

*For students without a recognized course in a Native Language see Calendar §132.1.2.

**Native Studies courses can count up to three units of course weight in the Fine Arts, Humanities, and Social Sciences categories.

***An approved listing of Science courses from the Faculties of Agriculture and Forestry and Home Economics are acceptable to meet this requirement (see List #1 in §133.1.6). Natural Science and Formal Studies courses approved by the Faculty of Arts as meeting their requirements are also acceptable.

**** a. Humanities, Groups A and B - refer to §43.1.1(3)

b. Social Sciences, Group A - refer to §43.1.1(3)

c. Social Sciences, Group B - refer to §43.1.1(3)

d. Fine Arts - refer to §43.1.1(3)

e. Natural Sciences and Formal Studies - refer to §43.1.1(3)

(3) **Compulsory Native Studies Requirements:** The compulsory Native Studies requirements are:

a. A minimum of 30 units of course weight in Native Studies (NS) courses (at the 150-level or above). Students may use six units of course weight from other faculties (see List #2 in §133.17) for this requirement. Students must take six units of course weight in a Native Studies survey course, normally NS 210 and NS 211; three units of course weight in Community Research Methods, normally, NS 390; and at least 12 units of course weight in Native Studies course equivalents at the 400-level, normally including NS 490 (Community-Based Research).

b. Six units of course weight in a Native Language course (over and above the 30 units of course weight in Native Studies courses, and over and above the matriculation language requirement).

c. At least six units of course weight at the 400 level (including prerequisites) is required for a subject of minor concentration (this is comparable to the Faculty of Arts requirements). A subject of minor concentration shall be taken in any faculty which offers a suitable range of courses open to students in the School of Native Studies. Students are presently able to take their second area of concentration through departments in the Faculty of Arts, through the Faculty of Agriculture and Forestry (Resource Management), and the Faculty of Home Economics (Historic/Cross-Cultural and Aesthetic Aspects of Clothing and Textiles; Apparel Construction and Merchandising; Socio-Cultural/Socio-Psychological Aspects of Clothing and Textiles; Consumer Concerns; Family Process and Development; Foods; Nutrition; or Foods and Nutrition). Students may also opt to take a series of recommended options in the Faculty of Physical Education and Recreation (in lieu of a second area of concentration). It is expected that in the future students will also be able to take the second areas of concentration through other faculties.

Note A: Language courses which do not offer as their goal the acquisition of a language other than English, e.g., those dealing with literature in translation, will not fulfill the LOE requirement.

Note B: Junior Courses: Normally no more than 42 units of course weight in junior (100-level) courses are permitted for credit to the program. Upon written petition to the School an additional six units of course weight at the junior level will be permitted if it is a prerequisite for required courses or is stipulated as being a required course for the BA in Native Studies or second subject of concentration.

Students in the Fourth Year of the program will not normally be permitted to take courses for credit at the 100-level.

Note C: Options may be taken from other Faculties of the University of Alberta subject to their regulations and quotas.

133.1.4 List #1

In addition to the list of Natural Sciences and Formal Studies courses in §43.1.1(III), the following courses may also be used by BA (Native Studies) students (who have the necessary prerequisites) in order to fulfill the science requirements of the program.

Department of Animal Science
AN SC 210 Equine Physiology and Nutrition
AN SC 311 Applied Physiology of Domestic Animals
AN SC 340 Farm Animal Health and Disease Prevention
AN SC 350 Wildlife Productivity and Management
AN SC 372 Animal Agriculture

Department of Foods & Nutrition (Faculty of Home Economics)
FD NU 120/121 Current Topics in Food
FD NU 320 Basic Foods I
FD NU 321 Basic Foods II

Department of Forestry
FOR 100 Introduction to Forestry
FOR 110 Wildland Resources Measurements (STAT 141 concurrent requirement)
FOR 120 Dendrology (Study of Trees)
FOR 340 Forest Fire Management
FOR 365 Forest Wildlife

Department of Plant Science
PL SC 115 Introductory Plant Science
PL SC 350 Principles of Horticulture
PL SC 354 Forage Crops
PL SC 355 Cereals and Oilseed Crops
PL SC 356 Range Management
PL SC 406 Range Plants of Western Canada

Department of Soil Science
SOILS 310 Introductory Soil Science
SOILS 316 Soils and People
SOILS 330 The Soil Ecosystem

Department of Agricultural Engineering
AG EN 300 Introduction to Farm Mechanization Systems
AG EN 305 Farm Power and Machinery
AG EN 308 Agricultural Water Management
AG EN 310 Agricultural Buildings

Other science courses may be added at a future date.

133.1.5 List #2

Approved list of courses* which can be taken for Native Studies Credit from other Departments.

History
*HIST 368/369 The Native Aspect of Canada's History I/II
*HIST 479 Topics in Canadian Native History

Anthropology
*ANTHR 227 Indigenous and Cultural Minorities in the Modern World
*ANTHR 246 Peoples and Cultures of the Circumpolar Region
*ANTHR 250 Indians of North America
*ANTHR 255 Canadian Native Peoples
*ANTHR 446 Circumpolar Ethnology
*ANTHR 455 Aboriginal Rights
*ANTHR 470 American Indian Linguistics

Political Science
*POL S 432 Politics of the Canadian North

Religious Studies
*RELIG 280 Religious Beliefs of Native Peoples

Sociology
*SOC 368 Canadian Ethnic and Minority Relations

Rural Sociology
*INT D 356 Sociology of Rural Life

Educational Foundations
*EDFDN 432 The Education of Native Peoples in Canada: A Historical Study
*EDFDN 474 Contemporary Issues in the Education of Native Peoples: A Social Science Perspective

Note A: *These courses have a strong Native (Aboriginal) Peoples component.

Note B: In the future, courses may be added to this list depending upon the course content criteria referred to in Note A above.

133.1.6 The BA (Native Studies) After Another Undergraduate Degree

Applicants having a first undergraduate degree may be admitted to the BA (Native Studies) degree program. All requirements of the BA (Native Studies) degree, as in §133.1.2 of this Calendar, are to be met, but the total number of required courses for the After Degree may be reduced by a maximum of 60 units of course weight taken in the first degree. These courses from the first degree may only be from the Faculties of Arts and Science, or from any other Faculty through which students in the Native Studies degree program may take their second area of concentration (e.g. Agriculture and Forestry, Home Economics). Moreover, these courses from the first degree must be appropriate to satisfy the requirements of the BA (Native Studies) degree. The After Degree program is taken under the direction of the School of Native Studies.

34 Details of Courses

34.1 General Information

The appearance of a course description in the owing list does not constitute any guarantee that the urse will actually be offered in the forthcoming session. ormation as to which courses will be offered, the mes of the instructors, and all further details must be ught from the School of Native Studies, 11023 - 90 enue, 492-2991.

ysical Requirements for University Courses

The University has a commitment to the education all academically qualified students and special serv- s are regularly provided on campus to assist disabled idents.

Nevertheless, some courses make certain unavoid- le demands on students, with respect to the posses- n of a certain level of physical skill or ability, if the ademic objectives of the course are to be realized. In ses of doubt, students are advised to contact the partment concerned and the Disabled Student Serv- s Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for -campus courses, instructors may be obliged to refuse gistration in such courses.

34.2 Native Studies Courses

e following table lists renumbered courses effective 91-92:

d	New	Old	New
S 200	NS 100	NS 311	NS 211
S 201	NS 151	NS 350	NS 345
S 301	NS 251	NS 450	NS 445
S 310	NS 210		

S 100 Introduction to Native Studies
3 (3-0-0). An introduction to the history, current condi- ns, and prospects of the Native peoples of North nerica, with special attention to the Cree, the Dene, e Inuit and the Metis of the Canadian West and North. ie course will deal with a wide range of topics, cluding literature and the arts, social and political ganization, and economic development.

S 101 Introductory Cree
6 (4-0-1). A general introduction to Plains Cree (Y alect) grammar and vocabulary, with practice in speak- g and work in the language laboratory. No prior owledge of Cree is assumed. Not open to students th matriculation standing in Cree. Note: Students nnot receive credit for NS 101 and NS 102. (This urse can be used to fulfill the Language Other than nglish requirement for the BA (AR 20) Degree. See §3.1.1(II)(3)).

S 102 Introduction to the Structure of the Cree anguage for Cree Speakers
3 (second term, 4-0-0). A course designed specifically r fluent speakers of Cree who require an introduction the Pentland othography writing system and formal aining and practise with Cree grammatical structure. he focus is on literacy in the Plains Cree dialect. Note: tudents cannot receive credit for NS 101 and NS 102.

S 103 Introductory Slavey
6 (4-0-1). A general introduction to Slavey grammar nd vocabulary, with practice in speaking and work in ie language laboratory. No prior knowledge of Slavey assumed. Not open to students with matriculation anding in Slavey.

S 104 Introduction to the Inuit Language nuvialuktun and Inuinnaqtun)
6 (4-0-1). A general introduction to the grammar and ocabulary of the Inuit language (Western and Central rctic), with practice in speaking and work in the lan- uage laboratory. No prior knowledge of Inuit is assumed. ot open to students with matriculation standing in Inuit.

IS 151 Intermediate Cree
6 (3-0-1). Introduction to more complex grammatical tructures; translation to and from Cree; reading of elected texts; oral practice, including conversation and ork in the language laboratory. Prerequisite: NS 101 or onsent of the School. (This course can be used to fulfill he Language Other than English requirement of the BA AR 20) Degree. See §43.1.1(II)(3)).

IS 210 Native Issues and Insights I
3 (first term, 3-0-0). An overview of the background ocial/cultural/political issues in Native Studies that con- nue to have a definite impact on the contemporary situation. The focus of the course will be on Aboriginal peoples of the Canadian West and North. Issues of Native rights, aspirations, and conditions regarding land, traditional vocations, and systems of governance will be examined in more depth. Not available to students who have already taken NS 300. (NS 210 was formerly part of NS 300.)

NS 211 Native Issues and Insights II
★3 (second term, 3-0-0). An overview and survey of the major issues facing Canadian Aboriginal peoples and governments today, within a broader context of comparable issues for indigenous peoples and governments elsewhere. This will include Native rights, aspirations and conditions in relation to the following issues: language, land, self-government, maintaining traditional vocations, economic development, education and health. Insights into the hopes and concerns of native communities and individuals, including the dynamics of development and change. Sessions with native leaders will also form part of this course. Prerequisite: NS 310 or HIST 368/369 or consent of the School of Native Studies. Not available to students who have already taken NS 300. (NS 311 was formerly part of NS 300.)

NS 251 Advanced Cree
★6 (3-0-1). An intensive course designed to enable students to acquire considerable facility both in oral communication and in writing, employing both Roman and syllabic orthography. Prerequisite: NS 201 or consent of the School.

NS 320 Aboriginal Self-Government
★3 (either term, 3-0-0). The description, analysis and evaluation of various aboriginal self-government models, proposals and practices, and the principles underlying them. The relative merits of constitutional, legislative and administrative options for realizing aboriginal self-government will be compared. Among regional developments in self-government to be discussed are those in Alberta and NWT. Prerequisite: NS 311 or NS 300, or consent of the School.

NS 330 Native Economic Development
★3 (either term, 3-0-0). This course will review underlying factors which affect the economies of Native communities and examine different approaches to Native Economic development, including community, corporate and entrepreneurial business approaches. The Native perspective to Native Economic Development will be a principal theme. The objective of the course will be to assess approaches to the identification, planning and implementation of economic development strategies for Native communities. Prerequisite: NS 311 or NS 300 or consent of the School.

NS 340 Aboriginal Legal Issues
★3 (either term, 3-0-0). A general and critical overview of the legal issues affecting Native people, with particular reference to Alberta and the NWT. Special attention will be given to the Constitutional Act of Canada, selected federal and provincial legislation, Treaties, and major court cases to introduce current application of native law. Prerequisite: NS 311 or NS 300 or consent of the School.

NS 345 Management Issues in Native Communities
★3 (either term, 3-0-0). The course introduces the major management issues commonly faced by contemporary Native community, public administration and business organizations as a result of their unique cultural, social, economic, demographic and political environment. Students will acquire an orientation to the management process and to modern management theory and practices. In addition, opportunities will be made to develop and practice the managerial skills involved in diagnosis, analysis and resolution of management issues frequently encountered in Native organizations. Prerequisite: NS 311 or consent of the School.

NS 360 Contemporary Native Art
★3 (either term, 3-0-0). A study of comtemporary North American Native artists with emphasis on the philosophical and culturai statements made through their artistic expression. Special attention will be placed on living mainstream Canadian Native artists, as well as on Canadian native artists that are part of the Northwest Coast, Plains, Woodland, Algonquin, and Pan-Indian schools of art. Prerequisite: NS 311 or consent of the School.

NS 370 The Metis: The Emergence of a People
★3 (either term, 3-0-0). An examination of the factors responsible for the emergence of Metis communities in different areas at different times, with the emphasis on Canada. The development of Metis people together with lifestyles that serve to distinguish them from others will receive much attention. Where applicable, comparisons with similar experiences elsewhere in the world will be made. Prerequisite: NS 311 or NS 300 or consent of the School.

NS 375 Native Health Issues
★3 (either term, 3-0-0). This course is designed to introduce students to selected contemporary health care issues in Alberta Metis and Indian communities. A description of the existing health status of these populations will facilitate exploration of socio-economic issues of disease prevention, illness treatment and health promotion. Concepts of health, illness and disease from several points of view will provide a foundation for discussion of issues associated with Native control of health care planning delivery. Prerequisite: NS 311.

NS 380 Selected Topics in Native Studies
★3 (either term, 3-0-0).

NS 390 Community Research Methods
★3 (first term, 3-0-0). An introduction to the basic concepts, principles and issues in the area of community research. The objective of the course is to develop the student's ability to both apply and critique a range of research methods used to describe the different facets of a community. Prerequisite: NS 311.

NS 403 Selected Topics in Native Studies
★3 (either term, 3-0-0).

NS 404 Selected Topics in Native Studies
★3 (either term, 3-0-0).

NS 408 Conference Course in Native Studies
★3 (either term, 3-0-0).

NS 409 Conference Course in Native Studies
★3 (either term, 3-0-0).

NS 420 Native Communication and Negotiation Strategies
★3 (either term, 3-0-0). Contemporary Native communities and organizations in Canada have developed a variety of communication and negotiation strategies to achieve results. Native leaders have developed these strategies to deal with governments and developers from the dominant society. One strategic approach has involved public education and media communications to impact public opinion. In their direct dealings with governments and industries Native representatives have often employed a combination of negotiation, litigation and lobbying. This course will focus on strategies used to acquire land, economic and self-government agreements in Alberta, NWT and the Yukon, although strategies used elsewhere in Canada will also be examined. A portion of this course will also review communication strategies within Native communities and organizations. Prerequisite: NS 311 and NS 320 (or NS 340).

NS 430 Native Land Use Research and Planning
★3 (either term, 3-0-0). This course will approach land use research and planning as it applies specifically to traditional Native land use. Two perspectives will be considered. Native land use research will be examined to demonstrate land use and occupancy to support Native land claims. Planning the use of Native lands and resources by incorporating traditional and contemporary usage and management methods into land use plans will be the second thrust. Included in the course are: the land claims process; control of land and management of resources; land use planning in the context of Native self-government; and the roles of resource development and the traditional sector of Native economies. Issues such as Native participation in the co-management of resources affecting traditional Native lands and economies, the cultural applications of land use research and indigenous values, and practices of land use will also be covered. Prerequisite: NS 311 and NS 330 (or NS 320).

NS 445 Native Community Development Processes
★3 (either term, 3-0-0). In a seminar, students will identify, analyze and integrate community development philosophy, principles and practice. The relevance of traditional community development models to Native communities will be critically examined in light of the recent experiences of Native communities themselves. New community development models, processes, and experiences will be studied. This course emphasizes experiential learning and places values on the sharing of individual experiences. Students will develop competence in working with community processes through involvement in group activites. Native community practitioners and elders will make presentations on these new models. Prerequisite: NS 311 and NS 350 (or NS 330).

NS 470 Metis Politics
★3 (either term, 3-0-0). This seminar concentrates on recent events, processes, and issues. It examines the political attitudes, opinions, and activities of Metis peoples, as well as organizations and their leaders. Similarities between the politics of Metis and Indian collectivities are explored. Considerable attention is given to the strategy and tactics employed by Metis in dealing with the provincial and federal governments. Prerequisite: NS 370 or History 369 or consent of the School. POL S 200 or 320 or 321 strongly recommended.

NS 480 Metis/Indian/Inuit Issues Seminar
★3 (either term, 3-0-0). A seminar in which an examination is made of current issues facing indigenous peoples. Topics are selected from contemporary developments in major areas of interest including: educational and vocational implications of land claims and self government settlements; Metis, Indian and Inuit perspectives on the

environment, development, and cultural arts. Emphasis is given to the comparative analysis of such issues at the regional, national and interational levels. Prerequisite: Consent of the Director of the School of Native Studies.

NS 490 Community-Based Research
★3 (second term, 0-3s-0). A seminar exploring the issues in the area of community-based research. The course will be organized primarily around the examination of case studies from this field. In addition to methodological concerns, the course will emphasize the practical, cultural and political aspects of conducting community-based research in conjunction with Native groups. Prerequisite: NS 390.

NS 499 Research Project
★3 (0-0-3). The research project is designed to provide students with a variety of options for carrying out their own research. The specific route taken will depend upon the resources of the School, opportunities available in the community, and the skills of the student. While the program is intended to be flexible, the main route around which students may design their projects will be research conducted in conjunction with a local native organization. Prerequisite: Consent of the School of Native Studies. Normally consent will not be given without credit in NS 390.

141.2 General Information

141.2.1 Historical Note

The first Nursing courses at the University of Alberta were taught in Public Health Nursing. Made possible through financial support from the Canadian Red Cross Society, they were included in the 1921 lecture program series of the University. The University of Alberta established the School of Nursing under the Faculty of Medicine. The School of Nursing began with two programs, a three-year diploma program and a five-year Bachelor of Science in Nursing program. The School admitted the first diploma class in October, 1923 and students were admitted to the degree program in 1924. The first four baccalaureate students graduated in 1928. The five-year course leading to both a BScN and registration as a nurse consisted of two years of university courses and three years of clinical courses. The latter, "sandwiched" between university courses, were completed at the University of Alberta Hospital (UAH) School of Nursing where university students were integrated with the diploma class. In the final year of the degree program, nurses were selecting a special educational focus of Nursing Education, Nursing Administration, or Public Health Nursing.

Although many changes in the five-year degree program took place over the years, the clinical portion continued to be offered by the UAH School of Nursing until 1966. Following the passage of the Universities Act in that year, the University of Alberta School of Nursing became an autonomous academic unit within the administrative framework of the University. The four-year integrated Baccalaureate in Nursing Program was implemented at this time. The School of Nursing received Faculty status in 1976. The University of Alberta Hospitals continued to maintain a diploma School of Nursing apart from the program of the University.

The Faculty of Nursing has always responded to the needs of registered nurses with a variety of programs tailored to current practice and to the social conditions of the time. One-year certificate programs for registered nurses, leading to a diploma in Public Health Nursing and a diploma in Nursing Teaching and Supervision, were continued until 1970 when they were replaced by a revised degree program for registered nurses. From 1943 to 1984, a nine-month program leading to a certificate in Advanced Practical Obstetrics was offered to qualified nurses to enable them to give expanded care in rural settings and northern nursing stations. The certificate was phased out and was replaced by a certificate in Nurse-Midwifery which is offered in conjunction with the Master of Nursing program.

A twenty-week Nurse Practitioner Program, funded by the Federal Government, was offered in conjunction with the Faculty of Medicine from 1971 to 1984. In collaboration with the University of Alberta Hospitals, a joint certificate program in Neonatal Nursing has been offered since 1982 and one in Nephrology Nursing was started in 1986. A joint certificate program in Emergency/Intensive Care Nursing began at the Misericordia Hospital in 1984 and was expanded one year later to include the University of Alberta Hospitals.

Since 1970, the University of Alberta Faculty of Nursing has sponsored a Continuing Nursing Education Program, which provides non-credit courses, sponsors Nursing conferences, and is jointly administered by the Faculties of Nursing and Extension.

Following the lobby by the Alberta Association of Registered Nurses (AARN) for increased degree opportunities for registered nurses, the Government provided funding in 1979 for expansion of the BScN Program for registered nurses. Enrollment in the Post-RN Program doubled from 72 to 144, and an off-campus program was established. Subsequently, in 1982, the four-year Basic BScN Program was expanded to 100 students. The first graduate program in Nursing in Alberta was introduced at the University in 1975. The Master of Nursing program offers a clinical focus in acute care nursing, long-term care, and community health nursing associated with strong research preparation.

As a step toward meeting its goal of providing increased access to Baccalaureate Nursing education in Alberta, the Faculty has collaborated with hospital and college diploma programs in the Edmonton area. Each of these institutions will teach the first two years of a collaboratively developed Basic Baccalaureate program which will then be transferrable to the University of Alberta at third year. An additional change is the merger of the University of Alberta Hospitals School of Nursing as a joint department of the Faculty of Nursing and the University of Alberta Hospitals. With this merger, there will be one program jointly sponsored by the two institutions, with all students enrolled in the University. After their second year at the University, students have the option of going into a 24-week diploma completion program through the hospital School of Nursing and resulting in RN status or applying for entry to third year in the University. A quota of 235 students at third year has been approved for the Faculty of Nursing and is open for competition to second-year students from all participating nursing programs.

An additional project began in September 1990 as a five-year pilot. It is an off-campus BScN program which has been developed in collaboration with Red Deer College and which will allow students to complete a four-year BScN in Red Deer. The first two years of the program are offered by Red Deer College, the third and fourth years by the University of Alberta Faculty of Nursing.

141.2.2 Goals and Mission Statement

The goal and mission statement of the Faculty of Nursing is to be a centre of excellence in Nursing for the advancement, dissemination, and application of nursing knowledge. This is achieved through the following:

(1) **Teaching:** Our goal for teaching is to develop competence in nursing practice, to instill a quest for knowledge, and to create a sense of professionalism.

(2) **Research:** Our goal for research is to foster the advancement of nursing knowledge in both the theory and practice of nursing.

(3) **Public Service:** Our goal for public service is to extend the Faculty's expertise to the community locally, nationally, and internationally, in order to foster health promotion, health maintenance and the advancement of the nursing profession.

142 Faculty Regulations

142.1 Admission

English Language Proficiency

English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. For example, non-matriculated applicants and unclassified program students must comply with the requirement along with other applicants.

Applicants to Faculté Saint-Jean need not demonstrate proficiency in English prior to admission being granted. However, they must demonstrate proficiency in English before they may be granted a degree from this institution.

Regardless of country of origin or citizenship status, all applicants except those applying to Faculté Saint-Jean, will be required to demonstrate proficiency in the English language prior to admission. This demonstration may take any one of several forms:

(1) Six full years of education in English in Canada or the equivalent in another country where English is the principal language. Such education must include the Alberta Grade 12, or equivalent level, and can be in a combination of secondary and post-secondary training.

(2) Successful completion of the equivalent of 6 years of full-time instruction in a school/institution in Alberta in which the major language of instruction is other than English, but where the level of English proficiency required for graduation is equivalent to that in English language schools/institutions in Canada.

(3) A grade of 80% or better on the diploma examination portion (only) of the Alberta English 30 course, or a grade of 6 or 7 on the International Baccalaureate Higher Level English course, or a grade of 5 on the Advanced Placement English (Language Composition: Literature and Composition) course.

(4) Graduation from a degree program offered by an accredited university at which English is the primary language of instruction and in a country where English is the principal language.

(5) A score of at least 580 on the Test of English as a Foreign Language (TOEFL) or a score of at least 90 on the Michigan English Language Assessment Battery (MELAB). The TOEFL results must include a score of at least 50 on each of the three components.

Note: Authority to hear petitions and to waive the requirement for undergraduate applicants to write the TOEFL resides with the Registrar acting on behalf of the faculties. Exemptions will be based on assessments of the applicant's English language proficiency as evidenced by a written petition and a personal interview. Please direct enquiries and petitions to the Associate Registrar, Admissions.

Further information is available from Examinations and Timetabling, Office of the Registrar, Room 120, Administration Building. TOEFL application forms are available from the Student Access Centre, Office of the Registrar, Administration Building; or by writing directly to Educational Testing Service, Princeton, New Jersey, U.S.A., 08540.

Tuition Deposit:

Upon notification of acceptance successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

142.1.1 Classification of Matriculation Subjects

Group A (Humanities)

Social Studies 30
30-level Language other than English
Additional 30-level Language other than English

Group B (Fine Arts)

Art 30
Art 31
Commercial Art 35
Visual Communications 32A, B, or C
Drama 30
Music 30
Music 31
Performing Arts 35A, B, or C

Group C (Sciences)

Biology 30
Chemistry 30
Mathematics 30
Mathematics 31
Physics 30

Group D (Optional Subjects)

Students using a Group D subject for admission must present either one 5-credit, or any combination of two 3-credit, D subjects:

Experimental Psychology 30
World Religion 30
World Geography 30
Philosophies of Man 30
Microeconomics 30
Macroeconomics 30
Clothing & Textiles 30
Food Science 30
Personal Living Skills 30
Accounting 30
Law 30
Computer Processing 30
Basic Business 30
Industrial Arts 30A or 30B
Selected courses in: Vocational Education 32
Religious Studies 35 (for approved Alberta schools)

142.1.2 Requirements for the Collaborative BScN Program

Conditional offers of admission will be granted to some high school applicants based on partial completion of Alberta Grade 12 standing. Enrollment in the Collaborative BScN Program is limited by quota. First priority is given to Alberta residents.

Matriculation Requirements

English 30
Chemistry 30
Biology 30
Mathematics 30 or 31, or Physics 30
Subject from Group A, B, C, or D

Required Average

At least 70 per cent.

Completed University of Alberta Application for Admission or Readmission forms must be recieved by the Office of the Registrar by May 1. On receipt of this application, reference forms and a Faculty application questionnaire will be sent to the applicant.

Applications from high school students require the completion of all of the following items by **May 15:**

Faculty application questionnaire
References (2)
Letter from high school or college stating mid-term marks on courses in progress

Applications from transfer students from other University of Alberta faculties and other universities require the completion of all of the following items by **May 15:**

Faculty application questionnaire
References (2)
Complete high school and post-secondary records. (Post-secondary records of current courses may be submitted up to July 1)

To be eligible for admission, a minimum grade point average of 5.0 is required.

Applications from students who have previously been in the program and wish to re-enroll in the Faculty require the completion of all of the following items by **May 15:**

- Faculty application questionnaire
- References (2)
- Satisfactory academic achievement (minimum GPA 5.0)

Applications from non-matriculated applicants require completion or proof of the following by **May 15:**

- References (2)
- English 30, Chemistry 30, Biology 30, or equivalent, and an average of at least 65%.
- Twenty-four years of age or older.
- Faculty application questionnaire

Note A: A specified schedule of immunization must be completed prior to commencement of clinical practice in the program. The Hepatitis B vaccine is available, free of charge, from the University of Alberta Health Services, after admission to the program.

Note B: Students will be responsible for providing evidence of current certification at the Basic Rescuer's Level in CPR by December 31 of their first year in the BScN Program, and evidence of recertification in each subsequent year. Evidence of CPR certification is required to convocate.

142.1.3 Aboriginal Applicants

a. In addition to the regular quota positions, up to four additional positions per year are available in the basic four-year BScN program for qualified students of Native ancestry within the meaning of the Constitutional Act of 1982, Section 35, Part 2.

b. Interested Aboriginal applicants who do not meet the admission requirements for the Faculty may be considered for admission as probationary students. If they demonstrate satisfactory academic achievement (minimum GPA 4.5) during the probationary year, the relevant successfully completed courses will be credited toward the degree and the student will be formally admitted to Year One of the program.

c. Aboriginal applicants are encouraged to contact the Faculty's Academic Adviser for individual counselling and career planning.

142.1.4 Requirements for Post-RN BScN Program

Matriculation Requirements

English 30
Chemistry 30
Biology 30
Mathematics 30 or 31 or Physics 30
One subject from Group A, B, C, or D

Required Average

At least 65 per cent.

Completed University of Alberta Application for Admission or Readmission forms must be received by the Registrar's Office by May 1. On receipt of this application reference forms and a Faculty application questionnaire will be sent to the applicant.

Note A: PSYCO 104/105 or equivalent and PHYSL 162 or equivalent are required for admission to the BScN Program for Registered Nurses.

Note B: Applicants must provide evidence of eligibility for registration in the Alberta Association of Registered Nurses (AARN) or evidence of current registration or licensure in another Canadian jurisdiction. Foreign students must provide evidence of (a) current registration in another jurisdiction, and (b) graduation from a general nursing program considered equivalent by the AARN to an approved School of Nursing in Alberta at the time the program was taken.

Note C: Application from non-matriculated applicants requires completion or proof of the following by May 15:

- References (2)
- English 30, Chemistry 30 or equivalent, and an average of at least 65%
- Twenty-four years of age or older
- Graduate Nurse Information form

Admission to the Post-RN degree program from another University or Faculty is based upon assessment by the Program Admissions and Selections Committee of an individual applicant's previous achievement.

Note D: Enrollment is limited by quota. Deadlines for completion of application files are February 15 and May 15. Those files completed before February 15 will be considered by the Admissions Committee shortly after that date; those completed following February 15 will be considered shortly after May 15. Not all eligible applicants considered at the early date can be admitted due to the proportionate numbers of the quota, but this does not necessarily preclude reconsideration in May.

A completed application file consists of the following documents:

(1) Application for Admission or Application for Readmission form

(2) References (2)

(3) Graduate Nurse Information Form

(4) Official transcripts of:
   a. high school education
   b. diploma nursing program
   c. any other post-secondary education taken

(5) Proof of current active registration in the AARN or valid permit from AARN to practice nursing in Alberta as described in §142.1.3 Note B.

(6) Record of immunization status

A specified schedule of immunization must be completed prior to admission. The Hepatitis B vaccine is available, free of charge, from the University of Alberta Health Services, after admission to the program. Successful applicants whose schedule is not complete at the time of consideration will be admitted provisionally.

142.1.4 Requirements for Special Students

Special Students are those who have been permitted to register in more than one course, but not officially for credit toward a degree or diploma at this or any other institution. Those wishing to take only one course at a time may do so as Unclassified Students (please refer to §13.10 of this Calendar). Such students may subsequently apply for admission to a degree program and, upon admission, may receive credit in that program for courses successfully completed as a Special or Unclassified Student.

Normally applicants must be enrolled in or graduated from an approved School of Nursing in Alberta or provide evidence of graduation from a general nursing program considered equivalent by the Alberta Association of Registered Nurses.

Applications, together with official transcripts of high school education, diploma nursing program, and registered nurse examination results, must be submitted by the dates specified in §14.2.

142.2 Academic Standing and Graduation

142.2.1 Requirements for Collaborative and Four-Year Basic Programs

(1) For promotion, a student is required to pass all courses and attain a minimum grade point average of 4.5 in any year. For graduation, an overall grade point average of 5.0 is required. Entrance to Year III of the Collaborative Program is governed by quota and open for competition to second-year students from all participating nursing programs.

(2) A minimum grade of 4 is required to receive credit in all courses.

(3) Reexaminations:
   a. Students in the Faculty of Nursing will be permitted a reexamination only under extenuating circumstances and at the discretion of the Dean.
   b. Students are permitted only one reexamination during the program.
   c. Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

(4) Students must complete both theory and practice components of nursing courses in order to receive credit. Students who have not received a pass in the clinical/laboratory portion of a nursing course will not be given credit for the course and will be required, if readmitted, to repeat both the clinical and non-clinical portions of the course. The clinical component as spelled out in the course outline must be completed for credit to be granted.

(5) A student who is absent more than two clinical days in any one clinical nursing course may be required to make up the lost time before being allowed to continue in the program.

(6) Matters regarding a student's academic status, including course grades, may become the subject of an appeal. Students with such problems are advised to consult first with the instructor of the course concerned. If a satisfactory resolution is not reached, the student may approach the Course Leader or the Associate Dean for Undergraduate Education to discuss the matter further. A formal appeal may then be activated by an official letter of appeal from the student to the Dean. The Faculty of Nursing Appeals Committee will meet to consider the case. Details of appeal procedures at the Faculty level are available from the Dean's Office. Students have the right to appeal a Faculty of Nursing Appeals Committee decision, with the exception of grade appeals, to the General Faculties Council Academic Appeals Committee. (See §16.8 Appeals and Grievances of this Calendar.)

(7) Credit by special assessment is available in certain courses under specific circumstances. Please see §13.9.5 in this Calendar, and request any further information required from the Faculty of Nursing.

(8) Students are responsible for the completeness and accuracy of their registrations. Particular care should be exercised with regard to prerequisite courses. Students are responsible for adjustments in registration made necessary by reexamination results.

(9) Normally, collaborative and basic baccalaureate nursing students will be granted six years from the time of admission to complete requirements for the BScN Degree.

Note A: Students will be responsible for obtaining transportation to field placements and for the costs of necessary travel and accommodations. Students may be required to relocate for field placements.

Note B: Students who fail to satisfactoriily complete a Nursing course which is prerequisite to another Nursing course in the program **must** make application for readmission to the program by completing an Application for Readmission form. Such readmission is not to be considered automatic.

Note C: Students are required to purchase a stethoscope, a penlight, and a lab coat (total cost approximately $100.00).

Note D: Students will be responsible for purchase of uniforms in accordance with Nursing Undergraduate Association specifications.

142.2.2 Requirements for Post-RN Program

(1) For promotion, a student is required to pass all courses and attain a minimum grade point average of 4.5 in any year. For graduation, an overall grade point average of 5.0 is required.

(2) A minimum grade of 4 is required to receive credit in all courses.

(3) Reexaminations:

a. Students in the Faculty of Nursing will be permitted a reexamination only under extenuating circumstances and at the discretion of the Dean.

b. Students are permitted only one reexamination during the program.

c. Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

(4) Students must complete both theory and practice components of Nursing courses in order to receive credit. Students who have not received a pass in the clinical/laboratory portion of the nursing course will not be given credit for the course and will be required, if readmitted, to repeat both the clinical and non-clinical portions of the course. The clinical component as spelled out in the course outline must be completed for credit to be granted.

(5) Matters regarding a student's academic status, including course grades, may become the subject of an appeal. Students with such problems are advised to first consult with the instructor of the course concerned. If a satisfactory resolution is not reached, the student may approach the Course Leader or the Associate Dean for Undergraduate Education to discuss the matter further. A formal appeal may then be activated by an official letter of appeal from the student to the Dean. The Faculty of Nursing Appeals Committee will meet to consider the case. Details of appeal procedures at the Faculty level are available from the Dean's Office. Students have the right to appeal a Faculty of Nursing Appeals Committee decision, with the exception of grade appeals, to the General Faculties Council Academic Appeals Committee. (See §16.8 of this Calendar).

(6) Students will normally be granted five years from the time of admission to NURS 466 to complete requirements for the degree.

(7) Students are responsible for the completeness and accuracy of their registrations. Particular care should be exercised with regard to prerequisite courses. Students are also responsible for adjustments in registration made necessary by reexamination results.

(8) Although advanced credit towards the nursing degree can be given for course work completed at a university other than the University of Alberta, a minimum of 36 units of course weight must be taken at the University of Alberta before the degree can be granted.

(9) Another route to the Degree involves taking courses at an off-campus site on a part-time basis. Please contact the Faculty of Nursing for further information on this aspect of the program.

(10) Credit by special assessment is available in certain courses under specific circumstances. Please see §13.9.5 in this Calendar and contact the Faculty of Nursing for more information.

(11) Students enrolled in the degree program may enroll in NURS 502, 503, or 550 as extra to their BScN degree if they have:

a. completed at least 75% of their program of studies;

b. completed at least 75% of their core nursing courses (NURS 466, 467, 480 and 486);

c. completed NURS 388 and PSYCO 211 (or SOC 210 or STAT 141);

d. obtained a GPA of 8.0 or higher in their post-basic university courses;

e. have, at minimum, two years of clinical nursing experience; and

f. obtained consent from the appropriate course Instructor(s) and the Associate Dean for Graduate Education.

Normally, undergraduate students will be considered for enrollment in these courses, on a competitive basis, after the graduate nursing students have registered.

Note A: Students will be responsible for obtaining transportation to field placements and for the cost of necessary travel and accommodations. Students may be required to relocate for field placement.

Note B: Students are required to purchase a stethoscope, a penlight and a lab coat (total cost approximately $113.00).

143 Programs of Study

143.1 Collaborative BScN Program

(For students entering as of September 1991)

First Year

First Term	Hours	Units of Course Weight
NURS 100	3-0-0	3.0
NURS 101	3-0-3	4.0
NURS 102	3-0-0	3.0
NURS 105	3-0-0	3.0
PSYCO 104	3-0-0	3.0
PHYSL 162*	3-0-0	3.0
		Total 19.0
Second Term		
NURS 103	3-0-0	3.0
NURS 104	3-3c-3	5.0
NURS 106	3-0-0	3.0
SOC 100 or Intro ANTHR	3-0-0	3.0
PHYSL 162*	3-0-0	3.0
		Total 17.0

*This is a course worth six units of course weight.

Intersession
NURS 107 Minimum of 220 hrs 6.0

Second Year

First Term		
NURS 200	3-0-0	3.0
NURS 201	3-0-0	3.0
NURS 202	3-0-0	3.0
NURS 203 or 204	4-15c-0	9.0
		Total 18.0
Second Term		
NURS 203 or 204	4-15c-0	9.0
MMID 233	3-0-3	3.0
English Elective	3-0-0	3.0
PSYCO 105	3-0-0	3.0
		Total 18.0

Intersession
NURS 205 Minimum of 220 hrs 6.0

Third Year

(Admission to quota occurs at this point)

First Term		
NURS 300	3-0-0	3.0
NURS 302 or 303	4-15c-0	9.0
Statistics Elective	3-0-0	3.0
Family Elective	3-0-0	3.0
		Total 18.0
Second Term		
NURS 301	3-0-0	3.0
NURS 302 or 303	4-15c-0	9.0
PHIL Elective	3-0-0	3.0
POL S Elective	3-0-0	3.0
		Total 18.0

Year Four

First Term		
NURS 400	3-3c-0	4.0
NURS 401	3-3c-0	4.0
NURS 402	3-0-0	3.0
*Elective	3-0-0	3.0
*Elective	3-0-0	3.0
		Total 17.0
Second Term		
NURS 403	6-31c-0	8.0
NURS 404	0-37c-0	6.0
		Total 14.0

143.2 BScN Four-Year Basic Degree Program

(For all students who entered the program prior to September 1991.)

Second Year

First Term	Hours	Units of Course Weight
FD NU 225	3-0-0	3.0
NURS 320 or 321	5-12c-0 or 4-14c-0	6.0
PMCOL 301	3-0-0	3.0
SOC 100	3-0-0	3.0
		Total 15.0
Second Term		
NURS 321 or 320	4-14c-0 or 5-12c-0	6.0
NURS 333	3-0-0	3.0
SOC 102	3-0-0	3.0
*Elective	3-0-0	3.0
		Total 14.0

Intersession
NURS 325 120 hours clinical practice in three weeks

Third Year

First Term	Hours	Units of Course Weight
FAM 211 or SOC 271	3-0-0	3.0
NURS 366	6-16c-0	9.0
PSYCO 211 or SOC 210 or 141	3-0-1, or 3-0-2, or 3-0-0	3.0
*Elective	3-0-0	3.0
	Total	18.0
Second Term		
NURS 367	6-16c-0	9.0
SOC 465	3-0-0	3.0
NURS 388	3-0-0	3.0
		Total 15.0

Intersession
NURS 464 240 hours clinical practice in six weeks

Fourth Year

First Term		
NURS 474	3-6c-0	4.0
NURS 480	2-0-1	3.0
NURS 482	3-2s-0	4.0
*Elective	3-0-0	3.0
*Elective	3-0-0	3.0
		Total 17.0
Second Term		
NURS 481	3-0-4	4.0
NURS 485	0-2s-6c-0	3.0
*Elective	3-0-0	3.0
*Elective	3-0-0	3.0
*Elective	3-0-0	3.0
		Total 16.0

*Electives must be chosen from:
Humanities (six units of course weight)
Senior Social Science (six units of course weight)
Senior unspecified elective (six units of course weight)
Senior Political Science (three units of course weight)
Senior Philosophy or Religious Studies (three units of course weight)

143.2.1 Official Designation of Courses into Categories

(1) **Humanities and Fine Arts:** All languages and literatures, Art, Christian Theology, Classics, Comparative Literature, Drama, English, History**, Music, Philosophy, Religious Studies.

(2) **Social Sciences:** Anthropology, Economics, Geography*, History**, Linguistics*, Political Science, Psychology*, Sociology.

*only those courses offered by the Faculty of Arts
**may be counted under either category but not both

(3) **Sciences:** Any courses offered by the Faculty of Science, Foods & Nutrition (Faculty of Home Economics), Food Science (Faculty of Agriculture) cannot be used as a science elective.

Note: Where disciplines are acceptable as both Social Sciences and Sciences (e.g., Geography, Linguistics, Psychology), those courses offered by the Faculty of Arts will be applicable to a student's program as Social Sciences and those offered by the Faculty of Science will be applicable to a student's program as Sciences.

(4) **Exceptions:**

a. Credit will be given for only **one** of the following: SOC 271, FAM 211, SOC 316 (Athabasca University), SOAN 384 (Athabasca University).

b. Credit will be given for SOC 376 or a senior Christian Theology course for a Senior Philosophy/Religion elective.

c. Credit will be given for only **one** of:

NURS 319 or PSYCO 223. PSYCO 223 is not equivalent to NURS 319; students wishing to take this course instead of NURS 319 require permission from the Academic Adviser.

d. Credit will be given for only ONE of SOC 321 or 224, not both.

Note: Students will be responsible for providing evidence of current certification at the Basic Rescuer's Level in CPR by December 31 of their first year in the BScN Program, and evidence of recertification in each subsequent year. Evidence of CPR certification is required to convocate.

.3 BScN — Post-RN Degree Program

ctives (Required)

Science (3 units of course weight)
Senior Elective (6 units of course weight)
Senior Philosophy or Religious Studies (3 units of course weight)
Senior Political Science (3 units of course weight)
Senior Social Science (6 units of course weight)

is course is a prerequisite or corequisite to another. ase see course descriptions for details.

OC 271 requires a prerequisite of SOC 100 or 103 or . If a student has not completed one of the prerequi-s, it is recommended that SOC 300 be taken in the year of the program and SOC 271 taken later in the gram. SOC 300 meets the three units of course ght in a senior Social Science or the three units of rse weight in a senior elective requirement.

icial Designation of Courses into Categories

Please refer to §143.2.1 of this Calendar.

Note A: Evidence of current certification at the sic Rescuer's Level in CPR will be required prior to duation.

Note B: Registered nurses planning to enroll and mplete the BScN (Post-RN) Degree Program on a t-time basis, must plan their program ahead to meet prerequisite requirements of the core nursing courses. meet these requirements NURS 319 and NURS 439 y be taken as Special Students in the Faculty of rsing. Those wishing to take only one course at a time y do so as Unclassified students (please refer to 3.10 of this Calendar). Upon admission to the Faculty Nursing BScN Degree Program, students are required register in NURS 466 and 467 in first term and NURS 9 and 486 in second term. Students should consult h the Student Adviser if they are unable to register for four courses in the year of admission.

Note C: Full-time students are given priority for mission to Nursing courses. When the course quota is , part-time students may have to delay attendance.

Note D: Students will be responsible for the cost of vel, room, and board for field placements.

Note E: Students are required to purchase a stetho-ope, a penlight and a lab coat (total cost approximately 00.00).

Note F: A number of courses suitable for transfer to e Post-RN BScN program are available through (a) habasca University, (b) University of Alberta Special ssions, taught in centres outside Edmonton, and (c) her Alberta universities and colleges. Official transcripts work completed at institutions other than the Univer-y of Alberta for credit to this program must reach the niversity of Alberta no later than April 30 for Spring onvocation or September 30 for Fall Convocation.

143.4 Certificate Program in Critical Care Nursing

This certificate program is offered under the joint sponsorship of The University of Alberta Faculty of Nursing and the Misericordia Hospital School of Nursing. It consists of two theory courses with related clinical practice:

NURS 377, Nursing Care of the Critically Ill Adult in Emergency and Intensive Care Units I;
NURS 378, Nursing Care of the Critically Ill Adult in Emergency and Intensive Care Units II

The two courses may be credited as three units of course weight in a senior elective and NURS 484 or as six units of course weight in a senior elective in the Post-RN Baccalaureate Program.

Application for admission to the Certificate Program in Critical Care Nursing is made through the Critical Care Nursing Program, Misericordia Hospital, School of Nursing.

143.5 Certificate Program in Neonatal Nursing

This certificate program is offered under the joint sponsorship of the University of Alberta Faculty of Nursing, University of Alberta Hospitals Department of Nursing, and University of Alberta Department of Paediatrics. It consists of three theory courses with related clinical practice:

NURS 453	Nursing Care of the Normal and High Risk Newborn;
NURS 493	Nursing Intervention in Neonatal Intensive Care;
PAED 501	Pathophysiology of Newborn Diseases.

The above courses may be credited in the Post-RN Baccalaureate Program as follows:

NURS 453	as NURS 484
NURS 493	as 3 units of course weight in a senior elective
PAED 501	as 3 units of course weight in a senior elective

Application for admission as special students to the Certificate Program in Neonatal Nursing must be made through the Faculty of Nursing, Third Floor, Clinical Sciences Building, Edmonton, Alberta by **May 15** for September admission. Students will be selected by a committee of representatives of the three sponsoring departments.

143.6 Certificate Program in Nephrology Nursing

This certificate program is offered under the joint sponsorship of the University of Alberta Faculty of Nursing, University of Alberta Hospitals Department of Nursing, and the University of Alberta Faculty of Medicine. It consists of three theory courses with related clinical practice:

NURS 313	Nephrology Nursing I
NURS 314	Nephrology Nursing II
MED 436	Pathophysiology of Clinical Renal Disease and Related Disorders

The above courses may be credited in the Post-RN Baccalaureate Program as follows:

NURS 313 or 314 as NURS 484;

The remaining two courses as six units of course weight in a senior elective.

Applications for admission as special students to the Certificate Program in Nephrology Nursing must be made through the Faculty of Nursing, Third Floor, Clinical Sciences Building, Edmonton, Alberta, by **May 15** for September admission. Students will be selected by a committee of representatives of the three sponsoring departments.

143.7 Degree of Master of Nursing

143.7.1 General Information

The Faculty of Nursing offers a two-year program which provides preparation for advanced nursing practice across the health-illness continuum. The aim of the program is to prepare nurses to function as advanced level practitioners in hospital, community, or educational settings. The options of undertaking a Certificate in Nurse-Midwifery along with the Master of Nursing program and an MN degree with a Nursing Administration minor are also available.

The Faculty of Nursing's proposed PhD in Nursing program was approved by the Board of Governors in May 1986 "subject to appropriate funding." When funding is obtained, application and program details will be publicized through professional journals and notices to all university faculties of nursing and major professional nursing associations.

The Faculty of Nursing is committed to the principle of research-based nursing practice. The Faculty research development program includes visits by leading nurse scientists, a research office, community-wide nursing research seminars, thesis seminars, computer facilities, and provision for the communication of nursing research. Also, the Canadian Clearinghouse for Ongoing Research in Nursing (CCORN), housed within the Faculty, provides a computerized data base accessible to North American researchers.

143.7.2 Entrance Requirements

The Faculty's minimum admission requirements are:

(1) A baccalaureate degree in Nursing with an average of at least 6.5 (approximately 70%) in the work of the final two years (or an equivalent qualification from a recognized institution).

(2) Three letters of reference (criteria described in the application form).

(3) An undergraduate course in each of statistics and research methods.

(4) Normally, applicants wishing to undertake the MN degree program must have a minimum of one year of clinical nursing experience.

(5) A TOEFL score of at least 580 where applicable (see §202.2.2 of this Calendar).

(6) Submission of the results of a Miller Analogies Test (no arbitrary standard is used).

(7) Applicants wishing to undertake the combined MN degree and Certificate in Nurse-Midwifery program must meet the following admission requirements in addition to requirements 1-3:

a. appropriate work experience of at least two years in maternal-newborn nursing including six months (minimum) in labor and delivery, and

b. two of the three required references must be from maternal-newborn work situations.

Upon acceptance into the MN program, the following additional requirements must be met by each student:

(1) A specified schedule of immunization must be completed prior to commencement of clinical practice in the program.

(2) Evidence of active registration in the Alberta Association of Registered Nurses (AARN) **or** of possession of a valid permit from the Alberta Association of Registered Nurses to practice nursing in Alberta is required.

(3) Completion of Health Assessment (NURS 468) or an equivalent course. MN students who do not meet this requirement must do so by the end of the first year of the MN program. This requirement is in addition to the graduate program courses and entails the payment of extra fees. Credits obtained for such a course are not applicable to the MN degree.

(4) Evidence must be provided of certification at the Basic Rescuer's Level in CPR by December 31 of the first year in the MN program. Annual recertification while in the MN program must meet the requirements of whatever agency(ies) the student is involved with.

Financial Assistance

Information regarding assistantships and other forms of financial assistance will be supplied on request.

143.7.3 The Degree of MN — Program Requirements

Student programs are designed on an individual basis within the MN curriculum framework. Programs are planned in light of the student's career goals, clinical interests, and research interests of relevance to nursing practice.

Each student's program will normally consist of NURS 502, NURS 503, NURS 505, one course in nursing practice (e.g., NURS 506), one course in the nursing profession (three units of course weight), one graduate-level statistics course (three units course weight),

one graduate-level research course (three units of course weight), and two electives (three units of course weight each). In addition, students are required to register in NURS 599 (Thesis Seminar) for one academic year (two terms) during the program.

A thesis is required of all students.

MN candidates pursuing a certificate in Nurse-Midwifery in combination with the MN degree undertake NURS 453, 514, 517, 518, 519, and a course in reproductive physiology.

No language other than English is required for the MN.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta

Length of Program:

The time required to complete the program varies according to the candidate's undergraduate preparation and career experience, and the nature of the research undertaken. Generally, a minimum of two academic years plus one summer is required. Maximum time allowed is four years.

144 Details of Courses

144.1 General Information

Each course is designated by its computer abbreviation and a number.

Following the title of the course is the symbol "★" standing for **units of course weight**, and a number indicating the weight of the course as used in computing grade-point averages. An ordinary full-session course is weighted six. A single-term course is normally weighted three. Some honors and graduate courses involving research may vary in weight according to the length and difficulty of the research project. Some clinical courses may vary in weight according to the length of clinical experience. Some courses are offered for credit only, and carry no weight.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction.

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offred, the names of the Instructors, and all further details must be sought from the Faculty of Nursing.

Physical Requirements for University Courses

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the Faculty of Nursing and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

144.2 Interdisciplinary Courses

INT D 370 Survey on International Health
★3 (second term, 3-0-0). Overview of health issues and organization in a cross-cultural context with emphasis on developing and newly industrialized countries. Prerequisite: Completion of 10 full courses in any program or consent of the instructor. (Dentistry, Medicine, Nursing, Pharmacy, Rehabilitation Medicine, and Social Sciences).

144.3 Nursing Courses

144.3.1 Undergraduate Courses

NURS 100 Nursing I
★3 (first term, 3-0-0). Introduction to the profession of nursing, including historical perspectives, roles and functions, levels of organization, and models of nursing. Trends in health care systems and nursing in primary health care settings will be addressed.

NURS 101 Interpersonal Communication
★4 (first term, 3-0-3). Application of theory and development of interpersonal communication skills in relation to conditions of helping. Content will focus on self-awareness, group process, and nurse-client interactions.

NURS 102 Healthy Living
★3 (first term, 3-0-0). The determinants of health (including beliefs and values) and the identification of major influences on lifestyle and personal health practices (exercise, nutrition, stress management) across the life span will be examined. Beginning skills in health status appraisal will be developed. Ethics in health promotion counselling, client rights, and the advocacy role with respect to health will be the central focus.

NURS 103 Growth and Development
★3 (second term, 3-0-0). Focuses on theories of human growth and development and assessment of individuals and families throughout the life span.

NURS 104 Introduction to Assessment and Clinical Nursing Practice
★5 (second term, 3-3c-3). Principles and techniques of nursing fundamentals and health assessment will be introduced. Students will assess the health status of adult clients and provide appropriate basic nursing care. Prerequisite: NURS 101.

NURS 105 Anatomy
★3 (first term, 3-0-0). Introduction to the structure of the human body.

NURS 106 Introduction to Nursing Pharmacotherapeutics
★3 (second term, 3-0-0). Introduction to the study of drugs and their therapeutic use and effects. The nursing role in promoting optimal therapeutic regimens and in the management of side/adverse effects will be included. Prerequisite: NURS 105. Corequisite: PHYSL 162.

NURS 107 Clinical Nursing Practice I
★6 (Intersession, 220 hours) Includes theory and practice components. The primary focus will be client-centered nursing care of hospitalized adults. Selected learning experiences in alternative settings may be included. Prerequisite: NURS 100, 104, 106.

NURS 200 Nursing II
★3 (first term, 3-0-0). Focuses on nursing care of individuals. Selected nursing roles, strategies and factors that influence role implementation will be explored. Prerequisite: NURS 107.

NURS 201 Teaching and Learning
★3 (first term, 3-0-0). Introduction to theories and practice of teaching and learning. Focus will be on the process of teaching and learning situations in the health care field. Prerequisite: NURS 101, PSYCO 104.

NURS 202 Pathophysiology
★3 (first term, 3-0-0). Introduction to pathological processes. The course will focus on the general principles of disease and disorders that affect the body as a whole. Prerequisite: NURS 105, PHYSL 162.

NURS 203 Nursing Care of Individuals Within Families: Adult/Older Adult
★9 (either term, 4-15c-0). Theory and practice related to nursing care of adults and older adults and their families in medical-surgical settings. Students will have the opportunity to interact with a family through home visits. Prerequisite: NURS 103, 107. Prerequisite or corequisite: NURS 201, 202.

NURS 204 Nursing Care of Individuals Within Families: Child-Bearing/Child-Rearing
★9 (either term, 4-15c-0). Theory and practice related to nursing care of individuals in child-bearing and child-rearing families in community and hospital settings. Students will have the opportunity to interact with a family through home visits. Prerequisite: NURS 103, 107. Prerequisite or corequisite: NURS 201, 202.

NURS 205 Clinical Nursing Practice II
★6 (Intersession - 2nd year, 220 hours). Includes theory and practice components. The primary focus will be client-centered nursing care of hospitalized adults and children. Selected learning experiences in alternative settings may be included. Prerequisite: NURS 107, 200, 202, 203, 204.

NURS 300 Nursing III
★3 (first term, 3-0-0). Focuses on nursing care related to families, with emphasis on selected nursing roles, strategies and factors that influence role implementation. Prerequisite: NURS 205.

NURS 301 Nursing Research
★3 (second term, 3-0-0). Introduction to the process of research through a comparative anaylsis of selected studies exemplifying different theoretical, methodological, and analytical approaches. Emphasis will be on the communicability of research, the needs of the research consumer, and the development of skills of critical appraisal. Prerequisite or corequisite: Statistics elective.

NURS 302 Nursing of Family Systems
★9 (either term, 4-15c-0). Theory and practice related to the promotion of family health and to the care of family systems experiencing episodic or continuing health concerns. Students will develop skills in utilizing nursing models to assist clients toward optimal functioning in community-based settings. Prerequisite: NURS 205. Prerequisite or corequisite: Family elective.

NURS 303 Nursing Care of Individuals and Families: Mental Health Nursing
★9 (either term, 4-15c-0). The focus is on theory and practice related to promotion of mental health and care of clients with mental health problems and mental disorders. Students will further develop and integrate their skills in promoting optimal client functioning in hospital and community settings. Prerequisite: PSYCO 104, 105, NURS 103, 107. Prerequisite or corequisite: NURS 201, 202. Collaborative Baccalaureate Program - Red Deer College/University of Alberta Prerequisite: Successful completion of Year II at Red Deer College.

NURS 319 Developmental Assessment
★3 (either term, 3-0-0). Focus is on the assessment of age-appropriate human physical, cognitive and social development from conception to death.

NURS 320 Assisting Dimensions of Nursing I
★6 (either term, 5-12c-0). Theory and practice in nursing care of patients in different age groups with stable and predictable conditions in acute care settings. Prerequisite: NURS 311, NURS 319.

NURS 321 Nursing of the Childbearing Family
★6 (either term, 4-14c-0). Nursing of the childbearing family in the prenatal, intrapartum and postnatal periods. Nursing care is focused on the needs of families in both community and hospital settings. Prerequisite: NURS 311 and NURS 319.

NURS 325 Clinical Nursing in Acute Care Settings II
★3 (Intersession, 40 hours clinical practice per week for three weeks). Provides opportunity for in depth clinical practice involving care of individuals in selected age groups with health deviations. Emphasis on the integration of content (knowledge, skills and attitudes) from nursing and related disciplines. Prerequisite: NURS 320, 321 and 333.

NURS 333 Medical Sciences
★3 (second term, 3-0-0). An introduction to medical sciences through the study of pathological processes. The course will focus on the general principles of disease and disorders that affect the body as a whole. Prerequisite: PHYSL 162, PESS 200.

NURS 366 Nursing of Individuals in Families and Small Groups I
★9 (first term, 6-16c-0). Emphasizes the increasing complexity in implementing the nursing process for individuals as members of families/small groups primarily in acute care settings. Self-care focus is on individuals with organic-behavioral deviations who are in a variety of developmental stages. Prerequisite: NURS 325.

NURS 367 Nursing of Individuals in Families and Small Groups II
★9 (second term, 6-16c-0). Emphasizes the increasing complexity in implementing the nursing process for individuals as members of families/small groups primarily in acute care settings. Self-care focus is on individuals with organic-behavioral deviations who are in a variety of developmental stages. Prerequisite: NURS 366.

NURS 388 Research Perspectives
★3 (either term, 3-0-0). An introduction to the process of research through a comparative analytical survey of selected studies exemplifying different methodological approaches. Emphasis will be on the development of critical appraisal skills.

NURS 400 Nursing IV
★4 (first term, 3-3c-0). Theory and practice related to nursing care of aggregates, with emphasis on health promotion and primary health care. Selected nursing roles, strategies and factors that influence role implementation will be included. Prerequisite: NURS 300. Prerequisite or corequisite: NURS 301, 302, 303.

NURS 401 Nursing Management
★4 (first term, 3-3c-0). Introduction to the theory and practice of management applied to settings where nurses work. Emphasis will be placed on theories of organization, management, and leadership, as well as on selected nursing systems and worklife issues. A practice component is included. Prerequisite: NURS 300, 301, 302, 303.

NURS 402 Nursing Issues
★3 (first term, 3-0-0). A variety of current professional, social, political, and global trends and issues affecting the nursing profession and health care system within

anada will be addressed. The course is aimed at ntensifying the empowerment of nurses. Students will ave the opportunity to examine, analyze, and evaluate elected trends and issues. Prerequisite: NURS 300, 02, 303.

NURS 403 Senior Nursing Elective
★6 (second term, 6-31c-0). Theoretical and clinical ourse focusing on knowledge and practice in a selected rea of nursing. Taught over 6 1/2 weeks with a minimum otal of 220 hours. Prerequisite: NURS 300, 301, 302, 303.

NURS 404 Senior Nursing Practicum
★6 (second term, 0-37c-0). Clinical practicum which rovides students with the opportunity to practise nurs- ng with a selected group of clients in a particular etting. Focus will be on integration of previous learning nd transition to the graduate role. Taught over 6 1/2 eeks with a minimum total of 220 hours. Prerequisite: NURS 300, 301, 302, 303.

NURS 439 Principles of Teaching and Learning for Health Care Professionals
★3 (first term, 3-0-0). Introduces the student to princi- ples of teaching and learning in a self-directed learning atmosphere. Focus will be on individual and group investigation of topics relevant to these principles and to teaching situations in the health care field.

NURS 453 Nursing Care of the Normal and High Risk Newborn
★3 (first term, 3-6c-0). Application of physiological prin- ciples to the nursing care of the newborn, preterm and sick infant. The effect of ongoing psychological and social needs in relations with the mother and father. The management of life-support systems in the care of the immature or sick newborn. Prerequisite: Consent of the instructor.

NURS 464 Nursing of Clients with Health Deviations III
★6 (Intersession, 240 hours of clinical experience in 6 weeks). A concentrated learning experience in the nurs- ing care of individuals and/or groups with complex behavioral and organic deviations. All nursing systems will be utilized. No other course can be taken concur- rently. Prerequisite: NURS 367.

NURS 466 Conceptual Frameworks for Nursing Practice
★3 (first term, 2-2s-0). Introduction to the evolution of nursing frameworks; concept development; comparison of selected frameworks.

NURS 467 Interpersonal Communication: Theory and Practice
★4 (first term, 3-4c-0). Focuses on the development of self-awareness, use of self as a therapeutic agent, and the practice of interpersonal communication skills that promote own and client self-care. Group process in relation to the learning group is examined.

NURS 468 Health Assessment
★3 (second term, 3-0-3). The focus is on the health assessment of the well adult, with normal aging modifi- cations. The course provides a beginning foundation of assessment skills and technologies necessary for deter- mining client health status through a health history and physical examination. Prerequisite: NURS 466. Prereq- uisite or corequisite: NURS 319.

NURS 474 Family Nursing in the Community
★4 (first term, 3-6c-0). Focuses on the professional nurse's responsibilities in providing theory-based family- centered care in community settings. Emphasis is placed on health promotion, illness prevention and health main- tenance strategies useful in facilitating the self-care of families. Prerequisite: NURS 319, SOC 271 or FAM 350.

NURS 480 Trends and Issues
★3 (either term, 2-0-1). Exploration of trends and issues arising from societal forces that have implications for nursing practice, education and research at provincial, national and international levels. Students will examine significant demographic, political, economic, legal and ethical issues in the context of scientific and technologi- cal change. Basic nursing students must take this in fourth year.

NURS 481 Management of Nursing Systems
★4 (either term, 3-0-4). Introduction to management of nursing services; field practicum. Prerequisite: SOC 465.

NURS 482 Nursing of Large Groups (Program Planning)
★4 (first term, 3-2s-0). The course will focus on the planning of educational and health delivery programs for large groups. Principles from epidemiology, teaching and learning, and research will be applied in program planning for groups in occupational settings. Corequisite: NURS 474.

NURS 484 Senior Nursing Practicum
★3 (first term, 0-2s-6c-0). Opportunity for nursing prac- tice in a selected clincial area. In-depth study of an aspect related to clinical practice will be undertaken. Requirements will be specified for each section. Prereq- uisite: NURS 466, 467, 468, and 486.

NURS 485 Senior Nursing Practicum
★3 (second term, 0-2s-6c-0). To assist in the transition to graduate nurse role and to provide additional opportu- nity to integrate prior learning. Includes clinical practice with selected groups of patients/clients. Prerequisite: NURS 366, 367, and 474. Corequisite: NURS 482.

NURS 486 Community Health Nursing I
★6 (second term, 3-6c-0). Focuses on the professional nurse's responsibilities in providing theory-based family- centered care in community settings. Emphasis is placed on health promotion, illness prevention and health main- tenance strategies useful in facilitating the self-care of families. Prerequisite: NURS 319, 439, 466, 467. Corequisite: NURS 468; FAM 350/SOC 271.

NURS 487 Community Health Nursing II
★4 (second term, 3-3c-0). Further exploration of the role of the community health nurse in health promotion and illness prevention with selected groups in the commu- nity. There is a focus on the application of principles from epidemiology and teaching and learning in plan- ning educational and health delivery programs. Prereq- uisite: NURS 486.

NURS 493 Nursing Intervention in Neonatal Intensive Care
★3 (second term, 3-6c-0). Nursing care of the high risk infant in a neonatal intensive care unit. Trends and issues in neonatal care will be examined with emphasis on the impact of acute and chronic illness on the physical and psycho-social well-being of the family. Prerequisite: NURS 453 or consent of instructor.

NURS 498 Special Studies in Nursing
★3 (either term, 3-0-0).

144.3.2 Graduate Courses

A list of Graduate Nursing Courses can be found in the Graduate Studies and Research Section of the Calendar.

144.4 Critical Care Nursing Courses

NURS 377 Nursing Care of the Critically Ill Adult in Emergency and Intensive Care Units I
★3 (8-24c-0, 8 weeks). Introduction to assessment and care of patients in emergency and intensive care. Includes classroom and laboratory instruction and supervised practice in a community general hospital.

NURS 378 Nursing Care of the Critically Ill Adult in Emergency and Intensive Care Units II
★3 (8-24c-0, 8 weeks). Continuation of introduction to assessment and care of emergency and intensive care patients. Includes classroom and laboratory instruction and supervised practice in a community general hospital.

144.5 Neonatal Nursing Courses

NURS 453 Nursing Care of the Normal and High Risk Newborn
★3 (first term, 3-6c-0). Application of physiological prin- ciples to the nursing care of the newborn, preterm and sick infant. The effect of ongoing psychological and social needs in relations with the mother and father. The management of life-support systems in the care of the immature or sick newborn. Prerequisite: Consent of the instructor.

NURS 493 Nursing Intervention in Neonatal Intensive Care
★3 (second term, 3-6c-0). Nursing care of the high risk infant in a neonatal intensive care unit. Trends and issues in neonatal care will be examined with emphasis on the impact of acute and chronic illness on the physical and psycho-social well-being of the family. Prerequisite: NURS 453 or consent of instructor.

PAED 501 Pathophysiology of Newborn Diseases
★4 (either term, 78 hours). Basic and clinical lectures on basic pulmonary physiology, respiratory diseases of newborns, assisted ventilation, jaundice, birth asphyxia, cardiac problems, thermal control, fluid and electrolyte balance, resuscitation of newborn, hematologic prob- lems, sepsis, drug use and surgical problems in the newborn. Prerequisite: PAED 446; NURS 453, or con- sent of Department.

144.6 Nephrology Nursing Courses

NURS 313 Nephrology Nursing I
★3 (first term, 3-16c-0). Application of physiological, sociological and psychological principles to holistic nurs- ing care of patients with renal disease.

NURS 314 Nephrology Nursing II
★3 (second term, 3-16c-0). Application of selected con- cepts such as coping, crisis intervention and decision- making to nephrology nursing practice. Prerequisite: NURS 313.

Graduate Students' representative
Undergraduate representative

Registrar of the University
BJ Silzer, MEd

151.2 Opportunities in Pharmacy

Pharmacy is one of the oldest of the professions. It has progressed from the compounding and dispensing of drugs to essentially a "knowledge system" about drugs and drug products. Pharmacy practice has increasingly become oriented to the patient and accordingly requires the aspiring pharmacist to possess good communication skills and to be aware of and sensitive to the frequent need for compassion and understanding.

A variety of career options are open to the pharmacist upon graduation and licensure.

Community Practice

Community practice provides the "place of practice" for the majority of pharmacists. It can take one of many forms, namely, independently owned, a chain, a unit within a department store or a part of a clinic. It can be large, providing a broad range of products and services; or small, dealing exclusively in medicines and related supplies. In whatever form, the practice environment of community pharmacy is one where the professional activities of the pharmacist involve direct contact with the client seeking either prescription medication or self-medication products or services. In balancing the commercial and professional aspects of community pharmacy, the pharmacist remains accountable in ensuring that the patient properly takes only those medicines which are essential for the maintenance of health, the prevention of disease or the rational relief of pain.

Hospital Practice

Hospital pharmacists provide services in complex health care organizations. Traditionally, the pharmacist is responsible for the institutional procurement, preparation, distribution and control of pharmaceuticals. As a member of a health care team, the pharmacist is also responsible for patient-oriented services such as therapeutic consultations, drug information, and patient counselling and education. Some hospital pharmacists find careers by concentrating their practice in specific areas such as management, clinical services, and drug information. Others find rewarding careers as generalists in the country's many smaller to medium-sized institutions.

Pharmaceutical Industry

The pharmaceutical industry has essentially taken over the traditional compounding responsibilities on behalf of the practicing pharmacist. By freeing the pharmacist from the time constraints of the compounding of medication, a redirection toward a patient-oriented pharmacy practice has been made possible.

The pharmacist who chooses the pharmaceutical industry as his practice environment identifies with one or more of the distinct parts of the compounding function: discovery or invention, formulation, ensuring safety, ensuring efficacy or the actual manufacture of the drug. However, one may alternatively become involved with the marketing of the product. The usual way of entry into many companies is via the sales department which is, as well, the area of greatest opportunity for advancement. Opportunities in the other areas are often enhanced for graduates who proceed for postgraduate training in one of the pharmaceutical sciences.

Government Regulatory and Association Pharmacy Services

Career opportunities for pharmacists exist in government departments, both federal and provincial. These opportunities often relate to inspection and analyst functions in the regulatory sense. Each provincial licensing body is staffed by pharmacists involved in regulatory activities, since Pharmacy is a self-governing profession.

Education and Research

Graduates may choose the university as their career environment. Training to the doctoral level is normal, although practicing pharmacists in community, hospital, association and the pharmaceutical industry contribute to specific educational programs.

Opportunities in research can be found in universities, government institutions and in private industry. Once again, training to the doctoral level is often essential.

Finally, many pharmacists have found greatly expanded career opportunities by adding to their basic degree in pharmacy, a degree in law or business.

151.3 Qualifications for Practice in Alberta

The Bachelor of Science degree in Pharmacy of the University of Alberta is the minimum academic requirement accepted by the Alberta Pharmaceutical Association for a licence to practice pharmacy in the Province of Alberta.

In order to register as a pharmacist in Alberta a graduate must also have successfully completed an internship program sponsored and operated by the Alberta Pharmaceutical Association and the qualifying examination administered by the Pharmacy Examining Board of Canada. Information concerning the regulations applying to practical experience in Alberta may be obtained from the Registrar-Treasurer, Alberta Pharmaceutical Association, 10615-124 Street, Edmonton, Alberta, T5N 1S5. Information concerning the Qualifying Examination may be obtained from the Registrar, Pharmacy Examining Board of Canada, Suite 603, 123 Edward Street, Toronto, Ontario, M5G 1E2.

The regulations governing the practice of Pharmacy in the Province of Alberta are set forth in the Alberta Pharmaceutical Profession Act.

152 Faculty Regulations

152.1 Admission

The admission requirements of the Faculty of Pharmacy and Pharmaceutical Sciences are set out in §13.2 and §13.4.13 of the University Calendar.

In order to fulfill admission requirements the candidates must include in their pre-professional program the following courses or their equivalents:

Chemistry 100 or 104 or 204 (6 units of course weight)
Chemistry 160 or 260 (6 units of course weight)
English 110 (6 units of course weight)
Mathematics 113 or 114 (3 units of course weight)
Statistics 237 or 141 (3 units of course weight)
Microbiology 193 (3 units of course weight)
Elective (3 units of course weight)*

*Students who register in the Faculty of Science in order to complete the pre-Pharmacy Program must choose this elective from among junior courses titled Biology, Botany, Entomology, Genetics, Geography, Geology, Psychology, or Zoology in order to meet Faculty of Science requirements.

Applicants who having sequential High School background courses in Chemistry, English, Mathematics,

and Biology will best be prepared to succeed in the pre-Pharmacy program.

Students presenting a course other than MICRB 193 or its equivalent will be considered for admission and if successful will be required to take Microbiology in place of the option in the Second Year of the Pharmacy program.

Prospective students must submit a letter with their application for admission, in which their career goals, knowledge of the profession, related experience, and reasons for seeking admission to the Faculty of Pharmacy and Pharmaceutical Sciences are set forth.

Admission is based on performance in the specified pre-professional coursework and the candidate's overall academic record. Every effort will be made to accept all academically qualified applicants from other faculties or from other universities or postsecondary institutions. The pre-professional program may be completed through full- or part-time study, although preference will be given to candidates who have undertaken additional university coursework or a program that has included a year of full-time study (i.e. 30 units of course weight). Since the number of persons applying is currently in excess of the number that can be accommodated due to limitations of space and other facilities, priority is given to students who are Canadian citizens or permanent residents (landed Immigrants) and who are residents of Alberta. A limited number of highly qualified students who reside in other parts of Canada are also accepted annually, as are a smaller number of highly qualified foreign (student authorization) applicants.

Upon notification of acceptance, successful applicants will be required to confirm their intention to register by submitting a non-refundable $50.00 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

English Language Proficiency

See §13.2.2 of this Calendar.

Aboriginal Applicants

In addition to the regular quota positions, up to one additional position per year is available in the BSc Pharmacy program for a qualified student of aboriginal ancestry within the meaning of the Constitution Act, 1982, Part II, Section 35(2).

152.2 Academic Standing

Academic Performance is normally measured by Grade Point Average (GPA)* attained during a winter session. In this determination, grades of W are ignored throughout, whereas grades of WF are considered to be grades of 1. Grades of courses completed during Intersession or grades in courses accepted for transfer credit are not included in the calculation of the GPA for measuring academic performance.

Determination of each student's academic performance will normally occur after the end of the regular academic year, on the basis of the work attempted during that year.

Promotion of the student from year to year is contingent upon satisfactory academic performance.

Except for students admitted prior to September 1989, progression in the program shall be year by year and not by courses completed. Accordingly, all students in a particular year of the program should be registered in the same five courses in each term. Students will not be permitted to register in any required courses from a particular year of the program until they have satisfactorily completed all of the required courses from the previous year of the program. For students admitted prior to September 1989, academic standing regulations are contained in the Calendar for the year the student entered the Pharmacy program.

The GPA, as determined above, places the student in one of the following categories of academic performance:

Satisfactory performance is defined as that which yields a Grade Point Average of 5.0 or greater provided that no course is failed.

Conditional performance is defined as that which yields a Grade Point Average of 5.0 or greater but includes one or more failed courses.

Probationary performance is defined as that which yields a Grade Point Average of less than 5.0, but not less than 4.5, with or without failed courses.

Unsatisfactory performance is defined as that which yields a Grade Point Average of less than 4.5 or less than 5.0 for students in a probationary year.

Promotion to the next year of the program requires the achievement of **satisfactory performance**. Promotion will be awarded to **conditional performance** students only after they have achieved a passing grade in the failed course or courses.

Probationary Year. Repeat of the year in question is required of all probationary performance students. During this "probationary year" the student must repeat all core courses in which they achieved a grade of less than 5. Additional "approved" courses may be included to make up a normal course load, entirely at the discretion of the student. To clear probation and qualify for promotion, a student must pass all of the courses he or she was required to repeat and attain a GPA of at least 5.0 in these reuqired courses.

Required to withdraw. Students who achieve **unsatisfactory performance** or fail to clear probation will be required to withdraw from the program.

(1) **Reexamination:**

a. Students may be permitted a reexamination at the discretion of the Pharmacy Faculty Council, provided that:

1) The student's overall GPA for the year is 5.0 or greater.

2) The weight of the final examination is 40% or higher.

3) The student received a grade of 3 in the course.

4) The instructor provides a positive recommendation. Such recommendation will be given in those instances where a student's performance throughout the year was good, but extenuating circumstances led to a poor performance in the final examination.

b. If a reexamination is approved, the following policies apply:

1) The reexamination will have the same percentage value as the original final examination.

2) Students are permitted only one reexamination per academic year.

c. Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

First Class Standing is awarded to students who achieve a Grade Point Average of at least 7.5 during a winter session, provided they have taken 30 units of course weight in that session.

The notation "With Distinction" is inscribed on the permanent record and graduate parchment if the candidates have obtained a Grade Point Average of 7.5 or higher, averaged over the last two years of their program.

$$\text{*GPA} = \frac{\text{sum of (grade x units of course weight)}}{\text{sum of units of course weight}}$$

Appeals and Grievances: Decisions on academic standing are made by the Council of the Faculty. Appeals may be made to the Academic Appeals Committee. Enquiries concerning standing in individual courses should be made to the professor in charge of the course. If the issue is still not resolved the student may report the matter to the Associate Dean for enquiry. See §16.8 (Appeals and Grievances) of this Calendar for further information.

The Faculty's regulations governing academic appeals and grade appeals may be obtained in the Dean's Office.

153 Programs of Study

153.1 The Degree of BSc in Pharmacy

153.1.1 General Information

The first degree program in Pharmacy is four years in length.

The courses to be taken in the first three years of the program are fixed and are considered basic to the training of all pharmacists. The fourth year has two required courses to round out the core program. The remainder of the fourth year course load allows for some degree of specialization.

153.1.2 Program of Courses

	first term hours	second term hours
First Year		
ANAT 200 (Human Morphology)	—	3-0-0
BIOCH 301 (General Biochemistry)	3-0-0	3-0-0
PHARM 302 (Introduction to the Profession of Pharmacy)	3-4s-0	—
PHARM 303 (Pharmacy Dispensing Procedures & Pharmaceutical Calculations)	—	3-0-3
PHARM 320 (Introduction to Medicinal Chemistry)	3-0-0	3-0-0
PHARM 325 (Introduction to Quantitative Pharmaceutical Analysis)	3-0-3	—
PHYSL 352 (Human Physiology)	3-0-0	3-0-0
	15-4s-3	15-0-3
Second Year		
PMCOL 431 (Pharmacology)	3-0-0	3-0-0
PHARM 340 (Pharmacy Administration)	—	3-2s-0
PHARM 352 (Jurisprudence and Ethics)	3-1s-3	—
PHARM 360 (Pharmaceutics)	3-0-3	3-0-3
PHARM 370 (Medicinal Chemistry)	3-0-0	3-0-0
PHARM 380 (Introduction to Disease Processes)	3-0-0	—
OPTION*	—	3-0-0
	15-1s-6	15-2s-3
Third Year		
PHARM 402 (Monitoring Drug Therapy Based on Patient Interviews, Patient Counselling and Drug Information)	—	3-0-3
PHARM 403 (Toxicity of Drugs and Related Products)	—	3-3s-0
PHARM 404 (Clinical Pharmacy)	—	3-0-0
PHARM 405 (Introduction to Institutional Practice and Patient Counselling with the Emphasis on Non-Prescription Drugs)	3-1s-3	—
PHARM 415 (Biopharmaceutics and Pharmacokinetics)	3-0-0	—
PHARM 431 (Therapeutics)	3-0-0	3-0-0
PHARM 432 (Antimicrobial Drugs)	3-0-0	—
PHARM 443 (Radiopharmacy I)	—	3-0-0
OPTION*	3-0-0	—
	15-1s-3	15-3s-3
Fourth Year		
(Student will be off campus in either the First or Second Term. Course work will be completed in the opposite term.)		
PHARM 456 (Clinical Pharmacy Rotations)	12 weeks	or 12 weeks
PHARM 457 (Contemporary Issues in Pharmacy)	1-0-0	or 1-0-0
Specialization Elective**	3-0-0	or 3-0-0
Specialization Elective**	3-0-0	or 3-0-0
Specialization Elective**	3-0-0	or 3-0-0
Option*	3-0-0	or 3-0-0
Option*	3-0-0	or 3-0-0
	16-0-0	16-0-0

***Options**

Options normally shall be selected from courses offered outside of the Faculty of Pharmacy and Pharmaceutical Sciences. These courses allow students to pursue areas of personal interest and promote a liberal education. Students wishing to further develop their intended pattern of specialization may wish to select options from the list of pattern-related options provided by the Faculty of Pharmaceutical Sciences.

Note: Only one junior course from each subject area is permitted.

Junior courses are those numbered 199 or lower.

**Specialization electives are available as follows:

(1) **First Term**: PHARM 458, 460, 473, 476, 489, 494, 498, 561, 565, 570, 575, 586, 593.

(2) **Second Term**: PHARM 460, 481, 484, 489, 496, 498.

It may be necessary to limit enrollment in certain specialization electives.

153.2 Graduate Study

Students may undertake graduate study in pharmacy leading to the degree of MPharm, MSc, or PhD. Any students contemplating such work should discuss their program with the Dean of the Faculty of Pharmacy and Pharmaceutical Sciences. They should also familiarize

themselves with the admission requirements, regulations, and procedures laid down by the Faculty of Graduate Studies and Research. These may be found in §204.61 of this Calendar.

The Degree of MPharm

A two-year program combining academic course work, professional experience, and research investigation leading to the degree of Master of Pharmacy in Clinical Pharmacy, is offered to acceptable students holding a BSc degree in Pharmacy. The first academic term is devoted primarily to course work in the biological and health sciences. The professional portion of the program consists of research and study in a professional environment leading to the submission of an acceptable project.

The Degree of MSc and PhD

The Faculty of Pharmacy and Pharmaceutical Sciences offers programs leading to the Master of Science and Doctor of Philosophy degrees and can accommodate a limited number of graduate students in modern well-equipped laboratories.

Research may be undertaken in fields such as Pharmaceutics, Biopharmaceutics, Physical Pharmacy, Bionucleonics, Radiopharmacy, Medicinal Chemistry, Pharmaceutical Chemistry, Drug Analysis, Drug Metabolism, Microbiology, Pharmacology, Toxicology, and Neurochemistry.

Individuals with previous degrees in such fields as Pharmacy, Biology, Microbiology, Biochemistry, Pharmacology, or Chemistry will be considered.

Financial assistance is available from The Medical Research Council of Canada, The Alberta Heritage Foundation for Medical Research, and from other sources.

Prospective candidates should consult with the Dean regarding the requirements.

Students planning to begin graduate work should make application for admission to the Faculty of Graduate Studies and Research. Applications should be addressed to the Dean, Faculty of Graduate Studies and Research.

154 Details of Courses

154.1 General Information

Courses open to students in the Faculty of Pharmacy and Pharmaceutical Sciences are listed here in alphabetical order, whether they are offered by that faculty or by another faculty.

Each course is designated by its computer abbreviation and a number.

Following the title of the course is the symbol "★" standing for "units of course weight" and a number indicating the weight of the course as used in computing grade-point averages. An ordinary full-session course is weighted 6. A single-term course is normally weighted 3. Some honors and graduate courses involving research may vary in weight according to the length and difficulty of the research project. Some courses are offered for credit only, and carry no weight.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction.

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the department concerned.

Physical Requirements for University Courses

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the Department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

154.2 Anatomy

ANAT 200 Human Morphology
★3 (second term, 3-0-0). An overview of human structure. Emphasis is placed on the systems of the body and their cooperative role in normal function. A lecture course open to Pharmacy students only.

154.3 Biochemistry

BIOCH 301 General Biochemistry
★6 (3-0-0). Structure and chemistry of the cell; the chemistry and metabolism of carbohydrates, lipids, proteins and nucleic acids; the molecular biology of enzymes and genes as related to the functioning of the living cell. Prerequisite: CHEM 100 or 104 or 204; and CHEM 160 or 260. Those for whom this course is an option require consent of Department.

154.4 Pharmacology

PMCOL 431 General Pharmacology
★6 (3-0-0). The pharmacological actions of drugs selected for their physiological and clinical significance. Basic pharmacological principles are applied to representative clinically important drugs having their primary actions on various organ systems of the body. The course includes a study of chemotherapeutic agents used in the treatment of infections and neoplasia, and an introduction to management of poisoning cases. Restricted to students in the Faculty of Pharmacy.

154.5 Pharmacy

154.5.1 Undergraduate Courses

PHARM 302 Introduction to the Profession of Pharmacy
★3 (first term, 3-4s-0). Introduction to the Canadian Health Care System, the pharmacist's role and the needs of patients. Information and use of some non-prescription drugs, medical surgical products and basic emergency treatment. Development of verbal communication skills. (Restricted to Pharmacy students).

PHARM 303 Pharmacy Dispensing Procedures and Pharmaceutical Calculations
★3 (second term, 3-0-3). An introduction to the technical aspects of dispensing, pharmaceutical calculations, dosage forms and drug procurement. Development of basic patient medication counselling skills. Exposure to the need for accuracy and accountability as a professional responsibility. Prerequisite: PHARM 302. (Restricted to Pharmacy students).

PHARM 320 Introduction to Medicinal Chemistry
★6 (3-0-0). The development of drugs. Physicochemical properties and biologic activity. The relationship of these properties to the absorption, distribution and elimination of drugs. The metabolism of drugs, enzymes, pathways, mechanisms and substrates. Drug receptor interactions and receptor site theory. Prerequisite: CHEM 100 and CHEM 160. Corequisite: PHYSL 352. (Restricted to Pharmacy students.)

PHARM 325 Introduction to Quantitative Pharmaceutical Analysis
★3 (first term, 3-0-3). Chemical methods of quantitative analysis. The laboratory exercises consist of both instrumental and non-instrumental pharmacopoeial techniques that are widely employed in the analysis of pharmaceuticals. Prerequisite: CHEM 100 and 160. (Restricted to Pharmacy students.)

PHARM 340 Pharmacy Administration
★3 (second term, 3-2s-0). An introduction to the elements of pharmacy administration consisting of: management principles, pharmaceutical marketing, and practice management. Provides the student with an understanding of the economic, political, and professional environment of the profession of pharmacy. (Restricted to Pharmacy students.)

PHARM 352 Jurisprudence and Ethics
★3 (first term, 3-1s-3). A study of the laws governing the practice of pharmacy, an understanding of the legal rights and responsibilities of the pharmacist and a practical application of these laws. Ethical theories and principles and their application in pharmacy practice. Development of verbal communication skills with emphasis on pharmacist-patient, and pharmacist-other health professional relationships. A study of the psychological aspects of illness. Prerequisite: PHARM 303. (Restricted to Pharmacy students).

PHARM 360 Pharmaceutics
★6 (3-0-3). Principles of pharmaceutical dosage forms. Factors affecting the physical and chemical behavior of drug products. Rationale underlying the formulation and compounding techniques of pharmaceutical preparations. Prerequisite: PHARM 303 and MATH 113. (Restricted to Pharmacy students).

PHARM 370 Medicinal Chemistry
★6 (3-0-0). The study of organic medicinal substances. The design and synthesis, physical-chemical properties, mechanism of action, metabolism and structure-activity relationships of drug classes are discussed. Prerequisite: PHARM 320.

PHARM 380 Introduction to Disease Processes
★3 (first term, 3-0-0). The nature of disease, causes, processes, effects and associated alterations in structure and function. Prerequisite or corequisite: ANAT 200, PHYSL 352. (Restricted to Pharmacy students).

PHARM 402 Monitoring Drug Therapy Based on Patient Interviews, Patient Counselling and Drug Information
★3 (second term, 3-0-3). Lectures and laboratory exercises to develop the student's skills in clinical pharmacy practice relating to patient interviewing, dispensing, counselling and monitoring drug therapy. Prerequisite: PHARM 405, 415, and PMCOL 431. Corequisite: PHARM 431. (Restricted to Pharmacy students).

PHARM 403 Toxicology of Drugs and Related Products
★3 (second term, 3-3s-0). Topics discussed include poisoning and its emergency treatment; toxicity of analgesics, antibiotics, iron, common drugs and household products, food additives; CNS and PNS toxicity; nephrotoxicity and hepatotoxicity; toxicity to the ear; ocular and epidermal toxicity; toxicity of pesticides and herbicides; neonatal and geriatric toxicology; carcinogenicity and teratology; porphyrias, blood dyscrasias; placental transfer of drugs; drugs in milk. Prerequisite: PHARM 415. Corequisite: PHARM 402 and 431. (Restricted to Pharmacy students).

PHARM 404 Clinical Pharmacy
★3 (second term, 3-0-0). Lecture/discussion sessions are used to demonstrate clinical pharmacy responsibilities in a selected number of areas. Experience will be gained in using a case history, patient management approach to clinical problem solving. Topics of discussion include clinical laboratory tests, applied clinical pharmacokinetics, advanced OTCs, drug information, drug substance abuse, and clinical drug interactions. Corequisite: PHARM 431. (Restricted to Pharmacy students).

PHARM 405 Introduction to Institutional Practice and Patient Counselling with the Emphasis on Nonprescription Drugs
★3 (first term, 3-1s-3). An understanding of the drug distribution system in hospitals. An evaluation of drug literature. Introduction to the workshop format and patient interviewing. An understanding of the role of self-medication in health care. An introduction to nonprescription drug products and the Drug Caution Code. Prerequisite: PHARM 352. (Restricted to Pharmacy students).

PHARM 415 Biopharmaceutics and Pharmacokinetics
★3 (first term, 3-0-0). Application of biopharmaceutics and pharmacokinetics to patient care and drug therapy. Clinical pharmacokinetics of selected classes of drugs. Prerequisite: PHARM 320 and PHARM 360. Corequisite: PHARM 431.

PHARM 431 Therapeutics
★6 (3-0-0). Integrated lectures and seminars on the pharmacological action of drugs and the therapeutics of common diseases. Basic pharmacological principles; mechanisms of actions of drugs; rationale of drug therapy and problems associated with the use of drugs in the disease state; the role of the pharmacist in therapeutics. Prerequisite: PMCOL 431. (Restricted to Pharmacy students).

PHARM 432 Antimicrobial Drugs
★3 (first term, 3-0-0). Current chemotherapeutic drugs of choice for the treatment of fungal and bacterial disease. Each drug is discussed under the following headings: structure and relation to activity, mechanism of action, antimicrobial spectrum, development of microbial resistance, absorption, distribution, metabolism, excretion, toxicity, therapeutic use, instructions to patient, and formulations available in Canada. Prerequisite: MICRB 193. (Restricted to Pharmacy students.)

PHARM 443 Radiopharmaceutical Sciences I
★3 (second term, 3-0-0). Basic principles involving the application of radiation and radioactive compounds in

medical diagnosis, therapy and industry. Rationale for utility, preparation and quality control of radiopharmaceuticals. Biologic effects of various radiations. Prerequisite: ANAT 200, PHYSL 352, BIOCH 301.

PHARM 456 Clinical Pharmacy Rotations
★15 (either term, 12 weeks of clinical experience). The student will be expected to demonstrate professional and technical competencies in a variety of practice situations, including counselling patients, obtaining medication histories, providing drug information, monitoring and evaluating drug therapy, adverse drug reaction assessment and reporting, and therapeutic drug monitoring. Prerequisite: PHARM 403 and 431, PMCOL 431. (Restricted to Pharmacy students).

PHARM 457 Contemporary Issues in Pharmacy
★2 (either term, 1-0-0). Historical developments, impact, and significance of developments in the field of pharmacy. (Restricted to Pharmacy students).

PHARM 458 Hospital Pharmacy
★3 (first term, 3-0-0). Current literature analysis and presentation of modern concepts in drug distribution, drug information systems, application of data processing to decentralized pharmacy services and administrative principles peculiar to institutional pharmacy. (Restricted to Pharmacy students).

PHARM 460 Sterile Products
★3 (either term, 3-0-3). This course is designed as a comprehensive education in sterile pharmaceutical products that may be prepared and/or dispensed by a hospital pharmacy department. Specific distribution systems and administration techniques will also be discussed. In addition to didactic education, practical experience will be provided in the laboratory section of the course. Prerequisite: PHARM 360. (Restricted to Pharmacy students).

PHARM 473 Selected Topics in Medicinal Chemistry
★3 (either term, variable). Recent developments and future trends in selected areas of medicinal chemistry. Prerequisite: PHARM 370 and 431, PMCOL 431 or consent of the Faculty.

PHARM 476 Quantitative Pharmaceutical Analysis
★3 (first term, 2-0-4). Clinical chemistry, drug and drug metabolite analysis in biological systems and their application to therapeutic drug monitoring and enzymatic techniques currently used in the clinical determination of drugs and metabolites in biologic media. Laboratory examples emphasize recent methods in the clinical and pharmaceutical sciences. Prerequisite: PHARM 325 or consent of the Faculty.

PHARM 481 Veterinary Pharmacology
★3 (second term, variable). A course in the commonly used veterinary biological and pharmaceutical preparations; general sanitary and management procedures for the prevention and control of livestock diseases; a brief review of infectious diseases and animal parasites.

PHARM 484 Biological Products
★3 (either term, 3-0-0). Current principles of immunization — recommended immunization schedules, vaccines against viral, and bacterial diseases of concern to Canadians; immunization and health considerations for health care professionals, international travellers and day care attendees; selected topics of current interest — time permitting. Prerequisite: MICRB 193 or consent of the Faculty.

PHARM 489 Seminars in Therapeutics and Professional Practice
★3 (either term, variable). A seminar course for fourth year pharmacy students covering selected topics in therapeutics, pharmacokinetics and clinical pharmacy. Prerequisite: PHARM 403, 415, and 431. (Restricted to Pharmacy students).

PHARM 494 Pharmacy Management: Selected Topics
★3 (either term, variable). Continuation of PHARM 403 with emphasis on financial management and the management of human resources. Projects on pharmacy operations. Prerequisite: PHARM 403.

PHARM 496 Professional Management: Community
★3 (second term, 3-0-0). Continuation of PHARM 403 with emphasis on financial management and the management of human resources. Projects on pharmacy operations. Prerequisite: PHARM 403.

PHARM 498 Pharmaceutical Research
★3 (either term, 0-0-4). Investigational work under the direction of a member of the Faculty. Preparation of a written report. Prerequisite: Consent of the Faculty and the approval of a Faculty member to direct the research. This course may be taken during the Intersession by special arrangement. (Restricted to Pharmacy students.)

154.5.2 Graduate Courses

A list of Graduate Courses can be found in the Graduate Studies and Research Section of this Calendar.

154.6 Physiology

PHYSL 352 Human Physiology
★6 (3-0-0;3-0-3). An introductory course on mammalian and human physiology. Available only to students in the Faculties of Pharmacy and Home Economics.

154.7 Pharmacy Courses

(for students who entered the program in September of 1988 or earlier)

For continuing students who entered the Pharmacy program in September of 1988 or earlier, the program of courses will be that provided for in the 1988-89 Calendar. Accordingly, the following Fourth Year undergraduate courses will be available in 1991-92.

154.7.1 Undergraduate Courses

PHARM 430 Pharmaceutical Toxicology
★3 (first term, 3-0-0). Topics considered include poisoning and its emergency treatment; toxicity of common drugs, household products, vitamins and food additives; toxicology of antimicrobial therapy, undesirable physiological and biochemical effects of commonly used drugs, pathological changes resulting from drug toxicity and mechanisms of toxic reactions, genetics and toxicology. Prerequisite: PMCOL 431 (Restricted to Pharmacy students).

PHARM 450 Introduction to Radiopharmacy
★3 (first term, 3-0-2). Basic principles of radioactivity and utility of radiopharmaceuticals for diagnosis and therapy. Fundamental design and operation of various radiation detection instruments as pertaining to radiopharmacy and nuclear medicine. Laboratory: Application of radiation detection to radiopharmacy. Prerequisite: Consent of the Faculty.

PHARM 454 Isotopes in Nuclear Medicine
★3 (second term, 5-0-0, second six weeks of term). Application of radionuclides in medical diagnosis and treatment; control of radionuclides in the hospital; radiation hazards. Prerequisite: PHARM 450 or PHARM 601 or consent of the Faculty.

PHARM 461 Sterile Products I
★3 (first term, 3-0-0). Lecture portion only of PHARM 460. Prerequisite: PHARM 315. Restricted to Pharmacy students.

PHARM 466 Clinical Pharmacy
★3 (second term, 6-0-0, either first 6 weeks or second 6 weeks of the term). Lecture/discussion sessions are used to demonstrate clinical pharmacy responsibilities in a selected number of areas. Experience will be gained in using a case history, patient management approach to clinical problem solving. Topics of discussion include clinical laboratory tests, applied clinical pharmacokinetics, advanced OTC's, drug information, drug substance abuse, and clinical drug interactions. Prerequisite: PHARM 487 and 488. (Restricted to Pharmacy students).

PHARM 488 Pharmaceutical Therapeutics II
★3 (first term, 3-0-0). Lectures on common diseases and their treatment. Rational of drug therapy and problems associated with the use of drugs in disease state. The role of the pharmacist in therapeutics. Areas covered include the therapy of respiratory, neurological, rheumatic, malignant, and infectious diseases. Prerequisite: PMCOL 431.

PHARM 490 Contemporary Issues in Pharmacy
★2 (1-0-0 in the first term; 1-0-0 in either first six weeks or second six weeks of the second term). Historical developments, impact, and significance of developments in the field of pharmacy. (Restricted to Pharmacy students).

PHARM 491 Professional Practice VII
★3 (first term, 2-0-0). The use and application of a problem oriented approach to drug therapy and patient care. Familiarity will be gained with this approach by means of presentation of clinical case studies by the students with supervision and constructive feedback from the instructors. Prerequisite: PHARM 401, 487 and PMCOL 431. Corequisite: PHARM 488. Restricted to Pharmacy students.

PHARM 492 Pharmacy Management I
★3 (first term, 3-0-0). Management concepts and their application to pharmacy. The environment of pharmacy practice stressing the interaction of pharmacy with the economic system and government programs. Marketing of pharmaceuticals and pharmaceutical services. (Restricted to Pharmacy students).

PHARM 495 Professional Practice VIII
★3 (second term, six weeks of clinical experience). Clinical experience which will provide the student with the opportunity to practice clinical pharmacy in several settings. The student will be expected to demonstrate professional and technical competency in a variety of practice situations, including patient counselling, obtaining medication histories, provision of drug information, adverse drug reaction assessment and reporting, applied pharmacokinetics etc. Prerequisite: PHARM 491. Restricted to Pharmacy students.

PHARM 499 Pharmaceutical Research
★4 (0-0-4). Investigational work under the direction of a member of the faculty. Preparation of a written report. Prerequisite: Consent of the Faculty and the approval of a Faculty member to direct the research. This course may be taken during the Intersessions by special arrangement. Credit cannot be obtained for both PHARM 498 and PHARM 499. (Restricted to Pharmacy students.)

154.7.2 Graduate Courses

A list of Graduate Courses can be found in the Graduate Studies and Research Section of this Calendar.

University of Alberta
Edmonton

1991/92 Calendar

Faculty of Physical Education and Recreation

Faculty of Physical Education and Recreation

161 Introductory

161.1 Members of the Faculty

161.1.1 Officers of the Faculty

Professor and Dean
EJ Watkinson, PhD

Professor and Associate Dean (Academic)
ML Padfield, MA

Professor and Associate Dean (Planning)
LM Wankel, PhD

Assistant Dean
WE Tatarchuk, MPE

161.1.2 Physical Education and Sport Studies

Professor and Chair
HA Quinney, PhD

Professors
RB Alderman, EdD
M Ellis, PhD
RG Glassford, PhD
MA Hall, PhD
PL Lindsay, PhD
RBJ Macnab, PhD
EB Mitchelson, PhD
HA Quinney, PhD
G Redmond, PhD
HA Scott, PhD
M Singh, PhD
T Slack, PhD
GJ Smith, PhD
RD Steadward, PhD
EJ Watkinson, PhD
RB Wilberg, PhD
E Zemrau, BSc

Associate Professors
PR Conger, MA
JG Donlevy, MA (Joint Appointment)
P Gervais, PhD
J Hogg, PhD (Joint Appointment)
AB Nielsen, PhD
SJ O'Brien Cousins, MPE
ML Padfield, MA
SR Petersen, PhD
LD Shogan, PhD (Joint Appointment)
FA Tally, MSc
LP Thompson, PhD

Assistant Professors
J Bobet, PhD
M Bouffard, PhD

Honorary Professors
M Cottle, PhD
DC Reid, MD
CT Kappagoda, MD, PhD

Administrative Officer
PD Bates, MEd

161.1.3 Recreation and Leisure Studies

Professor and Chair
GS Swinnerton, PhD

Professors
TL Burton, PhD
RP Heron, PhD
SA Mohsen, PhD
GS Swinnerton, PhD
LM Wankel, PhD (Joint Appointment)

Associate Professors
V Blakely, MA
J James, PhD
D Shogan, PhD (Joint Appointment)
DJ Whitson, PhD

Administrative Officers
DR Mitsui, MA (Practicum Supervisor)
L Jenkins, BPE, BEd

161.1.4 Athletics

Administrative Officer and Chair
DHP Schulha, MSc

Associate Professors
JG Donlevy, MA (Joint Appointment)
J Hogg, PhD (Joint Appointment)
D Horwood, MA
DB Syrotuik, PhD

Assistant Professor
DE Hilko, BEd

Administrative Officers
AC Burgess, PhD
HSD Hoyles, BPE
NM Jette Chisholm, MSc, BSc (PT), CAT(C)
I Reade, MSc

Coach/Instructors
P Baudin, MSc
T David, BPE
WR Moores, BPE
S Smith, BEd

Marketing Director
DM Gingera, BPE

161.1.5 Division of Support Services

Director
JB Barry, MA

Assistant Director
C Forre Laskosky, BA (Rec Admin)

Administrative Officer
WE Montgomery, PhD

161.1.6 Additional Members of Faculty Council

President and Vice-Chancellor
P Davenport, PhD

Professors
L Beauchamp, PhD (Secondary Education)
CM Bourassa, PhD (Psychology)
DJ Moss, PhD (History)
RE Rossall, PhD (Medicine)

Assistant Professors
VE Baracos, PhD (Animal Science)
H Clarkson, PhD (Physical Therapy)

Registrar of the University
BJ Silzer, MEd

161.2 General Information

The first physical education courses for regular credit were offered by the Faculty of Education in 1945. This led, in the late 1940's, to a Bachelor of Education in Physical Education.

A School of Physical Education was established by the General Faculties Council in 1954 and the degree of Bachelor of Physical Education was credited on April 1, 1964. The School became the Faculty of Physical Education and in 1976 the name was changed to the Faculty of Physical Education and Recreation.

Since 1963 the Faculty has also offered a four-year program leading to the degree of Bachelor of Arts in Recreation Administration.

In addition to these two programs, the Faculty provides a wide selection of courses for students in the Faculty of Education, organizes and supervises intramural programs, and acts in an advisery capacity for the intercollegiate athletic programs.

Students holding the degree of BPE or its equivalent may undertake graduate study in physical education leading to the degrees of Master of Arts, Master of Science and Doctor of Philosophy. Students holding the degree of BA in Recreation Administration or equivalent may undertake graduate study leading to the degree of Master of Arts (Recreation). The calendar of the Faculty of Graduate Studies and Research should be consulted for further details.

The Faculty structure was revised effective July 1, 1983 into three Departments and one Division: the Department of Physical Education and Sport Studies; the Department of Recreation and Leisure Studies; the Department of Athletic Services (changed to Department of Athletics in 1986); and the Division of Support Services.

Teacher Education: Students wishing to qualify for teaching positions have the option of completing the Bachelor of Physical Education degree and then taking teacher certification or they may complete the Bachelor of Education degree with a major in Physical Education. The major in Physical Education is offered to students in the secondary route only. Elementary route students should consult their advisers in building an area of concentration in Physical Education. The Bachelor of Physical Education degree offers approximately forty percent more professional Physical Education courses but requires one and a half additional years for certification.

Campus Recreation Activities: The Department of Athletics, in the Faculty of Physical Education and Recreation, organizes and administers a comprehensive program of recreational activities for students, academic and non-academic staff, and their families.

The objectives of the Campus Recreation Program are: to offer as wide a range of recreational activities as possible for all people on campus; to provide, within a well organized setting, opportunities for physical exercise and an improved lifestyle for the campus population; to provide an atmosphere in which socialization will be maximized during and after participation in activities; to provide opportunities to learn how to participate in various activities and to improve skill levels in these activities if desired.

In order to meet these objectives the program has the following segments: men's, women's and co-recreational intramural activities; campus fitness and lifestyle programs; non-credit instruction; sports clubs; spring and summer recreation activities and special events.

Facilities include gymnasia, two swimming pools, outdoor playing fields, 14 squash and racquetball courts, a weight training room, an ice arena, a tennis centre, and the multipurpose Universiade Pavilion built for the World University Games in 1983.

Interuniversity Athletics: As a member of the Canada West University Athletic Association, the University provides opportunities for men and women to compete in interuniversity sports. Included in the activities for men are volleyball, basketball, gymnastics, hockey, wrestling, soccer, swimming, track and field and football. Women compete in track and field, basketball, volleyball, soccer, gymnastics, swimming and field hockey.

161.3 Clothing

Students are advised that the purchase of physical education wearing apparel must be completed prior to the start of activity classes.

Activity course dress requirement for first class: Students are expected to attend the first class of an activity course appropriately dressed for active participation. Information concerning dress for each activity course will be available through the Department of Physical Education and Sport Studies.

162 Faculty Regulations

162.1 Admission

162.1.1 General Information

Admission into all programs is on a quota basis due to the limitation on available resources. Although selec-

tion procedures vary with the degree program, in general the emphasis will be upon academic standing with preference being given to those applicants with the highest standing.

Admission requirements of the Faculty for individuals applying with matriculation standing are set out in §13.2 and §13.4.14 of this Calendar. Other regulations for admission to the BPE program are set out in §162.1.2 and for the BA program in Recreation Administration in §162.1.3.

Non-Matriculated Applicants: (Refer to §13.8.10 of this Calendar for details.)

English Language Proficiency: Refer to §13.2.2 of this Calendar for details.)

Residence Requirements: A student proceeding towards a first (bachelor's) degree is expected to complete at least half of the credits required through courses offered by the University of Alberta (either "on" or "off" campus in winter, Intersessions). Normally, at least half of these "University of Alberta" courses will be taken as the final courses in the program. Credits obtained by special assessment at the University of Alberta may be included in the count of courses used to satisfy the residency requirements. (See §13.9.5 - Credit by Special Assessment.)

162.1.2 BPE Degree Program

(1) Applications must be received by May 1. Applications received late will not be considered. Returning BPE students must apply by June.

(2) Entry to the BPE degree program occurs for September only.

(3) Documents must be received by June 15th or the application will not be considered. The documents include the following:

a. a completed questionnaire providing detailed information on their leadership and physical activity/sport background.

b. three letters of reference.

c. a medical report.

d. students may also be required to attend an interview.

(4) The principal factor in admission decisions will normally be the academic record. Decisions on the admission of students clustered around the cut-off mark in any given year will also be based on an interview, background information provided by the questionnaire, and the letters of reference.

(5) Students will be considered for admissions to a specified year of the program based on their progress within the degree structure:

a. **First Year Students:**

1) **Matriculation Applicants:** Students presenting matriculation results for admission to the BPE program must meet the requirements as published in §13.4.14.

2) **Transfer Student Applicants:** This category includes those students who have successfully completed fewer than 18 of the 24 units of course weight required in the first-year BPE program. To be considered for admission these students must present a minimum GPA of 5 or equivalent based on a minimum of 30 units of course weight of transferable credits. Possession of this minimum GPA does not guarantee admission to the program.

3) **Non-Matriculated Applicants:** Non-matriculated applicants will be considered for admission and must meet the requirements as published in §13.8.10. All non-matriculated applicants will be interviewed.

b. **Second Year Students - Transfer Student Applicants:** Transfer students from other post-secondary institutions must have successfully completed 18 of the 24 units of course weight required in the first-year BPE program with a GPA of at least 5. However, possession of this minimum GPA does not guarantee admission to the program.

c. **Third Year Students - Transfer Student Applicants:** To be considered as a third year student, transfer students must have successfully completed all first year BPE requirements. In addition, they must have a GPA of at least 5 on a minimum of 60 units of course weight. However, possession of this minimum GPA (5) does not guarantee admission to the program.

(6) The Admissions Committee determines the successful candidates and develops an alternate list. Accepted students must return an "Intention of Attendance" form so that students on the alternate list may be given the opportunity to attend the BPE degree program if spaces become available.

(7) Special and Visiting Students will not be included in the quota. Normally, only students who already hold a university degree will be admitted as Special Students.

162.1.3 BA (Recreation Administration)

Those students seeking entry to the BA (Recreation Administration) program must have completed a preprofessional year. Three options exist for meeting the preprofessional year requirement.

Option 1

Completion of one full year of university study (30 units of course weight) which must include:

(1) Introductory Sociology (SOC 100 recommended)

(2) Introductory Psychology (PSYCO 104 recommended)

(3) Introductory Political Science or Economics

(4) Introductory Philosophy (PHIL 130 recommended)

(5) Introductory Physical Geography (GEOG 130 recommended)

(6) Fifteen units of course weight in optional Arts and Science courses. (It is strongly recommended that an introductory English and/or History course be included. Prospective students are advised to review prerequisites for Pattern courses within the professional program when selecting these optional courses.)

(RLS 120: Introduction to Recreation and Leisure Studies, or RLS 401: Community Recreation, will be accepted as one of the five optional courses.)

Option 2

Completion of one full year of university study in the Faculty of Arts BA (AR 20) degree program at the University of Alberta or a recognized transfer program to the Faculty of Arts BA (AR 20) degree program. In order that students pursuing this option not be penalized in the event that their applications to the BA (Recreation Administration) program are rejected, these students will be advised to take the following program in Year 1 of the BA (AR 20) program in Arts:

First Term	Second Term
ENGL 101	ENGL 101
PHIL 140	PHIL 140
SOC 100	ECON 101
FREN 150 (or LOE)	FREN 150 (or LOE)
PSYCO 104	GEOG 130

Option 3

Completion of a two-year diploma in Recreation and Leisure Studies, or a related field, from an accredited community college. Such a diploma must include courses equivalent to those in the specified subjects for the preprofessional year as outlined under Option 1.

Admission Standards

In order to qualify for consideration for admission to the program, an applicant must have obtained a cumulative grade point average of 5.5 in the program of study for the preprofessional year, or its equivalent in the program of study offered as the basis for advanced standing for the preprofessional year.

The quota for the BA (Recreation Administration) Degree program requires that students be ranked according to their grade point average with the cutoff point varying from year to year but not dropping below the admission standard of 5.5 on the 9-point University of Alberta scale (or its equivalent from elsewhere). (The quota for Year 2, following the preprofessional year, is 80.)

Students who are admitted into Year 2 of the program after having successfully completed a preprofessional year and Year 1 at Red Deer College, must have completed the same course requirements and have met the same promotional standards as those that are required of students enrolled in Year 1 of the program at the University of Alberta. (The quota for Year 2 of the program following the preprofessional year and Year 1 at Red Deer college is 25.)

Application deadline for the BA (Recreation Administration) degree program is May 1.

Entry to the program occurs for September only.

162.2 Definitions

The following terms, definitions and abbreviations are used throughout this section of the calendar.

(1) **Unit of Course Weight:** A unit of course weight is an indication of the instructional credit assigned to a course and is designated by the ★ symbol after the course number and name. Units of course weight are used to form a part of the degree requirements and are also used in calculating a students Grade Point Average (GPA) and Quality Index (QI).

(2) **Full-Session:** The instructional period from September to April and is often referred to as the winter session.

(3) **Full-Session Course:** A full-session course means a single course with ★6 units of course weight.

(4) **Half-Session:** The instructional periods from September to December or January to April.

(5) **Half-Session Course:** A half-session course means a single course with ★3 units of course weight.

(6) **Normal Course Load:** A normal full academic course load is 30 units of course weight taken during the winter session. Note: In order to complete the BPE degree within the recommended 4-year period, students must take an average of 33 units of course weight each session.

(7) **Passing Grade:** No grade lower than 4 will be permitted in any course leading to the BPE or BA (Recreation Administration) degree programs.

(8) **Grade Point Average (GPA):** The Grade Point Average (GPA) is defined by the following formula:

$$GPA = \frac{\text{sum of (grade x units of course weight)}}{\text{sum of units of course weight}}$$

The GPA refers to the sessional average and the following are the rules for its computation:

a. The GPA for any session shall be based on the final grades in all courses taken during that session, including half-session courses repeated in the second term and courses extra to the degree program;

b. An alphabetical grade of ABF will be counted as a numeric grade of 1 in the computation of the common GPA;

c. An alphabetic grade of WF will be counted as a numeric grade of 1 in the computation of the common GPA;

d. Grades of Credit-No Credit and Pass-Fail will not be included in the computation of the common GPA;

e. The common GPA will be rounded to the nearest decimal place using standard rounding rules - this is, it will be rounded up with a value of 5 or greater in the first non-significant place and rounded down with a value of 4 or less in the first non-significant place.

(9) **Quality Index (QI):** The Quality Index (QI) is defined by the following formula:

$$QI = \frac{\text{sum of units of course weight passed}}{\text{sum of units of course weight attempted}} \times GPA$$

162.3 Academic Standing and Graduation

(1) To qualify for the BPE or BA (Recreation Administration) degree, a student must successfully complete all requirements including a GPA of at least 5.0 in the last two years of their program.

(2) First Class Standing in a given year shall be awarded to any undergraduate student who obtains a GPA of not less than 7.5 while enrolled in at least 30 units of course weight in that year. For the Faculty of Physical Education and Recreation a normal full academic course load is 30 units of course weight.

(3) **Degree with Distinction:** The "Degree with Distinction" will be awarded to students who obtain a GPA of 7.5 or higher on the last 60 units of course weight in the BA (Recreation Administration) degree program or on the last 66 units of course weight in the BPE degree program.

4) **Grades in 100-Level Activity (PAC) Courses:** Evaluation will be based solely on performance and will be defined in advance through skill competencies for each activity. Grades of 4 to 9 will be defined by increasingly more skillful performance with those competencies required for a grade of 4 reflecting a performance adequate to proceed to a PAC 300- or 400-level course.

5) **Academic Status:**

a. **Category A Status:** QI of 4.0 and GPA of 5.0 or more.

b. **Category M Status:** QI of 4.0 and over with a GPA below 5.0. Student would remain in the Faculty, would receive a letter of warning from the Department, and would be monitored in terms of academic progress. Category M (marginal status) on two occasions (not necessarily consecutively) would become Category B.

c. **Category B Status:** QI of 3.0 to 3.9. Student placed on probation, would receive a letter of warning from the Office of the Dean and be monitored in terms of academic progress.

d. **Category C Status:** QI less than 3.0. Student would be required to withdraw. Normally readmission not be considered until after one academic year. At that time, readmission would be based on individual merit and will not be automatic. Category M followed by Category B or Category B followed by Category M (these not necessarily consecutively) will also lead to Category C Status.

e. **Probation:** Probationary status will be assigned to all Category M, Category B, or returning Category C students. Students under probationary standing must demonstrate the ability to meet graduation standards. They must:

1) normally register as full time students and achieve a QI of at least 4.0 and a minimum GPA of 5.0 on 30 units of course weight or a minimum GPA of 5.5 on 24 units of course weight.
2) pass all courses (minimum grade of 4).

Failure to meet these standards will result in the assignment of Category C status.

Category B students will have probationary status lifted after successful completion of these requirements over a full session.

Readmitted Category C students will remain on probationary status each session for the remainder of their degree program. Readmitted Category C students **who fail to meet probationary standards,** will not be readmitted to the Faculty of Physical Education and Recreation.

6) **Reexaminations**

a. A student may be permitted a reexamination only under extenuating personal or other circumstances and at the discretion of the Dean, provided that:

1) The student's GPA is 5.0 or greater in the courses for that term.
2) The weight of the final examination is 40% or higher.
3) The student has received a grade in the course of 3 or greater. The intent here is that students who are able to establish a special circumstance and who have a reasonable chance to achieve a passing grade on the course be allowed to undertake a reexamination. The desire to achieve an improved grade in and of itself is not a special circumstance and, therefore, it is not the intent that the reexamination process be used for this purpose.
4) The Chair of the Department, in consultation with the course instructor, states that the student has a reasonable probability of success in the reexamination.

b. If a reexamination is approved the following policies apply:

1) The reexamination will have the same percentage value as the original final examination.
2) The reexamination mark replaces the original examination mark in determining the final grade in the course.
3) Students are normally permitted only two reexaminations in half-courses during the program.

c. Deadlines for applying for a reexamination will normally be the following:

1) First-term courses: the last day in February.
2) Second-term or full-session courses: July 31.
3) Intersession, first-term course: August 31.
4) Intersession, second-term course: October 31.

d. Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

162.3.1 Promotion Standards and Course Load Requirements for the BPE Degree Program

Full-time students enrolled in the BPE program will be promoted from year to year in the program based on the following guidelines:

(1) **Promotion from First to Second Year:** In order to be promoted from first to second year, students must maintain Category A status and successfully complete at least six of the eight required DANCE and PESS courses in the first year of the program. Students who are not promoted must repeat all Faculty of Physical Education and Recreation courses in which they received a grade of less than 5.0, and clear all first year deficiencies. Students repeating first year are not allowed to take any courses from the discipline core in Years 2, 3, or 4 during that repeated year.

(2) **Promotion from Second to Third Year:** In order to be promoted to third year, students must have successfully completed all first year requirements and have a GPA of at least 5.0 on a minimum of 60 units of course weight. Students with a GPA of less than 5.0 on 60 units of course weight will be placed on probation and during the subsequent year must repeat sufficient second-year courses to raise their GPA to 5.0 on a minimum of 60 units of course weight. Students repeating Year 2 will develop their program in consultation with Department staff.

(3) **Promotion from Third to Fourth Year:** In order to be promoted to fourth year in the program, students must be able to complete all requirements for graduation in time to convocate either in the Spring or Fall of the next year and have a GPA of at least 5.0 on a minimum of 90 units of course weight. Students with a GPA of less than 5.0 on 90 units of course weight will be placed on probation and during the subsequent year must repeat sufficient third-year courses to raise their GPA to 5.0 on 90 units of course weight. Students repeating Year 3 will develop their program in consultation with Department staff.

(4) Students who have received approval to pursue the degree on a part-time basis will be required to maintain Category A status (GPA of at least 5.0) each year and will be promoted to the next year when they have met the appropriate criteria.

(5) All students must register in the program on a continuous basis to ensure a place in the program. Students who wish to temporarily discontinue their program must obtain prior approval of the Department. Discontinuance without permission will require the student to seek readmission and, in this situation, readmission will not be guaranteed.

(6) Probationary status will be assigned to all Category M, Category B, and returning Category C students. Students under probationary standing must demonstrate the ability to meet graduation standards. They must:

a. normally register as full-time students and achieve a Q.I. of at least 4.0 and a minimum GPA of 5.0 on 30 units of course weight or a minimum GPA of 5.5 on 24 units of course weight.

b. pass all courses (minimum grade of 4).

Failure to meet these standards will result in the assignment of Category C status. Category M and B students will have probationary status lifted after successfully completion of these requirements over a full session. Readmitted Category C students will remain on probationary status each session for the remainder of their degree program. Readmitted Category C students who fail to meet probationary standards will never be readmitted to the Faculty of Physical Education and Recreation.

(7) A student proceeding towards a BPE degree must normally attend the first two years of the program on a full-time minimum (30 units of course weight/session) basis. Special cases will be considered on individual merit but a student will not be allowed to pursue the degree entirely on a part-time basis.

(8) Permission to enroll in extra courses (beyond 33 units of course weight) during a Winter Session term will only be considered if a student has a minimum GPA of 7.0 on a minimum of 24 units of course weight over the previous two terms and, in addition, the limit will be 36 units of course weight. This request must be submitted in writing by the student to the Undergraduate Chair.

162.3.2 Promotion Standards, Course Load Requirements and Time Limits for Completion of the BA Program

To be promoted from one year to the next in the BA (Recreation Administration) program, a student must complete all course requirements for that year while maintaining category A status as defined by the academic standing regulations of the Faculty of Physical Education and Recreation (see §162.3 above).

All students must spend at least one year of the program (normally, year 1) registered on a full-time basis carrying a full load (i.e. 33 units of course weight).

Normally, no transfer credit will be granted beyond that given for advanced standing for the preprofessional year.

Time limits for completion of degree requirements: Students in the BA program must normally complete all degree requirements within eight years of their original admission to the program.

Note: §162.4 reserved.

162.5 Continuous Registration

All students must register in the program on a continuous basis to ensure a place in the program. Students who wish to temporarily discontinue their program must obtain prior approval of the Department. Discontinuance without permission will require the students to seek readmission and, in this situation, readmission will not be guaranteed.

162.6 Changes in Registration

(1) Changes in Registration (i.e. last day to add courses). The deadlines for changes in registration, daytime courses are: first-term and full-session courses: September 11; second-term courses: January 10.

(2) Withdrawal from courses. The deadlines for withdrawing from courses are as follows: from a full-session course, January 10; from a single-term course offered in first term, November 15; from a single-term course offered in the second term, March 20.

PAC 100-level courses of one-half a term in length have a withdrawal deadline of the Friday of the fourth full week of the courses. Therefore, in 1991-92, PAC course withdrawal dates are: October 4, November 15, January 31, and March 20.

162.7 Academic Appeals and Grievances

A student wishing to appeal an academic decision within this Faculty must first attempt to resolve the issue with the instructor concerned (if applicable), then with the Department Chair, and if this is not satisfactory, with the Associate Dean. If there is still no satisfactory resolution of the issue the student may then appeal to the Faculty's Undergraduate Student Academic Appeal Committee, by submitting an appeal in writing to the Chair of the Undergraduate Academic Appeal Committee within three months of notification of the decision to be appealed. Further details of the Faculty's appeal procedure are available from the office of the Dean. Certain decisions of this Faculty Undergraduate Academic Appeal Committee may be appealed to the Aca-

demic Appeal Committee of General Faculties Council within 30 days of receiving a decision from the Faculty Appeal Committee. For further information contact the secretary of General Faculties Council.

162.8 Attendance in Dance, Health Education, Physical Activity, and Physical Education and Sport Studies Courses

(1) **Attendance at the first class/lab:** Due to the demand for spaces in many courses, it is necessary to obtain accurate enrollment figures as early as possible in the term to allow students to be considered for available spaces. Therefore, students who are not in attendance at the first two class meetings (without giving prior written notice to the Department) will be subject to having their names struck from the official class list and will not be permitted to attend further meetings of the class.

(2) **Attendance in courses:** Since attendance at lectures, participation in classroom discussions are important components of most courses, students will serve their interests best by regular attendance. Those who choose not to attend must assume whatever risks are involved. However, it should be made clear that a student may be refused permission to write the final examination in a course on the recommendation of the department and with the concurrence of the Dean of the Faculty in the following circumstances:

a. The student has neglected to do a substantial portion of the written assignments in a course of which these are an essential feature, or has attended insufficiently in a course in which class participation is a necessity.

b. The student has neglected to do a sufficient amount of the practical or laboratory work in a course in which these are considered a basic requirement (See §§16.4 and 16.6 of this Calendar). The Department of Physical Education and Sport Studies' policy concerning attendance at laboratory, practicum, seminars, and physical activity classes is that unexcused absence from more than 10% of class sessions is considered to be insufficient attendance. Therefore, in such a situation, permission to take the final examination may not be granted.

163 Programs of Study

163.1 The Degree of BPE

Beginning with the 1986-87 Winter Session, students who entered the Bachelor of Physical Education degree program began taking a program of 132 units of course weight, which has both a professional and discipline focus. The components of the degree include:

Professional Core

A group of courses which deal with the application of theory to the field of Physical Education and Sport Studies.

Discipline Core

A group of courses which provide the knowledge foundation in the field.

Activity Component

A group of courses whose focus is on an activity or sport. These include courses which focus on personal skill acquisition and courses which deal primarily with the analysis, instruction or coaching of an activity.

Discipline Options

A group of discipline courses which are available to enhance a student's program beyond the discipline core level.

Approved Option Component

A group of courses which may be offered by any Department inside or outside of the Faculty. These normally require Department approval.

Route Component

A group or concentration of courses in a specialized professional area of Physical Education and Sport.

BPE Activity Component

Activity courses are those which focus on a physical activity or group of activities. 100-level courses focus specifically on personal skill acquisition and thus the evaluation process in these courses is designed to assess personal skill. PAC 300- and 400-level activity courses focus specifically on the analysis and instruction of a physical activity or group of activities.

A minimum of 7.5 units of course weight in 100-level activity courses and a minimum of 6 units of course weight in PAC 300- and 400-level activity courses must be presented for the BPE degree. Up to 4.5 units of course weight of the required PAC 100-level credits may be replaced by units of course weight in the **same** activity at the PAC 300- or 400-level. In total, every BPE student must present 18 units of course weight in activity courses prior to graduation.

Required Level I Courses:

Swimming
Gymnastics
Track and Field
Two of: Basketball, Field Hockey, Football, Ice Hockey, Soccer, Volleyball, Rugby, Golf, Squash, Racquetball, Tennis, Badminton.

The following is an outline of the BPE degree framework:

First Year

DANCE 100 The Spectrum of Dance in Society
PESS 100 Structural Anatomy
PESS 110 Physical Fitness Theory and Practice
PESS 120 Introduction to Athletic Therapy
PESS 140 Adapted Physical Education
PESS 150 Introduction to the Administration of Sport and Physical Education Programs
PESS 170 Leadership and Instruction in Physical Activity
PESS 180 Introduction to Outdoor Education
*Non-Faculty Option
*Non-Faculty Option
*Non-Faculty Option
*See list of suggested options in §163.1.2.

Second Year

PESS 201 Biomechanics
PESS 203 Skill Acquisition and Performance
PESS 204 Sociocultural Foundations of Physical Education and Sport
PHYSL 260 Elementary Physiology
Route Course
Physical Activity Course
Physical Activity Course
Approved Option

163.1.1 Degree Program Routes

Within the degree program each student will complete one of the following routes:

(1) The Adapted Physical Activity Route

The focus of the Adapted Physical Activity Route is on developing skills to work in instructional programs and in facilitating integration of the handicapped and disabled into the mainstream of physical activity. Following the introductory professional core course in Year 1 students will move to a series of three practicums. Practicums deal with(1) the moderately/severely mentally handicapped,(2) the physically awkward, and(3) physically disabled adults. These practicums will focus on individualized instruction, small group instruction, counselling, program planning, program design, and administration of programs.

Required Courses

PESS 345 Practicum in Physical Education for the Mentally Handicapped
PESS 346 Practicum in Physical Activity for the Physically Awkward
PESS 445 Practicum in Physical Education for the Physically Disabled

And **four courses** from the following list **some of these courses have prerequisites**; refer to the appropriate sections of the University Calendar for further information):

EDPSY 207 Classroom Management of Atypical Adolescents
EDPSY 341 Psychology of Exceptional Children and Youth
EDPSY 343 Education of Exceptional Children and Youth
EDPSY 357 Behavioral Management of Exceptional Children
EDPSY 411 Introduction to Guidance
EDPSY 469 Human Development and Education
FAM 320 Development in Infancy and Early Childhood
FAM 410 The Aging Family: Needs and Resources
FAM 412 Family and Special Needs Children
LING 319 Child Language Acquisition
OCCTH 106 Communication Theory and Helping Relationships
OCCTH 107 Models, Approaches, and Service Delivery
OCCTH 498 Special Seminars (Intersession)
PSYCO 223 Developmental Psychology
PSYCO 258 Cognitive Psychology
PSYCO 339 Abnormal Psychology
PSYCO 454 Perceptual and Cognitive Development
PSYCO 456 Advanced Topics in Developmental Psychology
PSYCO 458 Advanced Cognitive Psychology
RLS 432 Recreation for Special Groups
SOC 224 Sociology of Deviance and Conformity
SOC 225 Criminology
SOC 271 Introduction to the Family
SOC 342 Socialization
SOC 375 Sociology of Aging
SOC 377 Sociology of Youth
SOC 427 Juvenile Delinquency
SPA 280 Language Development
SPA 281 Communication Disorders

For students with exceptional experience, entry the following courses may be possible. See the instructor for permission.

RLS 325 Principles and Processes in Planning for Leisure
RLS 471 Recreation Services for Special Groups

Optional Internship Program in the Adapted Physical Activity Route

Students who are interested may apply to enter the optional internship program which consists of a one term full-time practicum in an agency in the community. The practicum would require a 35 hours per week commitment to work in a suitable setting under the direction of an approved supervisor. Students would be involved in planning and implementing programs, instruction for special groups, administering programs, training volunteers, monitoring and evaluating programs and participants. Possible placements would include YMCA, YWCA, ACT Centre, Percy Page Centre, Special Olympics, Child Development Centre.

Student applicants will be chosen for appropriate placements. Since the number of placements is limited there will be a limit to the number of students in the optional program. This limit may vary from year to year. For these students the route requirements will be as follows:

PESS 345 Practicum in Physical Education for the Mentally Handicapped

PESS 346 Practicum in Physical Education for the Physically Awkward
PESS 445 Practicum in Physical Education for the Physically Disabled
PESS 495 Professional Practicum (equivalent to 12 units of course weight)

Students in the internship program are encouraged to take Route Option courses wherever possible in this program.

(2) The Sport and Physical Education Administration Route

The focus of the Administration Route is to provide an understanding of the role and function of an administrator in physical education and sport programs. The route will expose the student to both theoretical and practical issues in the organization and administration of physical education and sport programs. The Administration Route is concerned with the administration of physical education, co-curricular activities, intramurals, interscholastic sport, community sport, recreational physical activity, etc., as well as government and amateur sport.

Required Courses

ACCTG 300 Financial Accounting
ORG T 311 Theory of Formal Organizations
PESS 350 Advanced Analysis of the Administration of Sport and Physical Education Programs
PESS 495 Professional Practicum (equivalent to 12 units of course weight).

Plus two courses from the following list (some of these courses have prerequisites; refer to the appropriate sections of the University Calendar for further information):

ACCTG 311 Introductory Accounting
ECON 101 Introduction to Microeconomics
ECON 102 Introduction to Macroeconomics
LEG R 301 Legal Foundations of the Canadian Economy
MARK 301 Fundamentals of Marketing
ORG T 301 Behavior in Organizations
ORG T 402 Seminar in Advanced Theories of Behavior in Organizations
ORG T 412 Seminar in Advanced Concepts of Formal Organization Theory
ORG T 432 Sex Roles in Organizations
PESS 352 Sports Facilities: Planning, Construction and Maintenance
PESS 497 Selected Topics in Physical Education and Sport (Sport and Business)
PESS 497 Selected Topics in Physical Education and Sport (Sport and the Law)
PESS 497 Selected Topics in Physical Education and Sport (Computer Uses for Sport and Physical Education)
POL S 320 Canadian National Government and Politics
POL S 321 Canadian Government
POL S 322 Local Government and Administration
POL S 323 Local Government and Politics
POL S 328 Elements of Public Administration
POL S 414 Theories of Politics and Society
POL S 420 Canadian National Government
POL S 431 Administrative Behavior
RLS 120 Introduction to Recreation and Leisure Studies
RLS 324 The Political Economy of Leisure
RLS 325 Principles and Processes in Planning for Leisure
RLS 332 Program Planning, Marketing and Implementation
RLS 430 Administrative Practices in Recreation Organizations
RLS 450 Staging Major Community Events
RLS 451 Planning Recreation Facilities
RLS 470 School-Community Recreation
RLS 472 Sport and the Community
RLS 480 Public Relations for Recreation Agencies
RLS 481 Cultural Arts Administration
SOC 261 Social Organization
SOC 363 Sociology of Work and Industry
SOC 447 Leadership
SOC 460 Social Organization - Organization Theory
SOC 464 Selected Topics in the Sociology of Work and Industry
SOC 465 Sociology of Complex Organizations
SOC 469 Sociology of Work and Leisure

(3) The Athletic Therapy Route

The focus of the Athletic Therapy Route is to help students develop understanding and skill in theoretical principles and applied practices related to the prevention and care of injury in physical activity. The route in Athletic Therapy has been planned to provide specialized curricula in Athletic Therapy within the existing academic program. Academic and practical requirements include knowledge and/or skills in: injury prevention, immediate injury assessment, initial emergency care, contemporary sport-specific conditioning techniques, physical re-conditioning after injury for specific sports, supportive strapping procedures and protective equipment. All students who have completed course requirements in the Athletic Therapy route will be placed in field or clinical settings as student or assistant therapists.

Required Courses

PTHER 310 Scientific Basis of Athletic Injuries
PESS 310 Advanced Conditioning Methods
PESS 325 Practicum in Athletic Therapy Techniques
PESS 420 Advanced Athletic Therapy, Methods, and Techniques
PESS 425 Advanced Practicum in Athletic Therapy Techniques

And two courses from the following list (some of these courses have prerequisites; refer to the appropriate sections of the University Calendar for further information):

FD NU 225 Introductory Human Nutrition I
FD NU 227 Introductory Human Nutrition II
HE ED 210 Introduction to Health Promotion
PMCOL 222 Drugs, Medicine, and Man
PESS 301 Quantitative Biomechanics of Physical Activity
PESS 314 Body Composition and Physical Activity
PESS 403 Psychology of Coaching
PESS 409 Introduction to Research

First Aid and CPR Certification

Students in the Athletic Therapy Route will, as part of the route requirements, obtain certification in a specialized first aid course and a cardio-pulmonary resuscitation course. These certification requirements must be obtained prior to completion of the third year of BPE program. The enrollment or registration in the above two courses and any cost or fee incurred are the sole responsibility of the student.

(4) The Coaching Route

The Coaching Route provides a theoretical and practical foundation for the beginning coach. Through the required and optional courses the student in this route is introduced to concepts which cut across all sports and is given the technical background to begin coaching in one or more sports. The purpose of the Coaching Route is to provide the student with the fundamentals of coaching theory and with the opportunity to develop basic coaching skills as they apply to a team and/or an individual sport in the practical situation. Emphasis is directed at the expected roles of today's coach, those of technical expert, educator, adviser and administrator. In addition, the student will be kept abreast of contemporary coaching theories and applied procedures. This knowledge is then put into an advanced practical setting to allow the student to demonstrate coaching abilities under supervision. Upon completion of the route a student coach will be expected to have completed the Coaching Certification at Theory Level I and II and at Technical Levels I and II.

Required Courses

PESS 260 Introduction to Coaching Theory
PESS 360 Applied Principles of Coaching
PESS 365 Coaching Practicum (Participant/Observer)
PESS 403 Psychology of Coaching
PESS 465 Advanced Coaching Theory and Practicum

And one from the following list:

PESS 310 Advanced Conditioning Methodology
PESS 330 Physical Activity and Sport for Children

Physical Activity Courses

Students may select from a variety of activity courses dependent upon their personal sporting/coaching interests. It is recommended that activity courses are considered also from the point of view of their teaching/coaching content and whether they afford NCCP (Level 1 and 2) qualifications. It might also be advised that a student consider activity courses that relate to both teams and individual sports rather than limit activity to one or the other. These choices are best discussed with either the Route Coordinator or an appointed Route Supervisor.

Other Recommended Courses

PESS 300 Physiology of Exercise
PESS 301 Quantitative Biomechanics of Physical Activity
PESS 303 Psychology of Sport
PESS 304 Sociology of Physical Education and Sport
PESS 420 Advanced Athletic Therapy Methods and Techniques

(5) The Dance Route

The Dance Route is designed to give students exposure to a variety of different dance forms and some depth in modern or creative dance. Modern dance is considered to have the greatest potential educationally for all ages and is an excellent preparation for designing movement in artistic sports. Dance has an expressive art function for people as well as its important contributions to active physical movement — the development of strength, flexibility, coordination, rhythmic sensitivity, body awareness, and perception of aesthetic design in movement. It is therefore an important dimension in physical activity programs both educationally and recreationally.

Required Courses

DANCE 300 Dance History and Philosophy (Note: students who take this course in the discipline core may choose a Dance option in this slot.)
DANCE 310 Dance/Movement Accompaniment
DANCE 345 Modern Dance Techniques
DANCE 350 International Folk Dance
DANCE 446 Modern Dance Composition

And two courses from the following list:

DANCE 395 Practicum in Choreography and Production
DANCE 495 Dance Lecture-Demonstration Practicum
DANCE 496 Practicum in Dance Instruction

Students must choose two Level I Dance Activity Courses (★1.5) from a list that may include:

DAC 155 Social Dance
DAC 160 Jazz Dance
DAC 165 Ballet

And one Level II Dance Activity Course (★3) from the following list:

DAC 355 Social Dance
DAC 360 Jazz

Other Recommended Courses

DANCE 340 Modern Dance
DANCE 431 A Study of Dance for Children
DANCE 433 Creative Dance for Young Children
PESS 408 Aesthetics of Dance, Sport, and Physical Activity

(6) The Fitness and Health Promotion Route

All aspects of fitness and the relationship of lifestyle behaviors to health continue to gain increasing importance in our society. This route is designed to provide the knowledge, background and skills to prepare individuals to take professional roles in this rapidly expanding area. Students will be expected to gain a strong content base in both the biological and behavioral science areas to be effective practitioners and leaders in the fitness and health promotion field.

Required Courses

EDPSY 411 Introduction to Guidance
HE ED 210 Introduction to Health Promotion
HE ED 311 Health and Fitness Assessment and Prescription
HE ED 415 Practicum in Health and Fitness Assessment and Counselling
PESS 310 Advanced Conditioning Methodology
PESS 314 Body Composition and Physical Activity
PESS 315 Practicum in Fitness Leadership and Instruction

Physical Activity Courses

Students must take the following courses, pending approval:

Personal Skill Acquisition in Fitness Activity (this course will be a Level I Activity)
Fitness Programs for Special Groups (this course will be a Level II Activity)

Other Recommended Activity Courses

DAC 355 Social Dance
PAC 180 Canoeing and Kayaking
PAC 181 Cross Country Skiing
PAC 182 Rock Climbing
PAC 300 Advanced Aquatics
PAC 303 Skin and Scuba Diving
PAC 331 Analysis and Instruction of Badminton
PAC 333 Analysis and Instruction of Racquetball
PAC 334 Analysis and Instruction of Squash
PAC 335 Analysis and Instruction of Tennis
PAC 345 Analysis and Instruction of Golf
PAC 355 Introduction to Yoga

Other Recommended Option Courses

ACCTG 311 Introductory Accounting
BUS 424 Administration of the Small Business
DANCE 310 Dance/Movement Accompaniment
ECON 101 Introduction to Microeconomics
FIN 301 Business Finance
FD NU 325 Introductory Human Nutrition I
FD NU 327 Introductory Human Nutrition II
MARK 301 Fundamentals of Marketing
ORG T 301 Behavior in Organizations
ORG T 311 Theory of Formal Organizations
PMCOL 222 Drugs, Medicines and Man
PESS 209 Measurement and Evaluation
PESS 350 Advanced Analysis of the Administration of Sport and Physical Education Programs
PESS 497 Selected Topics in Physical Education and Sport
PTHER 481 Cardiac Rehabilitation
PHYSL 404 Cardiovascular Physiology
PSYCO 104 Basic Psychological Processes

PSYCO 233 Personality
RLS 120 Community Recreation
RLS 325 Principles and Processes in Planning for Leisure
RLS 430 Administrative Practices in Recreation Organizations
RLS 480 Public Relations for Recreation Agencies

Other Requirements

Students will be required to be certified in the following areas:

Basic Cardio-Pulmonary Resuscitation
Registered Fitness Appraiser
Certified Fitness Appraiser
Basic Fitness Leader
Specialist Fitness Leader in a minimum of two specialties

The opportunity to be certified through route courses may be offered but in the instance that it is not, students have the responsibility to fulfill this requirement on their own.

(7) The Outdoor Education Route

The Outdoor Route offers leadership preparation for two types of roles, the outdoor education program development "generalist" and the extended trip leader. The "generalist" program provides the candidate with knowledge and skill to encourage, plan, organize, manage, instruct and guide programs carried out by schools, municipal recreation boards, YM/YWCA's, Boys and Girls Clubs and other recreational/educational agencies. Youth development agencies are particularly interested in utilizing the outdoors to encourage client growth.

A limited number of opportunities exist for wilderness guides and extended outtrip leaders with outdoor centres, camps, and private outfitters. Qualified senior students with this interest in mind and/or with a strong personal commitment to developing wilderness travel skills work together to develop an expedition planning, outfitting and guiding team known as "Explorations". This senior optional program allows qualified students to apply their learnings to the research, operation, and leading of three extended trips - usually by canoe or kayak, by snow shoe, and by ski. In line with the Route's overarching philosophy of program integration, "Explorations" trips and leadership combine the best of wilderness group living, adventure, and environmental education. "Explorations" allows the participant to read, research, and experience Albertan and Canadian environments, to re-experience a historic trail or trip, and most significantly, to lead in the wilderness group context.

All outdoor leader candidates are encouraged to choose appropriate interpersonal skills (e.g. counselling) optional courses and to build up relevant experience through volunteer and part-time work. Given the breadth of skills and judgement needed in outdoor leadership, all candidates must grasp every opportunity to develop skill, experience, and certification in their free time and summer vacations.

Required Courses

PESS 381 Biomedical and Safety Foundations of Outdoor Pursuits
*PESS 382 Wilderness Living, Navigation and Travel
PESS 383 Organization and Management of Outdoor Education
PESS 385 Outdoor Environmental Leadership
PESS 485 Outdoor Leadership Practicum

And two three-weight course equivalents from the following list:

INT D 466 Principles of Heritage Interpretation
INT D 467 Methods of Heritage Interpretation
PESS 486 Wilderness Explorations Guiding Practicum (equivalent of 6 units of course weight)
PESS 495 Professional Practicum (equivalent to 12 units of course weight)
PESS 499 Directed Study
RLS 460 Urban Outdoor Recreation
RLS 461 Outdoor Recreation Programming and Counselling

Physical Activity Courses*

PAC 380 Small Craft Leadership (prerequisite:PAC 180)
PAC 381 Ski Leadership (prerequisite: PAC 181)

***Note:** These courses are normally taken in a professional Spring Camp during Intersession (month of May).

Optional Professional Practicum

Students interested in a more extensive professional practicum and who are prepared to commit themselves to a full term of supervised practice leadership may choose either the Professional Practicum or "Explorations".

(1) **PESS 495:** Professional Practicum (equivalent to four half-course). The practicum requires a 35 hours per week commitment to work in an outdoor education centre or agency. Possible placements might include such agencies as the Blue Lake Centre, Strathcona Wilderness Centre, YoWoChas Centre, Bennett Environmental Centre, or the ACT Centre.

OR:

(2) **PESS 486:** Wilderness Explorations Guiding Practicum (two half-course equivalents). Qualified students with a particular interest in extended wilderness travel from an integrated "Canadian Studies" perspective may elect to participate in the one-term "Explorations" program. A team of senior outdoor students plan and carry out a series of field studies over a variety of Canadian eco-communities and historic routes. Each team member registers in PESS 486. Each student is also expected to research and interpret a particular scholarly perspective of the travel experience. In order to do so, "Explorations" students usually also register in history, anthropology, geography or other environmental studies reading courses (e.g. HIST 467 - Selected Topics in Alberta History). An "Explorations" student registration would appear as follows:

PESS 485 Outdoor Leadership Practicum
PESS 486 Wilderness Explorations Guiding Practicum
PESS 499 Directed Study or an Approved Option Course

Recommended Options

A great variety of excellent option courses are available across the University campus These may be used to meet personal needs or interests, to prepare background for an anticipated professional career (e.g. to develop a second teaching subject area), and to develop a broad environmental education foundation (e.g. anthropology, biology, counselling, geography, or history). An extensive list of courses of particular interest to Outdoor students is available in the Outdoor Education Route guidelines pamphlet, which may be obtained at the Physical Education and Sport Studies office (PAV 421, Van Vliet Centre).

(8) The Physical Activity and Sport for Children Route

The focus of the Physical Activity and Sport for Children Route is on the planning and implementing of physical activity and sport programs that are designed to meet the need of children up to twelve years of age. Students, after obtaining a broad base of knowledge, may specialize in one age group or in one type of activity.

Required Courses

PESS 330 Physical Activity and Sport for Children
PESS 335 Practicum in Physical Activity for Children
PESS 430 Contemporary Issues in Physical Activity and Sport for Children
PESS 435 Advanced Practicum in Children's Physical Activity and Sport

And three courses from the following list:

DANCE 431 A Study of Dance for Children
PAC 320 The Structure and Strategy of Games
PAC 425 The Study of Games for Children
PAC 465 The Study of Gymnastics for Children

Physical Activity Courses

Students should select a variety of physical activity (PAC) courses dependent upon their personal interests. It is advised that courses be selected to broaden their knowledge base and to provide more in-depth study of activities likely to be used in teaching/coaching. At least two courses must be Level II. The following Level II activity courses are recommended:

PAC 305 Water, Snow and Ice Activities for Children and Youth)
PAC 361 Analysis and Instruction of Educational Gymnastics
PAC 375 Track and Field and Organization of Sports Events for Children and Youth

Other Recommended Option Courses

EDPSY 163 Introduction to Educational Psychology: Development
FAM 241 Family Development
PESS 260 Introduction to Coaching Theory
PESS 302 Motor Learning, Memory and Control
PESS 307 Growth and Development
PESS 360 Applied Principles in Coaching

(9) The Physical Activity Leadership Route

The focus of this route is on the processes involved in effective leadership in physical activity settings with adolescent and adult populations. Generally the emphasis is on instructional environments across skill levels. Students in this route engage in the study of principles of effective leadership and instruction and are extended the opportunity to develop their own skills in a variety of settings.

Required Courses

A Level II or Level III Physical Activity Course
PESS 375 (or equivalent) (Practicum in Instruction in Physical Activity
PESS 475 (or equivalent) (Advanced Practicum in Leadership and Instruction in Physical Activity

And four courses from the following list with at least one course selected from Group I and one from Group II (some of these courses have prerequisites; refer to the appropriate sections of the University Calendar for further information):

Group I

EDPSY 329 Educational Psychology of Adolescence
PESS 494 Physical Activity and Aging
SOC 375 Sociology of Aging
SOC 377 Sociology of Youth
SOC 427 Juvenile Delinquency

Group II

EDPSY 371 Learning, Instructional Psychology and Educational Practice
EDPSY 471 Learning and Instruction
EDPSY 495 Interpersonal Communications for Teachers
RLS 121 Methods and Materials for Recreation Instructors
RLS 472 Sport and the Community
SOC 241 or PSYCO 241 Social Psychology
SOC 447 Leadership

Physical Activity Courses

Students in this route are encouraged to enroll in physical activity courses which broaden already existing personal experiences in order that leadership and instructional abilities can be applied to a wide variety of activity settings. However, at least two activity courses must be completed at the instructional level (Level II) in addition to the Level II or III course selection taken as a required route course.

Consideration should be given to selecting activity courses which lend themselves to participation by the populations with which the student is interested in working.

Students considering enrolling in the Faculty of Education after completion of the BPE degree should select activity courses which are consistent with the seven activity areas (see Physical Education Major information in the Faculty of Education section of the University Calendar).

Other Recommended Course

PESS 307 (Growth and Development

(10) The Sport Studies Route

The purpose of this route is to provide students with the opportunity to pursue an interest in a particular sport studies discipline. Study may be focussed on the biological, psychomotor, or sociocultural area. The route is a cooperative program between a student and a route adviser. Enrollment in this route is limited. Admission is determined by the Department of Physical Education and Sport Studies and based in part on the availability of route advisers and facilities or other resources required for the practicum courses.

Required Courses

PESS 305 Sport Studies Route Practicum I
PESS 405 Sport Studies Route Practicum II

And:

Two courses from a related discipline or profession outside the Faculty. These courses should be chosen in consultation with the route adviser.

And:

Three other senior courses approved by the route adviser.

(11) Physical Education General Route

The purpose of the Physical Education General Route is to provide students with the opportunity to pursue a program which reflects a generalist philosophy. The General Route will have no required practicum component and all seven route courses normally will be taken within the Faculty of Physical Education and Recreation.

Required Route Courses

Students will take the BPE degree program course as outlined in §163.1. Route course requirements Years 3 or 4 are:

a) The third course of:*
PESS 302 Motor Learning, Memory, and Control
PESS 303 Psychology of Sport
PESS 307 Growth and Development
b) A third course of:*
PESS 304 Sociology of Physical Education and Sport
PESS 401 History of Physical Education and Spo

PESS 402 History of Physical Education and Sport in Canada
PESS 407 Philosophy of Physical Education and Sport
Choose one of:
PESS 209 Measurement and Evaluation
PESS 300 Physiology of Exercise
) of a) and b) were chosen as part of the BPE ee program requirements.

sical Activity/Dance Courses

Any two DANCE or PAC courses at the 300- and level recommended by the student's Faculty Adviser.

rth Year BPE General Route Options

CE 300 Dance History and Philosophy
S 209 Measurement and Evaluation
S 300 Physiology of Exercise
S 301 Quantitative Biomechanics of Physical Activity
S 302 Motor Learning, Memory, and Control
S 303 Psychology of Sport
S 304 Sociology of Physical Education and Sport
S 307 Growth and Development
S 310 Advanced Conditioning and Methodology
S 314 Body Composition and Physical Activity
S 330 Physical Activity and Sport for Children
S 350 Advanced Analysis of the Administration of Sport and Physical Education Programs
S 360 Applied Principles of Coaching
S 401 History of Physical Education and Sport
S 402 History of Physical Education and Sport in Canada
S 403 Psychology of Coaching
S 404 Comparative Physical Education and Sport
S 407 Philosophy of Physical Education and Sport
S 408 Aesthetics of Dance, Sport, and Physical Activity
S 409 Introduction to Research
S 494 Physical Activity and Aging

3.1.2 Approved Non-Department Option Suggestions

Of the eleven approved options in the BPE degree ram, at least four must be non-faculty options and, re possible, these should be taken in the first year. The following is a list of courses that students may to consider when choosing non-department op-, particularly in first year:
HR 101, 110, 150, 182
B 100
131
H 101, 102

163.2 Degree of BA in Recreation Administration

163.2.1 The Previous Degree of BA in Recreation Administration (Currently Being Phased Out)

Students who entered the BA in Recreation Administration degree prior to the 1989-90 Winter Session (1990-91 for transfer from Red Deer college) will follow the previous degree of BA in Recreation Administration. This program is currently being phased out. Details on the program may be obtained from the Department of Recreation and Leisure Studies.

163.3 The Degree of BA in Recreation Administration (Revised Program Commencing in 1989-90)

163.3.1 Program Description

Beginning with the 1989-90 Winter Session, students who entered the BA in Recreation Administration degree program began following a revised program.

The BA (Recreation Administration) degree revised program consists of 96 units of course weight following a previous year of university study consisting of 30 units of course weight designated as a preprofessional year.

The preprofessional year is taken while the student is enrolled in another faculty at the University (usually the Faculty of Arts) or while enrolled in a University Transfer Program at an accredited Community College (see §162.1.3).

The three-year professional program is composed essentially of two sets of courses, as follows:

(1) Those offered by the Department of Recreation and Leisure Studies as core to the entire program (Core Recreation Courses), as core to the student's chosen pattern or area of interest (Pattern Recreation Courses), or as optional courses (Recreation Options), and

(2) Those offered by other departments at the University and recognized as core to the entire program (the only non-recreation courses in the Core program are SOC 210, Introduction to Social Statistics and SOC 315, Introduction to Social Methodology), as core to the student's chosen pattern or area of interest (Pattern Foundation Courses) or as optional courses related to a particular pattern (Pattern Related Options).

The latter set of courses is drawn from such fields as Sociology, Political Science, Fine Arts, Psychology, Biology, Forest Science, and Physical Education.

The intent of the two sets of courses is to provide students with a strong Common Core Program, together with an opportunity to obtain a beginning competency in one of a range of areas of professional interest (Pattern Areas).

163.3.2 Commonly Used Terms

(1) **Core Recreation Courses:** Those courses offered by the Department of Recreation and Leisure Studies which are core to the program. These courses must be completed by all students in the BA in Recreation Administration degree program.

(2) **Pattern Recreation Courses:** Those courses offered by the Department of Recreation and Leisure Studies which are essential for a pattern of specialization. These courses must be completed by students in that pattern of specialization. (Refer to the Program Guide provided by the Department of Recreation and Leisure Studies.)

(3) **Pattern Foundation Courses:** Those courses offered by other departments at the University which are essential for a pattern of specialization. (Refer to the Program Guide provided by the Department of Recreation and Leisure Studies.)

(4) **Pattern-Related Options:** Those optional courses related to a pattern of specialization. (Refer to the Program Guide provided by the Department of Recreation and Leisure Studies.)

163.3.3 Program Requirements

The professional program following the preprofessional year (see §162.1.3) is composed of 96 units of course weight. Of these 60 units of course weight comprise the Core program. The remaining 36 units of course weight make up the Pattern Program.

The Core Program

The Core Program is the common element in the program for all Recreation students, regardless of their individual patterns or areas of interest. It emphasizes the two major thrusts of the program: Acquisition of knowledge and skills relating directly to the study and practice of administration in the recreation field in Canada; and exploration of the evolution of the concepts of leisure and recreation in Canadian society and their implications for a professional career in the recreation field.

The Core Program consists of the following 20 courses, or their equivalent:

Core Recreation Courses

RLS 121 Methods and Materials for Recreation Instructors
RLS 320 Introduction to the Philosophies of Leisure
RLS 321 Introduction to the History of Leisure in Western Civilization
RLS 322 Sociological and Anthropological Perspectives on Leisure
or
RLS 323 Leisure and Human Behaviour
RLS 324 The Political Economy of Leisure
RLS 325 Principles and Processes in Planning for Leisure
RLS 330 Recreation and Community Development
RLS 331 Leisure Education
RLS 332 Program Planning, Marketing, and Implementation
RLS 430 Administrative Practices in Recreation Organizations
RLS 431 Volunteers and Voluntary Organizations in Recreation
RLS 432 Recreation and Special Groups
RLS 440 Professional Practicum (6 units of course weight)
RLS 441 Practicum Seminar
RLS 442 Post-Practicum Seminar
RLS 444 Issues in Recreation Practice

Core Non-Recreation Courses

SOC 210 Introduction to Social Statistics
SOC 315 Introduction to Social Research Methodology

Note: Students who entered the revised BA Recreation Administration degree program prior to the 1991-92 Winter Session should have taken RLS 121 Methods and Materials for Recreation Instructors during their preprofessional year. As a result, they have to take both RLS 322 Sociological and Anthropological Perspectives on Leisure and RLS 323 Leisure and Human Behaviour as part of the Core Program.

The Pattern Program

The Pattern Program is made up of the equivalent of 36 units of course weight in a chosen pattern or area of interest. Each Pattern is designed to provide a beginning competency in a career-related theme. There are seven patterns from which a student may choose.

(1) Leisure and Community Development

This pattern examines alternate strategies for facilitating the development of community-based, self-help processes pertinent to the enhancement of local leisure opportunities and the overall quality of community life. Emphasis is placed on the principles and practices of community organization, inter-group relations, and leadership development. This pattern is especially appropriate for students with career ambitions in inter-agency collaborative programming, school-community relations, or indirect provision of leisure services.

(2) Planning and Management of Recreation Environments

This pattern focuses on the planning and management of recreation resources, parks, open space, and facilities as components to recreation — open space

systems. Particular attention is given to resource planning and management principles and practices associated with the provision of recreation opportunities and the protection of the resource environment.

(3) Recreation through Physical Activity

This pattern focuses on the planning, coordination, and development of physical, activity-based leisure opportunities. Primary emphasis is given to general principles and practices for facilitating the development of such opportunities. Complementary to this general process-orientated base, the selection of appropriate optional courses within the pattern provides the opportunity to pursue an interest in one or more of the following areas — sport, games, dance, fitness.

Note: This pattern complements the Administration Route offered within the Bachelor of Physical Education (BPE) degree program in the Department of Physical Education and Sport Studies. Although several courses might be common to the two approaches, because of basic differences in the cores of the two degree programs, the graduates of each will have quite different competencies. Graduates of the Recreation Administration pattern will have a stronger social science background and a greater emphasis on group work skills, and a philosophical orientation emphasizing mass participation and provision of recreation experiences for all. Graduates of the Physical Education route, on the other hand, will have a stronger background in the scientific bases of physical activity and will be more oriented toward an emphasis on physical skill and analysis and development.

(4) Leisure and Tourism

This pattern focuses on tourism as a phenomenon of contemporary society, particularly as it relates to leisure and recreation behaviour. Emphasis is placed on the tourism system, its constituent elements, processes for matching demand and supply, and the roles played by the various sectors including government and industry.

(5) Leisure and Culture

This pattern deals with the planning, coordination, and development of opportunities for the recreation experience through the media of various cultural arts. Primary emphasis is given to general principles and practices for facilitating the development of such opportunities. Complementary to this general process-oriented base, the selection of appropriate optional courses within the pattern provides an opportunity to pursue one's interest in one or more of the following areas; art and design, dance, drama, film arts, literary arts, music, and heritage interpretation.

(6) Outdoor Recreation

This pattern focuses on program development, leadership, and counselling for recreation experiences in outdoor settings. Emphasis is placed on developing both a conceptual and an experiential basis for understanding the physical, psychological, and social environments inherent in a wide range of outdoor recreation pursuits. Students are encouraged to use both university and non-university resources to upgrade their performance and leadership skills in a selected area of outdoor recreation.

(7) Recreation and Special Populations

This pattern is designed to educate and prepare entry level, supervisory, and/or administrative personnel for the field of recreation for the delivery of services to special populations. The pattern allows students to emphasize either therapeutic recreation or recreation services for individuals with special needs.

Environments offering therapeutic recreation, such as correctional institutions, health care facilities, rehabilitation centres, long-term care facilities, as well as community organizations, associations, and municipal park/recreation agencies providing recreation services for individuals with special needs will be examined.

The pattern attempts, through student course selection, to develop an awareness of the needs of special populations and how recreation is able to meet them. The courses will also provide the student with an understanding of recreation for special populations in relation to the total field of recreation.

Note: Further details concerning the Patterns are available from the Department of Recreation and Leisure Studies.

163.3.4 The Yearly Program of Study

The program of study for the preprofessional year is described under admission requirements to the BA (Recreation Administration) Degree (see §162.1.3).

Upon admission to the program, students will be randomly assigned to two groups of equal number: Group A and Group B. The two groups will follow identical courses for the first year of the program. The two groups will have differing courses in the second and third years, as a result of the timing of the Professional Practicum. Group A students will enroll in the Practicum for the second term of the second year. Group B students will enroll in the Practicum for the first term of the third year.

Note A: All students must complete all first-year courses in order to proceed into the second-year and all second year courses in order to continue into the third year, and so on.

Note B: Throughout this section, all courses are listed as single-term (3 units of course weight) courses, unless otherwise specified.

First Year (33 units of course weight)

First Term (All Students) (15 units of course weight)
RLS 121 Methods and Materials for Recreation Instructors
RLS 320 Introduction to Philosophies of Leisure
RLS 322 Sociological and Anthropological Perspectives on Leisure
or
RLS 323 Leisure and Human Behaviour
RLS 325 Principles and Processes in Planning for Leisure
SOC 210 Introduction to Social Statistics

Second Term (All Students) (18 units of course weight)
RLS 321 Introduction to the History of Leisure in Western Civilization
RLS 324 Political Economy of Leisure
RLS 330 Recreation and Community Development
RLS 331 Leisure Education
RLS 332 Program Planning, Marketing and Implementation
SOC 315 Introduction to Social Methodology

Second Year

First Term (All Students) (36 units of course weight)
RLS 430 Administrative Practices in Recreation Organizations
RLS 431 Volunteers and Voluntary Organizations in Recreation
RLS 432 Recration for Special Groups
Pattern Recreation
Pattern Recreation, or Pattern Foundation, or Pattern-Related Option
Pattern Recreation, or Pattern Foundation, or Pattern Related Option

Second Term (Group A Students) (12 units of course weight)
RLS 440 Professional Practicum (6 units of course weight)
RLS 441 Practicum Seminar
Pattern Recreation, or Pattern Foundation, or Pattern-Related Option

Second Term (Group B Students) (15 units of course weight)
15 units of course weight from Pattern Foundation, or Pattern-Related, or Pattern Recreation

Third Year

First Term (Group A Students) (15 units of course weight)
RLS 442 Post Practicum Seminar
12 units of course weight from Pattern Recreation, or Pattern Foundation, or Pattern-Related Options

First Term (Group B Students) (12 units of course weight)
RLS 440 Professional Practicum (6 units of course weight)
RLS 441 Practicum Seminar
Pattern Foundation, or Pattern Recreation, or Pattern-Related Option

Second Term (Group A Students) (18 units of course weight)
RLS 443 Perspectives on Leisure and Recreation Research
RLS 444 Issues in Recreation Practice
12 units of course weight from Pattern Foundation, or Pattern Recreation, or Pattern-Related Option

Second Term (Group B Students) (18 units of course weight)
RLS 442 Post-Practicum Seminar
RLS 443 Perspectives on Leisure and Recreation Research
RLS 444 Issues in Recreation Practice
9 units of course weight from Pattern Foundation, or Pattern Recreation, or Pattern-Related Option

Note: Students who entered the revised BA Recreation Administration degree program prior to the 1991-92 Winter Session should have taken RLS 121 Method and Materials for Recreation Instructors during their preprofessional year. As a result they have to take both RLS 322 Sociological and Anthropological Perspectives on Leisure and RLS 323 Leisure and Human Behaviour during the First Term in the First Year of the program.

163.4 The Combined BPE/BEd Degrees Program

Beginning with the 1990-91 Winter Session, st dents were selected for the first time for enrollment the combined BPE/BEd degrees program taking a fiv year program consisting of 162 units of course weig During this five-year program, Physical Education cours and Education courses will be studied concurrent Students will initially apply for admission to the Facu of Physical Education and Recreation and will be consider to be registered in that Faculty for the first three years the program. Following this, they apply for admission the Faculty of Education in order to complete the r quirements of the combined degrees program. T following regulations apply to the progression of st dents' admission and promotion through the program

(1) To gain admission to the first three years of t combined program, students apply for admission the Faculty of Physical Education and Recreatio The top 20 qualified applicants will be admitted Year 1 of the BPE/BEd degrees program provid they meet the quota standards of the BPE progra

(2) Students will be promoted to Year 2 of the combin degrees program provided they obtain GPA's of least 5.5 on the 11 first-year courses of the first ye of the combined program. Those students w obtain a GPA of less than 5.5 may enter the BE degree program provided they meet the acaden standings required (see §162.3).

(3) Continuing BPE/BEd students (with GPA's of least 5.5 on the 11 courses of the second year) pl the top qualified college transfer students will promoted/admitted to Year 3. Those students w GPA's of less than 5.5 may enter the BPE degr program provided they meet the academic standin required (see §162.3).

(4) During year 3, all qualified BPE/BEd students m apply for admission to the Faculty of Educati (application deadline: March 1) and will be cons ered along with Physical Education majors in t Faculty of Education for quota places of the Second Education (Physical Education) Route. Unsucce ful applicants may stay in the Faculty of Physi Education and Recreation to complete the fou year of the BPE degree program.

(5) Students who successfully complete Years 4 an of the BPE/BEd combined degrees program wit CGPA of 5.5 will be awarded their respective grees.

Quota and Registration Limitations

Students applying to enter the combined degre program must meet all quota requirements for the Fa ulty of Physical Education and Recreation. The princi factor in admission decisions will normally be the a demic record. Results of an interview will also be tak into account along with the other factors identified §162.1 of the Calendar. Students in the combi degrees program must apply for admission to the Facu of Education during the third year of their program must meet all requirements for entry to that Faculty that time.

Students enrolled in the combined degrees progr must register as full-time students each year of t program. Students withdrawing for a period of time m meet the requirements set out in §162.5 of the Calen

Admission Requirements

Applicants seeking admission to the combined grees program must meet the admission requireme of the Bachelor of Physical Education degree progr Applicants must have an overall average of at least 7 on five subjects including:

English 30 (grade of at least 60%
Subject from Group A or C
Subject from Group A or C
Subject from Group C
Physical Education 30 or a Subject from Group C, or D

Other Requirements

Students entering the combined degrees progr expecting to complete teaching certification requ ments must take ED ES 132 (the speech screen t during the first term of registration in the progr Students who do not comply with this regulation will be permitted to register again for Intersession or Wi Session until the speech screen has been complet Students must secure speech clearance prior to see

lmission to the Faculty of Education in third year.
In addition, applicants must provide the following:

) A completed questionnaire providing detailed information on their leadership and physical activity/sport backgrounds;

) Three letters of reference which provide information about applicants' backgrounds, with particular reference to physical activity experience, personal qualities, leadership skills, and communication skills; and

) A medical report.

Students may also be required to attend an interew, conducted by a panel of staff members from the epartment of Physical Education and Sport Studies. he interview is designed to evaluate the applicant's egree of maturity and motivation, initiative, ability to mmunicate, and personal qualities and interests. The terview will also provide students with an opportunity see the facilities at the University of Alberta and to ain further information about the BPE degree and the mbined degrees program.

Students accepted into the combined degrees proam will be registered in the Faculty of Physical Education nd Recreation (Department of Physical Education and ort Studies) during Years 1, 2, and 3 of their five-year ogram. In the two years preceding graduation, students ll be registered in the Faculty of Education (provided ey meet the quota requirements of the Faculty of ducation).

ransfer into the Combined Degrees rogram

Under special circumstances, students may transfer om the University of Alberta BPE degree program or e BEd degree program into the combined degrees ogram, provided they meet all of the admission and urse requirements and provided space allows. Admission ll be based on the normal quota procedures of the aculty of Physical Education and Recreation (BPE egree program), for a specified year as described in 62.1.2 of the Calendar.

Students from other faculties or post-secondary stitutions may apply for entry to the combined degrees ogram provided they meet all of the admission and urse requirements. Admission will be based on the rmal quota procedures of the Faculty of Physical ducation and Recreation (BPE degree program) for a ecified year of the program as described in §162.1(2) the Calendar.

he Combined BPE/BEd Degrees Program

The following is an outline of the combined BPE/Ed degrees program. The sequencing of the course ken in the program does not allow for much flexibility roughout the five years; therefore, students are adsed to plan their programs carefully.

irst Year

inior English - 6 units of course weight
ANCE 100 The Spectrum of Dance in Society

Academic Standing and Graduation

Admission to, and continuation in the combined BPE/BEd degrees program, requires a cumulative grade point average (CGPA) of at least 5.5. Students who do not meet this requirement are required to withdraw from the combined program and will be allowed to continue in the BPE degree program provided they meet the necessary standards (GPA of 5.0, QI of 4.0). To receive the BEd and the BPE degrees concurrently, students must have completed all the requirements of the combined program and must meet the requirements for graduation for each degree (see §72.7 and §162.3 of this Calendar).

163.5 Teacher Education

Students interested in an area of concentration in elementary school physical education or a secondary school physical education major within the Bachelor of Education program should consult the Faculty of Education section of this Calendar.

163.6 Graduate Study

The Department of Physical Education and Sport Studies offers programs leading to the degrees of MA, MSc, and PhD, for students holding a four-year BPE, or equivalent.

The Department of Recreation and Leisure Studies offers programs leading to a MA (Recreation) for students holding a four-year BA in recreation, or equivalent.

For further information write to the Chair, Graduate Committee of the appropriate department, Faculty of Physical Education and Recreation, University of Alberta, Edmonton, Alberta, T6G 2H9.

164 Details of Courses

164.1 General Information

Courses open to students in the Faculty of Physical Education and Recreation are listed here in groups, as follows: courses in the BPE program; courses in the BA (Recreation Administration) program; and graduate courses in Physical Education and Sport Studies, and Recreation and Leisure Studies.

Each course is designated by its computer abbreviation and a number. Following the title of the course is the symbol "★" standing for "units of course weight", and a number indicating the weight of the course as used in computing grade-point averages. An ordinary full-session course is weighted ★6. A single-term course is normally weighted ★3.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The hours of instruction for a full-session course are the same in both terms unless otherwise indicated. If the course is a single-term course, the term in which it may be offered is mentioned before the hours of instruction.

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the department concerned.

Physical Requirements for University Courses

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the Department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

164.2 Courses in the BPE Program

Note: Activity-course dress requirement for first class. Students are expected to attend the first class of any activity course appropriately dressed for activity participation. Information concerning dress for each activity course will be available through the Department of Physical Education and Sport Studies.

164.2.1 Courses in Dance

DAC 100 The Spectrum of Dance in Society
★3 (first term, 1-0-3). The theory and practice of dance as a human physical activity. Focus will be on the aesthetic, expressive, rhythmical dimensions of movement in a culture's artistic and social life. The study will include movement content, techniques, improvisation, composition and performance in a variety of dance forms including modern/creative, social, jazz, and folk dance. for first year BPE students only.

DAC 155 Social Dance
★1.5 (either term, 0-3L-0). Personal skill acquisition in several variations and sequences of the foxtrot, waltz, tango, jive, rumba, and cha cha. Integral to this will be the development of good partnering and rhythmic abilities.

DAC 160 Jazz Dance
★1.5 (either term, 0-3L-0). Personal skill acquisition in body awareness and placement, locomotion and choreographed jazz dance.

DAC 165 Ballet
★1.5 (either term, 0-3L-0). Personal skill acquisition in either RAD or Cecchetti syllabus, including barre and centre floor work such as positions, port de bras, elevation and travelling.

DAC 199 Dance Activity — Level I
★1.5 (either term, 0-3L-0) Personal skill acquisition in a dance activity.

DANCE 300 Dance History and Philosophy
★3 (either term, 3-0-0). The history and philosophy of dance from primitive times to the present. Special emphasis will be on major forms of dance in the 20th Century, dance in Canadian culture and personalities who have influenced dance in art and culture.

DANCE 310 Dance/Movement Accompaniment
★3 (either term, 0-3L-0). The study and practice of using sound, percussion and music to accompany dance, movement, gymnastics and exercise. Offered in alternate years.

DANCE 340 Modern Dance
★3 (either term, 3-0-0). The study of creative dance techniques, improvisation, composition, and performance through theory and practical experience.

DANCE 345 Modern Dance Techniques
★3 (either term, 3-0-0). Development of personal movement skills in a variety of modern dance techniques combined with knowledge of movement and dance principles.

DANCE 350 International Folk Dance
★3 (either term, 3-0-0). The study of folk dances in selected cultures through theory and practical experience. Theory will focus on costume, music, history, geography, and other elements which influence the dances.

DAC 355 Social Dance
★3 (either term, 3-0-0). Theory and practice of social (ballroom) dance forms. Prerequisite: DAC 155 or consent of Department.

DAC 360 Dance Forms
★3 (either term, 3-0-0). Theory and practice of jazz dance. Prerequisite: DAC 160 or consent of Department.

DANCE 395 Practicum in Choreography and Production
★3 (0-3L-0). Students shall choreograph a major dance. All theatrical aspects will be researched and designed. Involvement in Orchesis required. Prerequisite: DANCE 100 or DANCE 340 plus DANCE 345 and 446, or consent of Department. Note: A three credit course offered over the full session.

DANCE 431 Study of Dance for Children
★3 (second term, 1-2s-0). Children's dance from the perspective of the child as creator, performer and spectator. Opportunities to observe, work with and perform for children will be provided. Prerequisite: PESS 292, 293, or 330 or consent of Department.

DANCE 433 Creative Dance for Young Children
★3 (first term, 0-3s-0). A study of creative dance as an integral aspect of the aesthetic and creative education of the child up to eight years of age. The interrelationships of creative dance with the young child's use of language, rhyme, story, music and painting will be examined. Prerequisite: PESS 292 or consent of Department.

DANCE 446 Modern Dance Composition
★3 (either term, 3-0-0). Theory and practice of modern dance improvisation and composition, principles of form and design, individual and group choreography, evaluation. Prerequisite: One of DANCE 100, 340, 431 or 433 or consent of Department.

DANCE 495 Dance Lecture—Demonstration Practicum
★3 (0-3L-0). Students will create and perform a dance lecture/demonstration. Prerequisite: One of DANCE 100, 340, 431, 433, plus DANCE 345 and 446, or consent of Department. Note: A course worth three units of course weight offered over the full session.

DANCE 496 Practicum in Dance Instruction
★3 (either term, 1-0-3). Students will be supervised in the instruction of dance classes. They will plan, instruct, and evaluate classes in selected environments. Prerequisite: One of DANCE 100, or 340, or 431, 433, plus DANCE 345 and 446, or consent of Department.

DANCE 497 Selected Topics in Dance
★3 (either term, 3-0-0). A course offered on a topic of current interest in dance. Prerequisite: Consent of Department.

DANCE 499 Directed Studies
★3 (either term, 0-3s-0). An individualized course designed to offer an in-depth study in a dance area not covered by regular courses. Prerequisite: Consent of Department.

164.2.2 Courses in Health Education

HE ED 210 Introduction to Health Promotion
★3 (either term, 3-0-0). This course is designed to introduce students to the concepts of the health promotion model with emphasis on self-care and the interaction effects of the various components of well-being.

HE ED 310 Family Life Education for Secondary Schools I
★3 (first term, 1-2s-0).

HE ED 311 Health and Fitness Assessment and Prescription
★3 (either term, 3-0-2). Students will gain knowledge in fitness and lifestyle appraisal, in program prescription, and community health and fitness needs assessment. For BPE students in the Fitness and Health Promotion Route only or with permission of the departments. Prerequisite: PESS 209 and PESS 300.

HE ED 331 Community Health I
★3 (first term, 3-2s-0). A introduction to community health problems. Prerequisite: HE ED 210 and 333 or consent of Department.

HE ED 333 Health Education in Secondary Schools II
★3 (second term, 3-0-0). A review of various aspects of theory and practice of school health education with considerable emphasis on recent literature for the teacher and student. Prerequisite: HE ED 210.

HE ED 336 Health Education for the Classroom Teacher
★3 (either term, 3-0-0).

HE ED 337 Seminar in Elementary School Health Education I
★3 (first term, 0-3s-0). An advanced examination of principles and practices of health education applied to elementary school education. Prerequisite: HE ED 336 or consent of Department.

HE ED 415 Practicum in Health and Fitness Assessment and Counselling
★3 (0-6L-0). Seminars and fieldwork experience under the supervision of a Certified Fitness Appraiser. For BPE students in the Fitness and Health Promotion route only. A half-term course offered in either term or the full session. Prerequisite: HE ED 311.

HE ED 431 Community Health II
★3 (second term, 3-2s-0). A detailed analysis of problems related to community health and their relationship to the school. Prerequisite: HE ED 331. For BPE students in the Fitness and Health Promotion Route only.

HE ED 434 Family Life Education for Secondary Schools II
★3 (second term, 3-2s-0). A study of aspects of family life education with emphasis on understanding self and relationships with family members. Prerequisite: HE ED 332.

HE ED 437 Seminar in Elementary School Health Education II
★3 (second term, 0-3s-0).

164.2.3 Courses in Physical Activity

PAC 100 Swimming
★1.5 (either term, 0-3L-0). Personal skill acquisition in the front and back crawl, breaststroke, sidestroke, and elementary backstroke. Selected aquatic skill techniques are also required.

PAC 111 Basketball
★1.5 (either term, 0-3L-0). Personal skill acquisition in individual and team activities.

PAC 112 Field Hockey
★1.5 (either term, 0-3L-0). Personal skill acquisition in individual and team activities.

PAC 113 Football
★1.5 (either term, 0-3L-0). Personal skill acquisition in individual and team activities.

PAC 114 Ice Hockey
★1.5 (either term, 0-3L-0). Personal skill acquisition in individual and team activities. Prerequisite: Average to above average skating ability. Students must provide their own equipment: Skates, sticks, hockey gloves, helmets, elbow and shin pads.

PAC 117 Rugby
★1.5 (either term, 0-3L-0). Personal skill acquisition
individual and team activities. Mouth guards recommende

PAC 118 Soccer
★1.5 (either term, 0-3L-0). Personal skill acquisition
individual and team activities.

PAC 131 Badminton
★1.5 (either term, 0-3L-0). Personal skill acquisition
individual and team activities. Students must supply ov
racquets and shuttlecocks.

PAC 133 Racquetball
★1.5 (either term, 0-3L-0). Personal skill acquisition
individual and team activities. Students must supp
their own equipment: Racquets, balls, and eye guards

PAC 134 Squash
★1.5 (either term, 0-3L-0). Personal skill acquisition
individual activities. Students must supply their ov
equipment: Racquets, balls, and eye guards.

PAC 135 Tennis
★1.5 (either term, 0-3L-0). An introduction to the bas
tennis strokes (forehand, backhand, serve, and volle
and strategies. Students must provide their own equipme

PAC 137 Volleyball
★1.5 (either term, 0-3L-0). Focus on personal skill acq
sition in the fundamental skills of volleyball. Students v
be taught in individual and small group settings.

PAC 140 Baseball/Fastball
★1.5 (Intersession, 0-3L-0). Personal skill acquisition
individual and team activities.

PAC 145 Golf
★1.5 (either term, 0-3L-0). Personal skill acquisition
driving, chipping, pitching and putting. $35.00 will
charged for green and range fees. Students must pr
vide their own equipment.

PAC 154 Wrestling
★1.5 (either term, 0-3L-0). Personal skill acquisition
takedowns and groundwork.

PAC 160 Gymnastics
★1.5 (either term, 0-3L-0). Personal skill acquisition
the fundamental movements common to all forms
gymnastics.

PAC 163 Figure Skating
★1.5 (either term, 0-3L-0). Personal skill acquisition
edges, forward inside and outside figure eights, one fo
spin, spirals, crossovers and jumps. Must provide o
figure skates.

PAC 166 Power Skating
★1.5 (either term, 0-3L-0). Personal skill acquisition
skating balance, edge control, agility, and striding
hockey. Students must provide own skates and stic
Full hockey equipment recommended.

PAC 170 Track and Field
★1.5 (either term, 0-3L-0). Personal skill acquisition
the sprints, long jump and shot put.

PAC 171 Track and Field
★1.5 (either term, 0-3L-0). Personal skill acquisition
hurdling, high jumping and discus throwing.

PAC 172 Track and Field
★1.5 (either term, 0-3L-0). Personal skill acquisition
distance running, triple jumping, javelin throwing a
pole vaulting.

PAC 180 Canoeing and Kayaking
★1.5 (either term, 0-3L-0). Personal skill acquisition
strokes, maneuvers and rescue. Prerequisite: PAC 2
or consent of the Department.

PAC 181 Cross Country Skiing
★1.5 (second term, 0-3L-0). Personal skill acquisition
individual activities. Note: One required day trip will
scheduled on a weekend during this course. Stude
must supply their own equipment. Equipment is availa
from the Campus Outdoor Centre for a $30.00 user fe

PAC 182 Rock Climbing
★1.5 (either term, 0-3L-0). Personal skill acquisition
basic climbing techniques, rope management, and bela

PAC 199 Physical Activity - Level I
★1.5 (either term, 0-3L-0). Personal skill acquisition
an individual or team activity.

PAC 300 Advanced Aquatics
★3 (either term, 3-0-0). This course is designed to introd
the swimmer to advanced stroke and skill techniqu
Selected topics related to RLSS Bronze Medallion r
also be included. Prerequisite: PAC 100 or must be abl
swim 300 metres non-stop. Proficiency in front crawl
back crawl, breaststroke, sidestroke and element
backstroke must be demonstrated.

PAC 301 Synchronized Swimming
★3 (either term, 3-0-0). This course will include pract
and theoretical sessions on synchronized swimming
a recreational and competitive sport. Personal s
development will be pursued. Course contact a

mines aspects of instructing, judging and coaching sport. Prerequisite: PAC 100; Red Cross White nior) Level is desirable.

: 303 Skin and Scuba Diving
(second term, 3-0-1). The scientific principles of skin scuba diving and their practical application to the rt of skin and scuba diving. Course may lead to ba certification at the National level (PADI, NAUI, UC). Students must provide their own snorkel gear sk, fins, snorkel, weight belt and gloves). A fee will charged for air used. Prerequisite: PAC 100, Red ss Maroon (Intermediate) Level or equivalent; lifesaving ning at the RLSS Bronze is highly desirable. All ients should be prepared to participate in a Spring in order to experience open-water diving.

: 305 Water, Snow and Ice Activities for dren and Youth
(second term, 0-3s-0). The similarities and differ- es of activities suitable for presentation to beginners e three environments will be studied through practi- and theoretical experience.

: 311 Analysis and Instruction of Basketball
either term, 3-0-0). The theory, practice, and teach- of the fundamental skills of basketball. Prerequisite: 111 or consent of Department.

: 312 Analysis and Instruction of Field and or Hockey
first term, 3-0-0). The theory, practice and teaching e techniques of outdoor and indoor field hockey. phasis on skill acquisition. Prerequisite: PAC 112 or ent of Department.

: 313 Analysis and Instruction of Football
first term, 3-0-0). Development of individual skills as as basic unit and team play. Coaching fundamen- and administrative skills are discussed. This course nclusive of the content of the NCCP (Football) nical Levels I and II. Prerequisite: PAC 113 or ent of Department.

: 314 Analysis and Instruction of Ice Hockey
either term, 3-0-0). The theory, practice, and teach- of fundamental team play. Emphasis will be on the lopment of concepts and strategies from which ctive systems are created. Students must provide own equipment: Skates, stick, helmet, hockey es, elbow and shin pads. Prerequisite: PAC 114 or ent of Department.

317 Analysis and Instruction of Rugby
first term, 3-0-0). The theory, practice, and teaching e fundamental skills of rugby. Prerequisite: PAC or consent of Department.

318 Analysis and Instruction of Soccer
first term, 3-0-0). The theory, practice, and teaching e fundamental skills of soccer. Emphasis on skill isitions and analysis. Prerequisite: PAC 118 or ent of Department.

320 Structure and Strategy of Games
either term, 1-2s-0). A study of similarities and rences in games (sports) through an examination of specific rules, skills and strategies. Class members be exposed to experiences at the practical and retical levels in the categories of territory, target, and court games.

331 Analysis and Instruction of Badminton
either term, 0-3L-0). Theory and practice of the and strategies of badminton. Students must pro- their own racquets and shuttlecocks. Prerequisite: 131 or consent of Department.

333 Analysis and Instruction of Racquetball
either term, 0-3L-0). The theory, practice, and ning of the skills and strategies of racquetball. ents must provide their own racquets, balls, and guards. Prerequisite: PAC 133 or consent of Depart- .

334 Analysis and Instruction of Squash
either term, 0-3L-0). The theory, practice, and ning of the skills and strategies of squash. Students provide their own racquets, balls, and eye guards. quisite: PAC 134 or consent of Department.

335 Analysis and Instruction of Tennis
either term, 0-3L-0). Theory and practice of the and strategies of tennis. Students must provide own racquets, balls, and proper shoes. Prerequi- PAC 135 or consent of Department.

337 Analysis and Instruction of Volleyball
either term, 3-0-0). The theory, practice and teach- f the fundamental skills of volleyball. Emphasis will n skill acquisition and fundamental team systems. quisite: PAC 137.

345 Analysis and Instruction of Golf
first term, 3-0-0). The theory, practice, and teaching fundamental skills of golf. A fee of $35.00 will be ed for green and range fees. (For BPE students . Prerequisite: PAC 145 or consent of Department.

PAC 354 Analysis and Instruction of Freestyle Wrestling
★3 (either term, 3-0-0). Emphasis on wrestling takedown and groundwork techniques. Includes theory, history, officiating and coaching principles. Prerequisite: PAC 154 or consent of Department.

PAC 355 Introduction to Yoga
★3 (either term, 3-0-0). Emphasis on philosophy, scientific basis and unique yoga approach to fitness and stress management along with practice of yoga asanas.

PAC 360 Analysis and Instruction of Gymnastics
★3 (either term, 3-0-0). Provides theoretical and practical foundations common to recreational and competitive gymnastics. May lead to certification in Level I NCCP. Prerequisite: PAC 160 or consent of Department.

PAC 361 Analysis and Instruction of Educational Gymnastics
★3 (either term, 1-2s-0). Progressive educational gymnastics themes, based upon movement concepts, are developed at practical activity and theoretical levels. Course instruction reflects primarily problem solving and discovery techniques to allow individuals and small groups to select and develop themes appropriate for apparatus and floor work. Prerequisite: PAC 160 or consent of Department.

PAC 362 Analysis and Instruction of Competitive Forms of Gymnastics
★3 (second term, 3-0-0). A program of practical skills and visual analysis leading towards intermediate skill development in the competitive forms. Prerequisite: PAC 160. Note: Offered only in alternate years to PAC 460.

PAC 370 Analysis and Instruction of Track and Field Events I
★3 (either term, 3-0-0). Sprinting, hurdles, long-jump, high jump, triple jump, pole vault, and related strength training. Prerequisite: Two of PAC 170, 171, and 172.

PAC 371 Analysis and Instruction of Track and Field Events II
★3 (either term, 3-0-0). Distance running, relays, shot, discus, hammer, javelin, and related strength training. Prerequisite: Two of PAC 170, 171, and 172.

PESS 375 Practicum in Instuction of Physical Activity
★3 (either term, 0-4L-0). Supervised experiences in instruction of physical actitity. Prerequisite: Pess 170 and credit in Level II activity course in the acitvity of the practicum, or consent of Department.

PAC 380 Analysis, Instruction, and Leadership of Canoeing and Kayaking
★3 (Intersession, 0-2s-4). The theory and practice of canoe and kayak instruction and trip leadership appropriate for various populations. Opportunities may be given to attempt ARCA/Red Cross and CRCA certification. A $30.00 equipment user fee is charged. Prerequisite: PAC 180 or consent of Department.

PAC 381 Analysis, Instruction, and Leadership of Cross-Country Skiing
★3 (second term, 0-2s-4). The theory and practice of nordic ski instruction and leadership appropriate for various populations. Opportunities may be given to attempt CANSI and CSA Tour Leader certification. Note: A five-day required ski tour will normally be scheduled during Reading Week. Equipment is available to rent at a fee of $40.00. Prerequisite: PAC 181 or consent of Department.

PAC 399 Physical Activity - Level II
★3 (either term, 3-0-0). The theory, practice and teaching of the fundamental skills of an individual or team activity. Prerequisite: Consent of Department.

PAC 400 Principles of Aquatic Instruction
★3 (either term, 3-0-0). The course will include practical and theoretical sessions on aquatic instruction techniques. Advanced skill development will also be pursued. Certification at the Instructor's level is optional provided students meet all requirements. Prerequisite: PAC 300 or RLSS Bronze Medallion or the equivalent in swimming skills.

PAC 401 Coaching Competitive Swimming
★3 (either term, 3-0-0). The course is designed to introduce the student to competitive coaching techniques and skills necessary for National Coaching Certification (Technical Level I and II). Prerequisite: PAC 300, 400 or equivalent.

PAC 411 Basketball Coaching
★3 (either term, 3-0-0). Emphasis on the coaching and the organization of basketball programs. Prerequisite: PAC 311 or consent of Department.

PAC 412 Field Hockey Coaching
★3 (second term, 3-0-0). Emphasis on how to teach and coach techniques, skills, systems of play and strategies of both indoor and outdoor field hockey. Prerequisite: PAC 312 or consent of Department.

PAC 413 Football Coaching
★3 (either term, 3-0-0). Emphasis on coaching theory, offensive, defensive and special teams systems. Prerequisite: PAC 313 or consent of Department.

PAC 414 Ice Hockey Coaching
★3 (second term, 3-0-0). Analysis of the roles and responsibilities of the coach (philosphy, team systems, strategies, and communication). Prerequisite: PAC 314 or consent of Department.

PAC 418 Soccer Coaching
★3 (first term, 3-0-0). The course aims to increase the student's knowledge and ability in soccer to an advanced level. To provide opportunities for further improvement in coaching and teaching soccer (individual and team tactics, game analysis, development of playing systems, and teaching methodology). Prerequisite: PAC 318 or consent of Department.

PAC 425 The Study of Games for Children
★3 (either term, 1-2s-0). A study in depth of the games played by children in informal situations and in organized programs. Opportunities to observe and work with children will be provided. Prerequisite: One or more of PESS 292, 293, 330, or PAC 320.

PAC 437 Volleyball Coaching
★3 (either term, 3-0-0). Emphasis on coaching techniques, team tactics and coaching philosophies. Prerequsite: PAC 337.

PAC 445 Advanced Golf
★3 (first term, 2-0-2). Advanced golf techniques, swing analysis, teaching methodology and golf program development. Prerequisite: PAC 345 or consent of Department. A fee of $35.00 will be charged to cover cost of film analysis materials, range fees and green fees.

PAC 454 Wrestling Coaching
★3 (second term, 3-0-0). The course is designed to give students practical experience coaching and administering freestyle wrestling. Prerequisite: PAC 354 or consent of Department.

PAC 460 Gymnastics Coaching
★3 (second term, 3-0-0). Designed to provide theory of and experience in a variety of technical aspects of gymnastics, including coaching, spotting, officiating, judging and meet administration. Prerequisite: PAC 362 or consent of Department. Taught only in alternate years to PAC 362.

PAC 465 The Study of Gymnastics for Children
★3 (second term, 1-2s-0). A study of a variety of gymnastic programs from the perspective of their potential to meet the needs of children at various ages. Class members will be required to plan, present and evaluate gymnastic activities for children. Prerequisite: One of PESS 292, 293, 330, PAC 361 or consent of Department.

PAC 470 Track and Field Coaching
★3 (either term, 3-0-0). Development of coaching skills for track and field. Prerequisite: PAC 370 and/or PAC 371 or consent of Department.

164.2.4 Courses in Physical Education and Sport Studies

PESS 100 Structural Anatomy
★3 (first term, 3-0-2). The study of the structure of the human body. For BPE and Nursing students only.

PESS 110 Physical Fitness Theory and Practice
★3 (either term, 2-0-2). Knowledge and understanding of basic concepts of fitness and nutrition with practical applicaton geared to individual needs. For BPE students and BEd PE majors only.

PESS 120 Introduction to Athletic Therapy
★3 (either term, 3-0-1.5). Analysis of practical and theoretical concepts of athletic therapy. Includes an overview of sports medicine, care and prevention of injuries, and safety in athletics and physical education. A fee of up to $25.00 will be charged for lab supplies. Prerequisite: PESS 100. For BPE students only.

PESS 140 Adapted Physical Education
★3 (either term, 2-0-2). An introduction to the current trends in the theory and practice in adapted physical education. The course includes a survey of handicapping conditions and methods of dealing with them in integrated programs. Non-BPE students require consent of Department.

PESS 150 Introduction to the Administration of Sport and Physical Education Programs
★3 (either term, 3-0-1). This course provides students with the basic skills required to successfully administer a sport and/or physical education program. For BPE and BEd PE majors or consent of Department.

PESS 170 Leadership and Instruction in Physical Activity
★3 (second term, 2-0-2). An introduction to the theory and practice of leadership and instruction in physical activity settings. Instructional techniques are applied to a variety of activities and environments in order to enhance the development of instructional skills which can promote skill learning. For BPE students only.

PESS 180 Introduction to Outdoor Education
★3 (either term, 3-0-3). A conceptual and experiential introduction to outdoor environmental education and leadership. In addition to weekly lecture and lab components, the course includes weekend camping. A user's fee of $30.00 is charged for equipment maintenance.

PESS 201 Biomechanics
★3 (first term, 3-0-0). A systematic procedure for qualitative analysis of human motion is presented. Students proceed from the identification of mechanical principles governing motion through to the formation of deterministic models and observational strategies. . For BPE students only.

PESS 203 Skill Acquisition and Performance
★3 (either term, 3-0-0). The course is designed to examine the theory of skill acquisition and performance throughout the lifespan in typical sport and physical activity situation. For BPE students only.

PESS 204 Sociocultural Foundations of Physical Education and Sport
★3 (either term, 3-0-0). A societal study of the function of play and games as a basis for understanding the sociocultural foundations of sport and physical education. For BPE students only.

PESS 209 Measurement and Evaluation
★3 (either term, 3-0-0). A survey of methods and techniques for evaluating the nature of physical activity programs and participants. Emphasis on practical application of tests and measurement related to a variety of sport, community and institutional settings. For BPE students only.

PESS 260 Introduction to Coaching
★3 (either term, 3-0-0). This course introduces the student to a variety of coaching topics of both a theoretical and a practical nature. This course is inclusive of the content of the NCC Program (Theory Levels I and II).

PHYSL 260 Elementary Physiology
★6 (3-0-0; 3-0-1). Introduction to human physiology from the cellular to systemic level, with special emphasis on systems which adapt to exercise stress. For BPE students only.

PESS 292 Introduction to the Movement Activities of Children Aged 0-8
★3 (either term, 0-3s-0). A study of free play and organized physical activities of young children in recreational, educational, and sports environments. Class members will engage in practical physical activity and the observation of children. This course is not open to students who have received credit for PESS 293 or equivalent.

PESS 293 Introduction to the Movement Activities of Children Aged 5-12
★3 (either term, 0-3s-0). A study of free play and organized physical activities of school age children in recreational, educational, and sport environments. Class members engage in practical physical activity and the observation of children. This course is not open to students who have received credit for PESS 292 or equivalent.

PESS 294 Introduction to the Movement Activities of Youth
★3 (either term, 1-2s-0). A study of the fundamental movement concepts that underlie the physical activities engaged in by youth of secondary school age.

PESS 300 Physiology of Exercise
★3 (either term, 3-0-2). An introduction to physiological adaptations to stress of exercise and training. Prerequisite: PHYSL 260 or equivalent.

PESS 301 Quantitative Biomechanics of Physical Activity
★3 (either term, 3-0-0). Research techniques in the analysis and synthesis of human movement. Topics include linear and angular kinematics and kinetics, photo instrumentation, body segment parameters, the link segment model and work-energy relationships. Prerequisite: PESS 201 or consent of Department.

PESS 302 Motor Learning, Memory and Control
★3 (first term, 3-0-0). An introduction to the processes involved in the learning, memory, and control of human movement; with application to teaching, coaching, and competitive games. Prerequisite: PESS 203 or consent of Department.

PESS 303 Psychology of Sport
★3 (first term, 3-0-0). Play theory; personality structure and dynamics of athletics, motivational indices in physical activities and competitive athletics and attitudes toward physical activity. Prerequisite: PSYCO 104 or PESS 203 or successful completion of the first two years of the BPE program at the University of Alberta.

PESS 304 Sociology of Physical Education and Sport
★3 (either term, 2-1s-0). The characteristics, processes, and problems of sport as a social system with particular reference to North American society. Prerequisite: PESS 204 or consent of Department.

PESS 305 Sport Studies Route Practicum I
★3 (either term, 0-3L-0). An individual project or work on ongoing research (in a laboratory or field setting) or the equivalent under the supervision of an adviser. A contractual arrangement is made between the student and route adviser as to the nature of the practicum. For BPE Sport Studies Route students only.

PESS 307 Growth and Development
★3 (first term, 3-0-0). A study of the sequential changes in physical growth and motor development with emphasis on individual differences. For BPE students only. Prerequisite: PESS 203.

PESS 308 Motor Development and Motor Learning
★3 (either term, 3-0-0). A study of those relationships between physical maturation and environmental factors which can influence the acquisition of motor skills. Not for BPE degree credit.

PESS 309 Introduction to the Scientific Basis of Human Movement
★3 (either term, 3-0-0). Lecture course with an emphasis on introductory knowledge and practical implications of the structural and functional characteristics and capacities of the human body with respect to movement. Not for BPE degree credit.

PESS 310 Advanced Conditioning Methodology
★3 (either term, 3-0-0). Theoretical basis of conditioning programs. Emphasis on metabolic and physiological rationale for selected regimens. Prerequisite: PESS 300 or consent of Department.

PESS 314 Body Composition and Physical Activity
★3 (either term, 3-0-0). Emphasis on assessment and evaluation of body composition. Other topics include the role of physical activity in obesity and nutritional requirements necessary for athletic performance. Prerequisite: PESS 110. For BPE students only.

PESS 315 Practicum in Fitness Leadership and Instruction
★3 (either term, 0-3L-0). This course includes 20 hours of seminar work plus 40 hours of fieldwork in fitness instruction under the supervision of a Certified Fitness Leader. For BPE students in the Fitness and Health Promotion route only. Prerequisite: PESS 110, 170, and 300.

PESS 325 Practicum in Athletic Therapy Techniques
★3 (0-3L-0). A practicum in Athletic Therapy designed to provide students with experiences in on-field assessment and management of injuries as they may occur in sport and physical education settings. Students will work under the close supervision of the attending therapist/physician. Students must attend all scheduled seminars in addition to completing the fieldwork requirements. Students must complete the First Responder first aid course at a cost of $150.00. Prerequisite: PESS 120. For Athletic Therapy Route students only. Note: A three-credit course offered over the full session.

PESS 330 Physical Activity and Sport for Children
★3 (either term, 0-3s-0). This course will be an introductory course focusing on the child from birth to twelve years of age in a wide range of physical activities in both free and structured environments. It will look at activities offered in home, recreational, educational and competitive environments. There will be emphasis on the developing capabilities of the child and the most appropriate types of activity for any age or stage of development. For BPE students only.

PESS 335 Practicum in Physical Activity for Children
★3 (either term, 0-2s-3). Supervised experiences in a physical activity program designed for children. Prerequisite: One of PESS 292, 293, or 330, or consent of Department.

PESS 345 Practicum in Physical Education for the Mentally Handicapped
★3 (either term, 0-2s-2). Supervised experience in physical activity programs for the mentally handicapped. Prerequisite: PESS 140 and consent of Department.

PESS 346 Practicum in Physical Education for the Physically Awkward
★3 (either term, 0-1s-3). Supervised experience in gross motor assessment; prescription of a remedial program; implementation of the program via individual instruction; and leisure counselling of a physically awkward child. Prerequisite: PESS 345 and consent of Department.

PESS 350 Advanced Analysis of the Administrati of Sport and Physical Education Programs
★3 (first term, 3-0-0). Theoretical considerations for organization and administration of sport and phys education programs. Prerequisite: PESS 150. For E students only.

PESS 352 Sports Facilities: Planning, Constructi and Maintenance
★3 (either term, 3-0-0). An examination of the planni design, and construction of physical education and sp facilities. Emphasis will be given as well as to fundi site selection, and political implication.

PESS 360 Applied Principles of Coaching
★3 (first term, 3-0-0). This course will provide stude with knowledge of advanced coaching theory that be effectively applied in select coaching settings. P requisite: PESS 260 or NCC Program (Theory Lev and II).

PESS 365 Coaching Practicum (Participant/ Observer)
★3 (0-3L-0). A practical introduction to coaching un the direction of an approved coach. The student co will be expected to apply the theory content of PE 260 in a coaching setting related to a particular sp This course includes attendance at seminars, selec readings and the presentation of a practicum log. P requisite: PESS 260 or consent of Department. For B students only. Note: A three-credit course offered o the full session.

PESS 375 Practicum in Instruction of Physical Activity
★3 (either term, 0-4L-0). Supervised experience instruction of physical activity to adults. The focus is the processes of planning, instruction and evaluat Prerequisite: PESS 170 and credit in the Level II act course in the activity of the practicum, or consen Department.

PESS 381 Biomedical and Safety Foundations of Outdoor Pursuits
★3 (3-0-3). Topics include: Scientific basis of outd living and travel, risk and safety considerations, emerge procedures, and first aid techniques. Opportunity be provided to complete wilderness emergency certification. A half-course offered in either term or the full session. Prerequisite: PESS 180. For students only.

PESS 382 Wilderness Living, Navigation and Tra
★3 (Intersession, 0-3s-3). Principles and practic individual and group wilderness travel. Includes sur orienteering, backpacking, rock climbing, and se and rescue skills/techniques. A $30 user fee is char Prerequisite: PESS 180.

PESS 383 Outdoor Education Organization and Management
★3 (either term, 3-0-1). This course is concerned the delivery of outdoor education and recreation grams. It will focus on managerial functions such management style, organizing, staffing, supervis programming, marketing, legal liability, and team b ing. There will be day field trips to selected out centres which will involve nominal expenses not excee $30.00 for transportation. Prerequisite: PESS 180, 381 or 382, or consent of Department.

PESS 385 Outdoor Environmental Leadership Practicum I
★3 (either term, 3-0-3). Principles, methods, and su vised practice of outdoor environmental education environmentalism as relevant to those leading an recreating in the natural environment. Prerequi PESS 180.

PESS 401 History of Physical Education and Sp
★3 (either term, 3-0-0). An overview of the s significance of physical education and sport from cient to modern times. Prerequisite: PESS 204.

PESS 402 History of Physical Education and Sp in Canada
★3 (either term, 3-0-0). The course will examine, thr a cultural perspective and in an historical context status and significance of sport and physical educ in Canada, from the period of New France to present. Prerequisite: PESS 204.

PESS 403 Psychology of Coaching
★3 (either term, 3-0-0). The direct implications of scientific psychological principles underlying the co ing of both individual and team sports for pre-adole and adolescent children. Prerequisite: PESS 30 consent of Department.

PESS 404 Comparative Physical Education and S
★3 (either term, 3-0-0). An examination of phy education and sport in selected countries will be us complement an international overview and perspe with special reference to development in Canada.

PESS 405 Sport Studies Route Practicum II
★3 (either term, 0-3L-0). An individual project, or

on ongoing research in a laboratory or field setting under the supervision of an adviser. A contractual arrangement will be made between the student and adviser concerning the nature of the practicum. Prerequisite: PESS 305.

PESS 407 Philosophy of Physical Education and Sport
★3 (either term, 3-0-0). Emphasis on developing the ability to philosophically evaluate the conceptual issues encountered when physical education and sport are discussed. Prerequisite: PESS 204. For BPE students only.

PESS 408 Aesthetics of Dance, Sport and Physical Activity
★3 (either term, 3-0-0). An examination of aesthetics as a way to understand human movement in dance, sport, and physical activity.

PESS 409 Introduction to Research
★3 (second term, 3-0-0). An overview of research in physical education with emphasis on practical application of research techniques and designs. This course is intended for students who possess a minimal knowledge of statistics. Prerequisite: PESS 209 or an introductory statistics course.

PESS 420 Advanced Athletic Therapy Methods and Techniques
★3 (either term, 3-0-0). Advanced prevention, treatment, and sport-specific rehabilitative methods and techniques in athletic therapy. Prerequisite: PESS 100 and PESS 120, or consent of Department.

PESS 425 Advanced Practicum in Athletic Therapy Techniques
★3 (0-3L-0). An advanced practicum in athletic therapy designed to allow the student the opportunity to work independently in assessing and managing injuries as they occur in sport and physical education settings. The student will also be introduced to basic sport-specific rehabilitative techniques applicable to the physical education setting. Prerequisite: PESS 120, PTHER 310, PESS 325, and PESS 420. Note: A course worth three units of course weight offered over the full session.

PESS 430 Contemporary Issues in Physical Activity and Sport for Children
★3 (either term, 0-3s-0). An analysis of current issues in the establishment of physical activity programs for children. Prerequisite: PESS 330, 335, and at least two of PAC 425, 465, and DANCE 431, or consent of Department.

PESS 435 Advanced Practicum — Children's Physical Activities and Sport
★3 (either term, 0-1s-3). This practicum will focus on program development, class management and instructional strategies. Where possible this experience will be in one environment with one type of physical activity. Students will be expected to plan, teach/coach, and evaluate a limited program for children under the supervision of the agency (school, club, recreation department, or community league). Prerequisite: PESS 330, PESS 335, and at least two of PAC 305, PAC 320, PAC 375, PAC 425, PAC 465, or DANCE 431.

PESS 445 Practicum in Physical Education for the Physically Disabled
★3 (1-0-2). Supervised experience in physical activity programs for the physically disabled. Prerequisite: PESS 140 or consent of Department. For BPE students only.

PESS 465 Advanced Coaching Theory and Practicum
★3 (0-3L-0). Advanced coaching experience under the direction of or in association with an approved coach. The student coach will be expected to apply the theory content of PESS 260 and 360 in a coaching setting related to a particular sport. The course requires attendance at scheduled seminars inclusive of the content of NCCP Theory Level III. In addition to selected readings, a seasonal plan must be submitted. Prerequisite: PESS 260, 360 and 365. Note: A three-credit course offered over the full session. For BPE students only.

PESS 475 Advanced Practicum in Leadership and Instruction in Physical Activity
★3 (0-3L-0). A field placement involving the leading and/or instruction of youth or adults in physical activity settings. The course includes the completion of selected readings and assignments in addition to participation in seminars. Prerequisite: PESS 307 and PESS 375. For fourth year Leadership and Instruction Route students only. Note: A three-credit course offered over the full session.

PSYCO 484 The Learning, Memory and Control of Movement
★3 (first term, 3-0-3). A survey of the issues, experimentation and theories that surround the learning, memory, and control of human movement. Prerequisite: One of PSYCO 208, 267, 275, 288, or 353.

PESS 485 Outdoor/Leadership Practicum II
★3 (0-3L-0). Advanced outdoor leadership experience under the direction of an approved outdoor leader/agency. Prerequisite: PESS 385.

PESS 486 Wilderness Explorations Guiding Practicum
★6 (Intersession, 0-6L-0). A team of qualified senior Outdoor Route students research, plan, operate and lead a series of extended wilderness explorations that study selected Western Canadian environments and trails first hand. Emphasis is placed on an integrated, interdisciplinary approach to outdoor environmental education. Students participate extensively in group processes, environmental interpretation and trail leadership. For BPE Outdoor Route students only or by special consent of the Route Coordinator.

PESS 490 Applied Ethics in Physical Education and Sport
★3 (either term, 2-1s-0). A philosophical examination of ethical questions in the professional practice of physical education and sport.

PESS 492 Movement Education for Young Children
★3 (either term, 0-3s-0). A study of the fundamental aspects of movement involved in the activities of children from infancy to age eight. Included is an examination of play equipment and play spaces. Prerequisite: PESS 292 or consent of Department.

PESS 494 Physical Activity and Aging
★3 (either term, 3-0-1). An examination of the role of physical activity on the health and lifestyle of older adults.

PESS 495 Professional Practicum
★12 (either term, 14 weeks). Fourteen weeks of professional experience in a full-time (approximately 35 hours per week) route-related placement. Students must apply to their Route Coordinator. A limited number of placements are available. Restricted to fourth year BPE students only.

PESS 497 Selected Topics in Physical Education and Sport
★3 (either term, 3-0-0). A course offered on a topic of current interest in physical education and sport. Prerequisite: Consent of Department.

PESS 499 Directed Studies
★3 (either term, 0-3s-0). A course designed to meet the needs of individual students. Prerequisite: Consent of Department.

164.3 Courses in the BA in Recreation Administration Programs

164.3.1 Courses

Notes:

(1) Priority will be given to recreation students in all recreation courses that are required for the BA (Recreation Administration) degree program.

(2) All out-of-Department students are recommended to complete RLS 120 (Introduction to Recreation and Leisure Studies) or RLS 401 (Community Recreation) in order to take any other recreation course.

(3) Where an appropriate background can be demonstrated, RLS 120 (or REC 401) and other prerequisites may be waived, with the consent of Department.

RLS 120 Introduction to Recreation and Leisure Studies
★3 (either term, 3-0-0). An examination of the nature of leisure and recreation and its role in modern society; an overview of the structure of the Canadian recreation and leisure services system; an outline and discussion of professional preparation for recreation practice. Formerly REC 201/RLS 220.

RLS 121 Methods and Materials for Recreation Instructors
★3 (either term, 3-0-2). Introduction to organizing settings, activities, participants and leadership to produce recreation experiences. Emphasis upon practical skills in organizing and conducting programs. Formerly REC 202/RLS 220.

RLS 250 Introduction to Outdoor Recreation
★3 (either term, 3-1s-6). Use and understanding of the outdoor environment as a recreation setting. Emphasis on experimental learning. Note: RLS 250 and PESS 280 may not both be taken for credit. A user fee of $10 is charged for maintenance of equipment. A fee of up to $40 per student will be charged to contribute to field trip expenses. Prerequisite: RLS 120 (or RLS 401). Formerly REC 280.

RLS 320 Introduction to Philosophies of Leisure
★3 (either term, 3-0-0). Examination of the historical evolution of selected philosophies of leisure in Western civilization; their relationships to ideas about work, play, and quality of life; their implications for the recreation profession in Canada; and their impact upon future development of Canadian society. Formerly REC 302.

RLS 321 Introduction to the History of Leisure in Western Civilization
★3 (either term, 3-0-0). An overview of the significance of leisure in Western civilization from ancient greece to the present, to briefly examine its relationship to selected societal factors (such as economics, politics, religion and technology) and selected specific products (such as cinema, parks, sport, television and tourism). Formerly REC 303.

RLS 322 Sociological and Anthropological Perspectives on Leisure
★3 (either term, 3-0-0). Leisure as a socio-cultural phenomenon. Examination and analysis of sociological and anthropological literature relevant to leisure and leisure behavior. The place of leisure in, and its relationship to other social institutions such as work, the family, education and religion.

RLS 323 Leisure and Human Behavior
★3 (either term, 3-0-0). A social psychological examination of leisure experiences and leisure behaviors. Focus is on the individual in dynamic interactions with other individuals, groups or cultures within a leisure context.

RLS 324 The Political Economy of Leisure
★3 (either term, 3-0-0). An examination of the roles of politics and of the economy in structuring the nature and distribution of leisure opportunities in a society such as Canada. The course will analyse relationships between the democratic political process and the dynamics of wealth creation, and will consider the implications of these for leisure provision in a mixed economy. Formerly REC 305.

RLS 325 Principles and Processes in Planning for Leisure
★3 (either term, 3-0-0). Examination of the planning process with particular reference to the roles of recreation professionals, planners, and citizens in planning for leisure opportunities. Formerly REC 301.

RLS 330 Recreation and Community Development
★3 (either term, 3-0-0). Analysis of the social and political processes through which groups and individuals work to mobilize resources and establish relationships to fulfill community needs. Formerly REC 404.

RLS 331 Leisure Education
★3 (either term, 3-0-0). A total development process through which individuals develop an understanding of self, leisure, and the relationship of leisure to their own lifestyles and the fabric of society. Examination of determining the place and significance leisure has in one's life. Formerly REC 304.

RLS 332 Program Planning, Marketing, and Implementation
★3 (either term, 3-0-0). An examination of the general principles involved in designing, marketing, implementing and evaluating recreation and leisure programs. Emphasis will be placed upon the utilization of systematic program planning and marketing approaches to matching opportunities to client needs and consumer demands. Formerly REC 359.

RLS 401 Community Recreation
★3 (either term, 3-0-0). An orientation to the field of recreation. Examination of the principles of recreation and leisure, the dimensions of recreation practice, and career potential, in the recreation field. Note: Open to students from other departments. Prerequisite: Consent of Department. Note: RLS 120 and RLS 401 may not both be taken for credit. Formerly REC 401.

RLS 402 Fieldwork in Recreation
★3 (either term, 0-2/2s-12). A supervised placement for 3rd year BA (Recreation Administration) students. (Restricted to Recreation students.) Prerequisite: RLS 120; RLS 325; RLS 331. Formerly REC 402.

RLS 409 Professional Practicum
★12 (either term, 14 weeks). Fourteen weeks of professional experience in full-time placement, together with one week of workshops. Prerequisite: Student must be in Third Year of BA (Recreation Administration) Program and have completed all 1st and 2nd Year Core Recreation Courses. Normally students will be placed in Edmonton and the surrounding area. Restricted to Recreation students registered in the BA (Recreation Administration) program prior to the 1989-90 Winter Session. Formerly REC 409.

RLS 430 Administrative Practices in Recreation Organizations
★3 (either term, 3-0-0). Administrative principles, processes and practices in recreation organizations in the public, voluntary (not-for-profit) and commercial sectors. Formerly REC 405.

RLS 431 Volunteers and Voluntary Organizations in Recreation
★3 (either term, 3-0-0). An examination of I) The nature of volunteer involvement in the delivery of recreation and II) The structure and processes of the voluntary organizations that make up the recreation delivery system.

RLS 432 Recreation for Special Groups
★3 (either term, 3-0-1). Overview of the historic aspects of recreation for special groups; the nature of such groups and the rationale for service to them. The roles of recreation practioners in serving special groups. The current status of these groups. Formerly REC 408.

RLS 440 Professional Practicum
★6 (either term, 14 weeks). Fourteen weeks of professional experience in full-time placement. Must be taken concurrently with RLS 441.

RLS 441 Practicum Seminar
★3 (either term, 0-3s-0). A seminar, taken concurrently with RLS 440, which seeks to relate the professional work experience to the academic and professional preparation elements within the BA program.

RLS 442 Post-Practicum Seminar
★3 (either term, 0-3s-0). A seminar, taken during the term immediately following the professional practicum, which examines and evaluates the practicum experience in terms of its academic foundations and professional dimensions. Seeks to integrate and synthesize theory and practice in the field.

RLS 443 Perspectives on Leisure and Recreation Research
★3 (either term, 3-0-0). An overview of some of the major traditions in social scientific research, and of their implications for the study of recreation and leisure. The course will explore linkages between research and theory, and between research and social policy, and will introduce students to the critical evaluation, as well as the formulation of alternative research designs. Formerly REC 477 and REC 479.

RLS 444 Issues in Recreation Practice
★3 (either term, 0-3s-0). A seminar for graduating students in Recreation and Leisure Studies centering upon issues relevant to the beginning professional. The seminar seeks to provide a synthesis appropriate to the final-year student. Note: Must be taken in the final term of the student's program. Formerly REC 410.

RLS 450 Staging Major Community Events
★3 (either term, 3-0-0). The underlying philosophy for, and the planning and staging of, major community events. Particular attention is given to cultural and political processes. Prerequisite: RLS 120 (or RLS 401); REC 321. A minimum of one drama course is recommended. Formerly REC 443.

RLS 451 Planning Recreation Facilities
★3 (either term, 3-0-1). An examination of the planning and design process associated with the development of recreation facilities and open space. Attention is focussed on the provision of recreation opportunities of a predominantly intensive-use nature which tend to occur in an urban or near-urban setting. The course also reflects the relationship of recreation opportunities to other types of land use and planning at the urban and regional scale. Prerequisite: RLS 120 (or RLS 401); RLS 325. Formerly REC 459.

RLS 452 Parks Planning, Management and Maintenance
★3 (either term, 3-0-1). An examination of parks as recreation environments together with an analysis of the relationship between park planning, design and subsequent management and maintenance in terms of meeting the requirements of the park agency, the park user and the resource base. Attention is focussed on both the common themes in park management and the specific problems of parks operation and maintenance associated with particular types of parks contained within a comprehensive park system. Prerequisite: RLS 120 (or RLS 401); RLS 325; RLS 462 or RLS 451 recommended. Formerly REC 463.

RLS 460 Urban Outdoor Recreation
★3 (either term, 3-0-3). This course will focus on the availability and utilization of outdoor settings, found within an urban centre, by urban user groups for meaningful recreation and development experiences. A user fee of $10 will be charged for use of Faculty outdoor equipment. Field experiences will be emphasized. Prerequisite: RLS 120 (or RLS 401); PESS 280 or RLS 250 or consent of the instructor. Formerly REC 380.

RLS 461 Outdoor Recreation Programming and Counselling
★3 (either term, 3-0-3). Examination of the range and depth of recreation experiences inherent in selected outdoor activities and settings, and their implications for direct programming and counselling. Note: A user fee of $10 is charged for maintenance of equipment. A fee of up to $40 per student will be charged to contribute to field trip. Formerly REC 390.

RLS 462 Outdoor Recreation Resources
★3 (either term, 3-0-1). An examination of the principles of resource allocation and land use in a recreational context together with an analysis of the patterns and trends in outdoor recreation and their impact on the resource base. Particular attention is given to evaluating a variety of environmental settings in terms of their suitability for outdoor recreation and the types of recreational experiences associated with them. Prerequisite: RLS 120 (or RLS 401); RLS 325. Formerly REC 435.

RLS 463 Introduction to Tourism
★3 (either term, 3-0-0). This course provides an introduction to the tourism system, its nature, history and organization, with particular emphasis on the Canadian scene. The underlying dynamics of the cultural, social, economic and psychological aspects of tourism and travel will be discussed. The natural, man-made and cultural environment in which travel occurs, and the resulting impacts of travel are covered. Note: Two days of field trips will be scheduled during the term.

RLS 470 School-Community Recreation
★3 (either term, 3-0-0). Overview of community education as a social movement; integration of community recreation and education. Emphasis is upon four themes: theoretical perspectives; characteristics of the social movement; strategies for implementation; and current trends and issues. Prerequisite: RLS 120 (or RLS 401); RLS 320; RLS 321. Formerly REC 441.

RLS 471 Recreation Services for Special Groups
★3 (either term, 3-0-2). An in-depth review of selected groups labelled as "special" in today's society. Consideration of the implications for the delivery of recreation and related services. Examination of current issues and future trends related to associations, institutions and community services for special groups in Alberta and Canada. Prerequisite: RLS 432. Formerly REC 471.

RLS 472 Sport and the Community
★3 (either term, 3-0-0). Emphasis upon the values and policies underlying articulated community, provincial and national sports development programs, with a special concern for extending the playing life span of sports participants. Examination of the social, psychological and cultural roles of sports in society. Prerequisite: RLS 120 (or RLS 401); RLS 320; RLS 321. A minimum of two basic sociology courses is recommended. Formerly REC 365.

RLS 473 Principles and Processes in Therapeutic Recreation
★3 (either term, 3-0-0). The therapeutic recreation programming process is emphasized. Primary focus is on specialized programs in therapeutic recreation settings. The relationship between therapeutic recreation services and recreation and special populations is addressed. Therapeutic recreation service methods, such as systems approach programming, activity analysis, leisure assessment techniques and instruments, as well as treatment approaches and facilitation strategies employed in therapeutic recreation settings are presented. Professional issues such as client rights, standards of practice, and credentialing will also be addressed. Prerequisite: RLS 432 or consent of convener for out-of-Department students.

RLS 480 Public Relations for Recreation Agencies
★3 (either term, 3-0-0). Principles of public relations, including communications, modification of attitudes, identification of differing publics, and ethical issues, as they apply to the recreation field. Opportunity to write newspaper and magazine articles. Prerequisite: RLS 120 (or RLS 401); RLS 320, RLS 321. Formerly REC 363.

RLS 481 Cultural Arts Administration
★3 (either term, 3-0-0). Introduction to the administration of cultural arts programs from the perspective of the leisure/recreation delivery system, the artists, and the administrators of such programs. Prerequisite: RLS 430. Formerly REC 490.

RLS 490 Selected Topics
★3 (either term, 3-0-0). Topics of current interest in leisure and recreation. Prerequisite: Consent of course co-ordinator. Restricted to third and fourth year Recreation students. Formerly REC 489.

RLS 499 Directed Study
★3 (either term, 3-0-0). Individual or group study on a theme or issue in recreation, carried out under the direction of a member of the academic staff. Restricted to fourth year Recreation students. Formerly REC 499.

Interdisciplinary Studies

INT D 451 Recreation Geography
★3 (either term, 3-0-0). Geographic research on outdoor recreation; behavioral-spatial approaches to participation and conflict in resource use, social and ecological carrying capacity, recreation space management. Prerequisite: Consent of the instructor. (Offered jointly by the Departments of Geography and Recreation and Leisure Studies). [Geography].

INT D 466 Principles of Heritage Interpretation
★3 (either term, 3-0-0). Examination of heritage interpretation as an expression of cultural and environmental recreation programs. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Forest Science and Recreation and Leisure Studies.) [Recreation and Leisure Studies]

INT D 467 Methods of Heritage Interpretation
★3 (either term, 3-3s-0). Application of principles of interpretation of natural and historic resources. Focus on management techniques and development of interpretative programs. Case studies and field trip. Prereq-uisite: Consent of instructor; INT D 466 recommended as complementary. (Offered jointly by the Departments of Forest Science and Recreation and Leisure Studies.) [Forest Science]

INT D 469 Plans for Heritage Interpretations
★3 (either term, 2-0-3). Survey of principles and practices at various levels of interpretative planning in historical/cultural and natural environments. (Offered jointly by the Department of Forest Science and Department of Recreation and Leisure Studies normally in the Intersession.) [Recreation and Leisure Studies].

INT D 470 Heritage Interpretation Field Trip
★3 (either term, 0-2s-6). Extended field trip to examine comparatively the philisophies, approaches and applied methodologies of a diverse range of institutions and agencies engaged in the practice of heritage interpretation. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Forest Science and Recreation and Leisure Studies. [Forest Science]

Note: §164.4 reserved.

164.4 Graduate Courses

Graduate level courses offered by the Departments of Physical Education and Sport Studies and Recreation and Leisure Studies are listed in the Graduate Studies and Research section of the Calendar.

University of Alberta

171.2 General Information

The importance of Medical Rehabilitation was recognized by the University establishing a program in Physical Therapy in 1954, and a program in Occupational Therapy in 1960. The Division of Speech Pathology and Audiology first offered courses in 1969.

171.2.1 Undergraduate Programs

Four-year degree programs are offered in the Departments of Physical Therapy and Occupational Therapy*. Applicants to the Department of Occupational Therapy are required to complete a pre-professional year prior to enrolling in this program. All students are required to undertake clinical practice during their course of study in approved institutions under the supervision of qualified professional staff. An honorarium may be paid by the institutes concerned while the student is serving the internship during the summer months.

*The Board of Governors and the Alberta Minister of Advanced Education have approved a proposal by the Department of Speech Pathology and Audiology to eliminate the undergraduate program. The last intake of undergraduate students was September, 1990.

171.2.2 Programs for Master's Degrees

Master of Science in Physical Therapy

The Department of Physical Therapy offers an advanced program in research techniques, orthopaedics, sports therapy, therapeutic exercise and other Physical Therapy specialty areas. The program normally requires two years but the time may vary according to the academic background of each student. Applicants must normally have had at least one year of clinical experience prior to being accepted into the program. It is possible to enter the program in January, May, or September.

For further information write to: Chair, Graduate Committee, Department of Physical Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, Alberta, T6G 2G4.

Master of Science in Occupational Therapy

The Department of Occupational Therapy offers a program leading to the degree of MSc, in several fields of study including life span development, psychosocial dysfunction, and work evaluation (physical dysfunction will be available in the near future). Normally done in two years of full-time study, the graduate program involves eight half-term courses and a research thesis. The degree will prepare therapists for specialization, senior clinical positions, and careers involving research.

Further information is available from the Chair, Graduate Committee, Department of Occupational Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, Alberta, T6G 2G4.

Master of Science in Speech-Language Pathology

The Department of Speech Pathology and Audiology offers graduate work leading to the Master of Science in Speech-Language Pathology. The program is designed to provide speech-language clinicians with the research skills needed to study the etiology, prevention, diagnosis, and remediation of speech, language, and hearing disorders. Students will undertake research to enhance their abilities to take leadership roles in academic, clinical and laboratory settings.

The minimum entrance requirements include an undergraduate degree in Speech Pathology with a cumulative grade point average of at least 6.5 in the last two years of undergraduate work from the University of Alberta, or equivalent qualifications from another academic institution. Applicants must also submit a statement of their research interests, three letters of recommendation, and the results of the Graduate Record Examinations (verbal, quantitative and analytical subtests).

Master of Speech-Language Pathology

The Board of Governors and Alberta Minister of Advanced Education have approved a proposal by the Department of Speech Pathology and Audiology to implement a master of Speech-Language Pathology program to be implemented in September 1992. The program is designed to provide students with the academic and clinical education required for certification by provincial and national professional associations.

The minimum entrance requirements include a four-year baccalaureate degree with a grade point average of at least 6.5 in the courses taken during the last two years of university work. Applicants must normally have completed preparatory courses in areas fundamental to the program. Information on required preparatory courses can be obtained from the Department. Applicants must submit three letters of recommendation, results of the Graduate Record Examination (GRE), and a statement of clinical research interests.

Further information may be obtained from the: Chair, Graduate Committee, Department of Speech Pathology and Audiology, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, Alberta, T6G 0T2.

171.3 Licensing by Professional Associations

171.3.1 Occupational Therapy

Graduates from the BSc in Occupational Therapy program are eligible to apply for membership in the Canadian Association of Occupational Therapists, (CAOT) Third Floor, 110 Eglinton Ave. West, Toronto, Ontario, M4R 1A3, and the Alberta Association of Registered Occupational Therapists (AAROT), #300 Centre 104, 5241 Calgary Trail Southbound, NW, Edmonton, Alberta, T6H 5G8.

To establish eligibility, CAOT requires successful completion of a certification examination.

171.3.2 Physical Therapy

Graduates from the BSc in Physical Therapy program are eligible to apply for membership in the Canadian Physiotherapy Association, 890 Yonge St, 9th Floor, Toronto, Ontario M4W 3P4 and the Association of Chartered Physiotherapists of Alberta, 10-10444-82 Avenue, Edmonton, Alberta.

171.3.3 Speech Pathology and Audiology

All remaining graduates from the BSc program in Speech Pathology and Audiology are eligible to apply for membership in the Speech and Hearing Association of Alberta, c/o Department of Communication Disorders, Glenrose Rehabilitation Hospital, Edmonton, Alberta and the Canadian Association of Speech Language Pathologists and Audiologists (CASLPA), Suite 1215, 25 Main Street West, Hamilton, Ontario, L8P 1H1. They will be eligible to sit the certification examination by CASLPA. The deadline for the final graduating class will be 1993.

171.3.4 Provincial Licensing

Graduates from all programs intending to practise in Canada will have to comply with provincial licensing requirements regardless of their professional qualifications.

171.3.5 Employment in Other Countries

Information regarding practice in other countries may be obtained from the appropriate professional organization, which will also advise on the degree of reciprocity of registration to be expected.

171.4 Budget

In the Department of Occupational Therapy a Sundries Fee of $30 will be charged in the second and third years of the program.

In the Department of Physical Therapy a fee of $15 will be charged for materials and supplies to all full-time undergraduate students registered in the program. The fee for graduate students will be $25 annually.

In the Department of Speech Pathology and Audiology, fees in the amount of $10 will be charged for materials and supplies in each year of the program.

172 Faculty Regulations

172.1 Admission

172.1.1 General Information

Owing to severe limitations of space and to the present shortage of clinical placement centres, admission into all programs is on a quota system: 64 students in Occupational Therapy and 66 in Physical Therapy.

Although selection procedures will vary with the program offered, in general the emphasis will be upon

academic standing with preference being given to those applicants with the highest standing.

As admission requirements vary with the program selected, it is imperative that those wishing to apply consult the matriculation requirements as set out in §13.4.15 of this Calendar.

An Interprovincial Training Agreement between the Province of Alberta and the Province of Saskatchewan exists for the Department of Occupational Therapy. Pending the official acceptance of agreement between the governments of Saskatchewan and Alberta, ten students from Saskatchewan will be admitted to the program for five consecutive academic terms commencing in 1991. These ten students will increase the quota to 74 for a five-year period.

Applications for admission to the Faculty must be received by: February 1 for Physical Therapy; April 1 for Occupational Therapy.

Upon notification of acceptance successful applicants will be required to confirm their intention to register by submitting a non-refundable $50 deposit within a specified time. The deposit will be credited toward payment of tuition upon completion of registration.

Academic Standings: It is the responsibility of applicants to ensure that official transcripts of their academic marks from high school or university are submitted to the Registrar's Office.

English Language Proficiency: English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. For example, non-matriculated applicants and unclassified program students must comply with the requirement along with other applicants.

Applicants to Faculté Saint-Jean need not demonstrate proficiency in English prior to admission being granted. However, they must demonstrate proficiency in English before they may be granted a degree from this institution.

Regaess of country of origin or citizenship status, all applicants except for Faculté Saint-Jean will be required to demonstrate proficiency in the English language prior to admission. This demonstration may take any one of several forms:

(1) Six full years of education in English in Canada or the equivalent in another country where English is the principal language. Such education must include the Alberta Grade 12, or equivalent level, and can be in a combination of secondary and postsecondary training.

(2) Successfull completion of the equivalent of 6 years of full-time instruction in a school/institution in Alberta in which the major language of instruction is other than English, but where the level of English proficiency required for graduation is equivalent to that in English language schools/institutions in Canada.

(3) A grade of 80% or better on the diploma examination portion (only) of the Alberta English 30 course, or a grade of 6 or 7 on the International Baccalaureate Higher Level English course, or a grade of 5 on the Advanced Placement English (Language Composition: Literature and Composition) course.

(4) Graduation from a degree program offered by an accredited university at which English is the primary language of instruction and in a country where English is the principal language.

(5) A score of at least 580 on the Test of English as a Foreign Language (TOEFL) or a score of at least 90 on the Michigan English Language Assessment Battery (MELAB). The TOEFL results must include a score of at least 50 on each of the three components.

Note: Authority to hear petitions and to waive the requirement for undergraduate applicants to write the TOEFL resides with the Registrar acting on behalf of the faculties. Exemptions will be based on assessments of the applicants' English language proficiency as evidenced by a written petition and a personal interview. Please direct enquiries and petitions to the Associate Registrar, Admissions.

Having been designated as an official test centre, The University of Alberta is able to offer a series of TOEFL test administrations throughout the year. Six Special and six International examinations are held each year. Further information and application forms may be obtained from Student Access Centre, Office of the Registrar, Administration Building, University of Alberta.

172.1.2 Occupational Therapy

BScOT

Those wishing to enroll in the BSc Occupational Therapy program are required to complete a pre-professional year prior to applying for admission to the Faculty. Though there are a number of faculties open to students entering the University from high school, those seeking admission to the Occupational Therapy program are advised to complete their pre-professional year in the Faculty of Science. Students must include in their pre-professional year the 30 units of course weight required for admission to Occupational Therapy while still meeting the requirements of the Faculty of registration.

OCCTH 106/107 will be accepted for credit within the pre-professional year in the Faculty of Science. In other faculties, students may be required to register in OCCTH 106/107 in addition to their 30 units of course weight. OCCTH 106/107 are also offered in the first term of Intersession at the University of Alberta. The deadline is April 1 for receiving applications for the following Winter Session, and June 1 for receipt of admission documents. **Note**: Pending the official acceptance of agreement between the governments of Saskatchewan and Alberta, the pre-professional requirements of OCCTH 106 and 107 will be offered off campus, in Saskatchewan, during Winter Session and Intersession.

Admission to the Occupational Therapy program will be based on academic performance. Students with the equivalent of one or more years of university-level coursework will be considered for admission as follows:

The admission GPA will be based on 30 units of course weight and must include:

PSYCO 104/105 or equivalent
OCCTH 106/107
6 units of course weight in a laboratory science
12 units of course weight in electives
also see: Transfer credit

Applicants who have completed more than one year of university-level coursework may use senior courses to meet psychology, laboratory science and elective requirements.

The laboratory science requirements can be met by completing six units of course weight from either physics, chemistry, biochemistry, genetics, and physiology with laboratory components, or from the following areas:

BIOL 100 or equivalent
GENET 197 or equivalent
PESS 200, 300 or equivalent
ZOOL 120 or equivalent
MICRB 193 or equivalent

Where applicants wish to present a laboratory science course in such areas as geography, botany, geology, computing science, or entomology, they may only do so if they have completed at least three units of course weight in one of the courses listed previously. Statistics, experimental psychology, and applied probability cannot be used to satisfy the laboratory science requirements, but may be used to satisfy requirements in other areas of the program.

Applicants who have completed at least one year of occupational therapy coursework will be considered for transfer or readmission to the program, and not part of the first time applicant pool. (Admission on this basis will be contingent upon the availability of sufficient space within the program.)

Students seeking to transfer or apply for readmission to the program must meet promotion requirements of the Faculty.

Selection Procedure

Preference will normally be given to those students with the highest overall standing and who have completed a full course load during one winter session.

For admission purposes applicants will be rank ordered according to their admission GPA. In the event of a rank tie applicants will be compared using:

(1) their best GPA under the most recent full course load (normally five full courses) then, if necessary,

(2) their GPA on the required courses (OCCTH 106/107, PSYCO 104/105 and laboratory science).

Transfer Credit

Each application will be examined on its own merits, taking into consideration academic standing in courses previously taken. Credit may be granted for previous university-level coursework that was completed within a 10-year period prior to the date of application. Depending upon their overall academic standing, students may be required to audit courses for which they have previously received credit.

Transfer credit will not be granted for physical education activity and coaching courses that are below the 300-level, nor for courses used to clear matriculation deficiencies.

Under normal circumstances transfer credit for a maximum of 39 units of course weight may be granted in order to meet requirements for a BSc in Occupational Therapy.

Orientation Week

The BScOT program requires that each student, after being accepted into the program, attend a five-day orientation week, prior to the beginning of the first term.

Fieldwork Policy

All students are required to complete four full-time fieldwork placements at approved clinical facilities under the supervision of qualified staff: each placement is assigned a specific course number, and the fieldwork courses are normally scheduled as follows:

OCCTH 328 Intersession following second year
OCCTH 428 Intersession following third year
OCCTH 431, 432 second term fourth year.

Students may be required to complete some of their fieldwork courses outside of their city or province of residence. Although an effort will be made to take individual requirements into account, if a student declines a placement, that placement will be released to another. Due to the limited national supply, another placement normally will not be available until the next selection period. Students are advised that such action will lengthen their program and delay their graduation. Accommodation and travel expenses are the responsibility of the student.

Prior to undertaking fieldwork courses in each year of the program, students are required to attend a fieldwork seminar scheduled annually as well as hold a valid Cardiopulmonary Resuscitation Certificate. Students will be advised of their uniform requirements prior to their first placement.

Reexaminations are not possible in fieldwork courses. Therefore students who fail a fieldwork placement must repeat that course. They are required to re-register and pay the required course fees. Normally a student will be allowed to repeat only one fieldwork course. In the event that a student fails the repeated course or a second separate fieldwork course, the student will be required to withdraw from the program.

Students have the right to appeal a course grade received in a fieldwork course in accordance with §§16 and 172 of the Calendar.

Post Diploma Degree Completion Program

This program provides an opportunity for occupational therapists holding a diploma to upgrade their educational qualifications to a baccalaureate degree level. The application deadline is April 1. Further information can be obtained from the: Chair, Post Diploma Degree Completion Program, Department of Occupational Therapy, Faculty of Rehabilitation Medicine, University of Alberta, Edmonton, Alberta, T6G 2G4.

Master of Science Program

Applicants to the MScOT program are directed to the Faculty of Graduate Studies and Research section of the Calendar for admission requirements and procedures.

172.1.3 Physical Therapy

Requirements for the Basic Four-Year Program

The deadline date for application to Physical Therapy is February 1. Questions regarding the requirements for admission should be addressed to the Office of the Dean, Faculty of Rehabilitation Medicine.

There are two categories of applicants who may apply for admission to the first year of the Physical Therapy program:

(1) Those applying on the basis of high school,

(2) Those applying on the basis of transfer credit from a postsecondary institution.

Admission to the basic program is based on:

(1) academic standing weighted 60%

(2) an interview weighted 40%

Academic Requirements

(1) **High School Applicants**

Five full subjects are required:

a. English 30
b. Mathematics 30
c. Physics 30
d. Subject from Group A or C (Biology 30 recommended)
e. Subject from Group A, B, or C (Chemistry 30 recommended)

Note A: Two subjects in Group D (1-6) may replace Group A, provided Social Studies 30 is not also presented. Refer to §13 in the Calendar for details on subjects included in each group.

Note B: Subjects taken at summer school immediately prior to the year of admission will not be available for calculation in the academic score.

Refer to §13.3.2 Admission Requirements of the University Calendar for details on courses included in Groups A, B, and C.

Scores on these five required subjects will be averaged to obtain the academic score.

If, in addition to these high school subjects, an applicant also presents less than 30 units of course weight transferrable from a postsecondary institution, these transfer courses may also be taken into consideration by the Admissions Committee.

Applications from persons whose matriculation pattern does not conform with the guidelines as described above will not be considered for admission to the Physical Therapy program until the deficient subject has been made up either at the high school level or at the first year level at a university or college.

(2) **Postsecondary Applicants:** (Matriculation and one or more years at university or an equivalent).

Only persons who have taken the three compulsory senior matriculation subjects (English 30, Mathematics 30 and Physics 30) or their equivalent will be considered in this category.

The academic score is calculated by averaging the scores of the most recent 30 units of course weight. Activity courses from Physical Education, studio courses from Fine Arts, and practicum courses will not be considered as part of the required 30 units of course weight.

Interview Requirement

A structured interview score is conducted which evaluates the applicant in the following areas: motivation, ability to relate to others, self-appraisal, maturity, ability to assess a problem, and a sense of responsibility. This interview takes approximately 30-45 minutes and, wherever possible, will be conducted by three interviewers from among the following groups: the Faculty, the clinicians, the students and the lay public. Interviewers are trained in the interview process and in assigning interview scores. They do not receive any prior information regarding an applicant's academic background.

Interview Selection

The deadline date for receiving transcripts of first term courses and transcripts from previously completed courses is March 15:

(1) For those applicants currently studying, the results of the December-January examinations will be used to determine an interim academic score.

(2) For those applicants who are not studying at present the results of the most recent five full course equivalents will be used to determine the interim and final academic score.

The top-ranked applicants will be invited for an interview in May. **Selected applicants will be contacted in mid-April as to the exact date and time of the interview in early May.**

Applicants living in Canada and the United States are required to attend the interview on the stipulated dates if they want their application to proceed. Applicants residing outside the North American continent must contact the Office of the Dean of the Faculty of Rehabilitation Medicine to make alternative arrangements.

Upon receipt of the final transcripts, any applicant, who has not been interviewed but who obtains a final academic score competitive with the lowest academic score of those already interviewed in May, will be offered an interview at a later date.

Final Selection

The deadline date for receiving final transcripts from postsecondary institutions is June 15. The deadline date for receiving final high school transcripts is August 1.

(1) A composite score is calculated from the final academic score (weighted 60%) and the interview score (weighted 40%), and the applicants with composite scores ranked in the top 66 will be accepted into the first year of the physical therapy program. An applicant whose interview score is exceedingly low may not be accepted for admission regardless of academic score.

(2) Final selections are made on two occasions: at the end of June for those with completed transcripts by that time, and again in early August for high school applicants and for those held pending from the June selection.

(3) Non-Resident Policy: See §13 for the university policy on admission of nonresidents to quota programs.

The Faculty strives to admit a minimum of 5% of the students on student authorization and 10% non-Alberta Canadians, provided that no non-resident of Alberta is admitted who is less qualified than any Alberta resident who is denied admission.

Basis for acceptance of foreign applicants shall be on the academic score which should be at least 85%.

(4) **English Language Proficiency Requirements:** See §13 for the university policy on English Language Proficiency. If the TOEFL is required, the minimum score requirement is 580.

Test of Spoken English (TSE) is also required. All applicants who are required to submit the results of the TOEFL must also submit the results of the TSE with a minimum score of 200. For further information contact the Examination and Timetabling Division, Office of the Registrar, 120 Administration Building.

Requirements for Post-Diploma Degree Completion Program

The degree completion program provides an opportunity for physical therapists holding a diploma in physical therapy acceptable to the Department of Physical Therapy to upgrade their educational qualifications to a baccalaureate degree level.

Individuals must have completed a minimum of 250 hours per year of clinical practice in the two years immediately preceding the year of intended registration in the post diploma degree completion program.

Individuals who have been out of clinical practice for longer than two years must complete a re-entry or similar program prior to being admitted to the degree completion program.

Applicants to the Post-Diploma Degree Completion Program whose credentials cannot be evaluated may be admitted as special students to determine their eligibility for admission to the program.

Advance credit may be considered for work completed at the University of Alberta or another institution. A ruling will only be given **at the time of admission** to the program regarding the amount of advance credit granted, and the course work to be completed.

Once a student has been admitted to the degree completion program the student will normally be required to complete the studies within a period of **two years** from the date of admission. Failure to complete studies within this period may result in the student being required to withdraw from the program. Students who are later allowed to re-enroll will be required to do so in accordance with the regulations in force at the time of re-enrollment.

Requirements for Master of Science Program

To meet the requirements of the Faculty of Graduate Studies and Research, applicants must have a Grade Point Average (GPA) of at least 6.5 in the last two years of their undergraduate baccalaureate program at the University of Alberta or an equivalent qualification from another institution. Applicants will be judged not only on their academic record, but also on their professional potential as indicated in letters of reference, interviews, and other supportive material; and they must also normally have had at least one year of clinical experience prior to being accepted into the program.

172.1.4 Speech Pathology and Audiology

The Board of Governors and the Alberta Minister of Advanced Education have approved a proposal by the Department of Speech Pathology and Audiology to eliminate the undergraduate program. The last intake of students was September 1990. Students wishing to pursue a career in Speech-Language Pathology should consult the Faculty of Graduate Studies and Research section of the Calendar.

Master of Science Program

Applicants to the MSc in Speech-Language Pathology program are directed to the Faculty of Graduate Studies and Research section of the Calendar for admission requirements and procedures.

Master of Speech-Language Pathology Program

Applicants to the MSLP program, which will commence in 1992, are directed to the Faculty of Graduate Studies and Research section of the Calendar for admission requirements and procedures.

172.1.5 Transfer Credit

Those applicants wishing to apply for transfer credit are asked to direct inquiries to the Chair of the Department concerned. Each application will be examined on its own merits, taking into consideration academic standing and courses previously taken.

172.2 Academic Standing and Graduation

(1) **Passing Grade:** Under normal circumstances each student must obtain a grade of no less than 4 in every course during the student's program of study.

(2) **Failure in Fieldwork or Clinical Work:** Should a student fail a fieldwork placement/clinical practice/clinical internship and wish to challenge that decision, the challenge must be submitted in writing by the student to the fieldwork/clinical coordinator within ten days of the student's receipt of an unsatisfactory report. A hearing will normally take place within 30 days.

(3) **Promotion and/or Continuation:** Grading: Marking in the Faculty of Rehabilitation Medicine is on a 9 point scale. The word description of the nine grades is as follows:

9 - Outstanding	4 - Pass
8 - Excellent	3 - Fail
7 - Very Good	2 - Fail
6 - Good	1 - Fail
5 - Pass	

a. Any student failing to obtain a minimum grade point average of 5.5 in any academic year will be required to withdraw from the Faculty.

b. Any student obtaining a grade of 3 in any course but with an overall grade point average of 5.5 or better will be allowed one reexamination upon recommendation of the Faculty Revisions Committee, and will be required to obtain a grade of 4 or better.

In the event that a student fails the reexamination, the student will be required to repeat the course and meet all other requirements of the Revisions Committee.

Students identified as second-time problem students by the Revisions Committee and referred to the Department Chair for review may also be required to withdraw.

(4) **Grade of Incomplete:** Subject to the approval of the Dean, a grade of incomplete shall normally be used where a student is prevented by illness, domestic affliction or other extreme circumstances from completing the course requirements at the specified time; where this grade has been given the student is required to submit the assignment within ten days after the completion of the series of final examinations in which this particular course was scheduled, except in cases where, at the discretion of the Department Chair, the Dean grants an extension of time. Failure to comply with this regulation will result in a grade of 0 for the portion of the course in which the grade of incomplete was granted.

(5) **Time Limits for Completion of Program:** Students will normally be required to complete all requirements for the award of their undergraduate degree within four years for Physical Therapy, and three years for Occupational Therapy and Speech Pathology and Audiology from the date of admission to the Faculty.

(6) **Post-diploma Degree completion:** Students admitted to the fourth year of the BScOT and BScPT programs will normally be required to complete all requirements for the award of their undergraduate degree within two years of the date of admission.

(7) **Electives:** In the Faculty of Rehabilitation Medicine an elective course will be approved if it (a) does not duplicate material covered in any compulsory course in the student's program; (b) does not duplicate material covered in the previously approved elective courses; (c) is offered at a time where no timetable conflict exists. Permission to take courses in other universities towards meeting the elective requirements of the student's program will normally be granted if the above conditions are met; credit will be granted for approved off-campus courses, providing a grade of 5 or its equivalent is obtained.

(8) **Residence Requirements:** The residence requirement for the Post Diploma (Degree Completion) program in the Department of Occupational Therapy and in the Department of Physical Therapy normally consists of completion of 24 units of course weight offered by the University of Alberta either "on" or "off-campus" in Winter Session, or Intersession, of which at least 18 units of course weight must be taken within a twelve month period.

(9) **First Class Standing:** For the purpose of granting First Class Standing and for the granting of awards

open to students in more than one Department in the Faculty of Rehabilitation Medicine, a full normal academic course load is defined as a minimum of 30 units of course weight taken during the Winter Session.

(10) **Academic and Clinical Requirements:** In order to graduate a student must have met the academic and clinical requirements outlined in the Calendar.

(11) **Degree with Distinction:** The "Degree with Distinction" will be granted to students who obtain a minimum cumulative GPA of 7.5 or better, during the final two years (third and fourth years) of the program, in each of which the student must take a minimum of 18 units of course weight in the Winter Session. Post Diploma Degree Completion students are not eligible to receive the Degree with Distinction.

(12) **Repeating of Courses:**

a. Students will be allowed to repeat a failed course only once.

b. Students registered in the Faculty of Rehabilitation Medicine will not be allowed to repeat any successfully completed course in their program.

c. Students in any faculty will not be allowed to repeat for credit any successfully completed course offered by the Faculty of Rehabilitation Medicine.

(13) **Reexamination Criteria:**

a. Students in the Faculty of Rehabilitation Medicine may be permitted a reexamination provided that:

1) The student's GPA is 5.5 or greater for the term in which the course to be reexamined was taken.

2) The weight of the final examination is 40% or higher.

3) The student received a grade of 3 in the course to be reexamined.

4) The course to be reexamined is a required course in the student's program.

b. If a reexamination is approved the following policies apply:

1) The reexamination should have the same percentage value as the original final examination. However, a greater value may be assigned at the discretion of the instructor. The student will be notified in writing of the weight of the reexamination prior to its being written.

2) The reexamination mark replaces the original examination mark in determining the final grade in the course.

3) Students are normally permitted only one reexamination during academic program.

4) A student who fails the reexamination must repeat the course and meet all other requirements set by the Revisions Committee.

5) A student who fails the reexamination for a prerequisite course must withdraw from all courses having prerequisite.

6) The student will be advised by the Dean's Office whether approval has been granted, and will then have the option to write the reexamination or repeat the course.

c. Reexaminations are not normally allowed in the following instances:

1) for clinical courses

2) to students who are repeating a year

3) in a course where there is no final exam

d. The deadlines for applying for a reexamination will normally be the following:

1) First term course: January 10

2) Second term or full session course: May 10.

Reexaminations for first term courses must be written by March 1. Reexaminations for second and full session courses must be written by the end of the August reexamination period.

e. Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this calendar.

172.3 Credit by Special Assessment

A student admitted to a degree program in the Faculty of Rehabilitation Medicine, may receive degree credit in a limited number of courses for knowledge or skill obtained in either a university or non-university context. "Non-university context" may include work completed at institutions not accredited for degree purposes or may refer to periods of work experience that bear relationship to university courses. The following conditions apply:

(1) **Limitations:**

a. Number of courses allowed: Normally, only 12 units of course weight obtained by special assessment may be applied to a four-year degree program in the Faculty of Rehabilitation Medicine. In exceptional circumstances, on the recommendation of a Department Chair, the Dean may permit additional credits by special assessment.

b. A student may attempt credit by special assessment only once for each course.

c. Courses not accepted: Graduate courses and certain undergraduate courses cannot be attempted by special assessment. Please contact Department concerned for courses offered in this category.

d. Special Students will not be permitted to take courses under this category.

(2) **Timing of Assessment (deadlines):** The deadline for completion of the examination or assessment is three months from the date of application for credit by special assessment. Unless there are extenuating circumstances, students who fail to complete assessment requirements by the specified deadline will be considered to have cancelled their application and will have to re-apply should they wish to complete that assessment.

(3) **Transfer of "Credit by Special Assessment":** Students who have obtained credits by special assessment (or similar means) while enrolled in another university, college, faculty, or school, will be given advance credit in such courses only to the extent that the Faculty of Rehabilitation Medicine accepts such courses in its degree programs.

(4) **Grades Assigned to Special Assessment Courses:** In a course attempted by special assessment, the results will be recorded, either as a grade point or pass/fail according to the practice in the regular course. Students may not appeal the results in a course attempted by special assessment. A course attempted by special assessment and failed will be recorded on students' transcripts and will be computed into their academic records.

(5) **Fees:** For information regarding fees please refer to §15.2.11.

172.4 Additional Regulations

(1) **Uniform:** Students in Occupational Therapy and Physical Therapy will be advised of their requirements at the time of registration.

(2) **Fieldwork/Clinical Practice:** In certain periods students are required to successfully complete fieldwork/clinical practice at approved institutions under the supervision of qualified staff. During these periods students will follow the administrative procedures and regulations of that institution.

(3) Prior to beginning student internship, students in all Departments in the Faculty of Rehabilitation Medicine are required to hold a valid Basic Cardiopulmonary Resuscitation Certificate. Students in Occupational Therapy are also required to attend fieldwork orientation seminars.

172.5 Appeals and Grievances

Every student is entitled to have individual grades reviewed. Students should first approach the instructor concerned, then if necessary see the Department Chair.

Decisions affecting a student's academic standing may be heard by the Faculty Academic Appeals Committee. Full academic appeal regulations may be obtained in the Office of the Dean.

Unsuccessful appeals at the Faculty level may be further appealed to the GFC Academic Appeals Committee.

Deadline

All appeals regarding academic standing must be received in writing by the Dean, within 21 calendar days, following publication of final results.

173 Programs of Study

173.1 The Degree of BSc in Occupational Therapy

Promotion

Students will normally complete courses according to the sequence outlined below. Where a student has deficient credit in a course or courses from a previous term, either through failure or otherwise, that student must normally clear the deficiency the next time the course(s) is/are offered and will be considered a repeating student.

Repeating Students

Repeating students will normally be required to complete a full academic program of 30 units of course weight in order to be considered for promotion. However, no students will be required to take more than the normal number of courses to complete their programs.

173.2 The Degree of BSc in Physical Therapy

(1) Under normal circumstances, a student enrolled in physical therapy will not be allowed to take required courses in one year of the program until all the required courses of the previous year of the student's program have been successfully completed.

(2) Students will not be required to take more than the normal number of courses to complete their program.

(3) Physical Therapy students are required to pass both the practical and theoretical examinations of any Physical Therapy course having a practical and theoretical component.

Any student who has obtained a grade of 3 or less in a course must upgrade that mark to at least a

4 by one reexamination in order to continue in the Faculty. Reexamination is contingent upon the the student having an overall grade point average of 5.5 or better, inclusive of the failed course. Any student failing to acquire a grade of 4 or better upon reexamination may be allowed to repeat the course or may be required to withdraw from the program.

(4) In order to meet patient protection standards suggested by Alberta Social Services and Community Health, and to protect the health of students, it is required that, prior to clinical experience each student have (1) a medical examination including a tuberculin skin test, and (2) primary or reinforcement immunization doses for diptheria, tetanus, poliomyelitis, and rubella.

The physical examination, tests, and immunizations can be obtained from either the University Health Services or a family physician. Immunizations can also be obtained from local health units. Certificates indicating that these requirements have been met must be received by the Department of Physical Therapy before August 15. A detailed statement of this requirement is available at the Faculty of Rehabilitation Medicine Office. During the second and third year the Department Chair has the right to request a reexamination for any student who has had an illness or injury which could prove hazardous to the student or his/her patient.

(5) **Clinical Practice Policy:** Clinical Practice is defined as practical placements within various clinical facilities during the third and fourth years of the Physical Therapy program. Each student is required to complete a minimum 1200 hours of approved clinical practice prior to graduation. This clinical practice is divided into six courses. Each course consists of a six-week, full time placement at a clinical facility approved by the Department.

(6) **Clinical Practice Failure Policy**: A student must successfully complete each clinical course in order to graduate from the program .

A student may fail no more than one clinical course during the student's program. If a third year student fails a clinical course, that course will normally have to be successfully repeated before clinical courses in the fourth year can be taken. If a student fails a repeat clinical course or fails a second clinical course, the student will normally be required to withdraw from the program.

173.3 The Degree of BSc in Speech Pathology and Audiology

No students will be admitted to the BSc in Speech Pathology and Audiology program after September 1990. Those students admitted in September 1990 will be allowed to graduate by meeting current BSc requirements. To be allowed to continue in the Department of Speech Pathology and Audiology, a student normally will carry a minimum of 30 units of course weight each year. To graduate from the program a student must successfully complete the program of study and acquire a minimum of 300 clock hours of directly supervised practicum. Normally courses will be taken in the sequence below. Under normal circumstances, enrollment in speech pathology and audiology courses will be restricted to students of the Department of Speech Pathology and Audiology.

		total hours of instruction
Third year		
SPA 389	Motor Speech Disorders	52
SPA 390	Language Disorders in Adults	52
SPA 393	Voice Disorders	52
SPA 396	Stuttering	52
SPA 400	Introduction to Clinical Practice	13
SPA 405	Aural Rehabilitation	52
SPA 410	Clinical Practicum	52
REHAB 354 or PSYCO 377	Clinical Neurology Human Neuropsychology	39 39
EDPSY 469 or PSYCO 223	Human Development Developmental Psychology	39 39
STAT 141 or equivalent		52
Linguistics (3 units of course weight)		
LING 204 is recommended		39
Elective (3 units of course weight)		39
Intersession		
SPA 480	Clinical Internship	10 weeks
Fourth year		
SPA 410	Clinical Practicum	104
SPA 477	Research Literacy for the Speech Language Pathologist	19.5
SPA 479	Program Management in Speech Pathology	19.5
SPA 489	Deafness	65
SPA 491	Clinical Audiology	65
SPA 493	Introduction to Allied Rehabilitation Professions	19.5
SPA 496	Professional Prospectives	26
Approved electives (12 units of course weight at the senior level)		156

173.4 Graduate Programs in Rehabilitation Medicine

Master of Science degrees are offered in the areas of Occupational Therapy, Physical Therapy, and Speech/Language Pathology. Applicants to these programs are directed to the Faculty of Graduate Studies and Research section of the Calendar for admission requirements and procedures. A Master of Speech-Language Pathology will be offered commencing September 1992.

174 Details of Courses

174.1 General Information

In the Faculty of Rehabilitation Medicine, all courses are restricted to students within the Department concerned, with the exception of those designated as follows:

(a) * open to all students
(b) ** open to other students with permission of the instructor.

Courses required of students in the Faculty of Rehabilitation Medicine are listed here.

Each course is designated by its computer abbreviation and by a number.

The course title is followed by the symbol "★" and a number indicating the course weighting used in computing the grade-point average. Usually a single-term course carries three units of course weight, a full-session course, six units of course weight. The statement in parentheses refers to the number of hours required by the course each week. For single-term courses the term in which the course is offered is listed first. For full-session courses the time allotment is the same in both terms unless otherwise indicated. The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. Courses not included in the computation of grade-point averages are marked "Credit".

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the department concerned.

Physical Requirements for University Courses

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the Department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

174.2 Rehabilitation Medicine

174.2.1 Undergraduate Courses

REHAB 282 Gross Anatomy I
★3 (either term, 3-0-4). Lectures and dissections on the upper limb, supplemented by classes in functional anatomy in the area.

REHAB 283 Gross Anatomy II
★3 (either term, 3-0-4). Lectures and dissections on the lower limb and trunk, supplemented by classes in functional anatomy of the area. Prerequisite: REHAB 282.

REHAB 350 Lifespan Development
★3 (either term, 2-0-1). The study of the development of the child to maturity, the changing periods of adulthood and the significance of the aging process. Study will include both physical and psychosocial factors as they relate to rehabilitation. Prerequisite: PSYCO 104 or equivalent.

REHAB 351 Neuroanatomy
★3 (either term, 3-0-0). A detailed study of the structure and function of the human nervous system. Prerequisite: REHAB 283, PHYSL 161.

REHAB 352 Work Physiology for Rehabilitation Therapists
★3 (either term, 3-0-2/2). The acute and chronic physiological response to pathology and levels of physical activity in individuals seen by the rehabilitation team and their treatment. Prerequisite: PHSYL 161 or equivalent. Note: Labs of two hours each will be offered to two groups of students on alternate weeks.

REHAB 353 Neuroscience for Rehabilitation
★3 (either term, 3-0-0). The mechanisms of neural activity and signalling, the functional aspects and integrative actions of sensory and motorsystems and the neuroscience of higher cognitive functions will be covered. Emphasis will be on integration and function. Corequisite: REHAB 351.

REHAB 354 Clinical Neurology
★3 (either term, 3-0-0). An overview of neurological conditions which are referred to rehabilitation departments for treatment. Prerequisite: REHAB 353.

REHAB 462 Research in Rehabilitation
★3 (either term, 3-0-0). The theory and principles of scientific method and research design procedures, and their application to rehabilitation in laboratory and clinical settings. Prerequisite: One half course in statistics.

REHAB 463 Geriatrics and Rehabilitation
★3 (either term, 2-0-1). The study of the special needs

of the geriatric client, and the application of rehabilitation techniques in the home and in institutions.

REHAB 476 Ergonomics
★3 (either term, 2-0-1). Ergonomics from an industrial and health care perspective.

174.3 Occupational Therapy

174.3.1 Undergraduate Courses

***OCCTH 106 Communication Theory and Helping Relationship**
★3 (either term, 3-0-0). Interpersonal communication theory and application to health care. Exploration of values and attitudes as they affect professional/client relationships.

***OCCTH 107 Models, Approaches, and Service Delivery**
★3 (either term, 3-0-0). Fundamental concepts of occupational therapy and their application in health care delivery. Implications of legal, educational, and governmental influences on service models.

OCCTH 203 Histology
★1 (either term, 1-0-0). Summary of structure and function of body tissues.

OCCTH 208 Introduction to Theory and Practice in Psychiatry
★3 (either term, 3-0-0). Introduction to the clinical disorders and other psychosocial issues. Presentation of case studies to illustrate clinical disorders and OT's role in assessment and intervention.

OCCTH 209 Therapeutic Occupation
★3 (either term, 2-0-4). Lectures in the therapeutic use of activity. Practical experience in selected activities suitable for use as therapeutic media, with emphasis on task analysis. Demonstrations of adaptive equipment and techniques.

OCCTH 210 Pathology
★1 (second term, 1-0-0). An introduction to the general principles of disease and disorders through the study of pathology. Prerequisite: OCCTH 203.

OCCTH 211 Assessment and Evaluation Techniques
★3 (either term, 0-6L-0LcL). Theory and practical classes in evaluation, assessment, and treatment techniques. Corequisites: OCCTH 209, 333, 334, REHAB 282, 283.

OCCTH 304 Occupational Therapy in Psychosocial Dysfunction
★3 (either term, 0-3L-0LcL). Designed to link previous study of behavior and the theoretical aspects of occupational theory with the requirements of clinical practice in the area of psychosocial dysfunction. Prerequisite: OCCTH 208.

OCCTH 312 Environmental Design for Disabled Persons
★3 (either term, 1-0-2). Theory and practical application of environmental factors as related to disabled, including barrier-free design, electronics, environmental controls, mobility equipment, computers.

OCCTH 313 Orthotics
★3 (either term, 1-0-2). Lectures and practical classes in the principles of design and methods of fabrication of orthotic devices. Prerequisite: OCCTH 211.

OCCTH 328 Fieldwork
★3 (8 weeks). A period of 8 weeks in approved hospitals and institutions for practical experience within occupational therapy departments. Prerequisite: Consent of department.

OCCTH 333 Medicine and Surgery
★3 (second term, 3-0-0). A series of lectures on common diseases and conditions encountered in the practice of occupational therapy, medical and surgical conditions, and their treatment. Corequisites: OCCTH 210, 211, REHAB 282, 283.

OCCTH 334 Orthopedics
★3 (either term, 4-0-0). A study of tissue biomechanics in normal and selected pathological conditions and the etiologies, medical and occupational therapy assessment and intervention of orthopedic disorders. Corequisites: OCCTH 211, 333, REHAB 282, 283.

OCCTH 335 Human Behavior in Illness and Disability
★3 (either term, 3-0-0). Orientation to psychosocial influence in health, illness and disability. Reactions to stress caused by physical trauma, hospitalization, and old age.

OCCTH 340 Behavior Management in Occupational Therapy
★3 (either term, 0-3s-0). An introduction to the implementation of behavior management practices within occupational therapy. Emphasis will be on the design and application of programs in behavior modification as they relate to particular clinical settings. Prerequisites: PSYCO 104/105 or equivalent.

OCCTH 403 Occupational Therapy, Theory and Practice in Neurology
★3 (either term, 0-3L-0LcL). Occupational Therapy principles, patient evaluation, and treatment procedures in a variety of neurological conditions. Prerequisite: REHAB 351. Corequisite: REHAB 353.

OCCTH 404 Therapeutic Approaches to Psychosocial Dysfunction
★3 (either term, 0-3s-0). Principles of psychotherapy, group therapy, and sexuality in rehabilitation. Prerequisite: OCCTH 304.

OCCTH 408 Occupational Therapy Theory
★3 (either term, 0-3s-0). Selected conceptual models of occupational therapy are examined in terms of their philosophical base, conceptualization, and application to practice. Open only to post diploma degree completion students unless department consent is granted.

OCCTH 413 Special Fieldwork
★3 (either term, 0-3s-3). A course designed to allow senior undergraduate students to pursue the practical application of ocupational therapy techniques in a specialized setting. These settings depend on the student's stated objectives for pursuing an area of interest, as well as the consent of the agency where the fieldwork is to be done. Enrollment is limited. Prerequisite: Consent of department. Note: May not be used for credit as an elective or to replace OCCTH 328, 428, 431, 432. This course is extra to the requirements for the BScOT degree.

OCCTH 425 Child Dysfunction
★6 (either term, 4-0-2). The study of abnormal physical, psychological, social, and intellectual development from birth to adolescence with emphasis on assessment and remedial programming in an occupational context. Prerequisites: REHAB 350, 351.

OCCTH 428 Fieldwork
★3 (8 weeks). Eight weeks in approved institutions or hospitals for practical experience in occupational therapy departments. Prerequisite: OCCTH 328.

OCCTH 431 Fieldwork
★4.5 (either term, 8 weeks). Credit. Practical application of occupational therapy techniques under the supervision of occupational therapy staff in approved facilities. Prerequisite: OCCTH 428.

OCCTH 432 Fieldwork
★4.5 (either term, 8 weeks). Credit. Practical application of occupational therapy techniques under the supervision of occupational therapy staff in approved facilities. Prerequisite: Consent of department.

OCCTH 435 Advanced Psychiatry
★3 (either term, 0-3s-0). A review of detrimental and beneficial factors influencing occupational performance. Psychiatric disorders, their diagnosis, classification and treatment, with specific emphasis on the role of the occupational therapist in assessment and intervention. Prerequisite: OCCTH 304.

OCCTH 455 Administrative Issues in Rehabilitation
★3 (either term, 3-0-0). Lecture presented by a variety of health care professionals and University staff concerning the planning, development, organization, and administration of occupational therapy services within the Canadian health care system. Prerequisite: Consent of department.

OCCTH 456 Occupational Therapy in Physical Rehabilitation
★3 (either term, 3-0-0). Current developments and OT practice in physical rehabilitation, including biofeedback, assessment and treatment of hands, work assessment, and task analysis.

OCCTH 498 Special Seminars
★3 (either term, 0-3s-0). Content varies from year to year. Topics will be announced prior to registration period. Prerequisite: Consent of department.

OCCTH 499 Individual Study
★3 (either term, 0-3s-0). A course intended to allow the senior undergraduate student to pursue a topic of interest in more depth than the classroom structure permits. This may take the form of directed reading, laboratory or clinical experience. Prerequisite: Departmental consent.

174.4 Physical Therapy

174.4.1 Undergraduate Courses

PTHER 200 Histology
★3 (either term, 3-0-0). An introduction to the structure and function of body tissues.

PTHER 206 Massage
★3 (either term, 1-0-2). Theory and practice of massage. Prerequisite: REHAB 282.

PTHER 212 Introduction to Physical Therapy
★3 (either term, 1-0-2). An introductory course dealing with the underlying principles on which the practice of physical therapy is based.

PTHER 213 Introduction to Assessment Skills I
★3 (either term, 1-0-2). An introduction to the theory and practice of assessment skills including measurements of joint range of motion and the theory and practice of manual muscle testing. Prerequisites: PTHER 212, REHAB 282. Corequisite: REHAB 283.

PTHER 310 Scientific Basis of Athletic Injuries
★3 (either term, 2-0-1). An introduction to orthopaedics and related topics which may be encountered by athletic therapists and physical educators (for Physical Education students in the Sports Science route only). Prerequisites: PESS 100 (Structural Anatomy) and PESS 120 (Introduction to Athletic Therapy).

PTHER 311 Biomechanics in Physical Therapy
★3 (either term, 3-0-0). Biomechanical principles and techniques with some applications to physical therapy. Prerequisite: PTHER 212.

PTHER 312 Introduction to Clinical Practice
★3 (either term, 2-0-2). The principles of patient assessment and identification of problems relevant to physical therapy. Prerequisites: REHAB 283, 351, PTHER 352.

PTHER 313 Introduction to Assessment Skills II
★3 (either term, 0-0-3). A continuation of the theory and practice of introductory assessment skills including measurement of joint range of motion and the theory and practice of manual muscle testing. Prerequisites: PTHER 212, 213, REHAB 282, 283.

PTHER 314 Introduction to Orthopaedics and Selected Treatment Techniques
★3 (either term, 3-0-4). An introduction to the study of orthopaedic conditions and their treatment, mobilizing, strengthening, and bandaging, and the analysis of gait. Prerequisite: PTHER 313.

PTHER 321 Electrophysical Agents I
★3 (either term, 3-0-2). Theory and practice of the application of low and medium frequency electrophysical agents used in physical therapy. Prerequisites: PTHER 206, 212, REHAB 283.

PTHER 322 Electrophysical Agents II
★3 (either term, 3-0-3). Theory and practice of the application of therapeutic heat and cold, high frequency currents and radiations used in physical therapy. Prerequisite: PTHER 321.

PTHER 350 Facilitation Techniques
★3 (either term, 1-0-2). Theory and practice of facilitation techniques of therapeutic exercise. Prerequisites: PTHER 206, 313, OCCTH 319, REHAB 351.

PTHER 352 Introduction to Respiratory Function
★3 (either term, 1-0-2). Theory and practice of methods for improving respiratory function. Prerequisites: PTHER 200, and PHYSL 161, REHAB 283.

PTHER 418 Selected Clinical Problems
★6 (3-0-0). A lecture series of mechanisms of disease and physical therapy management of selected clinical problems. Prerequisites: PTHER 200, 312, PHYSL 161, and REHAB 283.

PTHER 420 Neurology
★5 (either term, 3-0-3). An introduction to common problems associated with neurological conditions encountered by the physical therapist and a survey of the approaches to the treatment of selected neurological conditions. Prerequisites: PTHER 312, 350, REHAB 351, 353, 354.

PTHER 421 Neurology Clinical Practice
★3 (6 weeks). Credit. Clinical practice in neurological clinical conditions. Prerequisite: PTHER 420.

PTHER 422 Thoracic Conditions
★3 (either term, 3-0-0). Physical therapy assessment and treatment of conditions affecting the respiratory and aardiac systems. Prerequisites: PTHER 312, 352, REHAB 352.

PTHER 423 Thoracic Clinical Practice
★3 (6 weeks). Credit. Clinical practice in thoracic clinical conditions. Prerequisite: PTHER 422.

PTHER 424 Orthopedics
★5 (either term, 3-0-3). The study of orthopedic conditions encountered by the physical therapist and methods of assessing and treating selected problems. Prerequisites: PTHER 312, 314, 321, 322.

PTHER 425 Rheumatology
★3 (either term, 3-0-0). The study of collagen diseases, and their associated problems, including the role of the physical therapist in their management. Prerequisites: PTHER 312, 314, 321, 322.

PTHER 426 Orthopedic/Rheumatology Clinical Practice
★3 (6 weeks). Credit. Clinical practice in orthopedic and rheumatologic clinical conditions. Prerequisites: PTHER 424 and 425.

PTHER 429 Clinical Practice IV
★3 (6 weeks). Credit. Clinical practice in approved clinical facilities.

PTHER 431 Clinical Practice V
★4.5 (6 weeks). Credit. Clinical practice in approved clinical facilities.

PTHER 433 Clinical Practice VI
★4.5 (6 weeks). Credit. Clinical practice in approved clinical facilities.

PTHER 452 Selected Clinical Practice
★3 (variable).

PTHER 464 Administration
★3 (either term, 3-0-0). Issues in the ethicolegal, social, organizational, and communication aspects of physical therapy practice.

****PTHER 467 Individual Study**
★3 (either term, 3-0-0). A course intended to allow the senior undergraduate student to pursue a topic of interest in more depth than the classroom structure permits. This may take the form of directed reading, laboratory work or clinical experience. Prerequisite: Consent of department.

****PTHER 468 Sports Therapy**
★3 (either term, 3-0-2). An introduction to the prevention and care of sports injuries including the adaption of therapeutic exercise to the highly trained individual. Prerequisite: Consent of instructor.

PTHER 472 Paediatrics and the Physical Therapist
★3 (either term, 0-3L-0). Physical Therapy applied to the care of the paediatric patient in the home and in the institution.

PTHER 478 Physical Therapy in Industry
★3 (either term, 2-0-1). The provision of preventive and treatment services in industrial settings by physical therapists.

PTHER 480 Respiratory Conditions
★3 (either term, 0-3L-0). An advanced course in the pathophysiology, assessment and treatment of patients with respiratory conditions.

****PTHER 481 Cardiac Rehabilitation**
★3 (either term, 2-0-2). The physiological and psychological aspects of rehabilitation of the cardiac patients, with practical experience in their management. Prerequisite: REHAB 352 or equivalent.

PTHER 484 Assessment and Treatment of Joints
★3 (either term, 2-0-1). The assessment and treatment by manual techniques of peripheral and vertebral joints.

PTHER 486 Integrated Approach to Sensory Motor Treatment in Neurology
★3 (either term, 3-0-0). An integrated approach to the assessment and treatment of clinical problems in neurology based on theories and practice in the neurosciences in physical therapy. Prerequisite: PTHER 420.

174.5 Speech Pathology and Audiology

174.5.1 Undergraduate Courses

***SPA 280 Language Development**
★3 (either term, 3-0-0). Introduction to child language development as a multi-dimensional phenomenon. Content includes the cognitive and social basis for language as well as an overview of major achievements in semantic, syntactic, pragmatic and phonological development.

***SPA 281 Survey of Speech Pathology and Audiology**
★3 (either term, 3-0-0). An introduction to the disorders of human communication and the roles of the speech pathologist and audiologist.

SPA 389 Motor Speech Disorders
★3 (either term, 3-0-1). A study of etiologies and characteristics of motor speech disorders (dysarthrias) in children and adults with emphasis on the evaluation and management of their associated communication problems. Prerequisites: ANAT 412, and SPA 385, and LING 305.

SPA 390 Language Disorders in Adults
★3 (either term, 3-0-1). A study of the etiologies, evaluation and management of acquired language disorders in adults. Prerequisite: ANAT 412.

SPA 393 Voice Disorders
★3 (either term, 3-0-1). The etiologies and characteristics associated with voice disorders; the diagnostic and therapeutic procedures used in rehabilitation. Prerequisite: ANAT 412.

SPA 396 Stuttering
★3 (either term, 3-0-1). A study of the development, nature and treatment of stuttering. Prerequisite: PSYCO 281.

SPA 400 Introduction to Clinical Practicum
★3 (either term, 0-1c-0). Credit. Practical application of clinical procedures under direct supervision for a minimum of one hour per week. This course may also be offered during Intersession.

SPA 405 Aural Rehabilitation
★3 (either term, 3-0-1). Intensive preparation and study in depth of the problems of working with the hard-of-hearing, including speech reading techniques, auditory training and counselling. Prerequisites: SPA 379, 383 and 386.

SPA 410 Clinical Practicum
★3 (either term, 0-4c-0). Credit. Advanced practical application of clinical procedures under direct supervision. Students will normally enroll three times during their program of study, accruing a minimum of 44 supervised practicum hours during each enrollment. This course may also be offered during Intersession. Prerequisites: SPA 398 and SPA 400.

SPA 477 Research Literacy for the Speech-Language Pathologist
★1.5 (either term, 1.5-0-0). Primary emphasis is on preparation of students to be critical consumers of clinical research literature. Provides an overview of the scientific method and structure of experiments. Prerequisite: one-half course in statistics.

SPA 479 Program Management in Speech Pathology
★1.5 (either term, 1.5-0-0). This course deals with the management functions of organizing, planning, directing, monitoring and reporting in the delivery of speech pathology services. It also includes broader supra-program issues such as quality assurance through program standards, accreditation and evaluation, nonstatutory registration/licensure, and the basics of manpower planning. Issues related to prevention, screening, data collection, effectiveness, efficiency and cost benefits are integrated throughout the course.

SPA 480 Clinical Internship
★3 (10 weeks). Students normally will spend ten weeks during the summer following their third year in full-time clinical practice under direct supervision in an approved institution. A normal minimum of 157 supervised practicum hours will be obtained. Prerequisites: SPA 398, SPA 400, and one term of SPA 410.

SPA 481 Audiology for Educators of the Hearing Impaired
★6 (3-0-2). An introduction to audiology including anatomy and physiology of the auditory system, acoustics of speech, basic audiometric tests, amplification systems and habilitative procedures used by the classroom teacher. The course is restricted to students enrolled in the Faculty of Education Program for training Teachers of the Hearing Impaired. Prerequisite: Department Consent.

SPA 488 Special Topics in Speech Pathology
★3 (either term, 0-3s-0). Special Seminars. Content varies from year to year. Topics will be announced prior to registration period. The student's transcript carries title descriptive of content. May be repeated. Prerequisite: Department Consent.

SPA 489 Deafness
★3 (either term, 3-0-2). Characteristics of the deaf population with an emphasis on rehabilitative needs. An introduction to oral, aural and manual methods of communication for the deaf. Prerequisite: SPA 405.

SPA 491 Clinical Audiology
★3 (either term, 3-0-2). Examination of clinical diagnostic procedures beyond pure tone audiometry, including speech discrimination testing, impedance audiometry, site of lesion tests, and electrophysiologic tests of hearing. Discussion will also include paediatric audiology with an overview of hearing loss characteristics and personal amplification systems. Prerequisite: SPA 386.

SPA 493 Introduction to Allied Rehabilitation Professions
★1.5 (either term, 1.5-0-0). Lectures on the role and function of rehabilitation professionals by representatives from allied health disciplines.

SPA 496 Professional Perspectives
★2 (either term, 2-0-0). Promotes the transition to professional practice by facilitating student ability to develop and evaluate personal and professional perspectives on selected clinical concepts and procedures. Prerequisite: SPA 480.

SPA 499 Individual Study
★3 (either term, 3-0-0). A course intended to allow the senior undergraduate student to pursue a topic of interest in more depth than the classroom structure permits. This may take the form of directed reading, laboratory or clinical experience. Prerequisite: Department consent.

University of Alberta
Edmonton

Annuaire
1991/92 Calendar

Faculté
Saint-Jean

Attention

(1) Chaque étudiant est responsable de la totalité et de l'exactitude de son inscription. Veuillez lire l'annuaire avec soin et, en cas de doute au sujet des règlements concernant votre programme, adressez-vous à la personne compétente. (Voir article 7.)

(2) Vous servir de cet annuaire pour votre inscription. L'Université ne peut fournir plus d'un exemplaire à chaque étudiant.

(3) L'annuaire présente les principes de l'Université au moment de sa publication en ce qui concerne toute matière qui y est traitée. L'Université se réserve donc le droit de changer ce qui est décrit à l'annuaire, soit pour servir au mieux ses propres intérêts ou à cause de circonstances incontrôlables. L'Université décline formellement toute responsabilité envers toute personne ou groupe de personnes qui pourrait subir un quelconque préjudice à la suite de tels changements.

(4) Heures d'ouverture à l'Université: 8h30 à 12h, 13h à 16h30, du lundi au vendredi (excepté les jours fériés); durant les mois de mai, juin, juillet et août: 8h à 12h, 13h à 16h. Numéros de téléphone: information, campus principal - (403) 492-3113; information, Faculté Saint-Jean – (403) 465-8703.

(5) **Exigences professionnelles:** Tout étudiant ayant l'intention de poursuivre une carrière à la fin de ses études devrait contacter le secrétariat de sa faculté afin de connaître les conditions d'exercice d'une profession qui s'ajoutent à la possession d'un diplôme universitaire. Dans certains cas ces renseignements sont contenus dans l'annuaire de la faculté.

(6) Date limite pour les demandes d'admission: le 1er juin. Les autres dates limites sont indiquées à la §182.1 de l'annuaire.

(7) Tous les renseignements nécessaires pourront être obtenus aux bureaux suivants:
(toute correspondance, à l'exception de la Faculté Saint-Jean, devra porter la mention: University of Alberta, Edmonton, Alberta, T6G 2E2).

Questions académiques:
Dr. J-A Bour, Doyen, 8406, rue Marie-Anne Gaboury, Edmonton, T6C 4G9 (465-8705).
L Villeneuve, Responsable des admissions et de la gestion des dossiers, 8406, rue Marie-Anne Gaboury, Edmonton T6C 4G9 (465-8703).

Admission des étudiants canadiens, inscription, dossiers, relevés officiels, collation des diplômes:
Bureau du Registraire, Edifice de l'Administration (492-3113).

Examens et admission des étudiants étrangers:
Bureau du Registraire, Edifice de l'Administration (492-5221 et 492-4981 respectivement).

Problèmes personnels, tests d'aptitude, orientation professionnelle, problèmes dans les études, information:
Service de conseil aux étudiants, Salle 102, Athabasca Hall (492-5205).

Aide financière, prix d'excellence, et bourses:
Directeur du Bureau des Bourses, 252 Athabasca Hall (492-3495).

Résidences universitaires et logement:
Directeur, Housing and Food Services, 44 Lister Hall (492-4281).

Services aux étudiants:
Doyen des étudiants, Bureau de services aux étudiants, 234 Athabasca Hall (492-2968).

Native Affairs:
Office of Native Student Affairs, 124 Athabasca Hall (492-5677).

Paiement des frais de scolarité:
Bureau du Contrôleur, 3e étage, Edifice de l'Administration (492-3389).

Please Note

(1) Students are responsible for the completeness and accuracy of their registrations. Please read the calendar carefully and, if you are in doubt about the regulations pertaining to your program, consult the appropriate University official. (See item 7 below.)

(2) Please use this Calendar when you register. The University cannot supply more than one copy to each student.

(3) The Calendar sets forth the intention of the University at the time of its publication, with respect to all matters contained therein. The University reserves the right at any time to deviate from what appears in the Calendar, either in order to serve the best interests of the University, or because of circumstances or occurrences beyond the University's reasonable control. The University expressly denies responsibility or liability to anyone who may suffer loss or who may be otherwise adversely affected by such change.

(4) The office hours of the University are from 8:30 a.m. to 12 noon and from 1:00 p.m. to 4:30 p.m. Monday to Friday (except holidays); in May, June, July, and August the office hours are 8:00 a.m. to 12 noon, and from 1 p.m. to 4 p.m. Telephone numbers for information: Main campus - (403) 492-3113, Faculté Saint-Jean (403) 465-8703.

(5) **Professional Requirements:** Students or prospective students intending to enter a profession following graduation should contact the appropriate faculty office in order to ascertain what requirements there are for professional registration above and beyond possession of the prescribed university degree or diploma. In some cases this information is provided in the faculty calendar.

(6) Application deadline: June 1. Other deadlines are set out in §182.1 of this Calendar.

(7) Inquiries should be directed as follows:
(All addresses, except Faculté Saint-Jean, should contain the suffix: University of Alberta, Edmonton, Alberta, T6G 2E2.)

On academic matters:
Dr. J-A Bour, Dean, 8406-91 St., Edmonton T6C 4G9 (465-8705).
L Villeneuve, Officer, Admissions and Student Records, 8406 - 91 Street, Edmonton T6C 4G9 (465-8703).

On admission of Canadian students, registration, records, transcripts, convocation:
Office of the Registrar, Administration Building (492-3113)

On examinations and foreign admissions:
Office of the Registrar, Administration Building (492-5221 and 492-4981 respectively).

On personal problems, psychological assessment, career planning, academic concerns, and university information:
Student Counselling Services, 102 Athabasca Hall (492-5205).

On financial assistance, scholarships, and awards:
Director, Student Awards, 252 Athabasca Hall (492-3495).

On University residence and other housing:
Director, Housing and Food Services, 44 Lister Hall (492-4281).

On student affairs:
Dean of Students, Office of the Dean of Students,
234 Athabasca Hall (492-2968).

On native affairs:
Office of Native Student Affairs, 124 Athabasca Hall (492-5677).

On fee payment:
Office of the Comptroller, 3rd Floor, Administration Building (492-3389).

Note: Dans le présent document, le générique masculin est utilisé sans aucune discrimination et uniquement dans le but d'alléger le texte.

alendrier académique 1991-92

Toutes les dates limites mentionnées au calendrier sont indiquées par le mbole suivant *. TOUT RETARD ENTRAINERA DES PENALITES ACADEMIQUES T FINANCIERES. Les dates limites pour soumettre les demandes d'admission, de admission ou de transfert se trouvent au 14.2 de l'annuaire de l'Université (ou 2.1.1 suivant). Consulter l'annuaire de "Special Sessions" ou la §11 de l'annuaire l'Université pour le calendrier académique de l'intersession.

991

JILLET

1 L'Université entre dans sa quatre-vingt-cinquième année.
1 Fête du Canada. L'Université est fermée.
2 *Date limite de réception, au bureau du registraire, des demandes d'inscription aux examens différés du mois d'août.
5 *Date limite, pour les étudiants qui ont été priés de se retirer, d'avertir le Service de conseil aux étudiants qu'ils désirent être réadmis.
12 *Date limite pour la soumission des demandes de bourses d'immatriculation à "Student Awards Office."
*Date limite de réception, au bureau du registraire, des demandes d'inscription aux ré-examens.
31 *Date limite de réception, au bureau du registraire, des demandes d'inscription aux ré-examens spéciaux et aux examens différés spéciaux, approuvées par la Faculté.

OUT

5 Fête du patrimoine. L'Université est fermée.
6-10 Examens différés et ré-examens réguliers.
24 Session d'orientation pour les étudiants adultes.
28-30 Journées d'orientation pour les étudiants étrangers (voir aussi le 31 août).
30 *Date limite de réception, à la faculté, des demandes de remise des diplômes au niveau du baccalauréat à la Collation des grades de l'automne.
31 Les journées d'orientation pour les étudiants étrangers se continuent.

EPTEMBRE

2 Fête du travail. L'Université est fermée.
3-4 Les étudiants inscrits à des cours du premier semestre et à des cours complets de la session d'hiver confirment leur inscription en se procurant leur horaire de cours selon l'horaire publié.
5 Début des cours de la session d'hiver pour les étudiants de la Faculté Saint-Jean.
7 Ré-examens spéciaux, examens différés spéciaux.
11 ***DATE LIMITE POUR LES INSCRIPTIONS AU PREMIER SEMESTRE DE LA SESSION D'HIVER:** dernier jour pour ajouter ou enlever des cours au premier semestre ou des cours complets. Les étudiants qui se retireront après cette date et jusqu'au 15 octobre seront facturés 50% des frais pour chaque cours abandonné. (Voir 16.9.3 et 15.2.6).
12-16 Les inscriptions comme auditeur ou les changements de "credit" à "audit" par les étudiants au niveau du baccalauréat, concernant les cours du premier semestre et les cours complets, seront acceptés seulement pendant cette période. (Voir 12.2.3).
14 Journée d'orientation "tardive" pour les étudiants étrangers.
27 *Date limite pour le paiement, sans amende, des droits d'inscription à la session d'hiver (voir 15.2).

CTOBRE

4 Date limite pour le retrait des cours intensifs en éducation offerts au premier semestre de la session d'hiver à la Faculté Saint-Jean.
*Date limite pour le retrait des cours PAC, niveau 100, offerts à la première moitié du premier semestre de la session d'hiver à "Physical Education and Recreation."
14 Jour d'Action de Grâces. L'Université est fermée.
15 DATE LIMITE DES REMBOURSEMENTS AU PREMIER SEMESTRE DE LA SESSION D'HIVER: Les étudiants qui se retireront après cette date ne recevront aucun remboursement. (Voir 15.2.6).
21 Début des cours PAC, niveau 100, offerts à la deuxième moitié du 1er semestre à "Physical Education & Recreation."
21-25 Semaine de tests mi-semestriels de la session d'hiver. Aucune activité para-universitaire organisée en dehors du campus ne devrait être autorisée pendant cette semaine.
25 Fin des cours intensifs en éducation au premier semestre de la session d'hiver.
28 Début des cours de la Phase II en éducation.

OVEMBRE

11 Jour de l'Armistice. L'Université est fermée.
15 *Date limite pour les retraits des cours au premier semestre de la session d'hiver, pour les étudiants au niveau du baccalauréat (voir 16.9.3 et 15.2.6).
Date limite pour le retrait des cours PAC, niveau 100, offerts à la deuxième moitié du premier semestre de la session d'hiver à "Physical Education & Recreation."
21 Collation des diplômes, Partie I.
23 Collation des diplômes, Partie II.
25 Date limite pour le retrait des cours de la Phase II en éducation.

ECEMBRE

4 *Dernier jour de cours du premier semestre de la session d'hiver.
10-19 Examens de "mi-session" pour les étudiants de la Faculté Saint-Jean. Aucune activité para-universitaire organisée en dehors du campus ne devrait être autorisée pendant cette période. **Les examens de fin de semestre ou finals (s'il y en a) pour tous les cours donnés sur le campus à 17h00 ou plus tard auront lieu normalement pendant le dernier cours.**
13 Fin des cours de la Phase II en éducation.
25-27 Vacances de Noël. L'Université est fermée.

Academic Schedule 1991-92

All deadlines in the academic schedule are marked by the * symbol. FAILURE TO ADHERE TO THESE DEADLINES CAN RESULT IN ACADEMIC AND FINANCIAL PENALTY. Application deadlines for undergraduate admissions, readmissions, and transfers are summarized in §14.2 of the University Calendar (or §182.1.1 below). Consult the Special Sessions Calendar or §11 of the University Calendar for Intersession.

1991

JULY

1 Eighty-fifth University year begins.
1 Canada Day holiday; University buildings closed.
2 *Last day for the Registrar's Office to receive applications for deferred final examinations to be written in August.
5 *Last day for students who have been required to withdraw to notify Student Counselling Services that they are seeking readmission.
12 *Last day for submission of Matriculation Award applications to the Student Awards Office.
*Last day for the Registrar's Office to receive applicatons for reexamintations.
31 *Last day for the Registrar's Office to receive faculty-approved applications for special reexaminations and special deferred examinations.

AUGUST

5 Heritage Day; University buildings closed.
6-10 Regular reexaminations and deferred examinations.
24 Orientation for mature students begins.
28-30 Orientation for international students (see also August 31).
30 *Last day for undergraduate students to apply to their Faculty office for permission to graduate at Fall Convocation.
31 Orientation for international students continues.

SEPTEMBER

2 Labor Day; University buildings closed.
3-4 Registrants in Winter Session first-term and full-session courses confirm registration by picking up class timetables in accordance with the published schedule.
5 Winter Session classes begin for Faculté St-Jean students.
7 Special reexaminations and deferred examinations.
11 ***WINTER SESSION FIRST TERM REGISTRATION DEADLINE:** Last day to add or drop Winter Session first-term and full-session courses. Students withdrawing after this date and up to October 15 will be assessed 50% fees for withdrawn courses. (See §§16.9.3 and 15.2.6).
12-16 Registrations by undergraduate students to audit or to change from "credit" to "audit" in Winter Session first-term and full-session courses will be accepted only during this period. (See §12.2.3).
14 "Late arrival" orientation for international students.
27 *Last day for payment of Winter Session fees without penalty. (See §15.2).

OCTOBER

4 *Last day for withdrawal from education courses offered in the first half of the Winter Session first-term at Faculté Saint-Jean.
*Last day for withdrawal from Physical Education and Recreation PAC 100-level courses offered in the first half of the Winter Session first-term.
14 Thanksgiving Day; University buildings closed.
15 WINTER SESSION FIRST-TERM REFUND DEADLINE: Students withdrawing after this date will be assessed full fees. (See §15.2.6).
21 Classes begin for Physical Education and Recreation PAC 100-level courses offered in the second half of the Winter Session first-term.
21-25 Winter Session Mid-term Test Week. Off-campus University-organized extra-curricular activities will not normally be allowed during this week.
25 Seven-week education block-courses in the first-term end.
28 Phase II Education courses begin.

NOVEMBER

11 Remembrance Day holiday; University buildings closed.
15 *Last day for withdrawal from Winter Session first-term courses by undergraduate students (see §§16.9.3 and 15.2.6).
*Last day for withdrawal from Physical Education & Recreation PAC 100-level courses offered in the second half of the first-term.
21 Fall Convocation, Part I.
23 Fall Convocation, Part II.
25 Last day for withdrawal from Phase II Education courses.

DECEMBER

4 *Last day of Winter Session first-term classes.
10-19 Winter Session mid-session examinations for students in Faculté Saint-Jean. Off-campus University-organized extra-curricular activities will not normally be allowed during this period. **Mid-session or final examinations (if any) for all on-campus courses offered at 1700 hours or later are held during the last regular class period before mid-session examination week.**
13 Phase II Education courses end.
25-27 Christmas holidays; University buildings closed.

1992

JANVIER

1 Fête du Jour de l'An. L'Université est fermée.

3 *Les étudiants inscrits à des cours au deuxième semestre de la session d'hiver seulement confirment leur inscription en se procurant leur horaire. Journée d'orientation pour les étudiants étrangers.

6 Début des cours du deuxième semestre de la session d'hiver.

10 ***DATE LIMITE POUR LES INSCRIPTIONS AU DEUXIEME SEMESTRE DE LA SESSION D'HIVER:** Dernier jour pour ajouter ou enlever des cours au deuxième semestre. Les étudiants qui se retireront après cette date et jusqu'au 31 janvier seront facturés 50% des frais pour chaque cours abandonné. (Voir 16.9.3 et 15.2.6).
*Date limite pour les retraits des cours complets à la session d'hiver. (Voir 16.9.3).

13-15 Les inscriptions comme auditeur ou les changements de "credit" à "audit" par les étudiants au niveau du baccalauréat, aux cours du deuxième semestre seront acceptés seulement pendant cette période.

15 *Date limite pour le paiement sans amende à la session d'hiver du deuxième versement des droits d'inscription, ou des droits d'inscription des étudiants ne suivant des cours qu'au deuxième semestre (voir 15.2).

31 DATE LIMITE DES REMBOURSEMENTS AU DEUXIEME SEMESTRE DE LA SESSION D'HIVER: Les étudiants qui se retireront après cette date ne recevront aucun remboursement. (Voir 15.2.6).
*Date limite pour le retrait des cours PAC, niveau 100, offerts à la 1ère moitié du deuxième semestre de la session d'hiver à "Physical Education and Recreation."

FEVRIER

1 *Date limite pour la soumission, à la faculté, des demandes de remise des diplômes à la Collation des grades du printemps au niveau du baccalauréat.
*Date limite pour la soumission des demandes de bourses au niveau des études supérieures à "Student Awards Office."

5 Date limite pour le retrait des cours intensifs en éducation offerts au deuxième semestre de la session d'hiver, à la Faculté Saint-Jean.

17 Fête légale provinciale. L'Université est fermée.

18-21 Semaine d'examens mi-semestriels. Aucune activité para-universitaire organisée en dehors du campus ne devrait être autorisée pendant cette semaine.

18 Début des cours PAC, niveau 100, offerts à la deuxième moitié du deuxième semestre de la session d'hiver à "Physical Education and Recreation."

21 Fin des cours intensifs en éducation au deuxième semestre de la session d'hiver.

24 Début des cours de la Phase II et de la Phase III en éducation.

24-28 Semaine de lecture au deuxième semestre; les cours sont suspendus pendant toute la semaine sauf pour les étudiants des phases II et III en éducation lesquels suivront l'horaire du congé du printemps de la Commission Scolaire où ils sont affectés.

27-28 Journées d'orientation à l'Université.

MARS

9 Midi à 13h00. Réunion électorale de l'Union des étudiants. Les cours sont suspendus pendant une heure.

20 *Date limite pour les retraits des cours au deuxième semestre de la session d'hiver pour les étudiants au niveau du baccalauréat (voir 16.9.3 et 15.2.6). Date limite pour le retrait des cours PAC, niveau 100, offerts à la deuxième moitié du deuxième semestre de la session d'hiver à "Physical Education & Recreation."

25 Date limite pour le retrait des cours de la Phase II et de la Phase III en éducation.

AVRIL

9 *Dernier jour de cours de la session d'hiver.

14-27 Période des examens finals de la session d'hiver. **Les examens finals (s'il y a lieu) pour tous les cours donnés sur le campus à 17h00 ou plus tard auront lieu normalement pendant le dernier cours.**

16 Fin des cours de la Phase II en éducation.

17 Vendredi Saint. L'Université est fermée.

20 Lundi de Pâques. L'Université est fermée.

24 Fin des cours de la Phase III en éducation.

MAI

9 Anniversaire de la fondation de l'Université.

18 "Victoria Day." L'Université est fermée.

29 *Date limite pour la soumission des demandes de bourses au niveau du baccalauréat à "Students Awards Office."

JUIN

1-5, 8 Collation des diplômes, Parties I à VI.

30 Clôture de la quatre-vingt-cinquième année universitaire.

1992

JANUARY

1 New Year's Day; University buildings closed.

3 *Students registered in Winter Session second-term courses only confirm registration by picking up class timetables.
Orientation for international students.

6 Second term classes begin.

10 **WINTER SESSION SECOND-TERM REGISTRATION DEADLINES:**
*Last day to add or drop Winter Session second-term courses. Students withdrawing after this date and up to January 31 will be assessed 50% fees for withdrawn courses. (See §§16.9.3 and 15.2.6).
*Last day for withdrawal from Winter Session full-session courses (§16.9.3).

13-15 Registrations by undergraduate students to audit or to change from "credit" to "audit" in second-term courses will be accepted only during this period.

15 *Last day for payment without penalty of second installment of Winter Session fees, or of fees assessed for students attending only in second-term (see §15.2).

31 WINTER SESSION SECOND-TERM REFUND DEADLINE: Students withdrawing from courses after this date will be assessed full fees. (See §15.2.6).
Last day for withdrawal from second-term Physical Education and Recreation PAC 100-level courses offered in the first half of the Winter Session, second-term.

FEBRUARY

1 *Last day for undergraduate students to apply to their Faculty office for permission to graduate at Spring Convocation.
*Last day for submission of Graduate Studies Award applications to the Student Awards Office.

5 Last day for withdrawal from education courses offered in the first half of the second-term at Faculté Saint-Jean.

17 Statutory Provincial Holiday; University buildings closed.

18-21 Winter Session mid-term Test Week. Off-campus University-organized extra-curricular activities will not normally be allowed during this week.

18 *Classes begin for Physical Education and Recreation PAC 100-level courses offered in the second half of the Winter Session second-term.

21 Seven-week education block courses in the second-term end.

24 Phase II and Phase III education courses begin.

24-28 Second-term Reading Week; classes withdrawn for a full week except for Phase II and Phase III education students who will take their Spring Break as per School Board where assigned.

27-28 University Orientation Days.

MARCH

9 12 noon to 1 p.m. Students' Union Election Rally. Classes withdrawn for this hour.

20 *Last day for withdrawal from Winter Session second-term courses by undergraduate students. (See §§16.9.3 and 15.2.6).
*Last day to withdraw from second-term Physical Education and Recreation PAC 100-level courses offered in the second half of Winter Session second-term.

25 Last day for withdrawal from Phase II and Phase III Education courses.

APRIL

9 *Last day of Winter Session classes.

14-27 Winter Session final examination period. **Final examinations (if any) for all on-campus courses offered at 1700 hours or later are held during the last regular class period before examination week.**

16 Phase II Education courses end.

17 Good Friday; University buildings closed.

20 Easter Monday; University buildings closed.

24 Phase III Educaiton courses end.

MAY

9 Charter Day.

18 Victoria Day; University buildings closed.

29 *Last day for submission of Undergraduate Award applications to the Student Awards Office.

JUNE

1-5, 8 Spring Convocation, Parts I to VI.

30 Eighty-fifth University year ends.

Faculté Saint-Jean

181.2 Renseignements généraux

181.2.1 Note historique et buts

Le Juniorat Saint-Jean a été fondé en 1908, l'année même où a été inaugurée la Faculté des Arts et des Sciences de l'Université de l'Alberta.

Les deux institutions ont le même âge, mais ont évolué de façon très différente. Le Collège est devenu Collège Universitaire Saint-Jean, partie intégrante et secteur bilingue de l'Université de l'Alberta, 62 ans après sa fondation, le 27 novembre 1970. Le statut officiel de Faculté lui fut accordé en septembre 1977 et sa dénomination devint "Faculté Saint-Jean" en mai 1978.

La Faculté Saint-Jean se définit aujourd'hui par son statut universitaire de langue française. Elle dessert les étudiants capables de poursuivre en français des études universitaires. La Faculté se donne pour mission de répondre aux besoins particuliers des francophones de l'Ouest du Canada.

Tout centre universitaire se doit d'enrichir dans la mesure du possible la vie non seulement intellectuelle mais culturelle de sa clientèle. Aussi, la Faculté Saint-Jean se voit-elle la mission particulière de contribuer à l'enrichissement culturel de ses étudiants aussi bien que de l'ensemble de la vie française en Alberta. Par cet engagement (concrétisé dans le développement de Saint-Jean) l'Université espère promouvoir la culture française dans l'Ouest du Canada.

181.2.2 Services

(1) **Bibliothèque:** Le service des bibliothèques de l'Université de l'Alberta met à la disposition des professeurs et des étudiants de la Faculté Saint-Jean, une riche bibliothèque contenant des oeuvres dans les deux langues. C'est une bibliothèque de consultation et de prêts. Tous les étudiants ont également accès aux bibliothèques du campus principal de l'Université de l'Alberta.

(2) **Centre de documentation pédagogique:** Pour les étudiants et professeurs en pédagogie, la Faculté offre également un service de prêts et de consultation par l'entremise du Centre de Documentation pédagogique (matériel en français uniquement).

(3) **Education permanente:** L'Education permanente de la Faculté Saint-Jean répond aux besoins des adultes francophones et francophiles albertains en offrant, sur place et/ou à distance, des cours d'intérêt général, de français langue première, de français langue seconde, d'alphabétisation, et de formation technique et professionnelle. Un service de diagnostic et de formation est disponible sur demande. Sous la direction des conseils d'administration et en collaboration avec les Alberta Vocational Centres, des centres d'éducation permanente régionaux ont été établis pour servir les besoins des francophones dans les régions du Nord-Ouest (tél: Falher 837-2063) de Calgary (tél: Calgary 297-4023), du Nord-Est (tél: St-Paul 645-6214). Pour de plus amples renseignements, prière de contacter l'Education permanente au 468-1582.

(4) **Service d'orientation:** Les étudiants de la Faculté ont accès à un Service d'orientation spécialisé (Students Counselling Services). Le service offre à tous les étudiants une aide personnelle gratuite dans les domaines suivants: aptitudes à l'étude, plan de carrière, problèmes personnels et information sur l'Université.

(5) **Résidence**: La résidence est conçue et organisée comme un service qui complète l'expérience éducative offerte par la Faculté Saint-Jean. Les étudiants qui demandent à être admis en résidence s'engagent à en accepter les buts, c'est-à-dire, à vivre dans un milieu francophone, à étudier sérieusement, et à faire preuve d'esprit communautaire. La résidence est située sur le campus de la Faculté et peut recevoir environ 80 étudiants. Pour de plus amples renseignements, s'adresser au Service des Résidences, 44 Lister Hall (492-4281).

Les étudiants ne désirant pas vivre en résidence peuvent trouver des appartements et des chambres à proximité de la Faculté.

(6) **Transport**: La Faculté Saint-Jean est située au 8406, rue Marie-Anne Gaboury, à environ six kilomètres à l'est du campus principal de l'Université de l'Alberta. Les étudiants peuvent cependant suivre des cours à la fois à la Faculté Saint-Jean et dans d'autres facultés de l'Université grâce à un service de transport entre les cours.

182 Règlements de la Faculté

182.1 Admission

182.1.1 Demande d'admission

La procédure d'admission est indiquée à la §14 de l'annuaire de l'Université.

Aucune décision définitive quant à l'admission ne peut être rendue avant l'examen de tous les certificats et relevés de notes. La Faculté reçoit les étudiants et leur donne des conseiis sur les programmes d'étude, mais toute décision reste **officieuse et provisoire** tant que les documents officiels nécessaires n'ont pas été reçus et évalués.

Dates limites

Demandes d'admission	le 1er juin
Clôture du dossier d'admission	le 1er août
Demandes de réadmission (étudiants des autres facultés)	le 1er août
Clôture du dossier de réadmission (étudiants des autres facultés)	le 1er août
Demandes de réadmission (anciens étudiants)	fin de la période d'inscription

181.2 General Information

181.2.1 Historical Note and Aims

Juniorat Saint-Jean was founded in 1908, the same year as the inauguration of the Faculty of Arts and Sciences of The University of Alberta.

Though of the same age, the two institutions have evolved in very differing fashions. The Collège became Collège Universitaire Saint-Jean, an integral part and a bilingual sector of the University of Alberta, 62 years later on November 27, 1970. Official Faculty status was granted in September 1977, and the name changed to Faculté Saint-Jean in May 1978.

Today, Faculté Saint-Jean is characterized by its French-language university status. It serves students capable of pursuing university studies in French. The Faculté has taken on the mission of serving the particular needs of Francophones in Western Canada.

It is the duty of every university to enrich, as much as possible, not only the intellectual but also the cultural life of its students. Therefore Faculté Saint-Jean finds itself with the special mission of contributing to the cultural enrichment of its students as well as of the whole of French life in Alberta. Through this commitment (which has taken concrete form in the development of Saint-Jean) the University hopes to foster French culture in Western Canada.

181.2.2 Services

(1) **Library Facilities:** The University of Alberta library system makes available to its professors and to its students a library which is well stocked with books in both languages intended for lending or consultation on the premises. All students also have access to the libraries on the main campus of the University of Alberta.

(2) **Centre de documentation pédagogique:** The Faculté also offers to education students and professors the services of the "Centre de documentation pédagogique" for consultation and loan of its French language materials.

(3) **Education permanente:** "L'Education permanente" (Continuing Education) is responsible for teleconference courses and courses of French as a second language. Under the supervision of administrative councils and in cooperation with the Alberta Vocational Centres, Continuing Education Centres have been established to serve the needs of the francophone population in the regions of Peace River (tel: Falher 837-2063) of Calgary (tel: Calgary 297-4023), of the North-East (tel: St. Paul 645-6214). For further information, please contact l'Education permanente (468-1582).

(4) **Counselling:** Faculté Saint-Jean students have access to the University Students Counselling Services which provides assistance in the following areas: study skills, vocational planning, personal problems and university information.

(5) **Residence:** The residence is a service which complements the educational experience offered by Faculté Saint-Jean. Students who ask for admission to the residence commit themselves to the active pursuit of the goals of the residence, namely, to live and study in a French environment. The residence is on the Faculté campus and can accommodate approximately 80 students. More detailed information may be obtained at Housing and Food Services, 44 Lister Hall (492-4281).

Students who are not interested in living in residence can find rooms in private homes or in apartments near the Faculté Saint-Jean campus.

(6) **Mini-bus service**: Faculté Saint-Jean is located at 8406 - 91 St. (about six kilometres east of the main University campus). This does not preclude the possibility of students following courses at Faculté Saint-Jean and in another faculty of the University, since a mini-bus service is provided between the courses.

182 Regulations of the Faculté

182.1 Admission

182.1.1 Application for Admission

Application procedure is explained in §14 of the University Calendar.

No definite and final ruling concerning admission can be given until all certificates and transcripts of standing have been reviewed. The Faculté consults with and advises students regarding programs of study, but all decisions are **unofficial and tentative** until official documents have been received and evaluated.

Deadlines for Application

Admission Application	June 1
Admission Documents	August 1
Readmission Application (internal transfers)	August 1
Readmission Documents (internal transfers)	August 1
Readmission Application (previous students)	end of registration

182.1.2 Conditions d'admission

Pour être admis à la Faculté Saint-Jean, un candidat de l'Alberta doit normalement avoir obtenu un minimum de 70% de moyenne dans cinq matières appropriées de XIIe année, incluant une note minimale de 70% en French 30 ou l'équivalent; **ou**, un minimum de 65% de moyenne dans cinq matières appropriées de XIIe année incluant Langue et Littérature 30, ou Français 30, ou French Language Arts 30, ou l'équivalent.

Le détail des conditions d'admission aux divers programmes universitaires figure à la §13 de l'annuaire de l'Université. Pour de plus amples renseignements, s'adresser au Bureau des admissions, Faculté Saint-Jean.

Programme du Baccalauréat-ès-Arts
- French 30, 31, Langue et Littérature 30, Français 30, ou French Language Arts 30
- English 30
- Une matière du groupe A ou B* (Etudes sociales 30 est conseillé)
- Une matière du groupe C (Sciences; Mathématiques 30 est conseillé)
- Une matière du groupe A (Humanités) ou C (Sciences)

Programme du Baccalauréat en Education
- French 30, 31, Langue et Littérature 30, Français 30, ou French Language Arts 30
- English 30
- Une matière du groupe A (Humanités) ou C (Sciences)
- Une matière du groupe A (Humanités) ou C (Sciences)
- Une autre matière de XIIe année comportant 5 crédits

Programme du Baccalauréat en Education/Baccalauréat-ès-Sciences
- French 30, 31, Langue et Littérature 30, Français 30, ou French Language Arts 30
- Mathématiques 30
- Biologie 30
- Deux matières du Groupe C parmi: Chimie 30, Mathématique 31, et Physique 30.

Programme du Baccalauréat-ès-Sciences
- French 30, 31, Langue et Littérature 30, Français 30, ou French Language Arts 30
- English 30
- Mathématiques 30
- Une matière du groupe C (Sciences)
- Une matière du groupe C (Sciences)

*Voir §182.1.3 pour le détail des groupes

182.1.3 Classification des cours requis pour l'admission

Les matières de XIIe année acceptées par la Faculté se classent dans les trois groupes suivants:

Groupe A (Humanités)
- Etudes sociales 30
- Langue (autre que français ou anglais)

Groupe B (Beaux-Arts)
- Art 30
- Art 31
- Commercial Art 35
- Visual Communications 32A, B, ou C
- Art dramatique 30
- Musique 30
- Musique 31
- Performing Arts 35 A, B, ou C

Groupe C (Sciences)
- Biologie 30
- Chimie 30
- Mathématiques 30
- Mathématiques 31
- Physique 30

182.1.4 Déficience lors de l'admission

Déficience en anglais: Un étudiant non-anglophone ne présentant pas de cours équivalent à English 30 lors de son admission doit remédier à cette déficience. L'étudiant du programme combiné BEd/BSc n'est pas tenu à cette exigence. Les critères et les modalités sont précisés à la §182.1.8(1) et (2).

182.1.5 Adultes ne répondant pas aux conditions d'admission

Les candidats âgés de 24 ans ou plus, qui ne répondent pas aux conditions d'admission officielles, peuvent solliciter la permission de s'inscrire dans un programme à la Faculté Saint-Jean. Ils doivent être résidents de l'Alberta, du Yukon, ou des Territoires du Nord-Ouest depuis au moins douze mois en date du premier jour de cours de la session à laquelle ils demandent d'être admis.

Critères d'admission:

(1) Les candidats doivent avoir réussi un des cours suivants: French 21, French 30, French 31, Langue et Littérature 30, Français 30, French Language Arts 30, ou faire preuve d'un niveau de compétence équivalent dans la langue française.

(2) Les candidats au programme du BA et du BEd doivent avoir réussi, en plus du français, un des cours suivants: Etudes sociales 30, Biologie 30, Chimie 30, Physique 30, Mathématiques 30 ou 31 (ou leurs équivalents).

(3) Les candidats du programme combiné BEd/BSc doivent avoir réussi, en plus du français: Mathématiques 30, Biologie 30, et un des cours suivants: Chimie 30, Physique 30 (ou leurs équivalents).

182.1.2 Admission Requirements

Every applicant for admission from the high schools of Alberta must normally possess: an average of at least 70% on five appropriate Grade XII subjects including a minimum grade of 70% in French 30 or equivalent; **or**, an average of at least 65% on five appropriate Grade XII subjects including Langue et Littérature 30 or Français 30, or French Language Arts 30, or equivalent.

Detailed admission requirements for the various university programs are set out in §13 of the University Calendar. Further information may be obtained from the Office of Admissions, Faculté Saint-Jean.

Bachelor of Arts Program
- French 30, 31, Langue et Littérature 30, Français 30, or French Language Arts 30
- English 30
- Subject from Group A or B* (Social Studies 30 recommended)
- Subject from Group C (Sciences; Mathematics 30 recommended)
- Subject from Group A (Humanities) or C (Sciences)

Bachelor of Education Program
- French 30, 31, Langue et Littérature 30, Français 30, or French Language Arts 30
- English 30
- Subject from Group A (Humanities) or C (Sciences)
- Subject from Group A (Humanities) or C (Sciences)
- Another Grade XII subject carrying a weight of five credits

Bachelor of Education/Bachelor of Science Program
- French 30, 31, Langue et Littérature 30, Français 30, or French Language Arts 30
- Mathematics 30
- Biology 30
- Two Subjects from Group C (Chemistry 30, Mathematics 31, and Physics 30)

Bachelor of Science Program
- French 30, 31, Langue et Littérature 30, Français 30, or French Language Arts 30
- English 30
- Mathematics 30
- Subject from Group C (Sciences)
- Subject from Group C (Sciences)

* See §182.1.3 for the different classifications.

182.1.3 Classification of Matriculation Subjects

Acceptable Grade XII subjects have been placed in three groups, as follows:

Group A (Humanities)
- Social Studies 30
- Language (other than English or French)

Group B (Fine Arts)
- Art 30
- Art 31
- Commercial Art 35
- Visual Communications 32 A, B, or C
- Drama 30
- Music 30
- Music 31
- Performing Arts 35 A, B, or C

Group C (Sciences)
- Biology 30
- Chemistry 30
- Mathematics 30
- Mathematics 31
- Physics 30

182.1.4 Admission Deficiency

Deficiency in English: A non-English speaking student with no equivalence for English 30 upon admission must make up this deficiency. Students from the combined BEd/BSc program are not required to make up this deficiency. See §182.1.8(1) and (2) for details.

182.1.5 Non-Matriculated Applicants

Applicants 24 years and over who lack formal matriculation may seek permission to enroll in a program at Faculté Saint-Jean. They must be domiciled in Alberta, the Yukon or the Northwest Territories for at least 12 months prior to the first day of classes of the session in which admission is sought.

Admission Criteria:

(1) Candidates must have successfully completed one of the following courses: French 21, French 30, French 31, Langue et Littérature 30, Français 30, French Language Arts 30, or demonstrate an equivalent level of competence in the French Language.

(2) In addition to the French language requirement, applicants for the BA and BEd programs must have successfully completed one of the following courses: Social Studies 30, Biology 30, Chemistry 30, Physics 30, Mathematics 30 or 31 (or their equivalents).

(3) In addition to the French language requirement, applicants to the combined BEd/BSc program must have successfully completed Mathematics 30, Biology 30, and one of the following courses: Chemistry 30 or Physics 30.

(4) Les candidats au programme du BSc doivent avoir réussi, en plus du français: Mathématiques 30 (ou l'équivalent); deux cours en science parmi les suivants: Biologie 30, Chimie 30, Physique 30, Mathématiques 31 (ou leurs équivalents).

(5) Les candidats doivent avoir obtenu un minimum de 65% de moyenne dans les matières requises.

(6) Les candidats au programme du BEd et au programme combiné du BEd/BSc devraient entrer en communication avec le Vice-Doyen de la Faculté Saint-Jean (tél: 465-8700) pour une entrevue.

182.1.6 Admission des étudiants d'une autre province

(1) **Niveaux:** Les étudiants d'une autre province canadienne dont le travail accompli correspond aux niveaux indiqués ci-dessous sont susceptibles d'être admis à la Faculté Saint-Jean, à condition qu'ils aient satisfait aux exigences des programmes choisis.

a. **Ontario:** Diplôme de treizième année.

b. **Terre-Neuve:** Réussite de la douzième année ou d'une année d'études à l'Université Memorial.

c. **Québec:** Réussite de la première année du programme de CEGEP et obtention de résultats satisfaisants dans les matières requises.

d. **Autres provinces:** Diplôme de douzième année.

(2) **Equivalences:** La Faculté Saint-Jean se réserve le droit de juger de l'équivalence et de la classification des cours suivis dans une autre province. Pour prendre un exemple hypothétique, un étudiant du Québec qui réussit la première année du programme du CEGEP et qui présente des cours complets (c'est-à-dire, d'une durée de deux semestres), de Français, d'Histoire, de Mathématiques, de Biologie, de Chimie et de Musique serait jugé, pour fins d'admission, comme ayant des cours équivalents à Français 30, Études sociales 30, Mathématiques 30, Biologie 30, Chimie 30, et Musique 30.

182.1.7 Admission des étudiants d'un autre pays

Voir §13.6 de l'annuaire de l'Université. Pour plus de renseignements, s'adresser au Bureau du Registraire.

182.1.8 Admission d'autres institutions post-secondaires ou transfert d'autres facultés

Les candidats demandant une admission ou un transfert en troisième année du Baccalauréat en Education devront réussir le Test de compétence orale et écrite en français. Une note de 5 dans la partie orale ainsi que dans la partie écrite est exigée. Ce test peut être administré à distance. Pour de plus amples renseignements, veuillez vous adresser au Bureau des admissions.

182.1.9 Admission au BEd/AD

Les critères d'admission au BEd/AD sont les suivants:

(1) Etre détenteur d'un premier diplôme universitaire qui comprend une préparation adéquate dans les domaines de spécialisations pertinents au programme de l'éducation élémentaire ou secondaire. Toute déficience déterminée par le Bureau des admissions doit être comblée avant l'inscription aux cours de l'année professionnelle.

Elémentaire et préscolaire:
Les candidats devront avoir dans leur premier diplôme l'équivalent de 36 crédits ainsi répartis: six crédits par catégorie dans trois des catégories suivantes: Humanités, Sciences Sociales, Beaux-Arts, Sciences et 18 crédits choisis librement parmi ces catégories.

Secondaire:
Les candidats devront avoir dans leur premier diplôme l'équivalent de 30 crédits dans une des spécialisations majeures offertes à la Faculté. En plus, les étudiants devront avoir 12 crédits pertinents à leur spécialisation mineure.

(2) Avoir un niveau élevé de compétence en français démontré par la réussite du Test de compétence orale et écrite en français. Une note de 5 dans la partie orale ainsi que dans la partie écrite est exigée. Ce test peut être administré à distance. Pour de plus amples renseignements, veuillez vous adresser au Bureau des admissions.

182.1.10 Admission avec équivalences universitaires

Un étudiant qui veut passer d'une autre université à la Faculté Saint-Jean peut être admis avec équivalences universitaires, aux conditions suivantes:

(1) Que les cours complétés dans l'institution qu'il quitte n'aient pas servi à l'obtention d'un diplôme;

(2) Que ces cours soient jugés acceptables dans le programme auquel s'inscrit l'étudiant;

(3) **Que le nombre maximum de crédits transférés ne dépasse pas 60 crédits pour le BEd; et ne dépasse pas 18 crédits pour le BEd/AD.**

(4) In addition to the French language requirement, applicants to the BSc program should provide credit in Mathematics 30 (or equivalent) and credit in two of the following: Biology 30, Chemistry 30, Physics 30 or Mathematics 31 (or any two corresponding equivalents).

(5) Applicants must possess a minimum average of 65% in the required subjects.

(6) Applicants for the BEd program and for the combined BEd/BSc program should communicate with the Associate Dean of Faculté Saint-Jean (tel: 465-8700) for an interview.

182.1.6 Admission From Another Province

(1) **Standards:** Students from another Canadian province who have successfully completed work at the standards shown below will be considered for admission to Faculté Saint-Jean provided they present subjects equivalent to the requirements of the appropriate programs.

a. **Ontario** - Grade XIII graduation.

b. **Newfoundland** - Grade XII graduation or successful completion of one year at Memorial University.

c. **Quebec** - Successful completion of the first year of the CEGEP academic program with satisfactory performance in appropriate subjects.

d. **Other provinces** - Grade XII graduation.

(2) **Equivalences:** Faculté Saint-Jean has the right to judge the equivalent values and the classification of courses taken in other provinces. For example, a student from Québec who has successfully completed a first year in the CEGEP program and who submits a full course (that is, two semester courses) in French, in History, in Mathematics, in Biology, in Chemistry and in Music would be considered for admission purposes as having French 30, Social Studies 30, Mathematics 30, Biology 30, Chemistry 30, and Music 30.

182.1.7 Admission From Outside Canada

See §13.6 of the University Calendar. For further information, please contact the Office of the Registrar.

182.1.8 Admission from other Post-Secondary Institutions or transfer from other Faculties

Applicants who wish to be admitted in the third year of the Bachelor of Education program will be required to successfully complete a test of competency (oral and written) in French. A grade of 5 must be obtained in each portion of the test. The test may be taken off-campus. For further information, please contact the Office of Admissions at Faculté Saint-Jean.

182.1.9 Admission to the BEd/AD Program

Admission will be on the basis of:

(1) An approved degree which includes adequate preparation in an area of teaching concentration relevant to elementary or secondary education programs. Students seeking admission to the BEd/AD program should be aware that any deficiencies as determined by the Office of Admissions must be lifted before they can register in the courses of the "professional year."

Elementary and Early Childhood:
Candidates seeking admission to the BEd/AD elementary and early childhood routes are required to present the equivalent of 36 units of course weight in the following areas: six units of course weight per category in three of the following categories: Humanities, Social Sciences, Fine Arts, Sciences, and 18 additional units of course weight in any of the categories.

Secondary:
Candidates seeking admission to the BEd/AD secondary route are required to present the equivalent of 30 units of course weight in one of the major specializations offered at the Faculté. As well, candidates must have the equivalent of 12 units of course weight in a second area of specialization designated as a minor.

(2) Competence in the French language. This will be demonstrated by the successful completion of a test of competency (oral and written) in French. A grade of 5 must be obtained in each portion of the test. The test may be taken off-campus. For further information, please contact the Office of Admissions at Faculté Saint-Jean.

182.1.10 Admission with Advanced Standing

Students who wish to transfer to Faculté Saint-Jean from another university may be admitted with advanced standing on the following conditions:

(1) That the courses completed at the former institution have not been applied towards a degree;

(2) That these courses are acceptable in the program to which the student is admitted;

(3) **That no more than 60 units of course weight be granted for the BEd or 18 units of course weight for the BEd/AD.**

182.1.11 Admission au programme de diplôme de perfectionnement en éducation

Les critères d'admission au programme de diplôme sont les suivants:

(1) Etre détenteur d'un diplôme du 1er cycle avec une moyenne de 6,0 au cours des deux dernières années d'étude ou l'équivalent d'un établissement reconnu;

(2) Etre détenteur d'un certificat professionnel d'enseignement;

(3) Obtenir une note de 6 ou plus à un test de compétence linguistique comprenant une évaluation linguistique du français oral et écrit.

Ceux dont la connaissance du français est jugée insuffisante devront prendre des cours de français avant de demander leur admission au programme.

182.1.12 Compétence dans la langue anglaise

(1) **Règlements généraux de l'Université de l'Alberta:** L'anglais est la langue d'enseignement principale dans toutes les facultés sauf à la Faculté Saint-Jean, où la langue d'enseignement principale est le français. Par conséquent, tous les candidats qui demandent l'admission à des facultés autres que la Faculté Saint-Jean doivent posséder une connaissance adéquate de l'anglais oral et écrit pour être admis à l'Université de l'Alberta. Les adultes qui ne répondent pas aux conditions d'admission et les étudiants libres sont tenus aux mêmes exigences que les autres candidats.

Les candidats qui demandent leur admission à la Faculté Saint-Jean ne sont pas tenus de démontrer leur compétence dans la langue anglaise avant d'être admis. Cependant, ils doivent démontrer cette compétence avant de pouvoir obtenir un diplôme de l'Université de l'Alberta. Les étudiants du programme combiné BEd/BSc ne sont pas tenus á cette condition.

Quel que soit leur pays d'origine ou leur statut de citoyenneté, tous les candidats, sauf ceux de la Faculté Saint-Jean, devront démontrer leur compétence dans la langue anglaise avant d'être admis. Ils peuvent la démontrer de différentes façons:

a. Par la réussite de six années d'études en anglais à temps plein au Canada, ou l'équivalent dans un autre pays où l'anglais est la langue principale. Ces études doivent inclure une 12e année de l'Alberta, ou un niveau équivalent, et peuvent être une combinaison d'études secondaires et post-secondaires.

b. Par la réussite de l'équivalent de six années d'études à temps plein dans une école/institution du Canada où la langue d'enseignement est autre que l'anglais, mais où le niveau de la compétence en anglais requis pour obtenir un diplôme est équivalent à celui des écoles/institutions anglaises du Canada.

c. Une note de 80% ou plus en "English" 30 de l'Alberta, à l'examen du Ministère seulement, ou une note de 6 ou 7 au cours d'anglais de niveau avancé du Baccalauréat International, ou une note de 5 dans le cours d'anglais (Language and Composition: Literature and Composition) du programme "Advanced Placement".

d. Etre détenteur d'un premier diplôme d'une université accréditée où l'anglais est la langue d'enseignement dans un pays où l'anglais est la langue principale.

e. Par la réusite du TOEFL (Test of English as a Foreign Language) avec une note de 580 ou la réussite du MELAB (Michigan English Language Assessment Battery) avec une note de 90. La réussite du TOEFL doit inclure une note d'au moins 50 dans chacune des trois composantes.

Note: L'audition des requêtes d'exemption du TOEFL au niveau du baccalauréat est sous l'autorité du Registraire qui agit au nom des facultés. Les exemptions seront basées sur l'évaluation de la compétence en anglais de l'étudiant d'après une pétition écrite et une entrevue personnelle. Veuillez adresser vos demandes et pétitions au Registraire adjoint, Admissions, Bureau du Registraire.

(2) **Règlements de la Faculté Saint-Jean:** Les candidats qui demandent leur admission à la Faculté Saint-Jean ne sont pas tenus de démontrer leur compétence dans la langue anglaise. Toutefois, les candidats qui sont admis à la Faculté Saint-Jean et qui n'ont pas démontré cette compétence (selon les règlements généraux de l'Université notés ci-dessus) devront se soumettre à la condition suivante:

- la réussite d'un des cours ANGL 100, 110, 113, **OU**
- la réussite du TOEFL (Test of English as a Foreign Language) avec une note de 580 et une note d'au moins 50 dans chacune des trois composantes, **OU**
- la réussite du MELAB (Michigan English Language Assessment Battery) avec une note de 90.

Les étudiants du BEd peuvent aussi démontré cette compétence par la réussite de 18 crédits dont la langue d'enseignement est l'anglais et les étudiants du BEd/AD par la réussite de six crédits dont la langue d'enseignement est l'anglais.

Les étudiants du programme combiné BEd/BSc ne sont pas tenus de se soumettre à cette condition.

Il est déconseillé aux étudiants avec une déficience en anglais de s'inscrire à un cours de littérature anglaise avant d'avoir remédié á cette déficience. De plus amples renseignements concernant la compétence dans la langue anglaise peuvent être obtenus du Bureau des admissions á la Faculté Saint-Jean.

182.1.11 Admission to the Diploma Program in Education

Admission will be on the basis of:

(1) An undergraduate degree with an average of 6.0 in the last two years of undergraduate work or an equivalent qualification from a recognized institution.

(2) A Professional Teaching Certificate.

(3) The successful completion with a grade of 6 or more of a French language proficiency examination which will include both oral and written components.

Those wishing to enter into the Diploma Program but whose knowledge of the French language is too weak will be advised to take courses in French prior to applying for admission in the Program.

182.1.12 English Language Proficiency for Admission

(1) **General University Requirements**: English is the primary language of instruction in all faculties except Faculté Saint-Jean, where French is the primary language. Therefore, all applicants to undergraduate faculties other than Faculté Saint-Jean must possess an adequate knowledge of written and spoken English as a prerequisite to admission. For example, non-matriculated applicants and unclassified program students must comply with the requirement along with other applicants.

Applicants to Faculté Saint-Jean need not demonstrate proficiency in English prior to admission being granted. However, they must demonstrate proficiency in English before they may be granted a degree from this institution. Students from the combined BEd/BSc program are not required to demonstrate their proficiency in English.

Regardless of country of origin or citizenship status, all applicants except for Faculté Saint-Jean will be required to demonstrate proficiency in the English language prior to admission. This demonstration may take any one of several forms:

a. Six full years of education in English in Canada or the equivalent in another country where English is the principal language. Such education must include the Alberta Grade 12, or equivalent level, and can be in a combination of secondary and post-secondary training.

b. Successfull completion of the equivalent of six years of full-time instruction in a school/institution in Canada in which the major language of instruction is other than English, but where the level of English proficiency required for graduation is equivalent to that in English language schools/institutions in Canada.

c. A grade of 80% or better on the diploma examination portion (only) of the Alberta English 30 course, or a grade of 6 or 7 on the International Baccalaureate Higher Level English course, or a grade of 5 on the Advanced Placement English (Language Composition: Literature and Composition) course.

d. Graduation from a degree program offered by an accredited university at which English is the primary language of instruction and in a country where English is the principal language.

e. A score of at least 580 on the Test of English as a Foreign Language (TOEFL) or a score of at least 90 on the Michigan English Language Assessment Battery (MELAB). The TOEFL results must include a score of at least 50 on each of the three components.

Note: Authority to hear petitions and to waive the requirement for undergraduate applicants to write the TOEFL resides with the Registrar acting on behalf of the faculties. Exemptions will be based on assessments of the applicant's English language proficiency as evidenced by a written petition and a personal interview. Please direct enquiries and petitions to the Associate Registrar, Admissions, Office of the Registrar.

(2) **Faculté Saint-Jean requirements**: Candidates for admission to Faculté Saint-Jean are not required to demonstrate proficiency in the English language as a prerequisite for admission. However, those candidates who are admitted at Faculté Saint-Jean and who have not demonstrated proficiency in English (as defined by the General University Requirements above) will be required to meet one of the following conditions:

- the satisfactory completion of ANGL 100, or 110, or 113, **OR**
- a score of at least 580 on the Test of English as a Foreign Language (TOEFL) with a score of not less than 50 in each of the three components, **OR**
- a score of at least 90 on the Michigan English Language Assessment Battery (MELAB).

BEd students may also demonstrate proficiency in the English language by the satisfactory completion of 18 units of course weight which have English as the language of instruction and BEd/AD students by the satisfactory completion of six units of course weight.

Students from the combined BEd/BSc program are not required to demonstrate their proficiency in English.

It is also not advisable for students with a deficiency in English to register in an English literature course before having cleared the deficiency in English. Further information on these language requirements is available from the Office of Admissions at Faculté Saint-Jean.

182.2 Inscriptions

182.2.1 Renseignements généraux

Un étudiant inscrit à une autre faculté de l'Université de l'Alberta peut suivre des cours à la Faculté Saint-Jean. Cette permission ne serait pas accordée à ceux qui ne désireraient suivre que FRANC 160 ou 165.

Procédure d'inscription

La procédure normale est indiquée à la §15 de l'annuaire de l'Université.

Changement d'inscription

Les changements d'inscription aux cours peuvent être faits par les étudiants jusqu'à la fin de la période d'inscription (voir le calendrier académique).

182.3 Classification des cours

La classification des cours offerts à la Faculté Saint-Jean est la suivante:

Beaux-Arts

Art Dramatique et Arts de la Scène; Etudes classiques 367, 368; Musique.

Humanités

Anglais; Canadien-français; Etudes classiques (sauf 367, 368); Etudes de la religion; Français; Histoire (fait aussi partie des Sciences sociales mais un cours ne peut être compté que dans une seule des deux catégories); HUME; Philosophie.

Sciences Sociales

Anthropologie; Economie; ETCAN 421; Géographie (sauf 130, 131); Histoire (fait aussi partie des Humanités, mais un cours ne peut être compté que dans une seule des deux catégories); Linguistique; Linguistique romane; PSYCE 105, 223, 233, 241, 339, 498; Science politique; SCSOC; Sociologie.

Sciences

(1) **Avec Laboratoire:** Biologie; Botanique; Chimie; Entomologie; Géographie 130, 131; Géologie; Informatique; PHYSQ 141, 143, 294; PSYCE 208

(2) **Sans Laboratoire:** Mathématiques; PHYSQ 271, 301; PSYCE 104, 275, 281, 372, 496.

Sciences de l'éducation

Administration scolaire; Andragogie; Média en éducation; Curriculum et méthodologie; Enseignement pratique; Evaluation en éducation; Fondements de l'éducation; Psychologie de l'éducation.

Autres

Comptabilité; FA MI 333; EDPHQ 400.

182.4 Exigences académiques

(1) Pendant l'année universitaire un étudiant ne peut s'inscrire à plus de 30 crédits ou l'équivalent, à moins d'obtenir l'autorisation du Doyen. Normalement, cette autorisation ne sera pas accordée à l'étudiant dont la moyenne de ses 30 derniers crédits est inférieure à 7,5 ou s'il est inscrit aux phases II ou III de l'enseignement pratique.

(2) Durant sa première année, un étudiant ne peut suivre des cours "senior" qu'avec la permission du Doyen.

(3) Les étudiants inscrits au BEd de 4 ans ne peuvent pas suivre des cours de formation pédagogique durant la 1ère année du programme.

(4) La note de chaque cours tient compte non seulement de l'examen final, mais aussi de l'ensemble des examens, des devoirs et des travaux faits au cours de l'année.

(5) **Exclusion de l'examen final:** Un étudiant peut se voir refuser la permission de passer l'examen final dans un cours, avec le consentement du Doyen, dans les circonstances suivantes:

a. l'étudiant n'a pas complété une grande partie des travaux écrits qui lui avaient été assignés;

b. l'étudiant s'est absenté fréquemment d'un cours dans lequel la participation est essentielle (cours d'art dramatique, français (langue), enseignement pratique, travaux de laboratoire, etc.);

c. le professeur doit informer les étudiants, au début du cours, de l'existence du règlement (voir b. ci-dessus), et il doit aussi les informer du pourcentage d'absences qui résulterait en l'exclusion de l'examen final.

(6) **Ré-inscription dans les cours:**

a. Les étudiants ne peuvent pas répéter un cours universitaire qu'ils ont déjà réussi ou pour lequel ils ont reçu des crédits, à moins de raisons jugées valables et ratifiées par le doyen de la faculté dans laquelle ils sont inscrits.

b. Les étudiants ne peuvent se ré-inscrire plus d'une fois dans un cours échoué, soit pour crédit ou soit comme auditeur, à moins de raisons jugées valables par le doyen de la faculté dans laquelle ils sont inscrits.

c. Les étudiants ne peuvent se ré-inscrire plus d'une fois, soit pour crédit ou soit comme auditeur, dans un cours où ils ont reçu une note finale de "W",

182.2 Registration

182.2.1 General Information

A student registered at the University of Alberta in another faculty may take courses offered at Faculté Saint-Jean. Permission would not be granted to students wishing to take only FRANC 160 or 165.

Registration Procedure

The normal procedure for registration is that set out in §15 of the University Calendar.

Change of Registration

Changes of registration may be made by students until the end of the registration period (see the Academic Schedule).

182.3 Classification of Courses

The courses offered at Faculté Saint-Jean are classified as follows:

Fine Arts

Art dramatique and Arts de la scène; Etudes classiques 367, 368; Musique.

Humanities

Anglais; Canadien-français; Etudes classiques (except 367, 368); Etudes de la religion; Français; Histoire (can also be considered as Social Sciences but may be counted in only one of the classifications); HUME; Philosophie.

Social Sciences

Anthropologie; Economie; ETCAN 421; Géographie (except 130, 131); Histoire (can also be considered as Humanities but may be counted in only one of the classifications); Linguistique; Linguistique romane; PSYCE 105, 223, 233, 241, 339, 498; Science politique; SCSOC; Sociologie.

Sciences

(1) **With laboratory**: Biologie, Botanique, Chimie, Entomologie, Géographie 130, 131; Géologie; Informatique; PHYSQ 141, 143, 294; PSYCE 208.

(2) **Without laboratory**: Mathématiques; PHYSQ 271, 301; PSYCE 104, 275, 281, 372, 496.

Education

Administration scolaire; Andragogie; Média en éducation; Curriculum et méthodologie; Enseignement pratique; Evaluation en éducation; Fondements de l'éducation; Psychologie de l'éducation.

Other

Comptabilité; FA MI 333; EDPHQ 400.

182.4 Academic Requirements

(1) During the academic year, students may not register for more than 30 units of course weight without approval of the Dean. Normally, this approval will not be granted to students whose average in the last 30 units of course weight is below 7.5 or if they are registered in Phase II or III of the practicum.

(2) Students in first year may take senior courses only with the approval of the Dean.

(3) Students registered in the four year BEd program are not allowed to take Education content courses during the first year of their program.

(4) The final grade assigned in each course shall be determined not only by the final examination, but also by all examinations and assignments completed throughout the year.

(5) **Debarment from final examination:** A student may be refused permission to write the final examination in a course, with the concurrence of the Dean, in the following circumstances:

a. the student has neglected to do a substantial proportion of the written assignments in a course;

b. the student has often been absent from a course in which class participation is essential (courses in Drama, French (language), Education practicum, laboratory work, etc.);

c. the instructor must alert students at the beginning of the course as to the existence of this regulation (item b. above) and as to the percentage of unmotivated absences students will be allowed before normally being disbarred from final examinations.

(6) **Re-registration in Courses:**

a. Students may not repeat any University course passed, or courses for which they have received transfer credit, except for reasons deemed sufficient, and verified in writing, by the dean of the Faculty in which they are enrolled.

b. Students may not re-register for credit or audit more than once in any failed University course, except for reasons deemed sufficient by the dean (or designate) of the Faculty in which they are enrolled.

c. Students may not re-register for credit or audit more than once in any University course in which they have received a final grade of W, except for

à moins de raisons jugées valables par le doyen de la faculté dans laquelle ils sont inscrits.

d. Au cas où un étudiant contreviendrait aux réglements a., b., ou c. ci-haut, le doyen peut retenir les crédits du cours ou indiquer le cours comme cours en surplus du diplôme.

e. Les étudiants peuvent répéter un cours du premier semestre au second semestre, si ce cours est offert au second semetre, en autant qu'ils se soumettent aux réglements a., b., et c. ci-haut.

f. Un étudiant du premier cycle à qui il est demandé, à cause de résultats académiques insatisfaisants, de se retirer, et/ou de répéter une année, et/ou est accepté en probation, conservera les crédits des cours où il aura obtenu une note de 4 ou plus lors de la période où ses résultats ont été évalués comme insatisfaisants.
En dépit de ces crédits, les facultés peuvent exiger une substitution d'autres cours dans les programmes où une charge complète de cours est requise.

Note: Lorsqu'il s'agit d'un cours optionnel dans le programme d'études de l'étudiant, c'est à la faculté qui offre le cours de décider si l'étudiant peut répéter le cours ou non. S'il s'agit d'un cours requis dans le programme de l'étudiant, la décision de répéter ou non le cours revient à la faculté de l'étudiant.

182.5 Tests/Examens

182.5.1 Test obligatoire pour tous les étudiants de la Faculté Saint-Jean

Test de classement en français

Avant le début de chaque année universitaire, un test de classement est administré à tous les nouveaux étudiants inscrits à la Faculté. Ce test permet aux professeurs de français de placer les étudiants par groupes homogènes dans les cours les mieux adaptés à leur niveau. Aucune préparation préalable n'est nécessaire. Le test est d'une durée de 90 minutes environ.

182.5.2 Test obligatoire pour les étudiants ne présentant pas English 30 ou l'équivalent

Un étudiant ne présentant pas English 30 ni de cours équivalent lors de son admission doit, normalement au cours des deux premières années de son programme, acquérir une connaissance équivalente de l'anglais. Lors de sa première inscription à la Faculté, il doit s'inscrire et se présenter au test de classement en anglais qui est donné durant les deux premiers jours de la session. La date, l'heure, et le lieu en seront affichés à la Faculté Saint-Jean. Ce test, le Michigan English Language Assessment Battery (MELAB), permet au professeur de déterminer la compétence de l'étudiant et de mieux l'orienter. Ceux qui obtiendront une note d'au moins 90 seront considérés comme ayant démontré leur compétence dans la langue anglaise et n'auront à s'inscrire qu'au cours d'anglais requis par leur programme (ANGL 100 ou ANGL 110, s'il y a lieu). Ceux qui obtiendront une note inférieure à 90 et supérieure à 55 devront s'inscrire au cours ANGL 113. Les autres devront normalement suivre des cours d'anglais langue seconde avant de s'inscrire et de se présenter de nouveau au test de classement en anglais. Il est dans l'intérêt de l'étudiant de se conformer à cette exigence au cours des deux premières années de son programme.

Note: Cette section ne s'applique pas aux étudiants inscrits au programme combiné du BEd/BSc.

182.5.3 Tests obligatoires pour les étudiants en éducation

Les étudiants en éducation doivent réussir les tests suivants:

(1) **Test d'élocution:** Tout étudiant du BEd, du BEd/AD, et du BEd/BSc devra réussir le test d'élocution en français (CU ME 132) ou en anglais (ED ES 132) à son choix au début de la première année.

(2) **Test d'admission aux stages pédagogiques:** Tout étudiant du BEd, du BEd/AD, et du BEd/BSc devra réussir le test d'admission aux stages pédagogiques. Une note de 6 dans la partie orale ainsi que dans la partie écrite du test d'admission est exigée pour permettre à l'étudiant de poursuivre son programme à la Faculté Saint-Jean. Ce test sera pris avant de s'inscrire à la 3e année du programme pour les étudiants du BEd, au début de la première année du programme pour les étudiants du BEd/AD et avant de s'inscrire à la quatrième année du programme pour les étudiants du BEd/BSc. Le test comporte une évaluation linguistique du français oral et écrit.

(3) **Test de compétence en français**: Les candidats demandant une admission ou un transfert en troisième année du Baccalauréat en Education ou au programme du BED/AD devront réussir le Test de compétence orale et écrite en français. Une note de 5 est exigée dans la partie orale ainsi que dans la partie écrite du test. Le candidat dispose d'une heure et demie pour rédiger un texte et préparer un court enregistrement. Le test peut être administré individuellement et à distance. L'étudiant doit communiquer avec le Bureau des admissions de la Faculté Saint-Jean.

182.6 Crédits par évaluation spéciale

(1) Un étudiant inscrit à la Faculté Saint-Jean, qui aurait fait des études ou aurait eu des expériences équivalentes à un ou à des cours offerts par la Faculté Saint-

reasons deemed sufficient by the dean (or designate) of the Faculty in which they are enrolled.

d. In cases where a student contravenes regulations (1), (2), or (3) above, the dean (or designate) may withhold credit or indicate the course as extra to the degree, on the course registration that contravenes the regulation.

e. Students may repeat a first-term course in the second term if it is offered in the second term, as long as the student complies with regulations (1), (2), and (3) above.

f. An undergraduate student who, because of unsatisfactory academic performance is either required to withdraw, and/or required to repeat a year, and/or put on probation, will retain credit for courses in which grades of 4 or higher have been attained during the period for which the student's performance was evaluated as unsatisfactory.
Notwithstanding this credit, faculties may require substitution of other courses in programs in which full course loads are required.

Note: Where an elective course in the student's program is concerned, it is the Faculty offering the course which makes the decision as to whether or not a student can repeat the course. If it is a required course in the student's program, then it is the student's Faculty which will decide whether or not the student can repeat the course.

182.5 Tests/Exams

182.5.1 Compulsory Test/Exam for All Faculté Saint-Jean Students

French Placement Test

Before the beginning of each academic year, a placement test is administered to all new students registered in the Faculté. This test enables professors of French to place the students in homogenous groups in courses which are best suited to their level. No prior preparation is required. The test takes approximately 90 minutes to complete.

182.5.2 Compulsory Test for Students Admitted Without English 30 or Equivalent

Students admitted without English 30 or equivalent will be required to reach a level of proficiency comparable to English 30, normally during the first two years of their program. Students who first register at the Faculté are required to register and write an English placement test given during the first two days of the academic year. The dates, hours, and room numbers will be posted at Faculté Saint-Jean. This test, the Michigan English Language Assessment Battery (MELAB), enables the professor to evaluate the students' proficiency and to better advise them. Students who obtain a grade of at least 90 will be considered as having demonstrated proficiency in English and will register in ANGL 100 or ANGL 110, as required in their program. Those who obtain a grade below 90 and above 55 will register in ANGL 113. Normally, other students will follow courses of English as a second language before registering again in the English placement test. It is in the best interest of students to complete this requirement in the first two years of their program.

Note: This section does not apply to students registered in the combined BEd/BSc program.

182.5.3 Compulsory Tests/Exams for Students Registered in the Education Program Only

Education students must also complete the following tests:

(1) **Speech Test:** All students registered in the BEd, BEd/AD, and BEd/BSc programs must successfully complete and pass the Speech Test either in French (CU ME 132) or English (ED ES 132) at the beginning of their first year.

(2) **Practicum Admission Test:** All students registered in the BEd, BEd/AD, and BEd/BSc programs must successfully complete the practicum admission test. In order to continue their program at Faculté Saint-Jean, students must obtain a grade of 6 in both oral and written exams. The test is normally taken before registering in the third year for BEd students — at the beginning of the first year for BEd/AD students — and before registering in the fourth year for BEd/BSc students. The test evaluates the student's oral and written French.

(3) **Test of Competency in French**: Applicants who wish to be admitted or to transfer into the third year of the Education program or into the BEd/AD program will be required to successfully complete a test of competency (oral and written) in French. A grade of 5 must be obtained in each portion of the test. Applicants have an hour and a half to write an essay and prepare a brief recording. The test may be taken individually and off-campus. Students should contact the Office of admissions of the Faculté.

182.6 Credit by Special Assessment

(1) Students registered in Faculté Saint-Jean, who have completed courses or gained experience equivalent to a course or courses at Faculté Saint-Jean, may

Jean, peut demander d'obtenir des crédits par évaluation spéciale. L'étudiant doit adresser sa demande sur le formulaire approprié au Doyen qui pourrait alors donner son accord éventuel et déterminer la forme d'évaluation: soit passer l'examen final du cours en question, soit un examen spécial portant sur l'ensemble du contenu du cours en question, soit quelqu'autre forme d'évaluation.

(2) Avant la date prévue pour l'évaluation spéciale, l'étudiant doit payer 113$ de frais pour chaque cours ou demi-cours. Ce montant peut subir des modifications.

(3) Un maximum de 12 crédits peut être obtenu par évaluation spéciale.

(4) La note obtenue par l'étudiant lors de cette évaluation spéciale est sans appel et paraîtra sur son relevé de notes officiel avec la mention "Evaluation spéciale".

(5) Normalement, les cours pré-universitaires et les cours suivants ne peuvent pas être crédités par évaluation spéciale: ANGL 113; FRANC 160, 165, 166, 261, 262, 267, 322; ENPRQ 200, 251, 301/302, 303/304/305, 352/353, 354/355/356, 409, 459.

Si l'évaluation n'est pas terminée dans un délai de trois mois, la demande est automatiquement annulée.

182.7 Conditions de résidence

182.7.1 Conditions de résidence

Tout étudiant inscrit dans un programme de BA ou de BSc qui comporte normalement 120 crédits doit compléter au moins 60 de ces crédits à l'Université de l'Alberta dont 42 à la Faculté Saint-Jean (voir aussi §182.8(5)).

Tout étudiant inscrit au programme de BEd doit normalement compléter au moins 60 de ces crédits à la Faculté Saint-Jean.

Tout étudiant inscrit au programme du BEd/BSc doit normalement compléter au moins 90 crédits à l'Université de l'Alberta (voir aussi 182.8.(5)).

La dernière année du programme doit normalement correspondre à une année universitaire régulière et doit être suivie à l'Université de l'Alberta. Les conseillers des étudiants peuvent éventuellement recommander au Doyen une exemption à ce dernier règlement. Si l'étudiant a déjà réussi 60 crédits à la Faculté avant le début de la dernière année, il peut solliciter, auprès du Doyen, l'autorisation de suivre un ou des cours dans une autre université.

182.7.2 Lettre d'autorisation

Un étudiant peut être autorisé à prendre un (des) cours à une autre université dans le but d'obtenir des crédits pour un programme de la Faculté Saint-Jean. **Avant** de s'inscrire à l'autre université, il doit obtenir l'autorisation du Doyen.

La demande de lettre d'autorisation doit parvenir au bureau du Doyen avant le 1er juillet de chaque année et comprendre le nom de l'université à laquelle il désire s'inscrire ainsi que le numéro, le titre et la description du cours en question tels qu'ils figurent dans le dernier annuaire. Si la demande est approuvée, le bureau du Doyen envoie la lettre d'autorisation à l'université en question et une copie à l'étudiant.

Normalement, aucune lettre d'autorisation n'est accordée si l'étudiant n'est pas dans la catégorie A (voir §182.8). Des lettres d'autorisation ne sont pas accordées pour les 30 derniers crédits d'un programme, à moins de circonstances exceptionnelles.

182.8 Niveau académique et graduation

Les règlements suivants s'appliquent à tous les étudiants de la Faculté Saint-Jean.

(1) **Niveau académique:** A la fin de chaque année d'étude et selon l'index qualitatif (IQf), tout étudiant de la Faculté est classé dans l'une des trois catégories suivantes:

Catégorie A: Rendement satisfaisant (IQf de 4.0 ou plus). L'étudiant peut poursuivre ses études à la Faculté.

Catégorie B: Rendement insatisfaisant (IQf supérieur à 2.0 et inférieur à 4.0). L'étudiant est considéré en probation; il peut poursuivre ses études mais il est averti que s'il n'a pas rencontré les exigences de la probation, il devra abandonner le programme.

Catégorie C: Rendement extrémement insatisfaisant (IQf de 2.0 ou moins). L'étudiant est avisé qu'il devra abandonner le programme. Il ne pourra normalement se réinscrire qu'après un délai d'un an.

Note: L'index qualitatif est calculé de la façon suivante:

$$\text{IQf} = \frac{\text{Nombre de crédits réussis}}{\text{Nombre de crédits tentés}} \times \text{moyenne générale}$$

(2) **Probation:** Les étudiants autorisés à poursuivre leur programme à titre probatoire pour des raisons académiques, ou après avoir été invités à se retirer de l'Université, doivent pouvoir fournir la preuve de leur capacité à améliorer leurs résultats. Ils sont tenus aux exigences suivantes:

a. S'inscrire à temps plein pendant la session d'hiver (septembre - avril) et obtenir 30 crédits avec une moyenne minimale de 5.0, ou 24 crédits avec une moyenne minimale de 5,5.

b. Aucun échec n'est autorisé (1, 2, 3, ou WF).

c. Normalement, les cours d'enseignement pratique au-delà des cours ENPRQ 200 ou 251 ne font pas partie du calcul des 30 crédits.

seek credit by special assessment. Students must submit on the appropriate form, their request to the Dean who will indicate a recommendation and determine the format of the assessment; this may be either the final examination of the course in question, or a special examination on the total course content or some other form of assessment.

(2) A fee of $113 per single-term or full-session course will be assessed and must be paid before the special assessment will be undertaken. The amount of the fee is subject to change.

(3) Credit may be granted for a maximum of 12 units of course weight.

(4) The student's mark resulting from this special assessment cannot be appealed and will be entered on his official record with the note "Special Assessment".

(5) Normally, pre-university courses and the following courses are not subject to credit by special assessment: ANGL 113; FRANC 160, 165, 166, 261, 262, 267, 322; ENPRQ 200, 251, 301/302, 303/304/305, 352/353, 354/355/356, 409, 459.

If the assessment is not complete within three months, the request lapses automatically.

182.7 Residence

182.7.1 Residence

Students registered in a BA or BSc program, which normally consists of 120 units of course weight, must complete a minimum of 60 units of course weight at the University of Alberta, of which at least 42 must be completed at Faculté Saint-Jean. (See also §182.8(5)).

Students registered in the BEd program must normally complete at least 60 units of course weight at Faculté Saint-Jean.

Students registered in the combined BEd/BSc program must normally complete at least 90 units of course weight at the University of Alberta. (See also 182.8.(5)).

Normally the last year of a degree program must be completed during a regular academic year at the University of Alberta. The student counsellors may recommend to the Dean of the Faculté an exemption to this regulation. If the student has already completed 60 units of course weight at the Faculté before the last year of a program, the student may request authorization of the Dean to take one or more courses at another university.

182.7.2 Letter of Permission

A student may be allowed to take one or more courses at another university in order to obtain credits for a program at Faculté Saint-Jean. Before registering at another university, the Dean's approval must be obtained.

The request for a letter of permission must reach the Dean's office by July 1 of every year and must contain the name of the university at which the student wishes to register, the number, title and description of the course(s) as listed in the latest calendar. If the request is granted, the Dean's office will send the letter of permission to the university in question with a copy to the student.

Normally, a letter of permission will not be granted if the student falls outside category A (see §182.8). Letters of permission will not be granted for the last 30 units of course weight of a program barring exceptional circumstances.

182.8 Academic Standing and Graduation

The following regulations shall apply to all students at Faculté Saint-Jean.

(1) **Academic Level:** At the end of each academic year, according to the Quality Index (QI), each student is placed in one of the three categories listed below:

Category A: Satisfactory results (QI of 4.0 or more). Students may continue their studies at Faculté Saint-Jean.

Category B: Unsatisfactory results (QI of less than 4.0 but greater than 2.0). The students are accepted on a probationary basis; they may continue their studies but are warned that if they have not met the requirements of the probation, they must withdraw from the program.

Category C: Extremely unsatisfactory results (QI of less than 2.0). Students are informed that they must withdraw from the program. When students are asked to withdraw, normally at least one year must elapse before readmission will be granted.

Note: The Quality Index, (QI) is defined by the following formula:

$$\text{QI} = \frac{\text{sum of units of course weight passed}}{\text{sum of units of course weight attempted}} \times \text{GPA}$$

(2) **Probation:** Students who are authorized to continue their studies on probation for academic reasons or who are readmitted after being required to withdraw from Faculté Saint-Jean or any other faculty must demonstrate ability to meet promotion standards and would be bound by the following requirements:

a. Register as a full-time student during the Winter Session (September to April) and complete 30 units of course weight with a minimum GPA of 5.0 or 24 units of course weight with a minimum GPA of 5.5.

b. No failing grades (1, 2, 3, or WF) are permitted.

c. Normally, practicum experiences beyond ENPRQ 200 or 251 are not permitted as part of the 30 units of course weight.

d. L'admission probatoire prend fin dès que ces conditions sont remplies. L'incapacité à remplir ces conditions résultera normalement en une exclusion définitive de la Faculté.

e. Les candidats invités à retirer leur inscription et sollicitant leur réadmission doivent faire l'objet d'une recommandation de la part de "Student Counselling Services" ou du Vice-Doyen de la Faculté Saint-Jean.

) **Examens différés**

L'étudiant qui omet de se présenter à un examen final ou désire être autorisé à se présenter à un examen différé pour des raisons sérieuses ou pour cause de maladie peut soumettre une demande au Registraire de l'Université. Cette demande, accompagnée de la documentation pertinente, doit parvenir au bureau du Registraire dans les 48 heures qui suivent la date et l'heure de l'examen en cause. (Pour plus de détails, voir l'annuaire de l'Université, §16.5.6).

) **Réexamen**

a. Dans certaines circonstances exceptionnelles, un étudiant peut être autorisé à refaire un examen final en autant que:

1) La moyenne générale de l'étudiant soit de 5,5 ou plus durant la session en cours.
2) Le pourcentage accordé à l'examen final soit de 40% ou plus.
3) L'étudiant ait obtenu une note de 3 ou moins dans le cours.

b. Si un réexamen est autorisé, les conditions suivantes s'appliqueront:

1) Le réexamen comptera pour le même pourcentage que l'examen final original.
2) La note du réexamen remplacera la note de l'examen original pour déterminer la note finale du cours.

c. Pour les demandes de réexamen, les étudiants doivent suivre la procédure décrite à la §16.5.4 de l'annuaire de l'Université.

5) **Cours obligatoires:** En vue de recevoir le diplôme de la Faculté Saint-Jean, tout étudiant devra avoir réussi l'équivalent de 30 crédits enseignés en français à la Faculté Saint-Jean. Les cours suivants sont obligatoires:

a. FRANC 322

b. Option culture/civilisation: trois crédits parmi CA FR 320, 322, 424, 425, 450, 451, 465, 466; ETCAN 421; HISTE 374, 375, 399; SC PO 421; SOCIE 368.

c. Six crédits de niveau senior autres que FRANC 261, 262, 267, 322.

6) **Mentions d'honneur:** La Faculté Saint-Jean accorde les mentions d'honneur suivantes:

a. les étudiants qui terminent leur année d'étude avec une moyenne de 7,5 dans un minimum de 30 crédits recevront la mention "Première classe";

b. ceux qui obtiennent une moyenne de 7,5 dans les 60 derniers crédits de leur programme auront droit à la mention "Distinction".

Les cours sans notes finales mais donnant droit à des crédits n'entreront pas en ligne de compte. La moyenne sera calculée d'après le nombre de cours notés.

(7) **Demande de remise des diplômes:** Durant sa dernière année d'études, l'étudiant doit faire la demande du grade qu'il postule. Il obtient du Bureau des admissions le formulaire à cette fin, le complète et le retourne au Bureau des admissions au plus tard le 31 août pour la collation des grades de l'automne, ou le 1er février pour la collation des grades du printemps.

182.9 Appels et griefs

La Faculté a établi un Comité des appels par lequel les différends entre les étudiants et un parti de la Faculté Saint-Jean peuvent être résolus. Les étudiants peuvent obtenir les règlements du Comité au Bureau des admissions de la Faculté.

Démarches à suivre avant l'appel

Le Comité des appels n'entreprendra aucune action avant d'avoir l'assurance que l'étudiant a utilisé tous les moyens normaux à sa disposition. Aussi,

(1) s'il s'agit d'un problème avec l'un des professeurs, l'étudiant essayera d'abord de régler son grief avec le professeur concerné;

(2) si le professeur n'accède pas à sa demande, ou si la question n'est pas du ressort de ce professeur, l'étudiant en discutera avec le chef du secteur approprié (COMFRA, COMPAS ou COMPED). L'étudiant du BEd/BSc discutera du problème avec le chef du secteur COMPED, lequel en discutera avec le chef du secteur COMPAS, et les deux tenteront de régler le problème;

(3) si le chef du secteur ne résout pas la question à la satisfaction de l'étudiant, ce dernier pourra s'adresser au Doyen;

(4) si l'étudiant demeure insatisfait du résultat de ses discussions avec les personnes mentionnées ci-dessus, il sera avisé par le Doyen de son droit d'avoir recours au Comité des Appels.

(5) L'étudiant pourra alors, s'il le désire, soumettre son cas au Comité des Appels.

(6) Si la décision du Comité des Appels de la Faculté n'est pas acceptée par l'étudiant, l'étudiant a le droit de faire appel au "GFC Academic Appeals Committee."

d. Upon successful completion of these requirements probation will be lifted. Failure to meet these standards will normally result in a permanent dismissal from the Faculté.

e. All applicants who have been asked to withdraw and who are applying for readmission must be recommended by Student Counselling Services or by the Associate Dean of the Faculté.

(3) **Deferred examinations**

A student who fails to take a final examination or who wishes to write a deferred examination on compassionate or medical grounds may apply to the Registrar. This request, supported by the pertinent documentation must be submitted to the Registrar's Office within 48 hours after the time of the examination for the course affected. (For further information, refer to §16.5.6).

(4) **Reexamination**

a. A student may be permitted a reexamination in certain exceptional circumstances provided that:

1) The student's GPA is 5.5 or greater during the session in progress.
2) The weight of the final examination is 40% or higher.
3) The student received a grade of 3 or less in the course.

b. If a reexamination is approved, the following policies apply:

1) The reexamination will have the same percentage value as the original final examination.
2) The reexamination mark replaces the original examination mark in determining the final grade of the course.

c. Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

(5) **Compulsory Courses:** To obtain a degree from Faculté Saint-Jean, each candidate must have successfully completed at Faculté Saint-Jean, the equivalent of 30 units of course weight in which French is the language of instruction. The following courses are compulsory:

a. FRANC 322

b. One of the following three units-of-course-weight courses in culture/civilization: CA FR 320, 322, 424, 425, 450, 451, 465, 466; ETCAN 421; HISTE 374, 375, 399; SC PO 421; SOCIE 368.

c. Six units of course weight, at the senior level, other than FRANC 261, 262, 267, 322.

(6) **Honors Mention:** Faculté Saint-Jean grants the following honors notations:

a. Students who complete their academic year with a grade point average of 7.5 in a minimum of 30 units of course weight, shall be awarded "first-class" standing.

b. Students who obtain a grade point average of 7.5 in the last 60 units of course weight of their program, will be entitled to the notation "with distinction."

Courses without final marks, which entitle students to credits, will not be taken into account. The grade point average will be calculated on the basis of the number of courses for which a mark is granted.

(7) **Application for Graduation:** During their final year, all students must file an application for graduation. Forms may be obtained from the admissions office and must be returned to the Faculté by August 31 for Fall Convocation or by February 1 for Spring Convocation.

182.9 Appeals and Grievances

The Faculty has established an Appeal Committee through which disagreements between students and staff from Faculté Saint-Jean can be resolved. Students may obtain the rules and regulations of this Committee from the admissions office of the Faculté.

Procedures to Follow Before an Appeal

The Appeal Committee will not start any action until assured that students have already used all normal means at their disposal to resolve the problem. Such as:

(1) In case of a problem with a professor, the student will first try to resolve the problem with the professor concerned.

(2) If the professor does not comply with the student's request, or if the question does not fall within the professor's competence, the student will then refer the problem to the Director of the sector concerned (COMFRA, COMPAS, or COMPED). Students from the combined BEd/BSc program will refer the problem to the Director of COMPED, who will consult the Director of COMPAS, and both will try to resolve the problem.

(3) If the Director does not resolve the question to the student's satisfaction, the latter may then refer to the Dean.

(4) If the student is still unsatisfied with the results of the above mentioned proceedings, the student will be notified by the Dean of the right to appeal to the Appeal Committee.

(5) The student may then submit the case to the Appeal Committee.

(6) If such appeal is not satisfactory the student has the right to appeal to the GFC Academic Appeals Committee.

182.10 Conseillers d'étude

La Faculté assure le service de conseillers d'étude pour aider les étudiants dans la planification de leur programme. Les débutants sont invités à rencontrer leur conseiller avant le début de l'année universitaire. Les étudiants déjà inscrits sont censés rencontrer leur conseiller durant la période d'inscription, à la fin de l'année universitaire. Les étudiants qui rencontrent des problèmes spéciaux consulteront directement le Doyen de la Faculté.

Il incombe à l'étudiant de bien connaître les règlements ainsi que les exigences académiques du diplôme. Toute exception au règlement doit revêtir la signature du Doyen. Une copie de l'autorisation est remise à l'étudiant et une autre est gardée dans son dossier.

183 Programmes d'études

183.1 Renseignements généraux

La Faculté Saint-Jean offre les programmes suivants:
Baccalauréat-ès-Arts
Baccalauréat en Education
Baccalauréat en Education/Baccalauréat-ès-Sciences
Baccalauréat-ès-Sciences
Baccalauréat après un premier diplôme
Diplômes de perfectionnement en Education

Un étudiant qui désire poursuivre des études dans une faculté contingentée (ex.: Art dentaire, Commerce, Droit, Médecine) peut suivre les premières années d'un programme d'Arts ou de Sciences à la Faculté Saint-Jean.

Cet étudiant aurait ainsi la possibilité d'acquérir une meilleure connaissance de la langue et de la culture françaises.

Cet étudiant devrait toutefois consulter l'annuaire ou un conseiller d'études des facultés en question afin de s'assurer que les exigences des deux programmes soient rencontrées.

183.2 Voies: Avancée/Intermédiaire

Les étudiants qui s'inscrivent à la Faculté Saint-Jean sont orientés vers l'une des deux filières suivantes: "Voie: Avancée" ou "Voie: Intermédiaire". Le niveau de compétence en français, mesuré par le Test de classement en français (§182.5.1), détermine l'orientation.

Voie Avancée, pour les étudiants de niveau fort, que le français soit leur langue maternelle ou non;

Voie Intermédiaire, pour les étudiants moins forts en français. Cette voie a pour objectif d'amener les étudiants de cette orientation, à la fin de la deuxième année, à un niveau équivalent à celui atteint par les étudiants de la voie avancée.

183.3 Baccalauréat-ès-Arts

183.3.1 Préambule

La Faculté Saint-Jean offre un baccalauréat-ès-arts de quatre ans qui lui est propre. L'étudiant peut choisir entre trois concentrations: le BA (Etudes canadiennes), le BA (Humanités) et le BA (Sciences sociales). Le programme vise une éducation libérale et met l'accent sur la formation générale de l'étudiant. Il donne également à ce dernier la possibilité de se spécialiser dans une discipline traditionnelle. L'originalité du programme se situe au niveau de son interdisciplinarité: des cours obligatoires désignés par les sigles CANST, HUME et SCSOC, normalement de niveau 300 et 400, amènent l'étudiant à établir la jonction entre les diverses disciplines des sciences sociales ou celles des humanités.

Les deux premières années forment un programme de base commun aux trois concentrations; elles visent une formation générale. Les deux dernières années sont normalement consacrées aux cours de concentration en études canadiennes, en humanités ou en sciences sociales et aux cours de spécialisation dans une discipline traditionnelle.

Le programme tient compte des exigences de la Faculté relatives aux cours de français et prévoit deux voies, la voie intermédiaire pour les étudiants qui commencent avec FRANC 160 et la voie avancée pour ceux qui débutent avec FRANC 165.

Depuis septembre 1988, tous les nouveaux étudiants du BA s'inscrivent dans l'une des trois concentrations du programme. L'ancien BA (Général) de trois ans et le BA (Spécial) de quatre ans sont abolis.

Les étudiants de l'Université de l'Alberta et des collèges albertains, avec lesquels l'Université a des ententes de transfert, inscrits avant septembre 1988 au BA (Général) de trois ans ou au BA (Spécial) de quatre ans, pourront poursuivre le programme alors en vigueur; ils devront compléter leur diplôme avant le 30 avril 1995.

183.3.2 Le programme

Les quatre années du programme se présentent comme suit:

Voie Intermédiaire

Première année

FRANC 160	FRANC 261
FRANC 160	PHILE 121
ANGL 1XX*	ANGL 1XX
Science sociale	Science sociale
Science	Science

182.10 Academic Counselling

The Faculté provides academic counselling to assist students in program planning. All new students are encouraged to have an interview with the academic adviser prior to the beginning of the academic year. Students currently enrolled may consult with the adviser at the time of registration near the end of the academic year. Students with special problems may schedule interviews with the Dean.

It is the student's responsibility to be acquainted with all rules and regulations and to meet the requirements for the degree as outlined. Any exceptions to the requirements must be approved by the Dean in writing with one copy to be placed in the student's file and one to be given to the student.

183 Programs of Study

183.1 General Information

Faculté Saint-Jean offers the following programs:
Bachelor of Arts
Bachelor of Education
Bachelor of Education/Bachelor of Science
Bachelor of Science
Bachelor after degree
Diploma programs in Education

Students who intend to register eventually in a quota faculty (i.e.: Dentistry, Commerce, Law, Medicine) may take the first years of an Arts or Science program at Faculté Saint-Jean.

This allows students to develop their knowledge of the French language and culture.

Students should, however, consult the Calendar or a student adviser from the faculties concerned in order to make sure that the requirements for both programs are met.

183.2 Route: Advanced/Intermediate

Students who enroll at Faculté Saint-Jean follow either one of two routes: "Advanced" or "Intermediate", depending upon their level of competence in the French language. The students' level of competence is determined by the French Placement Test (§182.5.1).

Route: Advanced. For students with a high level of competence in the French language whether or not French is their mother tongue.

Route: Intermediate. For students who have not mastered the basics of the French language. This route's goal is to bring these students, by the end of the second year, to a level of competence equivalent to that attained by students in the "Advanced" program.

183.3 The Degree of Bachelor of Arts

183.3.1 Preamble

Faculté Saint-Jean offers a four year BA program which is unique. A student can choose among three subjects of concentration: the BA (Canadian Studies); the BA (Humanities); or the BA (Social Sciences). The program offers a Liberal Arts education and stresses the general education of students. It also gives students the opportunity to specialize in a traditional discipline. The originality of the program lies in its interdisciplinary nature: compulsory courses labelled CANST, HUME and SCSOC, normally at the 300- and 400-levels lead the students to establish the links between the various disciplines of the Social Sciences and of the Humanities.

The first two years constitute a core program common to the three subjects of concentration; their aim is a general education. The last two years are normally devoted to courses in either one of the three concentrations (Canadian Studies, Humanities or Social Sciences) and to specialization courses in a traditional discipline.

The program takes into account the requirements of Faculté Saint-Jean for French courses and provides two routes: the intermediate route for students starting with FRANC 160 and the advanced route for those who start with FRANC 165.

Effective September, 1988, all new BA students register in one of the subjects of concentration of the program. The three-year BA (General) and the four-year BA (Special) are abolished.

The students at the University of Alberta and at colleges with which the University has signed transfer agreements, and who were registered in a three-year BA (General) or in a four-year BA (Special) before September, 1988 will be able to continue in these programs but must complete their degree by April 30, 1995.

183.3.2 The Program

The four year program appears as such:

Intermediate Route

First Year

FRANC 160	FRANC 261

183.3.3 Les exigences communes

(1) Le baccalauréat-ès-arts de la Faculté est un programme de quatre ans, soit 120 crédits.

(2) Les exigences relatives aux cours de français sont celles de la Faculté Saint-Jean.

(3) L'étudiant doit réussir six crédits en anglais.

(4) Le cours PHILE 140 ou le cours HISTE 120 est obligatoire.

(5) L'étudiant doit réussir PHILE 121, normalement au cours de la première année de son programme.

(6) L'étudiant doit réussir six crédits en beaux-arts.

(7) L'étudiant doit réussir six crédits en sciences et trois crédits en informatique (INFOR 161).

(8) Les options peuvent être des cours d'arts ou de science. Néanmoins un maximum de 12 crédits peut être suivi dans des domaines autres que les arts et les sciences.

Second Year

FRANC 262	FRANC 322

183.3.3 Common Requirements

(1) The BA at Faculté Saint-Jean is a four-year program, with 120 units of course weight.

(2) The requirements concerning French courses are those of Faculté Saint-Jean.

(3) Students must complete six units of course weight in English.

(4) PHILE 140 or HISTE 120 is compulsory.

(5) Students must complete PHILE 121, normally during the first year of their program.

(6) Students must complete six units of course weight in Fine Arts.

(7) Students must complete six units of course weight in Science and three units of course weight in computing science (INFOR 161).

(8) Options may be Arts or Science courses. However, up to 12 units of course weight may be taken in areas other than arts and science.

(9) Lors de l'inscription à la deuxième année de son programme, chaque étudiant doit déclarer sa concentration et sa spécialisation.

(10) Pour obtenir son diplôme, l'étudiant doit avoir obtenu une note égale ou supérieure à 4 dans 120 crédits. Une moyenne de 5,5 est exigée dans la concentration et dans les 60 derniers crédits du programme.

(11) Par exception, le Doyen peut autoriser un étudiant à passer moins, ou plus, de quatre ans pour remplir les conditions requises pour l'obtention de son diplôme.

On pourra consulter l'annuaire de l'Université (Faculté des Arts, §44, Détail des cours), pour y trouver les renseignements concernant les cours qu'offrent les divers départements et qui pourraient satisfaire les exigences de la concentration et de la spécialisation.

183.3.4 Les exigences de la concentration en Etudes canadiennes

Note: Les cours de ce programme de quatre ans sont choisis sous la direction du conseiller pour les Etudes canadiennes de la Faculté Saint-Jean ou du Canadian Studies Committee.

(1) Pour obtenir le BA (Etudes canadiennes) l'étudiant doit réussir un minimum de 42 crédits de contenu canadien. Ces crédits doivent comprendre au moins 18 crédits identifiés ETCAN ou CANST et six crédits dans chacun des sujets suivants: gouvernement canadien, histoire canadienne, et littérature canadienne (française ou anglaise).

(2) La spécialisation portera sur une discipline traditionnelle, comme par exemple le français, l'histoire ou la science politique, ou par suite d'une entente spéciale, l'étudiant proposera une spécialisation de caractère pluridisciplinaire visant à explorer un thème spécifique. Dans l'un ou l'autre cas, au moins 30 crédits sont requis et 48 crédits au plus sont autorisés, dont 18 doivent être des crédits approuvés d'études canadiennes.

(3) Douze crédits dans les domaines autres que les Arts et Sciences choisis sur la liste des cours approuvés d'Etudes canadiennes peuvent compter pour satisfaire aux exigences de la concentration en études canadiennes mais ne peuvent compter pour satisfaire les exigences de la spécialisation dans une discipline.

183.3.5 Les exigences de la concentration en Humanités

(1) Pour obtenir un BA (Humanités), l'étudiant doit réussir un minimum de 54 crédits en humanités. Ces crédits doivent comprendre 18 crédits identifiés par le sigle HUME: les cours HUME 301, 303, et 402 sont obligatoires. Les cours de niveau 100 ne peuvent pas être comptés pour la concentration.

(2) Les cours obligatoires de français de niveau 200 de la Faculté peuvent être utilisés pour satisfaire les exigences de la concentration, mais non de la spécialisation en Français/Canadien-Français.

(3) Pour sa spécialisation, l'étudiant doit réussir au moins 24 crédits dans une des disciplines traditionnelles suivantes:

Etudes classiques
Etudes de la religion
Français/Canadien-Français
Histoire
Philosophie

Au moins 12 de ces crédits doivent être de niveau 400.

(4) L'étudiant doit réussir le cours ARTSC 200 ou MUSIQ 101/201 et un deuxième six crédits de beaux-arts.

(5) L'étudiant doit réussir six crédits en sciences sociales, normalement au cours de sa première année. HISTE 120 ne peut satisfaire cette exigence.

183.3.6 Les exigences de la concentration en Sciences sociales

(1) Pour obtenir un BA (Sciences sociales) l'étudiant doit compléter un minimum de 54 crédits en sciences sociales. Ces crédits doivent comprendre 18 crédits identifiés par le sigle SCSOC: les cours SCSOC 311, 312, 321, 322 sont obligatoires. Les cours de niveau 100 ne peuvent pas être comptés pour la concentration.

(2) Pour sa spécialisation, l'étudiant doit compléter au moins 24 crédits dans une des disciplines traditionnelles suivantes:

Anthropologie
Economie
Géographie
Histoire
Linguistique romane
Psychologie
Science politique
Sociologie

Au moins 12 de ces crédits doivent être de niveau 400.

183.3.7 Règlement général: BA (général) ou BA (spécial)

Un étudiant inscrit au BA (général) ou BA (spécial) entre septembre 1979 et août 1988, devra inclure dans son programme six crédits de chacune des catégories suivantes: Beaux-Arts, Humanités, Sciences Sociales et Sciences avec laboratoire. Pour la classification des cours voir §182.3.

(9) At the time of registration in the second year of their program, students must indicate their concentration and specialization.

(10) To obtain a degree, students must have achieved a grade equal to/or higher than 4 in 120 units of course weight. An average of 5.5 is required in the concentration and in the final 60 units of course weight credited toward a degree.

(11) Exceptionally, the Dean may authorize a student to spend less than or more than four years to meet the requirements of a degree.

Information regarding courses offered by the various departments, and which may meet the requirements for the concentration or specialization, may be found in the University Calendar. (Faculty of Arts, §44, Details of Courses).

183.3.4 The Requirements of the Concentration in Canadian Studies

Note: The courses of this four-year program are chosen under the supervision of the Canadian Studies Adviser from Faculté Saint-Jean or from the *Canadian Studies Committee.*

(1) To obtain a BA (Canadian Studies) students must complete a minimum of 42 units of course weight with Canadian content. These courses must include at least 18 units of course weight labelled ETCAN or CANST and six units of course weight in each of the following disciplines: Canadian Government, Canadian History, and Canadian Literature (French or English).

(2) The specialization may be in a traditional discipline, such as French, History, or Political Science, or, following special agreement, students may propose a specialization of a multidisciplinary nature on a specific topic. In either case, a minimum of 30 units of course weight is required and a maximum of 48 are authorized, of which 18 must be from approved Canadian Studies courses.

(3) Twelve units of course weight in areas other than Arts and Science, chosen from the approved Canadian Studies list of courses may count towards the Canadian Studies requirements but not in the disciplinary specialization requirements.

183.3.5 The Requirements of the Concentration in Humanities

(1) To obtain a BA (Humanities), students must complete a minimum of 54 units of course weight in Humanities. These courses must include 18 units of course weight labelled HUME; HUME 301, 303, and 402 courses are compulsory. The "100-level" courses may not be counted in the concentration.

(2) Compulsory French "200-level" courses of Faculté Saint-Jean may be used to meet the requirements in the concentration, but not in the specialization in French/French-Canadian.

(3) Within the specialization, a student must complete at least 24 units of course weight in one of the following traditional disciplines:

Classics
Religious Studies
French/French-Canadian
History
Philosophy

At least 12 of these units of course weight must be at the 400-level.

(4) Students must complete ARTSC 200 or MUSIQ 101/201 and another six units of course weight in Fine Arts.

(5) Students must complete six units of course weight in Social Science, normally during their first year. HISTE 120 does not meet this requirement.

183.3.6 The Requirements of the Concentration in Social Sciences

(1) To obtain a BA (Social Sciences), students must complete a minimum of 54 units of course weight in Social Sciences. These courses must include 18 units of course weight labelled SCSOC: the SCSOC 311, 312, 321, 322 courses are compulsory. The 100-level courses may not be counted in the concentration.

(2) Within the specialization, students must complete at least 24 units of course weight in one of the following traditional disciplines:

Anthropology
Economics
Geography
History
Romance Linguistics
Psychology
Political Science
Sociology

At least 12 of these units of course weight must be at the 400-level.

183.3.7 General Regulation: BA (General) or BA (Special)

Students registered in a BA (General) or BA (Special) program between September 1979 and August 1988 will be required to complete six units of course weight from each of the following categories in their program: Fine Arts, Humanities, Social Sciences and Laboratory Science. For the classification of courses, see §182.3.

183.3.8 Diplôme de BA (général): programme SA06

Le diplôme permet à l'étudiant d'obtenir une formation pluridisciplinaire en trois ans.

Le programme est soumis aux règlements suivants:

(1) Tout étudiant qui s'inscrit en vue d'un BA doit choisir sa concentration principale en humanités, sciences sociales ou mathématiques. Pour obtenir un BA, l'étudiant doit avoir complété au moins 48 crédits en Arts.

(2) Tout étudiant doit inclure dans son programme d'études un minimum de 18 crédits et un maximum de 30 dans sa concentration principale dont 12 crédits de niveau senior. Un minimum de 18 crédits et un maximum de 24 dans une concentration secondaire sont requis.

Note: Si l'étudiant a une concentration principale en français, son programme comprendra obligatoirement trois crédits en littérature française (autre que FRANC 325) et trois crédits en littérature ou en civilisation canadienne-française.

(3) Lors de l'inscription à la deuxième année de son programme, chaque étudiant doit déclarer les matières de ses concentrations principale et secondaire.

(4) Aucun étudiant ne peut inclure plus de 42 crédits "junior" dans son programme d'études, sauf par autorisation spéciale du Doyen.

(5) Pour obtenir un BA, l'étudiant doit avoir obtenu une note égale ou supérieure à 4 dans 90 crédits. Une moyenne de 5,5 est exigée dans la concentration principale et dans les 60 derniers crédits, ou l'équivalent, de leur programme.

(6) Dans certains cas exceptionnels, le Doyen peut autoriser un étudiant à passer plus de trois ans à l'obtention de son diplôme ou à remplir plus rapidement les conditions requises en suivant les cours de l'intersession ou en suivant des cours supplémentaires pendant la session d'hiver.

(7) 24 crédits au maximum peuvent être suivis dans une matière autre que la matière principale.

(8) Après avoir satisfait aux exigences de la première année, l'étudiant peut choisir 12 crédits dans des domaines autres que les Arts et les Sciences.

On pourra consulter l'annuaire de l'Université (Faculté des Arts) §44 pour y trouver des renseignements concernant les cours offerts par les divers départements.

183.3.9 Certificat d'équivalence

Les candidats qui détiennent un BA (Général) de l'Université de l'Alberta peuvent obtenir un certificat indiquant qu'ils ont satisfait aux exigences du BA (Spécial) ou du BA (Etudes canadiennes) en prenant 30 crédits supplémentaires, ou plus dans certains cas, pour satisfaire aux exigences du programme de la Faculté Saint-Jean. Cette option n'est pas offerte aux titulaires de grades universitaires délivrés par d'autres universités.

183.3.10 Diplôme de BA (Special): programme SA12

Le programme de BA (spécial) est destiné à procurer aux étudiants une formation variée recouvrant plusieurs domaines d'étude, mais offrant en même temps un plus grand degré de spécialisation dans un domaine déterminé que ne le permet le programme général.

Le BA (spécial) comporte une série de 120 crédits qui sont normalement obtenus sur une période de quatre ans. Deux choix importants sont exigés: une matière principale au choix dans le domaine des Beaux-Arts, Humanités, Sciences sociales ou Mathématiques, et une matière secondaire dans les Arts ou les Sciences.

(1) Un minimum de 30 crédits est exigé dans la matière principale, dont au moins 24 doivent être des cours "senior"; un maximum de 48 est autorisé. Un minimum de 24 crédits est exigé dans la matière secondaire et un maximum de 30 est autorisé.

Note: Si l'étudiant a une concentration principale en français, son programme comprendra obligatoirement six crédits en littérature française (autre que FRANC 325) et six crédits en littérature ou en civilisation canadienne-française.

(2) Tout étudiant doit compléter au moins 66 crédits en Arts.

(3) **Exigences académiques:** Pour obtenir un BA (spécial), un étudiant doit recevoir une note de 4 ou davantage dans 120 crédits. Une moyenne de 5,5 est exigée dans la concentration principale et dans les 60 derniers crédits ou l'équivalent du programme.

183.4 Baccalauréat en Education

183.4.1 Renseignements généraux

Les deux programmes à la Faculté Saint-Jean préparent les étudiants à l'enseignement dans les écoles francophones et dans les programmes d'immersion. Les candidats ayant complété avec succès leurs années d'études obtiendront un Baccalauréat en Education et seront recommandés pour un Brevet d'enseignement temporaire (Interim Professional Certificate).

(1) **Le programme de 4 ans** dans lequel sont normalement admissibles les étudiants qui ont complété la 12e année. Il faut réussir 120 crédits pour compléter le programme.

183.3.8 The Degree of BA (General): Degree Code SA06

The general program of Arts is designed to enable students to obtain a diversified training in more than one branch of study within the limits of a three-year program.

The following regulations govern the program:

(1) Students registering for the BA degree must choose a principal subject of concentration in the humanities, social sciences, or mathematics. To obtain a BA, all students must complete at least 48 units of course weight in Arts.

(2) Students must include in their program a minimum of 18 units of course weight, at least 12 of which must be senior courses, and a maximum of 30 in a principal subject of concentration. A minimum of 18 and a maximum of 24 units of course weight in a second subject of concentration are required.

Note: If the principal subject of concentration is French, students will be required to take three units of course weight in French literature (other than FRANC 325) and three units of course weight in French-Canadian literature or civilization.

(3) Students registering in the second year of their program must declare the subjects of their principal and second concentrations.

(4) No student may include more than 42 junior units of course weight in the program, except by special permission of the Dean.

(5) To obtain a BA, students must present a grade of 4 or better in 90 units of course weight. A grade point average of at least 5.5 must be obtained over all courses in the principal subject of concentration and on the last 60 units of course weight, or the equivalent credited to the degree after the first year.

(6) In exceptional circumstances, the Dean may permit a student to proceed to a degree over a longer period than three years, or to meet the requirements in a shorter time by attending Intersession or taking extra courses during the Winter Session.

(7) No more than 24 units of course weight may be taken for degree credit in a subject other than the subject of concentration.

(8) After completion of first year requirements, students may include 12 units of course weight chosen from outside the Arts and Sciences.

Consult §44 for details regarding selection of courses offered by the various Arts Departments.

183.3.9 Certificate of Equivalence

Applicants holding a University of Alberta BA (General) degree may qualify for a certificate indicating that they have met the requirements of the BA (Special) or BA (Canadian Studies) degree by completing 30 further units of course weight or more if required, to meet the curriculum requirements of Faculté Saint-Jean. This option is not open to degree holders from other universities.

183.3.10 The Degree of BA (Special): Degree Code SA12

The BA (Special) program is designed to enable students to obtain a diversified education in more than one branch of study, but with a greater degree of specialization in a particular field than is available in the General program.

The BA (Special) consists of 120 units of course weight usually taken in four years. Two concentrations are required: a principal subject chosen from the Fine Arts, Humanities, Social Sciences, or Mathematics and a second subject which may be chosen in either Arts or Science.

(1) In the principal subject a minimum of 30 units of course weight is required, at least 24 of which must be senior courses; a maximum of 48 units of course weight is permitted. In the second subject a minimum of 24 units of course weight is required and a maximum of 30 is permitted.

Note: If their principal subject of concentration is French, students will be required to take six units of course weight in French literature (other than FRANC 325) and six units of course weight in French-Canadian literature or civilization.

(2) Students must secure credit in at least 66 units of course weight in Arts.

(3) **Academic performance:** To qualify for a BA (Special), students must present a grade of 4 or better in a minimum of 120 units of course weight. A grade point average of at least 5.5 must be obtained over all courses in the principal subject of concentration and on the last 60 units of course weight or the equivalent credited to the degree.

183.4 The Degree of Bachelor of Education

183.4.1 General Information

The two programs at Faculté Saint-Jean prepare teachers to work in francophone schools and in French immersion programs. Students having successfully completed their studies will obtain a BEd and will be recommended for the Interim Professional Certificate.

(1) **The 4 year program** to students meeting admission requirements normally after completion of their Grade 12. The program consists of 120 units of course weight.

(2) **Le programme de 2 ans** offert aux détenteurs d'un grade universitaire de premier cycle (BA, BSc ou autre) qui ont l'intention de se diriger vers l'enseignement. Il faut réussir 60 crédits pour compléter le programme.

Note: Brevet d'enseignement. On pourra toutefois recommander au brevet d'enseignement temporaire l'étudiant au BEd/AD qui aura complété 42 crédits en éducation, selon les exigences du ministère de l'Education de l'Alberta. Les étudiants intéressés doivent consulter le Responsable des admissions et de la gestion des dossiers.

Philosophie de l'éducation

La formation des enseignants à la Faculté Saint-Jean est basée sur le principe suivant lequel l'étudiant est l'agent principal de sa formation. L'étudiant est ainsi appelé à établir un équilibre entre la liberté individuelle, qui lui confère sa dignité et ses droits, et la responsabilité sociale, morale et civique. L'étudiant se doit de se prendre en main et d'assurer la réflexion, les expériences et les démarches lui permettant d'atteindre un niveau de maturité intellectuelle, affective, esthétique, morale et sociale exigé de celui qui veut assumer le rôle de guide et de modèle pour de jeunes élèves. En outre, la Faculté Saint-Jean tient à préparer des futurs enseignants capables de travailler efficacement **en français** soit dans un milieu d'immersion, soit dans un milieu francophone.

Objectifs professionnels

En plus de vouloir assurer la culture générale du futur enseignant, ainsi que sa capacité de promouvoir la langue et la culture canadiennes-françaises, la Faculté Saint-Jean dispense un ensemble de cours professionnels dont les buts sont:

(1) de permettre au futur enseignant d'acquérir des connaissances concernant l'apprenant, son développement humain et social, son apprentissage et son milieu. Le futur enseignant doit également se familiariser avec les composantes de l'acte pédagogique, avec le rôle et les responsabilités de l'enseignant en général, et, en dernier lieu, bien comprendre le domaine de l'éducation française en milieu français et en milieu d'immersion.

(2) de permettre au futur enseignant de développer des habiletés tant langagières que professionnelles;

(3) de permettre au futur enseignant de développer des attitudes lui permettant d'acquérir des connaissances nécessaires à la profession et de développer des habiletés requises tout en assurant son propre développement professionnel et humain de manière à bien se préparer au rôle d'enseignant.

Enseignement pratique

L'enseignement pratique comporte normalement trois phases obligatoires. La phase I se situe habituellement dans la deuxième année du programme pour l'élémentaire et en troisième année pour le secondaire. Les phases II et III incluent les treize (13) semaines d'expériences vécues dans les écoles et se situent dans la quatrième année, dite année professionnelle.

Normalement, les trois phases obligatoires doivent être complétées à la Faculté Saint-Jean. L'étudiant inscrit aux phases II et III à la Faculté Saint-Jean doit être prêt à accepter un placement à l'extérieur de la ville.

Programmes

La Faculté offre les spécialisations suivantes:

Elémentaire

Spécialisations
Généraliste
Pré-scolaire

Secondaire

(une des spécialisations doit être le français)

Spécialisations majeures
Etudes sociales
Français
Mathématiques
Sciences générales

Spécialisations mineures
Art dramatique
Education physique
Etudes sociales
Français
Mathématiques
Musique
Sciences générales
Sciences physiques

Au niveau du programme de 4 ans, la Faculté offre deux orientations au choix de l'étudiant:

(1) l'enseignement en milieu d'immersion française

(2) l'enseignement en milieu francophone minoritaire.

(2) **The 2 year program** to holders of approved undergraduate degrees (BA, BSc or other). The program consists of 60 units of course weight.

Note: Teaching Certificate. BEd/AD students who have completed 42 units of course weight in Education may be recommended for an Interim Teaching Certificate according to the requirements of the Department of Education of Alberta. Interested students should consult the admissions officer.

Philosophy of Education

The education program at Faculté Saint-Jean is based on the principle that students are the primary agents of their own learning. Thus, they are expected to find a balance between their personal freedom, self-esteem and individual rights, and their social and moral responsibilities. Students must assume the responsibility for personal growth and professional development by ensuring the reflection, inquiry and experiences which will allow them to attain the intellectual, emotional, aesthetic, moral, and social maturity necessary to guide young students and to act as their role model. As well Faculté Saint-Jean undertakes to prepare future teachers to work effectively **in french** in immersion or in francophone settings.

Professional Objectives

In addition to providing future teachers with a general education and with the capacity to promote the French-Canadian language and culture, Faculté Saint-Jean offers a variety of professional courses, with the following objectives:

(1) to enable future teachers to gain knowledge of the personal and social development of young students, the way they learn and the community in which they live. Future teachers must become familiar with all aspects of the teaching process and with the role and responsibilities of the teacher in general, and must gain as well a thorough understanding of the field of French education, both for native speakers and for students in an immersion setting;

(2) to enable future teachers to develop appropriate linguistic and professional skills;

(3) to enable future teachers to develop the appropriate attitudes for acquiring professional knowledge and skills, while ensuring that both their professional and personal development are consistent with their future roles as teachers.

Education Practicum

The practicum normally comprises three compulsory phases which include 13 weeks of field experiences. Phase I is usually taken during the second year in elementary education and during the third year in secondary education. Phases II and III, which include the 13 weeks of field experience, are usually taken in the fourth year, the "professional year".

Normally the three compulsory phases must be completed at Faculté Saint-Jean. Students registered in Phases II and III may be required to complete their practicum outside of Edmonton.

Programs

Faculté Saint-Jean offers the following teaching specializations:

Elementary

Specializations
Generalist
Early Childhood

Secondary

(either the major or minor specialization must be French)

Major Specializations
French
General Sciences
Mathematics
Social Studies

Minor Specializations
Drama
French
General Sciences
Mathematics
Music
Physical Education
Physical Sciences
Social Studies

Faculté Saint-Jean offers two orientations in the 4-year program:

(1) in French Immersion Education

(2) in Francophone Education in minority settings.

183.4.2 Notes académiques

(1) Pour avoir le titre de BEd, tout étudiant doit obtenir une moyenne d'au moins 5,0 dans tous les cours des trois dernières années de son programme d'études.

(2) Afin d'être recommandé pour un Brevet d'enseignement temporaire, tout étudiant doit obtenir une moyenne d'au moins 5,0 dans tous les cours professionnels obligatoires.

(3) Tout étudiant, en possession de crédits post-secondaires, s'inscrivant au programme du BEd à l'Université de l'Alberta, doit obtenir une moyenne d'au moins 5,0 dans tous les cours suivis à l'Université de l'Alberta et crédités en vue de son diplôme.

(4) a. Un étudiant qui échoue aux cours de la Phase II ou de la Phase III ne peut s'inscrire à aucun autre des cours d'enseignement pratique et doit se retirer du programme de pédagogie de la Faculté Saint-Jean.
b. Un étudiant qui abandonne des cours de la Phase II ou la Phase III de l'enseignement pratique doit avoir la permission du coordonnateur du programme de pédagogie avant de se ré-inscrire dans ces cours.
c. Un étudiant en période probatoire pour des raisons académiques ne peut pas s'inscrire aux cours de la Phase II ou de la Phase III.

(5) Aucun étudiant ne pourra refaire plus d'une année pendant son programme d'études.

(6) Le maximum de crédits supplémentaires en éducation qui peuvent dépasser le nombre total de crédits exigés pour tout programme de BEd est de 30, incluant les reprises.

(7) Les étudiants du BEd et du BEd/AD doivent compléter, avant la fin de leur programme, un cours de 3 crédits en informatique ou l'équivalent, de préférence CU ME 347, ou CMPUT 161, EDACT 274, INFOR 161.

183.5 Programme du diplôme de perfectionnement en éducation

183.5.1 Renseignements généraux

La Faculté Saint-Jean offre deux diplômes de perfectionnement pour les enseignants:

(1) en milieu francophone minoritaire et

(2) en milieu d'immersion française.

Les programmes sont conçus pour permettre aux enseignants de parfaire leurs connaissances et leurs compétences dans certains domaines reliés à l'enseignement en langue française.

183.5.2 Les exigences du programme

Le programme comporte 24 crédits de niveau senior et de deuxième cycle, répartis comme suit: 15 crédits obligatoires et neuf crédits optionnels. Les cours obligatoires permettent d'acquérir la connaissance théorique et linguistique générale de chacun des domaines de concentration (enseignement en situation d'immersion française et enseignement dans les milieux francophones minoritaires), tandis que les cours optionnels permettent une spécialisation dans des domaines répondant aux intérêts et aux besoins professionnels des étudiants.

L'étudiant peut s'inscrire à temps plein ou à temps partiel, cependant le diplôme doit être complété en quatre années universitaires à partir de l'inscription initiale.

Pour de plus amples informations, veuillez communiquer avec le directeur du programme de pédagogie à la Faculté Saint-Jean.

183.5.3 Directives du programme

(1) Les candidats doivent s'inscrire en tant que "étudiants au diplôme de perfectionnement" à la Faculté Saint-Jean.

(2) Les étudiants doivent obtenir une note de 5 ou plus dans chacun des cours du diplôme.

(3) L'admission à un diplôme ne constitue pas une admission à un programme de maîtrise. Les étudiants qui désirent s'inscrire à un programme de maîtrise doivent consulter les autorités concernées à la faculté d'Études supérieures.

(4) Les cours ayant déjà servi à l'obtention d'un diplôme de MEd/BEd ne peuvent être crédités à nouveau en vue du diplôme.

(5) Les étudiants inscrits au programme du diplôme ne sont tenus ni aux tests/examens ni aux cours obligatoires des programmes du premier cycle de la Faculté Saint-Jean.

(6) S'il désire changer son programme, l'étudiant doit consulter le doyen ou le directeur du secteur pédagogique de la Faculté Saint-Jean.

183.5.4 Les programmes

(1) **Diplôme de perfectionnement pour les enseignants en milieu francophone minoritaire**

183.4.2 Academic Standing

(1) To be granted the BEd degree students must obtain a grade point average of at least 5.0 on all courses of the last three years of their program.

(2) To be recommended for the Interim Professional Certificate, students must obtain a grade point average of 5 in all compulsory professional courses.

(3) Students transferring to the BEd program at the University of Alberta with Advanced Standing must obtain a grade point average of at least 5.0 in all courses completed at the University of Alberta for credit towards the degree.

(4) a. Students who receive a failing grade in Phase II or Phase III courses will not be allowed to register in any further Education Practicum courses and will be required to withdraw from the education program at Faculté Saint-Jean.
b. Students who withdraw from a Phase II or Phase III Education Practicum course must have the approval of the Coordinator of the Education program to re-register for that course.
c. Students on probation for academic reasons may not register in any Phase II or Phase III courses.

(5) A student will not be granted the privilege of repeating a failed year more than once during the degree program.

(6) The maximum number of additional courses in education, including repeated courses, in which a student may enroll during a BEd program may not exceed by more than 30 units of course weight the number of units of course weight required for completion of any BEd program.

(7) BEd and BEd/AD students must complete in their program three units of course weight in computing science or the equivalent, preferably CU ME 347, or CMPUT 161, EDACT 274, INFOR 161.

183.5 The Diploma Programs in Education

183.5.1 General Information

Faculté Saint-Jean offers two diploma programs:

(1) In Francophone Education in minority settings; and

(2) In French Immersion Education.

The Diploma programs are designed to enable practising teachers to further their knowledge and skills in designated areas related to French language education.

183.5.2 Program Requirements

The program consists of 24 units of course weight at the senior and graduate levels, 15 of which are compulsory (the program core) and nine are elective. Required courses provide the general theoretical and linguistic framework for each of the areas of concentration (French Immersion Education and Francophone Education in minority settings) while electives provide opportunities for specialization relative to the interests and professional needs of the students.

The Diploma may be completed on a full-time or part-time basis, but must be finished within four academic years of initial registration.

More detailed information is available by communicating with the Director of the Education Program, Faculté Saint-Jean.

183.5.3 Program Guidelines

(1) Candidates will register as "Diploma Students" in Faculté Saint-Jean.

(2) Students must receive a grade of 5 or better in any course credited to the Diploma.

(3) Admission to the Diploma Program does not constitute admission to a Master's Program. Students wishing to apply for a Master's program should consult the appropriate authorities to ascertain the requirements for graduate degrees.

(4) Students who now hold an MEd/BEd degree may not obtain the Diploma on the basis of courses already credited toward the MEd or the BEd.

(5) Students registered in the Diploma Program are not held to the examinations and the compulsory courses which are part of the undergraduate programs of the Faculté.

(6) For a change in program, students should consult the Dean or the Director of the Education Program at Faculté Saint-Jean.

183.5.4 Programs

(1) **Diploma Program in Francophone Education in Minority Settings**

Cours obligatoires (15 crédits)

a. CU ME 497 (3 crédits)
b. CU ME 500 (3 crédits)
c. CU ME 501 (3 crédits)
d. Trois crédits de niveau 300 ou 400 en fondements de l'éducation ayant trait à l'éducation francophone en milieu minoritaire (ex. FO ED 401)
e. Trois crédits de niveau 300 ou 400 de langue, ou 3 crédits de niveau 300 ou 400 en littérature ou en culture et civilisation, française ou canadienne-française.

Cours optionnels (9 crédits)

Les cours optionnels permettent une spécialisation dans des domaines répondant aux intérêts et aux besoins professionnels des étudiants.

a. 3 crédits
b. 3 crédits
c. 3 crédits

Diplôme de perfectionnement pour les enseignants en milieu d'immersion française

Cours obligatoires (15 crédits)

c. CU ME 501 (3 crédits)
d. Trois crédits de niveau 300 ou 400 dans le domaine de l'éducation bilingue (ex. PS ED 477)
e. Trois crédits de niveau 300 ou 400 de langue, ou 3 crédits de niveau 300 ou 400 en littérature ou en culture et civilisation, française ou canadienne-française.

Cours optionnels (9 crédits)

Les cours optionnels permettent une spécialisation dans des domaines répondant aux intérêts et aux besoins professionnels des étudiants.

a. 3 crédits
b. 3 crédits
c. 3 crédits

3.6 Baccalauréat en Education/Baccalauréat-ès-Sciences

3.6.1 Renseignements Généraux:

Le programme de cinq ans est une combinaison du BEd secondaire et du BSc éral et comprend 150 crédits. La nature du programme permet à l'étudiant tenir les deux diplômes puisqu'il complète toutes les exigences des deux grammes à l'exception du cours de littérature anglaise requis au BSc. Cette ence a été remplacée par un cours obligatoire en littérature française ou adienne-française. Les finissants de ce programme seront recommandés pour revet d'enseignement temporaire.

Les étudiants doivent choisir une spécialisation et une concentration mineure s deux des trois domaines suivants: sciences mathématiques, sciences physiques, ciences biologiques. Tous les étudiants doivent en plus compléter une concen-on mineure en français. Le but de ce programme préparatoire est de former des eignants possédant une bonne connaissance de la langue et de la culture çaises en plus d'un entraînement supérieur en sciences.

L'étudiant, se classant dans la voie avancée en français, peut choisir entre deux ntations pour se préparer à l'enseignement, en milieu francophone minoritaire ou nilieu d'immersion française.

Les étudiants des programmes du BEd ou du BSc peuvent être admis au gramme combiné après la première ou la deuxième année en autant qu'ils aient plété les cours requis, que les résultats de l'année précédente soient satisfai-ts et qu'ils aient rempli les conditions d'admission du programme combiné au nent du transfert. Un étudiant pourra normalement transférer du programme biné au programme du BEd ou du BSc (général) après la première ou la xième année et compléter un seul diplôme dans les délais prévus.

Compulsory courses (15 units of course weight)

a. CU ME 497 (3 units of course weight)
b. CU ME 500 (3 units of course weight)
c. CU ME 501 (3 units of course weight)
d. three units of course weight (300- or 400-level) in Educational Foundations relating to francophone education in minority settings (eg: FO ED 401)
e. three units of course weight (300- or 400-level) in language, or 3 units of course weight in French or French-Canadian literature or culture and civilization.

Options (9 units of course weight)

Elective courses provide opportunities for specialization relative to the interests and professional needs of the students.

a. 3 units of course weight
b. 3 units of course weight
c. 3 units of course weight

(2) **Diploma Program in French Immersion Education**

Compulsory courses (15 units of course weight)

a. CU ME 458 (3 units of course weight)
b. CU ME 500 (3 units of course weight)
c. CU ME 501 (3 units of course weight)
d. 3 units of course weight (300- or 400-level) in bilingual education (eg: PS ED 477)
e. three units of course weight (300- or 400-level) in language, or three units of course weight in French or French-Canadian literature or culture and civilization.

Options (9 units of course weight)

Elective courses provide opportunities for specialization relative to the interests and professional needs of the students.

a. 3 units of course weight
b. 3 units of course weight
c. 3 units of course weight

183.6 Bachelor of Education/Bachelor of Science Degrees

183.6.1 General Information

The five-year program, consisting of 150 units of course weight, is a combination of the BEd (secondary route) and BSc (general) degrees. Its integrated nature allows a student to receive both the BEd degree and the BSc degree by meeting all the requirements of both programs with the exception of the English literature requirement of the latter which has been replaced by a compulsory course in French or French-Canadian literature. Graduands from the program will meet the requirements for teacher certification.

Students are required to select a Specializaiton from one of the three areas of Science: Mathematical Sciences, Physical Sciences, and Biological Sciences. One of the two remaining areas must be selected as a Science Minor. In addition, all students are required to present a Minor in French. It is intended that graduands have a sound knowledge of French language and culture in addition to enhanced Science training presented by this teacher-preparation program.

Students who follow the Advanced route may select one of the two routes of teacher preparation, in Francophone Education in minority settings, or in French Immersion Education.

Students in either a BEd or a BSc program may transfer into the combined program after the first or second year providing that all courses and academic standing of Year One and Year Two of the combined program, as well as all admission requirements, have been met at the time of the transfer. Normally, a student will be able to transfer from the combined program to a BEd or BSc (general) program after Years One and Two and should be able to complete the single degree within the normal time frame.

183.6.3 Exigences du Programme

(1) Pour obtenir lex deux diplômes, BEd et BSc, un édtudiant doit obtenir 150 crédits répartis comme suit:

a. Orientation en milieu d'immersion française: 72 crédits en sciences, 54 crédits en pédagogie et 24 crédits en français.

Spécialisation (sciences) — 36 crédits
Mineure (sciences) — 24 crédits
Mineure (français) — 24 crédits
Informatique — 3 crédits
Histoire ou philosophie de la science — 3 crédits
Options (sciences) — 6 crédits
Cours de pédagogie — 54 crédits

b. Orientation en milieu francophone minoritaire: 72 crédits en sciences, 51 crédits en pédagogie et 27 crédits en français.

Spécialisation (sciences) — 36 crédits
Mineure (sciences) — 24 crédits
Mineure (français) — 27 crédits
Informatique — 3 crédits
Histoire ou philosophie de la science — 3 crédits
Options (sciences) — 6 crédits
Cours de pédagogie — 51 crédits

(2) Normalement, un maximum de 48 crédits au niveau "junior" ou l'équivalent est autorisé dans le programme combiné.

(3) Un étudiant doit réussir un minimum de 12 crédits de niveau 300 dans son domaine de spécialisation et un minimum de six crédits de niveau 300 dans sa concentration mineure en sciences.

(4) Un étudiant doit réussir à l'intérieur de sa concentration mineure en français: LINGQ 200, FRANC 322, trois crédits en culture/civilisation (voir 182.8(5)), et trois crédits en littérature (FRANC 325 ou CA FR 350).

(5) Un étudiant doit réussir à l'intérieur de ses cours en pédagogie au moins quatre des cinq cours suivants: CU ME 364, 365, 368, 369, option en pédagogie.

(6) Un étudiant doit réussir, sur l'histoire ou la philosophie de la science, trois crédits parmi les cours suivants: BIOLE 315, HUME 420, PHILE 364 ou PHILE 386.

(7) Un étudiant doit normalement réussir 30 crédits de niveau "junior" avant de pouvoir s'inscrire dans des cours de niveau "senior."

(8) Pour être admis avec équivalences universitaires dans le programme, un étudiant doit avoir obtenu une moyenne minimale de 5,5.

(9) Pour être autorisé à poursuivre le programme, un étudiant doit conserver une moyenne minimale de 5,5. S'il n'a pas obtenu 5,5 de moyenne, l'étudiant devra se retirer du programme combiné et pourra transférer, si éligible, au programme du BEd ou du BSc.

(10) Pour recevoir les diplômes du BEd et du BSc, l'étudiant devra conserver une moyenne d'au moins 5,5 dans tous les cours avec notes et dans tous les cours de la spécialisation en sciences.

(11) Afin d'être recommandé pour un brevet d'enseignement temporaire, l'étudiant doit obtenir une moyenne d'au moins 5,0 dans tous les cours professionnels obligatoires.

(12) Un étudiant qui échoue aux cours des Phases II ou III ne peut s'inscrire à aucun autre cours d'enseignement pratique à la Faculté Saint-Jean et doit se retirer du programme.

(13) Un étudiant qui abandonne des cours de la Phase II ou de la Phase III doit obtenir la permission du coordonnateur du programme de pédagogie avant de s'y ré-inscrire.

183.7 Baccalauréat-ès-Sciences

183.7.1 Programme général (programme SA92)

Le programme général du BSc est conçu pour donner à l'étudiant une éducation variée dans plus d'une branche d'étude et il comprend une matière ou un domaine

183.6.3 Program Requirements

(1) To obtain both the BEd degree and the BSc degree, students must successfully complete 150 units of course weight as follows:

a. Francophone Education in minority settings: 72 units of course weight in science, 54 units of course weight in education and 24 units of course weight in French.

Specialization (Science) — 36 units of course weight
Minor in Science — 24 units of course weight
Minor in French — 24 units of course weight
Computing Science — 3 units of course weight
History or Philosophy of Science — 3 units of course weight
Options (Science) — 6 units of course weight
Education courses — 54 units of course weight

b. French Immersion Education: 72 units of course weight in science, 51 units of course weight in education and 27 units of course weight in French.

Specialization (science) — 36 units of course weight
Minor in science — 24 units of course weight
Minor in French — 27 units of course weight
Computing Science — 3 units of course weight
History or Philosophy of Science — 3 units of course weight
Options (science) — 6 units of course weight
Education courses — 51 units of course weight

(2) Normally, a maximum of 48 units of course weight at the junior level is permitted in the combined program.

(3) Students must successfully complete a minimum of 12 units of course weight at the 300-level in the specialization and, in addition, a minimum of six units of course weight at the 300-level in the science minor.

(4) The following courses must be included in the French minor: LINGQ 200, FRANC 322, three units of course weight in culture/civilizaiton (see §182.8. (5)), and three units of course weight in literature (FRANC 325 or CA FR 350).

(5) Four of the five following courses must be included in the Education courses: CU ME 364, 365, 368, 369 or one education option.

(6) Students must successfully complete three units of course weight, among the following courses, in history or philosophy of science: BIOLE 315, HUME 420, PHILE 364, or 386.

(7) Normally at least 30 units of course weight at the junior-level must be successfully completed before students may register in senior-level courses.

(8) In order to be admitted with advanced credits in the program, students must normally possess a Grade Point Average of at least 5.5.

(9) To continue in the combined BEd/BSc program requires a Grade Point Average of at least 5.5. Students who do not meet this requirement must withdraw from the combined program and may apply for admission to either a BEd program or a BSc program if eligible.

(10) To obtain both the BEd and BSc degrees, a Grade Point Average of 5.5 must be attained in all courses for which a mark is granted and in all the specialization courses in science.

(11) To be recommended for the Interim Professional Certificate, students must obtain a Grade Point Average of at least 5.0 in all compulsory professional courses.

(12) Students who receive a failing grade in Phase II or Phase III courses will not be allowed to register in any further Education Practicum courses at Faculté Saint Jean and will be required to withdraw from the program.

(13) Students who withdraw from Phase II or Phase III courses must have the approval of the Coordinator of the Education program to re-register for these courses.

183.7 The Degree of Bachelor of Science

183.7.1 General Program (Degree Code SA92)

The BSc General program is designed to provide students with a diversified education in more than one branch of study and includes a major and a minor Subject or Area of Concentration, each of which must be in Science. In addition t

concentration principal et secondaire, dont les deux doivent être en sciences. En
us de conduire à un diplôme général de BSc, ce programme permet le transfert
suite dans des programmes de "Specialization and Honors", pour lesquels il n'y a
s d'admission au niveau de la première année. Les étudiants inscrits dans le
ogramme devront consulter la description voulue dans l'annuaire pour le pro-
amme particulier qui les intéresse et choisir soigneusement les cours de base de
emière année conformément aux exigences du programme en question. Pour
mpléter son programme, un étudiant doit inclure un certain nombre de cours
erts par la Faculté des sciences lesquels sont enseignés en anglais. Le schéma
pe de ce programme est le suivant:

programme général est soumis aux règlements suivants:

Pour obtenir un diplôme de BSc général, un étudiant doit réussir un total de 120 crédits. L'équivalent d'au moins 72 crédits et d'au plus 102 crédits doit être en Sciences. L'équivalent d'au moins 30 crédits et d'au plus 48 crédits doit être en Arts dont FRANC 322 et un cours de trois crédits parmi l'ensemble des cours énumerés à l'article §182.8(5)b. sont obligatoires.

Chaque étudiant doit avoir une matière ou un domaine de concentration principal et une matière ou un domaine de concentration secondaire, et les deux doivent être en Sciences. L'équivalent d'un minimum de 36 crédits et d'un maximum de 48 est nécessaire dans la matière ou le domaine de concentration principal et cela ne doit pas comprendre plus que l'équivalent de 18 crédits de niveau "junior". L'équivalent d'un minimum de 24 crédits et d'un maximum de 36 est nécessaire dans la matière ou le domaine de concentration secondaire, et cela ne doit pas comprendre plus que l'équivalent de 12 crédits de niveau "junior".

Une matière de concentration se compose de cours provenant soit de Chimie, Physique, Mathématiques, Géographie, Géologie ou Psychologie. (La Biologie convient comme domaine - les Sciences biologiques - mais pas comme matière.)

Un domaine de concentration se compose de cours provenant d'un des cinq groupes suivants:

a. **Sciences biologiques:** Biochimie, Botanique, Entomologie, Génétique, Microbiologie, Pharmacologie, Physiologie, Zoologie et les cours intitulés Biologie.

b. **Sciences physiques:** Astronomie, Biochimie, Chimie, Géophysique, Physique mathématique, et Physique.

c. **Sciences mathématiques:** Informatique, Mathématiques, Statistique et Probabilités appliquées.

providing for a BSc General Degree, this allows for subsequent transfer to Specialization and Honors programs for which there is no first-year admission. Students enrolled in the General program who intend to transfer to another program should consult the appropriate Calendar description for the particular program of interest and carefully select their first-year core courses in accordance with the requirements of the specific program. It should be noted that this program requires that students include courses offered by the Faculty of Science which are available only in English. The basic outline of the program is as follows:

The following regulations govern the General program:

(1) To obtain a BSc General Degree a student must receive credit in 120 units of course weight. At least 72 and not more than 102 units of course weight must be in Science. At least 30 and not more than 48 units of course weight must be in Arts among which FRANC 322 and one option from the list contained in §182.8(5)b. are required.

(2) Each student must complete a major and a minor Subject or Area of Concentration, each of which must be in Science. A minimum of 36 and a maximum of 48 units of course weight is required in the major Subject or Area of Concentration, with no more than 18 at the junior level. At least 24 and not more than 36 units of course weight are required in the minor Subject or Area of Concentration, with no more than 12 at the junior level.

A Subject of Concentration consists of courses taken from either Chemistry, Physics, Mathematics, Geography, Geology, or Psychology. (Biology is appropriate as an area, not as a subject.)

An Area of Concentration consists of courses taken from one of the five following groups:

a. **Biological Sciences:** Biochemistry, Botany, Entomology, Genetics, Microbiology, Pharmacology, Physiology, Zoology, and courses titled Biology.

b. **Physical Sciences:** Astronomy, Biochemistry, Chemistry, Geophysics, Mathematical Physics, and Physics.

c. **Mathematical Sciences:** Computing Science, Mathematics, Statistics, and Applied Probability.

d. **Sciences de la terre:** Cartographie, Géographie, Géologie, Géophysique et Météorologie.

e. **Sciences cognitives:** Linguistique et Psychologie.

Consulter l'horaire pour les cours offerts dans les domaines ci-haut mentionnés.

Les cours d'une matière de concentration principale ou secondaire ne peuvent pas être inclus parmi les cours qui sont employés pour satisfaire aux exigences d'un domaine de concentration principal ou secondaire, par exemple, les cours de mathématiques ne peuvent pas être employés dans une matière de concentration principale ou secondaire si le domaine de concentration principal ou secondaire comprend des cours de mathématiques.

(3) Le programme général se caractérise par une base de cours dont les suivants sont obligatoires:

a. FRANC 322 et trois crédits en culture/civilisation. (Voir §182.8(5)).

b. Un cours de six crédits choisi parmi les cours "junior" d'anglais (normalement en deuxième année).

c. six crédits parmi les cours "junior" suivants: Informatique, Mathématiques ou Statistique et Probabilités appliquées.

d. six crédits de niveau "junior" de Chimie ou de Physique.

e. six crédits parmi les cours "junior" suivants: Biologie, Entomologie, Génétique, Géographie, Géologie, Psychologie ou Zoologie.

(4) Normalement un étudiant doit réussir au moins l'équivalent de 30 crédits de niveau "junior" avant de pouvoir s'inscrire à des cours au niveau "senior" (à l'exception de FRANC 261).

(5) On ne peut pas prendre plus que l'équivalent de 42 crédits au niveau "junior".

(6) Chaque étudiant doit réussir l'équivalent d'un minimum de 12 crédits au niveau 400 dans sa matière ou son domaine de concentration principal et en plus l'équivalent d'au moins six crédits au niveau 400 dans sa matière ou son domaine de concentration secondaire.

(7) Un maximum de 12 crédits peut être suivi dans des facultés autres que la Faculté des Arts ou la Faculté des Sciences. Ces cours seront considérés en tant qu'options et ne seront inclus ni dans la matière ou domaine de concentration principal ni dans la matière ou le domaine de concentration secondaire. Ces cours ne pourront figurer parmi les 30 crédits requis dans les Arts.

183.7.2 Niveau académique et diplômes (SA92)

Les règlements suivants s'appliquent aux programmes généraux:

(1) Pour obtenir un diplôme de BSc général, il faut avoir une moyenne d'au moins 5,5 pour l'équivalent des 60 derniers crédits comptant pour l'obtention du diplôme. De plus, il faut avoir une moyenne d'au moins 5,5 dans tous les cours de la matière ou du domaine principal de concentration.

(2) Un étudiant peut prendre plus de quatre ans pour obtenir un diplôme, ou remplir les conditions requises en un temps plus court, en suivant des cours au premier ou au deuxième semestre de l'intersession.

(3) Le diplôme de BSc général avec la mention "distinction" est décerné à un étudiant s'il a obtenu une moyenne d'au moins 7,5 dans l'équivalent des 60 derniers crédits à la condition que l'étudiant ait suivi 30 crédits pendant chaque session d'hiver de ses deux dernières années.

Il y a des variantes parmi les règlements des différents programmes. Les règlements de la Faculté Saint-Jean sont les mêmes que ceux de la Faculté des Sciences. On trouvera ces règlements à la §193 de l'annuaire de l'Université.

Période de transition

Depuis septembre 1988, tous les nouveaux candidats au programme du BSc Général à la Faculté Saint-Jean, avec ou sans équivalences universitaires, sont admis au programme de quatre ans. Ces étudiants devront remplir les conditions requises de ce programme.

Les étudiants qui ont commencé le programme du BSc de trois ans avant septembre 1988, à l'Université de l'Alberta (ou dans un établissement avec lequel l'université a des ententes de transfert) peuvent poursuivre le programme alors en vigueur. Ces étudiants devront remplir les conditions requises du diplôme de BSc général de trois ans le ou avant le 30 avril 1995. Ces étudiants peuvent faire une demande pour être admis au programme de quatre ans. Aucune demande pour transférer du programme de quatre ans au programme de trois ans ne sera acceptée.

183.7.3 Programme général du BSc de 3 ans (programme SA93)

Le programme général pour l'étude des Sciences permet à l'étudiant d'obtenir une formation pluridisciplinaire au terme d'un programme de trois ans.

Le programme est soumis aux règlements suivants:

(1) Pour obtenir un diplôme de BSc général, un étudiant doit réussir 90 crédits ou l'équivalent. Un minimum de 48 et un maximum de 72 crédits ou l'équivalent doivent être des cours de sciences, et un minimum de 18 et un maximum de 42 crédits ou l'équivalent, doivent être des cours d'Arts.

(2) Lors de l'inscription à la deuxième année de son programme, chaque étudiant doit déclarer les matières de ses concentrations principale et secondaire.

d. **Earth Sciences:** Cartography, Geography, Geology, Geophysics, ar Meteorology.

e. **Cognitive Sciences:** Linguistics and Psychology

For courses offered in the above areas of concentration, please consult th timetable.

Courses in a major or a minor subject of concentration may not be include among courses which are used to meet requirements for either a major minor area of concentration, e.g. courses in Mathematics cannot be used a major or minor subject of concentration if the major or minor area concentration includes courses in Mathematics.

(3) The General Program is characterized by a Core of courses, which must includ the following:

a. FRANC 322 and three units of course weight in culture/civilization. (See §182.8(5)).

b. Six units of course weight from among junior courses in English (normally the second year).

c. Six units of course weight from among junior courses in Computing Scienc Mathematics, or Statistics, and Applied Probability.

d. Six units of course weight from among junior courses in Chemistry Physics.

e. Six units of course weight from among junior courses in Biology, Entomolog Genetics, Geography, Geology, Psychology, or Zoology.

(4) Normally at least 30 units of course weight at the junior level must successfully completed before students may register in senior-level cours (except FRANC 261).

(5) Not more than 42 units of course weight can be taken at the junior level.

(6) Students must successfully complete a minimum of 12 units of course weight the 400-level in the major Subject or Area of Concentration and, in addition, least six units of course weight at the 400-level in the minor Subject or Area Concentration.

(7) A maximum of 12 units of course weight may be taken from Faculties other th Science or Arts. Such subjects are considered as approved options and are n included as part of the major or minor Subject or Area of Concentration n towards the minimum requirement of 30 units of course weight in Arts.

183.7.2 Academic Standing and Graduation (SA92)

The following regulations govern General Programs:

(1) To obtain a BSc General degree, a grade point average of at least 5.5 must b attained on the last 60 units of course weight credited to the degree. Moreov a grade point average of at least 5.5 must be attained in all courses in the maj Subject or Area of Concentration.

(2) Students may proceed to a degree over a longer period than four years, or me the requirements in a shorter time by attending Intersession, first- and/ second-term.

(3) BSc General degrees with Distinction are awarded if students obtain a gra point average of not less than 7.5 over the last 60 units of course weight a provided students have completed a full academic load (30 units of cour weight) during each Winter Session of the last two years.

Further regulations vary from program to program. Faculté Saint-Jean regulatio are the same as those of the Faculty of Science, and are therefore giv together with the details of the program to which they apply in §193 of t University Calendar.

Transition Period

Effective September, 1988, all new registrants in the BSc General program Faculté Saint-Jean, with or without post-secondary transfer credit, will be admitt into the four-Year BSc General program. Such students will be required to meet t requirements of this program.

Students who, prior to September, 1988, entered the BSc General Program the University of Alberta (or an institution with which the University of Alberta has transfer agreement) may continue under the program requirements then in effe Such students must complete the three-year BSc General Degree requirements or before April 30, 1995. Such students may apply for admission into the four-ye BSc General Program. However, applications for transfer from the four-year B General Program to the three-year BSc General Program will not be accepted.

183.7.3 General Program: Three-Year BSc (Degree Code SA93)

General programs in Science are designed to enable students to obt diversified training in more than one branch of study within the limits of a three-ye program.

The following regulations govern the programs:

(1) To obtain a general BSc degree students must complete 90 units of cour weight or the equivalent. Of these at least 48, and no more than 72 or t equivalent must be Science courses, and at least 18 and no more than 42 or t equivalent, must be Arts courses.

(2) Students registering in the second year of their program must declare t subjects of their principal and second concentrations.

Tout étudiant doit prendre un minimum de 24 crédits et un maximum de 36 ou l'équivalent, dans la matière de concentration principale, qui doit faire partie du domaine des Sciences, et un minimum de 18 crédits et un maximum de 24 ou l'équivalent, dans la matière secondaire qui doit également faire partie des Sciences. Dans chacune de ces concentrations, un maximum de 12 crédits ou l'équivalent peut être du niveau "junior.'.

Normalement un maximum de 42 crédits "junior" ou l'équivalent est autorisé dans le programme général.

Au maximum, l'équivalent de six crédits approuvé par le Doyen peut être suivi dans des facultés autres que celles des Arts et des Sciences. De tels cours sont considérés comme des "options approuvées" et ne peuvent être inclus dans le minimum de 18 crédits ou l'équivalent en Arts, ni dans le minimum des 48 crédits ou l'équivalent en Sciences.

3.7.4 Niveau académique et diplômes (SA93)

Les programmes généraux sont soumis aux règlements suivants:

Pour obtenir un diplôme de BSc général, il faut obtenir une moyenne d'au moins 5,5 dans les 60 derniers crédits ou l'équivalent comptant pour l'obtention du diplôme. En outre, il faut obtenir une moyenne d'au moins 5,5 dans tous les cours de la concentration principale.

Le Doyen peut autoriser un étudiant à poursuivre ses études en vue d'un diplôme pendant une période excédant les trois ans ou à remplir les conditions requises en moins de trois ans en prenant des cours au premier ou au deuxième semestre de l'intersession, ou bien en prenant des cours supplémentaires durant le semestre d'hiver.

Il y a des variantes parmi les règlements des différents programmes. Les ements de la Faculté Saint-Jean sont les mêmes que ceux de la Faculté des nces. On trouvera ces règlements à la §193 de l'annuaire de l'Université.

3.8 Options

Le terme "option" désigne le cours qu'un étudiant peut choisir librement s'il a les requis nécessaires. "Approved option" est une option autorisée par le départe- t qui dirige le programme de l'étudiant.

4 Description des cours

4.1 Renseignements généraux

La description des cours correspond à la langue d'enseignement. C'est ainsi que la cription du cours GEOGE 130 (Géographie 130) est donnée en français parce qu'il enseigné en français. Par contre, ANGL 100 (Anglais 100) est décrit et enseigné en ais.

Chaque cours est représenté par une abréviation et un numéro.

Les cours numérotés 100 à 199 sont des cours "junior" suivis normalement par tudiants de la première année, et de 200 à 499, les cours "senior" qui sont suivis s la première année. Les cours au-dessus de 500 sont habituellement réservés études supérieures.

Après le titre du cours, le signe "★" indique la valeur de ce cours et le chiffre sert rdinateur pour calculer la moyenne finale. Le cours d'une année académique ou s complet est suivi du chiffre ★6 et le demi-cours du chiffre ★3. La valeur de ains cours qui impliquent la recherche varie suivant la durée et la difficulté des aux.

Les trois chiffres placés entre parenthèses indiquent le nombre d'heures par aine et paraissent dans l'ordre suivant:

Le premier chiffre indique les heures de cours.

Le deuxième chiffre indique: les heures de séminaire (s); les heures de démonstra- (d); les heures de clinique (c); les heures de laboratoire combiné avec un cours (L).

Le troisième chiffre indique les heures de laboratoire.

Exemple: (3-0-3) signifie trois heures de cours, pas de séminaire et trois heures aboratoire par semaine.

Demi-cours: Certains cours ne se donnent que pendant un semestre; deux de cours sont considérés comme un cours complet. S'il s'agit d'une option, deux i-cours différents pourront être associés pour remplir les conditions nécessaires.

Cours à inscriptions limitées: Dans certains cours, l'effectif des classes doit réduit pour des raisons académiques. Ces cours figureront dans l'horaire sous re "cours à inscriptions limitées". Si le nombre d'inscriptions pour un tel cours est grand, les étudiants dont le programme n'exige pas ledit cours devront annuler inscription.

Le fait que la description d'un cours figure dans cet annuaire n'implique nécessairement que ce cours sera effectivement donné pendant la session démique à venir. Toute information relative aux cours qui seront donnés, noms des professeurs qui les assureront, ou à tout autre détail, sera nie par le bureau du doyen de la faculté.

gences physiques de certains cours universitaires:

L'Université se doit de pourvoir à l'éducation de tout étudiant académiquement ifié et offre des services spéciaux aux étudiants handicapés.

Cependant, certains cours demandent un niveau de compétence ou d'habileté sique afin d'atteindre les objectifs académiques. En cas de doute, prière de se eigner auprès du département concerné et du coordonnateur de "Disabled dent Services", Bureau du Doyen de "Student Services".

Les étudiants peuvent se voir refuser la permission de s'inscrire aux cours rts hors-campus étant donné qu'il est souvent impossible d'offrir les services ie nécessaires.

(3) Students must take at least 24 and no more than 36 units of course weight or the equivalent in the principal subject of concentration which must be one of the Sciences, and a minimum of 18 and a maximum of 24 or the equivalent in a second subject of concentration which must also be one of the Sciences. In each subject of concentration, no more than 12 units of course weight or the equivalent can be at the junior level.

(4) Normally no more than 42 junior units of course weight or the equivalent are permitted in the general program.

(5) Up to the equivalent of six units of course weight approved by the Dean may be taken from faculties other than Arts and Science. Such courses are considered as "approved options" and are not to be included either as part of the minimum of 18 units of course weight or the equivalent in the Arts or in the minimum of 48 units of course weight or the equivalent in Science.

183.7.4 Academic Standing and Graduation (SA93)

The following regulations govern General programs:

(1) To obtain a BSc General degree a grade point average of at least 5.5 must be obtained on the last 60 units of course weight or the equivalent credited to the degree. Moreover, a grade point average of at least 5.5 must be attained for all courses in the principal subject of concentration.

(2) The Dean may permit students to proceed to a degree over a longer period than three years, or to meet the requirements in a shorter time by attending Intersession or by taking extra courses during the Winter sessions.

Further regulations vary from program to program. Faculté Saint-Jean regulations are the same as those of the Faculty of Science, and are therefore given together with the details of the program to which they apply in §193 of the University Calendar.

183.8 Options

The term "option", where it appears in the programs, means a course freely chosen by students provided they have the necessary prerequisite. An "approved option" is an option approved by the department directing the program of the student concerned.

184 Details of Courses

184.1 General Information

The language (French or English) used in describing the course indicates the language of instruction. For example, GEOGE 130 (Géographie 130) is described in French because it is taught in French, whereas ANGL 100 (English 100) is described in English, because it is taught in English.

Each course is designated by its computer abbreviation and a number.

Courses numbered 100 to 199 are junior courses, normally taken by first-year undergraduates. Those numbered 200 to 499 are senior courses, normally taken after the first year. Courses numbered 500 and up are normally restricted to senior and graduate students.

Following the title of the course is the symbol ★ standing for "units of course weight", and a number indicating the weight of the course as used in computing grade point averages. An ordinary full-session course is weighted ★6. A single-term course is normally weighted ★3. Some courses involving research may vary in weight according to the length and difficulty of the research project.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. They appear in the following order: the first position indicates lecture hours; the second position indicates: seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours.

Example: (3-0-3) indicates three hours of lecture, no seminars, and three hours of laboratory per week.

Single-term courses: A number of courses are offered in one term only; two such courses are recognized as the equivalent of one full-session course. Where the requirement is for an option, any two single-term courses may be combined to meet the requirement.

Restricted Enrollment Courses: Classes in some courses must for academic reasons be restricted in size. Such courses will be labelled "restricted enrollment" courses in the timetable. If such a course is found to be over subscribed, students whose programs do not require that course may be required to delete it from their registration.

The appearance of a course description, in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the Dean's office.

Physical Requirements for University Courses

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the Department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

Note: Depuis 1990-91, les numéros de certains cours au niveau du Baccalauréat à la Faculté Saint-Jean ont été changés. La liste suivante indique les changements en 1990-91:

ANDR 551 Sujets choisis en éducation des adultes
★3 (3-0-0). Le contenu varie d'une année à l'autre. Note: ce cours est destiné aux détenteurs d'un diplôme du 1er cycle.

184.4 Anglais/English

Note: Un seul cours complet (ou 2 demi-cours) au niveau 100 peut être crédité pour le BA.

Note: Prérequis pour les cours au niveau 200: ANGL 100 ou ANGL 110.

ANGL 100 A Survey of English Literature from the Middle Ages to the Twentieth Century
★6 (3-0-0). A close study of representative masterpieces which demonstrate the development of the English literary tradition.

ANGL 110 English Literary Forms
★6 (3-0-0). This course combines an introduction to the various genres of English literature in prose and verse, including drama, through a close study of representative authors, both modern and traditional, with formal instruction in writing skills. One-third of the course is devoted to writing instruction.

ANGL 113 English as a Second Language
★6 (3-0-1). This course is designed to enable students to communicate in oral and written English. Work in a language laboratory is combined with a review of English grammar and study of English literature and text-book prose to aid students in achieving a greater proficiency in spoken and written English. Students must take a placement test (MELAB) in order to determine their level of proficiency and register in the proper course or section (see §182.5.2). The placement test (two hours

ration) will be given at the Faculté Saint-Jean in the first two days of the term. en only to students enrolled in one of Faculté Saint-Jean's programs. Note: ANGL 3 is not recognized by the Faculty of Arts as an acceptable substitute for ENGL 101.

GL 304 Folklore in Children's Literature in English
(3-0-0). An examination of the related fields of folklore and fantasy in children's rature in English. It deals with those elements of folklore, mythology and legend t have become a traditional part of children's literature and also includes certain dern adaptations and fantasies which have their origins in myth and folklore. te: Not to be taken by students with credit in ENGL 303.

GL 305 Classics of Children's Literature in English
(3-0-0). A representative sampling of classics of children's literature in English. a historical survey it will examine prevailing and changing attitudes towards ldren to provide a critical assessment of the ways in which various authors have cceeded in understanding and pleasing a particular audience. Note: Not to be en by students with credit in ENGL 303.

84.5 Anthropologie/Anthropology

NTHE 101 Introduction à l'anthropologie
3 (3-0-0). Une introduction à l'anthropologie par l'étude de concepts principaux et idées organisatrices tels que l'évolution humaine, l'apparition de la culture, rganisation sociale, les théories de la culture, les systèmes symboliques, la namique de la culture. Note: ce cours n'est pas accessible aux étudiants ayant ou stulant des crédits en ANTHE 202 ou 301.

NTHE 110 Ethnologie du sexe, de l'âge et du pouvoir
3 (3-0-0). Dans toute société, le statut social de l'individu et des groupes change cours du cycle de la vie. Ce cours examine comment l'âge et le sexe privilégient rôles et le statut social dans des sociétés différentes.

NTHE 301 Concepts et conflits en anthropologie
3 (3-0-0). Une introduction à l'anthropologie par l'étude de concepts choisis tels e l'évolution de l'homme, l'adaptation culturelle, la structure sociale, l'individu et la ciété, (collectivité), le symbole et le signifié, la production et l'échange, le angement culturel. Note: ce cours n'est pas accessible aux étudiants de 1ère née ou à ceux ayant des crédits en ANTHE 101 ou 202.

NTHE 307 Introduction à l'anthropologie sociale et culturelle
3 (3-0-0). Etude comparative de la société et de la culture de l'homme, en rticulier dans les communautés non-occidentales, en insistant sur la famille, la ucture sociale, l'économie, les institutions politiques et la religion; les procédures changement. Prérequis: ANTHE 101 ou 301.

NTHE 308 Introduction à l'anthropologie linguistique
3 (3-0-0). Etude anthropologique du langage et de la communication. Aperçu bide des méthodes d'enquête sur le terrain et des méthodes analytiques et théorie l'anthropologie linguistique. Prérequis: ANTHE 101 ou 301.

NTHE 309 Une introduction à l'anthropologie physique
3 (3-0-0). Une étude des théories et des données principales sur l'évolution de omme. Les sujets abordés: l'étude des primates, l'ostéologie, la paléontologie et s variations dans les populations modernes. Prérequis: ANTHE 101 ou 301.

NTHE 320 Ethnologie de la religion
3 (3-0-0). Une introduction à l'étude comparative des religions et des phénomènes i s'y rattachent; tels la magie, les tabous, le chamanisme et la sorcellerie. Des emples ethnographiques sont utilisés pour appuyer une analyse des liens entre nsées et rites religieux et autres aspects de la vie sociale.

NTHE 325 Anthropologie et problèmes mondiaux
3 (3-0-0). Approche anthropologique de la culture capitaliste, de la structure ciale, des rapports colonialistes et néo-colonialistes, et la naissance de nouvelles ciétés. Prérequis: un cours d'introduction en anthropologie ou en sociologie.

NTHE 392 Le comportement des primates
3 (3-0-0). Les études du terrain des primates non-humains. Les sujets abordés: le stème social, le comportement et l'écologie, la communication, le développement cial et autres sujets pertinents.

NTHE 410 Sexe et statut social: approche comparative
3 (3-0-0). Le statut social des sexes comme phénomène biologique et culturel. Le atut social des femmes dans diverses sociétés. Prérequis: un cours de niveau nior en anthropologie.

NTHE 418 Anthropologie politique
3 (3-0-0). Introduction à l'anthropologie politique moderne, l'accent étant mis sur la scription et l'analyse ethnographiques et les problèmes de pluralisme, de stratifi-tion et de mobilisation des masses rurales. Prérequis: ANTHE 307 ou l'accord du yen.

NTHE 431 Plurilinguisme
3 (3-0-0). L'étude de communautés plurilingues. Prérequis: ANTHE 308 ou ccord du Doyen.

NTHE 484 Choix de sujets en anthropologie
3 (0-3s-0). Prérequis: accord du Doyen.

84.6 Art dramatique et Art de la scène/Drama and Scenic Arts

DRAM 101 Introduction à l'art théâtral
3 (3-0-1). Les origines et le développement de l'art théâtral, notions de base sur la oduction d'un spectacle de théâtre: de la conception à la réalisation. Analyses tiques de pièces auxquelles les étudiants assistent.

DRAM 102 Analyse de l'art dramatique
3 (3-0-0). Analyse critique de textes choisis et son application dans la recherche solutions créatrices concernant leur réalisation. Analyse des activités artistiques mplémentaires dans le cadre du théâtre: la composition du texte, le jeu des teurs, la réalisation technique et la mise en scène.

ADRAM 143 Amélioration de la voix et de la diction
★3 (0-6L-0). Exercices pour améliorer la voix et la diction; introduction à la communication orale: narration, art oratoire, interprétation. L'efficacité et la spontanéité du langage.

ADRAM 149 Introduction au procédé dramatique
★3 (2-3L-0). Elocution et mouvement, improvisation avec insistance sur le développement imaginatif, introduction au jeu et à la forme théâtrale; l'expression verbale et non-verbale. Note: ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour ADRAM 251, 259, ou 350.

ARTSC 200 Appréciation des arts de la scène
★6 (3-0-1). Introduction à l'histoire des arts de la scène, incursion dans les spectacles de: théâtre, mime, masques, ombres, marionnettes, opéra-musical, ballet-danse, cirque, etc. Evaluation critique des spectacles auxquels les étudiants assistent.

ADRAM 321 Créativité et théâtre pour jeunes
★3 (2-3L-0). Approche pratique et théorique au développement des ressources humaines par l'art dramatique (de la conception à la réalisation d'un projet théâtral) tenant compte des enfants et des jeunes. Prérequis: ADRAM 101, 102, 149, 251 ou l'accord du doyen.

184.7 Biologie/Biology

BIOLE 100 Introduction aux systèmes biologiques
★3 (3-0-3). Un compte rendu des organismes et de leurs interactions avec l'environnement physique et biologique: l'origine des cellules, le darwinisme et l'évolution par la sélection naturelle, la spécialisation, la diversité dans les systèmes biologiques, les populations, les communautés, les écosystèmes et leur place dans la biosphère. Prérequis: Biologie 30. Remarque: Ce cours ne pourra être crédité aux étudiants ayant déjà obtenu des crédits en BIOLE 298.

BIOLE 110 Biologie et le monde moderne
★3 (3-0-3). Base biologique de l'écologie: origines de l'homme, son évolution; particularités des populations croissantes; place de l'homme et l'influence de la biosphère; projection concernant l'avenir de l'homme. Pas de prérequis.

BIOLE 197 L'hérédité
★3 (3-0-3). La base cellulaire et moléculaire de la transmission des caractères héréditaires. L'hérédité mendélienne et sa base cytologique; la génétique microbienne; l'hérédité cytoplasmique, le linkage et la carte génétique; l'ADN en tant que matériel génétique; l'effet des gènes; le code génétique. Prérequis: Biologie 30.

BIOLE 201 Biologie cellulaire
★3 (3-0-3/2). Ultrastructure et métabolisme des cellules. Energie dans les systèmes biologiques; protosynthèse; respiration cellulaire; contractilité; croissance et duplication des cellules. Prérequis: BIOLE 197. Prérequis ou co-requis: CHIM 160 ou 260.

BIOLE 202 Biologie du développement
★3 (3-0-3). Les organismes complexes en développement. Le but de ce cours est d'identifier certains procédés de développement communs aux plantes et aux animaux. Une attention particulière sera portée sur les interactions cellulaires qui déterminent la survie de la cellule, l'activation et la désactivation des gènes, le fonctionnement des gènes et la sélection des structures. Le cours concluera par un examen de ces procédés en relation avec le vieillissement et le cancer. Remarque: Le cours BIOLE 201 est fortement recommandé avant de suivre le cours 202.

BIOLE 315 Histoire et théorie de la biologie
★3 (3-0-0). Aperçu des découvertes biologiques des temps les plus reculés jusqu'à maintenant et des principales idées nées des sciences de la vie ou les influençant, et ce par rapport aux événements sociaux, historiques et culturels. Recommandé aux étudiants qui se spécialisent dans les sciences biologiques mais accessible à tous les étudiants qui s'intéressent à l'histoire de la science et de son importance dans le développement de la culture. Prérequis: BIOLE 100, ou BIOLE 197, ou ZOOLE 120, ou BOT 105.

184.8 Botanique/Botany

BOTQ 199 Biologie des plantes
★3 (3-0-3). Une introduction à la biologie des plantes en mettant l'accent sur les relations entre les formes et leurs fonctions, et les potentialités de cette science. Les sujets suivants seront introduits: la structure cellulaire végétale; les tissus végétaux et leurs fonctions; la classification des plantes et les fondements des groupements importants; l'importance des plantes pour la vie humaine; le métabolisme des plantes et plus particulièrement les problèmes hydriques, nutritifs et énergétiques; la croissance et le développement des plantes, leur reproduction. Prérequis: Biologie 30. Ce cours n'est pas accessible aux étudiants ayant des crédits en BIOLE 296, 299, ou INT D 230.

184.9 Canadien-Français/French-Canadian

CA FR 320 Civilisation canadienne-française I
★3 (3-0-0). La civilisation et la culture du Canada français des origines à la Confédération. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 222 à la Faculté des Arts.

CA FR 322 Civilisation canadienne-française II.
★3 (3-0-0). La civilisation et la culture du Canada français de la Confédération à nos jours. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 223 à la Faculté des Arts.

CA FR 350 Panorama de la littérature canadienne-française
★3 (3-0-0). La littérature canadienne-française, des origines à nos jours, vue à travers un choix d'oeuvres dominantes marquant les diverses périodes de son évolution.

CA FR 360 Littérature canadienne-française hors du Québec
★3 (3-0-0). L'étude de l'expression littéraire canadienne-française hors du Québec. Prérequis: CA FR 350 ou FRANC 325.

CA FR 370 Le roman canadien-français du XXe siècle
★3 (3-0-0). Le roman canadien-français depuis la génération de 1890 jusqu'à la naissance du nouveau roman, vu à travers les plus grands romanciers de cette période. Prérequis: CA FR 350 ou FRANC 325. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 451 à la Faculté des Arts.

CA FR 450 Littérature canadienne-française du XIXe siècle.
★3 (3-0-0). Le roman et la poésie considérés sous l'angle des thèmes dominants. Prérequis: CA FR 350 ou FRANC 325. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 450 à la Faculté des Arts.

CA FR 460 Critique littéraire et sociale du Québec
★3 (3-0-0). Etudes des relations entre la pensée sociale et la littérature. Prérequis: un cours de littérature ou de civilisation canadienne-française.

CA FR 465 La poésie canadienne-française du XXe siècle
★3 (3-0-0). L'évolution de la poésie canadienne-française de Saint-Denys Garneau à l'époque contemporaine. Prérequis: CA FR 350 ou FRANC 325. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 465 à la Faculté des Arts.

CA FR 466 Le théâtre canadien-français du XXe siècle
★3 (3-0-0). L'évolution du théâtre canadien-français de Gratien Gélinas à l'époque contemporaine. Prérequis: CA FR 350 ou FRANC 325. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 466 à la Faculté des Arts.

CA FR 499 Etudes dirigées
★3 (3-0-0). Cours destiné à permettre aux étudiants d'approfondir un sujet de leur choix en littérature canadienne-française. Prérequis: CA FR 350 ou FRANC 325 et 2 demi-cours de littérature canadienne-française.

184.10 Chimie/Chemistry

CHIM 100 Introduction à la chimie, niveau universitaire
★6 (3-1s-3). Eléments de la liaison et de la structure; équilibre chimique et phasé; chimie de solution; thermo-chimie, électrochimie et cinétique chimique, en relations avec la chimie inorganique. Prérequis: Chimie 30 ou l'équivalent.

CHIM 104 Introduction à la chimie, niveau universitaire
★6 (3-1s-3). Semblable à CHIM 100 mais conçu pour les étudiants qui suivent, ou ont suivi, un cours de mathématiques au niveau universitaire. Prérequis: Chimie 30, ou l'équivalent. Prérequis ou co-requis: MATHQ 113 ou 114 ou l'équivalent.

CHIM 160 Chimie organique
★6 (3-0-3). Etude de composés organiques et leur structure moléculaire, et la stéréo-chimie, de façon à ce que quelques molécules importantes en biologie (amino-acides, protéines, médicaments, pesticides, corps gras, sucres, hydrates de carbone, acides nucléiques) aussi bien que les molécules de tous les jours (savons, détergents, fibres, parfums, polymères, etc.) puissent être discutés. Prérequis: Chimie 30 ou l'équivalent. Note: Les étudiants qui ont des crédits en CHIM 100 ou 104 devront normalement suivre CHIM 260 et non CHIM 160.

CHIM 204 Chimie générale
★6 (3-1s-3). L'introduction à la chimie générale pour les étudiants qui ont déjà suivi le cours d'introduction à la chimie organique. Les modes de liaison et structure; les équilibres chimiques et équilibres de phases; la chimie des solutions; la thermochimie; l'électrochimie et la cinétique chimique avec des exemples choisis dans la chimie organique (systèmes d'importance biologique et de la chimie y inclus). Prérequis: Chimie 30 et CHIM 160. Recommandé comme prérequis ou corequis: MATHQ 113 ou 114 et 115 (spécialement pour ceux qui envisagent de poursuivre leurs études en chimie). Note: Les étudiants ayant des crédits en CHIM 160 devront prendre CHIM 204. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour CHIM 100, 104 ou l'équivalent.

CHIM 260 Chimie organique
★6 (3-0-3). L'étude de la structure moléculaire et de la réactivité des composés organiques d'un intérêt biologique et industriel. La chimie des polymères, des graisses, des peptides et des hydrates de carbone sera étudiée. La détermination des structures des composés sera examinée. Prérequis: CHIM 100 ou 104 ou 204. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour CHIM 160.

184.11 Comptabilité/Accounting

COMPT 311 Introduction à la comptabilité
★3 (3-1.5s-0). Postulats, principes, cycle comptable, calcul du capital et du revenu, préparation et analyse d'un état financier; insistance sur les rapports à présenter aux actionnaires et autres agents externes détenant des pouvoirs de décision. Prérequis: ECONE 101/102.

COMPT 322 Gestion et méthodes de contrôle
★3 (3-0-2). Objectifs d'une entreprise, concepts de planification et de contrôle, accumulation des coûts en vue de l'établissement des prix et de l'évaluation du prix de revient des produits. Prérequis: COMPT 311.

COMPT 414 Comptabilité financière (niveau intermédiaire)
★3 (3-0-2). Traitement approfondi de la théorie et des méthodes du modèle de comptabilité GAAP (Principes de comptabilité généralement acceptés) et évaluation de ses points forts et de ses points faibles. Des comparaisons seront faites avec d'autres modèles comptables. Prérequis: COMPT 311, 322.

184.12 Curriculum et méthodologie/Education Curriculum and Instruction

CU ME 132 Test d'élocution
★0 (0).

CU ME 203 Introduction à l'éducation préscolaire
★3 (3-0-0). Historique et modèles pédagogiques en éducation préscolaire (l'éducatio des enfants de 4 à 8 ans). Rôle du jeu et du développement de l'enfant dans l planification pédagogique. Contextes: immersion et français en milieu minoritaire.

CU ME 205 Planification de l'enseignement élémentaire
★3 (3-0-0). Objectifs (taxonomies). Théories du développement du curriculum Analyse de la programmation à l'élémentaire. Evénements d'enseignement. Organi sation d'unités d'enseignement. Plans de leçons.

CU ME 301 Introduction à l'éducation physique au niveau élémentaire
★3 (0-3L-0). L'étude de l'enfant dans ses expériences de mouvement. La terminologi spécifique à l'enseignement de l'éducation physique en français. Le développemer des habiletés motrices et psychomotrices de l'enfant. Les programmes d'éducatio physique à l'élémentaire.

CU ME 303 Programmes et environnement au préscolaire
★3 (3-0-0). Etude critique des programmes d'études (immersion et français en mili minoritaire) et analyse du matériel pédagogique. Enseignement par thèmes, pa ateliers, par centres: intégration des matières et individualisation des programme Création des environnements pédagogiques à l'intérieur et à l'extérieur de la salle d classe. Prérequis: CU ME 203 ou l'équivalent avec l'accord de l'instructeur. Ce cour n'est pas accessible aux étudiants ayant ou postulant des crédits pour CU ME 404

CU ME 307 Introduction à l'enseignement du français au niveau élémentaire dans les milieux bilingues et d'immersion
★3 (3-0-0). Buts et objectifs de l'enseignement de la langue. Principes linguistique et pédagogiques. Didactique générale du français en relation avec les quatr savoirs. Nouvelles tendances dans l'enseignement de la langue.

CU ME 310 Enseignement de la lecture au niveau élémentaire
★3 (3-0-0). Objectifs, techniques et évaluation de l'enseignement et de l'apprentissag de la lecture. Déchiffrage et compréhension. Correspondance entre l'oral et l'écri Lecture corrective. Méthodes, programmes et matériel existants. Prérequis: CU M 307 ou l'accord du responsable de pédagogie.

CU ME 311 Enseignement de la communication orale et écrite au niveau élémentaire
★3 (3-0-0). Objectifs, techniques et évaluation de l'enseignement de l'expression ora et écrite. Analyse de quelques problèmes relatifs à ces expressions. Programmes matériel existants. Prérequis: CU ME 307 ou l'accord du responsable de pédagogie.

CU ME 312 Enseignement des études sociales au niveau élémentaire
★3 (3-0-0).

CU ME 316 Enseignement des mathématiques au niveau élémentaire
★3 (0-3L-0).

CU ME 320 Enseignement des sciences au niveau élémentaire
★3 (0-3L-0).

CU ME 326 Enseignement de l'éducation physique au niveau élémentaire
★3 (0-3L-0). Les approches pédagogiques pour l'enseignement en français d l'éducation physique à l'élémentaire. La programmation; les diverses méthodologie et stratégies d'enseignement; les systèmes d'évaluation de l'enfant et du programm

CU ME 336 Enseignement du dessin au niveau élémentaire.
★3 (3-0-2).

CU ME 339 Enseignement de la musique au niveau élémentaire I
★3 (0-3L-0). Prérequis: MUSiQ 103 ou l'équivalent, ou MUSIQ 150 et 151 d l'équivalent.

CU ME 343 Introduction à l'enseignement des beaux-arts
★3 (3-0-0). Intégration des beaux-arts dans la vie quotidienne de l'enfant à l'écol Une partie du cours sera consacrée aux ateliers pratiques.

CU ME 347 Introduction à l'ordinateur en éducation
★3 (3-0-2). L'ordinateur individuel: définition des principales composantes fonctionnement. Mode direct et mode différé d'utilisation d'un ordinateur. L'enseigneme assisté, séquentiel et ramifié. La répétition d'exercices. L'acquisition de concepts. L simulation. Les jeux. Le traitement de textes. Les langages d'auteur. Initiation a principales applications pédagogiques de l'ordinateur et réflexions sur le rôle d l'ordinateur en pédagogie.

CU ME 350 Enseignement du français dans les classes d'immersion tardive au niveau secondaire
★3 (3-0-0). Principes d'acquisition et d'apprentissage d'une langue seconde. Etud du phénomène d'immersion comme moyen d'apprendre et d'enseigner une deuxièm langue. Etude des ressources et des pratiques pédagogiques pour l'enseigneme du français en situation d'immersion au niveau secondaire.

CU ME 357 L'enseignement dans les écoles françaises en milieu minoritaire
★3 (3-0-0). Cours de pédagogie et de méthodologie à l'intention des futu enseignants qui se dirigent vers l'enseignement dans les écoles françaises en mili minoritaire. Les thèmes suivants seront étudiés: le rôle et les responsabilités l'enseignant face à l'élève minoritaire et à sa communauté; les attitudes et l actions de l'enseignant qui vont permettre à l'étudiant de s'approprier ses réalit culturelles; la pédagogie de l'interaction; l'éducation communautaire; le développeme de programmes et de matériel pédagogique; la programmation culturelle.

CU ME 358 Enseignement du français langue première au niveau secondaire
★3 (3-0-0). Pédagogie générale et pratique du français langue première en mili minoritaire; étude du contexte social, des besoins langagiers et culturels de l'élè francophone minoritaire au secondaire; réflexions sur la langue et sur les objecti Initiation aux méthodes d'enseignement; analyse du programme et du matér pédagogique prescrit par le Ministère de l'éducation.

CU ME 359 Enseignement de la littérature au niveau secondaire
★3 (3-0-0). Pédagogie générale et pratique de la littérature; méthodes d'enseigneme et d'analyse du roman, de la poésie et de la pièce de théâtre; les objectifs, l besoins de l'élève, la critique littéraire et son rôle au secondaire; analyse programme et du matériel pédagogique prescrit par le Ministère de l'éducation.

CU ME 360 Enseignement des études sociales au 1er cycle du secondaire
★3 (3-0-0). Pédagogie générale et pratique de l'enseignement des études sociale analyse des programmes d'études sociales pour les francophones en mili minoritaire et pour le milieu d'immersion française; étude des ressources prescrit par le Ministère de l'éducation; étude des méthodes d'enseignement et d'évaluatio des objectifs d'apprentissage, et le rôle et les responsabilités de l'enseignant d études sociales. Prérequis: Deux cours complets dans la spécialisation.

ME 361 Enseignement des études sociales au 2e cycle du secondaire
(3-0-0). Pédagogie générale et pratique de l'enseignement des études sociales; alyse des programmes d'études sociales et des ressources prescrites par le iistère de l'éducation; étude de l'historique des études sociales et des concep- ns d'études sociales; étude des méthodes d'enseignement et d'évaluation des des sociales; et intégration des actualités aux objectifs des programmes d'études iales. Prérequis ou co-requis: CU ME 360.

ME 364 Introduction au curriculum des mathématiques au niveau condaire
(3-0-0).

ME 365 Introduction à la méthodologie de l'enseignement des thématiques au niveau secondaire
(3-0-0).

ME 368 Enseignement des sciences au niveau secondaire
(0-3L-0). Prérequis: deux cours complets dans la spécialisation.

ME 369 Enseignement des sciences au niveau secondaire II
(0-3L-0).

ME 387 Enseignement de la musique au niveau secondaire I
(3-0-0). Prérequis ou corequis: deux cours complets dans la spécialisation.

ME 388 Enseignement de la musique au niveau secondaire II
(3-0-0). Prérequis ou corequis: CU ME 387.

ME 389 Enseignement de l'art dramatique au niveau secondaire I
(3-0-0). Prérequis ou corequis: deux cours complets dans la spécialisation.

ME 390 Enseignement de l'art dramatique au niveau secondaire II
(3-0-0). Prérequis ou corequis: CU ME 389.

ME 403 Enseignement au préscolaire: théorie et pratique
(3-0-0). Cours avancé de synthèse. Controverses, recherche et débats en ucation préscolaire (contexte: immersion et français en milieu minoritaire). Prérequis: ME 303. Ce cours n'est pas accessible aux étudiants ayant ou postulant des édits pour CU ME 404.

ME 404 Méthodologie de l'enseignement aux tout-petits
(3-0-3;3-0-0). Prérequis: une année d'expérience dans l'enseignement. Ce cours st pas accessible aux étudiants ayant ou postulant des crédits pour CU ME 303 ou 403.

ME 405 Séminaire en enseignement élémentaire
(3-0-0). Étude de sujets propres à l'enseignement élémentaire.

ME 410 Enseignement de la littérature aux petits
(3-0-0).

ME 411 Enseignement de la littérature aux enfants de 9 à 12 ans
(3-0-0). Prérequis: CU ME 410.

ME 412 Enseignement des sciences humaines au niveau élémentaire
(3-0-0). Prérequis: CU ME 312 ou l'équivalent.

ME 414 Changements apportés au programme des études sociales au veau élémentaire
(3-0-0). Note: ce cours est destiné aux enseignants.

ME 439 Perfectionnement musical selon les principes kodaliens I
(0-3L-0). Formation vocale et auditive conduisant à la maîtrise des relations élodiques et des formules rythmiques de base. Lecture et écriture dans les deux stèmes (relatif, absolu). Répertoire choral. Initiation à la direction chorale, itiation à l'audition des oeuvres. Note: Ce cours conjoint à CU ME 440, est destiné ux enseignants. Prérequis: CU ME 339 ou équivalent.

ME 440 Pédagogie de l'éducation selon les principes kodaliens I
(0-3L-0). Démarches pédagogiques et progression des concepts au niveau émentaire du Programme d'étude et du Guide pédagogique en éducation musicale. épertoire de chansons folkloriques avec animation, et analyse. Introduction au lklore. Note: Ce cours conjoint à CU ME 439, est destiné aux enseignants. Prérequis: CU ME 339 ou équivalent.

ME 444 Etude personnelle dirigée dans le domaine de l'enseignement au iveau élémentaire
(3-0-0). Prérequis: accord du professeur et du Doyen.

ME 451 Enrichissement du français parlé au niveau de la maternelle
(3-0-0).

ME 458 Nouvelles façons d'aborder l'enseignement du français en situa- on d'immersion
(3-0-0). Cours qui a pour but de donner un aperçu des nouvelles tendances et es grands courants dans l'enseignement de la langue. L'approche d'immersion est xée sur le développement de la communication. Le cours invitera les participants à réfléchir sur la dimension communicative de la langue, et leur permettra de se familiariser tant au niveau théorique que pratique avec la méthodologie de l'approche communicative. Les participants seront invités à partager leurs idées et leurs expériences. Ce cours est réservé aux enseignants.

ME 459 Séminaire dans le domaine de l'enseignement au niveau lémentaire
(3-0-0). Le contenu du cours varie d'une année à l'autre. Les sujets sont annoncés avant la période d'inscription. Le titre du cours figurera sur le relevé de notes de l'étudiant.

ME 462 Changements apportés au programme des études sociales au iveau secondaire
(3-0-0). Prérequis: CU ME 360/361 ou EDSEC 476/477 ou l'accord du Doyen.

ME 494 Enseignement de l'éducation physique au niveau secondaire
(0-3L-0). Les approches pédagogiques pour l'enseignement en français de éducation physique au secondaire, la programmation; les diverses méthodologies stratégies d'enseignement; les systèmes d'évaluation de l'élève et du programme.

ME 496 L'enseignement religieux et l'éducation morale
(3-0-0).

ME 497 La pédagogie de l'enseignement du français langue maternelle en situation minoritaire
(0-3s-0). Survol de la situation minoritaire francophone et identification des besoins culturels et linguistiques des étudiants francophones minoritaires. L'étude des objectifs à viser dans l'enseignement du français langue maternelle en situation minoritaire. Retour sur la langue, son rôle, ses composantes en fonction des besoins de l'étudiant francophone minoritaire. L'étude approfondie des moyens, des méthodes, des ressources à utiliser. Comparaison entre les anciennes et les nouvelles approches pédagogiques. Regard critique sur le curriculum. Ce cours est réservé aux enseignants.

CU ME 498 Séminaire dans le domaine de l'enseignement au niveau secondaire
★3 (0-3s-0). Le contenu du cours varie d'une année à l'autre. Les sujets sont annoncés avant la période d'inscription. Le titre du cours figurera sur le relevé de notes de l'étudiant.

CU ME 499 Etude personnelle dirigée dans le domaine de l'enseignement au niveau secondaire
★3 (3-0-0). Prérequis: accord du professeur et du Doyen.

CU ME 500 Théorie générale de curriculum: contexte écoles françaises en milieu minoritaire et écoles d'immersion
★3 (3-0-0). Analyse approfondie des définitions et théories du curriculum, de ses composantes et de ses bases idéologiques et de leurs applications dans les écoles françaises en milieu minoritaire et en immersion. Limité aux détenteurs d'un baccalauréat en éducation ou l'équivalent.

CU ME 501 Développement, implantation, et évaluation des programmes en immersion et dans les écoles françaises en milieu minoritaire
★3 (3-0-0). Cours de curriculum à orientation pratique. Analyse et évaluation des composantes, des valeurs et des idéologies à la base des programmes d'étude, du matériel d'appui et des programmes socio-culturels utilisés en situation minoritaire et immersion. Le développement, l'évaluation, et l'implantation de programmes pour les écoles françaises et pour les écoles d'immersion. Prérequis ou corequis: CU ME 500. Limité aux détenteurs d'un baccalauréat en éducation ou l'équivalent.

CU ME 502 Etude personnelle dirigée dans le domaine de l'enseignement en français
★3 (3-0-0). Limité aux détenteurs d'un baccalauréat en éducation ou l'équivalent.

CU ME 519 Perfectionnement musical selon les principes kodaliens II
★3 (0-3L-0). Formation vocale et auditive conduisant à la maîtrise des formules et intervalles mélodiques et de leurs fonctions tonales propres à la gamme diatonique: majeure et mineure. Techniques d'improvisation et de composition. Lecture et écriture dans les deux systèmes et les deux clés de F et G. Répertoire choral et technique de direction à deux voix. Audition et analyse des oeuvres. Note: Ce cours conjoint à CU ME 540, est destiné aux enseignants. Prérequis: CU ME 439 ou équivalent.

CU ME 529 Perfectionnement musical selon les principes kodaliens III
★3 (0-3L-0). Formation vocale et auditive conduisant à la maîtrise de tous les éléments constitutifs du langage musical: leurs fonctions: tonale, harmonique. Lecture et écriture dans les deux systèmes et les clés. Répertoire et chansons: gamme diatonique, majeure, mineure. Exercises d'improvisation et de composition. Reconnaissance auditive des suites usuelles d'accords majeurs et mineurs. Etudes des modes anciens. Répertoire choral et direction à plusieurs voix. Audition et analyse d'oeuvres. Note: Ce cours conjoint à CU ME 560 est destiné aux enseignants. Prérequis: CU ME 519 ou équivalent.

CU ME 540 Pédagogie de l'éducation musicale selon les principes kodaliens II
★3 (0-3L-0). Etude de la syntaxe élémentaire du langage musical: relations mélodiques et fonctions harmoniques. Démarches pédagogiques et concepts au niveau moyen du programme d'étude et guide pédagogique en éducation musicale. Enrichissement du répertoire folklorique (et autres) avec animation et analyse. Etude des caractéristiques de la chanson folklorique française. Note: Ce cours conjoint à CU ME 519, est destiné aux enseignants. Prérequis: CU ME 440 ou équivalent.

CU ME 560 Pédagogie de l'éducation musicale selon les principes kodaliens III
★3 (0-3L-0). Démarches pédagogiques et concepts au niveau avancé du programme d'étude et du guide pédagogique en éducation musicale. Elargissement du répertoire folklorique (et autres) avec animation, analyse et thèmes d'oeuvres plus avancés. Exploration formelle et approfondie du domaine folklorique. Approches pédagogiques des oeuvres. Planification et leçons pratiques. Note: Ce cours conjoint à CU ME 529, est destiné aux enseignants. Prérequis: CU ME 540 ou équivalent.

184.13 Economie/Economics

ECONE 101 Introduction à la micro-économie
★3 (3-0-0). Analyse économique, problèmes et politiques avec accent sur l'économie canadienne; le rôle des consommateurs et des compagnies dans les marchés à compétition et à monopole; le capital étranger dans l'économie canadienne; distribution des revenus, inégalité et pauvreté; utilisation du milieu; politiques économiques gouvernementales. Prérequis: Mathématiques 30 ou l'accord du Doyen.

ECONE 102 Introduction à la macro-économie
★3 (3-0-0). Analyses, problèmes et politiques économiques avec accent sur l'économie canadienne; revenu national et théorie monétaire; problèmes du chômage et de l'inflation; politiques gouvernementales monétaires et fiscales: théorie du commerce international, problèmes et politiques gouvernementales. Prérequis: Mathématiques 30 ou l'accord du Doyen.

ECONE 318 Introduction au développement économique du Canada I
★3 (3-0-0). Analyse du développement économique au Canada avant la Première Guerre mondiale. Ce cours met l'accent particulièrement sur la Confédération, la politique nationale et la peuplement de l'Ouest. Prérequis: ECONE 101/102 ou l'accord du Doyen. Remarque: un étudiant ne peut cumuler les crédits de ECONE 316 et ECONE 318.

ECONE 319 Introduction au développement économique du Canada II
★3 (3-0-0). Analyse du développement économique au Canada depuis la Première Guerre mondiale. Ce cours s'intéresse spécialement aux questions de politique qui réapparaissent périodiquement telles que la libération du commerce, l'investissement étranger, les disparités régionales et la performance macroéconomique. Prérequis: ECONE 318. Remarque: un étudiant ne peut cumuler les crédits de ECONE 317 et ECONE 319.

ECONE 323 Economie internationale
★3 (3-0-0). Aperçu des principes de l'économie internationale. Application de ces

principes à la politique économique. L'accent est mis sur des sujets comme le commerce international, l'investissement étranger et la balance des paiements. Prérequis: ECONE 101/102 ou l'accord du Doyen.

ECONE 341 Monnaie et Banque
★3 (3-0-0). Dans ce cours l'accent est mis principalement sur l'offre de monnaie et le contrôle monétaire. Y seront abordées des questions telles le rôle de la monnaie et du crédit dans le processus de l'échange, les intermédiaires financiers, les banques commerciales et les banques centrales. Prérequis: ECONE 101/102 ou l'accord du Doyen.

ECONE 381 Théorie micro-économique intermédiaire
★3 (3-0-0). Théorie du comportement des consommateurs; théorie de la production; coûts de production; équilibre en situation de concurrence parfaite, de concurrence monopolistique, de monopole pur et d'oligopole. Prérequis: ECONE 101/102 ou l'accord du Doyen. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour ECON 383, MANEC 301 ou MANEC 323.

ECONE 382 Théorie macro-économique intermédiaire
★3 (3-0-0). Les thèmes majeurs de ce cours sont: le revenu national (théorie et applications), la théorie de la consommation globale, la théorie de l'investissement, la théorie de l'emploi, la politique monétaire et fiscale. Prérequis: ECONE 101/102 ou l'accord du Doyen. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour MANEC 333 ou MANEC 402.

ECONE 399 Introduction a l'économétrie
★3 (3-0-1). Etude élémentaire des sujets majeurs de l'économétrie avec insistance sur les méthodes de régression appliquée. Prérequis: ECONE 381/382, ECON 395/396, ou STAT 255 ou l'équivalent. Remarque: ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits en MGTSC 413, 414, 417, 419, STAT 341 ou AG EC 416. Les étudiants s'inscrivant au Certificat d'équivalence aprés avoir terminé un BA (Général) peuvent remplacer ECON 395/396 par STATQ 141 ou STAT 236 avec l'accord du Doyen.

ECONE 422 Monnaie et finance internationales
★3 (3-0-0). Analyse des mouvements de capitaux à court et long termes, investissements directs de l'étranger au Canada, échanges internationaux, problèmes de la balance des paiements, mécanismes de régulation internationale et ententes monétaires. Prérequis: ECON 381/382.

184.14 Education physique/Physical Education

EDPHQ 400 Problèmes contemporains
★3 (3-0-0). Analyse intraculturelle des problèmes posés par l'éducation physique dans une perspective d'éducation bilingue.

184.15 Enseignement pratique/Education Practicum

184.15.1 Elémentaire

Phase I

ENPRQ 200 Introduction à l'enseignement élémentaire
★3 (0-5L-0). Un cours de pédagogie générale et pratique. L'observation en milieu scolaire; l'enfant et l'école élémentaire; l'enseignant et les autres agents de l'éducation; les modèles pédagogiques et les programmes d'études; sa philosophie personnelle de l'éducation.

Phase II

ENPRQ 301/302 Enseignement pratique: Niveau élémentaire
★6 (6 semaines). Cours de pédagogie pratique: stage pratique de 4 semaines dans un milieu scolaire (immersion française ou français en milieu minoritaire) et 2 semaines de cours à contenu théorique et pratique à la Faculté. Prérequis: ENPRQ 200 ou l'équivalent et une note de 6 ou plus dans le test d'admission aux stages.

Phase III

ENPRQ 303/304/305 Enseignement pratique: Niveau élémentaire
★9 (9 semaines). 9 semaines consécutives d'observation et d'enseignement dans un milieu scolaire (immersion française ou français en milieu minoritaire). Un minimum d'une session de retour à la Faculté. Prérequis: Phase II.

Phase IV

ENPRQ 409 Etude approfondie individuelle de compétences particulières dans l'enseignement au niveau élémentaire
★3 (3-0-0). Prérequis: approbation du responsable de pédagogie.

184.15.2 Secondaire

Phase I

ENPRQ 251 Introduction à l'enseignement secondaire
★3 (0-5L-0). Cours de pédagogie générale et pratique. Etude des cadres à l'intérieur desquels le futur enseignant devra travailler; l'école et l'éducation de demain; les éléments constitutifs de l'acte pédagogique; l'adolescent et son univers; le rôle, les responsabilités de l'enseignant; observation en milieu scolaire et travaux pratiques d'organisation et de préparation.

Phase II

ENPRQ 352/353 Enseignement pratique: Niveau secondaire.
★6 (6 semaines). Cours de pédagogie pratique: stage de 4 semaines dans un milieu scolaire: immersion française ou français en milieu minoritaire et 2 semaines de cours à contenu théorique et pratique à la Faculté. Prérequis: ENPRQ 251 ou l'équivalent et une note de 6 ou plus dans le test d'admission aux stages.

Phase III

ENPRQ 354/355/356 Enseignement pratique: Niveau secondaire.
★9 (9 semaines). 9 semaines consécutives d'observation et d'enseignement dans un milieu scolaire: immersion française ou français en milieu minoritaire. Un minimum d'une session de retour à la Faculté lors du stage pratique. Prérequis: Phase II.

Phase IV

ENPRQ 459 Etude approfondie individuelle de compétences particulières dans l'enseignement au niveau secondaire.
★3 (3-0-0). Prérequis: approbation du responsable de pédagogie.

184.16 Entomologie/Entomology

ENTIE 120 Introduction à la biologie des insectes
★3 (3-0-3). Introduction à la structure, à la fonction, à l'écologie et à la systématique des insectes, l'accent étant mis sur la régulation de leur métabolisme, de leur locomotion, de leur reproduction et de leur développement. Etude de l'évolution des ordres des insectes et de leurs interactions avec les autres organismes, y compris l'homme. Prérequis: Biologie 30 ou l'accord du Doyen.

184.17 Etudes canadiennes/Canadian Studies

ETCAN 421 Langue et gouvernement au Canada
★3 (0-3s-0). Une étude de la diversité linguistique au Canada et de son impact sur les politiques et les institutions de gouvernement. Les thèmes comprennent le contact des langues, le maintien d'une langue, la mobilisation ethnique, les politiques linguistiques. Analyse approfondie de la législation en matière de langue et de l'utilisation des langues au sein des assemblées législatives, des fonctions publiques, des tribunaux et des écoles. Prérequis: SC PO 320 ou l'accord du Doyen. Note 1: ce cours peut compter pour la spécialisation en science politique. Note 2: ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits en SC PO 421.

184.18 Etudes classiques/Classics

ECLSS 102 La mythologie grecque et romaine
★3 (3-0-0). Un aperçu de la mythologie au moyen de lectures choisies en traduction d'auteurs anciens et d'études contemporaines.

ECLSS 250 Le monde grec
★3 (3-0-0). Vie et société grecques illustrées par des découvertes archéologiques: l'âge de bronze, la cité, les temples, Athènes, Sparte, l'art et l'architecture grecs, le commerce et la guerre. Diapositives, films et autres documents.

ECLSS 357 Mythes classiques et religion
★3 (3-0-0). Fondements et origines des mythes classiques et de la religion; les festivals religieux et coutumes; les humanistes modernes. Prérequis: ECLSS 102.

ECLSS 359 Classiques en français I
★3 (3-0-0). Une étude historique et critique de classiques de la littérature grecque et latine. Prérequis: ECLSS 102 ou 250.

ECLSS 360 Classiques en français II
★3 (3-0-0). Une étude historique et critique de classiques de la littérature grecque et latine. Prérequis: ECLSS 102 ou 250.

ECLSS 367 L'art grec archaïque et classique
★3 (3-0-0). L'origine et le développement de l'art et de l'architecture grecs. Son rapport avec l'histoire culturelle et politique de l'époque.

ECLSS 368 L'art helléniste et romain
★3 (3-0-0). Le développement et le rôle de l'art et de l'architecture dans les royaumes helléniques et dans la république romaine: l'évolution de l'art impérial romain.

ECLSS 483 La tragédie grecque et romaine I
★3 (3-0-0). Prérequis: ECLSS 359 ou 360 ou l'accord du Doyen.

ECLSS 484 La tragédie grecque et romaine II
★3 (3-0-0). Prérequis: ECLSS 359 ou 360 ou l'accord du Doyen.

184.19 Etudes de la religion/Religious Studies

ET RE 102 Introduction aux religions de l'Occident
★3 (3-0-0). Parcours historique des religions judaïque, chrétienne et islamique.

ET RE 231 Introduction à l'Ancien Testament
★3 (3-0-0). Introduction aux aspects littéraires et historiques de l'Ancien Testament.

ET RE 248 La tradition chrétienne
★3 (3-0-0). Les thèmes classiques de la chrétienneté depuis le Nouveau Testament jusqu'à nos jours: le message de Jésus-Christ, le kerygme, la hiérarchie de l'église, l'évolution de la doctrine, le canon des Saintes Ecritures, l'Eglise et l'Etat, les Saintes Ecritures et leur interprétation.

ET RE 249 Introduction au Nouveau Testament
★3 (3-0-0). Etude des premiers écrits de l'époque chrétienne, y compris les écrits apocryphes. On examine surtout la théologie de cette littérature et les images qui sont en voie de développement.

T RE 250 Jésus de Nazareth
3 (3-0-0). Une étude biblique et historique de Jésus: sa vie, sa mort, sa surrection et son influence à travers les âges.

T RE 261 Symbolisme religieux
3 (3-0-0). Etude comparative des symboles religieux dans les différentes religions ı monde: primitives, classiques et modernes. Une attention particulière sera ccordée aux différentes approches et méthodes.

T RE 263 Les fondateurs des religions
3 (3-0-0). Une étude de la vie des fondateurs des religions: Abraham, Bouddha, ésus-Christ et Mohammed; et comment leur vie a donné un sens à la vie et aux ıvotions des croyants à travers l'histoire. L'accent sera mis sur les livres hagiographiques religieux concernant la naissance, les miracles et la vie des fondateurs.

T RE 330 Le pentateuque
3 (3-0-0). La Genèse, l'Exode, le Lévitique, les Nombres, le Deutéronome. Etude ıitique des récits et de l'enseignement de ces cinq livres de la Bible.

T RE 332 Les Ecrits entre les deux Testaments
3 (3-0-0). Etudes de certains textes qui ont des liens soit avec l'Ancien soit avec le ouveau Testament et qui appartiennent à la période intertestamentaire. Exemples: s écrits de la Mer Morte, les Apocalypses.

T RE 333 Les Prophètes
3 (3-0-0). Etude critique de la deuxième partie de la Bible hébraïque. En particulier, ıtude des livres historiques et de certains prophètes. La pertinence de ces écrits our le monde actuel.

T RE 359 Martin Luther
3 (3-0-0). Etude de la vie de Luther et regard critique sur ses oeuvres et sa éologie. Son influence sur la Réforme.

84.20 Evaluation en éducation/Evaluation in Education

VAED 498 La mesure et l'évaluation en éducation
3 (3-0-0). La définition des objectifs. La mesure critériée et normative. L'évaluation ormative, formative et diagnostique. Les étapes de la planification d'un examen. observation des élèves. L'évaluation des attitudes. L'analyse et l'interprétation des ésultats.

84.21 Famille/Family

A MI 333 Ecole, famille, communauté
3 (3-0-0). Analyse des problèmes que les besoins changeants de la famille et de la ommunauté posent à l'école (contexte francophone minoritaire/immersion française).

84.22 Fondements de l'éducation/Educational Foundations

O ED 201 Introduction à l'histoire canadienne de l'éducation
3 (3-0-0). Une introduction à l'étude des relations entre l'école publique et la ociété. Les questions du bilinguisme et du multiculturalisme, de l'égalité des hances et du retour aux compétences de base seront abordées à partir d'une nalyse sociologique, politique et historique.

O ED 301 L'éducation au Canada: thèmes particuliers
3 (3-0-0). Une introduction à l'étude historique des écoles publiques au Canada vec une insistance sur l'Ouest canadien. L'étude sera faite de façon thématique en xaminant les antécédents historiques de certains problèmes scolaires contemporains. lormalement réservé aux étudiants du BEd/AD. Ce cours n'est pas accessible aux tudiants ayant ou postulant des crédits pour FO ED 201.

O ED 401 L'école française en situation minoritaire
3 (3-0-0). Son historique et sa situation sur le plan national, son rôle, ses buts, sa réation, sa gérance et ses programmes. Les besoins auxquels elle doit répondre. 'article 23 et la loi scolaire. Le rôle des parents et des enseignants. L'école ançaise et les programmes d'immersion: distinction et comparaison. Avenir de école française au Canada et en Alberta.

O ED 402 Choix de sujets en fondements de l'éducation
3 (3-0-0). Prérequis: Accord du Doyen.

O ED 430 Histoire de l'éducation dans l'Ouest
3 (3-0-0).

O ED 452 Approche philosophique de l'éducation et des théories du savoir
3 (3-0-0). Une introduction à l'étude philosophique de l'éducation. Deux ou trois uteurs importants en philosophie de l'éducation seront abordés à partir de leur héorie de la connaissance et de ses implications pour l'éducation.

84.23 Français/French

Voie intermédiaire
FRANC 160, FRANC 261 (1ère année)
FRANC 262 (2e année)
FRANC 322

Voie avancée
FRANC 165, FRANC 166 (1ère année)
FRANC 267 (2e année)
FRANC 322

Notes:
(1) Le tableau ci-dessus indique les cours obligatoires suivant la voie dans laquelle est orienté un étudiant et le moment où ils doivent être pris.

(2) Un étudiant ayant réussi des cours de la voie avancée ne peut se réorienter vers la voie intermédiaire ou postuler des crédits pour les cours de cette voie et vice versa.

(3) Les étudiants inscrits en FRANC 160 ne peuvent suivre que l'équivalent de trois demi-cours le semestre où ils prennent FRANC 160.

(4) Un seul cours de français au niveau 100 peut être crédité.

FRANC 160 Cours de français intermédiaire: niveau I
★6 (6-2s-2). Cours intensif: compréhension orale et écrite, usage créatif de la langue, acquisition des structures grammaticales de base. Prérequis: French 30, ou l'équivalent. Affectation par test de classement. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 150 ou 152 à la Faculté des Arts. Cours complet enseigné sur un semestre.

FRANC 165 Cours de français avancé: niveau I
★3 (3-0-2). Etude et mise en pratique des points principaux de la morphologie et de la syntaxe du français. Travaux d'application oraux et écrits. Prérequis: French 30 ou l'équivalent. Affectation par test de classement. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 158 à la Faculté des Arts.

FRANC 166 Cours de français avancé: niveau II
★3 (3-0-2). Développement de l'expression orale et écrite. Etude approfondie de la syntaxe et de la morphologie du français. Travaux d'application. Prérequis: FRANC 165.

FRANC 261 Cours de français intermédiaire: niveau II
★3 (3-0-2). Enrichissement de l'expression orale et écrite. Renforcement de l'acquisition des structures grammaticales. Ateliers de lectures et d'écriture. Prérequis: FRANC 160. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FRANC 165 et 166 ou FREN 158 à la Faculté des Arts.

FRANC 262 Cours de français intermédiaire: niveau III
★3 (3-0-0). Perfectionnement de l'expression écrite. Etude d'aspects particuliers de la grammaire française. Travaux d'écriture et pratique de l'autocorrection. Prérequis: FRANC 261. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 350 à la Faculté des Arts.

FRANC 267 Cours de français avancé: niveau III
★3 (3-0-0). Révision systématique de la grammaire française et étude approfondie d'aspects particuliers du français. Mise en pratique de la théorie par des travaux de rédaction. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FR CA 340 à la Faculté des Arts.

FRANC 271 Orthographe française
★3 (3-0-0). Etude des lois régissant l'orthographe usuelle et l'orthographe grammaticale. Prérequis: FRANC 166 ou FRANC 261, ou l'équivalent.

FRANC 272 La rédaction française
★3 (3-0-0). Etude des méthodes de la rédaction. L'expression des idées: étude du vocabulaire et de la phrase. Travaux de rédaction. Prérequis: FRANC 166 ou FRANC 261, ou l'équivalent.

FRANC 273 Documentation et présentation
★3 (3-0-0). Initiation à la recherche des documents, à leur sélection, à leur critique et à leur classement. Norme de présentation des travaux de recherche. Travaux pratiques.

FRANC 274 Phonétique corrective
★3 (3-0-0). Etude des sons isolés du système phonatoire français. Facteurs linguistiques et phonétiques intervenant dans la chaîne parlée. Principes et procédés de correction phonétique.

FRANC 322 Pratique de la dissertation
★3 (3-0-0). La compréhension, l'analyse et la synthèse de données. L'étude et la manipulation du raisonnement logique. La recherche et l'exploitation des arguments. L'élaboration et la mise en forme de la dissertation comme texte clair, cohérent et convaincant. Travaux pratiques. Cours obligatoire pour l'obtention du diplôme de la Faculté. Prérequis: FRANC 262, ou 267, ou l'équivalent.

FRANC 325 Initiation aux études littéraires
★3 (3-0-0). Etude des genres littéraires illustrée par des exemples (notamment du XVIIe siècle français). Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 330 à la Faculté des Arts.

FRANC 326 Littérature française du XVIIIe siècle
★3 (3-0-0). Evolution des genres littéraires illustrée par des textes du XVIIIe siècle. Prérequis: FRANC 325. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 360 à la Faculté des Arts.

FRANC 390 Littérature de jeunesse I
★3 (3-0-0). L'étude du répertoire de la littérature enfantine de langue française. Prérequis: FRANC 325 ou l'accord du Doyen.

FRANC 391 Littérature de jeunesse II
★3 (3-0-0). Etude du répertoire de littérature de jeunesse pour adolescents en termes de genres, de collections et de groupes d'âges. Fiction: de la bande dessinée au roman. Thèmes, structures du récit, personnages, qualités littéraires; les classiques. Non fiction: la littérature d'information scientifique et technique. Thèmes, critères de sélection. Les périodiques. Analyse et critique d'oeuvres marquantes du répertoire. Perspectives d'animation. Prérequis: FRANC 325 ou l'accord du Doyen.

FRANC 395 Civilisation francophone
★3 (3-0-0). Les différents aspects de la civilisation française: l'histoire, les institutions politiques, sociales et économiques; les arts, etc., de la France et des pays d'expression française (non-américains). Prérequis: FRANC 262 ou 267, ou l'équivalent.

FRANC 427 Littérature française du XIXe siècle
★3 (3-0-0). L'analyse des mouvements littéraires. L'évolution de la conception littéraire à travers les textes du XIXe siècle. Prérequis: FRANC 325. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 370 à la Faculté des Arts.

FRANC 428 Littérature française du XXe siècle
★3 (3-0-0). Etude d'oeuvres représentatives de la littérature moderne. Introduction à la littérature contemporaine. Prérequis: FRANC 325 et un demi-cours de littérature française. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 380 à la Faculté des Arts.

FRANC 431 Grammaire comparée du français et de l'anglais
★3 (3-0-0). Etude comparative des systèmes français et anglais sur les plans syntaxique, morphologique, lexical et sémantique. Prérequis: FRANC 262 ou 267 ou l'équivalent. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 400 à la Faculté des Arts. Note: Ce cours exige une bonne connaissance du français et de l'anglais.

FRANC 432 Stylistique comparée du français et de l'anglais
★3 (3-0-0). Comparaison des moyens d'expression du français et de l'anglais. Introduction à la traduction: théorie et pratique. Travaux d'application. Prérequis: FRANC 262 ou 267 ou l'équivalent. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 400 à la Faculté des Arts. Note: Ce cours exige une bonne connaissance du français et de l'anglais; il est recommandé à l'étudiant de suivre auparavant le cours FRANC 431.

FRANC 433 Terminologie des techniques
★3 (3-0-0). Questions pratiques de traduction (anglais/français) dans les domaines de la mécanique, des mines, de la chimie, de l'exploitation pétrolière, etc. Travaux pratiques. Prérequis: ce cours exige une bonne connaissance de l'anglais et du français ou l'accord du professeur.

FRANC 470 Analyse syntaxique
★3 (3-0-0). Etude approfondie de la structure de la phrase française. Théorie et pratique. Prérequis: FRANC 262 ou 267 ou l'équivalent. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour FREN 358 à la Faculté des Arts.

FRANC 475 Stylistique du français
★3 (3-0-0). Initiation aux procédés stylistiques. Prérequis: FRANC 322 ou l'équivalent.

FRANC 499 Etudes dirigées
★3 (3-0-0). Cours destiné à permettre aux étudiants d'approfondir un sujet de leur choix en littérature d'expression française non-canadienne. Prérequis: FRANC 325 et 2 demi-cours de littérature française.

184.24 Géographie/Geography

GEOGE 130 Introduction à la géographie physique I
★3 (3-0-3). Introduction à la géomorphologie. Analyse structurale des formes du relief terrestre et étude de leur évolution sous l'influence des conditions morpho-climatiques. Travaux pratiques. Ne peut être pris par les étudiants qui ont des crédits en GEOGE 201.

GEOGE 131 Introduction à la géographie physique II
★3 (3-0-3). Notions de climatologie et de biogéographie. Les climats, les sols et la végétation; étude de leurs combinaisons en divers milieux bioclimatiques. Travaux pratiques. Ne peut être pris par les étudiants qui ont des crédits en GEOGE 201.

GEOGE 150 Organisation de l'activité humaine en fonction de l'espace
★3 (3-0-0). Recherche d'un ordre dans l'occupation de la terre par l'homme et dans la distribution humaine sur terre; les cartes vues en tant que techniques pour comprendre la réalité.

GEOGE 151 Introduction à la géographie culturelle
★3 (3-0-0). Signification de la distribution humaine sur la terre. Les relations de l'homme avec son milieu physique; problèmes de la population mondiale; les différentes cultures à travers le monde.

GEOGE 221 Méthodes appliquées aux études de terrain et aux laboratoires en géographie physique
★3 (3-0-0). Introduction à la cartographie de terrain, méthodes élémentaires de repérage sur le terrain et collecte de données. Analyse de données et laboratoire. Possibilité d'une excursion d'une fin de semaine. Prérequis: GEOGE 130/131.

GEOGE 260 Géographie rurale du Canada
★3 (3-0-0). Le milieu physique et le développement rural du Canada; les limites physiques et les marges économiques: développement agricole et rural; l'avenir rural du Canada.

GEOGE 281 Géographie de la ville
★3 (3-0-0). Origine et extension de l'urbanisation. Problèmes de la croissance dans les zones urbaines et dans les systèmes interurbains.

GEOGE 282 Géographie urbaine du Canada
★3 (3-0-0). L'espace dans le développement urbain du Canada avec une référence particulière à la recherche actuelle.

GEOGE 340 Régionalisation du Canada
★3 (3-0-0). L'organisation régionale du Canada; l'influence de la répartition des ressources, de la localisation géographique, de la population, de l'urbanisation, de l'industrialisation, des groupes ethniques et des relations extérieures dans la différenciation régionale du Canada contemporain.

GEOGE 349 L'Ouest canadien
★3 (3-0-0). Ressources, types de développement et régions de l'Ouest Canadien. Accent sur les régions exploitées des Prairies et de la Colombie Britannique. Prérequis: accord du professeur.

GEOGE 354 Géographie de la population
★3 (3-0-0). Structures spatiales, caractéristiques démographiques et culturelles. Leur évolution. Répartition, densité, structures internes, mobilité et croissance de la population étudiées en fonction des diverses situations économiques et sociales.

GEOGE 406 Regards sur le paysage culturel
★3 (3-0-0). Examen d'une sélection de paysages mis de l'avant en Amérique du Nord et étudiés de manière à conduire à une interprétation théorique du pourquoi des paysages façonnés par l'humain. Prérequis: un cours de niveau 200 en Arts. Note: ce cours n'est pas accessible aux étudiants ayant des crédits en GEOG 341.

GEOGE 453 Recherche axée sur des problèmes spéciaux
★3 (3-0-0). Prérequis: un cours de niveau 300 en géographie.

GEOGE 460 Développement régional
★3 (3-0-0). Définitions du développement régional et des régions défavorisées. Efforts tentés pour y remédier et leurs effets spatiaux. Accent mis sur les régions défavorisées du Canada.

184.25 Géologie/Geology

GEOLE 102 Géologie physique
★3 (3-0-3). Structure interne et composition de la terre; continents et océans; roche et minéraux; eaux souterraines et approvisionnement en eau, érosion, transport dépôt de sédiments; activité éruptive et métamorphisme; formation des montagne structures tectoniques. Ce cours n'est pas accessible aux étudiants ayant obten des crédits en GEOL 201 ou 290.

GEOLE 103 La terre et la vie à travers les âges
★3 (3-0-3). Les processus géologiques et biologiques applicables à la géolog historique; la géologie structurale et les plaques tectoniques, la datation relative numérique l'analyse des faciés et corrélation, les fossiles, l'évolution de la vie. L géologie historique à partir de la formation du système solaire jusqu'à récemment: début des planètes, l'origine et le développement des chaînes de montagne bassins sédimentaires; principaux dépôts sédimentaires et gisements minier principaux groupes de fossiles, répertoire des fossiles, groupes disparus et radiation Prérequis: GEOLE 102. Ce cours n'est pas accessible aux étudiants ayant o postulant des crédits pour GEOL 204.

184.26 Histoire/History

HISTE 120 Histoire du monde depuis le 18e siècle
★6 (3-0-0). Cours de base du BA de 4 ans.

HISTE 204 Histoire de l'Europe depuis la Renaissance
★6 (3-0-0). Auparavant HISTE 201; ce cours n'est pas ouvert aux étudiants aya des crédits pour HISTE 201.

HISTE 217 L'Europe du 20e siècle
★6 (3-0-0).

HISTE 260 Introduction à l'étude de l'histoire du Canada de 1500 à 1867
★3 (3-0-0). Conçu pour servir de base aux cours de niveau supérieur en histoi canadienne. Auparavant HISTE 278; ce cours n'est pas accessible aux étudian ayant des crédits pour HISTE 278.

HISTE 261 Introduction à l'étude de l'histoire du Canada de 1867 à nos jours
★3 (3-0-0). Conçu pour servir de base aux cours de niveau supérieur en histoi canadienne. Auparavant HISTE 279; ce cours n'est pas accessible aux étudian ayant des crédits pour HISTE 279.

HISTE 360 Choix de sujets en histoire du Canada
★3 (3-0-0).

HISTE 365 L'Ouest canadien jusqu'en 1870
★3 (3-0-0). Un exposé mettant l'accent sur l'histoire des prairies de l'Ouest ma traitant également de l'expansion vers l'ouest et le nord et de l'ouest ultramontain

HISTE 366 L'Ouest canadien depuis 1870
★3 (3-0-0).

HISTE 374 Le Canada français jusqu'à la Confédération
★3 (3-0-0). L'évolution du Canada français étudiée dans sa globalité: économi société, vie politique.

HISTE 375 Le Canada français depuis la Confédération
★3 (3-0-0). L'évolution du Canada français étudiée dans sa globalité: économi société, vie politique.

HISTE 376 Le Canada, de la Première à la Deuxième guerre mondiale
★3 (3-0-0). Ce cours faisait partie de HISTE 376 (Histoire du Canada depuis 1914

HISTE 377 Le Canada depuis la Deuxième Guerre mondiale
★3 (3-0-0). Note: Ce cours faisait partie de HISTE 376 (Histoire du Canada depu 1914).

HISTE 378 Histoire du Canada à partir de la Confédération jusqu'à la Première guerre mondiale
★3 (3-0-0).

HISTE 399 La francophonie hors-Québec et son histoire
★3 (3-0-0). La formation et l'évolution des communautés francophones hor Québec, de l'établissement de l'Acadie à nos jours.

HISTE 460 Thèmes d'histoire du Canada
★3 (0-3s-0). Prérequis: 1 cours complet d'histoire du Canada.

HISTE 475 Thèmes d'histoire du Canada français au XXe siècle
★3 (0-3s-0). Plus particulièrement l'histoire de la francophonie hors-Québec. Prérequ 1 cours complet d'histoire du Canada.

184.27 Humanités/Humanities

HUME 301 L'humanité et ses besoins matériels: l'individu et la collectivité
★3 (3-0-0). Etude interdisciplinaire des sociétés occidentales et, plus précisémen de l'importance accordée dans ces sociétés aux biens matériels comme sources bonheur, de prestige et de pouvoir. L'étude de certains concepts (évolution l'homme et développement des sociétés, travail/loisir, production/consommatio accumulation/partage, etc.), permettra de cerner les difficultés rencontrées dans d sociétés de plus en plus matérialistes, à satisfaire les besoins et désirs des individ et des collectivités. Note: ce cours faisait partie de HUME 302.

HUME 303 L'humanité et ses besoins matériels: problèmes et conflits
★3 (3-0-0). Etude interdisciplinaire des problèmes auxquels doit faire face l'humani par rapport au progrès matériel et technologique, à l'exploitation et l'utilisation d ressources naturelles, à l'inégalité dans et entre les sociétés, à la dégradation de planète, aux conflits d'intérêts, aux idéologies nationales et internationales. C posera la question du rôle de l'individu et de la collectivité devant ces problème Prérequis: HUME 301 ou l'accord du Doyen. Note: ce cours faisait partie de HUM 302.

IME 401 Optiques et méthodes dans les Humanités
(3-0-0). Etude des différentes façons d'aborder les Humanités: analyse critique, énoménologie, herméneutique et autres. Travaux pratiques.

IME 402 L'humanité et ses besoins culturels/spirituels
(3-0-0). Etude interdisciplinaire du développement de l'humanité, en particulier la société occidentale, qui relève le défi de répondre à ses besoins culturels/rituels. Par l'étude de thèmes concrets actuels dans divers domaines, comme la igion, l'art, le langage, la communication, la morale..., l'étudiant sera amené à découvrir l'humain à partir du cheminement accompli dans le domaine culturel/rituel.

IME 420 Les grands écrits
(3-0-0). Etude interdisciplinaire et approfondie de textes importants relatifs à la nsée humaniste et qui proviennent de plusieurs milieux à différents stades du veloppement de l'humanité, comme le *Yi-king-Le Livre des mutations, Bhagavad-ta*, la *Bible*, l'*Odyssée* (Homère), *La République* (Platon), *Géorgiques* (Virgile), *Divine Comédie* (Dante), *Micromégas* (Voltaire), *The Wealth of Nations* (Smith), *e Origin of Species* (Darwin), *L'Homme et ses symboles* (Jung)....

84.28 Informatique/Computing Science

FOR 161 Introduction à l'informatique
3 (3-0-3). L'utilisation d'un micro-ordinateur. L'ordinateur et ses applications: itement de textes, graphique, tableur, base de données, transmission de données, . L'ordinateur et la société. Quelques éléments de programmation. Note: Ce urs n'est pas accessible aux étudiants ayant ou postulant des crédits pour CMPUT 4, 157, 251, 300. La priorité sera accordée aux étudiants du BA de la Faculté iint-Jean.

84.29 Linguistique/Linguistics

NGQ 200 Introduction à l'étude du langage
3 (3-0-0). Le langage et les autres moyens de communication. Les fonctions du ngage. Phonétique et prosodie.

NGQ 300 Linguistique française appliquée
3 (3-0-0). Langue, normes et société. Comparaison, dans le cadre du français, des fférents types de grammaires: analytique, fonctionnelle, transformationnelle. Prérequis: NGQ 200 ou équivalent.

84.30 Linguistique romane/Romance Linguistics

N R 320 Linguistique française: phonétique et morphophonologie
3 (3-0-0). Phonétique et phonologie comparées du français standard, du canadien-ançais et de l'anglais. Morphèmes de l'oral et de l'écrit. Evolution phonétique: cidence sur le français actuel. Facteur auditif et acquisition de L2. Prérequis: NGQ 200. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant es crédits pour R LIN 372 à la Faculté des Arts.

N R 422 Naissance et évolution de la langue française
3 (3-0-0). Etude de l'évolution du français aux plans phonétique, morphologique, ntaxique et sémantique, à la lumière de particularités actuelles de la langue. rérequis: LINGQ 200 ou l'équivalent. Note: ce cours n'est pas accessible aux tudiants ayant ou postulant des crédits pour R LIN 470.

84.31 Mathématiques/Mathematics

IATHQ 113 Calcul élémentaire I
3 (3-0-1). Revue de la géométrie analytique, différentiation et intégration des nctions simples, applications. Prérequis: Mathématiques 30 ou l'équivalent. Les tudiants ayant complété Mathématiques 31 ne peuvent pas prendre ce cours. Ce ours n'est pas accessible aux étudiants ayant ou postulant des crédits pour MATH 00, 114, 117.

IATHQ 114 Calcul élémentaire I
3 (3-0-1). Revue de la géométrie analytique. Différentiation et intégration des nctions simples. Applications. Prérequis: Mathématiques 30 et 31 ou l'équivalent. e cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour IATH 100, 113, 117.

IATHQ 115 Calcul élémentaire II
3 (3-0-0). Différentiation et intégration des fonctions trigonométriques, exponentielles t logarithmiques. Formes indéterminées et intégrales impropres. Techniques l'intégration. Applications. Prérequis: MATHQ 113, 114 ou l'équivalent.

IATHQ 120 Algèbre linéaire I
3 (3-0-0). Vecteurs et algèbre matricielle. Déterminants. Système d'équations néaires. Espaces vectoriels. Valeurs propres et vecteurs propres. Applications. rérequis: Mathématiques 30 ou l'équivalent. Remarque: ce cours n'est pas ccessible aux étudiants ayant ou postulant des crédits pour MATH 127, 200, 243.

IATHQ 121 Algèbre linéaire II
3 (3-0-0). Bases d'espaces vectoriels, transformations linéaires, changement de ases. Valeurs propres et espaces propres, diagonalisation. Produit scalaire. rocédé d'orthogonalisation de Gram-Schmidt, diagonalisation orthogonale. Forme uadratique. Applications. Prérequis: MATHQ 120 ou l'équivalent. Les cours de athématiques 30 et MATHQ 113 sont aussi recommandés. Remarque: ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour MATH 227.

IATHQ 214 Calcul intermédiaire I
3 (3-0-0). Séries infinies. Courbes planes et coordonnées polaires. Vecteurs et éométrie analytique à trois dimensions. Dérivées partielles. Prérequis: MATHQ 115 ou l'équivalent. Remarque: ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour MATH 209 ou 217.

MATHQ 215 Calcul intermédiaire II
★3 (3-0-0). Equations différentielles linéaires de premier et de second ordre avec coefficients constants. Courbes, vecteurs, tangentes, longueur de l'arc, intégration en deux et trois dimensions, coordonnées polaires, cylindriques et sphériques, intégrale de ligne et de surface, théorème de Green. Divergence et théorème de Stokes. Prérequis: MATHQ 214. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour MATH 209, 308, ou 317.

184.32 Musique/Music

184.32.1 Cours de musique

MUSIQ 100 Les rudiments de la musique
★3 (3-0-0). L'étude de la notation musicale et des rudiments de la musique. Introduction à la lecture élémentaire. Note: Les étudiants en BMus ne peuvent pas prendre ce cours.

MUSIQ 101 Introduction à la musique
★3 (3-0-0). Une étude de la littérature musicale en insistant sur l'audition et les moyens analytiques. Un bref survol historique de la musique occidentale.

MUSIQ 140 Ensemble
★3 (0-4L-0). Prérequis: accord du professeur après audition. Note: demi-cours qui s'étale sur les deux semestres.

MUSIQ 150 Théorie musicale I
★6 (3-0-0). Une étude de l'harmonie "classique" (c.-à-d. des XVIIe et XVIIIe siècles) qui inclut l'analyse élémentaire et une discussion préliminaire des éléments de la structure formelle, du contrepoint et de la texture chorale. Prérequis: MUSIQ 100 ou l'équivalent mesurable par un test de placement en théorie musicale de la Faculté.

MUSIQ 151 Culture de l'oreille et facilité au clavier I
★3 (0-3L-0). Perception auditive des matières couvertes en MUSIQ 150, par la mise en pratique de la lecture à vue, de la dictée et de l'harmonie au clavier. Prérequis: MUSIQ 100 ou l'équivalent mesurable par un test de placement en théorie musicale de la Faculté. Corequis: MUSIQ 150. Note: Un demi-cours qui s'étale sur les deux semestres.

MUSIQ 201 Les chefs-d'oeuvre de la musique
★3 (3-0-0). Une étude des plus grands chefs-d'oeuvre musicaux choisis pour représenter divers moyens d'expression et divers styles historiques. Prérequis: MUSIQ 101 ou l'équivalent.

MUSIQ 215 La musique au Canada
★3 (3-0-0). L'histoire de la musique au Canada de la colonisation jusqu'à nos jours. Prérequis: MUSIQ 101 ou l'équivalent.

MUSIQ 240 Ensemble
★3 (0-4L-0). Prérequis: Accord du professeur après audition. Note: demi-cours qui s'étale sur les deux semestres.

MUSIQ 440 Ensemble
★3 (0-4L-0). Prérequis: Accord du professeur après audition. Note: demi-cours qui s'étale sur les deux semestres.

184.32.2 Cours pour les programmes d'éducation

MUSIQ 103 Fondements de la musique
★3 (0-3L-0). L'acquisition et le développement de connaissances et d'habiletés musicales fondamentales nécessaires à l'enseignement élémentaire. Prérequis: MUSIQ 100 ou l'équivalent mesurable par un test sur les rudiments de la musique.

184.33 Philosophie/Philosophy

PHILE 121 Logique pratique
★3 (3-1s-0). Les procédés et les principes d'analyse des arguments. La matière du cours pourra inclure les sophismes informels, l'initiation à la méthode scientifique, le raisonnement statistique élémentaire, la logique "propositionnelle" élémentaire et les procédés susceptibles de mener à une décision rationnelle. Note: La priorité sera accordée aux étudiants du BA de la Faculté Saint-Jean.

PHILE 140 Introduction à la philosophie occidentale
★6 (3-0-0). Introduction aux principaux problèmes et théories qui ont dominé la pensée philosophique en Occident, par l'étude et la discussion critique de quelques classiques de la philosophie. Les lectures incluront la *République* de Platon et les *Méditations métaphysiques* de Descartes et une oeuvre majeure de Hobbes, Locke, Berkeley ou Hume.

Note: A moins d'indication contraire, il n'y a pas de prérequis formels pour les cours au niveau 200. Toutefois, les étudiants qui désirent s'inscrire à ces cours trouveront qu'il est très avantageux d'avoir d'abord suivi un cours de philosophie du niveau 100, tel le 121 ou le 140. Il est recommandé aux étudiants qui veulent poursuivre des études en logique formelle de consulter le paragraphe d'introduction a la §44 (Philosophy) de la Faculté des Arts.

PHILE 302 Une étude philosophique de l'être humain
★3 (3-0-0). Un regard sur l'être humain: sa connaissance, ses façons d'aimer.

PHILE 322 Epistémologie
★3 (3-0-0). Introduction aux questions visant la connaissance, surtout en ce qui concerne ses sources et sa justification. Ce cours comporte des sujets de discussion, tels le scepticisme et la certitude; la vérité, la foi ou la croyance et la justification; la connaissance du monde extérieur; la perception, la pensée et la mémoire; la connaissance a priori et empirique.

PHILE 323 Philosophie de l'esprit
★3 (3-0-0). Approches de la question de ce qu'est être une personne et posséder un esprit. On étudiera le rapport entre les idées philosophiques et les examens scientifiques des phénomènes mentaux. Parmi les sujets propres au cours: identité personnelle, mémoire, imagination, intention, désir, émotion et sensation, rapport entre le corps et l'esprit.

PHILE 326 Existentialisme
★3 (3-0-0). Vue d'ensemble systématique du fond historique, culturel et philosophique du mouvement existentialiste; étude détaillée de Kierkegaard, de Nietzche et de Husserl; examen des principaux thèmes généraux du mouvement (liberté, relations interpersonnelles, vie-mort, etc.) dans Heidegger, Jaspers, Sartre, Marcel, Camus et Merleau-Ponty.

PHILE 327 Philosophie récente de l'Europe continentale
★3 (3-0-0). Introduction à un ou plusieurs des mouvements post-existentialistes en Europe continentale, tels que la phénoménologie, l'herméneutique, la théorie critique, le structuralisme, le post-structuralisme, etc.

PHILE 339 Philosophie éthique I
★3 (3-0-0). Examen des questions de vrai et de faux, de bien et de mal et des raisons d'agir, par l'étude des théories éthiques d'auteurs tels que Platon, Aristote, Hobbes, Kant et J Stuart Mill.

PHILE 349 Esthétique: Philosophie des Arts
★3 (3-0-0). Introduction aux théories traditionnelles, par exemple, la théorie de l'expressionniste et du formaliste qui étudie la nature et la fonction des Arts. On examinera la nature de l'expérience esthétique.

PHILE 350 Esthétique: Philosophie du critique
★3 (3-0-0). Introduction aux fondements de l'art de la critique. Une attention spéciale sera donnée aux questions concernant les niveaux d'interprétation et d'évaluation des arts.

PHILE 357 Philosophie de la religion
★3 (3-0-0). Sujets généraux dans la philosophie de la religion; on choisira parmi les sujets suivants: le concept de "religion"; rapports entre philosophie et religion; arguments pour et contre l'existence de Dieu; sens et intelligibilité dans le langage religieux; religion et moralité; la religion et "le sens de la vie"; portée de l'étude de la religion sur les Sciences sociales.

PHILE 364 Introduction à la philosophie des sciences
★3 (3-0-0). Introduction aux principales questions dans la philosophie des sciences contemporaines: l'évolution des théories (la logique inductive, la confirmation des théories, l'approche historique de Kuhn et de Lakatos); l'explication, la réduction inter-théorique.

PHILE 365 Philosophie des sciences sociales
★3 (3-0-0). Un examen critique des théories au sujet de l'homme et de la société qui sont à la base des diverses sciences de l'homme et une évaluation des méthodes propres à ces disciplines.

PHILE 386 La bioéthique
★3 (3-0-0). Regard philosophique sur les problèmes majeurs de la bioéthique. Exemples: les droits et les devoirs du personnel hospitalier et du patient, l'euthanasie active et passive, le droit à la vie et l'avortement, la recherche et l'expérimentation en médecine humaine et animale, la manipulation génétique.

PHILE 447 Phénoménologie
★3 (3-0-0). Un aperçu des problèmes qui ont mené au développement de la méthode phénoménologique et une étude de cette méthode. Prérequis: PHILE 326 ou 327 ou l'accord du Doyen.

PHILE 471 Lecture dirigée I
★3 (3-0-0). Offert uniquement aux étudiants en BA Honneurs ou BA Spécial.

PHILE 473 Lecture dirigée II
★3 (3-0-0). Offert uniquement aux étudiants en BA Honneurs ou BA Spécial.

184.34 Physique/Physics

PHYSQ 141 Mécanique
★3 (3-0-3). Cinématique; dynamique d'une particule; travail et énergie; quantité de mouvement; cinématique et dynamique de rotation; équilibre des corps rigides. Prérequis: Physique 30, Mathématiques 30. Corequis: MATHQ 113, 114, 117.

PHYSQ 143 Les ondes et l'électricité
★3 (3-0-3). Mouvement périodique; ondulations; ondes sonores; charge électrique; champ électrique; potentiel électrique; loi de Gauss; capacité électrique; courant électrique; force électromotrice; circuits à courant continu. Prérequis: PHYSQ 141. Corequis: MATHQ 115, (118).

PHYSQ 271 Introduction à la physique moderne.
★3 (3-0-0). Rayonnement thermique et théorie quantique; l'hypothèse de Planck; l'effet photoélectrique et l'effet Compton; la relativité restreinte; la théorie atomique de Bohr; les rayons X; les propriétés ondulatoires des particules; l'expérience de Stern-Gerlach; les propriétés des noyaux; le processus de désintégration. Prérequis: PHYSQ 143 et MATHQ 115. Note: Les étudiants ne peuvent cumuler les crédits de PHYS 208 et PHYSQ 271.

PHYSQ 294 Laboratoire de physique moderne
★3 (0-0-3). Expériences en physique atomique et nucléaire. Prérequis: PHYSQ 143. Corequis: PHYSQ 271 et PHYSQ 301. Note: Demi-cours qui s'étale sur les deux semestres.

PHYSQ 301 Physique nucléaire et particules élémentaires.
★3 (3-0-0). Les sujets traités vont inclure les propriétés et la structure du noyau; datage par le carbone, technique du traceur isotopique; la fission et la fusion nucléaires; les réacteurs nucléaires; les particules élémentaires et les accélérateurs de particules. Prérequis: PHYSQ 271.

184.35 Psychologie/Psychology

PSYCE 104 (Science) Procédés psychologiques de base
★3 (3-0-1/4). Principes et développement de la perception, motivation, apprentissage et réflexion et leur relation avec le fonctionnement psychologique de l'individu. C cours est un prérequis pour la plupart des cours de psychologie et est normaleme suivi de PSYCE 105.

PSYCE 105 Comportement social et individuel
★3 (3-0-1/4). Introduction à l'étude de l'individualité humaine, de la personnalité des processus sociaux. Le cours peut inclure l'étude de quelques aspects développement humain normal et anormal, du jugement et du traitement psychologique Prérequis: PSYCE 104.

PSYCE 208 (Science) Psychologie générale expérimentale
★3 (3-0-3). Cours conçu pour les spécialisations en Arts et traitant de l'applicatio des méthodes expérimentales à un grand nombre de problèmes psychologique Prérequis: PSYCE 104.

PSYCE 223 Psychologie de la croissance
★3 (3-0-0). Les aspects biologiques, cognitifs et sociaux du développement psychologiqu de l'enfant et de l'adolescent. L'accent sera mis sur le développement du langage e de la pensée, et sur la relation qui existe entre eux. Prérequis: PSYCE 104/105 o l'équivalent.

PSYCE 233 Personnalité
★3 (3-0-0). Un aperçu des points de vue théoriques de représentation et travaux d recherches appliqués aux problèmes majeurs de l'étude de la personnalité. Prérequi PSYCE 104/105 ou équivalent.

PSYCE 241 Psychologie sociale
★3 (3-0-0). Introduction aux théories et à la recherche sur l'individu dans un context social. Prérequis: PSYCE 104/105 ou l'équivalent. Note: PSYCE 241 et SOC 24 peuvent être suivis tous les deux pour crédits.

PSYCE 275 (Science) Cerveau et comportement
★3 (3-0-0). Introduction à la fonction du cerveau et à son rapport à la sensation, a mouvement, à l'apprentissage, à la motivation et à la pensée. Prérequis: PSYCE 104

PSYCE 281 (Science) Principes du changement de comportement
★3 (3-0-0). Introduction aux techniques de changement de comportement. Le cou examinera l'origine de telles techniques dans l'expérimentation sur les animaux et l théorie de l'apprentissage, et fera une évaluation de leur efficacité quand elles so appliquées aux populations qui ont des problèmes spécifiques. Prérequis: PSYC 104.

PSYCE 339 Psychologie de l'anormalité
★3 (3-0-0). Introduction générale. Prérequis: PSYCE 233 et 241.

PSYCE 353 (Science) La mémoire et l'attention
★3 (3-0-0). Une introduction à l'étude des processus mentaux: la mémoir l'attention et la cognition. Les principaux sujets abordés sont: le traitement d'informatio visuelle, l'attention, la mémoire à court et à long terme, l'apprentissage et l compréhension du langage. Prérequis: PSYCE 104 ou 105 et SCSOC 322.

PSYCE 372 (Science) Comportement et génétique
★3 (3-0-0). Prérequis: PSYCE 104/105 et SCSOC 322 (ou PSYCO 211) et BIOLI 197, ou l'accord du Doyen.

PSYCE 392 Créativité
★3 (3-0-0). Théories et recherches relatives au processus de créativité, comprenan un essai de compréhension des manifestations du processus de créativité dan différents domaines. Prérequis: PSYCE 104/105. Note: ce cours n'est pas access ble aux étudiants ayant des crédits pour PSYCE 492.

PSYCE 458 Psychologie avancée de la cognition
★3 (3-0-0). A partir de recherches publiées, discussion d'un aspect particulier de cognition humaine (la lecture, le bilinguisme) en se servant de critères d'évaluatio théoriques et méthodologiques. Possibilité de recherche dirigée. Prérequis: SCSO 322 et PSYCE 233 et l'accord du professeur.

PSYCE 493 La phénoménologie et la recherche psychologique
★3 (3-0-2). Une étude approfondie des méthodes d'enquête des variations dans le descriptions d'expériences vécues, en insistant sur le développement, l'utilisation e la vérification de la validité de ces méthodes dans le contexte de la recherch psychologique. Recherche supervisée. Prérequis: PSYCE 104/105, SCSOC 322 e PSYCE 241 ou 223.

PSYCE 496 (Science) Etude personnelle I
★3 (1-0-3). Cours destiné à permettre aux étudiants d'approfondir personnellemer un sujet de leur choix (ce que le cadre d'un cours ne permet pas). Prérequis: accor du Doyen.

PSYCE 498 Etude personnelle II
★3 (3-0-0). Cours destiné à permettre aux étudiants au niveau du baccalauréa d'approfondir personnellement un sujet de leur choix. Sous forme de bibliographi dirigée ou de travaux de laboratoire. Prérequis: l'accord du Doyen.

184.36 Psychologie de l'éducation/Educational Psychology

PS ED 266 Introduction à l'apprentissage et au développement à l'école secondaire.
★3 (3-0-0). Etude du comportement de l'adolescent à travers les différentes étape de son développement. Les principaux thèmes abordés sont: l'adolescent en relatio avec son monde; les théories générales de l'adolescence; le développemer physique, intellectuel, affectif, social et moral de l'adolescent; théories générales d l'apprentissage et les différents facteurs qui influencent l'apprentissage en milie scolaire. Note: L'étudiant qui a reçu des crédits en PSYCE 104/105 ou l'équivaler doit suivre un demi cours senior en psychologie de l'éducation autre que PS ED 36 L'étudiant qui a reçu des crédits dans l'un ou l'autre des cours PSYCE 104/105 do suivre PS ED 266.

PS ED 267 Introduction à l'apprentissage et au développement à l'école élémentaire
★3 (3-0-0). Etude du comportement de l'enfant à travers les différentes étapes d son développement. Les notions de développement physique, intellectuel, social moral sont abordées en relation avec le comportement en milieu scolaire. Définitio de l'apprentissage et étude de la relation de l'apprentissage avec d'autres phénomène

chologiques tels que l'intelligence, la motivation, la maturation et leurs applica-
is dans l'enseignement. Note: L'étudiant qui a reçu des crédits en PSYCE 104/
ou l'équivalent doit suivre un demi cours senior en psychologie de l'éducation
re que PS ED 367. L'étudiant qui a reçu des crédits dans l'un ou l'autre des cours
YCE 104/105 doit suivre PS ED 267.

ED 366 Apprentissage et développement à l'école secondaire
(3-0-0). Ce cours souligne les divers aspects de la psychologie et de l'adolescence.
erçu de l'état des recherches en psychologie de l'adolescent dans le but de
velopper une compréhension de l'adolescent en relation avec son monde. Le
irs invite les futurs enseignants à prendre conscience du monde de l'adolescent
réfléchir sur les pratiques pédagogiques qui sont utilisées en milieu scolaire. Ce
irs est réservé aux étudiants du BEd/AD.

ED 367 Apprentissage et développement à l'école élémentaire
(3-0-0). Ce cours souligne la connaissance et la compréhension du monde de
fant: son développement, ses intérêts et ses besoins. Le cours essaie de faire le
entre les diverses théories de développement et d'apprentissage et le monde de
fant. Aperçu de l'état des recherches en psychologie de l'enfant dans le but de
velopper une compréhension du monde de l'enfant. Le cours invite les futurs
seignants à prendre connaissance du monde de l'enfant et à réfléchir sur les
itiques pédagogiques qui sont utilisées en milieu scolaire. Ce cours est réservé
étudiants du BEd/AD.

ED 467 Apprentissage et développement à l'école élémentaire
(3-0-0;0-0-3). Prérequis: PS ED 266 ou 267 ou l'équivalent.

ED 468 Apprentissage et développement à l'école élémentaire
(3-0-3). Prérequis: PS ED 266 ou 267 ou l'équivalent.

ED 469 Développement humain et éducation
(3-0-0). Prérequis: PS ED 266 ou 267 ou l'équivalent.

ED 471 Apprentissage et enseignement
(3-0-0). Prérequis: PS ED 266 or 267 ou l'équivalent.

ED 473 Langue et cognition dans l'éducation de l'enfant
(3-0-0). Prérequis: PS ED 266 ou 267 ou l'équivalent.

ED 477 Bilinguisme et cognition dans l'éducation de l'enfant
(3-0-0). Théories et recherches relatives au processus d'acquisition du bilinguisme
ns les programmes d'immersion et les programmes francophones. L'évaluation du
veloppement du bilinguisme inclut les dimensions socio-linguistiques et socio-
iturelles.

ED 482 Sensibilisation aux difficultés d'apprentissage chez l'enfant d'âge olaire
(3-0-0). Concepts d'apprentissage et de difficultés d'apprentissage. Etude des
ficultés d'apprentissage les plus fréquentes en milieu scolaire. Impact de ces
ficultés sur la vie émotive de l'enfant, sur sa vie à l'école, sur les parents, et sur la
mille en général. Possibilités d'interaction et d'aide de l'enseignant face à ces
ficultés. Prérequis: PS ED 267 ou 367 ou l'accord du responsable de pédagogie.

ED 483 Sensibilisation aux élèves doués et talentueux
(3-0-0). Définitions et concepts de douance. Moyens de dépistage. Etude du
veloppement social, affectif et cognitif de l'enfant doué et talentueux. L'étude de la
namique de l'enfant doué et talentueux dans son milieu. Analyse des modèles
richissement et d'accélération. Prérequis: PS ED 267 ou 367 ou l'accord du
sponsable de pédagogie.

ED 487 Principes d'évaluation des classes
(3-0-0). Prérequis: PS ED 266 ou 267 ou l'autorisation du Doyen.

ED 489 Elaboration des tests pour les enseignants
(3-0-0). Prérequis: PS ED 266 ou 267 ou l'autorisation du Doyen.

ED 495 La communication interpersonnelle pour les enseignants
(0-3L-0).

ED 497 Séminaires "senior"
(3-0-0). Prérequis: PS ED 266 ou 267 ou l'équivalent. Le contenu du cours varie
une année à l'autre.

ED 499 Etude individuelle dirigée en psychologie de l'éducation
(3-0-0). Prérequis: l'autorisation du Doyen.

184.37 Science politique/Political Science

C PO 101 Introduction au Gouvernement
(3-0-0). Une introduction aux institutions gouvernementales du Canada et
illeurs. Sujets étudiés: constitutions, assemblées législatives, organes exécutifs,
nction publique, cours de justice, gouvernement fédéral et d'autres sujets choisis.
e cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour
OL S 100 à la Faculté des Arts.

C PO 102 Introduction à la politique
(3-0-0). Une introduction au développement de la tradition démocratique. Sujets
tudiés: pouvoir ou influence, démocratie, droits et libertés, idéologie politique,
pinion publique, élections, partis politiques, groupes de pression et autres sujets
hoisis. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits
our POL S 100 à la Faculté des Arts.

C PO 320 Gouvernement et politique du Canada en tant que nation
6 (3-0-0). Structures et fonctions du Gouvernement du Canada et en particulier les
ommunes, le Sénat, le Cabinet, la Fonction publique, les partis politiques. Note: ce
ours n'est pas accessible aux étudiants ayant ou postulant des crédits pour POL S
21.

C PO 380 Politique comparée
3 (3-0-0). Introduction à des thèmes de politique comparée.

C PO 388 La politique dans les états plurilingues
3 (3-0-0). Analyse des problèmes politiques des états plurilingues et des solutions
ces problèmes.

C PO 421 Problèmes relatifs au gouvernement canadien
3 (3-0-0). Discussion de certains problèmes relatifs au gouvernement au Canada,
otamment ceux qui découlent du bilinguisme officiel. Prérequis: SC PO 320 ou l'accord du Doyen. Note: Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits en ETCAN 421.

SC PO 423 Fédéralisme canadien
★3 (3-0-0). Analyse du développement et des théories du fédéralisme canadien. On étudiera en particulier les problèmes actuels du système fédéral. Prérequis: SC PO 320 ou l'accord du Doyen.

SC PO 428 Gouvernement et politique des provinces
★3 (3-0-0). Etude des structures, des fonctions et des processus de certains gouvernements provinciaux au Canada. Prérequis: SC PO 320 ou POL S 321, ou l'accord du Doyen.

184.38 Sciences sociales/Social Sciences

SCSOC 311 Histoire de la pensée politique et sociale I
★3 (3-0-0). Survol historique et critique du développement de la pensée politique et sociale, de l'Antiquité à la Renaissance, en utilisant des textes choisis de quelques philosophes présocratiques (Héraclite, Parménide), Platon, Aristote, Boèce, Abélard, Thomas d'Aquin, Machiavel, Erasme. Note: Ce cours faisait partie de SCSOC 310. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour PHIL 333 ou POL S 310.

SCSOC 312 Histoire de la pensée politique et sociale II
★3 (3-0-0). Etude des principaux aspects de la pensée politique et sociale du XVIIe siècle à nos jours, centrée sur l'évolution du libéralisme, de ses différentes tendances et des réactions d'opposition qu'il a suscitées. Seront abordées les oeuvres de Hobbes, Locke, Montesquieu, Rousseau, Voltaire, Payne, Adam Smith, Tocqueville, Marx, Weber, Durkheim et Louis Hartz. Note: Ce cours faisait partie de SCSOC 310. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour PHIL 334, POL S 310 ou SOC 332.

SCSOC 321 Méthodes de recherche en sciences sociales
★3 (3-0-2). Initiation à quelques notions d'épistémologie concernant les sciences sociales et à quelques méthodes de recherche: principaux critères de la méthode scientifique et distinction avec les sciences exactes; construction des hypothèses et analyse conceptuelle; planification de la recherche et utilisation des documents; techniques de l'entrevue participante, de l'échantillonnage et de l'analyse de contenu. Note: Ce cours faisait partie de SCSOC 320. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour PSYCE 208, SOC 315 ou POL S 317.

SCSOC 322 Statistiques pour les sciences sociales
★3 (3-0-2). Application des méthodes statistiques à certains problèmes en sciences sociales. Interprétation des données en termes de moyennes, de mesures de variabilité et de mesures de relation: études de la théorie de l'échantillonnage et des tests d'hypothèses statistiques. Note: Ce cours faisait partie de SCSOC 320. Prérequis: Mathématiques 30 et SCSOC 321 ou l'accord du doyen. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour POL S 316, PSYCE 211, SOC 210, STATQ 141, STAT 155, 235, 236, 237 ou 255.

SCSOC 401 Concepts en sciences sociales
★3 (3-0-0). Analyse interdisciplinaire de concepts fondamentaux utilisés pour étudier la personne et les sociétés humaines, comme la culture, le langage, l'ethnie, l'autorité, l'idéologie, la classe, l'organisation, l'espace, la cognition, la production et la pénurie.

SCSOC 421 Modèles en sciences sociales
★3 (3-0-0). Etude de la technique de construction de modèles et étude de certains modèles couramment employés dans les sciences sociales; on étudiera, entre autres, un modèle du choix rationnel en condition de risque, un modèle de courbe d'indifférence de l'échange, un modèle stochastique de l'apprentissage et un modèle épidémiologique de diffusion.

184.39 Sociologie/Sociology

SOCIE 100 Introduction à la sociologie
★3 (3-0-0). Examen de la théorie, des méthodes et de la substance de la sociologie. Étude de la façon dont les sociétés comprennent la culture, la socialisation, la déviance, la stratification et les groupes. Le procès de transformation sociale par les mouvements sociaux, l'industrialisation, etc. Note: Les étudiants en 3e année ou plus avancés devraient prendre SOC 300 plutôt que SOCIE 100.

SOCIE 101 La société canadienne
★3 (3-0-0). Le développement de la société canadienne: comprenant des sujets comme les rapports franco-anglais, le régionalisme, les rapports avec les États-Unis, les droits des autochtones, la mosaïque canadienne, les inégalités et les conflits. Prérequis: SOCIE 100 ou SOC 300. Note: Ce cours n'est pas accessible aux étudiants ayant des crédits pour SOCIE 322.

SOCIE 102 Problèmes sociaux
★3 (3-0-0). Examen des problèmes sociaux, en mettant l'accent sur leur structuration sociale; choix de problèmes structuraux et comportementaux (ex. inégalité sociale, relations entre groupes, usage de la drogue, incapacités mentales et physiques); réponses sociales aux problèmes sociaux. Prérequis: SOCIE 100 ou SOC 300. Note: ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour SOCIE 321.

SOCIE 260 Inégalité et stratification sociales
★3 (3-0-0). Introduction à l'étude des inégalités sociales structurées et de la pauvreté; approches théoriques majeures; conclusions des études empiriques clés, en mettant l'accent sur le Canada. Prérequis: SOCIE 100 ou SOC 300.

SOCIE 261 Organisation sociale
★3 (3-0-0). Les systèmes sociaux, leurs composantes et leurs interrelations, les fondements de la différenciation et de l'intégration sociale. Prérequis: SOCIE 100 ou SOC 300.

SOCIE 301 Sociologie des rapports de sexes
★3 (3-0-0). Etude comparée des rapports entre les femmes et les hommes dans

certaines sociétés, en mettant l'accent sur le Canada contemporain; étude des rôles spécifiques à chaque sexe, et des théories relatives à leurs origines; recherche sociologique récente sur l'importance de la division sexuelle de la société.

SOCIE 367 La connaissance et la société humaine
★3 (3-0-0). Nature et évaluation de la connaissance (ex. valeurs et systèmes de croyances manifestes dans l'art, les sciences, la technologie) dans le contexte de régimes sociaux; le lien entre les systèmes rivaux de connaissance et l'évolution sociale. Prérequis: SOCIE 100 ou SOC 300.

SOCIE 368 Etude des minorités et des groupes ethniques
★3 (3-0-0). Analyse de processus sociaux qui permettent le développement et la compréhension du statut des minorités. Etude de cas des relations entre les groupes ethniques et minoritaires fondée sur les travaux réalisés à l'échelle nationale. Prérequis: SOCIE 100 ou SOC 300.

SOCIE 371 La famille
★3 (3-0-0). Le système familial vu dans le contexte de l'histoire et de la rencontre des cultures. Etude du système familial dans les sociétés contemporaines, soulignant les aspects caractéristiques de l'institution et ses tendances actuelles. Prérequis: SOCIE 100, 101, ou SCSOC 401

SOCIE 372 Sociologie du développement canadien
★3 (3-0-0). Diverses approches pour comprendre la dynamique de la société canadienne comme les produits primaires, les élites, les mouvements sociaux et l'économie politique, et la théorie critique. Prérequis: SOCIE 101.

SOCIE 402 Choix de sujets en sociologie
★3 (3-0-0). Le contenu varie d'une année à l'autre. Les sujets sont annoncés avant la période d'inscription. Prérequis: SOCIE 101 ou SOC 300.

SOCIE 467 Classes sociales de la société moderne
★3 (3-0-0). Evolution de la structure des classes dans les sociétés occidentales; théories récentes et découvertes empiriques dans le domaine de la mobilité sociale, des limites de classe, de la conscience de classe et des conflits de classe. Prérequis: SOCIE 260.

SOCIE 471 Systèmes familiaux comparés
★3 (3-0-0). L'étude comparative des systèmes familiaux, principalement dans des sociétés complexes contemporaines; concepts, théories, méthodologies et connaissances empiriques sur les similarités et les différences entre systèmes familiaux. Prérequis: SOCIE 371 (ou FAM 241 seulement pour les étudiants en Home Economics).

SOCIE 472 Choix de sujets — la société canadienne
★3 (3-0-0). Prérequis: SOCIE 260 ou 372.

SOCIE 480 Changement social
★3 (3-0-0). Signification du changement dans les systèmes sociaux et culturels; théories du changement social; problèmes des changements introduits dans certaines cultures. Prérequis: SOCIE 260 ou 261 ou SOC 332 ou 333.

184.40 Statistique/Statistics

STATQ 141 Introduction à la statistique
★3 (3-0-0). Variables aléatoires et distribution des fréquences. Distribution des échantillons et inférence élémentaire. Tables des éventualités (contingences) et test d'indépendance. Régression et corrélation. Analyse de la variance. Prérequis: Mathématiques 30 ou équivalent. Ce cours n'est pas accessible aux étudiants ayant ou postulant des crédits pour STAT 155, 235, 236, 237, 255, 265, PSYCO 211 (309) ou SCSOC 322.

184.41 Zoologie/Zoology

ZOOLE 120 Principes de biologie animale
★3 (3-0-3). Introduction à la structure, à la fonction et à la phylogénèse des animaux. Une attention particulière sera portée sur la régulation du métabolisme, la reproduction et le développement, ainsi que sur les interactions entre les organismes. Prérequis: Biologie 30. Ce cours ne pourra être crédité aux étudiants ayant déjà obtenu des crédits en BIOL 296 et 299.

85 Bourses

85.1 Prix aux Diplômés

Voir les §§222.1.1 et 222.2.1 de l'annuaire de l'Université pour les renseignements généraux concernant les bourses d'immatriculation et les bourses du baccalauréat.

a Médaille d'or des Pères Oblats
onditions: Décernée annuellement au finissant de l'un des programmes de la aculté Saint-Jean:

) qui a fait preuve d'excellence au cours de ses études sur la base d'un minimum de 60 crédits (ou leur équivalent) alors qu'il était inscrit dans cette institution;

:) de nationalité canadienne ou ayant le statut de résident permanent;

l) et qui possède une maîtrise de la langue française.

onateur : Le Fonds St-Jean.

a Médaille d'or Marie-Louise Brugeyroux
'onditions: Décernée annuellement au finissant en éducation qui, au cours de ses eux dernières années, s'est distingué dans ses études et a fait preuve d'excellence ors de son enseignement pratique.
onateur : The Alberta Teachers' Association

'rix du Consul général de France (Livres)
lomaine d'études: Toute discipline à la Faculté Saint-Jean autre que langue et ittérature françaises.
lombre: 1.
Conditions: Décerné annuellement au finissant de la Faculté Saint-Jean qui obtient a moyenne la plus élevée dans un des programmes du premier cycle, pour des tudes suivies en français dans toute discipline autre que langue et littérature rançaises.
Donateur : Le Consul général de France

'rix du Consul général de France en langue et littérature rançaises (Livres)
Domaine d'études: Un programme de langue et littérature françaises à la Faculté aint-Jean
Nombre: 1.
Conditions: Décerné annuellement au finissant de la Faculté Saint-Jean qui obtient a moyenne la plus élevée dans un programme de BA ou de BEd avec une pécialisation en langue et littérature françaises.
Donateur : Le Consul général de France.

85.2 Bourses au niveau du Baccalauréat

Prix du Bureau des Gouverneurs pour la Faculté Saint-Jean
Valeur : 200$ chacun.
Condition: Décerné à l'étudiant qui obtient la plus haute moyenne à la fin des remière, deuxième, et troisième années à la Faculté. Si deux étudiants ou plus sont x aequo, chacun recevra la totalité du prix.
Donateur : Fonds de successions échu à l'Université de l'Alberta.

85.3 Bourses d'immatriculation

Bourse Jean Patoine
Domaine d'études: Programmes du premier cycle à la Faculté Saint-Jean.
Valeur : 1,800$
Nombre: 1
Conditions: Décernée annuellement à un(e) albertain(e) de langue maternelle française admis(e) à la Faculté Saint-Jean sur la base du travail accompli au niveau secondaire et de sa contribution à la vie étudiante et communautaire.

Undergraduate Students of the Faculty of Science

192 Faculty Regulations

The Faculty of Science offers degrees in Biochemistry, Botany, Cell Biology, Chemistry, Computing Science, Entomology, Genetics, Geography, Geology, Geology and Zoology (Paleontology), Geophysics, Mathematics, Meteorology, Microbiology, Pharmacology, Physics, Physiology, Psychology, Statistics and Applied Probability, and Zoology.

Pre-professional (e.g. Pre-Medicine, Pre-Dentistry, Pre-Optometry) patterns may be taken in the Faculty (see §193.27).

192.1 Degrees and Certificates

The Faculty offers three programs leading to the Bachelor of Science (BSc) degree: Honors, Specialization, and General.

The four-year Honors programs are primarily for students who seek careers in scientific research. In addition, they provide preparation for admission to graduate school which leads to a Master of Science (MSc) or a Doctor of Philosophy (PhD) degree.

The four-year Specialization programs do not concentrate on one subject to as great an extent as the Honors programs. This allows students to choose from a broader range of courses and to take a greater number of courses in a secondary area of interest. They can provide the background necessary for admission to graduate schools, in some cases, and permit the attainment of a professional status in others.

The four-year General program aims to provide a general education with a scientific emphasis for students who seek careers in business, teaching, medicine, dentistry, etc.

It should be noted that, in many cases, transfer from one degree program to another can be easily arranged to suit changing ambitions, needs, or academic qualifications of the student.

Regulations governing the Honors, Specialization, and General degree programs will be found in §193.1 followed by descriptions of each degree program arranged under the subject headings (§193.2 to §193.22).

Special Certificates are offered for students who already hold a BSc degree from this university.

192.2 Admission

Minimum Requirements

To be considered for admission to the Faculty of Science, a student must present five (5) courses at the Grade XII level with an overall average of 70% or higher. The courses must include:

(1) English 30;

(2) Mathematics 30;

(3) Subject from Group C;

(4) Subject from Group C;

(5) Subject from Group A, B, or C. (For classification of Grade XII subjects refer to §13.3.2).

Honors and/or Specialization Requirements

Consideration for admission to an Honors program requires a minimum overall average of 80% on the Grade XII courses required for admission. Note that not all Honors programs may be entered in first year. See §193.2 to §193.22.

Consideration for admission to a Specialization program requires a minimum overall average of 75% on the Grade XII courses used for admission. See §193.2 to §193.22.

Faculty of Science

Specific Admission Requirements (S) and Recommended Courses (R) for Honors and Specialization Programs (in addition to English 30 and Mathematics 30)

% — No direct entry to first year

BEd/BSc Combined Degree

The Faculties of Education and Science offer a 5-year combined BEd (Secondary)/BSc (General) degree program. Any student interested in this program should contact either the Faculty of Education or the Faculty of Science for further information. See also §73.7 of the Faculty of Education calendar. Admission to the program requires an average of at least 70% on five Grade 12 courses; English 30 (grade of at least 60%), Mathematics 30, two of Biology 30, Chemistry 30, Mathematics 31 or Physics 30, and a fifth 30 level course which should preferably be one of the sciences mentioned above but if not, then one of the courses listed in §13.3.2 with a grade of at least 50 in each of the courses other than English 30 (which requires 60%). Transfer to the combined degree program is possible after the first or second year of a BSc program provided that all admission requirements and all the first and second year course and academic standing requirements of the combined degree program have been met at the time of transfer.

Pre-Professional Patterns

Students intending to enter the Pre-Professional patterns should present Biology 30, Chemistry 30, Physics 30, in addition to English 30 and Mathematics 30.

Visiting Student Requirements

This category is reserved for students admitted to a degree program at another institution. For admission, students must present a letter of permission from their home institution to take courses for credit towards the degree program. The letter of permission must stipulate the specific courses that have been agreed to by the receiving institution. The letter of permission must be presented before a student will be permitted to register.

A student while registered in the Faculty of Science will not be given permission to register as a Visiting Student at another institution if the equivalent course is given on campus in the same session.

Non-Matriculated Requirements

Students who are 24 years of age by the first day of classes of the session in which admission is sought may seek admission to the BSc General Program as non-matriculated applicants. Such students must:

(1) be Canadian Citizens or Permanent Residents (Landed Immigrants);

(2) be residents of Alberta, the Yukon or Northwest Territories;

(3) present Mathematics 30 and two (2) of Biology 30, Chemistry 30, Physics 30 or Mathematics 31 such that no single grade in any of the three matriculation subjects is less than 50%. To be considered for admission to the BSc General Program, the average on the three matriculation subjects must be at least 70%.

English Language Proficiency
All applicants must meet the English Language Proficiency requirements as outlined in §13.2.2 of the Calendar.

192.3 Transfer from Other Faculties and from Other Post-Secondary Institutions

(1) Students who do not meet the specific matriculation subject requirements as outlined in §192.2 of the Calendar will not be considered for admission to the Faculty of Science. Any deficiencies in matriculation subjects must be rectified prior to admission.

(2) Students registered in another Faculty at the University of Alberta or in another postsecondary institution may apply to transfer to the Faculty of Science provided they have a satisfatory standing by the standards of their current program and provided they have a CGPA of at least 5.0 on all university or university transfer courses attempted in their current program. Advanced standing will be given for completed course work which is applicable to the degree program. Credit will not normally be given for course work of a professional nature.

(3) Applicants who lack the minimum 70% average on five (5) required high school courses will not be considered until they have completed 30 units of course weight transferable to a BSc program.

(4) Students who have previously attended this Faculty and who have been required to withdraw will not be considered for readmission until they have attended another university or postsecondary institution or another Faculty and successfully completed at least 30 units of course weight transferable to a BSc program. These credits must not include any courses equivalent to ones previously passed at this University.

192.4 Definitions

The following terms, definitions, and abbreviations are used throughout this section of the Calendar.

Approved Option
The term "approved option" has a different meaning, depending on the program in which a student is registered.

(1) For an Honors or Specialization program, an "approved option" is a course approved by the department directing the student's program.

(2) For a General program, an "approved option" is a course taken from a Faculty other than Arts or Science and for which the student has received written approval from the Dean or designee prior to registering.

Arts Option
Those courses offered by the Faculty of Arts for which the student is eligible.

Note: Students registered in the Faculty of Science may not take ECON 395, 396, POL S 316, SOC 210, 315 for degree credit.

Course Weight
A unit of course weight is an indication of the instructional credit assigned to a course and is designated by the ★ symbol after the course number and name. Units of course weight are used to form a part of the degree requirements and are also used in calculating a students Grade Point Average (GPA) and Quality Index (QI).

Full-Session
The instructional period from September to April and is often referred to as the Winter Session.

Full-Session Course
A full-session course means a single course with six units of course weight.

Half-Session
The instructional periods from September to December or January to April.

Half-Session Course
A half-session course means a single course with three units of course weight.

Junior Course
Those courses numbered 199 or lower. **Note: Any 200-level course without a 100-level (or higher) prerequisite will be counted as a junior course.**

Normal Course Load
A normal, full academic course load is 30 units of course weight during the Winter Session.

Option
The term "option" where it appears in programs means a course chosen by the student from offerings by the Faculties of Arts or Science, provided the necessary prerequisite requirements have been met.

Science Option
Those courses offered by the Faculty of Science for which the student is eligible. Note: Not all courses offered by the Faculty of Science are available to students registered in the Faculty of Science.

Senior Course
Those courses numbered 200 to 499. **Note: Any 200-level course without a 100-level (or higher) prerequisite will be counted as a junior course.**

Session
Refers to either Winter Session or Intersession.

Intersession
The instructional periods of May/June (first-term) and July/August (second-term).

Year of Program: Year of program, as referred to throughout the Science section of the calendar, is defined as follows.

Students who are applying to, or continuing in, the Faculty of Science are considered to be in their:

First year if they have successfully completed up to 29 units of course weight of their degree program;

Second year if they have successfully completed between 30 and 59 units of course weight of their degree program;

Third year if they have successfully completed between 60 and 89 units of course weight of their degree program;

Fourth year if they have successfully completed at least 90 units of course weight of their degree program.

Courses Attempted
Refers to university or university transfer courses completed with a final grade and excludes courses from which a student has withdrawn with permission.

Courses Successfully Completed
Refers to university or university transfer courses having a final grade of 4 or higher.

192.5 Cumulative Grade Point Average (CGPA)

The cumulative grade point average is the weighted average over all courses attempted while registered in this Faculty (in all sessions including Intersession) since first admission to this Faculty (or the effective date of these regulations whichever is later). The only exception is that for students who have been **Required to Withdraw** from the Faculty and who are subsequently readmitted on the basis of work done elsewhere, the CGPA will be computed only on courses taken following readmission.

The calculation of the CGPA is also subject to the following rules:

(1) An alphabetic grade of ABF will be counted as a numeric grade of 1 in the computation of the CGPA.

(2) An alphabetic grade of WF will be counted as a grade of 1 in the computation of the CGPA.

(3) Grades of Credit-No, Credit, and Pass-Fail will not be included in the computation of the CGPA.

(4) The CGPA will be rounded to the nearest decimal place using standard rounding rules — that is, it will be rounded up with a value of 5 or greater in the first non-significant place and rounded down with a value of 4 or less in the first non-significant place.

192.6 Sessional Grade Point Average (GPA)

The Grade Point Average (GPA) is defined by the following formula:

The GPA refers to the sessional average and the following are the rules for its computation:

$$\text{GPA} = \frac{\text{sum of (grade x units of course weight)}}{\text{sum of units of course weight}}$$

(1) The GPA for any session shall be based on the final grades in all courses taken during that session including half-session courses repeated in the second term and courses extra to the degree program.

(2) An alphabetical grade of ABF will be counted as a numeric grade of 1 in the computation of the common GPA;

(3) An alphabetical grade of WF will be counted as a numeric grade of 1 in the computation of the common GPA;

(4) Grades of Credit-No, Credit, and Pass-Fail will not be included in the computation of the common GPA.

(5) The Winter Session GPA or sessional GPA will be rounded to the nearest decimal place using standard rounding rules — that is, it will be rounded up with a value of 5 or greater in the first non-significant place and rounded down with a value of 4 or less in the first non-significant place.

192.7 Academic Standing

Academic Record
Students should be aware that their academic record (i.e. transcript) is a continuing one and that all matters relating to courses, grades, academic standing, and probation will permanently appear on the academic record.

Academic Standing
Each student's academic performance will be reviewed at the end of each Winter Session. Eligibility for continuation in the Faculty of Science requires a CGPA of at least 5.0 on all courses attempted while registered in this Faculty.

Students (not already on probation) whose CGPA at the end of Winter Session is below 5.0 and who are attending Intersession, first-term will have the final decision on their academic standing deferred until the end of the first-term of Intersession.

Students who, upon assessment at the end of Winter Session (or at the end of Intersession, first-term for those for whom a decision was deferred), receive the designation "Required to Withdraw" will have their registration in Intersession, second-term and in the next Winter Session cancelled.

The determination of academic standing and the resulting consequences of that ruling depend on whether or not 60 or more units of course weight of the degree program have been completed.

192.7.1 Academic Standing — First- and Second-Year Students

The following regulations apply to students who have completed fewer than 60 units of course weight of their degree program.

(1) Required to Withdraw

Students whose CGPA is less than the minimum continuation requirement of 5.0 will be **Required to Withdraw.** In this case the student's registration for Intersession, second-term and the following Winter Session will be cancelled. Such students can only apply for readmission after attending another postsecondary institution at which time they can apply for admission as a transfer student under the conditions described in §192.3 (4).

(2) May Not Continue in an Honors or Specialization Program

Continuation in an Honors program is by recommendation of the department concerned and requires a GPA of at least 6.5 in the preceding Winter Session. Some departments have higher or additional requirements. See description of Honors programs of individual departments for details.

Those Honors students who do not meet the continuation requirements of their program may apply to transfer to a BSc Specialization program or to the General program, provided they meet the admission requirements of those programs.

Continuation in a Specialization program is by recommendation of the department concerned and requires a GPA of at least 5.5 in the preceding Winter Session. Some departments have higher or additional requirements. See description of Specialization programs of individual programs for details.

Those Specialization students who do not meet the continuation requirements of their program may apply to transfer to the General program, provided they meet the minimum continuation CGPA of 5.0.

2.7.2 Academic Standing — Third-Year or Later

The following regulations apply to students who e completed 60 or more units of course weight of ir degree program:

Required to Withdraw

Students who do not meet the minimum continuation CGPA of 5.0 will be **Required to Withdraw** and will have their registration for Intersession and the following Winter Session cancelled unless they meet the conditions for Probation described below.

May Not Continue in an Honors or Specialization Program

Continuation in an Honors program is by recommendation of the department concerned and requires a GPA of at least 6.5 in the preceding Winter Session. Some departments have higher or additional requirements. See description of Honors programs of individual departments for details.

Those Honors students who do not meet the continuation requirements of their program may apply to transfer to a BSc Specialization program or to the General program, provided they meet the admission requirements of those programs.

Continuation in a Specialization program is by recommendation of the department concerned and requires a GPA of at least 5.5 in the preceding Winter Session. Some departments have higher or additional requirements. See description of Specialization programs of individual programs for details.

Those Specialization students who do not meet the continuation requirements of their program may apply to transfer to the General program, provided they meet the minimum continuation CGPA of 5.0.

Probation

a. Probation is only available to students who have completed fewer than 60 units of course weight of their program and who have a CGPA of at least 4.5.

b. Students who have completed at least 60 units of course weight of their program but who have a CGPA of less than 4.5 will be required to withdraw and will not be eligible for Probation. Such students will have their registration for Intersession, second-term and the following Winter Session cancelled. Such students can only apply for readmission after attending another postsecondary institution at which time they can apply for admission as a transfer student under the conditions of §192.3 (4).

c. Students who have completed 60 or more units of course weight of their program and whose CGPA is less than 5.0 but greater than or equal to 4.5 will be allowed to continue on Probation for one year. To clear probation, students must raise their CGPA to at least 5.0 by attending a maximum of one full Winter Session (or two separate Winter terms). Probationary students may also attend Intersession to help raise their CGPA. Intersession does not count against the maximum of two Winter Session terms.

Probationary students will be reviewed as soon as they have attended two Winter Session terms. If at that point their CGPA is 5.0 or higher they will clear probation. If their CGPA is still less than 5.0 they will be **Required to Withdraw**.

Students who have previously been on probation and who after clearing probation again fall below a CGPA of 5.0 will be **Required to Withdraw** and will not be allowed a second period of probation.

holarship

The basis for scholarship consideration is passing ades in all courses on a load of at least 30 units of urse weight during the Winter Session.

First-Class Standing

First-class standing in a given year is awarded to any student who obtains a GPA of not less than 7.5 while enrolled in a full, normal academic load (30 units of course weight) during the Winter Session.

This is also referred to as the Dean's Honor Roll.

Continuation in Programs

Students will normally be permitted to continue in their degree program if the degree requirements for the year's work are met. These requirements vary among the programs, consequently the appropriate program in §193 should be consulted for further details.

192.7.3 Graduation Year

Students who have completed 120 units of course weight or more and who have either not applied to graduate, or who have applied but have not met graduation requirements, will be permitted to register only in those courses necessary to complete their current program as expeditiously as possible. Such students must have the written approval of the Associate Dean of Science for every course beyond 120 units of course weight in which they register. Students in Honors or Specialization programs must also have the written approval of their Departmental Adviser.

192.8 Courses

Selection of Courses

Students registered in the Faculty of Science must select courses offered by the Faculty of Arts or by the Faculty of Science. In some instances, courses from other Faculties may be permitted by permission of the Dean or designee. Written approval from the Faculty of Science is required if more than 30 units of course weight are taken in a Winter Session, except in those Honors and Specialization programs requiring more than 30 units of course weight in a given year.

Selection of First-Year Courses

First-year students (i.e., those with fewer than 30 units of course weight), must restrict their registration to junior courses. Senior courses may be taken in the first year only with the consent of Department concerned and the approval of the Dean or designee.

Withdrawal from Courses

Courses from which the student withdraws up to and including the last day for registration in the first and second terms will not appear on the student's record. Courses from which the student withdraws after the last day of registration and up to and including the last day for dropping courses will appear with a grade of "W" (Withdrew with permission) on the transcript.

Students who withdraw from a course after the deadline date and who thereby receive a grade of withdraw-failing (WF) will have a grade of 1 applied in arriving at the GPA for the purpose of determining the CGPA.

The deadlines for withdrawing from courses are listed at the beginning of this section of the Calendar.

Prerequisites

Courses with prerequisite requirements may only be used for degree credit if the prerequisite requirements are met.

A grade of 4 is the minimum grade acceptable in a course which is to be used as a prerequisite.

Where a prerequisite is stated, it is understood that equivalent courses may be used to satisfy the requirement. In addition, the department offering a course with prerequisite requirements may waive the prerequisite in writing. (Prerequisite waiver forms are available from the Faculty of Science office and the Department offices).

Students who are unsure if they meet the prerequisite requirements in a course, or who wish to obtain permission to have a prerequisite waived, should consult the department offering the course.

Repeating Courses

No student will be permitted to repeat any University course, whether a failed course or a course having a grade of W, more than once except for reasons deemed sufficient by the Council of the Faculty in which the student is enrolled. For Science students, the Faculty of Science will withhold credit or indicate the course is extra to degree on any course which contravenes this regulation.

Normally a student will not be permitted to repeat a course in which a grade of 4, or more, has been received.

Only two exceptions are permitted and each requires advanced written approval of the Dean or designee:

(1) when a higher grade is necessary for a course that is required in one of the degree programs;

(2) when a student in the last year of a degree program repeats a course(s), in order to raise the GPA to the level required by the degree program.

A student who repeats a course in which a grade of 4 or more has been received, without written permission of the Faculty of Science, will have the grade attained on the initial passing of the course used for the purpose of meeting degree requirements and no credit will be assigned to the repeated course.

Credit by Special Assessment

A student who may have carried on systematic studies which may be equitable to a junior course creditable in the Faculty of Science and who has been unable to obtain the equivalent advanced standing, may obtain Credit by Special Assessment. Credit by Special Assessment may be obtained by application to the Dean or designee. The Department concerned may require the student to write a regular final examination covering the material of the course being assessed. A fee for Credit by Special Assessment will be levied. This privilege will not apply to courses in which a student has received a failing grade.

Reexamination

(1) An undergraduate student, regardless of faculty, may be permitted a reexamination in a Science course (those offered by a department in the Faculty of Science) provided that:

a. The student's GPA is 5.5 or greater in the term (for courses completed in the first term) or session (for courses completed in the second term).

b. The weight of the final examination is 45% or higher.

c. The Chair of the Department offering the course indicates, by approving the application, that the student has a high probability of success in taking a reexamination.

d. The student received a grade of 3 or lower in the course.

e. The course was completed during the Winter Session.

(2) The following additional regulations apply to students registered in the Faculty of Science:

a. Students are permitted to take reexaminations in up to six units of course weight from among all eligible courses (including those offered by faculties other than Science) provided that any applicable requirement for reexamination of the faculty offering the course are met.

b. For a student failing to meet a graduation GPA, a reexamination in a Science course in the last session, whether failed or passed, may be approved in the final year (last 30 units of course weight) of the BSc degree program or Special Certificate program in which the term or sessional GPA is less than 5.5 on the condition that the maximum number of reexaminations (six units of course weight) has not been previously taken.

(3) If a reexamination is approved, the following policy applies:

a. The reexamination mark replaces the original examination mark in determining the final grade in the course.

(4) Reexaminations are not allowed in the following instances:

a. For a course in which there is no final examination.

b. For Intersession courses.

c. When a student is absent from the final examination in a course and is not eligible for a deferred examination.

(5) Students requesting a reexamination must follow the procedures detailed in §16.5.4 of this Calendar.

192.9 Graduation

Application for Graduation

Students who intend to receive a BSc (General, Specialization, or Honors) Degree or Special Certificate must apply for the Degree or Certificate at the Faculty Office by February 1 for Spring Convocation or by September 1 for Fall Convocation.

Degree Requirements

All BSc Degrees require a minimum of 120 units of course weight. Courses with weights of ★0 are offered for credit only, and, although they may be required in

specific degree programs, cannot be used for meeting the minimum units of course weight requirement in any degree program.

Convocation

All requirements for graduation at Spring Convocation must be met by the end of a Winter Session. Those completing degree requirements during Intersession will graduate at the Fall Convocation.

First-Class Honors

First-class Honors Degrees are awarded to any student in an Honors program who obtained a GPA of not less than 7.5 over the last two Winter Sessions provided the student was enrolled in a full academic load (30 units of course weight) during each Winter Session.

With Distinction

The notation "With Distinction" is inscribed on the parchment of a candidate for a General or Specialization degree if the candidate has obtained a GPA of not less than 7.5 over the last 60 units of course weight and provided the student was enrolled in a full academic load (30 units of course weight) during each Winter Session of the last two years.

Further regulations regarding academic standing, promotion, and graduation vary from program to program within the Faculty of Science, and are therefore given in §193 below. Regulations for Honors, Specialization, and General programs will be found in §193.1. Regulations for pre-professional patterns in §193.27.

192.10 Appeals and Grievances

A copy of Faculty of Science regulations regarding appeals on grades, academic standing and early re-admission may be obtained from the Faculty Office (CW 223 Biological Sciences Building). Note: There are time deadlines for submission of appeals. Any appeal must be initialed within 21 calendar days of the original ruling or posting of grades.

193 Programs of Study

193.1 The Degree of BSc in the Honors, Specialization, and General Programs

193.1.1 Honors Programs

A minimum of 120 units of course weight normally taken in four consecutive academic years, is required for the completion of the Honors program for the degree of BSc with Honors. These programs are designed to provide specialization in the chosen subject or subjects as well as the higher standard implied by the term "Honors".

Honors programs are available in the Departments of Biochemistry, Botany, Chemistry, Computing Science, Entomology, Genetics, Geography, Geology, Mathematics, Microbiology, Pharmacology, Physics, Physiology, Psychology, Statistics and Applied Probability, and Zoology. Honors is the preferred program for students planning to pursue graduate study.

Admission

Permission to enter first-year Honors programs may be granted to students with matriculation standing of at least 80% and with the approval of the Faculty Office and the department concerned. A request for this privilege should be made on the "Application for Admission" form.

Students need not commit themselves to Honors in the first year, and may register in an appropriate selection of courses as required by the regulations of a four-year program or of a General Program. If a sufficiently high standard is obtained in the first year, students may enter Honors in the second year. Students desiring to do so must submit a re-admission form to the Faculty Office during the period between the end of the first year and the time of registration for a second year.

Consideration will also be given to applications for transfer to Honors submitted by students who have completed the second or even third year of another program.

Selection of Courses

The following regulations govern Honors programs:

(1) In each year, an Honors student's program must be approved by an Honor's adviser in the student's department and by the Faculty Office.

(2) A minimum of 72 units of course weight in Science is required in most Honors programs. Certain departments may require more than 72 units of course weight Science courses.

(3) A student normally must take at least 18 units of course weight in Arts courses as part of the requirements for the Honors degree.

(4) Normally no more than 42 units of course weight in junior courses are permitted in Honors programs. **Note:** Any 200-level course without a 100-level (or higher) prerequisite will be counted as a junior course for this purpose.

(5) Certain non-Arts and non-Science courses appropriate to the program may be permitted in Honors programs with the approval of the Faculty Office and the department in which the student is taking the program.

Course Load Requirements

Students in Honors programs must take at least 30 units of course weight during the Winter Session of each year of the program. Exceptions to this requirement must be approved by the Department and the Faculty Office.

Academic Standings and Graduation

The following regulations govern Honors programs:

(1) Admission to and continuation in an Honors program is by recommendation of the department concerned and requires a GPA of at least 6.5 in each of the preceding Winter Sessions. See description of Honors programs of individual departments for additional requirements for admission to and continuation in the Honors program.

(2) A student who fails to attain the standard necessary for continuance in Honors must withdraw from the Honors program. In so doing the student may transfer to a Specialization program with the appropriate department's approval, or to the General program in the Faculty of Science. Students applying to transfer from an Honors program to Specialization or General must meet the continuation standards for the program concerned.

(3) A student who fails to complete the requirements for a degree with Honors in the fourth year may be granted the Specialization degree or the General degree forthwith upon application provided the courses taken and the standing attained are satisfactory. Such students also may apply to transfer to a Specialization or General program as per (2) above.

(4) Degrees with Honors are awarded in two classes: First Class Honors and Honors. For First Class Honors, a GPA of at least 7.5 on the 60 units of course weight for the last two Winter Sessions is required. For Honors, a GPA of at least 6.5 on 30 units of course weight in each Winter Session is required.

(5) Students transferring to Honors from Specialization or General programs, or other Faculties or universities with credit for fewer than 30 units of course weight are allowed to make up the deficiency or deficiencies, i.e., three units of course weight to 27 units of course weight during, or after taking the full program of courses in each of the Winter Sessions after entering the Honors program.

Transfer of Credit

A student transferring to the Faculty of Science with advanced standing normally will be required to complete at least 60 units of course weight (normally the last 60) while registered in the Faculty of Science at the University of Alberta.

Time Limits for Completion of Program

Normally an Honors program must be completed in four consecutive Winter Sessions. An Honors program may be interrupted only by special permission of the Department and the Dean.

Cooperative Work Option within Honors Programs

Cooperative education is based on the principle that, for some students, periods of appropriate employment outside the University, when integrated with their academic studies, enhance the benefits that the students obtain from their academic programs. The work should be of a type that the students can reasonably hope to obtain after they graduate, or suitably related to the content of their academic programs. Cooperative work experience will be wholly additional to and not a substitute for academic courses; it is perceived as a valuable enrichment for some students but not as an alternative to normal course work. Accordingly, the existing requirement for 120 units of course weight will be maintained, with no-credit course number for the evaluation of a report or project resulting from the work experience.

Admission requirements: students must ha completed a minimum of two years in an academ program and otherwise meet the requirements for admissi to the academic Honors program.

Program selection: two forms of cooperative wo are available:

(1) Full-time employment for a period of not less th three months and not more than one year; su periods, integrated into the normal academic progra are referred to as "work-terms."

(2) Part-time employment equivalent in working hou to no less than three units of course weight; su employment is referred to as a "work assignment

Registration: work-terms and work assignmer must be approved in advance by the department concern and the Dean's Office. Retroactive approval will not l granted.

Withdrawal: students may withdraw from a coo erative program on completion of a work-term or wor assignment, or at any time during a normal academ term, and may continue in the academic Honors progra of their Department without penalty, providing that th requirements of these programs have been met.

Information: At present the only cooperative wo program approved is in the Department of Geography

193.1.2 Specialization Programs

Four-year programs, comprising a minimum of 12 units of course weight, are available providing educatio to a professional level and leading to the degree of BS with Specialization.

Specialization programs are available in the Depa ments of Biochemistry, Botany, Chemistry, Computi Science, Entomology, Genetics, Geography, Geolog Mathematics, Microbiology, Pharmacology, Physics, Ps chology, Statistics and Applied Probability, and Zoology

Admission

Permission to enter the first year of a Specializatio program normally requires a matriculation average of least 75% plus consent of Department and the Facul Office.

Selection of Courses

The following regulations govern Specialization pr grams:

(1) In each year, a Specialization student's progra must be approved by a Specialization adviser in th appropriate Department and by the Faculty Office

(2) A minimum of 72 units of course weight in Scienc is required in most Specialization programs. Certai Departments may require more than 72.

(3) A student must take at least 18 units of cours weight in Arts courses as part of the requirement for most Specialization degrees.

(4) Normally no more than 42 units of course weight i junior courses are permitted in Specialization pr grams. **Note:** Any 200-level course without a 10 level (or higher) prerequisite will be counted as junior course for this purpose.

(5) Certain non-Arts and non-Science courses appro priate to the program may be permitted in Specia zation programs with the approval of the Facult Office and the Department in which the student i taking the program.

Course Load Requirements

Students in Specialization programs should no mally take at least 30 units of course weight during th Winter Session of each year of the program. Exception must be approved by the Department and the Faculty o Science.

Academic Standings and Graduation

The following regulations govern the Specializatio programs:

(1) Admission to and continuation in a Specializatio program is by recommendation of the Departmer concerned and requires a GPA of at least 5.5 i each of the preceding Winter Sessions. See de scription of Specialization programs of individua departments for additional requirements for admis sion into and promotion in the Specialization program

(2) A student who fails to attain the standard necessar for continuation in the Specialization program will b required to withdraw from that program. In so doin the student may apply to transfer to the Genera program in the Faculty of Science. Students apply ing to transfer from a Specialization to the Genera program must meet the continuation CGPA of 5.0.

A student who fails to complete the requirements for a Specialization degree in the fourth year may be granted the General degree forthwith upon application provided the courses taken and the standing attained are satisfactory. Such students also may apply to transfer to the General program, as per (2) above.

For graduation, a program of at least 120 units of course weight must be completed with a GPA of at least 5.5 in the last 90 units of course weight credited to the degree.

BSc Specialization degrees with Distinction are awarded when students achieve a GPA of at least 7.5 on the last 60 units of course weight provided the student was enrolled in a normal course load (30 units of course weight) during each Winter Session of the last two years.

nsfer of Credit

A student transferring to the Faculty of Science with nsfer of credit normally will be required to complete at st 60 units of course weight (normally the last 60) ile registered in the Faculty of Science at the University Alberta.

ne Limits for Completion of Program

The Faculty of Science and the Department may rmit a student to complete the requirements for a ecialization degree over a longer period of time than r years.

93.1.3 General Programs

The BSc General program is designed to provide a dent with a diversified education in more than one inch of study and includes a major and minor Subject Area of Concentration, each of which must be in ience. In addition to providing for a BSc General gree, this program allows for subsequent transfer to ecialization and Honors programs for which there is first-year admission. Students enrolled in the General ogram who intend to transfer to another program ould consult the appropriate Calendar description for particular program of interest and carefully select ir first-year core courses in accordance with the uirements of the specific program.

Only those students admitted to the three-year neral degree prior to July 1986 are eligible to continue be readmitted to this degree program. All others, luding those previously in a three-year program but o subsequently transfered to an undergraduate degree another faculty or another institution are eligible only admission to a four-year degree. The deadline for mpletion of the three-year General degree is April 30, 94.

The following regulations govern the General program:

In each year, a student's program must be approved by an adviser in the student's major Subject or Area of Concentration and by the Faculty Office.

To obtain a BSc General Degree a student must receive credit in 120 units of course weight. At least 72 units of course weight and not more than 102 must be in Science. At least 18 units of course weight and not more than 48 must be in Arts.

Each student must complete a major and minor Subject or Area of Concentration, each of which must be in Science. A minimum of 36 units of course weight and a maximum of 48 units of course weight are required in the major Subject or Area of Concentration, with no more than 18 units of course weight at the junior level. At least 24 units of course weight and not more than 36 are required in the minor Subject or Area of Concentration, with no more than 12 units of course weight at the junior level.

A Subject of Concentration consists of Science courses taken from a single Department in the Faculty of Science as well as the Departments of Biochemistry, Entomology, Pharmacology or Physiology.

An Area of Concentration consists of Science courses taken from one of the four following groups:

Biological Sciences: Biochemistry, Botany, Entomology, Genetics, Microbiology, Paleontology, Pharmacology, Physiology, Zoology, and courses titled Biology (see §193.3).

Physical Sciences: Astronomy, Biochemistry, Chemistry, Geophysics, Mathematical Physics, and Physics.

Mathematical Sciences: Computing Science, Mathematics, Statistics, and Applied Probability.

Earth Sciences: Cartography, Geography, Geology, Geophysics, Meteorology, Paleontology.

Courses in a major or minor Subject of Concentration may not be included among courses which are used to meet requirements for either a major or minor Area of Concentration, e.g. courses in Mathematics cannot be used in a major or minor Subject of Concentration if the major or minor Area of Concentration includes courses in Mathematics.

(4) The General program is characterized by a First-Year Core of courses which must include the following:

a. six units of course weight from among junior courses offered by the Department of English.

b. six units of course weight from among junior courses offered by the Departments of Computing Science, Mathematics, or Statistics and Applied Probability.

c. six units of course weight from among junior courses in the Departments of Chemistry or Physics.

d. six units of course weight from among junior Science courses titled Biology, Botany, Entomology, Genetics, Geography, Geology, Psychology, or Zoology.

e. six units of course weight from among junior courses in Arts, Science, or approved options.

(5) Normally at least 30 units of course weight at the junior level must be successfully completed before a student may register in senior level courses.

(6) Not more than 42 units of course weight of all courses taken can be at the junior level. **Note:** Any 200-level course without a 100-level (or higher) prerequisite will be counted as a junior course for this purpose.

(7) Each student must successfully complete a minimum of 12 units of course weight at the 300-level (or higher) in the major Subject or Area of Concentration and, in addition, at least six units of course weight at the 300-level (or higher) in the minor Subject or Area of Concentration. **Note:** Courses at the 300-level without a 200-level (or higher) prerequisite may not be used to meet these requirements.

(8) A maximum of 12 units of course weight may be taken from Faculties other than Science or Arts. Such subjects are considered as approved options and are not included as part of the major or minor Subject or Area of Concentration, nor towards the minimum requirement of 18 units of course weight in Arts.

Course Load Requirements

Students in the General Program should normally take 30 units of course weight during the Winter Session of each year of the program.

Academic Standings and Graduation

The following regulations govern General Programs:

(1) To obtain a BSc General degree, a GPA of at least 5.5 must be attained on the last 60 units of course weight credited to the degree. Moreover, a GPA of at least 5.5 must be attained in all courses in the major Subject or Area of Concentration.

(2) BSc General degrees with Distinction are awarded when students achieve a GPA of 7.5 or higher over the last 60 units of course weight, provided the student has satisfactorily completed at least a normal academic load of 30 units of course weight during the Winter Sessions of the last two years at the University of Alberta.

Transfer of Credit

A student transferring to the Faculty of Science with transfer of credit normally will be required to complete at least 60 units of course weight (normally the last 60) while registered in the Faculty of Science at the University of Alberta.

Time Limits for Completion of Program

The Faculty of Science may permit a student to complete the requirements for a General degree over a longer period of time than four years or meet the requirements in a shorter time by attending Intersession.

193.1.4 Special Certificates

An applicant holding a BSc degree from the Faculty of Science at the University of Alberta may qualify for a certificate indicating that the requirements for the equivalent of a BSc Honors degree (§193.1.1) or a BSc Specialization Degree (§193.1.2) have been met. To qualify for a Special Certificate, at least 30 additional units of course weight must be completed and all admission, program, academic standing, and graduation requirements of the equivalent degree must be met. Admission to a Special Certificate program requires approval of both the appropriate Department and the Faculty Office. The specific course requirements are determined, at the time of admission, by the appropriate Department and the Faculty Office. The Special Certificate is not available to degree holders from other faculties at the University of Alberta or from other universities. Further information can be obtained by consulting the Faculty of Science Student Services Office.

193.1.5 The BSc After a Previous Undergraduate Degree (Other than a BSc from the Faculty of Science at the University of Alberta)

An applicant holding an undergraduate degree may qualify for the BSc General (four-year) degree, a BSc Specialization degree, or a BSc Honors degree by meeting the following requirements:

(1) satisfactorily complete a minimum of 60 units of course weight (normally the last 60) while registered in the Faculty of Science at the University of Alberta.

(2) satisfy all admission, program, academic standing, and graduation requirements of the particular degree program. See §193.1.1 for Honors, §193.1.2 for Specialization and §193.1.3 for General Program.

Admission to a Specialization program and an Honors program requires approval of both the appropriate Department and the Faculty Office. The specific course requirements for a degree program are determined, at the time of admission, by the appropriate Department (for Specialization and Honors) and the Faculty Office. The BSc after a previous undergraduate degree is available to holders of undergraduate degrees from other faculties at the University of Alberta and from other universities. Further information can be obtained by consulting the Faculty of Science Student Services Office.

Only those students admitted to the after-degree program for the three-year General degree prior to July 1986 are eligible to continue or be readmitted to this after degree program. All others, including those previously in a three-year program but who subsequently complete an undergraduate degree in another faculty or another institution are eligible only for admission to a four-year degree. The deadline for completion of the three-year General degree is April 30, 1994.

193.1.6 Transfers Between Programs

A student may transfer from an Honors Program to either the corresponding Specialization Program or to the General Program, or from a Specialization Program to the General Program at any time in the program, by submitting a re-admission form to the Faculty Office. Transfers from the General Program to a Specialization Program or an Honors Program or from one Specialization Program to another or to an Honors Program may be made according to the dates listed under the heading "Faculty of Science Important Dates." In addition, transfers to Honors and Specialization Programs require approval of the Department responsible for the new program.

193.1.7 Completion of a BSc degree after Transfer to another Faculty

Students who transfer to another Faculty after completing part of a BSc program may reapply to the Faculty of Science after completing the degree from the other faculty. A former student transferring to the Faculty of Science normally will be required to complete at least 60 units of course weight while registered in the Faculty of Science at the University of Alberta. Courses completed in the Faculty of Science prior to transfer may count toward the minimum 60 units of course weight required to be completed while registered in the Faculty of Science. Science or Arts courses taken while in another Faculty, which are clearly noted as "extra-to-degree" on the transcript, may be used to fulfill specific subject requirements of a degree program in science but will not be used to fulfill the minimum residence requirement of the program.

193.2 Biochemistry

193.2.1 Honors in Biochemistry

Admission to and continuation in the Honors Program in Biochemistry requires a GPA of at least 7.0 in each of the preceding Winter Sessions.

Graduation requires a minimum GPA of 7.0 on the last 60 units of course weight credited to the degree.

First Year: CHEM 104, 160; MATH 113 (or 114), and 115; GENET 197; MICRB 193; six units of course weight in a junior Arts option (English recommended).

Second Year: BIOCH 301; CHEM 270; six units of course weight in a junior Physics; six units of course weight in an approved Science option; six units of course weight in an Arts option.

Third Year: BIOCH 401: six units of course weight in Biochemistry; CHEM 212; six units of course weight in an approved Science option: six units of course weight in an Arts option.

Fourth Year: Six units of course weight in Biochemistry; CHEM 361, 363; CMPUT 251 or equivalent; 15 units of course weight in approved Science options.

Note A: Recommended Science options for second year include MICRB 265; MATH 214 and 215; GENET 270 and 275 or other approved science courses.

Note B: Recommended Science options for third year include two intermediate three units of course weight courses in physics: MICRB 311 and 332 or 415 or other approved science courses.

Note C: Students are urged to consult with the Department of Biochemistry regarding the selection of options throughout the course of the program.

Note D: Students must receive a grade of not less than 6 in BIOCH 301 and 5 in all other Biochemistry courses.

Note E: Six units of course weight in a junior English is required as one of the 18 units of course weight in Arts options within the Honors in Biochemistry program and may be taken in first, second, or third year.

193.2.2 Specialization in Biochemistry

Admission to and continuation in the Specialization Program in Biochemistry requires a minimum GPA of 6.0.

Graduation requires a minimum GPA of 6.0 on the last 60 units of course weight credited to the degree.

First Year: CHEM 104, 160; MATH 113 (or 114), 115; GENET 197; MICRB 193; six units of course weight junior Arts option (English recommended).

Second Year: BIOCH 301, CHEM 270; six units of course weight in Physics; MICRB 265; three units of course weight in an approved Science option; six units of course weight in an Arts option.

Third Year: BIOCH 401; MICRB 311 and 332 or 415 ; CHEM 212; CMPUT 251 or equivalent; three units of course weight in an approved option; six units of course weight in an Arts option.

Fourth Year: Six units of course weight in a senior Biochemistry; 18 units of course weight in approved Science options; six units of course weight in an option.

Note A: Students are urged to consult with the Department of Biochemistry regarding the selection of options throughout the course of the program.

Note B: Students must receive a grade of not less than 6 in BIOCH 301 and 5 in all other Biochemistry course credited toward the minimal number required for the degree.

Note C: Six units of course weight in a junior English is required as one of the 18 units of course weight in Arts options within the Specialization in Biochemistry program and may be taken to the first, second, or third year.

193.3 Biology

Students in the General program who chose the major or minor in the Biological Sciences should take GENET 197, BOT 199, MICRB 193, and ZOOL 120. Other 100-level courses in the Biological Sciences, eg., BIOL 110, BOT 130, ENT 209, GENET 165 **and** PMCOL 111, cannot be taken for credit in the General program when the major or minor is in Biological Sciences. Students who choose Biology as a subject of concentration are advised to consult with one of the Departments of Botany, Entomology, Genetics, Microbiology, Zoology, or the Faculty of Science Office.

193.4 Botany

193.4.1 Honors in Botany

The Honors program provides students with a comprehensive education and is the most desirable route for students intent upon pursuing higher degrees and a research or academic career in either pure or applied aspects of Botany.

Admission to and continuation in the Honors Botany program requires a GPA of 6.5 in the preceding Winter Session. Graduation requires a minimum GPA of 6.0 on the last 30 units of course weight.

First Year: ENGL 101 or 104 and 105, BOT 199, ZOOL 120, GENET 197, MATH 113 (or 114), 115, CHEM 104, three units of course weight in a junior Science option.

Second Year: BOT 201, 210; BIOL 201, 202; CHEM 260; three units of course weight in a senior Botany, STAT 141 or 237; six units of course weight in an Arts option (ENGL 298, HIST 204, PHIL 120, RUSS 160, GERM 165, FREN 100, 150 or 155 and 156 recommended).

Third Year: BOT 220, 311; BOT 230, 231; BOT 240, 250; BOT 219; three units of course weight in Genetics. Six units of course weight in an Arts option; three units of course weight in a Science option.

Fourth Year: BOT 490; three units of course weight in Genetics; 15 units of course weight in Botany; six units of course weight in an option. (It should be noted that not every 300- and 400-level Botany course is offered every year).

193.4.2 Specialization in Botany

The specialization program in Botany provides the basic training and comprehensive education required for employment at the BSc level in industrial, government and university laboratories. Students who pursue this degree program are eligible for graduate programs as long as the appropriate academic standing is achieved. The program differs from the honors program in that students have freedom to pursue specialized areas of interest in Botany — as approved by the Department.

Admission to and continuation in the Specialization in Botany program requires a GPA of 5.5 in the preceding Winter Session. Graduation requires a minimum GPA of 5.5 on all courses credited to the degree.

First Year: ENGL 101 or 104 or 105; CHEM 104; MATH 113 (or 114), 115; BOT 199; ZOOL 120; GENET 197; three units of course weight in a junior Science option.

Second Year: BOT 201, 210; CHEM 260; six units of course weight in an Arts option (PHIL 120, ENGL 298 or HIST 204, recommended). BIOL 201, 202; three units of course weight in a senior Botany; STAT 141 or 237.

Third and Fourth Year: Students are required to take three units of course weight in each of Plant Taxonomy (BOT 220) and Plant Structure (BOT 219) plus six units of course weight in each of Plant Ecology (BOT 230 and 231) and Plant Physiology (BOT 240 and 250) and Genetics. Students must also take the equivalent of 18 units of course weight in senior Botany courses plus Botany 490. Students are also requied to take six units of course weight in Arts options, plus six units of course weight in Science options.

193.4.3 Concentration in Botany

Students intending to pursue Botany as a subject of concentration in the General Program should take BOT 199; GENET 197; BOT 201, 210; plus three units of course weight in each of the following areas: Plant Structure (BOT 219); Plant Ecology (BOT 230 or 231); Plant Taxonomy (BOT 220); Plant Physiology (BOT 240 or 250); plus an additional 15 units of course weight in senior Botany. Note that GENET 197 does not count toward the Botany content for a major in Botany but could contribute to a minor area of concentration in Biology.

193.5 Cell Biotechnology

The Departments of Microbiology and Genetics offer jointly a program leading to the BSc degree with Honors or Specialization in Cell Biotechnology. The program is designed to provide the educational prerequisites and laboratory experience to students who are preparing for either postgraduate or a technological career in the cellular aspects of this field. Graduates of these programs would generally be considered to have fulfilled the requirements to a graduate program in either Microbiology or Genetics.

A student enrolling in the Honors or Specialization program must confer with the Cell Biotechnology Program student adviser before registration each year. Information regarding the program may be obtained by contacting either of the participating departments. The two programs are described in §193.16 of this Calendar.

193.6 Chemistry

193.6.1 Honors in Chemistry

Honors students in chemistry are required to take a core of chemistry and auxiliary courses. The core consists of 42 units of course weight in chemistry courses, 12 units of course weight in mathematics courses, ni[ne] units of course weight in Physics, and 18 units of cour[se] weight in Arts courses. In addition to the core cours[es] honors students are required to complete at least [six] single-term senior courses in chemistry. Four of the[se] must be selected from Group A and the other two fro[m] either Group A or Group B. Finally, the honors stude[nt] must include seven single-term options in the third an[d] fourth years of the program. These are normally chose[n] from offerings within the Faculty of Science. All option[s] must be selected in consultation with the Department [of] Chemistry. The Arts options must include six units [of] course weight in scientific German or Russian.

Admission to and continuation in the Honors Chemist[ry] program requires a GPA of 6.5 in the preceding Winte[r] Session. Graduation requires a minimum GPA of 6.0 o[n] the last 30 units of course weight.

First Year: CHEM 104; CHEM 160; PHYS 141/14[5] MATH 113 (or 114), MATH 115; a junior course i[n] English or three units of course weight in English an[d] three units of course weight in an Arts option.

Second Year: CHEM 212; CHEM 241; CHEM 27[0] PHYS 238; MATH 214; MATH 215; six units of cours[e] weight in an Arts option.

Third and Fourth Years: CHEM 341; CHEM 361 CHEM 363; CHEM 381; CHEM 383, 18 units of cours[e] weight in senior chemistry courses, 21 units of cours[e] weight in science options, six units of course weight i[n] Arts options.

Group A: CHEM 313, 437; CHEM 461, 465; CHEM 477, 481; BIOCH 303.

Group B: CHEM 401, 403, 407; CHEM 413, 415 417, 419, 421; CHEM 433, 439; CHEM 463, 469, 467 CHEM 479, 483, 491, 493; BIOCH 305.

The Department of Chemistry may approve varia[tions] in the above program upon application.

193.6.2 Specialization in Chemistry

The complete specialization program consists o[f] 120 units of course weight and must include CHEM 104 (or 204), 160 (or 260), 212, 241, 270, 341, 361, 363, 381, 383; PHYS 141, 143, 238; MATH 113 (or 114), 115, 214, 215; a six units of course weight junior course in English or three units of course weight in English and three units of course weight in an Arts option, 12 units of course weight in Arts options, and 39 units of course weight in approved options. These options are normally chosen from offerings within the Faculty of Science. All options must be selected in consultation with the Department of Chemistry. The honors curriculum can be used as a guide in planning a specialization program.

Admission to and continuation in the Specialization in Chemistry program requires a GPA of 5.5 on all Chemistry courses and a GPA of 5.5 on all courses beyond the first 30 units of course weight. Graduation requires a minimum GPA of 5.5 on the last 90 units of course weight credited to the degree.

193.6.3 Concentration in Chemistry

Students in the BSc General program with a major in Chemistry should complete CHEM 100 (or 104 or 204); CHEM 160 (or 260); MATH 113 (or 114); MATH 115 and six units of course weight of junior physics during the first two years of their programs. It is recommended that CHEM 104, MATH 113 (or 114) and MATH 115 be taken in the first year since these provide maximum flexibility for course selection in the second and subsequent years of the program. To complete a major in Chemistry, students should select from the following senior courses; CHEM 212, CHEM 270, CHEM 330, CHEM 361, CHEM 363, CHEM 375 and CHEM 313. Students majoring in Chemistry should consult with the Chemistry Department Adviser before registering in second and later years of the program in order to plan a course of study and have their programs approved by the Adviser.

Students in the BSc General program with a minor in Chemistry should include CHEM 100 (or 104 or 204) and CHEM 160 (or 260) in their program. Other Chemistry courses to complete the minor may be selected from: CHEM 212; CHEM 270; CHEM 330; CHEM 361; CHEM 363; CHEM 375 and CHEM 313.

193.6.4 Certificate of Specialization After a BSc Degree from the Faculty of Science at the University of Alberta

All outstanding requirements of the Specialization Degree must be completed with an average of 5.5 or better in all chemistry courses taken after the general degree, see §193.1.4.

3.6.5 Diploma After a Previous Degree

Students who, after a period of professional ement, wish to update their qualifications may enroll special one-year program designed for this purpose. se who possess at least the three-year general ree or its equivalent, and who complete satisfactorily pproved selection of 30 units of course weight, may ıwarded a diploma which attests to this improvement heir qualification. All courses must be selected in sultation with the Department.

3.7 Computing Science

The Computing Science program has a quota in the ond year. Consideration for admission to the second r requires completion of the following required courses: PUT 114, 115, 172 (CMPUT 172 may be replaced by option); MATH 114, 115, 120; PHYS 141, 143; GL 101.

Consideration for admission to the Specialization in mputing Science program requires a GPA of 6.0 in preceding Winter Session and an overall GPA of 6.0 the required courses.

Consideration for admission to the Honors in Com- ing Science program requires a GPA of at least 6.5 in preceding Winter Session and a GPA of at least 6.5 the required courses.

Note A: Students with an aptitude for Mathematics e encouraged to take MATH 117, 118, 127, instead of ATH 114, 115, 120.

Note B: All courses required for admission must be mpleted by the application deadline. See §14.2 of the lendar.

93.7.1 Honors in Computing Science

Admission to the continuation in the Honors program quires a GPA of at least 6.5 in the preceding Winter ssion. Graduation requires a GPA of at least 6.5 on e last 30 units of course weight credited to the degree.

Students must obtain departmental guidance in veloping their program. All course selections and anges require approval by a departmental adviser.

Second Year: CMPUT 204, 225, 280, 285, 291; ATH 214 (or 217), 215 (or 317); six units of course ight in Arts option; three units of course weight in approved option.

Third Year: CMPUT 301, 304, 350; MATH 128 or 23; STAT 221; STAT 222 or CMPUT 321 or 322; six nits of course weight in an Arts option; six units of ourse weight in an approved Science option.

Fourth Year: CMPUT 319, 374, 379, 391, and at ast three units of course weight in CMPUT at the 300- 400-level; 15 units of course weight in approved ptions.

Note A: Honors students are encouraged to take ıe Honors version of the Mathematics courses beginning the first year.

Note B: Honors students are required to participate CMPUT 495 (Honors Seminar) during their degree rogram.

93.7.2 Specialization in Computing Science

Admission to and continuation in the Specialization rogram requires a GPA of at least 6.0 in the preceding Vinter Session. Graduation requires a GPA of at least .0 on the last 90 units of course weight credited to the legree.

The program gives students much freedom in pursuing pecialized areas of interest in Computing Science and n other disciplines. It is recommended that beginning vith the second year, options be used to build a strong oundation in one area of application. Recommended ireas of applications include business, electrical engineering and applied mathematics. The area of application is to be developed by the student with the assistance from he departmental adviser. Course selections in other departments and faculties may be subject to quotas and GPA requirements.

Second Year: CMPUT 204, 225, 280, 285, 291; MATH 214; six units of course weight in an Arts option; six units of course weight in an approved option.

Third Year: CMPUT 301, 319 or 340, 379; STAT 221; STAT 222 or CMPUT 321 or 322; six units of course weight in an Arts option; six units of course weight in an approved Science option; three units of course weight in an approved option.

Fourth Year: Nine units of course weight in an approved Computing Science course; 21 units of course weight in approved options.

Note: At least nine units of course weight in approved options must be at the 300-level or higher.

193.7.3 Cooperative BSc Program in Computer Engineering

A four-year program in Computer Engineering is offered jointly by the Faculty of Science and the Faculty of Engineering. For details see §83.5 of the Faculty of Engineering Calendar.

For administrative purposes, students in the program will be registered in the Faculty of Engineering.

(1) **Admission:** The matriculation requirements are set out in §82.1.

(2) **Promotion:** Promotion from year to year will be decided by the Joint Committee, but in general the requirements for promotion will be the same as those of the Faculty of Engineering.

(3) **Graduation:** The Joint Committee will recommend approval of the candidate for the degree to the Council of the Faculty of Science and to the Council of the Faculty of Engineering.

193.8 Entomology

193.8.1 Honors in Entomology

Admission to and continuation in the Honors Entomology program requires a minimum GPA of 6.5 in each of the preceding Winter Sessions. Graduation requires a GPA of 6.5 on 30 units of course weight in each Winter Session.

First Year: MICRB 193; BOT 199; ENT 120; ZOOL 120; CHEM 100; six units of course weight in Mathematics and/or Physics; six units of course weight in English or French or a foreign language (ENGL 101 recommended).

Second Year: CHEM 260; ZOOL 225, 226, 252, 253; two of ENT 207, 280, 292; GENET 197; GENET 275.

Third Year: BIOCH 301 or PL SC 331 and 432; three units of course weight in Computing Science (CMPUT 251 recommended); six units of course weight in an approved senior Botany; two of ENT 308, 317, 319, 321, 427; STAT 237; three units of course weight in an approved senior Science option (including Entomology): three units of course weight in an Arts option.

Fourth Year: Two of ENT 308, 317, 319, 321, 427; nine units of course weight in approved senior Science options (including Entomology); nine units of course weight in approved Arts options; six units of course weight in an option.

Students planning to take Honors in Entomology should consult the Department. Each Honors student will be assigned a faculty adviser.

In addition to the calendar requirements, other courses may be required by the adviser. Each honors student will also be required to pass a comprehensive oral or written examination by selected Faculty members within the final term.

193.8.2 Specialization in Entomology

Admission to and continuation in the Specialization in Entomology program requires a minimum GPA of 6.0 in each of the preceding Winter Sessions. Graduation requires an overall GPA of 6.0 on the last 90 units of course weight credited to the degree.

First Year: MICRB 193, BOT 199; ENT 120; ZOOL 120; CHEM 100; six units of course weight in Mathematics and/or Physics; six units of course weight in English, French or a foreign language (ENGL 101 recommended).

Second Year: CHEM 260; ZOOL 225, 226, 252, 253; two of ENT 207, 280, 292; GENET197; GENET 275.

Third Year: BIOCH 301 or PL SC 331 **and** 432; three units of course weight in Computing Science (CMPUT 251 recommended); six units of course weight in an approved senior Botany; two of ENT 308, 317, 319, 321, 427; STAT 237; three units of course weight in an approved senior science option (including Entomology); three units of course weight in an Arts option.

Fourth Year: Two of ENT 308, 317, 319, 321, 427; nine units of course weight in approved senior Science options (including Entomology); nine units of course weight in approved Arts options; six units of course weight in an option.

193.9 Genetics

193.9.1 Honors in Genetics

Admission to and continuation in the Honors Genetics program requires a GPA of 6.5 in the preceding Winter Session and a minimum GPA of 6.0 (6.5 in 1992-93) in all required Genetics courses (including GENET 197).

Graduation requires an overall GPA of 6.5 on all courses to be credited to the degree and a minimum GPA of 6.0 (6.5 in 1992-93) in all required Genetics courses (including GENET 197).

First Year: GENET 197; CHEM 100 (or 104), 160; MATH 113 (or 114), 115; MICRB 193; six units of course weight in an approved Arts option.

Second Year: BIOCH 301; BIOL 201; BOT 199 and ZOOL 120; GENET 270, 275; STAT 236 or 237; six units of course weight in an Arts option.

Third Year: GENET 280, 300, 304, 315; 12 units of course weight in approved Science options; six units of course weight in an Arts option.

Fourth Year: Three of GENET 308, 312, 318, 364, 390, 407 (see Note B); GENET 420 or 421; six units of course weight in an approved Science option; six units of course weight in an option.

Note A: Students reaching second year without completing CHEM 160 must take CHEM 260 in second year and BIOCH 301 in third year as an approved Science option.

Note B: In their final year, students are required to present a brief Honors thesis based principally on work carried out in GENET 407.

Note C: Students in the Genetics Honors Program may take two of GENET 407 or one each of GENET 406 or 407; they are obliged to take GENET 407 at least once.

193.9.2 Specialization in Genetics

Admission to and continuation in the Specialization in Genetics program requires a GPA of 6.0 in the preceding Winter Session and a minimum GPA of 6.0 in all required Genetics courses (including GENET 197).

Graduation requires an overall GPA of 6.0 on all courses to be credited to the degree and a minimum GPA of 6.0 in all required Genetics courses (including GENET 197).

First Year: GENET 197; CHEM 100 (or 104), 160; MATH 113 (or 114), 115; MICRB 193; six units of course weight in an approved Arts option.

Second Year: BIOCH 301; BIOL 201; BOT 199 and ZOOL 120; GENET 270, 275; STAT 236 or 237; six units of course weight in an Arts option.

Third and Fourth Years: GENET 280; four (4) of GENET 300, 304, 308, 312, 315 and 318; 27 units of course weight in approved Science options; six units of course weight in an Arts option; 12 units of course weight in options.

Note: Students reaching second year without completing CHEM 160 must take CHEM 260 in second year and BIOCH 301 in third year as an approved Science option.

193.9.3 Honors in Cell Biotechnology

The Departments of Genetics and Microbiology offer jointly a program leading to the BSc degree in Honors Cell Biotechnology. See §§193.5 and 193.16.4 for details.

193.9.4 Specialization in Cell Biotechnology

The Departments of Genetics and Microbiology offer jointly a program leading to the BSc degree with Specialization in Cell Biotechnology. See §§193.5 and 193.16.5 for details.

193.10 Geography

193.10.1 Honors in Geography

The Department of Geography offers both the BA and the BSc degrees with Honors in Geography. Students wishing to stress the humanities and social sciences should register in the BA program; those who wish to stress the physical and biological sciences should register in the BSc program.

Admission to and continuation in the BSc Honors in Geography program requires a GPA of 6.5 in the preceding Winter Session and a GPA of 6.5 on all Geography courses taken. Graduation requires a GPA of 6.5 in all courses credited to the degree.

First Year: GEOG 130, 131; ENGL 101; 12 units of course weight in approved Science options; six units of course weight in an approved option.

Second Year: GEOG 220; GEOG 221 plus nine units of course weight in Science options and 12 units of course weight in Arts options or GEOG 222 plus 12 units of course weight in approved Science options and nine units of course weight in approved Arts options; three units of course weight in an approved option.

Third Year: 21 units of course weight in approved Science options; nine units of course weight in approved options.

Fourth Year: GEOG 453; 12 units of course weight in approved Science options; 12 units of course weight in approved options.

Note: The following are required in the program: 36 units of course weight in Science Geography or Cartography, at least 12 of which must be at the 300-level; six units of course weight in Cartography; six units of course weight in Arts Geography and at least 12 units of course weight in approved non-Geography science options.

193.10.2 Honors in Geography (Physical Geography)

First Year: GEOG 130, 131; ENGL 101; six units of course weight from among junior courses in Computing, Mathematics, or Statistics; six units of course weight at the junior-level in Chemistry or Physics; six units of course weight in an approved option.

Second Year: GEOG 221, 223, 330, 331; six units of course weight in Cartograpy; six units of course weight in an approved Science option; six units of course weight in an approved Arts option.

Third Year: Six units of course weight in Arts Geography; nine units of course weight in a 300- or 400-level Science Geography; three units of course weight in SOILS; three units of course weight in an approved Science option; nine units of course weight in approved options.

Fourth Year: Six units of course weight in a senior science Geography, Cartography, or Meteorology; six units of course weight in a 300- or 400-level Science Geography; GEOG 453; 12 units of course weight in approved options.

193.10.3 Specialization in Geography

Admission to and continuation in the Specialization in Geography program requires a GPA of 5.0 in each of the preceding Winter Sessions. Graduation requires a GPA of 5.5 in the last 90 units of course weight credited to the degree.

First Year: GEOG 130, 131; ENGL 101; 12 units of course weight in approved Science options; six units of course weight in an approved option.

Second Year: GEOG 220; GEOG 221 plus nine units of course weight in Science options and 12 units of course weight in Arts options or GEOG 222 plus 12 units of course weight in approved Science options and nine units of course weight in approved Arts option; three units of course weight in an approved option.

Third Year: 21 units of course weight in approved Science options; nine units of course weight in approved options.

Fourth Year: 18 units of course weight in approved Science options; 12 units of course weight in approved options.

Note: The following are required in the program: 36 units of course weight in Science Geography or Cartography, at least 12 of which must be at the 300-level; six units of course weight in Cartograpy; six units of course weight in Arts Geography; and at least 12 units of course weight in approved non-Geography science options.

193.10.4 Specialization in Geography (Physical Geography)

First Year: GEOG 130, 131; ENGL 101; six units of course weight from among junior courses in Computing Science, Mathematics, or Statistics; six units of course weight at the junior-level in Chemistry or Physics; six units of course weight in an approved option.

Second Year: GEOG 221, 223, 330, 331; six units of course weight in Cartography; six units of course weight in the area of application; six units of course weight in an approved Arts option.

Third Year: Six units of course weight in Arts Geography; six units of course weight in a 300-level Science Geography; three units of course weight in SOILS; nine units of course weight in the area of application; six units of course weight in an approved option.

Fourth Year: Six units of course weight in a 400-level Science Geography; nine units of course weight in the area of application, (three of which must be at the 400-level); 15 units of course weight in an approved option.

Note: An area of application must be one of the following: Biological Sciences (including Biochemistry, Botany, Entomology, Genetics, Microbiology, Pharmacology, Physiology, Zoology and courses titled Biology), Physical Sciences (including Astronomy, Biochemistry, Chemistry, Geophysics, Mathematical Physics and Physics), Mathematical Sciences (including Computing Science, Mathematics and Statistics) or Earth Sciences (including Geology and Geophysics and Paleontology).

193.10.5 Specialization in Geography (Meteorology)

The Department of Geography offers a four-year program which meets the education prerequisites for students who are preparing for a career as a meteorologist. Students who wish to qualify for Graduate Studies in Meteorology are encouraged to take the recommended courses.

First Year: ENGL 101; MATH 113 (or 114), 115; MATH 120, 121; PHYS 141, 143; STAT 141; three units of course weight in an Arts option.

Second Year: CMPUT 251, 252, GEOG 333; MATH 214, 215; METEO 230; 332; PHYS 285; three units of course weight in approved PHYS option (PHYS 211 recommended); three units of course weight in an Arts option.

Third Year: MATH 201; METEO 330, 331, 430; PHYS 244; 12 units of course weight in approved Science options (MATH 311, METEO 220, GEOG 433, MEC E 431 are recommended); three units of course weight in an Arts option.

Fourth Year: METEO 432, 433 plus 12 units of course weight in approved Meteorology/Climatology Science options (GEOG 533, METEO 425, 434, 530 are recommended); six units of course weight in approved Physical Science options (PHYS 382 is recommended); three units of course weight in an option; three units of course weight in an Arts option.

193.10.6 Diploma in Meteorology

Students who have received a BSc degree and who wish to obtain special qualifications in Meteorology which are recognized by the Atmospheric Environment Service of Canada, will be awarded a diploma to recognize these additional qualifications, upon satisfactory completion of an approved selection of at least 30 units of course weight. The specific course requirements for this diploma are determined for each student by the Department.

193.11 Geology

Geologists are employed by companies engaged in exploration for and production of minerals and fuels; by government agencies such as the Alberta Research Council, Alberta Department of Energy and Natural Resources, Alberta Department of the Environment, Alberta Energy Resources Conservation Board and the Geological Survey of Canada; by companies engaged in the construction of major engineering projects; and by universities. They work in cities and in remote uninhabited regions, in the laboratory and in the office, and in the deserts and jungles of developing countries. Canada, a country dependent on its vast natural resources, requires the geologist's skills for the maintenance of the economy. A world facing crises in the supply of energy-giving fuels and metals will depend increasingly on the geologist for guidance in finding new supplies. Mankind facing progressive deterioration of the environment requires the geologist's knowledge of the earth to maintain the quality of life.

193.11.1 Professional Associations

The practice of geology in Alberta is regulated by the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA).

The right to practice geology in Alberta and acce professional responsibility for such work as well as t right to use the geologist title is limited to those who a registered with APEGGA.

Members of the Geology Student Society are aut matically student members of APEGGA. Graduates a encouraged to join APEGGA as geologists-in-trainin Two years of acceptable experience following graduatic is necessary for registration as a Professional Geologis the APEGGA membership category which confers th right to accept responsibility for geology work.

193.11.2 Honors in Geology

Admission to and continuation in the Honors Geo ogy program requires a GPA of 6.0 in the precedin Winter Session.

Graduation requires a minimum GPA of 6.5 on th last 60 units of course weight.

First Year: GEOL 102, 103; CHEM 104; MATH 11 115; PHYS 105, 106; ENGL 101.

Second Year: GEOL 219, 210, 220, 230, 231, 26 282; CMPUT 251; three units of course weight in a approved Science option; six units of course weight an approved Arts option.

Third Year: GEOL 319, 323, 345, 346, 347, 35 360; six units of course weight in an approved Scienc option; six units of course weight in an Arts option.

Fourth Year: GEOL 407 or 408; GEOL 470; 1 units of course weight in approved Geology option GEOPH 227, 229; six units of course weight in a approved Science option.

Note: The following Geology courses are offered alternate years and may have to be taken in the thi year if they are to be included in the student's program GEOL 314, 463, 492, and PALEO 414.

193.11.3 Honors in Geology and Zoology: Paleontology

Paleontology is a basic science; it is concerned wit the evolutionary history of life and, hence, draws upo both biological and geological knowledge. Paleontologist usually work as research scientists and/or teachers universities, museums, and government and industri laboratories, in Canada and elsewhere. Paleontologist usually hold advanced research degrees.

The Honors Program in Geology and Zoology

Paleontology is intended to provide an introductio at the undergraduate level to the fossil history of inve tebrate and vertebrate animals, thereby enabling th student to secure a core of broad paleontological knowledg that will permit later entry into more specialized postgraduat studies in invertebrate and vertebrate paleontology. Th program is also constructed to provide the student wit background in those ancillary geological and biologica sciences that are most relevant to studies in paleontology.

Students should be prepared to follow the guideline below, and are required to obtain a GPA of 6.5 calculate over the last two years. For First Class Honors, a average of at least 7.5 is required. In addition, student are required to pass an oral examination, in their fourt year, on stratigraphic and biologic principles. The exam ining committee shall consist of three members of th academic staff of Geology and/or Zoology.

First Year: GENET 197; BOT 199; CHEM 100 o 104; ENGL 101; GEOL 102 and 103; ZOOL 120; thre units of course weight in an approved Science option.

Second Year: ANTHR 390; GEOL 210, 219, 220 262; ZOOL 200, 252, 253; MATH 113 (or 114);

Third Year: GEOL 230 or 314; 282, 323; ZOO 321, 335, or BOT 411; ZOOL 361; six units of cours weight in an approved Arts option; six units of cours weight in an approved option.

Fourth Year: GEOL 230 or 314; PALEO 318, 319 STAT 237; ZOOL 335 or BOT 411; ZOOL 499 or GEO 407 and 408; nine units of course weight in approve courses.

193.11.4 Specialization in Geology

Admission to and continuation in the Specializatio in Geology program requires a GPA of 5.5 in th preceding Winter Session.

Graduation requires a GPA of 5.5 on the last 9 units of course weight credited to the degree.

First Year: GEOL 102, 103; CHEM 104; MATH 113 115; PHYS 105, 106; ENGL 101.

Second Year: GEOL 210, 219, 220, 230, 231, 262 282; CMPUT 251; three units of course weight in a approved Science option (BOT 199 or ZOOL 120, MATH 120 or STAT 141 recommended); six units of cours weight in an Arts option.

Third Year: GEOL 319, 323, 345, 346, 347, 352, ; three units of course weight in a Science option; six s of course weight in an Arts option.

Fourth Year: GEOL 470; 12 units of course weight ipproved Geology options; GEOPH 227, 229; nine s of course weight in approved Science options.

Note: The following Geology courses are offered in rnate years and may have to be taken in the third r if they are to be included in the student's program: OL 314, 463, 492 and PALEO 414.

3.11.5 Concentration in Geology

Students in the General Program are recommended onsider whether they may wish to transfer to Spe- ization or Honors in Geology at a later date: if so, y should take (1) below. Other students will find that ions (2) and (3) make attractive packages for Major Minor subjects respectively, giving an excellent intro- tion to the nature of the solid Earth and its resources. dents taking option (1) should be able to transfer to professional geology programs at the end of any of first three years if all other requirements of those grams are met.

GEOL 102, 103; 210, 219, 220, 230, 231, 262 and 282; 319, 323, 345, 346, 347, and 360 (and 352 if 48 units of course weight are required).

GEOL 102, 103; 205, 206, 207, 208 and 295; either 210, 220, 230, 262, 323, 340 or 230, 231, 262, 345, 346, 347 with a further nine units of course weight in geology courses to make 48 units of course weight.

GEOL 102, 103; 205, 206, 207, 208 and 295; and one or more of 210, 220, 230, 282, and 340.

93.12 Geophysics

The Department of Physics offers two programs aling with solid earth physics and space physics. The nors in Geophysics program is designed to prepare idents for careers in graduate work in geophysics and described in §193.18.2. The Specialization in Geophysics ogram is designed to prepare students with the conceptual d laboratory background required for employment at BSc level in industry, government and technical hools, and is described in §193.18.5.

93.12.1 Professional Associations

The practice of geophysics in Alberta is regulated the Association of Professional Engineers, Geolo- sts and Geophysicists of Alberta (APEGGA).

The right to practice geophysics in Alberta and cept professional responsibility for such work as well the right to use the geophysicist title is limited to ose who are registered with APEGGA.

Members of the Geophysics Student Society are tomatically student members of APEGGA. Graduates e encouraged to join APEGGA as Geophysicists-in- aining. Two years of acceptable experience following aduation is necessary for registration as a Profes- onal Geophysicist, the APEGGA membership category nich confers the right to accept responsibility for geo- hysical work.

93.13 Linguistics

In January 1987 the Department of Linguistics moved the Faculty of Arts. Students who began a BSc rogram in Linguistics prior to 1987 should consult the epartment of Linguistics concerning completion of the rogram.

See the Faculty of Arts §44.27 of the Calendar garding Linguistics courses offered in the Faculty of rts.

93.14 Mathematics

93.14.1 Honors in Mathematics

Admission to and continuation in the Honors in Mathematics program requires a minimum GPA of 6.0 in he preceding Winter Session. Graduation requires a minimum GPA of 6.0 on the last 30 units of course weight credited to the degree and an overall GPA of 7.0 in all Mathematics courses taken in the program.

First Year: MATH 117, 118, 127, 128; six units of course weight in an approved Science option; six units of course weight in an approved Arts option; six units of course weight in an approved option.

Second Year: MATH 217, 227, 317, 336; six units of course weight in an approved Science option; six units of course weight in an approved Arts option; six units of course weight in an approved option.

Third Year and Fourth Years: 30 units of course weight in Mathematics courses, six units of course weight in an approved Science option, six units of course weight in an approved Arts option, 18 units of course weight in approved options.

The program must include MATH 411, 417, 418, 426, 427, 447, 486, 496, one of MATH 347, 373, 421, and either MATH 446 or 448.

The Honors Seminar, Math 496 should normally be taken in the fourth year. Note that several of the required courses are only given in alternate years.

Honors in Applied Mathematics

This program is the same as the above except for the courses required in the Third and Fourth Years: MATH 411, 417, 436, 438, 486, 496, one of MATH 373 or 421, 12 units of course weight in approved options at the 300-level in the field of application, three units of course weight in an approved 300- or 400-level Mathematics and/or Mathematical Physics option, 12 units of course weight in approved Science options, six units of course weight in an approved Arts option, six units of course weight in an approved option.

Minor in Statistics

The degrees Honors in Mathematics and Honors in Applied Mathematics can each be obtained with a minor in Statistics provided the student's program included STAT 265, 266, 465, 466, 471, and two of STAT 377, 472, 475, 479 or a 400-level Statistics course.

Minor in Computing Science

The degrees Honors in Mathematics and Honors in Applied Mathematics can each be obtained with a Minor in Computing Science. The student's program must include CMPUT 114, 115, 172, 204, 280, 285, 374 and at least 12 units of course weight in Computing Science at the 300- or 400-level chosen with approval of both the Computing Science Department Honors Adviser and the Mathematics Department Honors Adviser. The student must have a GPA of at least 6.0 in all these courses. Students in the Minor in Computing Science should consider taking CMPUT 225 or 291 in second year in order to keep options open for selection of 300-level Computing courses.

The Department also offers a BA Honors in Mathematics (See §43.15.1).

Honors in Mathematical Physics

See §193.18.3 for details.

193.14.2 Specialization in Mathematics

Admission to and continuation in the Specialization in Mathematics program requires a GPA of at least 5.5 in the preceding Winter Session and a minimum GPA of at least 5.5 on all Mathematics courses taken. Graduation requires a GPA of at least 5.5 on all Mathematics courses credited towards the degree and a GPA of at least 5.5 is required on all courses credited towards the degree.

First Year: MATH 114, 115; MATH 120, 121; CMPUT 114, 115; six units of course weight in an approved Science option; three units of course weight in a junior English; three units of course weight in an Arts option.

Second Year: MATH 214, 215; MATH 223; three units of course weight in Mathematics; six units of course weight in an approved Science option; six units of course weight in an Arts option; six units of course weight in an approved option.

Third Year: MATH 314; three units of course weight in a 300-level Mathematics; six units of course weight in Mathematics; six units of course weight in an approved Science option; six units of course weight in an Arts option; six units of course weight in an approved option.

Fourth Year: 12 units of course weight in a 300-level Mathematics; 18 units of course weight in approved Science options.

Note A: A student must take six units of course weight in a Mathematics course in each year of the program.

Note B: MATH 113 is equivalent to 114. The corresponding Honors course can be substituted for a course listed. For example, MATH 117 can be substituted for 114.

193.14.3 Mathematics and Economics

The Faculty of Science offers both an Honors degree and a Specialization degree in Mathematics and Economics.

Honors in Mathematics and Economics

First Year: ECON 101, 102, MATH 117, 118, MATH 127, 128, six units of course weight in a junior English course, six units of course weight in a Science option.

Second Year: ECON 381, 382, MATH 217, 317, STAT 265, 266, six units of course weight in a Science option, six units of course weight in an option.

Third and Fourth Years: 24 units of course weight in Economics, 24 units of course weight in Mathematics or Statistics courses, six units of course weight in a Science option, six units of course weight in an option. The program must contain MATH 227, ECON 481, 482, 407, 408, and four (4) of MATH 336, 373, 411, 417, 421, 426, 486. MGTSC 352, 404, 424, 426, 427 are approved options, but are not substitutes for Economics courses: Credit will not be given for ECON 386, 387, or 399.

Specialization in Mathematics and Economics

First Year: ECON 101, 102, MATH 113, 115, MATH 120, 121, six units of course weight in a junior English course, six units of course weight in a Science option.

Second Year: ECON 381, 382, MATH 214, 215, STAT 265, 266, six units of course weight in a Science option, six units of course weight in an option.

Third and Fourth Years: 24 units of course weight in Economics, 18 units of course weight in Mathematics, and 18 units of course weight in options.

The program must contain at least 36 units of course weight in Economics, at least 36 units of course weight in Mathematics, and six units of course weight in Computing Science. 12 units of course weight in Economics must be at the 400-level or above. 12 units of course weight in Mathematics must be at the 300-level or above. MGTSC 352, 404, 424, 426, 427 are approved options but are not substitutes for Economics courses. Credit will not normally be given for ECON 386, 387, or 399. Students who are considering graduate work in Economics are advised to take ECON 407 and ECON 408.

Each program must have approval of the Departments of Mathematics and Economics and must contain a minimum of 63 units of course weight in Science.

193.15 Meteorology

193.15.1 Specialization in Meteorology

See §193.10.5.

193.16 Microbiology

193.16.1 Honors in Microbiology

Admission to and continuation in the Honors Microbiology program requires a minimum GPA of 6.5 in the preceding Winter Session. A student must receive a grade of not less than 6 in MICRB 193, 265, 311 and BIOCH 301. Graduation requires a minimum GPA of 6.5 on the last 60 units of course weight credited to the degree.

First Year: GENET 197; CHEM 160; CHEM 100 (or 104); MATH 113 (or 114), 115; MICRB 193; six units of course weight in an approved Arts option.

Second Year: BIOCH 301; BIOL 201; MICRB 224, 265; PHYS 105; three units of course weight in an approved Genetics course; six units of course weight in an approved Arts option; three units of course weight in an approved option.

Third Year: One of CHEM 212 or 270 or 361, 363; MICRB 311, 313, 370, 390, (or 415), and 444; six units of course weight in an approved Arts option; three units of course weight in an approved option,

Fourth Year: One of CHEM 212 or 270 or 361, 363 (not previously taken); MICRB 499; 12 units of course weight in approved options.

193.16.2 Specialization in Microbiology

Admission to and continuation in the Specialization in Microbiology program requires a minimum GPA of 6.0 in the preceding Winter Session. A student must receive a grade of not less than 6 in MICRB 193, 265, 311 and BIOCH 301. Graduation requires a minimum GPA of 6.0 on the last 60 units of course weight credited to the degree.

First Year: GENET 197; CHEM 100 (or 104); CHEM 160; MICRB 193; six units of course weight in an approved Science option; six units of course weight in an approved Arts option.

Second Year: BIOCH 301; BIOL 201; MICRB 265; MATH 113 (or 114), 115; PHYS 105; six units of course weight in approved Arts options; three units of course weight in an approved option.

Third Year: MICRB 311, 313; three units of course weight in a Genetics course; six units of course weight in approved Arts options; six units of course weight in an approved Science options; nine units of course weight in approved options.

Fourth Year: CHEM 212; six units of course weight in approved Science options; 18 units of course weight in approved options.

193.16.3 Honors in Cell Biotechnology

This program is offered jointly with the Department of Genetics. See also §193.5 for general information.

Admission to and continuation in the Honors Cell Biotechnology program requires a GPA of 6.5 in the preceding Winter Session. A minimum grade of 6 is required in each of the following courses: BIOCH 301, GENET 197 and 270, and MICRB 193, or their equivalents.

Graduation requires an overall GPA of 6.5 in the final year of the program.

First Year: GENET 197; CHEM 104, 160; MATH 113, 115; MICRB 193; six units of course weight in approved Arts options.

Second Year: BIOCH 301; BIOL 201; GENET 270; six units of course weight in approved Arts options; 12 units of course weight in approved options.

Third Year: GENET 300, 304, 390; MICRB 311, 313, 370, 444; six units of course weight in approved Arts options.

Fourth Year: CHEM 361, 363; GENET 420; MICRB 406, 415, 450; GENET 401 or MICRB 498.

193.16.4 Specialization in Cell Biotechnology

This program is offered jointly with the Department of Genetics. See also §193.5 for general information.

The Specialization program is designed to provide more flexibility than is available in the Honors program.

Admission to and continuation in the Specialization in Cell Biotechnology program requires a GPA of 6.0 in the preceding Winter Session. A minimum grade of 6 is required in each of the following courses: BIOCH 301, GENET 197 and 270, and MICRB 193, or their equivalents.

Graduation requires an overall GPA of 6.0 in the final year of the program.

First Year: GENET 197; CHEM 104, 160; MATH 113, 115; MICRB 193; six units of course weight in approved Arts options.

Second Year: BIOCH 301; BIOL 201; GENET 270; six units of course weight in approved Arts options; 12 units of course weight in approved options.

Third Year: GENET 300, 304, 390; MICRB 311, 313; three units of course weight in an approved Arts option; 12 units of course weight in approved options.

Fourth Year: One of GENET 420 or MICRB 444; MICRB 415, 450; three units of course weight in an approved Arts option; 12 units of course weight in approved options.

193.17 Pharmacology

193.17.1 Honors in Pharmacology

Because no senior courses in Pharmacology are offered until students are in their third year of study, all students are required to register for "Specialization in Pharmacology" (§193.17.2) for the first three years of the program.

At the end of their third year, students with a GPA of at least 6.5 in each of the first three Winter Sessions of the program may request a transfer to the Honors program, provided that the courses they have taken and the standing attained are satisfactory. However, a grade of at least 7 is required in PHYSL 310 and all courses taken in the Department of Pharmacology before the student will be given approval to transfer to the Honors program.

A student considering the Honors program must consult the Chair of the Department of Pharmacology (or designee) concerning eligibility and the selection of course options throughout the program. Students in the Honors program must take at least 30 units of course weight during the Winter Session of each year of the program. Each Honors student's program must be approved by the Department of Pharmacology.

First Year: As for the program "Specialization in Pharmacology."

Second Year: As for the program "Specialization in Pharmacology."

Third Year: As for the program "Specialization in Pharmacology."

Fourth Year: Two of PMCOL 403, 404, 405, 435, 436 (whichever were not taken in the third year); PMCOL 498; PMCOL 499; plus other approved options preferably in Physiology, Biochemistry, or Pharmacy to a total of 30 units of course weight for the Winter Session.

Note: Degrees with Honors are awarded in two classes: First Class Honors and Honors.

BSc First Class Honors in Pharmacology is awarded to students who achieve a GPA of at least 7.5 in their third and fourth year, and, in addition, a GPA of at least 8.0 for all courses taken in the Department of Pharmacology.

BSc Honors in Pharmacology is awarded to students who achieve a GPA of at least 6.5 in their fourth year; and, in addition, a GPA of at least 6.5 (7.0 in 1992-93) for all courses taken in the Department of Pharmacology.

A student who fails to attain the GPA's necessary for an Honors degree in Pharmacology may be granted the Specialization degree, provided that the standing attained is approved by the Department.

193.17.2 Specialization in Pharmacology

Because no senior courses in Pharmacology are offered until the third year of study, all students are required to register initially for "Specialization in Pharmacology".

Admission into or promotion to the third year of the Specialization program requires a GPA of at least 6.0 in each of the preceding Winter Sessions. In addition, a grade of at least 6 is required in PMCOL 432 before a student will be given departmental approval to register in the fourth year of the Specialization program.

Specialization students must consult the Chair of the Department of Pharmacology (or designee) regarding the selection of options throughout the program. In each year, a Specialization student's program must be approved by the Department of Pharmacology.

First Year: CHEM 104; CHEM 160; MATH 113 (or 114); ZOOL 120; GENET 197; three units of course weight in an approved Science option; ENGL 101.

Second Year: BIOCH 301; MICRB 193; 15 units of course weight in Science options (MICRB 265 recommended); six units of course weight in approved Arts option.

Third Year: PMCOL 432; two of PMCOL 403, 404, 405, 435, 436; PHYSL 310; three units of course weight in Statistics plus other approved Science options; six units of course weight in an approved Arts option.

Fourth Year: Two of PMCOL 403, 404, 405, 435, 436 (whichever were not taken in the third year); plus other approved Science options.

Graduation requires a GPA of at least 6.0 on the last 60 units of course weight credited toward the degree and a GPA of at least 6.0 in all Pharmacology courses which are credited toward the degree.

193.18 Physics

The Honors Programs offered by the Department of Physics are designed to provide a comprehensive education for students intending to pursue advanced degrees and a research or academic career.

Admission to and continuation in the Honors Physics programs requires a GPA of 6.5 in the preceding Winter Session. Graduation requires a GPA of 6.5 on the last 96 units of course weight credited to the degree.

The Specialization Programs are designed to provide greater flexibility for students who want a four-year degree in Physics or Geophysics without the full comprehensive training of the Honors Programs. Admission into a Specialization Program normally requires a GPA of at least 5.5 and this average must be maintained every year thereafter.

Note: Students interested in the Engineering-Physics program should consult §83.6.4 of the Faculty of Engineering section of this Calendar.

193.18.1 Honors in Physics

First Year: PHYS 141, 143; MATH 114 (or 117), 115 (or 118); MATH 120 (or 127); six units of course weight in an English course (ENGL 101 recommended); CMPUT 251; six units of course weight in an approved Science option (recommended are CHEM 104; GEOL 102, 103; ASTRO 110).

Second Year: PHYS 211, 244, 271, 285, 29
MATH 121; MATH 214 (or 217), 215 (or 317); nine un
of course weight in Arts options.

Third Year: PHYS 362, 372, 382, 395, 397; MA P
343, 344; MATH 311, 334, 437.

Fourth Year: PHYS 411, 413, 415, 472, 473, 49
either PHYS 491 or MA PH 451; three units of cour
weight in an Arts option; six units of course weight in
400-level approved Science option. Students are al
expected to take part in the weekly Physics Colloquiu

193.18.2 Honors in Geophysics

First Year: PHYS 141, 143; MATH 114, 115, 12
six units of course weight in an English course (ENG
101 recommended); CMPUT 251; One of GEOL 10
103 or CHEM 104.

Second Year: PHYS 211, 244, 271, 285, 29
MATH 121, 214, 215; GEOPH 221; one of CHEM 104
GEOL 102, 103.

Third Year: GEOPH 326; PHYS 382, 395; MAT
311, 334, 437; MA PH 343; GEOL 221; three units
course weight in an Arts option.

Fourth Year: GEOPH 421, 424, 426, 428; PHY
372; GEOL 360; MA PH 467; three units of cours
weight in an approved Physics or Geophysics optio
three units of course weight in an approved Scienc
option; three units of course weight in an Arts option.

193.18.3 Honors in Mathematical Physics

First Year: MATH 117, 118, 127; PHYS 141, 14
CHEM 104 or GEOL 102, 103; six units of course weig
in an English course (ENGL 101 recommended); MAT
128 or CMPUT 251.

Second Year: MATH 217, 227, 317; PHYS 21
244, 271, 285, 290; STAT 235 or 265; three units
course weight in an Arts option; CMPUT 251 or MAT
128.

Third Year: MATH 311 or 411, 334, 437; MA PH
343, 344; PHYS 372, 362, 382; three units of cours
weight in an Arts option.

Fourth Year: MATH 417; MA PH 451, 453, 467
PHYS 411, 472; 12 units of course weight in approve
Science options.

193.18.4 Specialization in Physics

The courses listed below comprise a minimum pro
gram. Students may, in consultation with the Department
select more advanced courses in place of those listed. A
suitably enriched program can be used for admission t
graduate work in Physics provided satisfactory standing
is obtained.

First Year: PHYS 141, 143; MATH 113 (or 114) and
115; MATH 120; CMPUT 251; six units of course weight
in an English course (ENGL 101 recommended); six
units of course weight in an approved option (CHEM
104, GEOL 102, 103 or ASTRO 110 recommended).

Second Year: PHYS 244, 251, 285; MATH 214,
215, and 201; six units of course weight in an approved
option; six units of course weight in an Arts option.

Third Year: PHYS 211, 271, 290; MATH 300, 311,
six units of course weight in an Arts option; nine units of
course weight in an approved options.

Fourth Year: PHYS 362, 372, 382, 395, 397; 12
units of course weight in an approved options.

193.18.5 Specialization in Geophysics

First Year: PHYS 141, 143; MATH 113 (or 114),
115, 120; six units of course weight in an English (ENGL
101 recommended); CMPUT 251; one of CHEM 104 or
GEOL 102, 103.

Second Year: PHYS 244, 271, 285; MATH 201,
214, 215; GEOPH 221; one of CHEM 104 or GEOL 102,
103; three units of course weight in an Arts option.

Third Year: PHYS 211, 290; MATH 300, 311; GEOPH
325, 326; GEOL 221, 262; PET E 564; three units of
course weight in an Arts option.

Fourth Year: PHYS 382, 395; GEOPH 424, 426,
428; GEOL 360; six units of course weight in an approved
Science option.

193.18.6 Concentration in Physics

Students considering Physics as their major subject
of concentration in the four-year General BSc program
are strongly advised to include PHYS 105, 106, 204 and

as early as possible in their program. To complete a r in Physics, PHYS 294 is strongly recommended. ents majoring in Physics should normally select the following senior courses: PHYS 301, 302, 307, and 319. They should also consult with a Physics artment Adviser before registering in second or later s of the program in order to have their programs oved.

3.19 Physiology

3.19.1 Honors in Physiology

The program leading to the degree of BSc with ors in Physiology is offered by the Department of siology in the Faculty of Medicine.
The Honors program is designed primarily to prepare ents for advanced study leading to academic and arch careers. A choice of courses is available for ents with interest in particular branches of Biology. current trend is towards quantitative aspects of siology and students are advised to acquire the best ground in Mathematics, and in the chemical and ical sciences, consistent with their interests and ies.
Admission to the Honors program requires an 80% iculation average minimum or a GPA of 7.0 in ious courses. Continuation in the program requires PA of 7.0 in the year completed and a grade of at t 7 in PHYSL 310 (or equivalent course). Graduation First-Class Honors requires a GPA of 7.5 on the ses taken in the last two years of the program. lents considering Honors in Physiology must consult Program Adviser in the Department prior to entry each year of the program.
The course requirements in the program are:
First Year: GENET 197; ZOOL 120; CHEM 104; EM 160; MATH 113 (or 114), and 115; or Math 117 118; ENGL 101.
Second Year: PHYSL 310; ZOOL 225, 226; PHYS 106 or 141, 143; MATH 214, 215 or 217, 317 or T 236 or 237 and either ZOOL 430 or CMPUT 251; six units of course weight in an Arts option.
Third Year: PHYSL 401; PHYSL 404; PHYSL 410; CH 301; CHEM 270; NEURO 471/472; GENET 270 ree units of course weight in an approved option.
Fourth Year: PHYSL 502 and at least five of the wing courses: PHYSL 501, PHYSL 503 or PMCOL ; PHYSL 506; INT D 543 or 544; INT D 545; BIOL ; BIOCH 512 or 521; six units of course weight in an option, six units of course weight in an approved on.
Honors students are also encouraged to attend all artment seminars.

3.20 Psychology

3.20.1 Honors in Psychology

Admission to the Honors Psychology program requires inimum GPA of 7.0 in the preceding Winter Session a minimum GPA of 7.0 over all psychology courses. re is no admission after the beginning of the third r. Continuation and graduation from the Honors chology program requires a minimum GPA of 7.0 in preceding Winter Session.
Note: Admission to the Honors Pschology program take place at the end of the first or second year . Students must complete PSYCO 104 and 105 prior dmission.
First Year: Direct admission into first year is not mitted; however, students in the General program it take PSYCO 104, 105, and those General program o-course requirements as set out in §193.1.3 (4) of Calendar including at least six units of course weight rts. ZOOL 120 and/or GENET 197 and either CMPUT or MATH 113 or 114 or 120 are strongly recom- nded.
Second Year: PSYCO 211; six units of course ght in an Arts option; 12 units of course weight in roved Science options; nine units of course weight in roved options.
Third Year: PSYCO 306, 307; six units of course ght in an Arts option; 12 units of course weight in roved Science options; six units of course weight in approved options.
Fourth Year: PSYCO 406, 407, 490; nine units of rse weight in approved Science options; nine units of rse weight in approved options.
Note A: The Honors in Psychology program requires inimum of 48 units of course weight and a maximum of 60 units of course weight in Psychology and must include at least nine units of course weight in Arts Psychology. Students are encouraged to complete a laboratory course in Psychology, eg., PSYCO 208, 266 or 475. A minimum of 30 units of course weight must be taken in related subjects. Courses in related subjects must be approved by the Honors Adviser.
Note B: Students will undertake a non-credit research apprenticeship during the third year. During the fourth year, students will conduct and write an empirical honors thesis (PSYCO 490) under the guidance of a faculty member of the department. Students must present their thesis proposals to other students and staff in the department at the annual Psychology Honors Conference in the spring of their third year and thesis results at the annual Psychology Honors Conference in the spring of their fourth year.

193.20.2 Specialization in Psychology

Admission to and continuation in the Specialization in Psychology program requires a minimum GPA of 5.5 in the preceding Winter Session. Graduation requires a minimum GPA of 5.5 on all courses credited to the degree.
First Year: PSYCO 104, 105; six units of course weight in an English course (ENGL 101 is recommended); 18 units of course weight in approved Science options.
Second Year: PSYCO 211; three units of course weight in an approved Arts option; 15 units of course weight in approved Science options; nine units of course weight in approved options.
Third Year: Six units of course weight in an approved Arts option; 12 units of course weight in approved Science options; 12 units of course weight in approved options.
Fourth Year: 21 units of course weight in approved Science options; nine units of course weight in approved options.
In order to fulfill the degree requirements the student is required to complete a minimum of 30 units of course weight in Science Psychology courses of which at least 12 units of course weight must be at the 300-level or above.

193.21 Statistics and Applied Probability

193.21.1 Honors in Statistics

Admission to and continuation in the Honors in Statistics and Applied Probability program requires a GPA of 6.0 in the preceding Winter Session.
Graduation requires a GPA of 7.0 on all Statistics and Mathematics courses taken and a GPA of 6.0 on the last 30 units of course weight credited to the degree.
First Year: MATH 117, 118; MATH 127; six units of course weight in an Arts option, nine units of course weight in approved Science options; six units of course weight in an approved option.
Second Year: MATH 217, MATH 227, 280; STAT 251, 265; six units of course weight in an Arts option, six units of course weight in an approved Science option; three units of course weight in an approved option.
Third and Fourth Years: MATH 314 or 417; MATH 317; MATH 373 or 380; MATH 414 or 418; STAT 361, 365, 366, 368, 377, 471, 475; and six units of course weight in a 400-level approved MATH or STAT course(s). Six units of course weight in an Arts option; 15 units of course weight in approved options. Note: At least nine units of course weight in approved options in one distinct field of application must be taken at the 300-level or higher. Examples of fields of applications are Biology, Business, Computing Science, Economics, Engineering, Pharmacology, Political Science, Psychology, and Sociology. The student should plan carefully so that the proper prerequisites are taken early in the program.

193.21.2 Specialization in Statistics

This program is intended for students who are interested in applying statistics to a second discipline. It can lead to a variety of careers. Examples of fields of applications are Agriculture, Business, Chemical Engineering, Computing Science, Economics, Education, Genetics, Health Services Administration, Pharmacology, Political Science, Psychology, Sociology, and Zoology.
The program consists of 120 units of course weight satisfying the requirements of the Faculty of Science. In addition, it must include the equivalent of 18 approved units of course weight in Mathematics, 24 approved units of course weight in Statistics, six approved units of course weight in Computing Science, and 18 units of course weight in a single field of application.
Admission to and continuation in the Specialization in Statistics program requires a GPA of 6.0 in STAT 251, 265 and a GPA of 5.5 in the preceding Winter Session. (As of 1992-93 an average grade of 6.5 in STAT 251 and 265 will be required.) Graduation requires a minimum GPA of 5.5 on the last 90 units of course weight credited to the degree.
An example of an acceptable four-year sequence is given below:
First Year: MATH 113, 115; MATH 120, 121; CMPUT 114, 115; six units of course weight in an Arts option, six units of course weight in an option.
Second Year: MATH 214, 215; STAT 251, 265; 18 units of course weight in options.
Third Year: STAT 365, 366; six units of course weight in a 300-level Statistics courses; 18 units of course weight in options.
Fourth Year: STAT 466, 471; 24 units of course weight in options..
Each program must be approved by the Department of Statistics and Applied Probability. The student is advised to consult the Department regarding specific program recommendations for the field of application chosen. For Faculty requirements see §193.1.2.

193.22 Zoology

193.22.1 Honors in Zoology

The Honors Program in Zoology is intended primarily for students planning to continue into postgraduate study and a research or academic career. It also provides a comprehensive background in Zoology for those planning a teaching career in science with emphasis on biology, or for students interested generally in science.
The study of animals is wide-ranging and complex. At the molecular level, biological processes depend on the same phenomena that underlie chemistry, physics and the other natural sciences. Quantitative techniques in biology are rapidly being improved in the understanding of subcellular processes, the aggregation and differentiation of cells, the mechanics of complex organisms, the analysis of populations and ecosystems, and the ramifications of taxonomic relationships. Consequently, it is necessary that zoologists have a background in chemistry, physics and mathematics.
Normally, the Honors Program will be completed in four years. Special arrangements for extension of time must be made through the student's adviser and the Honors Students Adviser of the Department of Zoology.
Admission to and continuation in the Honors Zoology Program requires a GPA of 6.5 in the preceding Winter Session. Graduation requires a minimum GPA of 6.5 on all courses credited to the degree.
The outline of the program is as follows (variations in sequence are permissible as long as the student has the required prerequisites):
First Year: GENET 197; BOT 199; ZOOL 120; CHEM 100, 104 or 160; six units of course weight in Mathematics or Physics; six units of course weight in English, French, or a foreign language (ENGL 101 recommended); three units of course weight in an approved Science option.
Second Year: BIOL 202; ZOOL 200, 231, 252, 253; six units of course weight in Mathematics, Physics, or Chemistry; six units of course weight in an Arts option.
Third Year: ZOOL 242; 12 units of course weight in Zoology options; three units of course weight in Statistics (STAT 237 recommended); six units of course weight in an Arts option; three units of course weight in an approved Science option.
Fourth Year: ZOOL 321; ZOOL 499 or ZOOL 495, and three units of course weight in a 400-level option in the Biological Sciences; six units of course weight in a Science option; 15 units of course weight in approved options.
An effort is made to employ Honors students in biological research during the summer.

Honors Route in Cell Biology and Physiology

First Year: GENET 197; BOT 199; ZOOL 120; CHEM 160 (or 100); six units of course weight in Mathematics or Physics; six units of course weight in English, French, or a foreign language (ENGL 101 recommended); three units of course weight in an approved Science option.
Second Year: BIOL 202; ZOOL 242; ZOOL 200 and 250 or ZOOL 225 and 252, 253; CHEM 204 (or 260); six units of course weight in an Arts option.
Third Year: ZOOL 231; three of BIOL 445, ZOOL 311, 340, 341, 342, 343, 344, 411; BIOCH 301; six units of course weight in Mathematics or Physics (whichever not taken in first year); six units of course weight in an Arts option.

Fourth Year: Six units of course weight in Zoology or Biology (ZOOL 321 highly recommended); ZOOL 499, or ZOOL 495 and three units of course weight in a 400-level option in Biological Sciences; 18 units of course weight in approved options.

193.22.2 Honors in Zoology and Geology

See "Honors in Geology and Zoology," §193.11.2, above.

193.22.3 Specialization in Zoology

The Specialization Program in Zoology is intended for students who wish to pursue Zoology further than is possible in the General Degree Program. Students in this program are urged to develop a strong background in Chemistry, Physics, and Mathematics. It is possible to proceed to postgraduate study from the Specialization Program, but the Honors Program provides a stronger foundation for that.

Normally, the Specialization Program will be completed in four years. Special arrangements for extension of time must be made through the student's adviser and the Specialization Students Adviser of the Department of Zoology.

Admission to and continuation in the Specialization in Zoology program requires a GPA of 6.0 in each of the preceding Winter Sessions. Graduation requires a minimum GPA of 6.0 on all courses credited to the degree.

First Year: GENET 197; BOT 199; ZOOL 120; CHEM 160 (or 100); nine units of course weight in an approved Science option; six units of course weight in English, French, or a foreign language (ENGL 101 is recommended).

Second Year: Fifteen units of course weight in Zoology (to include ZOOL 231, ZOOL 200 or 225, ZOOL 250 or 252/253); nine units of course weight in approved options; six units of course weight in an Arts option.

Third Year: ZOOL 242; six units of course weight in Zoology; three units of course weight in Statistics (STAT 237 is recommended); nine units of course weight in an approved Science option; six units of course weight in an Arts option.

Fourth Year: ZOOL 321; six units of course weight in Zoology; 21 units of course weight in an approved options.

Each student in the Zoology Specialization Program has an assigned adviser, who is to be consulted whenever program decisions are taken. Students may arrange with their adviser and the Specialization Students Adviser to substitute some courses in closely related fields (e.g., Biology, Marine Science, Paleontology, Physiology) for Zoology courses. Specialization students registering for courses in Marine Science at Bamfield Marine Station must have prior written approval from the Specialization Students Program Advisor. If a student intends to take a full course load in Marine Science during the Winter Session, a written application should be made to the program adviser outlining how the courses taken will advance the student's education more than a term on campus in Edmonton. Normally, students will spend their first year of registration in the Specialization program in Edmonton.

Note: §193.23 reserved.

193.24 Marine Science

A marine station is established at Bamfield on Vancouver Island where there are excellent opportunities for the study of marine biology and related subjects. An academic program is in operation at the station, in which summer study will provide credit towards degrees in Science.

Information concerning course prerequisites and application procedures for Marine Science may be obtained from the Departments of Botany and Zoology, or the Office of the Dean of Science. Permission to register in these courses may be obtained from the Director of the Bamfield Marine Station, to whom application should be made.

Note: For details of courses see §194.18.

193.25 Northern Studies

Students interested in Canada's North and especially students planning a career in northern Canada are encouraged to include within their curriculum some of the following courses: ANTHR 346, 350, 355, 445, and 446; GENET 197; BOT 199, 201, 202, 221, 422; GEOG 130, 131, 333, 334, 424, 445, 446, 465, 468, 469; GEOL 201, 204, 492; INT D 416; METEO 230; POL S 100, 320 or 321, 432; ZOOL 120, 366. These courses may be taken within the framework of existing General, Specialization or Honors programs in the Faculty of Science. Students interested in Northern Studies should mention this fact to their faculty adviser.

Note: More information about courses given may be obtained from the Boreal Institute Office.

193.26 Paleontology

The program in Paleontology is designed for Honors students in Geology, Zoology, and Anthropology, having interests in vertebrate and invertebrate paleobiology, including evolution and systematics, historical biogeography, functional morphology and stratigraphic distribution. The program may be entered through the framework of existing programs in the Departments of Geology, Zoology, and Anthropology. Interested students should consult with their Honors adviser in preparing their programs.

193.27 Pre-Professional Programs

Students admitted to a Faculty of Science degree program who plan to transfer later to a professional program in another faculty must satisfy Faculty of Science requirements while they are registered in this Faculty. Students planning to apply to a professional program should consult the relevant calendar sections to ensure that they are satisfying pre-professional requirements as well as program requirements in the Faculty of Science.

193.28 Pre-Professional Requirements for Medicine and Dentistry

The admission requirements for the DDS Degree program and the MD Degree program are given in §62.1 and §122.1, respectively. Students planning to apply for admission to one of these Degree programs, may take the required courses while registered in a degree program in the Faculty of Science.

193.29 Pre-Professional Requirements for Veterinary Medicine

See §33.6. Students may take the required courses while registered in a BSc General program or one of the BSc Specialization or BSc Honors programs. Students should consult the Faculty Office regarding appropriate courses.

193.30 Pre-Professional Requirements for Rehabilitation Medicine

See §192.1. Students may take the required courses while registered in a BSc General program or one of the BSc Specialization or BSc Honors programs.

193.31 Pre-Optometry

Arrangements have been made whereby a maximum of seven students from Alberta wishing to enter the School of Optometry at the University of Waterloo may take one or two pre-professional years at the University of Alberta. Applicants must be Canadian Citizens or be residents of Canada who have held permanent resident (landed immigrant) status for at least twelve months prior to the registration day of the Fall Term.

The minimum requirement for admission consideration to the professional optometry program at the University of Waterloo is at least one year of university-level study in science.

Students planning to take a one-year, pre-optometry program should register in the following courses: MICRB 193; ZOOL 120; CHEM 104 or CHEM 160; MATH 11[illegible] (or 114) and 115; PHYS 105, 106 or 141, 143; PSYCO 104; three units of course weight in an Arts option.

Students planning to take a two-year, pre-optometry program should register in the following courses:

First Year: MICRB 193; ZOOL 120; CHEM 104 and 160; MATH 113 (or 114), 115; PHYS 105, 106 or 141, 143

Second Year: BIOCH 301; ZOOL 225; MICRB 193; PSYCO 104; one of STAT 141, 236, 237; three units of course weight in a senior Science option; nine units of course weight in Arts options.

Note: Courses in human anatomy, histology and embryology and physical optics, that are comparable to those at the University of Waterloo, are not available in this pre-optometry program.

For further information consult the Faculty of Science Office and/or the University of Waterloo Calendar.

194 Details of Courses

194.1 General Information

Courses open to students in the Faculty of Science are listed here in alphabetical order, whether they are offered by the Faculty of Science or by another Faculty. See also §192.8 regarding courses.

Each course is designated by its computer abbreviation and a number. Students should use this abbreviation and number when completing any form which requires this information.

Courses numbered 100 to 199 are junior courses, normally taken by first-year undergraduates. Those numbered 200 to 499 are senior courses, normally taken after the first year. Courses numbered 500 and up are restricted to graduate students and are found in §204 of this Calendar (Faculty of Graduate Studies and Research).

Following the title of the course is the symbol "s" standing for "units of course weight," and a number indicating the weight of the course as used in computing grade-point averages and for meeting degree requirements. A normal full-session course is weighted 6; a half-session course is weighted 3. There are certain courses offered over the full-session or in a half-session, with weights of 1, 2, and 4. These courses are considered as one-sixth, one-third, and two-thirds of a full-session course, respectively. Some honors and graduate courses involving research may vary in weight according to the length and difficulty of the project. Some courses are offered for credit only, and carry a weight of 0.

The next three figures, enclosed in parentheses, indicate the hours of instruction required by the course in a week. The format is as follows: the first position indicates lecture hours; the second position indicates seminar hours (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. The expression "3/2" means three hours of instruction every second week. If the course is a single-term course, the term in which it is offered is mentioned.

The appearance of a course description in the following list does not constitute any guarantee that the course will actually be offered in the forthcoming session. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the department concerned.

Physical Requirements for University

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with respect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for off-campus courses, instructors may be obliged to refuse registration in such courses.

194.2 Prerequisites

Where a prerequisite is stated, it is understood that equivalent courses may be used to satisfy the requirement. In addition, the department offering a course with prerequisite requirements may waive the prerequisite in writing. (Prerequisite waiver forms are available from the Faculty of Science office and the Department offices.)

Note: Effective 1990-91, the Faculty of Science renumbered many of its courses. Tables listing the old and new numbers can be found under individual Department entries in §194.

94.3 Astronomy

Department of Physics

he following table lists renumbered courses effective 990-91:

Id	New
STRO 210	ASTRO 110
STRO 410	ASTRO 310

STRO 110 Astronomy
6 (3-0-0). This course provides an introduction to the stronomical universe. Topics range from the solar ystem to cosmology and from classical concepts to xotic objects such as collapsed stars and quasars. mphasis is placed on acquiring an understanding of the hysical processes underlying astronomical phenomena. ewing experience using the campus observatory will be cluded. Prerequisites: Mathematics 30 and Physics 30.

STRO 310 Astrophysics
6 (3-0-0). Summary of the concepts in physics and stronomy which are relevant to astrophysics; stellar pectra, atmospheres, interiors and evolution; galactic ructure; cosmology. Prerequisite: MATH 115 and PHYS 43 and a 200-level Physics or Mathematics. Some dditional knowledge of mathematics, astronomy, and hysics would be advantageous. Note: The following spe- alized courses in Astrophysics are offered by the Department Physics: PHYS 463, 465 (see §194.27 for details).

94.4 Biochemistry

Department of Biochemistry, Faculty of Medicine

Biochemistry courses are listed in the Faculty of edicine section of the Calendar. See §124.5

94.5 Biology

Departments of Botany, Genetics, Microbiology and Zoology (Science) in co-operation with the Departments of Entomology (Agriculture and Forestry) and Medical Microbiology (Medicine)

he following table lists renumbered courses effective 990-91:

Id	New	Old	New
IOL 200	BIOL 100	BIOL 302	BIOL 202
IOL 210	BIOL 110	BIOL 415	BIOL 315
IOL 297	GENET 197	BIOL 545	BIOL 445
IOL 301	BIOL 201		

IOL 110 Biology and the Modern World
3 (either term, 3-0-3). Biological basis for an ecology man including human origins, evolution, biological aculiarities and exploding populations; man's place in id influence on the biosphere; speculation concerning an's future. Demonstration laboratories and discus- ons. Credit will not be given for both BIOL 110 and OL 260. Also see §193.3.

IOL 201 Cellular Biology
3 (first term, 3-0-0). The ultrastructure and metabolism cells. Energy in biological systems; photosynthesis; illular respiration; contractility; cell growth and replica- n. Prerequisite: GENET 197. Prerequisite or corequisite: HEM 160 or 260.

IOL 202 Developmental Biology
3 (second term, 3-0-3). Formation of gametic cells, rtilization and embryogenesis in selected animal and ant groups. Major emphasis will be given to descriptive id mechanistic studies of tissues and organs. Prereq- sites: GENET 197, BOT 199, ZOOL 120, and BIOL 01 or ZOOL 242 (may be taken concurrently).

IOL 315 History and Theory of Biology
3 (first term, 3-0-0). An outline of biological discovery om early times to the present, and of the principal eas stemming from or influencing the life sciences; oth in relation to social, historical and cultural develop- ents. Especially recommended to honors and specializ- tion students in the biological subjects, but open to her third and fourth year students interested in the story of science as a force in the development of ulture. Prerequisite: A 200-level Biological Science ourse..

IOL 445 Cell Physiology
3 (second term, 3-0-0). Current advances in cell ology. The integration of biochemical and structural anges with cell function. Designed for third and fourth ar honors and specialization students in the biological ences. Prerequisite: A 300-level Biological Sciences ourse or consent of Department.

For graduate courses in biology see §204.10.2 of this Calendar.

194.6 Botany

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
BOT 205	BOT 199	BOT 402	BOT 492
BOT 208	BOT 130	BOT 404	BOT 302
BOT 301	BOT 201	BOT 405	BOT 305
BOT 302	BOT 210	BOT 406	BOT 306
BOT 309	BOT 219	BOT 407	BOT 310
BOT 310	BOT 220	BOT 408	BOT 330
BOT 320	BOT 230	BOT 409	BOT 419
BOT 321	BOT 231	BOT 410	BOT 431
BOT 323	BOT 333	BOT 411	BOT 433
BOT 324	BOT 240	BOT 421	BOT 435
BOT 325	BOT 250	BOT 450	BOT 440
BOT 379	BOT 383	BOT 455	INT D 455
BOT 400	BOT 490	BOT 460	BOT 411
BOT 401	BOT 491		

BOT 130 Introductory Ecology for Agriculture and Forestry Students
★3 (second term, 3-0-3). This course is designed to introduce Agriculture and Forestry students to the important concepts of ecology at all levels of the ecological hierarchy: individuals, populations, communities and ecosystems. Examples from crop, range and forestry ecology will be emphasized. Laboratory exercises will include experiments and demonstrations to illustrate and complement lecture material. Restricted to students in the Faculty of Agriculture and Forestry only.

BOT 199 Plant Biology
★3 (either term, 3-0-3). An introduction to the biology of plants emphasizing the relationship between form and function and the potential of the science. The following topics are covered: the cellular structure of plants; plant tissues and their functions; the classification of plants and the major groups, both prokaryotic and eukaryotic; the relevance of members of the major groups to human life; plant metabolism including water, nutrient and energy relations; growth and development of plants and their reproductive biology. Prerequisite: Biology 30 recommended. May not be taken for credit if credit has been obtained in BIOL 296 and BIOL 299, or in INT D 230.

BOT 201 The Plant Kingdom — Non-vascular Plants
★3 (first term, 3-0-3). A survey of the non-vascular plants emphasizing their origins and evolution; their morphology and life histories; their interrelationships and classifications and role in the environment. Prerequisite: BOT 199.

BOT 210 The Plant Kingdom - Vascular Plants
★3 (second term, 3-0-3). A comparative survey of vascular plants focussing on their morphology, classification and phylogeny. Emphasis is on living plant groups with some paleobotanical evidence presented. Prerequisite: BOT 199.

BOT 219 Plant Structure and Development
★3 (first term, 3-0-3). A developmental approach to the structure of vascular plants emphasizing seed plant cytology, apical meristems, histogenesis, organogenesis, secondary growth, floral anatomy and development. Principles of wood development, anatomy and identification. Prerequisite: BOT 199. BIOL 202 (recommended).

BOT 220 Plant Systematics
★3 (first term, 3-0-3). Systematic botany with emphasis on evolution and classification of seed plants. Discussion on the origin of variation in plants with emphasis on evolutionary processes unique to the flowering plants. Topics include a discussion of the basis of species differences, isolating mechanisms, natural hybridization, polyploidy, agamospermy, and other specialized genetic systems associated with the hybrid state in plants. Introduction to the concepts of nomenclature, cytotaxonomy, numerical taxonomy, and phylogenetic reconstruction. Laboratories will deal with the practical aspects of plant classification and identification techniques. Prerequisite: BOT 199.

BOT 230 Plant Ecology - Communities, Ecosystems and Vegetation
★3 (first term, 3-0-3). Ecological principles and relationships in the terrestrial part of the biosphere from a plant perspective. Complementary to BOT 231. Major topics include: plant communities; terrestrial ecosystems; vegetation and vegetation regions; species interactions; plant succession; classification and ordination of communities and ecosystems; vegetation survey and mapping. The laboratory component includes field trips as well as indoor exercises. Prerequisite: BIOL 100 or BOT 130 and either BOT 199 or ZOOL 120. May not be taken for credit if credit already obtained in BOT 322.

BOT 231 Plant Ecology - Individuals and Populations
★3 (second term, 3-0-3). Description of environmental parameters and their implications for individual plants. Patterns and processes of establishment, maintenance and spread of plant populations: demography, genecology, population regulation, interactions with other species including competition and consistence. Complementary to BOT 230. Laboratory comprises measurements of physiological responses of plants to various paramenters using the phytotron, and experiments designed to investigate characteristics of plant populations. Prerequisite: BIOL 100 or BOT 130 and either BOT 199 or ZOOL 120. May not be taken for credit if credit already obtained in BOT 322.

BOT 240 Whole Plant Physiology
★3 (first term, 3-0-3). An introductory general course on water and energy relations, evapotranspiration, mineral nutrition, membrane transport, ascent of sap, translocation, net assimilation, growth, development, hormone action and stress. Prerequisite: BOT 199, CHEM 100 or 104.

BOT 250 Cellular and Molecular Aspects of Plant Biology
★3 (second term, 3-0-0). An introduction to plant molecular biology. An examination of biochemical and molecular processes occurring in plants; protein synthesis; nucleic acid and protein synthesis; nitrogen fixation; phytochrome metabolism; and secondary plant metabolism. Prerequisite: BIOL 100 or BOT 199; CHEM 160 or CHEM 260.

BOT 302 Biology of Algae
★3 (first term, 3-0-3). Origins and evolution of algae; their comparative morphology, life histories and taxonomy; aspects of their ecology and physiology; adaptations to different habitats and environments; algae and symbiosis; economic aspects. Prerequisite: BOT 201. Offered in alternate years.

BOT 304 Field Botany
★3 (first term, 3-0-3). This course is designed to acquaint non-botany as well as botany students with the collecting, identifying and curating of the major groups of plants. Topics include selected taxonomic and phytosociological concepts, field methods, keys and identifications and herbarium methods. Effective handling of both specimens and field data for scientific purposes will be stressed. Plant collections prepared to acceptable herbarium standards will be required of those taking this course. There will be a transportation charge of $5.00 or less per person. Prerequisite: BIOL 100 or BOT 199.

BOT 305 Biology of Bryophytes
★3 (second term, 3-0-3). The identification, classification and morphology of mosses, hepatics, and hornworts. Special emphasis is given to phylogeny and ecology of mosses. Lectures include such topics as botanical nomenclature and cladistics as applied to bryophytes, phytogeography, and origins of land plants. The laboratories stress the comparative structure of bryophyte families and genera. Prerequisite: BOT 201. Offered in alternate years.

BOT 306 Biology of the Fungi
★3 (first term, 3-0-3). A systematic review of the major divisions and orders of the fungi with special emphasis on the identification and characterization of fungal groups which are economically important or significant components of the mycroflora of Western Canada. Traditional methods of handling and classifying the fungi will be discussed with reference to recent investigations concerning structure, ultrastructure, biochemistry and genetics. Ecological strategies of saprophytic fungi, and mechanisms of pathogenesis in species parasitic on plants, mammals, fish, reptiles and other animals, will be surveyed and compared. Current theories on the origin and evolution of fungi will be discussed. Prerequisite: BOT 201 or PL SC 380. Offered in alternate years.

BOT 310 Morphology and Evolution of Seed Plants
★3 (second term, 3-0-3). A morphological and evolutionary survey of seed plants. Discussion based primarily on living plants but with the inclusion of paleobotanical evidence. Emphasis upon seed ferns, cycads, conifers, dicotyledonous and monocotyledonous plants. (Offered in alternate years). Prerequisite: BOT 210.

BOT 330 Vegetation Science and Mathematical Ecology
★3 (second term, 3-0-3). Methods course consisting of: description, classification, and ordination of plant communities; inventory and mapping of vegetation; detection and description of spatial patterns and associations within and among plant populations; theory and practice of sampling; interpretation of field data. Lab consists of eight three-hour exercises. Prerequisite: BOT 230 and 231, MATH 115, STAT 237 or equivalents. Offered in alternate years.

BOT 333 The Ecology of Aquatic and Peatland Plants
★3 (second term, 3-0-3). An introduction to the ecology of freshwater, marine and peatland plants, communities

and ecosystems. Major topics covered are physical and chemical cycles; habitats, niche concepts and communities; the flora and its adaptations to the benthos, plankton and wetland habitats; dispersal and transport; succession including an introduction to paleolimnology; and paleostratigraphy of peatlands, including their evolution; growth and decline of populations, productivity; eutrophication, acidification; classification of peatlands; distribution of wetlands relative to climate; geological and hydrological factors. Prerequisite: BOT 199 or BIOL 100 and a 200-level Biological or Earth Sciences course.

BOT 380 Drug Plants of the World
★3 (second term, 3-0-0). A survey of the biology, historical uses, and systematics of important drug-producing plants. An evaluation of the chemistry of poisonous, allergenic, analgesic and hallucinogenic plants, and the current uses of such plant products in modern scientific research. Offered in alternate years to BOT 383. Prerequisite: BOT 199 or BIOL 100 and a 200-level Biological or Earth Sciences course.

BOT 381 Pollution Biology
★3 (second term, 3-0-0). A broad treatment of the ecological impact of natural and anthropogenic pollutants on aquatic and terrestrial ecosystems including effects of heavy metal contamination, acid rain, thermal pollution, air pollution, industrial effluents, hydrocarbons, eutrophication, and sewage on plants, plant communities and ecosystems. Topics will include evolution of adaptive ecotypes, stress physiology, biological indicators, fossil-indicators, current issues and progress towards pollution abatement. Prerequisite: BOT 199 or BIOL 100 and a 200-level Biological or Earth Sciences course. Offered in alternate years to BOT 382.

BOT 382 Plant Biotechnology
★3 (first term, 3-0-0). Lectures will cover the techniques used in modern plant biotechnology and will deal with the way this technology is being used to modify and improve economically important plant species. Topics covered will include cloning of plant genes; plant gene vectors; tissue culture clonal propagation and plant breeding. Prerequisite: GENET 197 and a 200-level Biological or Earth Sciences course. BOT 199 recommended. Offered in alternate years to BOT 381.

BOT 383 Biology of Economic Plants
★3 (first term, 3-0-0). Lectures will deal with the biology and utilization of economically important vascular and non-vascular plants emphasizing relevant morphology, physiology, distribution and history of use. Prerequisite: BOT 199 and a 200-level Biological or Earth Sciences course. Offered in alternate years to BOT 380.

BOT 411 Paleobotany
★3 (first term, 3-0-3). The fossil record of plants as it relates to the evolutionary history of existing groups. Prerequisite: A 300-level Biological or Earth Sciences course. Offered in alternate years.

BOT 419 Plant Microtechnique
★3 (second term, 3-0-3). Theory and practice of preparing plant cells and tissues for observation with light and scanning electron microscopy. Fixation, dehydration, embedding, sectioning, standard staining procedures, some histo-chemistry, use of light microscope, introduction to modern embedment media. Prerequisite: BOT 219 and a 300-level Botany course. Any course in Plant Biology recommended. Offered in alternate years.

INT D 421 Peatlands
★3 (first term, 3-0-3). Climatic, geologic and hydrologic factors of peatland development; ecosystem dynamics of peat formation including flora and fauna, biogeochemical cycles, and energy fluxes; stratigraphy and evolution; classification; utilization in forestry, agriculture, horticulture and as fuel. Two one-day field trips on Saturdays. Offered in alternate years. Prerequisite: A 100-level or higher Ecology course and a 300-level Soils course. (Offered jointly by the Departments of Botany and Soil Science.) [Soil Science]

BOT 431 Ecophysiology Ecology
★3 (first term, 3-0-3). Theory and practice of ecophysiological research. Design of experiment instrumentation, measurement of environmental parameters. Study of physiological responses of plants. Data processing and interpretation of results. Experiments in field and lab (Phytotron). Prerequisite: BOT 230 or 231 and a 300-level Biological or Earth Sciences course. Offered in alternate years.

BOT 433 Lake and Peatland Development
★3 (first term, 3-0-3). An introduction to field and laboratory techniques in studying lake and peatland histories along with a critical evaluation of the parameters used to make interpretations about their history. Parameters discussed include physical, chemical (clastic, organic and fossil pigments), and biotic (bryophytes, pollen, seeds, diatoms, chrysophytes). Both natural development and modified systems will be discussed. Prerequisite: BOT 201 and a 300-level Biological or Earth Sciences course. Offered in alternate years.

BOT 435 Plant Geography
★3 (second term, 3-0-0). The principles of plant geography. Patterns of plant distribution and their interpretation with respect to the evolution of floras. Prerequisite: BOT 210 or 230 or 231 and a 300-level Biological or Earth Sciences course. Offered in alternate years.

BOT 440 Physiology of Growth and Development
★3 (first term, 3-0-0). Lectures and seminars on the involvement of plant growth substances and pigments in the regulation of plant growth and development. The influence of environmental factors on this regulation will be emphasized. Prerequisite: BOT 250 and a 300-level Botany course. Offered in alternate years.

INT D 455 Molecular Plant Development
★3 (second term, 3-0-0). Recent advances in plant molecular biology will be introduced through a study of plant development at the molecular level. The course will examine how developmental processes can be used as model systems to study gene expression in higher plants. Both developmental regulation and stress induced alteration of gene expression will be covered using specific examples. Prerequisite: BOT 382 or PL SC 301. GENET 270 recommended. Offered in alternate years. Offered jointly by the Departments of Botany and Plant Science. [Botany].

BOT 490 Special Problems
★6 (3-0-3). Research project approved and supervised by a member of the Department of Botany. This is a required course for honors and Specialization students to be taken in their final year. Both a report and a seminar discussing the research topic are required. Prerequisite: A 300-level Botany course. Available to fourth year students only.

BOT 491 Special Problems
★3 (either term, 3-0-3). A project approved and supervised by a member of the Department of Botany. Prerequisite: A 300-level Botany course.

BOT 492 Special Problems
★3 (either term, 3-0-3). A project, approved and supervised by a member of the Department of Botany. Note: This course would enable a student to take two one-term projects in the same term or one in each of two different terms. Prerequisite: A 300-level Botany course.

For graduate courses in botany see §204.11.5 of this Calendar.

194.7 Cartography

Department of Geography

CART 345 Raster Cartography
★3 (first term, 3-0-3). A first course in the computer-assisted cartography of gridded data bases. Focus is on the display and analysis of physical information that can be derived from digital elevation models. Students will be introduced to a variety of graphic output devices and to some basic photographic/cartographic reproduction techniques. Prerequisite: GEOG 130 or GEOG 220.

CART 365 Introduction to Digital Cartography
★3 (second term, 3-0-3). Construction of spatial-statistical charts. Digitizing. Coordinate systems and projections. Elementary spatial data structures. Digital cartometry. Cartographic symbolism and products: point, line and polygon techniques; flow maps, choropleths, surfaces. Prerequisite: GEOG 220.

CART 445 Digital Remote Sensing
★3 (second term, 3-0-3). Digital image processing of multispectral remotely sensed information with emphasis on image enhancement and image classification. Applications include land use mapping, urban change detection, resource exploration and environmental monitoring. Prerequisite: CART 345 or FOR 410.

CART 465 Introduction to Geographic Information Systems
★3 (first term, 3-0-3). Introduction to computer data structures; sorting and searching. Topological vector structures for storage of points, lines and polygons. Algorithms for structure conversion. Aggregation and generalization. Geocoding. Optimization and modelling: shortest path, location-allocation, spatial interaction and regionalization. Prerequisite: CART 365 or equivalent; familiarity with a programming language, preferably Basic or Fortran.

CART 499 Senior Project in Geoprocessing
★6 (3-0-0). Student designed project in cartography, remote sensing or geographic information systems. Required of students completing Honors degree with emphasis in geoprocessing. Prerequisite: CART 445 or CART 465.

194.8 Chemistry

The following table lists renumbered courses effecti 1990-91:

Old	New	Old	New
CHEM 200	CHEM 100	CHEM 505	CHEM 40
CHEM 202	CHEM 104	CHEM 507	CHEM 40
CHEM 203	CHEM 103	CHEM 511	CHEM 31
CHEM 205	CHEM 105	CHEM 513	CHEM 41
CHEM 250	CHEM 160	CHEM 515	CHEM 41
CHEM 302	CHEM 204	CHEM 517	CHEM 41
CHEM 331	CHEM 241	CHEM 519	CHEM 41
CHEM 350	CHEM 260	CHEM 521	CHEM 42
CHEM 351	CHEM 261	CHEM 533	CHEM 43
CHEM 353	CHEM 263	CHEM 537	CHEM 43
CHEM 370	CHEM 270	CHEM 539	CHEM 43
CHEM 371	CHEM 271	CHEM 551	CHEM 46
CHEM 373	CHEM 273	CHEM 553	CHEM 46
CHEM 411	CHEM 311	CHEM 555	CHEM 46
CHEM 430	CHEM 330	CHEM 559	CHEM 46
CHEM 431	CHEM 341	CHEM 561	CHEM 46
CHEM 451	CHEM 361	CHEM 571	CHEM 47
CHEM 453	CHEM 363	CHEM 573	CHEM 47
CHEM 471	CHEM 381	CHEM 575	CHEM 48
CHEM 473	CHEM 383	CHEM 581	CHEM 48
CHEM 475	CHEM 375	CHEM 591	CHEM 49
CHEM 501	CHEM 401	CHEM 593	CHEM 49
CHEM 503	CHEM 40		

CHEM 100 Introductory University Chemistry
★6 (3-1s-3). Stoichiometry, ideal gases, calorimetr chemical energy, Hess' Law, equilibrium, acids, base bonding, solubility products, oxidation-reductio electrochemical cells and the Nernst equation, coordin tion chemistry, chemical kinetics, with applications inorganic chemistry. Prerequisite: Chemistry 30, equivalent. Students enrolled in MATH 113 or MAT 114 should register in CHEM 104.

CHEM 104 Introductory University Chemistry
★6 (3-1s-3). Stoichiometry, ideal gases, calorimetr chemical energy, Hess' Law, chemical equilibrium, a ids, bases, bonding, solubility products, oxidation-redu tion, electrochemical cells and the Nernst equatio coordination chemistry; chemical kinetics, with applic tions to inorganic chemistry. Designed for students w are taking, or have taken a university-level Mathemati course. Prerequisite: Chemistry 30, or equivale Corequisite: MATH 113 or 114, or equivalent.

CHEM 160 Organic Chemistry
★6 (3-0-3). The study of functional groups found in t main classes of organic compounds and their molecul conformation and stereochemistry in such a way that t chemistry of some molecules important to biology (e amino acids, proteins, medicinals, pesticides, fats, su ars, carbohydrates, nucleic acids) as well as son molecules found in everyday life (soaps, detergen fibers, perfumes, polymers, etc.) can be discusse Note: Students with credit in CHEM 100 or 104 norma will proceed to CHEM 260. Such students may enroll CHEM 160 only if written consent of Department obtained. Prerequisite: Chemistry 30 or equivalent.

CHEM 204 General Chemistry
★6 (3-1s-3). Introductory general chemistry designed those students with credit in university-level introducto organic chemistry. The course covers stoichiomet structure and bonding, chemical equilibrium, soluti chemistry, thermochemistry, electrochemistry and chemi kinetics with applications of the above theory to select examples drawn from inorganic chemistry. Note: St dents with credit in CHEM 160 will proceed to CHE 204. Credit in CHEM 204 will not be granted to studer with credit in CHEM 100, CHEM 104, or equivale Prerequisite: Chemistry 30 and CHEM 160. Reco mended Prerequisite or Corequisite: MATH 113 or 11 and 115 (strongly recommended for those planning take further courses in Chemistry).

CHEM 212 Quantitative Analysis
★6 (3-0-4). Principles, methods, and experimental ap cations emphasizing titrimetry, separatior spectrophotometry and evaluation of experimental da Includes examples of organic analysis, radiochemist atomic absorption spectroscopy, gas chromatograp and use of analytical literature. Prerequisite: CHEM 1 or 104 or 204.

CHEM 241 Inorganic Chemistry
★3 (second term, 3-0-3). Bonding, structure and cher cal properties of inorganic compounds with emphasis the main group elements. Note: This course may not taken for credit if credit has already been received CHEM 330. For Chemistry Honors and Specializati students only, except by consent of Department. Prere uisite or corequisite: CHEM 270 and CHEM 160 (260

CHEM 260 Organic Chemistry
★6 (3-0-3). The study of molecular structure and react ity of organic compounds of both biological a

dustrial interest. Special attention is given to the emistry of polymers, fats, peptides and carbohydrates. thods of structure determination are discussed. Note: idents who have obtained credit for CHEM 160, not take CHEM 260 for credit. Prerequisite: CHEM 0 or 104 204.

IEM 270 Elementary Physical Chemistry
(3-0-3). Introduction to the first and second laws of rmodynamics. Gibbs free energy; Clapeyron equa- n and phase equilibria; properties of solutions, Raoult's d Henry's Laws; chemical potential and the theory of emical equilibrium; kinetic theory of gases; chemical etics. Note: This course makes substantial use of culus, students with grades below 5 in MATH 115 are recommended to enroll. Prerequisite: CHEM 100 or 4 or equivalent; MATH 115 or equivalent.

IEM 313 Instrumentation in Chemical Analysis
(first term, 3-0-4). Instrumentation and analytical plications of spectroscopic, chromatographic and ctroanalytical methods are discussed and applied in laboratory. Prerequisite: CHEM 212; 270; six units of rse weight in junior Physics.

IEM 330 Inorganic Chemistry
(3-0-3). Basic bonding and structural principles of rganic compounds followed by a study of the periodic ble. Note: General Program students wishing to trans- into Specialization or Honors Chemistry programs be given three units of course weight credit for EM 330 and must take CHEM 341 to satisfy the quirements of these programs. Prerequisite: CHEM 4 (or 100 or 204); 260 (or 160).

IEM 341 Inorganic Chemistry
(first term, 3-0-3). A continuation of CHEM 241 with phasis on the transition metals. Note: For Chemistry nors and Specialization students only, except by nsent of Department. Prerequisite: CHEM 241; or EM 330 and consent of Department.

IEM 361 Organic Chemistry
(first term, 3-0-4). Mechanisms and reactions of matic and aliphatic compounds. Prerequisite: CHEM 4 (or 100 or 204); 260 (160).

IEM 363 Organic Chemistry
(second term, 3-0-4). A continuation of CHEM 361. erequisite: CHEM 361.

IEM 375 Atoms, Molecules and Electromagnetic diation
(second term, 3-0-0). A course dealing with atoms, olecules and electromagnetic radiation, and spectroscopic d photochemical applications of their interaction. The phasis is on the qualitative appreciation of the phe- mena and their uses. No credit is available for this urse in Honors or Specialization Chemistry Programs. erequisite: CHEM 270 and six units of course weight junior physics.

IEM 381 Advanced Physical Chemistry
(first term, 3-0-4). Quantum mechanics, atomic theory, ectroscopy and molecular properties and structure. erequisite: CHEM 270; MATH 215; and PHYS 238.

IEM 383 Advanced Physical Chemistry
(second term, 3-0-4). A continuation of CHEM 381. erequisite: CHEM 381.

IEM 401 Introduction to Chemical Research
(either term, 0-1s-8). Introduction to methods of emical research. For students in the fourth year of nors or Specialization Chemistry. Prerequisite: A 300- vel Chemistry course and a GPA of at least 7.0 in all emistry courses.

IEM 403 Chemical Research
(either term, 0-1s-8). Investigational work under the ection of a member of the Department. Prerequisite or requisite: CHEM 401.

IEM 405 Special Topics in Chemistry
(either term, 3-0-0). Prerequisite: A 300-level Chem- ry course.

IEM 407 Computing Applications in Chemistry
(second term, 3-0-3/2). Prerequisite: MATH 215. requisite: CHEM 383.

IEM 413 Electronics for Scientists
(second term, 3-0-3). An intensive, practical course th emphasis on basic instrument components, opera- nal amplifiers, digital circuits, and other electronic mponents of modern research instruments. Prerequi- e: A 300-level Chemistry course and consent of partment.

IEM 415 Analytical Electrochemistry
(second term, 3-0-3). Theory and application of larography, potentiometry, cyclic voltammetry, and her modern electroanalytical techniques. Prerequisite: IEM 313.

IEM 417 Analytical Spectroscopy
(second term, 3-0-3). Optical spectrochemical meas- ement systems are discussed including dispersive and interferometric spectrometers, detectors, lasers, readout systems and data processing. Techniques covered include all optical methods for analytical emission, absorption, luminescence and scattering measurements on atomic and molecular systems from the far-IR to the vacuum ultraviolet. Prerequisite: CHEM 313.

CHEM 419 Advanced Analytical Chemistry
★3 (first term, 3-0-0). Theory and practice of non-instrumental analysis. Includes use of complexation, electron transfer and kinetic reactions in analysis; acid-base equilibria in water and non-aqueous solvents; sampling and statistics. Prerequisite: CHEM 212, 260, and 270 and a 300-level Chemistry course.

CHEM 421 Analytical Separations
★3 (first term, 3-0-3). Theory and practice of gas and liquid chromatography, including column properties, adsorption, ion exchange, bonded phases, size exclusion, bandbroadening and detectors. Prerequisite: CHEM 313 and consent of Department.

CHEM 433 Structure in the Solid State
★3 (first term, 3-0-0). An introduction to X-ray crystallography. Prerequisite: CHEM 341.

CHEM 437 Transition Metal Chemistry
★3 (second term, 3-0-0). The synthesis, structures, bonding and reaction mechanisms of classical and organometallic complexes. Prerequisite: CHEM 341.

CHEM 439 Inorganic Reaction Mechanisms
★3 (first term, 3-0-0). Substitution and electron transfer reactions of transition metal ion compounds. Prerequisite: CHEM 341.

CHEM 461 Qualitative Organic Analysis
★3 (second term, 3-0-4). Introduction to techniques used in organic chemical research for separation (purification) and identification (structure elucidation). Special emphasis on combined use of modern spectroscopic methods. Prerequisite: CHEM 363.

CHEM 463 Chemistry of Carbohydrates
★3 (either term, 3-0-0). The physical and chemical properties of the carbohydrates and related substances are discussed in terms of conformational analysis and modern reaction theory. An appreciation of the organic chemistry derived from studies of polyoxygenated compounds. Prerequisite or corequisite: CHEM 363.

CHEM 465 Theoretical Organic Chemistry
★3 (first term, 3-0-0). A discussion of bonding and mechanisms of reactions of organic molecules, including resonance and reactive intermediates. Prerequisite: CHEM 363.

CHEM 467 Advanced Organic Synthesis
★3 (second term, 3-0-0). A study of the reactions of organic compounds with emphasis on advanced synthetic methods. Prerequisite: CHEM 363 and consent of Department.

CHEM 469 Natural Products
★3 (first term, 3-0-0). Structural relationships among secondary metabolites; bio-synthetic pathways, rearrangements and chemical transformations of acetogenins, alkaloids, flavonoids and isoprenoids. Prerequisite: CHEM 363.

CHEM 477 Molecular Spectroscopy and Structure
★3 (either term, 3-0-0). Important aspects of quantum mechanics applied to molecular spectroscopy. Prerequisite: CHEM 383.

CHEM 479 Kinetics, Surfaces, and Catalysis
★3 (second term, 3-0-0). Theories of reaction rates, catalysis in chemical reactions, physical chemistry of solids, liquids and surfaces. Students will find helpful a previous or concurrent half-course in probability and statistics, such as STATS 236. Prerequisite: CHEM 270, MATH 215, PHYS 237 and a 300-level Chemistry course.

CHEM 481 Chemical Thermodynamics
★3 (second term, 3-0-0). A continuation of chemical thermodynamics which enlarges upon the basic material in CHEM 270. Prerequisite: CHEM 270, MATH 215, PHYS 238 and a 300-level Chemistry course.

CHEM 483 Magnetic Resonance and its Chemical Applications
★3 (first term, 3-0-0). Quantum mechanics of spin systems; electron and nuclear resonance; relaxation and time-dependent phenomena; chemical applications. Prerequisite: CHEM 383.

CHEM 491 Radiation Chemistry
★3 (first term, 3-0-0). Interaction of radiation with matter, kinetics of radiolysis reactions. Prerequisite: CHEM 270; a 300-level Chemistry course and consent of Department.

CHEM 493 Molecular Spectroscopy
★3 (first term, 3-0-0). Use and importance of symmetry and group theory in electronic and vibrational molecular spectroscopy. Prerequisite: CHEM 383.

For graduate courses in chemistry see §204.14.4 of this Calendar.

194.9 Computing Science

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
CMPUT 214	CMPUT 114	CMPUT 411	CMPUT 311
CMPUT 215	CMPUT 115	CMPUT 413	CMPUT 313
CMPUT 261	CMPUT 161	CMPUT 415	CMPUT 315
CMPUT 262	CMPUT 162	CMPUT 418	CMPUT 319
CMPUT 269	CMPUT 169	CMPUT 421	CMPUT 321
CMPUT 272	CMPUT 172	CMPUT 422	CMPUT 322
CMPUT 305	CMPUT 204	CMPUT 426	CMPUT 325
CMPUT 326	CMPUT 225	CMPUT 430	CMPUT 329
CMPUT 351	CMPUT 251	CMPUT 435	CMPUT 334
CMPUT 352	CMPUT 252	CMPUT 440	CMPUT 340
CMPUT 357	CMPUT 157	CMPUT 441	CMPUT 341
CMPUT 380	CMPUT 280	CMPUT 451	CMPUT 350
CMPUT 385	CMPUT 285	CMPUT 458	CMPUT 358
CMPUT 392	CMPUT 291	CMPUT 474	CMPUT 374
CMPUT 401	CMPUT 301	CMPUT 480	CMPUT 379
CMPUT 405	CMPUT 304	CMPUT 485	CMPUT 384
CMPUT 406	CMPUT 306	CMPUT 492	CMPUT 391
		ENCMP 200	ENCMP 100

Note:

(1) Students enrolled in Honors and Specialization in computing science, and in other Faculty of Science Honors and Specialization programs will be given preference in registering for computing science courses required in these four-year programs.

(2) Credit for introductory computing science courses: Credit will be granted for only one of CMPUT 114, 157, 162, 251, 300 and ENCMP 100. Credit will be granted for only one of CMPUT 115 and 169.

(3) Students taking CMPUT 169 who want to pursue more advanced courses in computing science must take CMPUT 172 before entering second year computing science courses.

194.9.1 General Interest Courses

The following is a list of courses which, for the most part, are open to any student who satisfies the prerequisite and corequisite requirements. Any special restrictions are specified at the course level.

CMPUT 114 Introduction to Computing Science
★3 (first term, 3-0-3). Using a computer system; algorithms; introduction to programming in a procedural language such as PASCAL; concepts of programming style and organization; solution of elementary numerical and non-numerical problems. Corequisite: MATH 114 or 117, and MATH 120, or equivalents. See Note 2.

CMPUT 115 Programming with Data Structures
★3 (second term, 3-0-3). Review of programming principles; review categories of data types; study strings, linear and two-dimensional data structures (lists, stacks, queues, tables and trees); comparison of linked and contiguous representation of data structures; methods of searching, sorting, hashing and recursion. Prerequisite: CMPUT 114, MATH 114 or 117, MATH 120, or equivalents. Corequisite: MATH 115 or 118, or equivalents. See Note 2.

CMPUT 157 Introduction to Computing for Business Applications
★3 (either term, 3-0-3). Capabilities and limitations of computing systems; manipulation and storage of data in files; introduction to programming in a high-level language; survey of business applications. Formerly MGTSC 357. Open only to students in the Faculty of Business. See Note 2.

CMPUT 161 Introduction to Computation
★3 (either term, 3-0-3). Using a personal computer. Applications of computers: data bases, spreadsheets, word-processing, graphics, communications, etc. Brief introduction to programming. Computers in society. Only open to students who do not have credit in CMPUT 114, 157, 162, 251, 300 or ENCMP 100. Not available to Science students.

CMPUT 162 Introduction to Computers
★3 (second term, 3-0-3). Programming of non-numerical applications in a general-purpose high-level language on a personal computer. Disciplined programming, design of user-friendly programs. Prerequisite: CMPUT 161 or consent of Department. See Note 2. Not available to Science students.

CMPUT 169 Structured Programming and Data Structures
★3 (either term, 3-0-3). Syntax of a high-level structured language such as PASCAL, representation and manipulation of data structures by a high level langauage; recursion; representation of integers, reals; binary arithmetic; numerical error; data structures: strings, arrays,

linked lists, queues, trees; applications of data structures. Prerequisite: ENCMP 100, CMPUT 251 or equivalent; MATH 113, MATH 120, or equivalents. Corequisite: MATH 115 or equivalent. See Notes 2 and 3. Note: This course is designed to accommodate students who have taken a rigorous course in FORTRAN programming, and who wish to pursue more advanced courses in Computing Science.

CMPUT 172 Formal Systems and Logic in Computing Science
★3 (either term, 3-1s-0). An introduction to the tools of set theory, logic and induction, and their use in the practice of reasoning about algorithms and programs. Basic set theory. The notion of a function. Counting. Propositional and predicate logic and their proof system. Inductive definitions and proofs by induction. Program specification and correctness. Prerequisite: CMPUT 114 or equivalent. Corequisite: CMPUT 115 or 169.

CMPUT 251 Introduction to Programming for Scientific Applications
★3 (either term, 3-0-3). Basic programming techniques using a high level language; representation and manipulation of numeric and non-numeric data; survey of computing systems, history and applications. Prerequisite: MATH 113 or equivalent. See Note 2.

CMPUT 252 Elements of Scientific Computing
★3 (second term, 3-0-3). Scientific computing; computer design and function, interfacing with computers, fundamental numerical methods, use of mathematical and statistical packages; fundamentals of simulation. Prerequisite: CMPUT 251, or ENCMP 100 or CMPUT 114 and a knowledge of FORTRAN.

CMPUT 358 Numerical Analysis
★3 (either term, 3-0-3). An introduction to numerical methods with engineering applications. Topics include solution of nonlinear equations, interpolation, integration, matrix methods, and ordinary differential equations. Prerequisite: ENCMP 100 or equivalent; MATH 200 and 201. Credit cannot be obtained for more than one of CMPUT 319, 340, 358 or MATH 280.

194.9.2 Specialization and Honors Courses

The following courses are restricted to students registered in various Specialization and honors programs in the Faculty of Science, in the Computer Engineering program and Computer Process Control Option in the Chemical Engineering program. Detailed programs of study are listed in §193.1, §193.7, §83.3.5, and §83.5. Students should consult the appropriate section of the Calendar to ensure degree requirements are being met.

ENCMP 100 Computer Programming for Engineers
★3 (either term, 3-0-1.5). Computer programming with application to engineering problems: use of computer workstations, structured programming using FORTRAN, use of subprogram libraries, introduction to computer graphics, debugging techniques. Restricted to Engineering students only.

CMPUT 204 Algorithms I
★3 (either term, 3-0-1). The first course of a two course sequence on algorithm design and analysis stream, with the emphasis on the fundamentals such as searching, sorting and graph algorithms. Examples include divide and conquer, dynamic programming, greedy method, backtracking and local search methods. Analysis techniques will be developed to aid in judging program efficiency. Prerequisite: CMPUT 115 or 169, and CMPUT 172.

CMPUT 225 Programming Languages I
★3 (either term, 3-1s-2). A study of programming languages with regard to structural organization, syntactical structures, control structures, data structures and name structures. An investigation of procedural languages like Modula-2 and Ada which support modularity and data abstraction. An introduction to non-procedural languages including: Lisp, Prolog, and Smalltalk. Prerequisite: CMPUT 280.

CMPUT 280 Computer Organization and Architecture I
★3 (either term, 3-1s-2). An introduction to logic design and central processor architecture including adders, shifters, decoders, multiplexors registers, clocks, data representation, basic computer organization, CPU design and introduction to programming concepts. Credit cannot be obtained for both CMPUT 335 and CMPUT 280. Prerequisite: CMPUT 115 or 169, 172.

CMPUT 285 Computer Organization and Architecture II
★3 (either term, 3-1s-2). The second of two courses dealing with the fundamentals of computer architecture. A methodical discussion of number systems and arithmetic and basic computer organization including: assembly language programming, addressing, operations, subroutines and parameters input/output, DMA, and an analysis of specific architectures. Credit cannot be obtained for both CMPUT 285 and 330. Prerequisite: CMPUT 280.

CMPUT 291 Introduction to File and Database Management
★3 (either term, 3-0-3). Basic concepts in computer data organization and information processing; hardware devices, physical organization, and access methods for file storage; file I/O; introduction to database systems. Prerequisite: CMPUT 115 or 169, CMPUT 172.

CMPUT 301 Software Engineering
★3 (either term, 3-0-3). The software lifecycle: specifications, design, coding, testing, documentation and maintenance. Project organization including development tools, resource estimation, team organization and review. The class will organize and implement a complete software project. Prerequisite: CMPUT 225.

CMPUT 304 Algorithms II
★3 (first term, 3-0-0). The second course of a two-course sequence on algorithm design. Emphasis on principles of algorithm design. Categories of algorithms such as divide-and-conquer, greedy algorithms, dynamic programming; analysis of algorithms; limits of algorithm design; NP-completeness; heuristic algorithms. Prerequisite: CMPUT 204.

CMPUT 306 Intoduction to Image Processing
★3 (second term, 3-0-3). Introduction, history and applications; scanning and quantization; visual perception; output devices; pattern recognition; feature extraction, decision theory, classification rules; data representation and formats; image enhancement and restoration; edge detection, segmentation and texture; correlation and registration. Prerequisite: CMPUT 204 and 280.

CMPUT 311 Introduction to Computer Graphics
★3 (either term, 3-0-3). Graphical input and output devices primitives; segments; interactive input techniques; user interface design; windowing and clipping; 2-D and 3-D transformation; 3-D modeling and viewing; hidden-line and hidden-surface removal. Prerequisite: CMPUT 280.

CMPUT 313 Telecommunications and Computers
★3 (either term, 3-0-3). Overview of computer communication networks, analog and digital transmission; signal analysis; modulation; multiplexing; telephony; first three protocol layers of the OSI model: physical, data link, network. LAN configurations and protocols. Prerequisite: CMPUT 204 and 285.

CMPUT 315 Compiler Design
★3 (either term, 3-0-3). Compilers, interpreters, lexical analysis, syntax analysis, syntax directed translation, code generation, code optimization. Prerequisite: CMPUT 225.

CMPUT 319 Numerical Analysis I
★3 (first term, 3-0-2). An introduction to selected topics in numerical analysis. Areas covered will include floating point arithmetic and error analysis, systems of linear equation, interpolation, approximation, numerical integration and roots of nonlinear equations. Prerequisite: CMPUT 204, MATH 120 and 215. Credit cannot be obtained for more than one of CMPUT 319, 340, 358, MATH 280 or 486.

CMPUT 321 Simulation
★3 (second term, 3-0-3). Introduction to systems, models, and (digital computer) simulation. Discrete time step, continuous, and discrete event simulation paradigms, with examples from a variety of domains of application. Brief review of numerical integration and of generation and transformation of stochastic variates. Use of discrete and continuous simulation-oriented programming languages. Brief introduction to a formal framework for modelling and simulation. Prerequisite: STAT 221 or 265; CMPUT 319 or 340.

CMPUT 322 Analysis of Computer Systems I
★3 (first term, 3-0-3). An introduction to modelling in computer systems analysis. Categorizing different queueing models for various system and workload configurations; the application of known queueing results to different system situations is emphasized. Basic building blocks for simulating computer systems and their workloads are presented and implemented by programs; a system simulation language is introduced. These queueing and simulation tools are used to study memory scheduling, Disk I/O, processor sharing and communication links. Prerequisite: CMPUT 285, 291, and STAT 221 or 265.

CMPUT 325 Programming Languages II
★3 (either term, 3-0-3). A formal study of programming languages with emphasis on data abstraction. Structure of procedural, functional and object oriented languages. Interpretation versus compilation, concurrency, and special topics. Prerequisite: CMPUT 225.

CMPUT 329 Computer Design and VLSI Implementation
★3 (either term, 3-0-3). Design of digital circuits; fu[n]tional and structural representations; VLSI implemen[t]tions. Computer design languages. testing and verificati[on]. Digital arithmetic. Prerequisite: CMPUT 285.

CMPUT 334 Computer Systems and Architecture
★3 (either term, 3-0-3). An investigation of compu[ter] system design concepts including requirements, spec[if]cations, implementation and modification. Instruct[ion] sets, arithmetic/logic unit design, bus structures, [me]structures, control organization and implementati[on]. Discussion and use of hardware description languag[e]. Prerequisite: CMPUT 285.

CMPUT 340 Introduction to Numerical Methods
★3 (first term, 3-1s-3). Introduction to computer arithm[e]tic and errors. The study of computational methods [for] solving problems in linear algebra, non-linear equatio[ns], interpolation and approximation, integration and or[di]nary differential equations. The aim is to teach [the] student how to use mathematical subroutine packag[es] currently available in computer libraries. Prerequisi[te:] CMPUT 172, MATH 120 and 214. Credit cannot [be] obtained for more than one of CMPUT 319, 340, 358, MATH 280 or 486.

CMPUT 341 Numerical Software
★3 (second term, 3-0-3). The design and implementat[ion] of efficient and reliable programs for numerical comput[a]tion. Special emphasis will be placed on the investigat[ion] of stability, robustness and portability of numerical s[of]ware. Prerequisite: CMPUT 340, or 358, or 419.

CMPUT 350 Introduction to Artificial Intelligence
★3 (either term, 3-0-3). Problem representation, sear[ch], inference, and learning in intelligent systems; syste[ms] for general problem solving, game playing, deducti[ve] expert consultation, computer vision, concept formati[on] and natural language understanding. Prerequisite: CMP[UT] 204 and 225.

CMPUT 374 Formal Languages, Automata, and Computability
★3 (second term, 3-0-0). Formal grammars; normal form[s]; relationship between grammars and automata; regu[lar] expressions; finite state machines; state minimizati[on]; pushdown automata; Turing machines; computability; [the] Halting Problem; introduction to recursive function the[ory]. Prerequisite: CMPUT 204, MATH 223 or 382.

CMPUT 379 Operating System Concepts
★3 (either term, 3-0-3). Definition of a process; proc[ess] states and state transitions; process control block; [op]erations on processes; interrupt processing; para[llel] processing; resource allocation; shared and unsha[red] allocation; critical sections; semaphores; deadlock; deadl[ock] prevention, avoidance, detection and recovery; mem[ory] management; memory allocation schemes; virtual memo[ry]: paging and segmentation; page replacement strategi[es]; working sets; demand paging; job and processor sch[ed]uling; scheduling levels, objectives and criteria; vari[ous] scheduling algorithms; multi-processor consideratio[ns]; file system functions; file organization; tree structu[red] file systems; space allocation; file catalogs; file acc[ess] control mechanisms; operating systems security. P[re]requisite: CMPUT 204, 225, and 285.

CMPUT 384 Systems Programming
★3 (either term, 3-0-3). Introduction to VM/SP ([a] virtual machine concept); the IBM-370 architecture [as a] reminder); correlation between various components [of a] computing system (CPU, memory, channels, i/o [de]vices); interrupt handling (hardware prerequisites, in[ter]rupt classes and priorities, programming interrupt handle[rs] a simple operating system for the IBM-370 (process [and] CPU scheduling, SVC requests); memory organiza[tion] (mapping techniques, virtual memory); VM implemen[ta]tion (virtual CPU states, shadow tables); other comp[uter] architectures and their specific operating system im[ple]mentation problems: machines without interrupts (CI[BER] 6000/7000 series), and supercomputers (Cray, Cy[ber] 205). Prerequisite: CMPUT 204, 225, and 285.

CMPUT 391 Database Management Systems
★3 (either term, 3-0-3). Logical data modeling proc[ess]; relational database design (normalization), qu[ery] processing, transaction management, new technolog[ical] trends (distributed databases, object-orientation, kn[ow]ledge base systems). Prerequisite: CMPUT 291.

CMPUT 419 Numerical Analysis II
★3 (second term, 3-0-2). An introduction to selec[ted] topics in numerical analysis. Areas covered will incl[ude] ordinary differential equations, approxiamtion the[ory], boundary value problems and partial differential eq[ua]tions. Prerequisite: CMPUT 319, MATH 121 or 2[30]. Corequisite: MATH 334 or 336. Credit may not [be] obtained in both CMPUT 419 and MATH 487.

CMPUT 495 Honors Seminar
★0 (either term, 0-1s-0). Prerequisite: A 300-level C[om]puting Science course. Note: Required of all Hon[ours] Computing Science students during their degree progr[am]

PUT 496 Topics in Computing Science
(first term, 3-0-0). Prerequisite: A 300-level Comput-Science course.

PUT 497 Topics in Computing Science
(second term, 3-0-0). Prerequisite: A 300-level Com-ng Science course.

PUT 498 Topics in Computing Science
(first term, 3-0-3). Prerequisite: A 300-level Comput-Science course.

PUT 499 Topics in Computing Science
(second term, 3-0-3). Prerequisite: A 300-level Com-ng Science course.

or graduate courses in Computing Science see 4.19.5 of this Calendar.

4.10 Entomology

following table lists renumbered courses effective 1-92:

	New	Old	New
T 220	ENT 120	ENT 417	ENT 317
T 307	ENT 207	ENT 419	ENT 319
T 380	ENT 280	ENT 421	ENT 321
T 392	ENT 292	ENT 470	ENT 370
T 400	ENT 300	ENT 471	ENT 371
T 401	ENT 301	ENT 560	ENT 460
T 408	ENT 308		

T 120 Introduction to Insect Biology
(either term, 3-0-3). An introduction to the structure, ction, ecology, and systematics of insects with em-asis on the regulation of their metabolism, locomotion, roduction and development on the evolution of the ers and on the interactions and relationships of cts with other organisms including man. Prerequisite: logy 30. Restriction: Not open to students with credit ny Entomology course.

T 207 Agricultural Entomology
(either term, 3-0-3). Introduction to insects and ated arthropods emphasizing those aspects of their ucture and life history responsible for some of them coming pests and indicating those aspects towards ich control measures can be directed. Principles of grated control. Prerequisite: one of BIOL 100, GENET 7, ZOOL 120 or BOT 199.

T 280 Forest Entomology
(second term, 3-0-3). Characteristics of major North erican forest insects. Roles of insects in forest eco-stems. Insects destructive to wood and wood prod-s. Principles of control. Prerequisite: Biology 30 and t year Chemistry (CHEM 160 recommended). Not en to first year students.

T 292 Medical and Veterinary Entomology
(either term, 3-0-3). An introduction to the arthro-ds and an account of their influences on the health of n and other animals. Prerequisite: Six units of course ight in Biology, Entomology or Zoology. Not open to t year students.

T 300 Project in Basic Entomology
(0-1s-6). Individual study. Provides students with an portunity to pursue an area of interest in detail. This is complished through guided reading, discussions with faculty member and usually conducting a limited search project. Students must have the agreement of least one faculty member who will act as supervisor the course. As the project may require summer llecting or field work, students are strongly encour-ed to find a faculty member who agrees to supervise eir work, at least six months prior to enrolling in the urse. Prerequisite: Any three units of course weight in tomology at the 200-level or higher.

T 301 Project in Basic Entomology
3 (either term, 0-1s-6). Individual study. Provides udents with the opportunity to investigate through ided reading and discussion with a faculty member of eir choice, the literature on one or more topics in basic tomology. According to circumstances and inclination, nited experimental work might be undertaken. Prereq-site: Any three units of course weight in Entomology at e 200-level or higher.

NT 308 Principles of Insect Pest Management
3 (first term, 3-0-3). Application of ecological principles d pest management tactics in development of inte-ated control strategies. Biological characteristics of sts and use of population models are emphasized. conomic considerations in pest management. Term aper required. Prerequisite: Any three units of course eight in Entomology at the 200-level or higher, an troductory course in ecology, a course in Computing cience, and a course in Statistics.

NT 317 Comparative Morphology
3 (first term, 3-0-3). Comparative morphology of the major orders of insects and the evolution of some of their structures. Prerequisite: ZOOL 252 and 253.

ENT 319 Insect Development
★3 (second term, 3-0-3). Reproduction, embryonic and postembryonic development in insects. Prerequisite: BIOL 202 or ENT 317.

ENT 321 Insect Function
★3 (second term, 3-1s-3). Life processes at the molecular, cellular, and organ levels, emphasizing those characteristics of insects and their relatives. Prerequisite: CHEM 160 and six units of course weight in Entomology and/or Zoology at the 200-level or higher.

ENT 370 Project in Applied Entomology
★6 (0-1s-6). Individual study. Provides student with an opportunity to pursue an area of interest in detail. This is accomplished through guided reading, discussions with a faculty member and usually conducting a limited research project. Students must have the agreement of at least one faculty member who will act as supervisor for the course. As the project may require summer collecting or field work, students are strongly encouraged to find a faculty member who agrees to supervise their work, at least six months prior to enrolling in the course. Prerequisite: Three units of course weight in Entomology at the 200-level or higher.

ENT 371 Project in Applied Entomology
★3 (either term, 0-1s-6). Individual study. Provides students with the opportunity to investigate through guided reading and discussion with a faculty member of their choice, the literature on one or more topics in applied entomology. According to circumstances and inclinations, limited experimental work might be undertaken. Prerequisite: Three units of course weight in Entomology at the 200-level or higher.

ENT 427 Insect Taxonomy
★3 (second term, 2-0-6). The higher taxa of insects and their relationships. Practice in identification. Prerequisite: ENT 317.

ENT 460 Insect Ecology
★3 (first term, 2-0-4). Relationships of insects to their environment. Community interactions. Laboratory will consist of field trips. Prerequisite: ZOOL 331 or ENT 308 and three units of course weight of animal ecology.

ENT 527 Insect Taxonomy
★3 (second term, 3-0-3). Literature of insect taxonomy. Principles and procedures. Speciation, phylogeny and zoogeography. Preparation of taxonomic papers. Prerequisite: Consent of instructor; ENT 427 recommended.

ENT 561 Advanced Insect Ecology
★3 (second term, 2-0-4). Behavioral aspects of insect ecology. Responses of insects to the biological and physical environment. Circadian activity rhythms. Prerequisite: ENT 460.

194.11 Genetics

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
GENET 265	GENET 165	GENET 419	GENET 319
GENET 370	GENET 270	GENET 464	GENET 364
GENET 375	GENET 275	GENET 470	GENET 371
GENET 380	GENET 280	GENET 481	GENET 381
GENET 400	GENET 300	GENET 490	GENET 390
GENET 404	GENET 304	GENET 501	GENET 401
GENET 408	GENET 308	GENET 506	GENET 406
GENET 412	GENET 312	GENET 507	GENET 407
GENET 415	GENET 315	GENET 520	GENET 420
GENET 418	GENET 318	GENET 521	GENET 421

GENET 165 Genetics and Human Welfare
★3 (first term, 3-0-0). An introduction to the genetics of human development and variability. The analysis of human DNA, genes and chromosomes will lead to discussions of: human diseases; prenatal diagnosis; viruses; cancer; applications of biotechnology and human evolution. Note: Students with credit in GENET 197 cannot receive credit in GENET 165. Students with credit in GENET 165 may register in GENET 197 or GENET 351 for credit. Students with credit in GENET 197 may wish to register in GENET 275. Prerequisite: Biology 30. Also see §193.3.

GENET 197 Heredity
★3 (either term, 3-0-3). The cellular and molecular basis of the transmission of hereditary characteristics: Mendelian inheritance and its cytological basis; microbial genetics; cytoplasmic inheritance; linkage and genetic mapping; DNA as genetic material; gene action; the genetic code. Note: Students cannot receive credit for both GENET 197 and GENET 351. Those taking GENET 197 should take GENET 275 for the equivalent of GENET 351. Prerequisite: Biology 30.

GENET 270 Foundations of Molecular Genetics
★3 (first term, 3-0-0). Basic concepts on the organization of genetic material and its expression will be developed from experiments on bacteria and viruses. Prerequisite: GENET 197.

GENET 275 The Genetics of Higher Organisms
★3 (either term, 3-0-3). A comprehensive survey of the principles of genetics of eukaryotes. Gene structure and function; Mendelian genetics; cytoplasmic inheritance; cytogenetics; biochemical genetics; somatic cell genetics. Emphasis will be placed on examples from human genetics. Prerequisite: GENET 197.

GENET 280 Basic Population Genetics
★3 (first term, 3-1s-0). Introduction to the genetics of evolutionary processes in experimental and natural populations. The seminar periods are used to discuss recent papers in population genetics. Prerequisite: GENET 197.

GENET 300 Genome Organization
★3 (second term, 3-0-0). The prokaryotic genome: the bacterial chromosome; the episome concept; development of cloning vectors; transposable elements and genomic rearrangements. The eukaryotic genome: eukaryotic chromosomes; repeated gene families; DNA sequence mobility; gene amplification; germline transformation. Prerequisite: GENET 270 (BIOCH 301 is recommended).

GENET 304 Gene Expression and its Regulation
★3 (second term, 3-0-0). Molecular mechanisms of transcription and translation in both prokaryotes and eukaryotes. Strategies of gene regulation are examined at the molecular level. Prerequisite: GENET 270.

GENET 308 Replication, Repair and Recombination
★3 (first term, 3-1s-0). DNA replication, repair and recombination in prokaryotes and eukaryotes. Origins of DNA variation by mutation. Prerequisite: GENET 270. Note: This course is normally recommended for 4th year students.

GENET 312 Genetic Control of Development
★3 (first term, 3-1s-0). Gene action during development; identification and analysis of the network of genetic elements regulating developmental decisions. Prerequisite: GENET 275 and GENET 270.

GENET 315 Cytogenetics
★3 (first term, 3-1.5s-0). The eukaryotic chromosome: mitosis and meiosis in normal and anomalous cells and individuals; experimental manipulation of karyotypes; the organization and function of the interphase nucleus. Prerequisite: GENET 275.

GENET 318 Human Genetics
★3 (second term, 3-1s-0). A survey of human genetic variation and mutation in a molecular genetics context. Chromosomal abnormalities, cancer cytogenetics, population genetics, DNA polymorphisms linked to diseases, gene mapping, applications to genetic counselling, ethical issues. Prerequisite: GENET 275 and GENET 280.

GENET 364 Plant Genetics
★3 (first term, 3-0-0). A survey of genetic phenomena unique to or characteristic of higher plants, with emphasis on explanation at the molecular level. The relationship between molecular or somatic cell genetics and plant breeding will be discussed. Prerequisite: GENET 270.

GENET 371 Immunogenetics
★3 (first term, 3-0-0). The inheritance of cell characters identifiable as antigens. The ontogeny and expression of cell antigens. Physiological and biochemical characteristics linked to cell antigens. Experimental and natural chimaerism in chordates. Prerequisite: GENET 270 or 351. One course in Immunology is recommended.

GENET 381 Population Genetics
★3 (second term, 3-1s-0). The genetic structure of natural populations. Equal emphasis on mathematical theory and data from natural and experimental populations. Prerequisite: GENET 280.

GENET 390 Biochemical Genetics of Microorganisms
★3 (either term, 3-0-0). *In vitro* manipulation of genes with an emphasis on applications to biotechnology. Bacterial, yeast, plant and animal vector systems. Enzymology of DNA manipulation. Electrophoresis of nucleic acids and proteins. Hybridization techniques for the identification of nucleic acids and proteins. Hybridization techniques for the identification of nucleic acid sequences. cDNA and genomic DNA cloning and screening. *In vitro* mutagenesis. Prerequisite: GENET 270, BIOCH 301, MICRB 193.

GENET 401 Research Project
★6 (0-0-6). Directed research carried out in the laboratory of an assigned member of the Genetics Department. The project would normally continue through both the first and second terms of the Winter Session, and would culminate in a written report. Students in the Honors Cell Biotechnology program take either GENET 401 or MICRB 498. Prerequisite: A 300-level Genetics course.

GENET 406 Reading Project
★3 (either term, 3-0-0). Directed reading and essays carried out in conjunction with an assigned faculty member. Note: An undergraduate student cannot take more than two of GENET 406 or GENET 407 (either two of 406, two of 407 or one of each.) Students in the Genetics Honors program may take two of GENET 407 or one of each of GENET 406 and GENET 407. Honors students are obliged to take GENET 407 at least once. Students not in the Genetics Honors program must obtain prior consent of Department. Prerequisite: A 300-level Genetics course.

GENET 407 Research Project
★3 (either term, 0-0-6). Directed laboratory research culminating in a report and oral presentation. Carried out in conjunction with an assigned faculty member. Note: An undergraduate student cannot take more than two of GENET 406 or GENET 407 (either two of 406, two of 407, or one of each.) Students in the Genetics Honors program may take two of GENET 407 or one of each of GENET 406 and GENET 407. Honors students are obliged to take GENET 407 at least once (see "Note B" §193.9.1). Students not in the Genetics Honors Program must obtain prior consent of Department. Prerequisite: A 300-level Genetics course.

GENET 420 Research Techniques in Molecular Genetics
★6 (either term, 0-0-12). A laboratory course emphasizing modern techniques in bacterial and phage genetics, restriction analysis of DNA, and plasmid construction by *in vitro* recombinant DNA techniques. Prerequisite: GENET 300 and 304 and consent of Department. Designed for undergraduate and graduate students in Genetics programs and other programs with molecular biological orientation.

GENET 421 Research Techniques in Classical and Molecular Cytogenetics
★6 (0-0-6). A laboratory course offered to senior undergraduate and graduate students in biology. Laboratory work will involve techniques used in the analysis of eukaryotic chromosome structure and function. Prerequisite: GENET 315 and consent of Department.

For graduate courses in genetics refer to §204.34.4 of this Calendar.

194.12 Geography

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
GEOG 230	GEOG 130	GEOG 449	GEOG 349
GEOG 231	GEOG 131	GEOG 504	GEOG 404
GEOG 267	GEOG 367	GEOG 520	GEOG 425
GEOG 317	GEOG 217	GEOG 530	GEOG 431
GEOG 320	GEOG 220	GEOG 531	GEOG 432
GEOG 321	GEOG 221	GEOG 532	GEOG 434
GEOG 322	GEOG 222	GEOG 533	GEOG 435
GEOG 324	GEOG 224	GEOG 540	GEOG 440
GEOG 344	GEOG 244	GEOG 537	GEOG 447
GEOG 350	GEOG 250	GEOG 538	GEOG 452
GEOG 360	GEOG 260	GEOG 539	GEOG 459
GEOG 364	GEOG 264	GEOG 551	GEOG 461
GEOG 381	GEOG 281	GEOG 553	GEOG 453
GEOG 382	GEOG 282	GEOG 555	GEOG 462

The following table lists renumbered courses effective 1991-92:

Old	New	Old	New
GEOG 217	GEOG 223	GEOG 434	GEOG 532
GEOG 224	GEOG 262	GEOG 435	GEOG 533
GEOG 334	GEOG 333	GEOG 440	GEOG 540
GEOG 431	GEOG 530	GEOG 447	GEOG 537
GEOG 432	GEOG 531		

Note:

(1) Students are responsible for their own accommodation and meal expenses for the following geography courses which involve overnight field trips: GEOG 223, 330, 331, 438, 439, 465.

(2) Description of GEOG 200 and other geography courses and interdisciplinary courses considered to be Arts courses will be found in the Faculty of Arts section of this Calendar (§44.18). Courses in cartography and meteorology offered within the Department of Geography are listed in §194.7 and §194.21.

(3) GEOG 130 and 131 do not have to be taken in sequence; they are completely separate courses. Either one may be taken without the other, and GEOG 131 can be taken before GEOG 130.

(4) No first year students, regardless of their faculty, will be admitted to 200-level courses. Only third- and fourth-year students, regardless of their faculty, will be admitted to 300-level courses.

GEOG 130 Introductory Physical Geography I
★3 (either term, 3-0-3). Introduction to geomorphology: the nature and formation of major landform features of the earth's surface. Rock weathering and slope movements. Landforms developed by erosional and depositional processes of rivers, glaciers, winds, waves and currents. Laboratory work required.

GEOG 131 Introductory Physical Geography II
★3 (either term, 3-0-3). Introduction to the atmosphere and biosphere. Physical elements of weather and climate. Causes, changes and patterns of weather. Climatic classification. Spatial and dynamic interrelations of climate, soils and vegetation. Laboratory work required. Note: GEOG 130 does not have to precede GEOG 131.

GEOG 220 Introduction to Statistical Methods and Computing in Geography
★3 (first term, 3-0-2). Introduction to statistical methods and computing for physical and human geographers. The MTS ("MIDAS) system, and IBM-PC statistical software. Application of conventional statistical methods to geographical problems: description, comparisons, relationships, and trends. Spatial statistics. Prerequisite: One of GEOG 150, 151 and one of GEOG 130, 131.

GEOG 221 Field and Laboratory Methods in Physical Geography
★3 (first term, 3-0-1). Introduction to field mapping, elementary survey methods, and sample collection. Laboratory and data analysis. A weekend field trip may be required. Prerequisites: GEOG 130, 131.

GEOG 223 Aerial Photographic Interpretation in Geography
★3 (second term, 1-0-6). Introduction to the interpretation of aerial photographs including landforms, soils, vegetation, hydrography, agricultural and urban systems, resources, communications and recreation. Particular stress on Albertan and Canadian examples. A two-day field trip is required. Prerequisite: GEOG 130 or equivalent.

GEOG 262 Introduction to Resource Studies in Geography
★3 (either term, 3-0-0). Discussion of global patterns of resources — land, food, water, minerals; renewable and non-renewable resources; basic concepts in resources management; role of perception, attitudes and behavior in resource development. Prerequisite: One of GEOG 130, 131; one of GEOG 150, 151.

GEOG 330 Intermediate Physical Geography I
★3 (first term, 3-0-3). Landform processes and morphologies with stress upon local and regional examples. Field work required. Prerequisite: A 200-level Geography science course.

GEOG 331 Basic Biogeography
★3 (second term, 3-0-3). The links between geomorphology and plant-animal environments will be covered through a biogeographical approach to ecological studies. Studies of the winter environment and the ecological role of snow. Plains and alpine field trips. Prerequisite: A 200-level Geography science course.

GEOG 333 Physical Climatology
★3 (second term, 3-0-0). An examination of the processes influencing climate on the global, regional and local scales. Radiation and energy in the earth-atmosphere system. Past, present, and future climates. Assignments include interpretation of climate data. Prerequisite: A 200-level Geography science course.

GEOG 336 Environment Alberta
★3 (either term, 3-0-0). The physical environment of Alberta. Regional variation in the patterns of climate, landforms, water, soils, vegetation and wildlife; the geographic synthesis of these patterns to give a broad understanding and appreciation of the province and its environmental problems. Prerequisite: A 200-level Geography course.

GEOG 383 Cadastral Studies
★3 (either term, 3-0-0). The interrelationships between land tenure, boundaries, parcels, survey systems, settlement patterns, land registration systems and multipurpose geographical information systems. The need for locational parameters to define land parcels for taxation, registration, sub-division, surveys and land information. Prerequisite: CIV E 350.

GEOG 404 Reading and Seminar Course
★3 (either term, 0-3s-0). Prerequisite: A 300-level Geography course.

GEOG 420 Intermediate Quantitative Methods in Geography
★3 (either term, 3-0-0). The application of multivariate statistical methods to geographical problems. Prerequisite: A 300-level Geography course. Offered in alternate years.

GEOG 421 Advanced Surveying
★3 (either term, 3-0-3). Study of horizontal and vertical positioning procedures — traversing, triangulation, trilateration, precision levelling, inertial surveying, satellite surveying; Layout and monitoring surveys Gyrotheodolite — principles and usage; Error propogation pre-analysis and design of surveys; Error sources i survey measurements; Testing and calibration of surveying instruments. Prerequisite: CIV E 350, CIV E 351 MATH 205, MATH 206, STAT 235. Note: GEOG 421 wi be offered in alternate years with GEOG 383.

GEOG 425 Application of Quantitative Methods and Computer Programming in Geography
★3 (either term, 3-0-0). Corequisite: GEOG 420 an consent of Department.

GEOG 430 Fluvial Geomorphology
★3 (first term, 3-0-0). Analysis of river behavior, channe processes and fluvial landforms. Field work require Prerequisite: GEOG 330.

GEOG 433 Microclimatology
★3 (either term, 3-0-0). Introduction to the physic processes determining microclimate. Radiative transpo of heat. Convective transport of heat, water vapor, an momentum. The role of turbulent mixing. Soil he transfer. Heat and water vapor budgets. Surface energ balance. Interpretation of the microclimatology of un form (desert, lake/ocean, snowpack, crop/forest canopy and non-uniform surfaces. Prerequisite: MATH 115 an GEOG 331 or 333.

GEOG 437 Desert Geomorphology
★3 (second term, 3-0-0). A systematic and regiona survey of the geomorphology of the world's dry lands the low and mid-latitudes. Prerequisite: GEOG 330.

GEOG 438 Mountain Geomorphology
★3 (either term, 3-0-3). Analysis of the major landform and geomorphic processes in mountain areas. Topic will include glaciers, avalanches, action of running wa ter, periglacial and mass-wasting processes. Field trip may be required. Prerequisite: GEOG 330 or 331 GEOL 201.

GEOG 439 Environmental Hazards
★3 (second term, 3-0-0). Analysis of natural hazard presented to man by the physical environment. Topic will include floods, earth dynamics, mass movement avalanches, drought, and violent storms. Prerequisit One of GEOG 330 or 331 or GEOL 201.

GEOG 445 Northern Lands I
★3 (either term, 3-0-0). A synthesis of the physic geography of northern Canada with comparisons other circumpolar lands. Emphasis on events and pro esses which have formed the northern landscape. I cludes such topics as climate/climatic change, permafro glaciation and sea ice. Prerequisite: A 300-level Geograp course.

GEOG 452 Tundra Ecology/Biogeography
★3 (first term, 3-0-0). Lectures and discussions on th structure and function of arctic (tundra) ecosystem Topics will include: evolution of the arctic environme and the flora and fauna; climate, microclimate and soil present plant and animal communities; ecophysiologic adaptations of organisms to the arctic environment; a current development; conservation issues in the Arcti Prerequisite: BOT 230 or 231 or GEOG 331 or ZOO 231.

GEOG 453 Special Research Problems I
★6 (3-0-0). Prerequisite: A 300-level Geography cours

GEOG 459 Seminar in International Development, Natural Resources and Environmental Hazards
★3 (either term, 3-0-0). Seminar course which examin the role of international development in natural resour managment and environmental hazards in the develo ing world. Prerequisite: GEOG 439 and the consent Department.

GEOG 461 Research in Physical Geography I
★3 (either term, 3-0-0). Prerequisite: A 300-level Geo raphy course.

GEOG 462 Research in Physical Geography II
★3 (either term, 3-0-0). Prerequisite: A 300-level Geo raphy course.

INT D 464 Northern Studies
★3 (second term, 3-0-0). An examination of curre environmental research in the Canadian North. Ser nars are presented by government and industry profe sionals engaged in various facets of northern researc Prerequisite: GEOG 466 or ZOOL 466. Corequisi GEOG 466 or ZOOL 366. (Offered by the Boreal Institu for Northern Studies and the Department of Geograph [Geography]

GEOG 465 Biogeography Field Studies
★3 (either term, 0-0-6). A field course requiring origi work. The term in which the course is taken will det mine the nature of the projects which may include w on the following: climatic processes (emphasizi bioclimate), ecological processes (emphasizing limiti factors), environmental modification by man. Seco term registrants will have the opportunity to cond

winter research. Field work required. Prerequisite: GEOG 331 or AN SC 351. The course can be taken concurrently with GEOG 466 or ZOOL 366. Offered in alternate years.

GEOG 466 Boreal Ecology and Northern Development
★3 (first term, 3-0-3). Ecological characteristics and processes of the north. Taiga, forest-tundra and tundra biome characteristics such as climates, geomorphic processes, wildfires, soils, plant and wildlife communities will be emphasized. Northern development and ecological concerns, including rehabilitation of facilities resulting from mineral and hydrocarbon resource exploitation; short and long-term characteristics of man-induced disturbances. Prerequisite: GEOG 331 or AN SC 351.

GEOG 468 The Physical Geography of Water Resources
★3 (first term, 3-0-0). Local, regional, and world patterns of water supply. Precipitation, evapotranspiration, streamflow, soil moisture, groundwater, and their relationships in water balance. Prerequisite: A 300-level Geography course.

GEOG 469 The Geography of Water Management
★3 (second term, 3-0-0). Man's decisions about water examined in the light of economic, political, and environmental conditions. Regional differences in management patterns and decisions. The role of technology in creating new opportunities and new problems. Students are urged to have taken GEOG 468. Prerequisite: A 300-level Geography course.

For graduate courses in geography refer to §204.35.5 of this Calendar.

§194.13 Geology

The following table lists renumbered courses effective 1990-91:

Old New	Old New		
GEOL 202	GEOL 102	GEOL 430	GEOL 335
GEOL 203	GEOL 103	GEOL 440	GEOL 340
GEOL 209	GEOL 119	GEOL 445	GEOL 345
GEOL 300	GEOL 200	GEOL 446	GEOL 346
GEOL 301	GEOL 201	GEOL 447	GEOL 347
GEOL 302	GEOL 204	GEOL 452	GEOL 352
GEOL 303	GEOL 205	GEOL 453	GEOL 353
GEOL 304	GEOL 206	GEOL 460	GEOL 360
GEOL 305	GEOL 207	GEOL 507	GEOL 407
GEOL 307	GEOL 208	GEOL 508	GEOL 408
GEOL 308	GEOL 295	GEOL 523	GEOL 421
GEOL 309	GEOL 219	GEOL 524	GEOL 424
GEOL 310	GEOL 210	GEOL 525	GEOL 425
GEOL 320	GEOL 220	GEOL 526	GEOL 426
GEOL 321	GEOL 221	GEOL 527	GEOL 427
GEOL 330	GEOL 230	GEOL 528	GEOL 428
GEOL 331	GEOL 231	GEOL 530	GEOL 435
GEOL 362	GEOL 262	GEOL 532	GEOL 432
GEOL 382	GEOL 282	GEOL 533	GEOL 433
GEOL 390	GEOL 290	GEOL 546	GEOL 442
GEOL 391	GEOL 291	GEOL 547	GEOL 443
GEOL 401	GEOL 292	GEOL 553	GEOL 454
GEOL 409	GEOL 319	GEOL 563	GEOL 463
GEOL 414	GEOL 314	GEOL 570	GEOL 470
GEOL 423	GEOL 323	GEOL 588	GEOL 488
		GEOL 592	GEOL 492

Note:

1) Students enrolled in Honors and Specialization in geophysics, and Honors and Specialization in geology and zoology will be given preference in registering in geology courses which are required in these four-year programs.

2) Students are responsible for their own accommodation and meal expenses on all geology field trips.

3) Certain courses will normally be offered in alternate years when indicated by the symbol †. If sufficient demand exists, however, exceptions may be made and courses offered in off-cycle years. Students should contact the Department office.

4) A list of paleontology courses and course descriptions may be found under Paleontology, §194.23.

5) GEOL 201, 204, 205, 206, 207, 208 and 295 are intended for students following programs other then geology. Students in Honors or Specializaton programs in geology, geology and physics, or geology and zoology may not take them without consent of Department.

6) The successful completion of the curriculum does not necessarily qualify the student for membership in APEGGA.

GEOL 102 Physical Geology
★3 (first term, 3-0-3). Internal structure and composition of the earth; continents and oceans; minerals and rocks; groundwater and water supply; erosion, transportation and deposition of sediments; igneous activity and metamorphism; mountain building; plate tectonics. Not available to students with credit in GEOL 201 or 290.

GEOL 103 Earth and Life Through Time
★3 (second term, 3-0-3). Geologic and biological processes relevant for historical geology; structural geology and plate tectonics, relative and numerical dating, facies analysis and correlation, fossils, origin and evolution of life. Historical geology from the origin of the solar system to the Recent: planetary beginnings, generation and development of continents, mountains and sedimentary basins; main sedimentary and mineral deposits of economic value; main fossil groups, index fossils, mass extinctions and adaptive radiations. Credit may be obtained in only one of GEOL 103 or 204. Prerequisites: GEOL 102.

GEOL 119 Geology Field School I
★1 (second term, ten days). Ten day excursion at the end of the second term to demonstrate the geology of Alberta. Prerequisite: GEOL 102 and 103.

GEOL 200 Introductory Studies in Geology
★3 (0-0-3). Minerals, rocks, fossils and the interpretation of geological maps. GEOL 200, 201 and 204 together are considered equivalent to GEOL 102 and 103 for prerequisite purposes. Not available to students with credit in GEOL 102 and 103. Corequisite: GEOL 201 and 204.

GEOL 201 Earth Science I
★3 (first term, 3-0-0). Nature, origin and evolution of the universe and of planetary systems; the physical properties of the earth and of its environment; the materials and structures of the earth's interior and surface and the processes affecting these regions, such as continental drift, the formation of ocean basins and mountain building. Prerequisite: A 100-level science course. Not available to students who have taken GEOL 102, or 290.

GEOL 204 Earth Science II
★3 (second term, 3-0-0). Measurement of geologic time; history of life on earth and the geological evolution of North America; nature and origin of mineral deposits; geology of coal, oil and gas. Not available to students with credit in GEOL 103. Prerequisite: GEOL 102 or 201.

GEOL 205 Canadian Shield and Arctic
★3 (first term, 3-0-0). Regional geology of the Precambrian rocks; history of discovery of major districts; present development of mineral deposits and future possibilities. Prerequisite: GEOL 102 and 103 or GEOL 201 and 204.

GEOL 206 Western Canada Plains and Cordillera
★3 (second term, 3-0-0). Regional geology of interior plains of Western Canada; development of oil, gas and coal deposits; mountain-building and ore deposits from the plains to the Pacific Rim. Prerequisite: GEOL 102 and 103 or GEOL 201 and 204.

GEOL 207 Environment Earth
★3 (first term, 3-0-0). Early history of the earth; formation of the hydrosphere and atmosphere and their evolution to the present 'stable' state; atmosphere and hydrosphere as solar-powered heat engines; hydrologic cycle, water supply and groundwater; geological factors affecting the disposal of waste; quantitative evaluation of the effects on the environment of man's exploitation and use of mineral resources; future availability of fuel and of metallic minerals; permafrost, exploration and construction; earthquakes and man-made explosions; earth resources; observational satellites. Prerequisite: GEOL 102 and 103 or GEOL 201 and 204.

GEOL 208 Earth Sciences III: Geology of the Moon and Planets
★3 (first term, 3-0-0). Geological properties of the planets. Origin and evolution of the planets: results of space exploration. Planet Earth as now viewed in the context of the Solar System. Prerequisite: GEOL 103 or 204 or 292.

GEOL 210 Principles of Paleontology
★3 (first term, 3-0-3). Morphology, paleoecology, and evolution of the Porifera, Coelenterata, Brachiopoda, Mollusca, Echinodermata, and Trilobita. Prerequisite: GEOL 102 and 103 and consent of Department.

GEOL 219 Geology Field School II
★3 (second term, 12 days). The study of sedimentary rocks in the field; reading and introductory lectures, and twelve days of field exercises following second term examination period. Prerequisite: GEOL 220 and 262 and consent of Department.

GEOL 220 Principles of Sedimentation and Stratigraphy
★3 (second term, 3-0-3). Sedimentary processes, environments and facies; properties and classification of sedimentary rocks; stratigraphic nomenclature and the stratigraphic column; principles of stratigraphic paleontology. Prerequisite: GEOL 210 and consent of Department.

GEOL 221 Principles of Sedimentation and Stratigraphy
★3 (second term, 3-0-3). Sedimentary processes, environments and facies; properties and classification of sedimentary rocks; stratigraphic nomenclature and the stratigraphic column; principles of stratigraphic paleontology. Prerequisite: GEOL 102 or 290 or 292. Note: This course will not be available to students with credit in GEOL 220.

GEOL 230 Mineralogy I
★3 (first term, 3-0-3). Principles of crystallography, physical and chemical properties of minerals, determinative mineralogy. Prerequisite: GEOL 102, CHEM 100 or 104, MATH 115 and consent of Department.

GEOL 231 Mineralogy II
★3 (second term, 3-0-3). Optical techniques in determinative mineralogy with particular emphasis on transmitted-light microscopy and its application to common rock-forming minerals. Mineral associations, textures and elementary ideas on the origin of igneous, metamorphic and sedimentary rocks. Prerequisite: GEOL 230. Corequisite: PHYS 106 or 141/143 and consent of Department.

GEOL 262 Principles of Geologic Mapping
★3 (second term, 1-0-5). A laboratory course involving the construction and analysis of geologic maps and cross-sections, and hand-specimen petrology. Prerequisite: GEOL 230.

GEOL 282 Geomorphology: Glacial and Perglacial Geology
★3 (first term, 3-0-3). Study of landform morphology, internal composition and processes of formation and development. Emphasis is placed on analysis of glacial, fluvial, lacustrine, aeolian, sub-aerial mass movement, and periglacial landforms and processes. Other topics include glacio-isostasy and eustacy and Quaternary history of western and northen Canada. Laboratory exercises consist of analysis and report of Quaternary sediments in the Edmonton area, local field trips and interpretation of aerial photographs. Prerequisite: GEOL 102.

GEOL 290 Engineering Earth Sciences
★3 (first term, 3-0-3). Rock-forming minerals, igneous activity and igneous rocks, metamorphic and sedimentary rocks, economic minerals; rock weathering and soil formation, mass-wasting, groundwater, deformation of the earth's crust. Laboratories on identification of minerals and rocks and the interpretation of geological maps and aerial photography. Not available to students with credit in GEOL 102 or 201.

†GEOL 291 Engineering Geology
★3 (second term, 3-0-3). Introduction to geological topics important in engineering and regional planning; mass-wasting, hydrogeology, surficial geology, weathering processes and their effects on natural materials. Analysis of aerial photography and maps to determine constraints on land use imposed by geology. Prerequisite: GEOL 102 or 290.

GEOL 292 Basic Geology for Senior Students
★3 (first term, 3-0-3). The structure and composition of the earth, continents and oceans; minerals and rocks; time-scale, historical geology and an introduction to geotectonics. Prerequisite: A 100-level Science course. Not available to students with credit in GEOL 102/103, GEOL 201/202, or GEOL 290. Intended primarily for Mineral Engineering students or graduate students.

GEOL 295 Earth's Physical Resources
★3 (second term, 3-0-0). Resources and resource systems of planet Earth; energy resources and mineral deposits; constructional and other bulk materials; implications of earth resource systems in human affairs. Prerequisites: GEOL 102 and 103 or GEOL 201 and 204.

†GEOL 314 Paleontology
★3 (second term, 3-0-3). Morphology, paleoecology and evolution, with emphasis on both the theoretical aspects and practical techniques of paleontology. Concentration on invertebrate paleontology, but examples from vertebrate paleontology and paleobotany included. Prerequisite: GEOL 210.

GEOL 319 Geology Field School III
★3 (second term, 12 days). The study and mapping of deformed sedimentary, igneous and metamorphic rocks and of macroscopic and mesoscopic structures in the field; reading and introductory lectures, and twelve days of field exercises following second term examination period. Prerequisites: GEOL 345, 346, 347 and 360.

GEOL 323 Stratigraphy
★3 (second term, 3-0-3). Principles of stratigraphy and stratigraphic paleontology, historical geology of North America from the Cambrian to the Cenozoic with emphasis on Western Canada. Prerequisites: GEOL 210, 220 and 262.

GEOL 335 Determinative Mineralogy
★3 (second term, 3-0-3). Techniques of mineral investigation including X-ray diffraction and fluorescence, DTA, electron microprobe analysis, scanning electron microscopy;

mineral separation and preparation; application to clay minerals and other selected mineral groups. Prerequisite: GEOL 231.

GEOL 340 Hand Specimen Petrography
★3 (second term, 3-0-3). Study of igneous, sedimentary and metamorphic rocks in hand specimens. Not available to students with credit in GEOL 345 or 346 or 347. Prerequisite: GEOL 292.

GEOL 345 Igneous Petrology
★3 (first term, 3-0-3). A survey of igneous rocks from the ocean basins and the continents; their field settings, classification, petrography, mineralogy and chemistry; magmatic processes and petrogenesis; problem solving and laboratory work on major rock suites. Prerequisite: GEOL 231.

GEOL 346 Introductory Sedimentary Petrology
★3 (second term, 3-0-3). Processes of sedimentation; weathering, transportation, deposition, diagenesis; classification and description of sedimentary rocks. Prerequisites: GEOL 220, 345. Corequisite: GEOL 347.

GEOL 347 Metamorphic Petrology
★3 (second term, 3-0-3). Classification and genesis of metamorphic rocks; hand specimen and thin section examples from the Canadian Shield and Cordillera. Corequisite: GEOL 346.

GEOL 352 Geochemistry I
★3 (first term, 3-0-3). A survey of chemical processes occurring in geological settings with emphasis on the abundance relationships of the elements and isotopes in the earth, and the principles governing the migration and distribution of the elements. Inorganic and organic geochemistry. Prerequisite: GEOL 230. Corequisite: GEOL 345.

GEOL 353 Geochemistry II
★3 (second term, 3-0-3). Part A: Physico-chemical principles and thermodynamics applied to geological processes. Part B: The application of geochemistry in the search for mineral deposits. Prerequisite: GEOL 352.

GEOL 360 Structural Geology I
★3 (first term, 3-0-3). Fundamentals of stress and strain in rocks; geometric, kinematic, and dynamic analysis; nature, orientation, measurement, representation, and description of planar and linear penetrative and discrete structures, and of faults, joints and folds; stereographic and other projections and their applications; regional structure and the study of orogens. Prerequisite: GEOL 231, 262 and CMPUT 251.

GEOL 407 Research Project I
★3 (either term, or over both terms, 3-0-0). Prerequisite: A 300-level Geology course.

GEOL 408 Research Project II
★3 (second term, 3-0-0). GEOL 407 and 408 provide a means whereby students enrolled in the fourth year of an Honors or Specialization Program may undertake a research project supervised by a faculty member. Prerequisite: A 300-level Geology course.

GEOL 421 Subsurface Geologic Methods
★3 (first term, 3-0-3). Methods of acquiring geologic data from beneath the surface by remote means: drilling, sampling, coring, logging; significance of geophysical techniques; presentation of subsurface information. Prerequisites: GEOL 323, 347, and 360.

GEOL 424 Petroleum Geology I
★3 (first term, 3-0-3). Origin and distribution of petroleum. Geochemistry and maturation of organic matter; microbiological and thermal degradation of hydrocarbons, conventional and unconventional source and reservoir rocks; principles of primary and secondary migration; diagenesis of carbonate and clastic reservoir rocks, with reference to seals and traps. Prerequisites: GEOL 346, 352.

GEOL 425 Petroleum Geology II
★3 (second term, 3-0-2). Basin analysis, Trap types, tectonic, structural, stratigraphic, sedimentologic, geothermal and hydrogeological characteristics of petroliferous basins. Exploration and development of hydrocarbon plays using seismic, core and wire line logging, thin section petrography, correlation and mapping, sequence stratigraphy, palinspastic and paleogeographic reconstruction. Prerequisites: GEOL 323, 360, 421, 424, 442.

GEOL 426 Coal and Industrial Minerals
★3 (first term, 3-0-3). Composition and origin of coal; diagenesis and metamorphism; macrolithotypes and macerals; coal analysis, classification and uses; coal resources and reserves; occurrence, origin and use of non-metalliferous industrial rocks and minerals. Prerequisites: GEOL 347, 360.

GEOL 427 Petroleum Hydrogeology
★3 (second term, 3-0-3). Principles of hydrogeology, subsurface hydrodynamics and basinal fluid flow; evaluation and interpretation of subsurface hydrodynamic data of extended regions; hydraulics and hydrodynamics of petroleum entrapment; review of migration and accumulation theories; hydrogeologic indicators of petroleum accumulations; field examples. Prerequisites: GEOL 424; GEOL 488 is recommended.

GEOL 428 Precambrian Geology
★3 (first term, 3-0-0). Precambrian geologic record with special reference to the stratigraphy, structure, petrology, mineral deposits, geochronology and metamorphism of the Canadian Shield and Western Canadian Cordillera. Prerequisites: GEOL 323, 347.

GEOL 432 Metalliferous Mineral Deposits
★3 (first term, 3-0-3). An introduction to the geologic characteristics and distribution of the principal metalliferous mineral deposits. Prerequisite: GEOL 347, 360.

GEOL 433 Ore Petrology
★3 (second term, 3-0-0). Mineralogy and petrogenesis of metalliferous deposits; mechanism of hydrothermal transport and deposition; metamorphic and igneous processes of ore segregation and modification; application of isotope data to the study of ores. Prerequisite: GEOL 432.

GEOL 435 Rock-Forming Minerals
★3 (first term, 3-0-3). Structure, composition, optical and physical properties, phase relationships and paragenesis of some important rock-forming minerals and mineral groups. Prerequisite: GEOL 335 and a 300-level Geology course.

GEOL 442 Sedimentary Facies
★3 (first term, 3-0-3). Processes of clastic and chemical sedimentation, and diagenesis; sedimentary environments and facies; laboratory techniques in the study of sedimentary rocks. Prerequisite: GEOL 346, 347.

GEOL 443 Petrogenesis of Igneous and Metamorphic Rocks
★3 (second term, 3-0-3). Origin and formation of igneous and metamorphic rocks in the light of field, mineralogical, chemical and experimental evidence. Prerequisite: GEOL 347 and 352.

GEOL 454 Inorganic Geochemistry
★3 (second term, 3-0-3). Applications of geochemistry to rock- and ore-forming processes. Significance and use of minor elements and isotopes as geological tracers. Prerequisite: GEOL 352.

†GEOL 463 Structural Geology II
★3 (second term, 3-0-3). Regional structural geology with special emphasis on the Cordilleran, Innuitian, Appalachian, Caledonian, and Alpine orogenic belts, analysis of strain; computer-based procedures for determining the geometry of faults and folds. Prerequisite: GEOL 360.

GEOL 470 Geotectonics
★3 (first term, 3-0-0). Fundamentals of plate tectonic theory and the evolution of the Earth. Application of plate tectonics to the theory of sedimentary basins and orogenic belts. Tectonics of western North America. Prerequisite: GEOL 347, 360.

GEOL 488 Introduction to Hydrogeology
★3 (first term, 3-0-3). Occurrence, distribution, movement and chemistry of groundwater as a function of the geological environment; groundwater as a geologic agent; methods of collection, organization and use of hydrogeologic data; case histories. Prerequisite: MATH 115 and a 300-level course in Geology.

†GEOL 492 Photogeology and Remote Sensing
★3 (second term, 3-0-3). Application of aerial photographs to geological mapping and terrain analysis; interpretation of geological structure and landforms; remote sensing in geology; sensor principles and capabilities; analysis of imagery. Prerequisite: A 300-level Geology course and consent of Department.

For graduate courses in geology refer to §204.36.5 of this Calendar.

194.14 Geophysics

Department of Physics

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
GEOPH 321	GEOPH 221	GEOPH 521	GEOPH 421
GEOPH 327	GEOPH 227	GEOPH 525	GEOPH 424
GEOPH 329	GEOPH 229	GEOPH 527	GEOPH 426
GEOPH 425	GEOPH 325	GEOPH 528	GEOPH 428
GEOPH 427	GEOPH 326	GEOPH 529	GEOPH 429

The following courses in geophysics are offered by the Department of Physics. See §193.18 for details of the programs offered.

GEOPH 221 Physics of the Earth
★3 (second term, 3-0-0). The solar system, its origin and the abundance of elements. Meteorites. Elements of seismology, properties of the earth's interior. Gravity and the shape of the earth. Heat flow and thermal history of the earth. Geomagnetism, aeronomy, magnetosphere and interplanetary space. Prerequisite: PHYS 143. Corequisite: PHYS 285.

GEOPH 227 Seismic Exploration Methods
★3 (first term, 3-0-3). Elastic properties of rocks. Geometric rays. Application of seismic refraction and reflection methods. Interpretation of seismic sections. Sonic logging. Prerequisite: MATH 115 and PHYS 106. Note: Credit is not available to students in Honors or Specialization in Physics or Geophysics.

GEOPH 229 Geophysical Prospecting
★3 (second term, 3-0-3). Application theory and interpretation of gravitational, magnetic, electromagnetic and radiomagnetic prospecting methods. Well-logging technique. Prerequisite: MATH 115 and PHYS 106. Note: Credit is not available to students in Honors or Specialization in Physics or Geophysics.

GEOPH 325 Gravity, Magnetic and Electrical Prospecting Techniques
★3 (first term, 3-0-0). Elementary potential theory as required for gravity, magnetic and electrical studies of the earth's crust. Gravimeters and magnetometers; magnetic and electrical properties of rocks; well logging methods; induced polarization. Prerequisite: PHYS 285.

GEOPH 326 Ray Seismology
★3 (second term, 3-0-0). Use of seismic refraction and reflection methods for exploration of petroleum and ground water. Elasticity theory, seismic instrumentation, velocity surveys, near surface corrections. Prerequisite: PHYS 285.

GEOPH 421 Seismology and Physical Structure of the Earth
★3 (second term, 3-0-0). Seismology; Infinitesimal strain theory; elastic stress and moduli of elasticity; plane waves in isotropic layered media; imperfectly elastic media; earthquake mechanisms. Physical structure of the earth; seismometers. Prerequisite: MATH 300 or 437.

GEOPH 424 Electromagnetic and Potential Methods of Exploration
★3 (second term, 3-0-0). Theory and application of Maxwell's equations. Potential theory as applied to gravity, magnetic and electrical studies. Interpretation of field data. Direct and indirect methods of inversion to obtain model structures. Prerequisite: GEOPH 325 or consent of Department, and MATH 300 or 437. Corequisite: GEOPH 428.

GEOPH 426 Time Series in Applied Seismology
★3 (first term, 3-0-0). Application of time series analyses to seismic data processing. Fast Fourier transforms; Z transformation, spectral analyses, band pass and velocity filtering, deconvolution, auto and cross correlation; analog to digital conversion, wave propagation in layered media. Prerequisite: GEOPH 326 or equivalent. Corequisite: GEOPH 428.

GEOPH 428 Application of Methods of Exploration Geophysics
★6 (0-0-6). A ten day field camp held before the beginning of the fall term provides data for interpretation during the fall and winter terms. Problems associated with the analysis of real data are discussed in a weekly seminar. Prerequisite: MATH 300. Note: Restricted to geophysics Honors and Specialization students.

GEOPH 429 Upper Atmosphere and Space Physics
★3 (second term, 3-0-0). Generation of the solar wind; the interplanetary plasma and field environment; the solar-terrestrial interaction; magnetospheric substorms; the aurora borealis; magnetosphere-ionosphere interactions; effects of magnetospheric storms on man-made systems; use of natural electromagnetic fields for geophysical exploration. Prerequisite or corequisite: PHYS 382.

For graduate courses in geophysics refer to §204.37.1 of this Calendar.

194.15 Interdisciplinary Studies

Any Interdisciplinary Studies course in §194.15 will be counted as a science course in a program of study in the Faculty of Science.

The following table lists renumbered courses effective 1990-91:

Old	New
INT D 505	INT D 407
INT D 565	INT D 464

INT D 407 Intermediary Metabolism
★3 (first term, 3-0-0). A detailed description of enzymatic reactions in biosynthetic pathways of carbohydrate, amino acid, vitamin and coenzyme metabolism, emphasizing interrelationships among microbial and animal cells. Offered in alternate years. Prerequisite: BIOCH 301 and MICRB 311. [Microbiology]

NT D 421 Peatlands
★3 (first term, 3-0-3). Climatic, geologic and hydrologic factors of peatland development; ecosystem dynamics of peat formation including flora and fauna, biogeochemical cycles, and energy fluxes; stratigraphy and evolution; classification; utilization in forestry, agriculture, horticulture and as fuel. Two one-day field trips on Saturdays. Offered in alternate years. Prerequisite: A 100-level or higher Ecology course and a 300-level Soils course. (Offered jointly by the Departments of Botany and Soil Science.) [Soil Science]

NT D 455 Molecular Plant Development
★3 (second term, 3-0-0). Recent advances in plant molecular biology will be introduced through a study of plant development at the molecular level. The course will examine how developmental processes can be used as model systems to study gene expression in higher plants. Both developmental regulation and stress induced alteration of gene expression will be covered using specific examples. Prerequisite: BOT 382 or PL SC 301. GENET 270 recommended. Offered in alternate years (Offered jointly by the Departments of Botany and Plant Science.) [Botany].

NT D 464 Northern Studies
★3 (second term, 3-0-0). An examination of current environmental research in the Canadian North. Seminars are presented by government and industry professionals engaged in various facets of northern research. Prerequisite: GEOG 466 or ZOOL 466. Corequisite: GEOG 466 or ZOOL 366. (Offered by the Boreal Institute for Northern Studies and the Department of Geography.) [Geography]

For graduate courses in interdisciplinary studies refer to §204.42 of this calendar.

94.16 Laboratory Animal Management

Department of Microbiology

B AN 301 Experimental Animal Models
★3 (second term, 3-0-3). This course will be directed to senior level (3rd and 4th year) undergraduate students with a background in vertebrate biology and an interest in animal based research. The course will assist the students in selecting appropriate experimental animal models for specific types of research. The advantages and limitations of animal models will be discussed, as well as the use of alternative and/or complementary non-animal models. The ethics of animal use will be emphasized throughout the course. Students will also be informed of the regulations and legislation governing the use of animals in Canada. Prerequisite: ZOOL 225 or 226.

94.17 Linguistics

See Faculty of Arts §44.27 of the Calendar for linguistics courses offered by the Faculty of Arts.

See §204.45 regarding graduate courses in linguistics.

94.18 Marine Science

Staff, Marine Station at Bamfield, BC

te: Courses are offered during Intersession (and sometimes during the first term of the Winter Session) at the Bamfield Marine Station — check with the Department of Zoology. Students wishing to take Marine Science courses must register with *both* the Special Sessions office (or the Faculty of Science for the Fall term) and the Bamfield Marine Station. Details are available from the Department of Zoology. Prerequisite for all of the following courses is: Consent of Department of Zoology.

A SC 400 Directed Studies
(0-0-6). A course of directed studies under the supervision of a visiting professor. The study will involve research project approved by the supervisor in the field of interest of the student, and will be designed to the maximum advantage of the laboratory and/or field opportunities offered by the Bamfield Marine Station.

SC 401 Special Topics in Marine Biology
(0-0-6). Offered, as opportunities arise, by distinguished scientists who are working at the Bamfield Marine Station. It is expected that the course will generally be of a specialized nature and be at a level appropriate to graduate or senior undergraduate students.

MA SC 402 Special Topics in Marine Biology
★3 (either term, 0-0-6). Offered, as opportunities arise, by distinguished scientists who are working at the Bamfield Marine Station and are prepared to offer a course extending over a three-week period. Course will be of a specialized nature.

MA SC 410 Marine Invertebrate Zoology
★6 (0-0-6). A survey of the marine phyla, with emphasis on the benthic fauna in the vicinity of the Bamfield Marine Station. The course includes lectures, laboratory periods, field collection, identification, and observation. Emphasis is placed on the study of living specimens in the laboratory and in the field.

MA SC 411 Comparative Invertebrate Embryology
★6 (0-0-6). A comprehensive study of the development of marine invertebrates available at the Bamfield Marine Station, including all major phyla and most of the minor phyla. A total of 25 to 30 lectures, covering gametogenesis, fertilization, larval development and metamorphosis of different groups will be given. Laboratory work will include methods and techniques of obtaining and handling of gametes, preparation and maintenance of larval cultures, and observations of development up to metamorphosis if possible. Some selected and clearly defined experiments will be performed. Efforts will be made also to study various pelagic larvae collected from the plankton.

MA SC 412 Biology of Fishes
★6 (0-0-6). Classification, physiology, ecology, behavior and zoogeography of fishes with particular emphasis on those in the marine environment of the British Columbia coast. Course will involve some field projects.

MA SC 413 Biology of Molluscs
★6 (0-0-6). An advanced course of selected topics emphasizing functional morphology, ecology and evolution of these diverse phylum. Field trips will be undertaken to survey the representative molluscs of the Bamfield region. Students will be expected to complete an independent field or laboratory study of selected molluscs.

MA SC 420 Marine Phycology
★6 (0-0-6). A survey of the marine algae, with emphasis on the benthic forms in the vicinity of the Bamfield Marine Station. The course includes lectures, laboratory periods, field collection, identification, and observation. Emphasis is placed on the study of living specimens in the laboratory and in the field.

MA SC 430 Marine Ecology
★6 (0-0-6). An analytical approach to biotic associations in the marine environment. Opportunities will be provided for study of the intertidal realm in exposed and protected areas and of beaches and estuaries in the vicinity of the Bamfield Marine Station; plankton studies and investigations of the subtidal and benthic environments by diving and dredging are envisaged.

MA SC 435 Introduction to Biological Oceanography
★6 (0-0-6). An introduction to the biology of the oceans, with supporting coverage of relevant physics and chemistry. Emphasis on plankton biology, community structure and life histories, and influencing environmental factors. Collections will be made from sheltered inlets, through Barkley Sound to offshore waters. Course will involve both field and laboratory studies of plankton organisms.

MA SC 440 Biology of Marine Birds
★6 (0-0-6). A study of the inter-relationship of birds and the marine environment. Lectures will emphasize the systematics and ecological relationships, behavior, life histories, movements and conservations of marine birds. Census techniques and methods of studying marine birds in the field will be treated as we observe seabirds and marine associated birds in the Barkley Sound region. Seabird identification, classification, morphology, plumages and moult will be examined in the laboratory.

MA SC 445 Biology of Marine Mammals
★6 (0-0-6). A survey course covering systematics and distribution of marine mammals, their sensory capabilities and physiology, with special emphasis on the Cetacea. The course includes lectures, laboratory periods and the course will involve an independent field study.

MA SC 446 Comparative Ethology
★6 (0-0-6). A comparative study of marine animals (vertebrate and invertabrate) emphasizing behavioral description, underlying physiological mechanisms, the biological significance of behavior and behavioral evolution. The course will include independent laboratory and field studies.

MA SC 450 Principles of Aquaculture
★3 (0-0-6). An interdisciplinary introduction to the principles underlying the commercial cultivation of aquatic plants and animals emphasizing marine systems. The course will include working site-visits to a range of commercial farms and R & D facilities.

MA SC 454 Special Topics in Aquaculture
★3 (0-0-6). An examination of the culture techniques for selected groups of aquatic plants, animals, or micro organisms. Participants will be expected to complete a project which examines some aspects of applied science relevant to commercial culture.

MA SC 460 Special Topics in Aquacultural Applied Science
★3 (0-0-6). An examination of the principles underlying the application of selected areas of scientific information to commercial aquaculture. Participants will be expected to complete a written project.

MA SC 470 Directed Research in Aquaculture
★3 (0-0-6). Design and execution of a research project in the field of aquaculture under the supervision of a scientist working in association with the Bamfield Station. A written report is a requirement.

194.19 Mathematical Physics

Departments of Mathematics and Physics

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
MA PH 443	MA PH 343	MA PH 553	MA PH 453
MA PH 444	MA PH 344	MA PH 567	MA PH 467
MA PH 551	MA PH 451	MA PH 568	MA PH 468

Note: Permission to enroll in any mathematical physics course will not normally be granted unless the stated prerequisites have been met. However, students may enroll in a mathematical physics course if their department and the course instructor agree that their background and academic standing warrant the waiver of the stated prerequisites.

MA PH 343 Classical Mechanics I
★3 (first term, 3-0-0). Review of fundamental principles; Lagrange's equations derived from Newton's Laws and D'Alembert's Principle; Variational Principles; Hamilton's Equations; Canonical Transformations; Small Oscillations. Prerequisite: PHYS 244 or MATH 376; MATH 215 or 317.

MA PH 344 Classical Mechanics II
★3 (second term, 3-0-0). Non-Conservative and Non-Holonomic Systems; Motion of a Rigid Body in Non-Inertial Systems; Hamilton-Jacobi equation; principles of fluid mechanics. Prerequisite: MA PH 343.

MA PH 451 Mathematical Methods of Physics I
★3 (first term, 3-0-0). Application to problems in physics of: method of steepest descent; Fourier and Laplace transforms; boundary-value problems, integral equations and Green's functions. Prerequisite: PHYS 372 and 382.

MA PH 453 Mathematical Methods of Physics II
★3 (second term, 3-0-0). Application to problems in physics of: contour integral solutions of linear differential equations; Legendre, Bessel and hypergeometric functions with complex arguments; applications to the differential and integral equations of mathematical physics; perturbation theory; calculus of variations; conformal mapping; elements of group theory. Prerequisite: MA PH 451.

MA PH 467 Mechanics of Deformable Media
★3 (second term, 3-0-0). Stress and strain in continuous media; elasticity; mechanics of fluid flow in two dimensions using complex variables; three dimensional fluid flow using Eulerian and Lagrangian reference frames; thermodynamics and mechanics of compressible and viscous flows; onset of turbulence, convection and instability. Examples from geophysics, oceonography and atmospheric physics. Prerequisite: PHYS 211, MATH 334, MA PH 343, MATH 411, or 311.

MA PH 468 Introduction to Relativity
★3 (second term, 3-0-0). Special Relativity, principle of equivalence, Einstein field equations, stationary and static fields, Schwarzschild metric, experimental tests, black holes, linearized equations, gravitational collapse, cosmology. Prerequisite: MATH 446 or equivalent.

MATH 113 Elementary Calculus I
★3 (either term, 3-0-1). Review of analytic geometry. Differentiation and integration of simple functions. Applications. Prerequisite: Mathematics 30 or equivalent. Students who have taken Mathematics 31 are advised to take MATH 114. This course may not be taken for credit if credit has already been obtained in MATH 100, 114 or 117.

MATH 114 Elementary Calculus I
★3 (either term, 3-0-0). The course description is the same as for MATH 113. Prerequisite: Mathematics 30, Mathematics 31 or equivalent. This course may not be taken for credit if credit has been obtained in MATH 100, 113 or 117.

MATH 115 Elementary Calculus II
★3 (either term, 3-0-0). Differentiation and integration of trigonometric, exponential and logarithmic functions. Indeterminate forms and improper integrals. Techniques of integration. Application. Prerequisite: MATH 113 or 114, or equivalent. Note: This course may not be taken for credit if credit has already been obtained in either of MATH 101 or 118.

MATH 117 Honors Calculus I
★3 (first term, 4-0-0). Functions, continuity and the derivative. Applications of the derivative. Integration and the Fundamental Theorem. Prerequisite: Mathematics 30, Mathematics 31 or their equivalents. Note: This course is designed for students with at least a 75 per cent grade in Mathematics 30. Other students may be admitted with the consent of Department. This course may not be taken for credit if credit has already been obtained in any of MATH 100, 113, 114, or 245.

MATH 118 Honors Calculus II
★3 (second term, 4-0-0). Techniques and applications of integration. Derivatives and integrals of the exponential, and trigonometric functions. Extended limits and l'Hospital's rule. Introduction to infinite series. Introduction to partial derivatives. Prerequisite: MATH 117 or its equivalent. Students with MATH 113 or 114 will be admitted with the consent of Department. Note: This course may not be taken for credit if credit has already been obtained in MATH 101 or 115.

MATH 120 Linear Algebra I
★3 (either term, 3-0-0). Vector and matrix algebra, determinants, linear systems of equations, vector spaces, eigenvalues and eigenvectors and applications. Prerequisite: Mathematics 30 or equivalent. Note: This course may not be taken for credit if credit has already been obtained in MATH 127, 200 or 243.

MATH 121 Linear Algebra II
★3 (either term, 3-0-0). Bases, linear transformations, change of bases, eigenvalues and eigenspaces, diagonalization, inner product, Gram Schmidt orthogonalizaton process, orthogonal diagonalization, quadratic form, applications. Prerequisite: MATH 120 or equivalent; Mathematics 31 or MATH 113 is also recommended. Note: This course may not be taken for credit if credit has already been obtained in MATH 227.

MATH 127 Honors Algebra I
★3 (first term, 3-0-0). Vectors, planes and lines, linear transformations and matrices; systems of linear equations, vector spaces and sub-spaces, dimensions; determinants. Note: This course is recommended for students with at least a 75per cent grade in Mathematics 30. Other students may be admitted with the consent of Department. Note: This course may not be taken for credit if credit has already been obtained in any of MATH 120, 200 or 243. Prerequisite: Mathematics 30 and 31 or equivalent.

MATH 128 Honors Algebra II
★3 (second term, 3-0-0). Relations, equivalence relations; groups, Lagrange's theorem; rings, fields, polynomials, finite fields. elementary error-detecting and error-correcting codes. Note: This course may not be taken for credit if credit has already been obtained in MATH 223. Prerequisite: MATH 127.

MATH 153 Mathematics of Finance I
★3 (either term, 3-0-0). Simple and compound interest, simple and general annuities certain; variable annuities and perpetuities, amortization schedules, sinking funds, applications. Prerequisite: Mathematics 30. Note: This course may not be taken for credit if credit has already been obtained in MATH 253.

MATH 154 Mathematics of Finance II
★3 (either term, 3-0-0). Capitalized cost, depletion, bonds, life annuities and life insurance, net premiums and reserves, applications. Prerequisite: MATH 153. Note: This course may not be taken for credit if credit has already been obtained in MATH 253.

MATH 160 Higher Arithmetic
★3 (either term, 3-0-0). Elementary Number Theory, Numeration Systems, Number Systems and Elementary Probability Theory. Prerequisite: MATH 30 or consent of Department. Note: This course is restricted to Elementary Education students.

MATH 214 Intermediate Calculus I
★3 (either term, 3-0-0). Infinite Series. Plane curves and polar coordinates. Vectors and three dimensional analytic geometry. Partial derivatives. This course may not be taken for credit if credit has already been obtained in MATH 209 or MATH 217. Prerequisite: MATH 115, or equivalent.

MATH 215 Intermediate Calculus II
★3 (either term, 3-0-0). First order and second order linear differential equations with constant coefficients. Curves, tangent vectors, arc length, integration in two and three dimensions, polar, cylindrical and spherical coordinates, line and surface integrals. Green's, divergence and Stoke's theorems. Note: This course may not be taken for credit if credit has already been obtained in MATH 209 or 217. Prerequisite: MATH 214.

MATH 217 Honors Advanced Calculus I
★3 (first term, 4-0-0). Axiomatic development of the real number system. Topology of R^n. Sequences, limits and continuity. Multiple integration. Differential calculus; the chain rule. Note: This course is required for second year Honor students in Mathematics and Physics. Other students admitted only with the consent of Department. This course may not be taken for credit if credit has already been obtained in either of MATH 209, 214. Prerequisite: MATH 118. Corequisite: MATH 127.

MATH 220 Linear Algebra III
★3 (either term, 3-0-0). Diagonalization and triangulization of matrices, Jordan canonical form, application to differential equations, spectral theorem, quadratic forms, orthogonal operators. Note: This course may not be taken for credit if credit has already been obtained in MATH 382. Prerequisite: MATH 121, or equivalent. A one term calculus prerequisite is recommended.

MATH 223 Introduction to Abstract Algebra
★3 (either term, 3-0-0). Properties of the integers, permutations, groups, Lagrange's theorem, factor groups, polynomials, rings, fields. Note: This course may not be taken for credit if credit has already been obtained in MATH 128. Prerequisite: Mathematics 30 and a previous University level Mathematics course.

MATH 227 Honors Linear Algebra I
★3 (first term, 3-0-0). General vector spaces and linear transformations, similarity, eigenvalues, characteristic and minimal polynomials, diagonalization, Euclidean linear product and Gram-Schmidt orthogonalization, orthogonal and unitary operators, orthogonal diagonalization, normal operators, spectral theory. Note: This course is intended for Honors programs. Other students admitted with the consent of Department. Prerequisite: MATH 127.

MATH 241 Geometry I
★3 (first term, 3-0-0). Sensed magnitudes. Cross rates. Transformation theory. Prerequisite: Any 100-level Mathematics course.

MATH 242 Geometry II
★3 (second term, 3-0-0). Transformation theory continued. Euclidean construction. Non-Euclidean geometry. Introductory projective geometry. Prerequisite: MATH 241.

MATH 253 Theory of Interest
★3 (first term, 3-0-0). Accumulation and amount functions. Effective, simple, compound rates. Force of interest. Discount. Annuities certain, simple and general. Perpetuities. Amortization schedules and sinking funds. Bonds and other securities. Applications — valuation of securities, installment loans, depreciation, depletion, capitalized cost. Prerequisite: MATH 115 or equivalent.

MATH 254 Annuities and Life Insurance I
★3 (second term, 3-0-0). Elements of probability and application to life contingencies. Force of mortality. Construction of the mortality table. Types of life annuities and life insurance. Commutation functions. Net premiums. Prerequisite: MATH 115, 253 and one Statistics course such as STAT 141 or 155 or 265 or MGTSC 301.

MATH 260 Topics in Mathematics
★3 (second term, 3-0-0). Problem solving in different areas of mathematics. Note: This course is intended for Elementary Education students and is not open to Science students. Prerequisite: MATH 160.

MATH 262 The Nature of Mathematics I
★3 (first term, 3-0-0). Topics from the history, methodology, achievements, and goals of mathematics with illustration from elementary geometry, topology, number theory, algebra, analysis, statistics, probability, and life sciences. Note: This course may not be taken for credit by science students (and is not an option in the Mathematics pattern). Prerequisite: Any 100-level Mathematics course.

MATH 263 The Nature of Mathematics II
★3 (second term, 3-0-0). A continuation of the topics of MATH 262. Prerequisite: MATH 262.

MATH 270 Introductory Mathematical Modelling I
★3 (first term, 3-0-0). This course is intended to show how mathematics can be used to analyze problems arising in various disciplines. Examples may be taken from such areas as the Natural, Social, and Life Sciences, Economics, Engineering, and Management Science. Their choice will be at the option of the instructor in consultation with the students. Only a modest mathematical background is required. The Department of Mathematics can supply details about the content of the course for the coming academic year. Note: Honors mathematics students may be expected to read and report on subject matter additional to that discussed in lectures. Prerequisite: MATH 115 or equivalent. Prerequisite or corequisite: MATH 120 or equivalent.

MATH 271 Introductory Mathematical Modelling II
★3 (second term, 3-0-0). This course is a continuation of MATH 270. Problems studied will be of a more advanced nature than those considered in part I. Prerequisite: MATH 270. Prerequisite or corequisite: MATH 215 or equivalent.

MATH 272 Elementary Mechanics
★6 (3-0-0). Newton's Laws. Plane statics. Systems of forces. Centre of mass. Friction. Principle of virtual work. Thin beams. Plane kinematics and dynamics of a particle. Projectile motion. Circular motion and simple harmonic motion. The conservation laws. Stability of equilibrium. Plane motion of a rigid body. Impulsive motion. Prerequisite: MATH 115 or equivalent. Corequisite: MATH 214, 215 or equivalent.

MATH 280 Numerical Methods I
★3 (second term, 3-0-1). Calculus of finite differences. Iterations. Methods of solving non-linear equations. Approximation of functions by Taylor series. Newton's Formulas, Lagrange and Hermite Interpolation. Splines. Elementary methods for numerical evaluations of integrals and direct methods for solving linear systems of equations. Prerequisite: MATH 214 or equivalent, MATH 120 or 243 or equivalent. Note: Credit cannot be obtained for both MATH 280 and any of CMPUT 319, 340 or 358.

MATH 311 Theory of Functions of a Complex Variable
★3 (either term, 3-0-0). Complex numbers. Complex series. Functions of a complex variable. Cauchy's theorem and contour integration. Conformal mappings. Schwartz-Christoffel transformation. Inverse Laplace transforms. Note: This course is intended for Engineering students. Prerequisite or corequisite: MATH 209 or 215.

MATH 314 Analysis I
★3 (first term, 3-0-0). Construction of real numbers. Heine-Borel and related theorems, uniform continuity, series of functions, uniform convergence, Riemann integral, integration of series; metric, topological, Banach and Hilbert spaces, bounded linear operators. Prerequisite: MATH 209 or MATH 215 or equivalent.

MATH 317 Honors Advanced Calculus II
★3 (second term, 4-0-0). Differential calculus, Taylor's formula, maxima and minima. Transformations of multiple integrals. Line integrals theorems of Green, Gauss and Stokes. Sequences and Series. Uniform convergence. Improper integrals. This course may not be taken for credit if credit has already been obtained in MATH 215. Prerequisite: MATH 217.

MATH 323 Applied Algebra I
★3 (first term, 3-0-0). Boolean Algebra, switching circuits, graph theory, matrix representations; applications to economics, communication networks and social science. Prerequisite: Any 200-level Mathematics course and a single-term course in linear algebra.

MATH 324 Elementary Number Theory
★3 (first term, 3-0-0). Divisibility, prime numbers, congruences, quadratic residues, quadratic reciprocity, arithmetic functions and diophantine equations; sums of squares. Prerequisite: MATH 120, 223 (or 127, 128 and a 200-level Mathematics course).

ATH 334 Introduction to Differential Equations
3 (first term, 3-0-0). First and second order equations. aplace transforms. Power series solutions. Introduction special functions. Sturm-Liouville type equations. alculus of variation. Note: This course may not be ken for credit if credit has already been obtained in ny of MATH 201, 205, 336 or 401. Prerequisite: MATH 5 or 317 and MATH 120 or 127.

ATH 336 Honors Differential Equations
3 (second term, 3-0-0). First order equations, second der equations. Systems of first order equations with onstant coefficients, matrix differential equations, fun- amental solutions, stability. Series solutions with a ief introduction to separation of variables, application boundary value problems of mathematical physics. ementary special functions. Elementary transform chniques. Prerequisite: MATH 118, MATH 217 or ATH 214, MATH 227 or MATH 121. Note: This course annot be taken for credit if credit has already been otained in any of MATH 201, 205, 334 or 401.

ATH 340 Topics in Geometry
3 (first term, 3-0-0). A selection from constructability eries, dissection theory, projective geometry, non-Euclidian eometry, finite geometrics, homogeneous coordinates, undations of geometry, topology of two-manifolds. rerequisite: MATH 241 or equivalent.

ATH 343 Cartesian Tensors and Applications
3 (first term, 3-0-0). Euclidean vector spaces. Linear ansformations and matrices. Algebra of cartesian ten- rs. Vector and tensor calculus. Determinants. Struc- re of second-order tensors. Isotropic tensors. Physical pplications. Prerequisite or corequisite: MATH 402 or quivalent.

ATH 347 Set Theory
3 (first term, 3-0-0). Axioms for set theory, transfinite duction, cardinal and ordinal numbers, applications. rimarily intended for third and fourth year students with good background in mathematics. Prerequisite: Any 00-level Mathematics course.

ATH 348 Geometry
5 (3-0-0). Euclidean geometry, conformal plane, real ojective plane, elliptic plane, Poincare's model of perbolic plane, complex projective plane and alge- aic curves. Corequisite: MATH 227.

ATH 354 Annuities and Life Insurance II
3 (first term, 3-0-0). Net and gross premiums. Re- rves, net level and modified. Options, surrender values. stribution of surplus. Group insurance. Pension plans. erequisite: MATH 254.

ATH 372 Intermediate Mathematical Modelling I
3 (first term, 3-0-0). This course is designed to develop e students' problem solving abilities along heuristic es and to illustrate the processes of Applied Math- natics. Students will be encouraged to recognize and rmulate problems in mathematical terms, solve the sulting mathematical problems, and interpret the solution real world terms. Typical problems considered include pics from population dynamics, mathematical ecology, athematical economics, nonlinear programming, opti- zation problems, diffusion models. Prerequisite: MATH 0 and 215 or equivalent.

ATH 373 Mathematical Programming and ptimization
3 (either term, 3-0-0). Maximizing and minimizing nctions of several variables under constraints. Linear ogramming. The simplex method, and variants. Com- tational techniques. Nonlinear programming and ap- cations. Prerequisite or corequisite: MATH 127 or 0/121; MATH 215 or 217.

ATH 376 Mechanics
3 (3-0-0). Foundations. Statics and the principle of tual work. Kinematics. Plane motion of a particle and rigid body. Conservation laws. Harmonic oscillator. otion in a central field. Impulsive motion. Note: This urse is primarily intended for Honors students in athematics. Other students admitted only with the nsent of Department. Prerequisite: PHYS 141 and 3. Prerequisite or corequisite: MATH 317.

ATH 380 Numerical Methods II
3 (first term, 3-0-1). Orthogonal polynomials and least uares approximations of functions. Iterative techniques solving linear systems and calculation of eigenvalues d eigenvectors. Solution of non-linear systems, New- n's Methods and Steepest Descent Techniques, Nu- rical solution of initial value problems, Runge Kutta thods. Numerical solution of boundary value problems ordinary differential equations and partial differential uations. Prerequisite: MATH 280. MATH 334 and an roductory course in Computing Science recommended.

ATH 411 Honors Complex Variable I
3 (first term, 3-0-0). Complex number system. Analytic nctions. Single- and multi-valued functions, Cauchy's orem and formula. Applications including the maxi- m modulus principle, Taylor's theorem and Laurent pansion. Harmonic functions. Dirichlet problem for the disk. Series of analytic functions. Calculus of residues. Idea of Analytic Continuation. Note: This course is primarily for Honors students in Mathematics or Physics. Offered in alternate years. It may be offered in intervening years if demand is sufficient. Prerequisite: MATH 314 or 317.

MATH 412 Honors Complex Variable II
★3 (second term, 3-0-0). Conformal mapping. The Schwarz-Christoffel transformation and Dirichlet problem in polygonal domains. Analytic continuation. Mapping properties of analytic functions. Rouche's Theorem. Entire functions. The gamma function. Additional topics to be chosen from the following: Families of analytic functions, asymptotics and special functions. The zeta function and the prime number theorem. Picard's Theorem. Nevanlinna Theory, Hp spaces. Laplace and Mellin transforms. It may be offered in intervening years if demand is sufficient. Prerequisite: MATH 411.

MATH 414 Analysis II
★3 (second term, 3-0-0). Measurable sets, Lebesgue integrals, linear spaces, and linear operators. Prerequisite: MATH 314.

MATH 417 Honors Real Variables I
★3 (first term, 3-0-0). Elements of set theory, cardinality, brief construction of real numbers. Lebesgue measure and Lebesgue integral on the line. Differentiability, Riemann-Stieltjes integral and functions of bounded variation. Prerequisite: MATH 317 or equivalent.

MATH 418 Honors Real Variables II
★3 (second term, 3-0-0). Differentiation and integration. Elementary metric space theory. Banach space. Hilbert space. Baire Category. L^p spaces. Trigonometric series. Prerequisite: MATH 417.

MATH 421 Introduction to Combinatorics
★3 (second term, 3-0-0). An introduction to the methods and applications of discrete mathematics with topics to include: Enumeration; permutations and combinations, recurrence relations, generating series, the inclusion-exclusion principle. Graph theory; connectivity, matching, chromatic number, planar graphs, paths and cycles. Combinatorial designs; finite geometries, block designs. Applications. Prerequisite: MATH 128 (or 223) and a 300-level Mathematics course.

MATH 423 Applied Algebra II
★3 (second term, 3-0-0). Elements of group theory, cosets, Lagrange's theorem, binary group codes, polynomials, finite field theory, error correcting codes. Prerequisite: MATH 223 or 128, a linear algebra course and a 300-level Mathematics course.

MATH 425 Elementary Field Theory
★3 (second term, 3-0-0). Fields, Field extensions, ruler and compass constructions, the Galois group, topics from Galois theory, and algebraic number theory. Prerequisite: MATH 128 (or 223) and a 300-level Mathematics course.

MATH 426 Honors Abstract Algebra I
★3 (first term, 3-0-0). Groups, subgroups and normal subgroups, factor groups, homomorphisms, Sylow's theorems. Rings, ideals, quotient rings, homomorphisms, polynomial rings. Prerequisite: MATH 128 and a 300-level Mathematics course.

MATH 427 Honors Abstract Algebra II
★3 (second term, 3-0-0). Modules over a principal ideal domain, finitely generated abelian groups, canonical forms of matrices, fields of characteristic 0, Galois theory. Prerequisite: MATH 227 and MATH 426.

MATH 432 Intermediate Differential Equations
★3 (second term, 3-0-0). Elementary existence and uniqueness theorems. Stability. Perturbation theory. Introduction to numerical methods. Introduction to phase plane analysis. Prerequisite: MATH 334 or 336. Prerequisite or Corequisite: MATH 215 or 317.

MATH 436 Introduction to Partial Differential Equations
★3 (first term, 3-0-0). Introduction to partial differential equations. Cauchy-Kowalewski's theorem, classification of second order linear equations. Elliptic equations (Laplacian and Schrodinger — fundamental solutions, maximal principles, growth estimates). Hyperbolic equations (wave equation characteristics, singularities, Duhamel's principle, Riemann's methods, method of descent). Parabolic equations (heat equation; maximal principles, parametrics). Concept of well-posed problem in the sense of Hadamard. Introduction to numerical methods. Von Neumann criterion. Prerequisites: MATH 334 or 336.

MATH 437 Boundary Value Problems
★3 (second term, 3-0-0). Boundary value problems of classical Math Physics, orthogonal expansions, classical special functions. Advanced transform techniques. Note: This course may not be taken for credit if credit has already been obtained in either MATH 300 or 402. Prerequisites: MATH 334 or 336.

MATH 438 Introduction to Partial Differential Equations II
★3 (second term, 3-0-0). Introduction to transforms; Fourier, Hankel, Laplace; asymptotic approximation of Fourier integrals; applications to discontinous solutions of the wave equation, point sources, fundamental solutions, Green's Functions, with an introduction to generalized functions. Eigenfunction expansions and applications. Difference equations. Prerequisite: MATH 436.

MATH 446 Tensor Analysis
★3 (first term, 3-0-0). Algebra of tensors, covariant differentiation in flat space, affine geometry, Riemannian geometry, Lie differentiation, subspaces, differential forms. Prerequisite: MATH 227 and 317.

MATH 447 Elementary Topology
★3 (second term, 3-0-0). Set Theory, metric spaces and general topology. Compactness, connectedness. Urysohn's Lemma and Tietze's Theorem. Baire Category Theorem. The Tychonoff Theorem. Homotopy and covering spaces. Primarily intended for third and fourth year students with a good background in Mathematics. Prerequisite: MATH 347 (or 217 and any 300-level Mathematics course). Offered in alternate years. It may be offered in intervening years if demand is sufficient.

MATH 448 Elementary Differential Geometry I
★3 (first term, 3-0-0). Local and global geometry of curves in 3-space; surfaces in 3-space: quadrics, surfaces of revolution, ruled surfaces, minimal surfaces, Gaussian curvature, theorema egregium, geodesics, complete surfaces, Gauss-Bonnet Theorem. Prerequisite: MATH 121 or 227, 217 and a 300-level Mathematics course. Offered in alternate years. It may be offered in intervening years if demand is sufficient.

MATH 449 Elementary Differential Geometry II
★3 (second term, 3-0-0). Manifolds, differentiable structure, differential systems, Frobenius theorem, linear connections, Riemannian manifolds, Lie groups, applications in Mathematics and Physics. Prerequisite: MATH 446 or 448 or consent of Department.

MATH 470 An Introduction to Chaotic Dynamical Systems
★3 (second term, 3-0-0). Examples of dynamical systems. Hyperbolicity. Maps of the interval. The example of the quadratic map. Symbolic dynamics and conjugacy. Chaos. Structural stability. Sarkovskii's theorem. The Schwarzian derivation. Bifurcations. Circle maps. Homoclinic points and period-doubling. As time permits, elements of higher dimensional and complex dynamics. Prerequisite: MATH 314 or 317 and MATH 121 or 127 (or the equivalent).

MATH 472 Intermediate Mathematical Modelling II
★3 (second term, 3-0-0). This course is a continuation of MATH 372. Problems discussed will be of a more advanced nature requiring a higher degree of mathematical sophistication. Prerequisite: MATH 372.

MATH 486 Numerical Analysis I
★3 (first term, 3-0-0). Recursive formulas. Propagation of errors, error analysis. Approximation of functions, least squares and orthogonal polynomials. Direct iterative solutions of linear systems. Eigenvalues and eigenvectors. Nonlinear equations. Prerequisite: MATH 227, MATH 317 and an introductory course in Computing Science.

MATH 487 Numerical Analysis II
★3 (second term, 3-0-0). Finite differences. Numerical differentiation and integration. Initial-value problems in ordinary differential equations, stiff problems. Boundary and eigenvalue problems for ordinary differential equations. Prerequisite: MATH 336 and MATH 486.

MATH 496 Honors Seminar
★3 (second term, 3-0-0). This course is intended to give students experience with independent reading, and to improve their ability to present and explain mathematical ideas. The course is compulsory for all fourth year Honors students in BSc and BA Mathematics and BSc Applied Mathematics. Prerequisite: MATH 317.

MATH 497 Reading in Mathematics
★3 (either term, 3-0-0). This course is designed to give credit to mature and able students for reading in areas not covered by courses, under the supervision of a staff member. A student, or group of students, wishing to use this course should find a staff member willing to supervise the proposed reading program. A detailed description of the material to be covered should be submitted to the Chair of the Department Honors Committee. (This should include a description of testing methods to be used.) The program will require the approval of both the Honors Committee, and the Chair of the Department. The students' mastery of the material of the course will be tested by a written or oral examination. This course may be taken in either term and may be taken any number of times, subject always to the approval mentioned above. Prerequisite: Any 300-level Mathematics course.

Note: For courses offered jointly by the Physics and Mathematics Departments, see §194.19 above.

Note: For graduate courses refer to §204.46.5 of

this Calendar.

194.21 Meteorology

Department of Geography

The following table list renumbered courses effective 1990-91:

Old	New	Old	New
METEO 320	METEO 220	METEO 515	METEO 415
METEO 330	METEO 230	METEO 525	METEO 425
METEO 430	METEO 330	METEO 530	METEO 430
METEO 431	METEO 331	METEO 531	METEO 431
METEO 432	METEO 332	METEO 532	METEO 432
METEO 506	METEO 406	METEO 534	METEO 434

METEO 220 Meteorological Instrumentation
★3 (either term, 3-0-2). Theory and practice in the use of common meteorological instruments and in the interpretation of basic weather and climatological data with emphasis on applications in agriculture, forestry, biological and environmental sciences. Measurement problem definition, sampling, sensitivity, response, accuracy, data logging, station networks. Laboratory and outdoor demonstrations and exercises. Field trips required. Prerequisite: GEOG 131 or equivalent.

METEO 230 Introduction to Meteorology
★3 (first term, 3-0-0). A systematic study of weather elements and atmospheric processes, with emphasis on the underlying physical principles. Atmospheric composition, temperature, humidity, wind stability, cloud forms, precipitation processes, fronts and air masses, and an introduction to the practical work in weather observing and elementary weather map analysis. Note: A student may receive credit for only one of METEO 230, METEO 307, or GEOG 333. Prerequisite: GEOG 131 or 100-level Mathematics or Physics course.

METEO 330 Atmospheric Physics I
★3 (first term, 3-0-0). Principles of thermodynamics, thermodynamics of dry and moist air, thermodynamic diagrams, hydrostatic stability, convection, principles of radiation, solar and terrestrial radiation. Prerequisite or corequisite: METEO 230, and MATH 215.

METEO 331 Introduction to Atmospheric Dynamics
★3 (second term, 3-0-0). Kinematics of the atmosphere, equations of motion and their simplification, pressure change, atmospheric interfaces, circulation and vorticity, pressure coordinates, introduction to turbulence. Prerequisite or corequisite: METEO 230 and MATH 215.

METEO 332 Synoptic Meteorology I
★3 (second term, 3-0-3). An introduction to synoptic analysis. Meteorological codes, sea-level map analysis of isobars, air-masses and fronts, stability, constant pressure chart contour and isotherm analysis, thickness charts and thermal winds. Prerequisite: METEO 230.

METEO 406 Reading and Seminar Course in Meteorology
★3 (either term, 3-0-0). Prerequisite: A 300-level Meteorology course.

METEO 415 Meteorological Statistics
★3 (second term, 3-0-0). Application of statistics to meteorology. Fourier analysis, factor analyses, multiple discriminant analysis and curve fitting by regression. Variance spectrum analysis of time series. Prerequisite: A 300-level Meteorology course.

METEO 425 Atmospheric Turbulence and Diffusion
★3 (second term, 3-0-0). Viscosity. Navier-Stokes Equations. Dimensional analysis. Averaging. The Reynolds stress equations. The Boussinesq approximation. The planetary boundary layer. The equilibrium atmospheric surface layer. Evaporation. Advection. Disturbed-surface-layer flows. Canopy flows. Plume rise. Atmospheric diffusion. Numerical simulation of atmospheric flow and mass diffusion. Prerequisite: A 300-level Meteorology course.

METEO 430 Atmospheric Physics
★3 (second term, 3-0-0). Condensation of water vapor in the atmosphere, condensation nuclei, growth of droplets from the vapor, statistical growth of drops by collection, ice nuclei, ice formation, snow crystals, growth of hail, numerical modelling of cumulus clouds and precipitation, artificial modification of clouds, weather radar. Prerequisite: METEO 330.

METEO 432 Synoptic Meteorology II
★3 (first term, 3-0-0). Structure of the atmosphere. The structure and behavior of weather systems. Planetary scale motion systems. Jet streams. Vertical motion. Condensation phenomena. Meso-scale phenomena. Prerequisite: METEO 331, 332.

METEO 433 Applied Meteorology
★3 (second term, 3-0-0). Weather forecasting techniques, student map discussions, visits to weather offices. Guest lectures. Prerequisite: METEO 432.

METEO 434 Atmospheric Modelling
★3 (second term, 3-0-3). Complementary to METEO 433. Advanced synoptic analysis and an introduction to computer methods. Numerical weather prediction, quantitative precipitation forecasting, and interpretation of prognostic charts. Prerequisite: METEO 431 or 432.

METEO 531 Geophysical Fluid Dynamics
★3 (first term, 3-0-0). Planetary fluid dynamics emphasizing waves in the atmosphere. Principles of numerical weather prediction. Prerequisite: METEO 331.

For graduate courses see §204.52.5 of this Calendar.

194.22 Microbiology

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
MICRB 201	MICRB 101	MICRB 432	MICRB 332
MICRB 293	MICRB 193	MICRB 490	MICRB 390
MICRB 324	MICRB 224	MICRB 501	MICRB 498
MICRB 365	MICRB 265	MICRB 506	MICRB 406
MICRB 403	MICRB 303	MICRB 510	MICRB 410
MICRB 411	MICRB 311	MICRB 511	MICRB 499
MICRB 413	MICRB 313	MICRB 515	MICRB 415
MICRB 424	MICRB 324	MICRB 544	MICRB 450

MICRB 101 Elementary Microbiology
★3 (second term, 3-0-3). An introduction to the microbial world, with emphasis on the general characteristics of microorganisms as affecting their relationship with man and other organisms. Note: Offered to students in Agriculture and Forestry. Not available to students in Science.

MICRB 193 Introductory Microbiology
★3 (either term, 3-0-4/2). This course provides an introduction to the biology and practical significance of bacteria, viruses and fungi. It describes the structure, nutrition and physiology of microorganisms in a variety of natural and controlled environments. The beneficial and harmful roles of microorganisms in the ecosphere, infectious diseases, industrial processes and biotechnology will be discussed. The laboratory presents a combination of exercises and demonstrations designed to give the student experience in the handling and examination of microorganisms. Prerequisites: Biology 30 and Chemistry 30.

MICRB 224 Basic Virology
★3 (first term, 3-0-0). An introduction to the structure, replication and taxonomy of bacteriophages, plant, insect and animal viruses. Their role in disease and methods of control and detection also will be discussed. Prerequisites or corequisites: BIOL 201 or MICRB 193. Credit may be obtained in only one of MICRB 224 and MMID 224. (See Calendar §124.10.1).

MICRB 265 General Microbiology
★3 (second term, 3-0-4). The course covers aspects of bacterial physiology such as nutrient uptake, metabolism, extracellular proteins, chemotaxis and differentiation. The eukaryotic microbes, their ecological roles and eukaryotic cell culture will be discussed. The interactions of microbes with the environment and symbiotic relationships are major topics. Basic principles of industrial microbiology and the use of biotechnology for the production of economically and medically important substances will be covered. Laboratory exercises deal with topics related to the lecture material. Prerequisites: MICRB 193 and GENET 197. Corequisite: BIOCH 301.

MICRB 303 Microbial Taxonomy
★3 (first term, 3-0-0). The history, principles, and methods of microbial classification and nomenclature. Prerequisites: MICRB 193, 265.

MICRB 311 Microbial Physiology
★3 (first term, 3-0-0). The structure, growth, and metabolic pathways used by bacteria, yeasts, and molds. Emphasis is placed on the comparative biochemical aspects of microbial life. Prerequisites: MICRB 193, 265, BIOCH 301.

MICRB 313 Microbial Physiology Laboratory
★3 (first term, 0-6L-0). Laboratory exercises introduce the microanalytical techniques used for measuring microbial growth and for following metabolic events at the cellular and subcellular level. Prerequisite or corequisite: MICRB 311.

MICRB 324 Animal Virology
★3 (second term, 3-0-3). The characterization, classification, and replication of animal viruses, together with experimental approaches to the use of various tissue culture systems in virology. Prerequisite: MICRB 224. Prerequisite or corequisite: BIOCH 301.

MICRB 332 Microbial Metabolism
★3 (second term, 3-0-0). Comparative aspects of the metabolic pathways used by anaerobes and autotrophic microorganisms for growth on unique energy sources. Ecological implications of such pathways also will be discussed. Prerequisite: MICRB 311.

MICRB 390 Environmental Microbiology
★3 (first term, 3-0-4). Interrelationships between microorganisms and their living and abiotic environment. Topics include methods of sampling and monitoring microbial activities, petroleum microbiology, eukaryotic tissue as an ecological habitat, microbial adaptation to extreme environments, survivial of airborne microorganisms, microbial response to pollution. Prerequisite: MICRB 265.

MICRB 406 Topics in Cell Biotechnology
★3 (0-2s-0). This course is designed to develop familiarity with current research literature in Cell Biotechnology. Note: Restricted to Honors Cell Biotechnology students.

INT D 407 Intermediary Metabolism
★3 (first term, 3-0-0). A detailed description of enzymatic reactions in biosynthetic pathways of carbohydrate, amino acid, vitamin and coenzyme metabolism, emphasizing interrelationships among microbial and animal cells. Offered in alternate years. Prerequisites: BIOCH 301 and MICRB 311. [Microbiology]

MICRB 410 Structure of Microorganisms
★3 (second term, 3-0-0). Cellular structure of bacteria and lower eukaryotes with particular emphasis on the use of antibiotics as tools for investigating cell structure. Prerequisite: MICRB 311.

MICRB 414 Molecular Biology of Bacterial Viruses
★3 (first term, 3-0-3). The structure and replication of viruses. Prerequisite: MICRB 193; BIOCH 301 and MICRB 224.

MICRB 415 Biosynthesis of Microbial Metabolites
★3 (second term, 3-0-0). Microbial production of organic acids, antibiotics, vitamins, enzymes, and steroids. Emphasis will be placed on control and regulation of metabolic pathways involved in the formation of these microbial products. Prerequisite: MICRB 311.

MICRB 444 Microbial Laboratory Techniques
★6 (second term, 2-0-8). Current techniques used in the growth of procaryotic cells and the isolation and characterization of their macromolecular constituents e.g. enzymes, DNA and ribosomes. Prerequisite: MICRB 313.

MICRB 450 Fermentation Biotechnology
★6 (1-0-6). This course will describe the use of microbes and recombinant DNA constructs in fermentation technology. Course material will also include theoretical aspects of kinetics, design, scale-up and downstream processing. The selection, modification and optimization of the proper organism, medium and fermentation facility and economic considerations will be discussed. Prerequisites: MICRB 311, 313.

MICRB 495 Special Projects
★6 (0-0-6). Directed laboratory studies under supervision of staff members. Prerequisite: MICRB 313. Note: Primarily for senior specialization students.

MICRB 496 Special Projects
★9 (0-0-9). Directed laboratory studies under supervision of staff members. Prerequisite: MICRB 313. Note: Primarily for senior specialization students.

MICRB 497 Special Projects
★12 (0-0-12). Directed laboratory studies under supervision of staff members. Prerequisite: MICRB 313. Note: Primarily for senior specialization students.

MICRB 498 Research Project
★6 (0-0-6). Directed research carried out in the laboratory of an assigned member of the Microbiology Department. The project would normally continue through both the first and second terms of the Winter Session, and would culminate in a written report. Open only to Honors students in the Cell Biotechnology program. Students in the Honors in Cell Biotechnology program take either GENET 401 or MICRB 498. Prerequisite: MICRB 313.

MICRB 499 Honors Projects
★12 (0-0-12). Directed laboratory study under supervision of a staff member, submission of a written research report and participation in departmental seminar program is required. Restricted to Honors Microbiology students in their senior year. Prerequisite: MICRB 313.

For graduate courses in Microbiology refer to §204.53.5 of this Calendar. Not all graduate courses are offered every year. .

194.22.1 Microbiology

Immunology Listings

MICRB 370 Basic Immunology
★3 (first term, 3-0-4). Introduction to immunologic concepts; nature of antibodies; antibody antigen reactions; cell-mediated immunological interactions. The genetic basis of immunological specificity and the regulation of the immune response, including self/non-self recognition will be introduced in the context of the

nodern cellular and molecular models which have been lemonstrated. Some of the biological consequences of he immune system, both beneficial and harmful, will be ntroduced. Prerequisites: GENET 197, BIOCH 301 and ne of BIOL 201 or a 200-level Microbiology course. Not normally open to second-year students.

MICRB 401 Immunology
★3 (second term, 3-0-0). Molecular aspects of immunology. Qualitative and quantitative reactions, properties and structures of antibodies and antigens. Prerequisites: MICRB 193, 370 (or equivalent) and a university course n Biochemistry. Offered in alternate years.

MICRB 405 Immunology Laboratory
★3 (second term, 0-0-3). Laboratory exercises to demonstrate quantitation of the immune response and the solation and characterization of antigens. Offered as Special Project to a very restricted number of students. Approval of instructor required. Corequisite or Prerequisite: MICRB 401.

Note: For other immunology courses not listed above, see GENET 371 (Immunogenetics), IMMUN 500 (§124.8 n the Faculty of Medicine section of this Calendar).

Note: Credit may be given in appropriate cases for courses in microbiology other than those listed above, e.g. FD SC 461, 462; SOILS 430; MMID 361, 425, 426, 504, 505, 506, 508-12, 530, 531. These courses, however, will not count as Science courses for a major or minor.

194.23 Paleontology

Departments of Geology and Zoology

The following table lists renumbered courses effective 1990-91:

Old	New
PALEO 418	PALEO 318
PALEO 419	PALEO 319
PALEO 514	PALEO 414

Note: Certain courses will normally be offered in alternate years when indicated by the symbol "†". If sufficient demand exists, however, exceptions may be made and courses offered in off-cycle years. Students should contact the Department office.

PALEO 318 Paleontology of the Lower Vertebrates
★3 (first term, 3-0-3). Evolution of fish-like vertebrates, amphibians, reptiles and birds, with emphasis on systematics, major adaptive shifts and subsequent evolutionary radiation. Prerequisite: GEOL 201 or ZOOL 225 or ZOOL 200.

PALEO 319 Paleontology of the Higher Vertebrates
★3 (second term, 3-0-3). The Mesozoic history of mammals as illustrative of the origin and evolution of a higher taxon; adaptive radiation of Tertiary mammals, with special emphasis on insectivores, primates, carnivores, proboscidians, and ungulates. Prerequisite: GEOL 210 or ZOOL 225 or ZOOL 200.

PALEO 414 Advanced Paleontology
★3 (second term, 3-0-0). Contemporary aspects of theoretical Paleontology, including: functional morphology, adaptation and evolution in invertebrate and vertebrate fossils; and distribution of fossils as evidence for continental drift. Prerequisite: GEOL 314 or ZOOL 252/253 or consent of the instructors.

Note: For graduate courses in paleontology see §204.59 of this Calendar.

Note: §§194.24 and 194.25 reserved.

194.26 Pharmacology

Department of Pharmacology, Faculty of Medicine

Pharmacology courses are listed in the Faculty of Medicine calendar. See §124.18.

194.27 Physics

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
PHYS 205	PHYS 105	PHYS 405	PHYS 309
PHYS 206	PHYS 106	PHYS 407	PHYS 307
PHYS 241	PHYS 141	PHYS 419	PHYS 319
PHYS 243	PHYS 143	PHYS 461	PHYS 362
PHYS 269	PHYS 169	PHYS 471	PHYS 372
PHYS 303	PHYS 200	PHYS 482	PHYS 382
PHYS 304	PHYS 202	PHYS 495	PHYS 395
PHYS 305	PHYS 204	PHYS 497	PHYS 397
PHYS 306	PHYS 208	PHYS 511	PHYS 411
PHYS 311	PHYS 211	PHYS 513	PHYS 413
PHYS 337	PHYS 238	PHYS 515	PHYS 415
PHYS 343	PHYS 244	PHYS 517	PHYS 417
PHYS 351	PHYS 251	PHYS 545	PHYS 445
PHYS 361	PHYS 261	PHYS 561	PHYS 462
PHYS 363	PHYS 263	PHYS 563	PHYS 463
PHYS 369	PHYS 171	PHYS 565	PHYS 465
PHYS 371	PHYS 271	PHYS 571	PHYS 472
PHYS 385	PHYS 285	PHYS 573	PHYS 473
PHYS 390	PHYS 290	PHYS 575	PHYS 475
PHYS 394	PHYS 294	PHYS 577	PHYS 477
PHYS 401	PHYS 301	PHYS 591	PHYS 491
PHYS 403	PHYS 302	PHYS 593	PHYS 493
		PHYS 599	PHYS 499

194.27.1 General Interest Courses

The following courses are intended for students registered in Arts, Education, Biological Sciences, Medical Sciences, and the BSc (General) program. These courses will stress the physical concepts rather than the mathematical sophistication. Also, please refer to §194.27.2.

Note 1: Credit may be obtained in only one of PHYS 105, 131, 141, or 203.

Note 2: Credit may be obtained in only one of PHYS 106, 137, or 143.

Note 3: Credit may be obtained in only one of PHYS 204, 238, or 285.

Note 4: Astronomy courses offered by the Department of Physics are listed in §194.3.

Note 5: Geophysics courses offered by the Department of Physics are listed in §194.14.

PHYS 105 Introductory General Physics I (Mechanics)
★3 (first term, 3-0-3). Vectors, forces in equilibrium, linear and rotational motion, dynamics of particles, oscillations. Prerequisite: Physics 30, Mathematics 30. Credit may be obtained for only one of PHYS 105, 131, 141, or 203.

PHYS 106 Introductory General Physics II
★3 (second term, 3-0-3). Fluids, Kinetic theory, heat and thermodynamics, electric charge, electric field, electric potential, electric currents, DC circuits. Prerequisite: PHYS 105 or 203. Students with credit in PHYS 207 and/or PHYS 209 may not take PHYS 106. Credit may be obtained in only one of PHYS 106, 137 or 143.

PHYS 169 The Physics of Music and High-Fidelity
★3 (second term, 3-0-0). Waves and sound, complex waves and musical instruments, the nature of music, decibels, loudspeakers, electricity and amplifiers, heat production, electromagnetism and cartridges, records and tape decks. Note: Credit may be obtained in only one of PHYS 169 or 171. This course is not available for credit to students registered in the Faculty of Science.

PHYS 171 Physical Aspects of Music and High-Fidelity
★3 (second term, 3-0-3). A lecture and lab course designed to illustrate the concepts of waves, sound, electricity and magnetism as applied to musical instruments, amplifiers, tuners, records and tape decks. Note: Credit may be obtained in only one of PHYS 169 or 171. This course is not available for credit to students registered in the Faculty of Science.

PHYS 200 Relativistic Aspects of Modern Physics
★3 (second term, 3-0-0). Topics included are limitations of classical physics; Einstein's special theory; length contraction; time dilation; twin paradox; equivalence of mass and energy; relativistic mass and momentum. The General Theory of Relativity including deflection of light, black holes, models of the universe and curvature of space. Prerequisite: First year physics course(s) (two-term). Corequisite: MATH 115. Credit may be obtained in only one of PHYS 200 or 251.

PHYS 202 Revolutions in Physics
★6 (3-0-0). Discussion of the way scientists were forced to change their concepts that caused the major revolutions in physics and the accompanying reverberations in the non-scientific world. Illustrations from celestial motion, Newtonian synthesis, theory of relativity, the probabilistic nature of quantum mechanics. Prerequisite: First year physics course(s) (two-term).

PHYS 204 Introductory General Physics III (Waves, Sound, Electromagnetism and Optics)
★3 (first term, 3-0-3). Wave motion, sound, magnetism. Electromagnetic induction and Faraday's Law. AC circuits. Electromagnetic waves. Geometrical optics. Physical optics. Optical instruments. Prerequisite: PHYS 106. Prerequisite or corequisite: MATH 115. This course is part of a sequence with PHYS 105 and PHYS 106 for General program students. Students with credit in PHYS 207 and 209 may not take PHYS 204.

PHYS 208 Quantum Aspects of Modern Physics
★3 (second term, 3-0-0). Experimental evidence leading to the development of quantum mechanics including the photo-electric effect, the Compton effect, X-ray production and electron diffraction. A discussion of the Heisenberg uncertainty principle and the Schrodinger theory of quantum mechanics including applications of one dimensional potential wells and barriers, tunnelling, the simple harmonic oscillator. Prerequisite: PHYS 204. Credit may be obtained in only one of PHYS 208 or 271.

PHYS 261 Physics of the Energy Question
★3 (first term, 3-0-0). Energy in its various forms. Conservation of Energy Principle Nuclear reactors and their safety. Nuclear fission. Energy conservation. Heat engines, refrigerators and their efficiencies. Exponential growth and resource depletion curves. Stored energy sources. Renewable energy sources. Solar energy and its technology. Prerequisites: First year Physics course(s) (two-term) and MATH 113 or 114, plus one other first year Mathematical course.

PHYS 263 Applications of Physics to Environmental Problems
★3 (second term, 3-0-0). Thermal radiation and molecular absorption; the earth's thermal environment and the Greenhouse Effect. Water vapour and humidity. Atmospheric and adiabatic lapse rates; dispersal of air pollutants. Indoor air pollution. Stratospheric pollution; the ozone layer. Effects of nuclear explosions. Ionising radiation and its effects on man; the radon problem. Prerequisites: Six units of course weight in 100-level Physics and MATH 113 or 114, plus one other 100-level Mathematical course.

PHYS 294 General Physics Laboratory
★3 (0-0-3). Experiments in mechanics, atomic physics, electricity and magnetism. Prerequisite: PHYS 204. Not to be taken by Specialization and Honors students.

PHYS 301 Nuclear Physics and Elementary Particles
★3 (first term, 3-0-0). Topics include the properties and structure of the nucleus; radioactivity, carbon dating, tracer techniques; nuclear fission; fusion; nuclear reactors; elementary particles and particle accelerators. Prerequisite: PHYS 208. Corequisite: MATH 214.

PHYS 302 Atomic Molecular and Laser Physics
★3 (second term, 3-0-0). The Rutherford Model of the atom, the Balmer series in hydrogen, the Bohr model, the wave-mechanical model, electron spin, the Pauli exclusion principle and X-ray spectra. Molecular bonding, experimental and theoretical aspects of molecular strucure, vibrational and rotational spectra of simple molecules. Requirements for laser action, population inversion mechanisms, applications of lasers. Prerequisites: PHYS 208 and MATH 214.

PHYS 307 Solid State and Low Temperature Physics
★3 (second term, 3-0-0). Crystal structure, diffraction and binding. Free electron theory. Energy bands. Semiconductors, p-n junctions and the transistor. Production of low temperatures. Liquifiers. Cryostat design and cryogenics. Superconductivity. Superfluidity. Prerequisites: PHYS 208 and MATH 214.

PHYS 309 Statistical Physics with Biological Applications
★3 (first term, 3-0-0). Elements of probability theory with applications. Molecular motion and physical properties of gases. Random walk in one and three dimensions with application to diffusion and solute flow across boundaries. The diffusion equation. Particle conservation. Fick's Law. Porous membranes. Flow and diffusion of particles. Poisson statistics applied to physical and biological systems. Prerequisite: PHYS 204.

PHYS 319 Physical Principles of Electron Microscopy
★3 (second term, 3-0-0). Review of optics, wave motion and electrons in electric and magnetic fields. Magnetic and electrostatic electron lenses. Resolution and contrast in conventional electron microscopy for biological and crystalline specimens. Elements of electron diffraction, scanning electron microscopy and high resolution electron microscopy. Other topics may include electron energy loss spectroscopy and high voltage electron miscroscopy. Prerequisite: PHYS 204.

194.27.2 Specialization and Honors Courses

The following courses are primarily intended for students registered in various Specialization and Honors programs in the Faculty of Science. However, General students may take the following courses for which they have the prerequisite(s). They should consult a student adviser before registering. Detailed programs of study are listed in §193.1. Students are referred to §194.3 for Astronomy courses, to §194.27.1 for general interest

courses, and to §194.14 for Geophysics courses.

PHYS 141 Mechanics
★3 (first term, 3-0-3). Kinematics; particle dynamics; work and energy; linear momentum; rotational kinematics; rotational dynamics; equilibrium of rigid bodies. Prerequisites: Physics 30 and Mathematics 30. Corequisite: MATH 113, or 114, or 117. Credit may be obtained in only one of PHYS 105, 131, 141, or 203.

PHYS 143 Wave Motion and Electricity
★3 (second term, 3-0-3). Oscillations; wave motion; sound waves; electric charge; electric field; electric potential; Gauss's law; capacitance; electric currents; electromotive forces and D.C. circuits. Prerequisite: PHYS 141. Corequisite: MATH 115 or 118. Credit may be obtained in only one of PHYS 106, 137, 143, or 209.

PHYS 211 Heat, Thermodynamics and Kinetic Theory
★3 (second term, 3-0-0). Temperature, specific heats, phase changes. First and second laws of thermodynamics. Derivation and application of Maxwell's relations. Elementary kinetic theory. Prerequisites: PHYS 141/143. Prerequisites or corequisites: MATH 214/215 or 217/317.

PHYS 238 Electromagnetism and Optics
★3 (either term, 3-0-3/2). Magnetic field; Ampere's Law; Faraday's Law; inductance; magnetic properties of materials; geometrical optics; interference; diffraction. Prerequisite: PHYS 137 or 143.

PHYS 244 Mechanics
★3 (second term, 3-0-0). Particle dynamics; central forces; planetary motion; Rutherford scattering; potential theory; damped and forced oscillations; wave equation; vibrating strings and normal modes. Prerequisite: PHYS 143. Corequisite: MATH 215 or 317.

PHYS 251 Relativity
★3 (second term, 3-0-0). Postulates of Special and General relativity including acceleration, four-vectors, energy and momentum, relativistic connection between electric and magnetic fields, curved space, gravitation and black holes. Prerequisite: PHYS 137 or 143, MATH 115. Credit may be obtained in only one of PHYS 200 or 251.

PHYS 271 Introduction to Modern Physics
★3 (either term, 3-0-0). Thermal radiation and the quantum theory. Planck's radiation law; photoelectric and Compton effects; special relativity; Bohr's atomic theory; X-rays; wave-particle duality; the Stern-Gerlach experiment; the atomic nucleus; radioactive decay. Prerequisite: PHYS 137 or 143. Note: credit may be obtained in only one of PHYS 208 or 271.

PHYS 285 Electromagnetism and Optics
★3 (first term, 3-0-0). Magnetic field, Ampere's Law; Faraday's Law; inductance; magnetic properties of matter; alternating currents; electromagnetic oscillations; electromagnetic waves; interference; diffraction. Prerequisite: PHYS 143. Corequisite: MATH 214 or 217.

PHYS 290 Physics Laboratory A
★3 (0-0-3;0-0-6). Experiments in mechanics, atomic physics, electricity and magnetism. Prerequisite or corequisite: PHYS 244 or 285.

PHYS 362 Optics
★3 (first term, 3-0-0). Gaussian optics; optical instruments; matrix analysis of lens systems; aberrations; polarization; double- and multiple-beam interference; Fraunhofer and Fresnel diffraction; selected topics from contemporary optics. Prerequisite: PHYS 238 or 285.

PHYS 372 Quantum Mechanics A
★3 (second term, 3-0-0). Breakdown of classical mechanics. Schrodinger equation and elementary systems, one dimensional problems. Postulates and interpretation of quantum mechanics. Algebraic solution of Schrodinger equation for harmonic oscillator. Angular momentum and spin. Central force problems, the hydrogenic atom. Prerequisites: PHYS 271 or equivalent, PHYS 238 or 285. Corequisite: MATH 300 or 437.

PHYS 382 Electromagnetic Theory
★6 (3-0-0). Laplace's and Poisson's equations applied to simple cases. Maxwell equations and solutions under various boundary conditions, transmission lines, wave guides, and antennae. Theory of dielectrics and magnetic media. Introduction to plasma physics. Prerequisite: PHYS 238 or 285. Corequisite: MATH 300 or 334/437.

PHYS 395 Instrumentation and Electronics
★3 (first term, 3-0-3). Amplification, feedback and switching. Examples will be taken from analog and digital computer applications. Prerequisite: PHYS 238 or 285 and 290.

PHYS 397 Physics Laboratory
★3 (second term, 0-0-6). A continuation of PHYS 395 with experiments in optics, electricity and magnetism. This course is intended for students in the Honors and Specialization programs. Prerequisite: PHYS 395 or E E 470. Corequisite: PHYS 382.

PHYS 411 Statistical Physics I
★3 (first term, 3-0-0). Kinetic theory of gases, ideal gas, fundamental principles of statistical mechanics, Maxwell-Boltzmann distribution, Gibbs paradox, microcanonical ensemble, canonical ensemble, quantum statistics. Prerequisite: PHYS 211, 372; MATH 300 or 437.

PHYS 413 Statistical Physics II
★3 (second term, 3-0-0). Grand canonical ensemble, Bose condensation, Fermi gas, Debye theory of solids, black-body radiation, ortho- and para-hydrogen, approximation methods. Prerequisite: PHYS 411.

PHYS 415 Introduction to Condensed Matter Physics I
★3 (first term, 3-0-0). Lattice structure and binding. Lattice vibrations. Electrons in solids, band structure of metals, Fermi surface. Semi-conductors and junctions. Paramagnetism and diamagnetism. Introduction to lattice defects. Prerequisite: PHYS 372. Corequisite: PHYS 411.

PHYS 417 Introduction to Condensed Matter Physics II
★3 (second term, 3-0-0). Lattice imperfections, dislocations, crystal growth. First and second order phase transitions. Ferro- and antiferro-magnetism. Production of low temperatures. Super-conductivity and superfluidity. Dielectric and optical properties of solids. Ferro-electricity. Prerequisites: PHYS 411, 415.

PHYS 445 Theory of Classical Fields
★3 (second term, 3-0-0). Lagrangian and Hamiltonian formulations for continuous systems and fields; field equations; Schrodinger field; Scalar field, conservation laws. Prerequisites: PHYS 382 and MA PH 444.

PHYS 462 Atomic and Laser Spectroscopy
★3 (either term, 3-0-0). Radiative transitions; hydrogenic fine-structure; two-electron systems; external fields; width and shape of spectral lines; radiative transfer; population inversion mechanisms; applications of lasers in atomic physics. Prerequisite: PHYS 472.

PHYS 463 Physics of Stellar Atmospheres
★3 (either term, 3-0-0). Introduction to stellar spectra; theory of excitation and ionization; emission and absorption of radiation, continuous spectra; model stellar atmospheres; the Fraunhofer spectrum. Prerequisites: PHYS 271 and MATH 300 or MATH 437.

PHYS 465 Physics of Stellar Interiors
★3 (either term, 3-0-0). Stellar interiors and nuclear transformation; model stars; variable stars; stellar evolution. Prerequisite: PHYS 271, and MATH 300 or 437.

PHYS 472 Quantum Mechanics B
★3 (first term, 3-0-0). Review of the physical basis of quantum mechanics; matrix formulation; angular momemtum; perturbation theory; collision theory; the many-particle Schrodinger equation; identical particles; spin and statistics; atomic and molecular systems. Prerequisite: PHYS 372.

PHYS 473 Nuclear and Particle Physics
★3 (first term, 3-0-0). Electron scattering and the structure of nuclei and particles, symmetries and conservation laws, isospin in nuclear and particle physics; electromagnetic, weak and hadronic interactions; models of nuclear structure; nuclear reactions; quarks and hadron spectroscopy. Prerequisite: PHYS 372.

PHYS 475 Medical Radiation Physics - Fundamentals
★3 (either term, 3-0-0). Basic concepts of dosimetry; microscopic energy distribution in irradiated matter; production of X-rays; charged particle interactions; nuclear magnetic resonance; ionization cavity chambers. Prerequisite: PHYS 372.

PHYS 477 Medical Radiation Physics - Applications
★3 (either term, 3-0-0). The physics of diagnostic imaging with X-rays, isotopes, nuclear magnetic resonance. The physics of radiation therapy-applied dosimetry. Prerequisite: PHYS 475.

PHYS 491 Advanced Laboratory
★3 (first term, 0-0-6). Open-ended experiments in atomic, nuclear and solid state physics. Prerequisites: PHYS 382, 395.

PHYS 493 Instrumentation B
★3 (second term, 3-0-0). Topics in instrument design in several fields of experimental physics. Prerequisites: PHYS 382 and 395.

PHYS 499 Special Projects
★3 (second term, 0-0-6). Experimental or reading project under the direction of a staff member. This course is intended for both Honors Physics students and Honors Mathematical Physics students. Prerequisite: A 300-level Physics course and consent of Department.

For graduate courses in physics refer to §204.66.4 of this Calendar. For courses offered jointly by the Mathematics and Physics Departments see §194.19 above.

Note: §194.28 reserved.

194.29 Physiology

Department of Physiology, Faculty of Medicine

Physiology courses are listed in the Faculty of Medicine calendar. See §124.20.

194.30 Psychology

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
PSYCO 260	PSYCO 104	PSYCO 366	PSYCO 266
PSYCO 309	PSYCO 211	PSYCO 367	PSYCO 267
PSYCO 352	PSYCO 372	PSYCO 368	PSYCO 288
PSYCO 360	PSYCO 208	PSYCO 375	PSYCO 275
PSYCO 361	PSYCO 281	PSYCO 464	PSYCO 484
PSYCO 363	PSYCO 353	PSYCO 599	PSYCO 490

PSYCO 104 Basic Psychological Processes
★3 (either term, 3-0-1/4). Principles and development of perception, motivation, learning, and thinking and their relationship to the psychological functioning of the individual. The course is a prerequisite to most courses in the department and is normally followed by PSYCO 105.

PSYCO 208 General Experimental Psychology
★3 (either term, 3-0-3). A course designed for the Arts concentration covering the application of experimental methods to a wide variety of psychological problems. Prerequisite: PSYCO 104 and 211.

PSYCO 211 Statistical Methods for Psychological Research
★3 (either term, 3-0-1). Application of statistical methods to psychological problems; description of psychological data in terms of averages, measures of variability, and measures of relationships; problems of sampling theory and tests of statistical hypotheses. Prerequisite: Mathematics 30 and PSYCO 104. This course may not be taken for credit if credit has already been obtained in any of STAT 141, 155, 235, 236, 237, 255, 265, 266.

PSYCO 266 Perception
★3 (either term, 3-0-3). An introduction to the mechanisms of sensation and perception. Laboratory sessions provide experience, with experimental procedures and quantitative observation of phenomena discussed in class. Note: Students cannot receive credit for both PSYCO 266 and PSYCO 267. Prerequisite: PSYCO 104 and 211.

PSYCO 267 Perception
★3 (either term, 3-0-0). An introduction to theoretical and experimental issues associated with sensory and perceptual experience. Note: Students cannot receive credit for both PSYCO 266 and PSYCO 267. Prerequisite: PSYCO 104 and 211.

PSYCO 275 Brain and Behavior
★3 (either term, 3-0-0). An introduction to brain mechanisms involved in sensation, perception, movement, motivation, learning, and cognition, as studied in both humans and lower animals. Prerequisite: PSYCO 104 and Biology 30 or equivalent.

PSYCO 281 Principles of Behavior Change
★3 (either term, 3-0-0). An introduction to behavior change techniques. The course will examine the origin of such techniques in animal experimentation and learning theory, and an evaluation of their effectiveness when applied to specific problem populations. Prerequisite: PSYCO 104.

PSYCO 288 Principles of Learning
★3 (either term, 3-0-0). A survey of the field of learning including a consideration of classical conditioning, instrumental learning, and memory. Empirical issues arising from research on non-human animals will be emphasized. Prerequisite: PSYCO 104 and PSYCO 211.

PSYCO 306 Honors Seminar
★3 (first term, 3-0-0). Corequisite: A 200-level Psychology course and consent of Department. Note: Required of all students in their first year of Honors Psychology.

PSYCO 307 Honors Seminar
★3 (second term, 3-0-0). Prerequisite: PSYCO 306 and consent of Department. Note: Required of all students in their first year Honors Psychology.

PSYCO 353 Memory and Attention
★3 (either term, 3-0-0). An introduction to the study of mental processes in memory, attention, and cognition. Topics include visual information processing, attention, short- and long-term memory phenomena, learning, and language comprehension. Note: Formerly PSYCO 363. Not to be taken by students with credit in that course. Prerequisite: PSYCO 104 and 211.

PSYCO 372 Behavior in Relation to Genetics
r3 (either term, 3-0-0). An examination of the influence f genetic variations on behavioral differences in infra- uman and human populations. Prerequisite: PSYCO 04/105 and PSYCO 211 and GENET 197.

PSYCO 377 Human Neuropsychology
r3 (second term, 3-0-0). Changes in mood, motivation, erception, attention, memory and language as revealed y studies of structural alterations in the human brain. rerequisite: PSYCO 104 and a 200-level Psychology ourse. Note: Previously offered as PSYCO 477. Stu- ents cannot receive credit for PSYCO 377 if they eceived credit for PSYCO 477.

PSYCO 402 Recent Advances in Experimental sychology: Methods and Phenomena
r3 (either term, 3-0-2). Discussion and demonstration f the techniques and discoveries of selected fields ithin experimental psychology. The course will provide aboratory experience with the empirical findings of hese fields. Students are encouraged to check with the epartment regarding the topic for the current year. rerequisite: PSYCO 211, a 300-level Psychology course nd consent of Department.

PSYCO 403 Recent Advances in Experimental sychology: Models and Theories
r3 (either term, 3-0-0). Discussion of advanced con- epts and theories developed by selected fields within xperimental psychology. The course will examine the elation between theory and data in these fields. Students re encouraged to check with the Department regarding he topic for the current year. Prerequisite: PSCYO 211, 300-level Psychology course and consent of Department.

PSYCO 406 Honors Seminar
r3 (first term, 3-0-3). Prerequisite: PSYCO 307.

PSYCO 407 Honors Seminar
r3 (second term, 3-0-3). Prerequisite: PSYCO 406.

PSYCO 433 Test Theory
r3 (either term, 3-0-1). Principles of diagnosis and rediction, and the assessment of tests. Emphasis upon he concepts of "validity" and "reliability" with lesser reatment of multiple regression and factor analysis. abs will focus on applied examples. Prerequisite: PSYCO 11 and a 300-level Psychology course.

PSYCO 461 Methods of Behaviour and Learning
r3 (second term, 0-0-6). Laboratory methods used to tudy Pavlovian conditioning, instrumental conditioning nd decision processes. Prerequisite: PSYCO 288 and 300-level Psychology course.

PSYCO 462 Applications of Learning
r3 (first term, 3-0-0). An examination of the ways in which principles of conditioning and learning have been pplied to areas of human concern. Biomedical and ehavioral implications of learning principles will be xamined in terms of the empirical foundations of the rinciples, and the successes or problems encountered n applying the principles to the understanding or treat- ment of human behavior. Prerequisite: PSYCO 288 and 300-level Psychology course.

PSYCO 463 Psychology of Language
r3 (either term, 3-0-0). Covers theoretical and empirical ssues in language comprehension, production, and cquisition from a cognitive perspective. Topics include he representation of word structure and meaning, the reation of syntactic structures, and discourse-level henomena such as inferencing and the use of meta- hors. Prerequisite: PSYCO 353 or 358.

PSYCO 465 Human Aging: Cognitive Processes
r3 (first term, 3-0-0). A survey of the sensory, percep- ual, memory, and cognitive changes in normal aging. opics include the relationship of psychological, envi- onmental, social and health factors to cognitive processes. rerequisite: One of PSYCO 353, 358, 360, 366, or 367.

PSYCO 466 Advanced Perception
r3 (second term, 3-0-0). Covers the origin and current tatus of several major problem areas within the study of erception. Provides the historical background and nowledge of recent theoretical and experimental contri- utions required to understand current conceptual schemes nd disputes. Prerequisite: PSYCO 266 or PSYCO 267 nd a 300-level Psychology course.

PSYCO 468 Auditory Perception
r3 (either term, 3-0-0). Nature of basic auditory experi- nce. Includes topics of pitch perception, loudness and naskING, perception of complex sounds, auditory pat- ern perceptions, and localization of sound. Prerequisite: PSYCO 266 or PSYCO 267 and a 300-level Psychology ourse.

PSYCO 469 Theories of Learning
r3 (either term, 3-0-0). An examination of major theo- retical treatments of learning including those of Thorndike, Pavlov, Tolman, Hull and Skinner. Recent theoretical developments, such as information-processing and bio- logical theories will be considered. Prerequisite: PSYCO 288 and a 300-level Psychology course.

PSYCO 470 Advanced Topics in Physiological Psychology
★3 (either term, 3-0-0). Special topics related to staff interests. The course provides students with an in-depth view of current issues and research strategies regarding neural mechanisms of learning, motivation, sensation, or perception. Students are encouraged to check with the Department for the topic for the current year. Prerequisite: PSYCO 275 and a 300-level Psychology course.

NEURO 471 Neuroscience I: Cells, Membranes and Molecules
★3 (first term, 3-0-0). Lectures presented by the Faculty of Medicine and the Faculty of Science on excitable membranes, action potential mechanisms, conduction and synaptic mechanisms; factors modifying degeneration, regeneration, development and learning. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or ZOOL 242.

PSYCO 471 The Neurobiology of Learning and Memory
★3 (first term, 3-0-0). An advanced level course examining specific physiological accounts of reinforcement, learning and memory phenomena, and the relationship between physiological models and behavioral theory. The use of anima models for the study of memory dysfunction in humans will also be considered. Prerequisite: PSYCO 275 and a 300-level course in Psychology.

NEURO 472 Neuroscience II: Systems
★3 (second term, 3-0-0). Lectures presented by the Faculty of Science and the Faculty of Medicine on visual and somatosensory systems, motor control via reflexes and central pattern generators; homeostasis, control of feeding, drinking, temperature and reproduction; neurobehavioral aspects of attention, arousal, cognition, memory and cerebral asymmetry. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or equivalent.

PSYCO 475 Biological Bases of Behavior
★3 (first term, 0-0-6). Basic neuroanatomy and neuropsychology of sensory and motor systems. Prerequisite or corequisite: PSYCO 275 and a 300-level Psychology course.

PSYCO 476 Physiological Psychology
★3 (second term, 0-0-6). A laboratory course in experimental design and research in physiological psychology. Prerequisite: PSYCO 475.

PSYCO 484 The Learning, Memory and Control of Movement
★3 (first term, 3-0-3). A survey of the issues, experimentation and theories that surround the learning, memory, and control of human movement. Prerequisite: One of PSYCO 208, 267, 275, 288, or 353.

PSYCO 488 Behavior and Brain Chemistry
★3 (first term, 3-0-0). The influence of environmental and genetic factors on the relationship between chemistry of the brain and the behavior of humans and animals. Prerequisite: PSYCO 104,105, 275 and a 300-level Psychology course.

PSYCO 496 Individual Research I
★3 (first term, 3-0-3). A course designed to allow the senior undergraduate to pursue a research topic in more depth than the classroom structure permits. Prerequisite: A 300-level Psychology course and consent of Department.

PSYCO 497 Individual Research II
★3 (second term, 3-0-3). A course designed to allow the senior undergraduate to pursue a research topic in more depth than the classroom structure permits. Prerequisite: A 300-level Psychology course and consent of Department.

For graduate courses in psychology refer to §204.71.5 of this Calendar.

194.31 Statistics and Applied Probability

Note: See §192.4 regarding statistics courses offered by faculties other than Science.

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
STAT 241	STAT 141	STAT 355	STAT 255
STAT 255	STAT 155	STAT 365	STAT 265
STAT 321	STAT 221	STAT 366	STAT 266
STAT 322	STAT 222	STAT 419	STAT 319
STAT 335	STAT 235	STAT 441	STAT 341
STAT 336	STAT 236	STAT 461	STAT 361
STAT 337	STAT 237	STAT 477	STAT 377

STAT 141 Introduction to Statistics
★3 (either term, 3-0-0). Random variables and frequency distributions. Averages and variance. The binomial and normal distribution. Sampling distributions and elementary inference. X^2-test for contingency tables. Regression and correlation. Analysis of variance. Prerequisite: Mathematics 30 or consent of Department. This course may not be taken for credit if credit has already been obtained in any of STAT 155, 221, 235, 236, 237, 251, 255, 265 or PSYCO 211.

STAT 221 Applied Probability
★3 (first term, 3-0-2). Probability models; distribution of one and two random variables; moment generating functions; specific distributions; uniform, binomial, geometric, Poisson, exponential, normal, etc. Analysis of decision problems; decision conditions and criteria; information and utility in decision making. Various applications are considered with emphasis on the analysis of computer systems; simulation techniques are used and the algorithmic approach is used throughout the course. Pascal is used in laboratory periods. This course is restricted to Honors and Specialization students in Computing Science. Prerequisites: MATH 115 and MATH 120 or equivalents. Corequisite: MATH 214 or 217. Credit may not be obtained for both STAT 221 and STAT 265.

STAT 222 Applied Statistics
★3 (second term, 3-0-2). Sampling distributions; estimation; hypothesis testing; linear regression of two or more variables; simulation of samples; cost analyses; applications which are primarily of interest to computing scientists. This course is restricted to Honors and Specialization students in Computing Science. Prerequisite: STAT 221. Credit may not be obtained for both STAT 222 and STAT 366.

STAT 235 Introductory Statistics for Engineering
★3 (either term, 3-0-2). Descriptive data analysis. Calculus of Probability. Binomial, multinomial, poisson, normal, beta, exponential, gamma, hypergeometric, and weibull distributions. Sampling distributions. Estimation, testing hypotheses, goodness-of-fit tests, and one-way analysis of variance. Linear correlation and regression. Sampling. Quality control. Use of a microcomputer software package for statistical analyses in engineering applications. Prerequisites: ENCMP 100, MATH 101. Credit may not be obtained in STAT 235 if credit has already been obtained in STAT 265.

STAT 236 Introduction to Statistics
★3 (either term, 3-0-2). Frequency distributions, measures of central tendency and dispersion, sampling distributions, inference on means and proportions, analysis of variance, regression and correlation, contingency tables. Difficulties in applying these techniques will be illustrated by examples chosen subject to the students' backgrounds. Prerequisite: A 100-level Science course. This course may not be taken for credit if credit has already been obtained in any of STAT 141, 155, 235, 237, 255, 265 or PSYCO 211.

STAT 237 Biostatistics
★3 (either term, 3-0-1). Frequency distributions, measures of central tendency and dispersion, methods of sampling biological populations, sampling distributions, elementary inference on means and proportions, analysis of variance, regression and correlation, contingency tables. The concepts will be motivated by problems in the life sciences. Difficulties in actual applications will be stressed. Prerequisite: A 100-level Biological Sciences course. This course may not be taken for credit if credit has already been obtained in any of STAT 141, 155, 221, 236, 251, 255, 265 or Psyco 211.

STAT 251 Introduction to Applied Statistics I
★3 (either term, 3-0-2). Data collection and presentation, descriptive statistics. Probability distributions, sampling distributions and the central limit theorem. Point estimation and hypothesis testing. Correlation and regression analysis. Goodness of fit and contingency table. Prerequisite: MATH 115. This course may not be taken for credit if credit has already been obtained in any of STAT 141,155,221,236, 237,255,265 or PSYCO 211.

STAT 252 Introduction to Applied Statistics II
★3 (either term, 3-0-2). Methods in applied statistics including regression techniques, analysis of variance and covariance, and methods of data analysis. Applications are taken from the Social and Physical Sciences and Business. Prerequisite: STAT 141 or 251, or equivalent.

STAT 255 Introductory Statistics for Economics
★6 (3-0-3). Frequency distributions and graphs. Sample statistics. Basic probability. Probability distributions and the expectation operator. Sampling. Significance tests and sampling distributions. Contigency tables. Regression and correlation. Analysis of variance. Times series. Index numbers. Nonparametric inference. Prerequisite: MATH 113 or equivalent. This course may not be taken for credit if credit has already been obtained in any of STAT 141, 155, 221, 235, 236, 237, 251, 252, 265 or Psyco 211.

STAT 265 Elements of Probability Theory
★3 (second term, 3-0-0). Probability spaces; random variables, random vectors and probability distributions. Expectation, moments and conditional probability.

Prerequisite: MATH 115 or equivalent. Corequisite: MATH 214. Credit may not be obtained for both STAT 265 and STAT 221.

STAT 319 Intermediate Statistical Methods in Psychological Research
★3 (second term, 3-0-0). The application of probability theory to psychological problems. Correlation and regression techniques. Introduction to the analysis of variance and non-parametric techniques. Note: This course is open only to students concentrating in Psychology. Prerequisite: PSYCO 211 or STAT 251 or equivalent.

STAT 341 Applied Statistical Methods
★3 (either term, 3-0-2). Methods in applied statistics including regression techniques, analysis of variance and covariance, and methods of data analysis. Applications are taken from the Social and Physical Sciences and Commerce. Prerequisites: STAT 141or 251 or 237 or equivalent. Note: This course is not available to a student in the Honors or Specialization programs in Mathematics and/or Statistics.

STAT 361 Sampling Techniques
★3 (either term, 3-0-0). Simple random sampling from finite populations, stratified sampling, regression estimators, cluster sampling. Note: This course may only be offered in alternate years. Prerequisites: STAT 265 and one other Statistics course.

STAT 365 Applied Regression Analysis
★3 (either term, 3-0-0). Simple linear regression analysis, inference on regression parameters, residual analysis, prediction intervals, weighted least squares. Multiple regression analysis, inference about regression parameters, multicollinearity and its effects, indicator variables, selection of independent variables. Non-linear regression. Note: Data analysis will be done using SAS or SPSS-X or MINITAB computer packages. Prerequisite: A course in Linear Algebra and STAT 221 or 265 or equivalent. This course may not be taken for credit if credit has already been obtained in STAT 465.

STAT 366 Elements of Statistical Inference
★3 (first term, 3-0-0). Principles of parametric and nonparametric statistical inference. Hypotheses testing: one- two- and multi-sample problems; confidence intervals. Nonparametric inference. Prerequisite: STAT 265 and MATH 215. This course may not be taken for credit if credit has already been obtained in STAT 222 or 266.

STAT 368 Introduction to Design and Analysis of Experiments
★3 (either term, 3-0-0). Basic principles of experimental design, completely randomized design-one way ANOVA and ANCOVA, randomized block design, latin square design, Multiple comparisons. Nested designs. Factorial experiments. Note: Data analysis will be done using SAS or SPSS-X or MINITAB computer packages. Prerequisites: A course in Linear Algebra and STAT 265 or equivalent.

STAT 377 Non-Parametric Inference
★3 (either term, 3-0-0). Tests for randomness, goodness of fit, tests for location and scale, non-parametric estimators. Robust statistics. Introduction to computer packages for non-parametric statistics. Note: This course may be offered only in alternate years. Prerequisites: STAT 265 and one other statistics course.

STAT 466 Statistical Inference
★3 (second term, 3-0-0). Foundations of statistical inference. Point estimation, properties of estimates. Multivariate normal distribution. Testing statistical hypotheses, likelihood ratio test, Chi-square t- and F-test. Confidence intervals. Prerequisite: STAT 366 and 471.

STAT 471 Probability I
★3 (first term, 3-0-0). Probability spaces, algebra of events. Elements of combinatorial analysis. Conditional probability, stochastic independence. Special discrete and continuous distributions. Random variables, moments, transformations. Basic limit theorems. Prerequisites: STAT 265, MATH 214, 215, and a 300-level Statistics or Mathematics course.

STAT 472 Probability II
★3 (second term, 3-0-0). Sequences of Bernoulli trials, laws of large numbers, normal approximations. Generating functions, recurrent events, random walks. Introduction to Markov chains. Special topics. Prerequisite: STAT 471.

STAT 475 Applied Multivariate Analysis
★3 (either term, 3-0-0). The multivariate normal distribution, multivariate regression and regression and analysis of variance, classification, canonical correlation, principal components, factor analysis, introduction to multivariate computer packages. Prerequisites: Two single-term courses in linear algebra, and STAT 365.

STAT 479 Time Series Analysis
★3 (either term, 3-0-0). Stationary series, spectral analysis, models in time series: autoregressive, moving average, ARMA and ARIMA. Smoothing series, computational techniques and computer packages for time series. Note: This course may be offered only in alternate years. Prerequisites: STAT 265 and STAT 366.

For graduate courses in statistics refer to §204.81.4 of this Calendar.

194.32 Zoology

Note 1: See also courses listed under Biology, §194.5, Botany, §194.6, Marine Science §194.18 or Paleontology §194.23.

Note 2: Specified prerequisites for senior courses may be waived for advanced students; consult the Department.

Note 3: Where a course prerequisite is a Biological Sciences course, courses titled Biology, Botany, Entomology, Genetics, Microbiology, Paleontology, and Zoology may be used.

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
ZOOL 220	ZOOL 120	ZOOL 442	ZOOL 342
ZOOL 300	ZOOL 200	ZOOL 443	ZOOL 343
ZOOL 301	ZOOL 201	ZOOL 451	ZOOL 351
ZOOL 325	ZOOL 225	ZOOL 452	ZOOL 352
ZOOL 326	ZOOL 226	ZOOL 453	ZOOL 353
ZOOL 331	ZOOL 231	ZOOL 454	ZOOL 354
ZOOL 341	ZOOL 241	ZOOL 461	ZOOL 361
ZOOL 342	ZOOL 242	ZOOL 466	ZOOL 366
ZOOL 350	ZOOL 250	ZOOL 470	ZOOL 370
ZOOL 352	ZOOL 252	ZOOL 471	ZOOL 371
ZOOL 353	ZOOL 253	ZOOL 482	ZOOL 382
ZOOL 360	ZOOL 260	ZOOL 501	ZOOL 499
ZOOL 405	ZOOL 305	ZOOL 506	ZOOL 406
ZOOL 406	ZOOL 306	ZOOL 511	ZOOL 411
ZOOL 407	ZOOL 307	ZOOL 512	ZOOL 412
ZOOL 408	ZOOL 308	ZOOL 520	ZOOL 420
ZOOL 411	ZOOL 311	ZOOL 534	ZOOL 422

ZOOL 432	ZOOL 332	ZOOL 530	ZOOL 431
ZOOL 435	ZOOL 335	ZOOL 542	ZOOL 442
ZOOL 440	ZOOL 340	ZOOL 552	ZOOL 452
ZOOL 441	ZOOL 341	ZOOL 561	ZOOL 461
		ZOOL 571	ZOOL 471
		ZOOL 572	ZOOL 472

194.32.1 Junior Courses

ZOOL 120 Principles of Animal Biology
★3 (either term, 3-0-3). An introduction to the structure, function, and phylogeny of animals, with emphasis on regulation of metabolism, reproduction and development, and interactions among organisms. Prerequisite: Biology 30. May not be taken if credit has been obtained in both BIOL 296 and 299.

194.32.2 Senior Courses

Note: Not all senior courses are offered every year. Check with the Zoology office (CW312 Biological Sciences) for current offerings.

ZOOL 200 The Chordates
★6 (3-0-3). The comparative anatomy and phylogeny of the protochordates, fishes, amphibians, reptiles, birds, and mammals. Note: Restricted to Zoology Honors and Specialization students. Others by permission only, or take ZOOL 225/226. Prerequisite: ZOOL 120.

ZOOL 201 Natural History of the Vertebrates of Alberta
★3 (second term, 3-0-3). The identification, distribution, habitats, and life histories of the fishes, amphibians, reptiles, birds, and mammals of Alberta. Prerequisite: A 100-level Biological Sciences course.

ZOOL 225 Comparative Anatomy of the Vertebrates
★3 (first term, 3-0-3). Comparative anatomy of the vertebrates with special emphasis on the mammals. Prerequisite: ZOOL 120.

ZOOL 226 Biology of the Vertebrates
★3 (second term, 3-0-3). Topics in vertebrate biology, including zoogeography, population ecology, reproduction, and structural and behavioral adaptations. Prerequisite: ZOOL 225 strongly recommended, or consent of Department.

ZOOL 231 Principles of Ecology
★3 (first term, 3-0-3). The scientific study of interactions between organisms and their environment, at the organismal, population, community and ecosystem levels of organization. Designed to provide a comprehensive survey of general concepts that can stand alone or serve as preparation for advanced courses in ecology, in either the Departments of Botany or Zoology. Labs emphasize the collection, analysis, and interpretation of data from ecological experiments. Zoological material will be emphasized. Prerequisite: ZOOL 120 or BOT 199.

ZOOL 241 Vertebrate Physiology
★3 (first term, 3-0-0). Functional biology at the organ system level. A student may not register concurrently for ZOOL 241 and either ZOOL 242 or PHYSL 310. A student with credit in either ZOOL 242 or PHYSL 310 may not obtain credit in ZOOL 241. Prerequisite: ZOOL 120.

ZOOL 242 Principles of Animal Physiology
★6 (3-0-3). A survey of physiological systems with emphasis on their experimental study. Examples are chosen from vertebrates and invertebrates. Restricted to Zoology Honors and Specialization students. Others by permission only. Departmental approval required for students who have taken, or who wish to take ZOOL 241 or PHYSL 310 for credit. Prerequisite: ZOOL 120.

ZOOL 250 Survey of the Invertebrates
★3 (second term, 3-0-3). The functional anatomy and life cycles of the major invertebrate taxa are emphasized. Not designed for Zoology Honors students. Prerequisite: ZOOL 120.

ZOOL 252 The Invertebrates I
★3 (first term, 3-0-3). The lower invertebrate phyla and Deuterostomia. Note: Restricted to Zoology and Entomology Honors and Specialization students. Others by permission only, or take ZOOL 250. Prerequisite: ZOOL 120.

ZOOL 253 The Invertebrates II
★3 (second term, 3-0-3). The Protostomia. Prerequisite: ZOOL 252.

ZOOL 260 Man and Bioshpere
★3 (either term, 3-0-0). A consideration of man's place in the biosphere and of the biological bases of environmental problems including population, pollution, and consideration of renewable and aesthetic resources. Note: Credit may not be obtained for both BIOL 110 and ZOOL 260. Prerequisite: One full year of university-level Biology, preferably including BIOL 100 or equivalent.

ZOOL 305 Ichthyology
★3 (first term, 3-0-3). Prerequisite: ZOOL 200 or ZOOL 225.

ZOOL 306 Ornithology
★3 (first term, 3-0-3). Prerequisite: ZOOL 200 or 226.

ZOOL 307 Herpetology
★3 (second term, 3-0-3). Prerequisite: ZOOL 200 or 226.

ZOOL 308 Mammalogy
★3 (second term, 3-0-3). Prerequisite: ZOOL 200 or 226.

ZOOL 311 Analysis of Animal Development
★3 (first term, 3-0-3). This course introduces the experimental basis of our understanding of the development of organ systems such as the reproductive system, the brain and endocrine system, muscle, bone, etc. It deals with cell interactions and gene expression during tissue differentiation. Prerequisite: BIOL 202 and ZOOL 200 or equivalent.

ZOOL 321 Mechanisms of Evolution
★3 (first term, 3-0-0). Prerequisite: GENET 197, ZOOL 231.

ZOOL 331 Animal Population Ecology
★3 (second term, 3-0-3). A study of population growth, regulation and cycles; life histories; predation; competition; mutualism; population structure; habitat selection and foraging theory. Prerequisite: ZOOL 231 or equivalent. Offered in alternate years.

ZOOL 332 Animal Community Ecology
★3 (second term, 3-0-3). A study of niche theory: food webs; competition predation, disturbance and their effects on community diversity; diversity gradients; island biogeography; taxon cycles; convergence of community structure. Prerequisite: ZOOL 231 or equivalent. Offered in alternate years.

ZOOL 335 Principles of Zoological Systematics
★3 (second term, 3-0-0). An introduction to the principles, methods, and practical applications of zoological systematics, including classification, phylogeny, and zoogeography. Special emphasis is placed on the theories of and controversy surrounding the phenetic, cladistic, and synthetic schools of taxonomy. Prerequisite: A 200-level Biological Sciences course. Offered in alternate years.

ZOOL 340 Environmental Physiology
★3 (first term, 3-0-0). The influence of environmental variables on animal function. Prerequisite: ZOOL 241, or 242. Offered in alternate years.

ZOOL 341 Comparative Animal Physiology I
★3 (first term, 3-0-0). Water and solute metabolism,

rculation, respiration, energy metabolism and tem-erature regulation in major animal phyla. Prerequisite: OOL 241 or 242.

OOL 342 Comparative Animal Physiology II
3 (second term, 3-0-0). Excitation and conduction, ›ural and endocrine control and coordination in major ›imal phyla. Prerequisite: ZOOL 241 or 242. Offered in ›ternate years.

OOL 343 Comparative Endocrinology
3 (second term, 3-0-0). Endocrine systems and ac-ons of hormones in vertebrates and invertebrates. rerequisite: ZOOL 241 or 242. Offered in alternate ›ars.

OOL 351 Aquatic Invertebrates of Alberta
3 (first term, 3-0-3). Emphasis is on an identified ollection of invertebrates found in Alberta's lakes and reams. Lecture material pertains mainly to ecological atures of the various fresh water groups. Prerequisite: OOL 250 or 252/253.

OOL 352 Principles of Parasitism
3 (first term, 3-0-3). Host and parasite adaptations; lationships with other forms of symbiosis; effects on ost and parasite; parasitism and disease. Note: ZOOL 52 may be taken as a corequisite with consent of epartment. Prerequisite: ZOOL 231; ZOOL 250 or 52/253.

OOL 353 Protozoology
3 (first term, 0-1s-6). Individual laboratory projects and minars dealing with free living and parasitic protozoa. rerequisite: ZOOL 250 or 252/253. Offered in alternate ›ars.

OOL 354 Wildlife Disease
3 (second term, 3-0-3). Etiology, ecology and athogenesis of parasitic, viral, bacterial and non-infec-ous diseases of mammals, birds and fish. Prerequisite: N SC 350 or FOR 365 or MICRB 265 or 200-level ourse in Zoology. Offered in alternate years.

OOL 361 Marine Biology
3 (second term, 3-0-0). Marine environments; adapta-ons of animals to different marine habitats; exploitation nd conservation of the oceans. Prerequisite: ZOOL 250 r 252/253.

OOL 366 Boreal Ecology
3 (second term, 3-0-0). Terrestrial and aquatic ecosys-ems of the north, emphasizing special features of the nvironment and biotic responses. Prerequisite: ZOOL 31, or consent of Department. Note: See GEOG 65, 466.

OOL 370 Ethological Mechanisms
3 (first term, 3-0-3). Animal behavior from an ethologi-al perspective, with emphasis on the mechanisms nderlying a variety of behaviors. The material is intended o complement that of ZOOL 371. (Alternates with ZOOL 71.) Prerequisite or corequisite: ZOOL 241 or 242.

OOL 371 Behavioral Ecology and Sociobiology
3 (first term, 3-0-3). Animal behavior from an ecologi-al and evolutionary perspective, with emphasis on ocial behavior. The material is intended to complement hat of ZOOL 370. (Alternates with ZOOL 370). Prereq-isite: ZOOL 231.

OOL 382 Comparative Vertebrate Histology
3 (second term, 3-0-3). A comparative study of the tructure and function of vertebrate organ systems at he cellular and histological level. Prerequisite: ZOOL 00 or 225.

OOL 406 Current Problems in Ornithology
3 (second term, 3-0-0). Discussion of ecological, ehavioral, evolutionary, and physiological topics using irds as a focus. Emphasis will be on methodology and nterpretation of recent papers. Prerequisite: ZOOL 306.

OOL 411 Current Problems in Animal Development
3 (second term, 3-0-0). A series of topics in animal levelopment are reviewed and significant papers are iscussed. Prerequisite: ZOOL 311. Credit for this couse nay be obtained more than once. Offered in alternate ›ears.

OOL 412 Immunogenesis
3 (second term, 3-0-0). The phylogenesis and ontogenesis f the immune response. Prerequisite: MICRB 370 or 01 or GENET 371 or a 300-level Biological Sciences ourse. Offered in alternate years.

OOL 422 Molecular Evolutionary Biology
3 (second term, 3-0-3). Laboratory techniques and the pplication and interpretation of protein and DNA varia-ion in evolutionary biology: phylogeny reconstruction nd vicariance biogeography (with particular emphasis on roblems unique to molecular data), paternity analysis, irection and extent of hybridization, various aspects of opulation structure (e.g., inbreeding, population subdivi-ion). Prerequisite: BIOCH 301 and consent of Department. ENET 280 or ZOOL 321 strongly recommended.

OOL 423 Current Problems in Evolutionary Genetics
3 (first term, 3-0-0). Discussion of selected topics in ecological genetics emphasizing both methodology and interpretation. The course will focus on a detailed dis-cussion of a few topics, rather than on a general review, and will rely heavily upon readings from the primary literature. Prerequisite: ZOOL 231 or ZOOL 321 or GENET 280. Credit for this course may be obtained more than once.

ZOOL 429 Special Problems in Zoology
★3 (either term, 3-0-0). Registration will be contingent on the student's having made prior arrangements with a faculty member willing to teach the course. Credit for this course may be obtained more than once. Prerequi-site: A 300-level Biological Sciences course and consent of Department.

ZOOL 430 Experimental Zoology
★3 (second term, 3-0-3). Emphasis is on the design of experiments and analysis of data collected from field and laboratory studies in Zoology. Prerequisites: STAT 237 and a 300-level Biolodical Sciences course.

ZOOL 431 Individual Study
★3 (either term, 0-0-6). Registration will be contingent on the student's having made prior arrangements with a faculty member willing to supervise the program. Suc-cessful completion of this course requires an oral pres-entation on the research project to students registered in the course. Credit for this course may be obtained more than once. Prerequisites: A 300-level Biological Sciences course and consent of Department.

ZOOL 434 Field Course in Animal Ecology
★3 (first term, 0-0-6). The application of ecological principles to patterns observed in Alberta terrestrial and aquatic communities; includes day-long and weekend field trips, as well as laboratories focused on the analy-sis of ecological data. Prerequisites: ZOOL 331 or 332; STAT 237.

ZOOL 436 Theoretical Population Biology
★3 (second term, 3-0-3). The use of mathematical models to aid in the understanding of biological proc-esses will be illustrated using examples from behavior, ecology and evolution. Emphasis will be placed on the interrelationships between the observations from field and laboratory studies, and the structure and predictions of mathematical models. The labs will be used to illustrate and develop models of biological processes on the computer. Prerequisite: MATH 113, STAT 237, ZOOL 231, and a 300-level Biological Sciences course.

ZOOL 442 Current Problems in Neurobiology
★3 (second term, 3-0-0). Discussion of selected topics in invertebrate and vertebrate neurobiology. Prerequi-site: ZOOL 342 or consent of Department. Credit for this course may be obtained more than once.

ZOOL 444 Laboratory Experimental in Animal Physiology
★3 (either term, 0-0-6). Special projects in research laboratories. Prerequisite: ZOOL 340, 341, 342 or 343 and consent of Department.

ZOOL 452 Experimental Parasitology
★3 (second term, 0-1s-6). Experimental approaches to study host-parasite relationships including *in vitro* cultiva-tion of parasites, characterization of parasite antigens and molecular mechanisms of host defense. Requirements include a seminar and a research project. Prerequisites: ZOOL 352 and consent of Department.

ZOOL 461 Current Problems in Animal Ecology
★3 (second term, 3-0-0). Credit for this course may be obtained more than once. Prerequisite: ZOOL 231 and a 300-level Biological Sciences course.

ZOOL 464 Limnology
★3 (first term, 3-0-3). Discussion of physical and chemi-cal regimes in lakes, ecology of various aquatic organisms, calculation of hydraulic and chemical budgets, models used in lake management, and lake management prob-lems such as acid rain and eutrophication. Prerequisite: A 300-level Biological Sciences course and consent of Department.

ZOOL 467 Wildlife Conservation
★3 (first term, 3-0-3). Principles and concepts involved in the conservation and management of wild birds and mammals. Prerequisite: ZOOL 306 and 308, (or ZOOL 201), and consent of Department.

ZOOL 468 Problems in Wildlife Conservation
★3 (second term, 3-0-0). A seminar and reading course dealing with current problems in the conservation and management of wild birds and mammals. Prerequisite: ZOOL 467 and consent of Department.

ZOOL 471 Current Problems in Animal Behavior
★3 (second term, 3-0-0). Discussion of topics and problems most characteristic of invertebrate behavior (vertebrate behavior treated in ZOOL 371), such as kineses, taxes, complex orientation, species specific behavior, social phenomena and communication. Pre-requisite: ZOOL 370 or 371. Offered in alternate years.

NEURO 471 Neuroscience I: Cells, Membranes and Molecules
★3 (first term, 3-0-0). Lectures presented by the Faculty of Medicine and the Faculty of Science on excitable membranes, action potential mechanisms, conduction and synaptic mechanisms; factors modifying degeneration, regeneration, development and learning. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or ZOOL 242.

ZOOL 472 Current Problems in Behavioral Ecology
★3 (first term, 3-0-0). Discussion of behavioral problems with ecological implications. Prerequisite: ZOOL 370 or 371 or consent of Department.

NEURO 472 Neuroscience II: Systems
★3 (second term, 3-0-0). Lectures presented by the Faculty of Science and the Faculty of Medicine on visual and somatosensory systems, motor control via reflexes and central pattern generators; homeostasis, control of feeding, drinking, temperature and reproduction; neurobehavioral aspects of attention, arousal, cognition, memory and cerebral asymmetry. Prerequisite: PHYSL 310 or PSYCO 275 or ZOOL 241 or equivalent.

ZOOL 474 Projects in Animal Behavior
★3 (second term, 0-1s-4). Individual laboratory projects, and seminars dealing with the project topics, and other areas of behavioral research. Prerequisite: ZOOL 370 or 371.

194.32.3 Honors Courses

ZOOL 420 Seminar in Zoology
★0 (0-1s-0). Note: Strongly recommended for all fourth year Honors and first year graduate students. Prerequi-site: A 300-level Biological Sciences course.

ZOOL 495 Honors Research
★3 (either term, 0-0-6). A means whereby fourth-year students in the Honors program may elect to undertake an individual research project equivalent to three units of course weight term course. Registration in this course will be contingent upon a faculty member agreeing to supervise the project. Successful completion of this course requires an oral presentation on the research project to an examining committee of three staff members of the Department of Zoology. Prerequisite: A 300-level Biological Sciences course. Only open to Honors students.

ZOOL 498 Honors Colloquium
★0 (either term, 0-1s-0). A tutorial course dealing with selected topics in zoology, particularly as represented by the activities of the staff. Recommended for second or third year students. Prerequisite: A 300-level Biologi-cal Sciences course. Only open to Honors students.

ZOOL 499 Honors Research
★6 (0-0-6). A means whereby fourth-year students in the Honors program may elect to undertake an indi-vidual research project equivalent to six units of course weight. Registration in this course will be contingent upon a faculty member agreeing to supervise the project. Successful completion of this course requires an oral presentation on the research project to an examining committee of three staff members of the Department of Zoology. Prerequisite: A 300-level Biological Sciences course. Only open to Honors students.

For graduate courses in zoology refer to §204.83.5 of this Calendar.

Examinations:
Office of the Registrar,
Administration Building 492-5221

Fee Payments:
Office of the Comptroller,
3rd Floor, Administration Building 492-3389

Financial Assistance, Scholarships, and Awards:
Director of Student Awards,
252 Athabasca Hall 492-3495

Native Affairs:
Office of the Advisor on Native Affairs,
124 Athabasca Hall 492-5677

Applications, Programs, and Course Content:
The appropriate department

Student Affairs:
Office of the Dean of Student Services,
234 Athabasca Hall 492-2969

Transcripts:
Office of the Registrar,
Administration Building 492-3113

University Residence and Other Housing:
Director, Housing and Food Services,
44 Lister Hall 492-4281

*The above addresses should contain the suffix:
University of Alberta
Edmonton, Alberta, T6G 2E2.

Please note

(1) Students are responsible for the completeness and accuracy of their application and registration. Please read the Calendar carefully. If you are in doubt about the regulations pertaining to your graduate program, consult the appropriate University official.

(2) The University of Alberta Calendar will be made available to every graduate student at or before registration.

(3) Both the University Calendar and the Calendar of the Faculty of Graduate Studies and Research (also referred to as FGSR) set forth the intention of the University of Alberta at the time of publication with respect to all matters contained therein. **The University reserves the right at any time to deviate from what appears in the Calendar,** either in order to serve the best interests of the University, or because of circumstances or occurrences beyond the University's reasonable control. The University expressly denies responsibility or liability to any person or persons who may suffer loss or who may be otherwise adversely affected by such change.

(4) From September through April the office hours of the University are from 8:30 am to 12 noon and from 1:00 pm to 4:30 pm, Monday through Friday (except holidays). In May, June, July, and August the office hours are from 8:00 am to 4:00 pm, with lunch hour from either 11:30 am to 12:30 pm or 12:00 pm to 1:00 pm. The telephone number for general information is: (403) 492-3111.

(5) University deadlines are set out in the Academic Schedule. Please note that graduate student deadlines may differ from undergraduate student deadlines.

Responsibilities Related to Graduate Programs

(1) **The Student:** Graduate students are ultimately responsible for their own programs. They are expected to read the Calendar and any other relevant documents to become familiar with all regulations and deadlines relating to their programs. The students' fundamental responsibilities include ensuring that their registration is accurate and does not lapse, submitting appropriate forms to the department for signature and processing, and paying all fees required by the deadline dates set out in the Calendar.

(2) **The Supervisor and Supervisory Committee:** The supervisor is directly responsible for the supervision of the student's program. In this capacity, the supervisor assists the student in planning a program; assists in ensuring that the student is aware of all program requirements, degree regulations, and general regulations of the department and the FGSR; provides counsel on all aspects of the program; and stays informed of the student's research activities and progress. The supervisor is also charged with ensuring that students conduct their research in a manner that is as effective, safe, and productive as is possible. The supervisor must prepare a program of studies for the student; arrange for and attend all supervisory committee meetings and the candidate's examinations, ensuring that these are scheduled and held in accordance with FGSR regulations; and must review the thesis both in draft and in final form.

(3) **The Department*:** The department oversees the supervision of all graduate students enrolled in its programs and serves as the chief liaison with the FGSR. It is responsible for ensuring that the student receives proper supervision and that the regulations and requirements of the FGSR are met. The department is responsible for recommending and keeping the FGSR informed of any development in or changes relating to the student's program, including the appointment of the supervisor and supervisory committee members (where applicable) and changes to that membership, change of student status, course and program changes, scheduling of examination dates, etc. The department's Graduate Coordinator is the official representative of the department to its graduate students.

*Note: The term "Department" applies both to a Department and to a non-departmentalized faculty; as well as to an extra-departmental graduate program (PhD in Medical Sciences, MBA, MPM). The term "Department" also refers to the Chair, Graduate Coordinator, Director, or any other individuals officially designated responsible for graduate programs.

(4) **The Faculty of Graduate Studies and Research Office (FGSR):** The FGSR Office is responsible for the general administration of graduate programs, from the admission and registration of graduate students through to convocation. The office houses documentation related to application, admission, programs, course grades, examinations and theses. It is ultimately responsible for the admission of students; for the setting of minimum entrance requirements and minimum academic standing requirements, and for ensuring that these are met; for approving all changes to students' programs and the appointment of supervisors, supervisory committees and examining committees; and for submitting to the Council of the Faculty of Graduate Studies and Research .

(5) **Guidelines for Supervisors and Graduate Students**

a. Guidelines for Supervisors

The Supervisor, with the support of the home department, should:

1) provide an environment for the student that is conducive to research and in which the student can grow intellectually;
2) provide appropriate guidance to the student on the nature of research and the standard expected, and be accessible to give advice and constructive criticism; at the beginning of the supervisory relationship, the student should be made aware of the normal expectations held by the supervisor and the department;
3) with the student establish a realtistic timetable for completion of various phases of the program;
4) consider a graduate student as a "junior colleague in research;"
5) ensure that there are sufficient material and supervisory resources for each graduate student under supervision;
6) work with the student to establish the supervisory committee as soon as possible after the start of the program and ensure that it maintains contact and formally meets at least once a year with the student;
7) when going on leave or an extended period of absence, ensure that the student is adequately supervised by the provision of an acting supervisor (who should be a member of the supervisory committee);
8) ensure that the student is aware of his/her guidelines (as listed below) and, when necessary, assist the student in meeting these;
9) set up committee meetings and examinations after consultation and with full knowledge of the student.

b. Guidelines for Graduate Students

Graduate students should:

1) make themselves aware of the contents of the graduate portions of the Calendar and take responsibility for their own programs in that the Calendar sets out the requirements for the various programs;
2) maintain open communication with their supervisor and Graduate Coordinator concerning any problem either real or perceived;
3) inform the supervisor regularly about progress, and provide the supervisor with an annual report for distribution to the supervisory committee;
4) make research results accessible (beyond their appearance in a thesis) to an appropriate audience;
5) be aware of deadlines for possible scholarship applications, and to seek advice and assistance from the department in making applications, etc.

201.3 Introduction to the University of Alberta

201.3.1 Location

The University of Alberta is located in Edmonton, the capital city of the province of Alberta. Situated in the geographic centre of the province, Edmonton covers an area of 67,951 hectares (263 square miles). It is only a four-hour drive away from the spectacular Rocky Mountains, renowned for their majestic beauty and world-class skiing facilities. Banff and Jasper National Parks feature countless unspoiled wilderness areas ideal for downhill and cross-country skiing, hiking, camping, and fishing.

Located in the heart of "Sunny Alberta", the city of Edmonton has more sunshine than any other major city in Canada. The climate is suitable for a variety of outdoor activities all year round. Spring and autumn are sunny and mild. Summers are warm, with average daily temperatures of 22°C (72°F), although temperatures ranging from 3° - 5°C higher are frequent. Winter is characterized by clear blue skies and low humidity. Days are cold and crisp with average temperatures reaching a high of -10°C (14°F) in midwinter. The annual snowfall is 130 centimetres (51 inches).

A city with a cosmopolitan flavour, Edmonton has a wealth of different cultural and ethnic backgrounds which diversify and enrich its music, dining and entertainment. The city has many fine parks and recreation areas. Such amenities and attractions as numerous theatres, a symphony orchestra, an opera society, art galleries, museums, professional athletic teams, and a space sciences centre provide a variety of entertainment.

201.3.2 The Campus

The University of Alberta central campus is situated on the south bank of the North Saskatchewan River. Its location offers a scenic view of the Edmonton skyline and convenient access to the city centre.

Founded in 1908 with five faculty members, 45 students and one building, the University has seen dramatic growth over the past 80 years. Student enrollment now stands at close to 30,000 (with over 100 different countries represented in the student population), while faculty and support staff number more than 7,000. The central campus covers an area of 87 hectares (216 acres), with off-campus student housing, a bilingual campus, the Edmonton Research Station (or "University Farm"), and other facilities occupying an additional 572 hectares (1,414 acres) of city land. Outside Edmonton, the University of Alberta owns or leases a further 3,554 hectares (8,775 acres).

The University currently houses 18 faculties. It has affiliations with six colleges (two of which are on campus) and is associated with numerous organizations including the Alberta Research Council, the Northern Health Services Program, the Provincial Laboratory of Public Health, the University of Alberta Hospitals, and the Western Board of Music. In addition, the University supports more than 88 research centres and institutes.

201.3.3 General Information

Graduate work has been offered at the University of Alberta since its inception in 1908. The present organization of the Faculty of Graduate Studies and Research (FGSR), headed by a Dean, was adopted in 1957.

The Faculty of Graduate Studies and Research office is primarily responsible for the general administration of graduate programs. Officers of the Faculty, in conjunction with the Faculty Council, develop and implement appropriate regulations and operating procedures. In its administrative capacity, the FGSR is responsible for approving applications for admission and programs of study, for certifying the satisfactory completion of each student's program prior to graduation, and for maintaining the academic records of all students registered in the Faculty. The Faculty also coordinates in whole or in part some functions involving several faculties.

Two categories of graduate degree programs are offered at the University of Alberta—doctoral and master's. In addition, the Faculty offers postgraduate diploma programs designed to provide an opportunity for individuals to take a sequence of courses to increase their knowledge of a specialized area without needing to enrol in a degree program. The specific programs offered in each category are listed below.

Doctoral Degrees
Doctor of Education (EdD)
Doctor of Music (DMus)
Doctor of Philosophy (PhD)

Master's Degrees
Master of Agriculture (MAg)
Master of Arts (MA)
Master of Business Administration (MBA)
Master of Education (MEd)
Master of Engineering (MEng)
Master of Fine Arts (MFA)
Master of Health Services Administration (MHSA)
Master of Laws (LLM)
Master of Library and Information Studies (MLIS)
Master of Music (MMus)
Master of Nursing (MN)
Master of Pharmacy (MPharm)
Master of Public Management (MPM)
Master of Science (MSc)
Master of Visual Arts (MVA)

Postgraduate Diplomas
Postgraduate Diploma in Educational Administration
Postgraduate Diploma in Exploration Geology
Postgraduate Diploma in Health Services Administration
Postgraduate Diploma in Law
Postgraduate Diploma in Textile Conservation and Curatorship

General regulations, applicable to all graduate students, are set out in §202. Special regulations, applicable to those in a particular degree program, are set out in §203. Inquiries concerning general regulations should be directed to the Faculty of Graduate Studies and Research, 2-8 University Hall, University of Alberta, Edmonton, Alberta, T6G 2J9.

201.3.4 Information for Foreign Students

Foreign students (i.e., neither Canadian citizens nor permanent residents) studying in Canada require a **Student Authorization** from the Canada Employment and Immigration Commission. Some students will also require a visa. Student Authorizations and Visas must be obtained **before coming to Canada** — they cannot be issued here.

While it is not possible to obtain a Student Authorization until an official letter of acceptance from the Faculty of Graduate Studies and Research has been issued, students are advised to begin the procedures necessary to secure admission to Canada and to complete the documentation required by the Canada Employment and Immigration Commission as soon as possible after submitting an application for admission to the FGSR. Information on immigration regulations is available from Canadian embassies, high commissions and British consular offices. Immigration officials in these offices will be able to give advice and help.

The Faculty of Graduate Studies and Research *Application for Admission* form also contains information of interest to foreign applicants. On acceptance to the University of Alberta, a pamphlet entitled *Preparing for your Departure* is sent to students along with their official admission letter. The International Centre conducts orientation seminars and assists students after they arrive in Canada.

201.4 Fees

The University of Alberta's fees policies and procedures are discussed in §15.2. of the Calendar. Information related specifically to fees for graduate students is found in §15.2.2. Individuals seeking fees information should consult these sections.

201.5 Financial Assistance

Financial assistance is available to graduate students through various sources.

Graduate Awards (scholarships, fellowships, etc.) are available by competition to superior scholars under a variety of categories. See §224 for a full listing of awards available to graduate students at the University of Alberta.

Graduate Assistantships which involve teaching and/or research duties, are administered according to a central policy of the University of Alberta. They are awarded primarily on the basis of academic standing and ability to perform the required duties. Students who are interested in applying for an assistantship should consult the department in which they plan to pursue a program of studies. Most departments suggest that students apply by March 1 before the Winter Session (beginning in September) in which the applicant hopes to receive an assistantship. Full-time assistantships require the equivalent of 12 hours of work per week over the term of appointment. Part-time assistantships are given in some departments. The rate of remuneration for a full-time assistantship (1990/91 rates) is from $3,759 to $5,671 for a four-month term. More detailed information can be found in the publication *Regulations Governing Graduate Assistantships* available from the FGSR. Foreign students are reminded that they are not eligible for graduate assistantships unless they obtain both a Student Authorization and an Employment Authorization from Employment and Immigration Canada. These authorizations must be renewed as required and evidence of renewal must be sent immediately to the Payroll Division, Office of the Comptroller.

Research Grant Support may be available to certain students from research grants made to departments or staff members. The amount of support will vary with the nature of the research grant and the regulations of the granting agency.

Demonstrators and Markers are individuals who are hired on an hourly basis to carry out duties to assist a department's teaching program. They may be assigned duties similar to some of those performed by graduate assistants. Qualified graduate students should be first considered by departments for appointments as graduate assistants. Only those graduate students who are not awarded graduate assistantships in accordance with written University and department selection procedures should subsequently be considered for appointment as demonstrators and markers.

Assistance is available to some students in the form of **loans** through the Province of Alberta and through the Canada Student Loans Plan. To be eligible for a Canada Student Loan applicants must: (1) be Canadian citizens or have Permanent Resident (Landed Immigrant) status; (2) have lived in Canada for at least one year; and (3) state an intention to live in Canada after graduation. Further information concerning loans can be obtained from the Office of Student Awards.

General information on regulations governing assistantships, fellowships, and awards at the University of Alberta may be found in §228.2.

202 Regulations of the Faculty of Graduate Studies and Research

The general Faculty regulations outlined below apply to **all graduate students**. Faculty regulations specific to particular degree programs are found under the appropriate program heading in §204.

202.1 Application

The University of Alberta may at its discretion refuse admission to any applicant.

All documents submitted to the Faculty of Graduate Studies and Research must be in English and (where applicable) in the original language in which they were written. Documents submitted in support of an application become the property of the FGSR and will not subsequently be released or copied except to other University of Alberta offices.

Letters of recommendation are considered to be confidential. Students may be permitted to look at the contents of their files in the presence of the Dean, FGSR, but will not be permitted to see their letters of recommendation.

At the students' request documents in their file will be made accessible to certain university officials. The FGSR will release photocopies regarding a student's previous education where the information is needed for scholarship purposes for attendance at the University of Alberta.

202.1.1 Degree and Postgraduate Diploma Applicants

Application for admission to the Faculty of Graduate Studies and Research must be made directly to the chair of the department in which the student wishes to pursue a program of studies. Applicants must use the official FGSR "Application for Admission" form provided to them by the department.

Application Deadlines: Application deadlines are set by many departments. Applicants should consult the department for deadline dates. Students are encouraged to make contacts and enquiries well in advance of the admission deadline to maximize consideration for admission. Completed applications for admission and supporting documents from foreign students should reach departmental offices at least two months in advance of their deadline dates so that immigration authorizations can be obtained in time for arrival prior to the commencement of the term.

An applicant must arrange to have forwarded direct to the department concerned official or certified true transcripts or marksheets and degree certificates from all institutions attended other than the University of Alberta. The FGSR or the department may require the applicant to furnish an official description of the content of any or all courses listed on the transcripts. Letters of recommendation and other documents may also be required. Applicants should refer to the information attached to the "Application for Admission" forms and consult the department prior to applying. There is no application fee.

Application documents are compiled and reviewed by the department, which makes a recommendation to the Faculty of Graduate Studies and Research as to the student's admissibility according to departmental standards.

A final assessment is done and a decision regard admission is reached by the Faculty of Graduate Stud and Research.

Applicants are notified as soon as possible of FGSR's decision regarding their admission. Admiss to the Faculty of Graduate Studies and Research is v only for the session indicated. If circumstances prev a student from registering for that session the FG reserves the right to reconsider the application admission.

202.1.2 Special and Visiting Applicants

Application for admission as a special or visi graduate student must be made direct to the Faculty Graduate Studies and Research. Applicants must the official "Application for Admission" form provided them by the FGSR. Applications **must be received** in FGSR by the deadline dates indicated below. Applicatio received after the deadline dates cannot be considere

Winter Session:
First Term: August 1
Second Term: December 1
Intersession:
Spring Term: April 1
Summer Term: June 1

Prior to these dates an applicant must arrange have forwarded direct to the Faculty of Graduate Studi and Research official or certified true transcripts marksheets and degree certificates from all institutio attended other than the University of Alberta. The FGS may require the applicant to furnish an official descripti of the content of any or all courses listed on t transcripts. Letters of recommendation and other docume in support of the application for admission may also b required. Applicants should refer to the informati attached to the application forms for a list of addition documentation required. There is no application fee.

202.2 Admission

Individuals seeking admission should acquai themselves with the University of Alberta Code of Applica Behavior (§13.11 of the University Calendar).

The **minimum** requirements for admission to th Faculty of Graduate Studies and Research as a graduat student are outlined below. Some departments impos additional admission requirements. **Even though a applicant may appear to satisfy the general admissio requirements, acceptance into a graduate progra is not guaranteed.**

202.2.1 Academic Requirements

(1) Applicants to the Faculty of Graduate Studies an Research must have obtained a University of Alber baccalaureate degree or its academic equivale from this or another recognized academic institutio The grade point average obtained during the las 60 units of course weight of undergraduate (o graduate) study must be at least 6.5* on the 9-poi grading scale used at the University of Alberta or a equivalent standing from another recognized institutio (see below).

Equivalent Qualifications:
Grading systems differ widely in variou countries. Experience with these systems over th years indicates that to give reasonable assurance o success in a graduate program at the University o Alberta, applicants must have an academic backgroun at least equal to one of the equivalent qualification below:
Canadian Universities - GPA of 6.5 out of a possibl 9 on the University of Alberta marking system, or 3 (on most 4-point systems), or 72%, or a B (secon class) standing, or equivalent in the work of the las two full years of previous degrees.
Egypt - an Honors degree with a standing of at leas "Very Good" (80%).
India, Pakistan, and Bangladesh — First Class o First Division bachelor's degree. (Some departments require **both** a First Class bachelor's and a Firs Class master's degree.)
Japan - at least 2.3 out of 3 or 3.0 out of 4.
People's Republic of China - 80% or 4 out of 5.
Taiwan — an "A" average (usually 80% or better).
United Kingdom, Hong Kong, Australia, New Zealand and other Commonwealth countries whose university systems follow that of Great Britain — an Upper Second Class Honors degree.
United States of America — a "B" average (at least 3.0 on a 4-point scale or the equivalent in other systems)

Applicants for graduate studies must be recommended for admission to the FGSR by the chair (or designate) of the department to which they are applying, who indicates that the applicant is in all respects acceptable to the department. Special graduate students and visiting graduate students, not being candidates for a degree or postgraduate diploma, do not require departmental recommendation for admission.

otes: (1) Failing marks and re-examination marks included in the GPA calculation. (2) Individual partments may require a higher average. Consult appropriate departmental information in §204.

02.2.2 English Language Requirement

Since English is the primary language of instruction d communication at the University of Alberta, proficiency English is a prerequisite for graduate admission. erefore, all applicants who do not hold a baccalaureate gree or its academic equivalent from a recognized stitution in which the language of instruction is English a country where English is deemed to be the principal nguage MUST obtain a satisfactory score on an approved nglish language examination before they can be admitted. otwithstanding the above, departments and the FGSR serve the right to require a demonstration of English nguage proficiency.

The FGSR recognizes two English language caminations—the Test of English as a Foreign Language OEFL) and the Michigan English Language Assessment attery (MELAB).

All applicants who are required to write the English nguage examination are advised to do so at an early ate because a satisfactory score (at least 550 on OEFL, 85 on MELAB) is required **before the FGSR will sue an official admission approval letter**. Canadian mmigration authorities will not issue a Student Authorization ermitting entry into Canada until they have proof that ne student has received an official admission approval tter from the FGSR. Applicants should arrange for their nglish language test results to be sent direct to the epartment (or to the FGSR for special graduate applicants).

For further information on the English language xamination write to:

TOEFL Services
CN 6151
Princeton, New Jersey 08541-6151
U.S.A.

OR

The Director
Testing and Certification Division
English Language Institute
University of Michigan
Ann Arbor, Michigan 48104
U.S.A.

(Minimum acceptable TOEFL score: 550)
(Minimum acceptable Michigan score: 85)

The above are **minimum scores** acceptable for admission to the FGSR. Individual departments may equire higher scores. Consult the appropriate departmental nformation in §204.

202.2.3 University of Alberta Staff as Graduate Students

University of Alberta staff may be recommended and considered for admission to graduate programs provided FGSR has reviewed the case and established that conflict of interest between the candidate's role as staff member and as graduate student will be absent or minimal.

Guidelines are available from the FGSR. Any department wishing to recommend admission of a University staff member to a graduate program should first consult with the Dean, FGSR.

202.3 Registration

Students are responsible for the completeness and accuracy of their registration. They are also responsible for adjustments in registration.

All students in graduate degree programs **must register once a year** to keep their program active. This registration entitles students to the use of certain University facilities and to assistance from their supervisors for a 12-month period. Students in thesis degree programs must be registered in "THESIS" in their last registration prior to their convocation. Registration during the final year of the program permits the student to graduate at either of the two following convocations.

Students who fail to register at least once a year will be considered to have withdrawn from their program. If they wish to resume work on the program, they must apply for re-admission and have their program re-assessed in terms of the regulations in force at the time of re-application. There is no guarantee of re-admission. If a student is recommended for re-admission, a re-admission fee will be charged in addition to the fees assessed in the regular manner.

Students who are not Canadian citizens or permanent residents should register in the equivalent of at least nine units of course weight per term in order to be eligible for full-time registration status in both terms of the Winter Session (see §202.3.2); failure to do so may jeopardize the student's status with the Canada Employment and Immigration Commission.

202.3.1 Registration Status

A student's registration status is determined by the total units of course weight (including a directed research project or a thesis where appropriate) in which the student is registered in a given term. Assignment of the registration status is explained below.

Full-Time Registration: These students are registered in the equivalent of **nine units of course weight or more** per term and are working full time on their academic program in that term.

If the full-time student is geographically available to campus, visits it regularly, and makes regular use of the University's resources, then the time so spent may be applied toward the residence requirement for the degree (see §202.6).

Part-Time Registration: These students are registered in the equivalent of **less than nine units of course weight** per term. (Auditing courses does not affect the student's status.) This generally means that more than 12 hours per week of working time is devoted to matters other than the academic program. The period in which a student is registered as part-time cannot be applied toward the residence requirement of a degree program.

Project only: Students registered only in *PROJECT* are assigned part-time registration status.

Continuous Registration: These students are not registered in any courses in a given term and are not working on their thesis or project but wish to maintain their status as graduate students.

202.3.2 Registration Procedure

Newly admitted and continuing graduate students in degree programs register using the Telephone Registration System. Registration information and materials are provided by the department **after** students arrive in Edmonton. Special and Visiting graduate students are not permitted to register by telephone. These students must come to the Faculty of Graduate Studies and Research office to complete their registration.

In order to register at the University of Alberta, graduate students must:

(1) **Consult and Receive Counselling**
from their supervisor and department.

(2) **Register**

(3) **Confirm Registration**
by claiming their Class Timetable Notice.

The following is an elaboration of these three steps for registration.

Step 1. Consult and Receive Counselling

All graduate students in degree programs in the Faculty of Graduate Studies and Research must consult with their department and discuss their program with their supervisor prior to registering. Students should contact their supervisor or department to set an appointment.

Please Note: Supervisors may not always be available during the May through August period.

If coursework is necessary, supervisors will assist students in selecting the courses required for the graduate program. Students registering in thesis should discuss this with their department and supervisor.

There are two types of thesis registration, denoting full- and part-time status. The thesis registration selected will depend upon the amount of time during the term(s) that the student will devote to work on the thesis.

For **Full-time** Registration in Thesis:

THES 999	THE C1 (-C5)	Both terms
	THE A1	Term 1
	THE B1	Term 2

For **Part-time** Registration in Thesis:

THES 900	THE C1 (-C5)	Both terms
	THE A1	Term 1
	THE B1	Term 2

Therefore, to register **full-time** in a thesis program, for both terms of the Winter Session, students should register in THES 999 THE C1 (or if full-time for a single term, either THES 999 THE A1 or B1 as appropriate).

Research Project Registration for students in the course-based Masters route involves registering in the appropriate 900-level course. Consult the department course listings in the Calendar for the appropriate section.

** Students **should not register** prior to program counselling **

Step 2. Register

Once newly-admitted and continuing graduate students in degree programs have met with their supervisors and determined their program requirements, they pick up registration materials from their departments and register using the Telephone Registration System. Students are responsible for the completeness and accuracy of their registration.

The Telephone Registration System cannot be used for the following:

(1) **Audited Courses**: All graduate students (excluding Special graduate students) who are registered full-time or part-time may seek permission to audit a course. Special graduate students are **not permitted** to audit courses. Since permission to audit cannot officially be granted until the number of students registered for credit is known, students will not be allowed to register for audit until after classes close for registration for credit (after the sixth day of class in Winter Sesison).

To add a course for audit students must:

a. complete a "Change to Audit Status/Withdrawal" form available from the department or FGSR office;

b. have it signed by
   1) the instructor of the course and
   2) the Graduate Coordinator or Department Chair; and

c. submit the form to FGSR for approval and processing.

Students who wish to change their status in a course from credit to audit must first consult with their supervisor or program adviser. If permission is granted, a "Change to Audit Status/Withdrawal" form must be signed and submitted to the FGSR office as outlined in the preceding paragraph. Deadlines for submitting such a change are found in the Academic Schedule.

Audited courses will not be considered as meeting prerequisite, admission, or course requirements for any University of Alberta degree or diploma program. For further information on auditor status refer to §12.2.5 of the University Calendar.

(2) **Courses "Extra to Degree Program"**
To designate a course as Extra (+), students must:

a. complete an *Extra to Degree* form available from the FGSR;

b. have it signed by the Graduate Coordinator or Department Chair; and

c. submit the form to the FGSR for approval and processing.

(3) **Courses taken toward Doctoral program requirements**
Students who are **still** candidates for a Masters degree cannot use the Telephone Registration System to register in courses toward their Doctoral program requirements. (A reminder: such Doctoral level courses may be taken for **one Winter Session only** by Masters degree candidates.) Students must:

a. complete an *Extra to Degree* form available from the FGSR;

b. have it signed by the Graduate Coordinator or Department Chair; and

c. submit the form to the FGSR for approval and processing.

(4) **Registration in more than one degree program**
The Telephone Registration System can only be used to register in one degree program. Once one registration has been completed, any further attempt to register via the telephone will solicit a response that the previous registration must be cancelled before a second program registration will be permitted. Students who have been approved to register in more than one program (e.g., PGME students also completing a graduate program) must contact the FGSR office for assistance in registering in the Graduate Studies degree program.

(5) **Continuous Registration**
Students who do not wish to register in any courses per term and are not working on thesis or project research, but do wish to maintain their graduate student status must:

a. complete a manual registration form available from the FGSR. In the section *Courses You Wish to Take*, students should indicate *Continuous Registration* only;

b. have the form signed by the Graduate Coordinator or Department Chair; and

c. submit the form to FGSR for approval and processing.

(6) **Registration as an Extramural student, or late registration**
Students must contact the FGSR office.

Step 3. Confirm Registration
Please note that **all** students who register, including: Special and Visiting Graduate students; students registered in courses for credit and/or audit; and students registered in Thesis, research projects, or *Continuous Registration* only **must officially confirm** their registration by claiming the *Class Timetable Notice*. Students who fail to do so will have their registrations cancelled. The Class Timetable Notice includes a listing of the registration (courses and/or thesis, project, continuous registration), the I.D./Library card, and a fee assessment.

202.3.3 Re-Registration in Courses

(1) Students may not repeat any University course passed or courses for which they have received transfer credit except for reasons deemed sufficient, and verified in writing, by the dean of the faculty in which they are enroled.

(2) Students may not **re-register for credit or audit** more than once **in any failed University course, except for reasons deemed sufficient by the Dean (or designate) of the Faculty** in which they are enroled.

(3) Students may not **re-register for credit or audit** more than once **in any University course in which they have received a final grade of W, except for reasons deemed sufficient by the Dean (or designate) of the Faculty** in which they are enroled.

(4) In cases where a student contravenes regulations **1, 2 or 3 above**, the Dean (or designate) may withhold credit or indicate the course as extra to the degree on the course registration that contravenes the regulation.

(5) Students may repeat a first-term course in the second term if it is offered in the second term, as long as the student complies with regulations 1, 2 and 3 above.

(6) Withdrawals recorded on a student's record prior to September 1, 1988 would **not** be included in that re-registration count.

(7) Students are responsible for monitoring the number of times they have repeated a course.

202.3.4 Changes to Registration

If students wish to make changes to their registration in any of the following cases, they must first consult the department in which they are registered. Students should then make changes to their registration for all unrestricted courses through the Telephone Registration System during the period that it is available for a particular session or term. They can:

(1) drop courses

(2) add courses

(3) cancel their entire registration.

The Telephone Registration System is available for registration changes as follows:

WINTER SESSION
For first-term and full-session courses, the Telephone Registration System should be used until 1630 hours of the fifth day of classes in September. For second-term courses, the Telephone Registration System should be used until 1630 hours on the fifth day of classes in January.

INTERESSION
For first-term and full-session courses, the Telephone Registration System should be used until 1630 hours of the second day of the session. For second-term courses, the Telephone Registration System should be used until 1630 hours of the second day of the **Summer term of the session.**

After the close of telephone registration in a particular term or session, any changes to a graduate student's registration require the approval of the student's Department Chair or Graduate Coordinator and the FGSR. After the close of telephone registration, a "Change to Audit Status/Withdrawal" form must be used for the following registration changes:

(1) Withdrawal from courses

(2) Withdrawal from program

(3) Changes from credit to audit (see §202.3.3)

(4) Changes of course section.

Such changes of registration, once approved by the student's department, must be received by the FGSR no later than the deadline dates found in the Academic Schedule. **No credit will be given for any course** unless it is included in the student's registration.

Notes:

(1) Students who withdraw from any first-term or full-session course(s) in the Winter Session on or after September 14 will have the course(s) recorded on their transcript as a withdrawal (W). Similarly, students who withdraw from any second-term course(s) on or after January 10 will have the course(s) recorded on their transcript as a withdrawal (W).

(2) Students who withdraw from any Spring-term or full-session course(s) in the Intersession on or after the third day of the session will have the course(s) recorded on their transcript as a withdrawal (W). Similarly, students who withdraw from any Summer-term course(s) on or after the third day of the Summer term of the session will have the course(s) recorded on their transcript as a withdrawal (W).

(3) FGSR deadline dates may differ from undergraduate deadline dates (consult the Academic Schedule).

Change of Personal Information:
Personal information, such as name and address, is recorded at the time of initial application. It is the student's responsibility to inform the University of any change in this information by completing a *Change of Personal Information or Program Data* form, available from the FGSR or the Registrar's Office. Students should deposit the completed form at either of the two offices to ensure that the change is noted on all their records at the University of Alberta.

202.3.5 Cancellation of Registration

Students in the Faculty of Graduate Studies and Research who wish to withdraw from courses, from a session, or from their program should complete a *Change to Audit Status/Withdrawal* form. For students in degree or in diploma programs, this form must then be signed/authorized by their department and submitted to the FGSR for approval. Students who withdraw without completing such a form **are not eligible for any refund of fees**, nor for exemption from fees in the event that they have not been paid.

A fee adjustment is made, and refunds authorized, in accordance with the table published in §15.2 of the University Calendar. The date used for the purpose of calculating the refund is the date on which the withdrawal is approved by the Faculty of Graduate Studies and Research.

If after withdrawing from a graduate program students wish to apply again for admission, their application will be considered in the current competition for places with all other applicants. See also §§15.2.6 and 16.9.3.

202.4 Classification of Graduate Students

The classification of students is generally determined upon admission to a program on the basis of the student's previous academic background. Graduate students at the University of Alberta are classified as one of the following:

(1) **Qualifying graduate students.** Such students are those whose academic background entitles them to serious consideration for admission to graduate studies but who are considered to be inadequately prepared to enter a graduate program in the subject area they have chosen. Generally, students who hold a three-year bachelor's degree from the Univers of Alberta (or an equivalent qualification from sor other recognized institution) and students who ha graduated from a four-year degree program, t who are **entering a new field**, may be admitted qualifying graduate students.
Qualifying graduate students are registered the FGSR and as such are subject to the regulatio of the FGSR; however, qualifying students are n considered to be candidates for a degree.
Students who are not eligible for admission the Faculty of Graduate Studies and Research qualifying students should consult the appropria undergraduate faculty regarding admission to th faculty to clear course deficiencies. They may app for admission to the FGSR at a later date.
Normally, a qualifying period will not exce five full course equivalents (30 units of cours weight) . Courses taken during a qualifying perio will be prescribed by the department concerne Completion of the work in a qualifying period do not automatically entitle the student to proce toward a degree program. However, upon satisfacto completion of a qualifying period the departme may recommend to the FGSR that the student b reclassified as one of the following: probationa graduate student, candidate for a master's degre or provisional candidate for a doctoral degree. Studen should note that neither the courses taken nor th fees paid during a qualifying period will be credite toward a subsequent degree program.

(2) **Probationary graduate students.** Such students ar those whose academic record is either (i) difficult t assess, as in the case of some foreign students; o (ii) below the standard normally required by department, where the department's minimur requirements are above those of the FGSR. **(Note** Probationary graduate students must meet th admission requirements of the Faculty of Graduat Studies and Research.) Upon completion of a specifie period, normally not to exceed one academic yea (September - April), probationary graduate student who have proved their competence to the satisfactio of the department and the FGSR may be accepte as candidates for a master's degree or as provisiona candidates for a doctoral degree. If it is recommende by the department and approved by the FGSR students may have any or all courses complete during their probationary year credited toward graduate degree. Each application of this nature wil be considered on its individual merits.

(3) **Candidates for a master's degree (Category A)** Such students are those who are graduates of a four-year university degree program (equivalent to an Honors degree or degree with specialization from the University of Alberta) and who are continuing in the same field of study.

(4) **Candidates for a master's degree (Category B).** Such students are those who are graduates of a four-year university degree program having some senior courses relevant to the new field, but specializing for the first time. These students are thus required to take additional courses; however, they are not required to take a qualifying year.

(5) **Provisional candidates for a doctoral degree.** All PhD, EdD, and DMus students are first admitted as provisional candidates; they are reclassified as candidates only when they have met certain requirements outlined in the special regulations for the relevant degree (see §203). Candidates who hold a master's degree and are continuing in the same field of study normally enter a two-year program, whereas candidates who hold a baccalaureate degree with honors will enter a three-year doctoral program.

(6) **Candidates for a doctoral degree.** Upon satisfactory completion of the candidacy examination all provisional doctoral candidates are reclassified as candidates for a doctoral degree.

(7) **Candidates for a postgraduate diploma.** Such students must meet the general admission requirements of the Faculty of Graduate Studies and Research (§202.2). The postgraduate diploma program is a specialized program designed for persons who have had previous work experience. It can normally be completed in one academic year of full-time study.

(8) **Special graduate students.** Such students are those who in every respect are eligible for admission to the Faculty of Graduate Studies and Research, but who wish to take graduate level courses for credit without proceeding toward an advanced degree at the University of Alberta.

Special graduate students are not candidates for a degree at this University and will not receive any residence or fee credit toward a subsequent degree program for the work completed as a special graduate student. In addition, the number of courses allowable for transfer credit may be limited (see §202.5).

Admission as a special graduate student does not imply eligibility for admission to a degree program in any department.

Individuals who wish to study under this classification must apply to the Faculty of Graduate Studies and Research and be admitted each year in which they take courses.

Special graduate students require written permission from the department concerned to register in a course. They are not permitted to take courses for audit.

Only graduate level courses may be taken by special graduate students. Individuals wishing to take courses at undergraduate levels should contact the appropriate faculty regarding registration as a special student in that faculty.

Visiting graduate students. This category is used for students who are registered in a degree program at another university or college, who have obtained written permission in advance from the home and host institutions to take one or more courses for transfer of credit toward that degree program. Visiting students are not permitted to register in Thesis or departmental project courses.

202.5 Transfer Credit and Credit by Special Assessment

Transfer credit for certain courses may be granted by the Faculty of Graduate Studies and Research in special cases, provided that the courses have not been counted toward a previous degree or program and were not used to satisfy admission requirements of the FGSR. However, students should note that they cannot apply for this; the department must petition the FGSR on the student's behalf. Transfer credit is granted at the discretion of the Faculty of Graduate Studies and Research, but no more than six units of course weight taken as a Special Diploma student will be eligible for transfer credit(s) to any course-based master's degree program.

The Faculty of Graduate Studies and Research does not accept credit by special assessment.

202.6 Residence Requirement

Residence is an essential component of many graduate degree programs. The purpose of residence is to encourage students to gain insight and intellectual stimulation through direct contact with the University environment, faculty members and other students.

To fulfill a residence requirement students must be registered full-time for the period of residence specified, enabling them to participate fully in on-campus activities related to their degree program.

Minimum periods of residence are:

Master's degree programs: two (four-month) terms*
Doctoral degree programs: two academic years*
Postgraduate diploma programs: Consult department.

*For purposes of residence, a term is defined as Fall (September-December) or Winter (January-April). An academic year is defined as the eight-month period from September to April.

Note: Many master's programs have modified or no residence requirements. Consult the department listing for program details.

202.7 Language Requirement

It is a program requirement in some departments that students show proof of proficiency in one or more languages other than English. (For information on specific language requirements see the detailed program information under the appropriate departmental entry in §204.)

Language proficiency is recorded on the student's transcript if **one** of the following is presented:

(1) Proof of credit in the language course specified.

(2) Documentation from an appropriate language department attesting to satisfactory proficiency at a level set by that department.

It is the responsibility of the department in which the student is undertaking the graduate degree program to complete and forward to the FGSR for approval a "Notice of Completion of Language Requirement" form.

202.8 Academic Standing

202.8.1 Explanation of Grading System

The University of Alberta uses a nine-point grading system for most courses. For students registered in the Faculty of Graduate Studies and Research the normal passing grade is 6 (see §202.8.2 below). In addition, some courses are offered on a credit/fail basis.

The grade distribution according to the 9-point system is as follows:

Course Grades Obtained by Graduate Students

	9	Excellent
	8	
	7	Good
Pass	6	Satisfactory (see §202.8.2)
Fail	5	Unsatisfactory (see §202.8.2)
	4	
	3	
	2	
	1	

202.8.2 Minimum Faculty Requirements

Regardless of the student's category, the pass mark in **any course** taken while registered in the Faculty of Graduate Studies and Research is a grade of 6.

All students in degree programs (including time spent as a qualifying graduate student) or diploma programs must maintain a minimum cumulative program grade point average of 6.5 throughout the course of the program. (In cases where the cumulative program grade point average falls between 6.0 and 6.5, departments may recommend continuation in the program for a specified period as a probationary student; in any case, convocation may not take place with a cumulative program grade point average of less than 6.5.)

Students should keep in mind that courses are weighted differently. A grade of 8 and another of 6 will give an average of less than 7 if the 6 is received in a course carrying greater weight.

Note: The above are minimum grades and grade point averages acceptable to the Faculty of Graduate Studies and Research. Individual departments may require higher grades than these.

202.8.3 Failure in or Failure to Complete a Course

Satisfactory performance in the course work component of a graduate program entails completion of all courses taken as part of the student's program requirements (i.e., courses designated as extra to the student's program requirements and audited courses are excluded). Normally, the minimum acceptable passing grade in individual courses is 6 (see §202.8.2 above); however, some departments may require higher grades.

Graduate students are not permitted to take re-examinations. Regardless of their category, students who do not obtain an acceptable grade, or fail to complete a course that is required as part of their graduate program, must have the approval of the department and the FGSR to retake the course and must obtain a passing grade. Alternatively, students may take an alternate course recommended by the department and approved by the FGSR, but they must also obtain a passing grade.

In calculating a student's GPA, both the original failing grade and the grade received when the course is retaken or the alternate taken will be used. The failing grade AND the grade achieved for the repeated or substitute course will appear on the student's transcript. Alphabetical grades of ABF, WF, DB and INF are counted as numeric grades of one in the computation of the GPA.

A student whose work is unsatisfactory may at any time be required to withdraw.

202.9 Supervision

Every student in a program leading to a graduate degree is required to have a supervisor. Ideally, the supervisor should be appointed as soon as the student arrives to begin the program. If this is not possible due to the organization of the department's program, an interim supervisor or advisor may be appointed until the permanent supervisor is assigned. In any case, the permanent super- visor must be approved by the FGSR within the first 12 months of the student's program.

In all doctoral programs, and in some master's degree programs (where required by departments), students must also have a supervisory committee.

The Dean of FGSR is ultimately responsible for approving the appointment of supervisors and supervisory committee members.

The members of the supervisory committee for doctoral students should be appointed before the second year of the student's provisional doctoral program and well in advance of the candidacy examination. The committee shall consist of at least three faculty members who shall normally be full time and be appointed by the Faculty of Graduate Studies and Research, based on recommendations from the department concerned. The chair of the committee shall be the faculty member under whose supervision the student is carrying out the dissertation research. Where appropriate, one or more members of the committee may be chosen from a department other than that in which the research is being carried out.

The committee for a student in a master's program should be appointed in accordance with departmental regulations; its function is to provide guidance on the student's thesis research.

The department should ensure that the members of a supervisory committee are sufficiently competent and experienced to serve at the required level. In forming a supervisory committee the department should consider the rank and experience of the prospective members, their publications and other demonstrations of competence in the field of specialization, and the prospective members' experience in graduate supervision.

As minimum criteria, supervisors (and normally members of supervisory committees) must:

(a) be active in the general area of the student's research;

(b) have a tenured (or tenure track) faculty appointment (including soft tenure track faculty appointments such as University Research Fellows and Heritage Scholars) in a department relevant to the field;

(c) hold a degree equivalent to or higher than that for which the student is a candidate. (This would always be the case for newly appointed faculty, but certain recognized and well-established exceptions should be respected.);

(d) demonstrate continuing scholarly or creative activity of an original nature.

Scholarly or Creative Activity

Because of diverse interpretations of the term "scholarly or creative activity," the Faculty will always find it necessary to rely on sound and informed judgement of Chairs and Graduate Coordinators to ensure adherence to minimum Faculty criteria.

Additional criteria approved by the Dean, FGSR, may be added by individual departments, and these should be included in departmental graduate handbooks.

The determination of "scholarly or creative activity" assumes a continuing peer review process which, at least indirectly, is included annually at the appropriate Faculty Salaries and Promotions Committee. Thus, the following list summarizes criteria used by various faculties to describe scholarly or creative activity:

- publication of research papers in refereed journals
- publication of research papers in journals acceptable to the discipline
- publication of books and/or monographs
- publication of research findings in conference proceedings
- publication and/or performance of new compositions or plays
- exhibition of new artistic works
- peer recognition of outstanding professional practice
- invitations to speak at conferences or at other institutions
- editorial or refereeing responsibilities for journals
- invitations to serve as external examiner for the PhD
- presentations at professional society meetings or workshops
- invitations to review grant proposals or manuscripts
- invitations to referee requests for promotions to full professor in recognized institutions

It is recommended that department Chairs monitor and review the performance of supervisors.

The FGSR Council has approved eligibility criteria for service on supervisory committees by those such as professors emeriti, adjunct professors, clinical appointees, etc. Details are available from the FGSR office.

Once a supervisory committee has been appointed, it shall be reviewed annually by the department. The department shall ensure that the supervisory committee has a formal regular meeting with the student at least once a year.

It is the responsibility of the supervisor to guide the student in the determination and modification, if necessary, of the student's program of study and research. The supervisor or supervisory committee (where applicable) is responsible for ensuring students' awareness of all program requirements and regulations governing their activities related to the graduate program. Such matters as course requirements for the degree program, language requirements (where applicable), and any pre-candidacy requirements or special skills needed are normally specified by the student's supervisor or supervisory committee.

It is the responsibility of supervisors to make adequate provision for supervision of their graduate students during their leave. Therefore, if a supervisor is to be absent from the University for a period exceeding two months, it is the supervisor's responsibility to nominate an adequate interim substitute and to inform the student, the department and the FGSR.

Departments are responsible for preparing a set of guidelines for supervisors and students. Guidelines should deal with the selection and functioning of supervisors and should outline the joint responsibilities of faculty members and graduate students. Avenues of appeal open to students who feel they are receiving unsatisfactory supervision should also be specified.

Each department is responsible for formulating its own criteria and requirements for the qualifications for graduate student supervision and submitting them for approval by the Dean, FGSR.

For further information on supervision see the Calendar preface, *Responsibilities Related to Graduate Programs.*

202.10 Thesis Requirement

All candidates in a thesis degree program shall present a thesis embodying the results of their research. The topic of the thesis must be approved by the candidate's supervisor or supervisory committee.

For candidates in a master's degree program, the thesis should reveal that the candidate is able to work in a scholarly manner and is acquainted with the principal works published on the subject of the thesis. As far as possible it should be an original contribution. A doctoral thesis must embody the results of original investigations and analyses and be of such quality as to merit publication; further- more, it must constitute a substantial contribution to the knowledge of the candidate's field of study.

The thesis should normally be written in English. In some departments candidates may be permitted to write their thesis in a language other than English, provided that language has been approved for use by the supervisory committee, the department and the FGSR. Theses written in a language other than English must have one abstract in the language of the thesis and one in English.

Candidates shall prepare a minimum of three copies of the thesis (four copies for Education students). Additional copies may be required by individual departments. Students should also keep in mind that it is customary for a copy of the thesis in its final form to be given to the supervisor.

Arrangements and expenses for thesis preparation, including typing, production of photographs and tables, and duplicating are the responsibility of the student. Instructions regarding thesis format and methods of thesis reproduction are available from the FGSR office in a booklet entitled, "Regulations and Guide for the Preparation of Theses." In any case of uncertainty about thesis preparation students should consult the Faculty office **before final typing**.

It is the responsibility of both the student and the supervisor to be familiar with all regulations of the Faculty of Graduate Studies and Research with respect to theses, and with any specific requirements of the student's department. Students should consult their department and their supervisory committee to determine whether they should use either the traditional or the paper format in the preparation of the thesis.

It is the responsibility of the student to present three copies (four copies for Education students) of the thesis to the Faculty of Graduate Studies and Research for approval **before the copies are bound.**

Time limit on submission of thesis. Following completion of the final oral examination at which the thesis is approved (or approved subject to revisions), the candidate shall make the appropriate revisions where necessary and submit the approved thesis to the FGSR office **within six months** of the date of the final oral examination. Departments may impose earlier deadlines for submitting revisions. If the thesis is not submitted to the FGSR within the six-month time limit, the candidate will be considered to have withdrawn from the program. After this time, the candidate must reapply and be readmitted to the FGSR before the thesis can be accepted.

Note: If the final oral examination is adjourned or postponed, the six-month time limit will take effect from the date of completion of the examination where the thesis was approved with or without revisions.

If a final oral examination is adjourned, the examining committee shall decide upon a date for reconvening the examination and shall inform the FGSR and the student in writing. The final date set for reconvening shall be **no later than six months** from the date of the examination. A final decision of the examining committee must be made within six months of the initial examination.

To ensure qualification for the earliest convocation following completion of the thesis, students must submit the unbound copies of their thesis to the FGSR office on or before the deadline date set by the Faculty, to allow enough time for the student's name to be included in the convocation program. Deadlines for submission of theses are found in the Academic Schedule; this information is also available from the FGSR office.

202.11 Oral Examination

All candidates in a thesis degree program must pass a final oral examination following submission of their thesis to the department. It is the responsibility of the supervisor (or a member of the departmental staff officially designated to do so), and not the student, to arrange the candidate's examination, ensuring that it is scheduled and held in accordance with FGSR regulations. The finished thesis must be submitted to the examining committee and a completed "Notice and Approval of Oral Examination Committee" form must be submitted to the FGSR at least **three weeks before the oral examination.**

The language used to conduct the final oral examination shall be English. However, the supervisory committee may petition the Dean of the Faculty of Graduate Studies and Research, and on receiving written approval may conduct the examination in a language other than English.

Each department offering a doctoral degree is required to establish detailed examination procedures for the candidacy and final oral examination. These procedures should be made available to staff and students in the department and to the Dean, FGSR.

202.12 Convocation

There are two convocations each year, normally held in June and November.

In order to convocate, students in thesis programs must complete all course work and submit three **unbound** copies (four copies for Education students) of the thesis to the FGSR by the deadline dates specified in the Academic Schedule. For further details on thesis submission refer to the "Regulations and Guide for the Preparation of Theses."

Students in course-based programs must complete all program requirements prior to the deadlines set out in the Academic Schedule. It is the responsibility of the department to forward a completed *Report of Final Completion for Course-based Degree* form to the FGSR by the deadline dates specified in the Academic Schedule, to ensure that the student's name will be included in the convocation list.

202.13 Time Limit for Completion of Graduate Programs

The time limit (or the maximum period of time permitted to complete the requirements for a degree) is calculated from the **start of the session in which the student first registers** in that specific program.

To be recommended for a master's degree, candidates must complete all the requirements **within four years** of the term in which they first register as probationary graduate students or as candidates in the master's program. A five-year time limit is in place for certain course-based master's programs. Consult the department listing.

To be recommended for a doctoral degree, candidates must complete all the requirements **within six years** of the term in which they first register as probationary graduate students or as provisional candidates for a doctoral degree. In the case of master's students who are reclassified as provisional candidates for a doctoral degree, all degree requirements must be completed within six years of the time they first register as a probationary graduate students or master's candidates.

To be recommended for a postgraduate diploma, candidates must complete all the requirements **within four years** of the time they first register as candidates in the postgraduate diploma program. See also §202.10 on time limits for submission of theses.

202.14 Program Extensions

In exceptional circumstances a candidate who has failed to complete all the requirements for the degree within the appropriate period specified in §202.13 may be considered for an extension, provided that the department so recommends and the Faculty of Graduate Studies and Research approves. Requests for extensions will only be considered if there are well-documented reasons specific to a particular type of research that precludes completion within the four, five, or six-year time limit, or unless there are sufficient, and substantial unforeseen circumstances beyond the control of the student and/or supervisor which prevent completion of the program within the time limits.

A candidate's program may be considered for an extension of up to one year at the time of initial request. Under exceptional circumstances an additional extension of up to one year may be granted by the FGSR.

A candidate who is granted an extension may be required to remain in or resume residence (i.e., be in close geographic proximity to the campus) until all degree requirements have been met. An extension is calculated as beginning immediately upon termination of the maximum permitted period of completion for that degree.

202.15 Appeals and Grievances

Student grievances of an academic nature sometimes arise. Students in the Faculty of Graduate Studies and Research are advised first to approach the instructor or supervisor concerned; in most cases, the issue can be resolved at this level. If the matter is not resolved, students are advised to see the department chair. **Departments are encouraged to have internal appeal procedures. Where these exist, they should be followed before moving the matter to the Faculty level. The Dean or Associate Dean may be approached by students for advice in these matters.**

In the event that a satisfactory resolution is not found at the departmental level, recourse is available to the Academic Appeals Committee within the FGSR. For further information regarding appeals procedures at the Faculty level, students should consult the list of regulations available from the FGSR office. **All formal appeals against a decision of the FGSR must be initiated within 30 calendar days of the student's receipt of the FGSR decision being appealed.**

Grade grievances (except in the 900 research project series) initiated by graduate students are not within the jurisdiction of the FGSR, but rather within the jurisdiction of the faculty from which the graduate student had taken the course in question.

Additional information on appeals and grievances is found in §16.8 of the University Calendar.

203 Degree and Postgraduate Diploma Regulations

The minimum requirements for all graduate programs are set by the Council of the Faculty of Graduate Studies and Research of the University of Alberta. In this calendar the **minimum requirements** acceptable are outlined under the respective headings. Students should note that the department offering the graduate program may impose additional requirements.

203.1 Master's Degrees

The University of Alberta offers the following master's degrees: Master of Agriculture, Master of Arts, Master of Business Administration, Master of Education, Master of Engineering, Master of Fine Arts, Master of Health Services Administration, Master of Laws, Master of Library and Information Studies, Master of Music, Master

Nursing, Master of Pharmacy, Master of Public anagement, Master of Science, and Master of Visual ts.

Two types of master's degree programs are offered—asis-based and course-based. Most departments and culties offer a master's program with thesis. Many fer course-based programs in addition to the thesis-ased route. In such programs the emphasis is on urse work, supplemented by a *capping exercise*. Details ay be obtained from the departments concerned.

The regulations outlined below apply to all master's gree programs.

03.1.1 General Regulations Governing Master's Programs

1) **Course Requirements:** Considerable variation is permitted in the balance between research and course requirements for the master's degree. All candidates must include some course work in their program. Proposals should normally include as a minimum research work equivalent to at least 12 units of course weight.

Graduate credit will not be given for undergraduate courses taken in the Department in which the graduate program is being pursued if this graduate program leads to a degree for which a thesis is not required.

Only in special circumstances, and on the recommendation of the department in which the graduate work is being done, will extramural courses be considered for credit by the Faculty of Graduate Studies and Research.

2) **Residence:** A graduate student registered in a program for a master's degree which has a residence requirement is normally required to spend a minimum of two terms in full-time attendance at the University of Alberta either as a candidate for the master's degree or as a probationary graduate student. An alternative proposal for meeting this residence requirement may be considered by the FGSR if recommended to the Faculty of Graduate Studies and Research by the department concerned.

Note: Some departments may require that a graduate student be in full-time attendance for specified terms (i.e., Winter and Intersession).

A qualifying year **does not** count toward the residence requirement.

3) **Language Requirement:** It is a requirement in some departments offering master's degrees that students show proof of proficiency in a language other than English. (For specific information on language requirements see the detailed program information under the appropriate departmental entry in §204.)

Master's degree candidates in programs that do not have a language requirement, who are planning to proceed to a doctoral degree, are advised to take note of any language requirement for that degree in advance.

4) **Supervision:** Each student in a master's program shall have a supervisor, whether the student is in a thesis-based or course-based program. The Dean of the FGSR is ultimately responsible for approving the appointment of a supervisor and, if it exists, a supervisory committee.

03.1.2 Thesis-based Programs

All candidates for a thesis-based master's degree nust submit the results of their research in the form of a hesis conforming to FGSR regulations.

An examining committee of at least three faculty nembers who are normally full-time (one from a department ther than that in which the student is registered), must e approved by the Faculty of Graduate Studies and Research at least three weeks before the examination. The committee will review the thesis and conduct an oral xamination designed to test the candidate's knowledge of the thesis subject and of related fields. It is the esponsibility of the supervisor (or a member of the departmental staff officially designated to do so), and ot the student, to arrange the candidate's examination, nsuring that it is scheduled and held in accordance with FGSR regulations. The Dean (or Associate Dean or Dean's designate), FGSR, may participate fully in the examination. Persons other than the examiners may attend with the approval of the Dean, FGSR, or the chair of the committee. If a final oral examination is adjourned, he examining committee shall decide upon a date for reconvening the examination and shall inform the FGSR and student in writing. The final date set for reconvening shall be **no later than six months** from the date of the examination. A final decision of the examining committee must be made within six months of the initial examination.

03.1.3 Course-based Programs

All students in a course-based master's degree program must have a supervisor and at least one evaluator for their research project; one of these must be from their department. These academic staff members shall be recommended by the department to the Faculty of Graduate Studies and Research for approval; they are responsible for maintenance of FGSR and departmental standards for the project. The student is responsible for producing a typed report of the project or some other finished product to be deposited in the department.

03.2 Doctoral Degrees

The University offers the following doctoral degrees: Doctor of Education, Doctor of Music and Doctor of Philosophy.

The essential requirement for the doctorate is the planning and carrying out of research of high quality leading to an advance in knowledge in the candidate's field of study.

03.2.1 The Degree of PhD

(1) **Provisional Candidacy:** Students may be admitted as provisional candidates for the degree of Doctor of Philosophy if they hold a bachelor's or a master's degree, or equivalent, from an approved university. Admission is contingent upon recommendation by a department, approval by the FGSR, and the availability of: suitable supervision; suitable courses of study; and adequate library, laboratory and other facilities. Students will remain as provisional candidates until they have successfully completed their candidacy examination (see (5) below).

(2) **Minimum Time and Residence Requirements:** The time necessary to complete the requirements for the doctoral degree depends to some extent upon the student's progress; however, there are minimum periods of study and residence. For a student with a bachelor's degree the minimum requirement is three academic years of study and research, two of which must be in residence at the University of Alberta. For a student with a master's degree the minimum requirement is two academic years of study and research in residence at the University of Alberta. A department may propose an alternate method of meeting the residence requirement; however, the alternative is subject to approval by the Faculty of Graduate Studies and Research.

(3) **Language Requirement:** A department may require a student to demonstrate a knowledge of one or more languages in addition to English. Where this is the case, the student must satisfy the language requirement before being allowed to take the candidacy examination.

(4) **Supervisory Committee:** The student's program shall be under the direction of a supervisory committee of at least three faculty members who shall normally be full-time and be appointed by the Faculty of Graduate Studies and Research upon the recommendation of the department. The chair of the committee shall be the faculty member under whose supervision the student is carrying out the research. Where appropriate, one or more members of the committee may be chosen from a department other than that in which the research is being carried out. The committee shall arrange for the necessary examinations and for adjudication of the thesis.

(5) **Candidacy Examination:** Students in doctoral programs are required to pass a candidacy examination in subjects relevant to their general field of research. The candidacy exam is an oral examination; some departments may also require that students take comprehensive written examinations prior to the candidacy exam.

The candidacy examination is normally held within two years of the commencement of the program at a time when most, if not all, of the required course work is completed and the thesis started or well defined. The candidacy examination must be passed no less than six months prior to taking the final oral examination.

The candidacy examination is arranged by the supervisor (or other officially designated staff member), and not the student, ensuring that it is scheduled and held in accordance with FGSR regulations.

Both the candidacy and final oral examinations shall be chaired by a faculty member who is not the supervisor but is a member of the student's home department. Each department shall establish a mechanism by which individuals are assigned this responsibility. The chair is responsible for moderating the discussion and directing questions and may participate in the questioning. If the chair is not a member of the committee, the chair does not vote or sign the thesis. It is the chair's responsibility to ensure that Departmental and Faculty regulations relating to candidacy and final oral examinations are followed.

Each department is responsible for establishing detailed examination procedures for the candidacy examination. These procedures should be made available to staff and students in the department and to the Dean, FGSR.

Students must demonstrate to the satisfaction of the examining committee that they possess: (a) an adequate knowledge of the discipline and of the subject matter relevant to the thesis; and (b) the ability to pursue and complete original research at an advanced level. During the candidacy examination only minor attention should be given to the work done on the thesis.

This examination shall be under the direction of the supervisory committee to which two other full-time members of the teaching staff have been added. At least one member of the examining committee shall be a person from a department other than that in which the research is being carried out. It is the responsibility of the Department to nominate the committee members and forward their names to the FGSR for approval at least three weeks in advance of the candidacy examination. The Dean, FGSR, (or the Dean's designate) may participate fully in the examination. Persons other than the examiners may attend only with the permission of the Dean, FGSR, or the chair of the committee. Visitors may not participate in the committee's discussion concerning its decision on the student's performance.

(6) **Thesis Requirement:** Candidates shall present their research results in a thesis which satisfies the requirements of the FGSR as set out in the "Regulations and Guide for the Preparation of Theses." The material must be of sufficient merit to meet the standards of reputable scholarly publications.

(7) **Final Examining Committee:** Before the thesis is forwarded to the external examiner, PhD supervisory committee members shall each declare **in writing** to the supervisor either that the thesis is of adequate substance to warrant that the student proceed to the final examination **or** that the thesis is unsatisfactory and that the student should not be allowed to proceed to the final oral examination.

The thesis shall be reviewed by an examining committee consisting of the supervisory committee and at least two other examiners. It is the responsibility of the Department to recommend the committee members and forward their names to the FGSR for approval at least three weeks in advance of the final oral examination, however, the request for the external examiner shall normally be submitted for FGSR approval at least two months prior to the examination. One member of the examining committee shall be from a department other than that in which the student is working. One member shall be an external examiner who may or may not be invited by the FGSR to attend the examination. The external examiner shall be nominated by the department and approved and invited by the Dean of the Faculty of Graduate Studies and Research. The external examiner shall be a recognized authority in the special field of research and should have had no previous association with the candidate. The external examiner shall receive the thesis from the Department at least four weeks before the examination.

Both the candidacy and final oral examinations shall be chaired by a faculty member who is not the supervisor but is a member of the student's home department. Each department shall establish a mechanism by which individuals are assigned this responsibility. The chair is responsible for moderating the discussion and directing questions and may participate in the questioning. If the chair is not a member of the committee, the chair does not vote or sign the thesis. It is the chair's responsibility to ensure that Departmental and Faculty regulations relating to candidacy and final oral examinations are followed.

(8) **Final Oral Examination:** A final oral examination, based largely on the thesis, shall be conducted by the examining committee. The final oral examination is arranged by the supervisor (or other officially designated staff member), and not the student, who ensures that it is scheduled and held in accordance with FGSR regulations.

Each department is required to establish detailed examination procedures for final oral examinations.

These procedures should be made available to staff and students in the department and to the Dean of the Faculty of Graduate Studies and Research.

Members of the staff of the student's major department, as well as members of the Council of the Faculty of Graduate Studies and Research (or their alternates), have the right to attend but should so notify the chair of the examining committee. Other persons may attend with special permission of the Dean, FGSR, or the chair of the examining committee.

The Dean (or the Dean's designate) of the Faculty of Graduate Studies and Research, may participate fully in the examination. Persons who are not members of the examining committee (a) may participate in the questioning only by permission of the chair of the committee, and (b) are not permitted to participate in the discussion of the student's performance and must withdraw before such discussion commences.

If a final oral examination is adjourned, the examining committee shall decide upon a date for reconvening the examination and shall inform the FGSR and the student in writing. The final date set for reconvening shall be **no later than six months** from the date of the examination. A final decision of the examining committee must be made within six months of the initial examination.

203.2.2 The Degree of DMus

The regulations pertaining to the PhD degree also apply to the Doctor of Music degree; exceptions and special conditions are noted in §204.55.

203.2.3 Combined Program for the Degrees of MD and PhD

Highly qualified students wishing to pursue a career of teaching and research in either basic medical science or in clinical medicine may enroll in a program of six to seven years' duration leading to the acquisition of both an MD and a PhD degree.

A student may, on completing two years of a medical program, withdraw from that program and apply for admission to the Faculty of Graduate Studies and Research. If acceptable to the appropriate basic science department and the FGSR, the student would begin a program leading to the PhD degree. The time needed to complete the requirements for the PhD would depend upon the previous training of the applicant. Normally, a student who enters the Faculty of Medicine holding a BSc degree would require three years, whereas a student who enters the Faculty of Medicine from a two-year premedical program would require four years. On completion of the PhD program the student could re-enter the Faculty of Medicine and complete the requirements for the MD degree.

Students interested in such a program may obtain further information from the chair of the appropriate department.

Note: For classification purposes postgraduate medical students are considered to be graduate students. As such, they have the option of paying fees to the Graduate Students' Association (see §15.2.10 of the University Calendar).

203.2.4 The Degree of EdD

The degree of Doctor of Education attests proficiency in a program of graduate study in which the emphasis is upon preparation for competent professional performance. The general regulations for the EdD degree concerning admission, residence requirements, the candidacy examination and final oral examination (based largely on the thesis) are the same as those outlined under the PhD degree, with the following exceptions:

(1) Several years of successful teaching and an MEd degree or its equivalent are prerequisites for admission into the EdD program.

(2) A reading knowledge of French is required. In special circumstances another language may be substituted.

(3) The program emphasizes breadth in educational theory, practice and research rather than intensive specialization in a particular area.

(4) The student's program may make provision for supervised field experience.

203.3 Postgraduate Diploma Programs

The University of Alberta offers the following postgraduate diplomas: Postgraduate Diploma in Educational Administration, Postgraduate Diploma in Exploration Geology, Postgraduate Diploma in Health Services Administration, Postgraduate Diploma in Law, and Postgraduate Diploma in Textile Conservation and Curatorship.

Information regarding specific postgraduate diploma programs is provided under the appropriate departmental listing in §204 below.

204 Graduate Programs and Courses

204.1 General Information

A brief description of each program offered under the auspices of the Faculty of Graduate Studies and Research is given in the following section. Entries are arranged alphabetically by department. Prospective applicants should note, in addition to the general requirements of the FGSR, the particular admission requirements, potential fields of research and the specific requirements for each program. Graduate and undergraduate courses that may be taken in order to fulfill the requirements for a graduate program are listed under the description of that program.

The Faculty of Graduate Studies and Research supports the concept of interdisciplinary studies. Guidelines for proposing such a program are available from the FGSR office.

Each course is designated by its computer abbreviation and a number.

Following the course title is (in most instances) the symbol ★ and a number indicating the units of course weight used in computing grade-point averages. (**Note**: The weights (or units of course weight) for the Faculty of Engineering are based on the number of hours of lectures, seminars and laboratories and are listed following the symbol □.) A normal full-session course is assigned a weight of 6; a single-term (or half) course is normally assigned a weight of 3. Some courses involving research may vary in weight according to the length and difficulty of the project.

Three figures, enclosed in parentheses, follow the course weight. These figures indicate the weekly number of hours of instruction in that course. The format is as follows: the first position indicates lecture hours; the second position indicates hours of seminar (s), demonstration (d), clinic (c), or lecture-lab (L); and the third position indicates laboratory hours. If the course is a single-term course, the term in which it is offered is indicated. For example, the entry:

CHEM 513 Electronics for Scientists
★3 (second term, 3-0-3)

indicates a chemistry course with 3 units of course weight, offered in the second term, normally involving 3 hours of lectures and 3 hours of laboratory work each week.

Each department may offer only a selection of its courses in any given year. Information as to which courses will be offered, the names of the instructors, and all further details must be sought from the department concerned.

Physical Requirements for University

The University has a commitment to the education of all academically qualified students and special services are frequently provided on campus to assist disabled students.

Nevertheless, some courses make certain unavoidable demands on students, with repect to the possession of a certain level of physical skill or ability, if the academic objectives of the course are to be realized. In case of doubt, students are advised to contact the department concerned and the Disabled Student Services Coordinator, Office of the Dean of Student Services.

Since support services cannot be guaranteed for all off-campus courses, instructors may be obliged to refuse registration in such courses.

204.2 Adult, Career, and Technology Education

Department of Adult, Career, and Technology Education
633 Education Building S
University of Alberta
Edmonton, Alberta T6G 2G5

204.2.1 General Information

The Department of Adult, Career, and Technolo Education offers programs leading to the Master Education degree in adult and higher education, indust and vocational education, and instructional technolo These programs are designed for professional educat holding an approved 4-year degree in education related field with a successful career background. Norma the graduate programs include a combination of professio and graduate level courses offered by the Faculty Education and other faculties in the University. Prospect candidates should consult with the Department befo formalizing their application in order to determi admissibility and to plan an appropriate program study.

Entrance Requirements:

The Department's minimum admission requireme include:

(1) an approved four-year degree in education equivalent

(2) a minimum GPA of 7.0 in the last two years undergraduate/graduate study at a recogniz institution

(3) a minimum TOEFL score (if applicable) of 550 (s §202.2.2).

(4) comprehensive resume documenting care professional experience

(5) letters of reference (academic and professional).

Financial Assistance:

Financial assistance, usually in the form of gradua assistantships, scholarships, awards, etc., may be availat to qualified candidates and is awarded on the basis academic merit and scholarship.

Inquiries concerning admission, programs a assistantships should be directed to the chair of t department.

204.2.2 The Degree of MEd

Program Requirements:

The MEd degree program normally consists of minimum of 30 units of course weight, additional cours as required by the advisory committee, and the preparati and defence of an approved thesis or major proje Each student will develop a program of study in consultati with an advisory committee to suit the student's specif background and research interests.

The minimum period of residence is two four-mon terms of full-time attendance at the University of Albert

An alternative to the residency requirement is availab to students pursuing the degree on a part-time basi These students must complete a minimum of 36 units course weight and a major project.

Length of Program:

The time required to complete the MEd will vary wi the individual candidate; however, a minimum of tw academic years is normally required.

204.2.3 Graduate Courses

THE 900 Thesis
THE 999 Thesis
EDACT 900 ★6 Directed Research Project

EDACT 500 Industrial and Vocational Education Seminar
★0 Non-credit. Hours to be arranged. Reports an discussions by staff and graduate students to provid candidates for advanced degrees with experience in th selection and evaluation of research problems and pro cedures.

EDACT 501 Special Topic
★1 (either term, 1-0-0). Prerequisite: Consent of depar ment. Content varies from year to year. Topics announce prior to registration. The student's transcript carries titl descriptive of content. May be repeated.

EDACT 502 Special Topic
★2 (either term, 2-0-0). Prerequisite: Consent of depar ment. Content varies from year to year. Topics announce prior to registration. The student's transcript carries titl descriptive of content. May be repeated.

EDACT 503 Special Topic
★3 (either term, 3-0-0). Prerequisite: Consent of depar ment. Content varies from year to year. Topics announce prior to registration. The student's transcript carries titl descriptive of content. May be repeated.

EDACT 509 Development and Principles of Industrial and Vocational Education
★3 (either term, 3-0-0).

ACT 511 Curriculum and Instruction in Industrial Vocational Education
(either term, 3-0-0).

ACT 519 Supervision and Planning of Industrial Vocational Facilities and Programs
(either term, 3-0-0).

ACT 521 Evaluation of Industrial and Vocational cation Programs
(either term, 3-0-0).

ACT 539 Technological Assessment and its lication for Industrial and Vocational Education ricula
(either term, 3-0-0).

ACT 541 Technological Forecasting and its lication for Industrial and Vocational Education ricula
(either term, 3-0-0).

ACT 549 Survey of Occupations — Conference minar I
(either term, 1-0-3).

ACT 551 Survey of Occupations — Conference minar II
(either term, 1-0-3).

ADU 551 Selected Topics in Adult Education
(either term, 3-0-0).

ADU 555 Research Project in Adult Education
(either term, 3-0-0).

ADU 557 Independent Study in Adult Education
(either term, 3-0-0).

MDA 559 Intermediate Production in tructional Media
(either term, 3-0-3). Prerequisite: EDMDA 467 or sent of department.

ADU 560 Instructional Methods in Adult and her Education
(either term, 3-0-0).

ADU 561 Curriculum Planning in Adult and her Education
(either term, 3-0-0).

MDA 561 Organization and Supervision of the ucational Media Program I
(either term, 3-0-0). Prerequisite: EDMDA 351 or sent of department.

MDA 563 Organization and Supervision of the ucational Media Program II
(either term, 3-0-3). Prerequisite: EDMDA 561 or sent of department.

MDA 571 Developing Multi-Media Instructional terials I
(either term, 0-3L-0). Prerequisite or Corequisite: MDA 473 or consent of department.

ACT 572 Topics in Computer-Based Instruction
(either term, 3-0-0).

MDA 573 Developing Multi-Media Instructional terials II
(either term, 0-3L-0). Prerequisite: EDMDA 571 or sent of department.

ACT 574 Project Design in Computer-Based tructional
(either term, 3-1s-3).

ACT 575 Application of Microcomputers in ucation
(second term, 3-0-0). Integration of the microcomer into the educational environment through the vanced application of BASIC and spreadsheets/ tabases. Registration restricted to Faculty of Educan diploma and graduate students. Prerequisite: EDACT 4 or equivalent or consent of department. Credit will t be granted for both EDACT 375 and EDACT 575.

ACT 576 Seminar in Theory of Computer-Based tructional
(either term, 3-0-0).

ACT 578 Internship in Instructional Technology
(either term, 3-1s-3).

MDA 580 Graduate Seminar in Educational Media
(either term, 3-0-0). Prerequisite: At least two courses Educational Media including EDMDA 351 or consent of partment.

MDA 581 Educational Television Applications
(either term, 3-0-3). Prerequisite: EDMDA 351 or nsent of department.

MDA 582 Graduate Seminar in Current lucational Media Development
(either term, 3-0-0). Prerequisite: At least two courses Educational Media including EDMDA 351 or consent department.

EDMDA 583 Educational Television: Survey of Educational Applications
★3 (either term, 0-3L-0). Prerequisite: Consent of department.

EDACT 585 Individual Directed Laboratory Study
★3 (either term, 3-0-3).

EDACT 587 Individual Directed Study
★3 (either term, 3-0-0). Prerequisite: Consent of department.

EDACT 589 Organization of Industrial and Vocational Education
★3 (either term, 3-0-0).

EDACT 591 Problems and Trends in Industrial and Vocational Education
★3 (either term, 3-0-0).

EDACT 593 Survey of Industrial and Vocational Education Research I
★3 (either term, 3-0-0).

EDACT 595 Survey of Industrial and Vocational Education Research II
★3 (either term, 3-0-0).

204.3 Agricultural Engineering

Department of Agricultural Engineering
751 General Services Building
University of Alberta
Edmonton, Alberta T6G 2H1

204.3.1 General Information

The Department of Agricultural Engineering offers programs leading to the degrees of Master of Agriculture, Master of Engineering and Master of Science.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Candidates with undergraduate training in engineering agrology, agricultural mechanization, or agriculture can enroll in either the MAg or MSc programs; those with a degree in agricultural engineering or its engineering equivalent can enroll in either the MEng or MSc programs.

Candidates with undergraduate training in forestry or forest engineering can enrol in an MSc program in either of the following specializations: (a) forest operations, or (b) wood utilization.

Financial Assistance:

Funds are available for a limited number of graduate students to be engaged by the Department as teaching and research assistants. Financial assistance is also available for graduate students through research grants awarded to staff in specific areas.

204.3.2 The Degrees of MAg and MEng

Applicants will normally be expected to have at least three years of post-BSc experience.

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student. Master of Agriculture and Master of Engineering programs consist of AG EN 600, AG EN 601 plus 24 units of course weight and a project equivalent to three units of course weight.

At least 15 of the 24 units of course weight should be at the 500-level or higher. A minimum of nine units of course weight should be taken from within the Department.

No language other than English is required for the MAg or the MEng degree.

The minimum period of residence is one four-month term in full-time attendance at the University of Alberta.

Length of Program:

The time limit for completion of the MAg and MEng programs is four years from the date of initial registration.

204.3.3 The Degree of MSc

Program Requirements:

Master of Science programs normally consist of AG EN 600 and AG EN 601 plus 18 units of course weight and a thesis. At least six units of course weight should be in advanced statistics, advanced mathematics, or advanced numerical methods. The other required course should be related to the thesis research and a minimum of two should be at the 500-level or higher.

Research work leading to the preparation of a thesis for the MSc degree is undertaken within the Department of Agricultural Engineering. Graduate students may conduct part of their research at the Agriculture Canada Research Station, Lethbridge, Alberta, or other approved off-campus research, educational, or technical institutions.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time limit for completion of the program is four years from the date of initial registration.

204.3.4 Undergraduate Courses

The following may be taken for graduate credit:

AG EN 413 Irrigation and Drainage Engineering
★3 (second term, 3-0-3). Irrigation and drainage principles; planning and design of irrigation and drainage systems. Prerequisite: MEC E 431 or CIV E 430.

AG EN 420 Mathematical Programming in Agriculture and Forestry
★3 (first term, 3-0-3). Mathematical programming methods applied to the analysis of production systems in agriculture and forestry. Prerequisite: AG EC 316 or MATH 120 or MATH 200.

AG EN 421 Simulation Methods in Agricultural Engineering
★3 (second term, 3-0-3). Continuous and discrete simulation methods applied to the study of agricultural processes. Prerequisite: Introductory courses in Computing Science and Calculus. Not open to students with credit in FOREN 421.

FOREN 421 Simulation Methods in Forest Engineering
★3 (second term, 3-0-3). Continuous and discrete simulation methods applied to the study of processes in forest operations. Prerequisite: Introductory courses in computing science and calculus. Not open to students with credit in AG EN 421. [Agricultural Engineering]

AG EN 430 Structural Design of Agricultural Buildings
★3 (second term, 3-0-3). Principles of structural design as related to the use of timber, steel and concrete in agricultural buildings. Prerequisite: CIV E 360.

FOREN 435 Advanced Transportation of Forest Products
★3 (second term, 3-0-3). Advanced studies in the methods and systems of movement of wood and wood products. Equipment for primary and secondary transportation of timber. Planning and cost analysis of logging operations and equipment. Forest roads and bridges. Prerequisite: FOREN 335. (Offered jointly by the Departments of Agricultural Engineering and Forest Science.) [Forest Science]

AG EN 453 Power Units
★3 (first term, 3-0-3). Energy conversion, power transmission, soil vehicle mechanics, hydraulic systems, tractor performance and evaluation, tractor dynamics. Prerequisite: MEC E 431 or CIV E 430.

AG EN 454 Agricultural Machinery
★3 (second term, 3-0-3). The course uses the wedge theory and the Mohr-Coulomb failure criteria as a basis for a simple tillage theory. Various tillage tools are examined as well as implement and tractor chassis mechanics. An introduction to harvesting processes is made. Particle dynamics and mechanics of raking and cutting are developed. Harvesting systems are noted. Prerequisite: MEC E 350, CIV E 480.

AG EN 456 Post-Harvest Technology
★3 (first term, 3-0-3). This course is an analysis of forage conditioning, fractionation, wafering, preservation and ensiling; grain and forage dehydration, feeding and transport equipment, storage regimes, process control; and grain cleaning, sorting and milling. Prerequisite: MATH 113.

AG EN 500 Agricultural Engineering Field Trip
★0. An extended trip to visit agricultural engineering operations is required of all agricultural engineering students. Normally conducted for third and fourth-year students in September of even numbered years prior to start of classes.

AG EN 503 Instrumentation in Agricultural Engineering
★3 (second term, 3-0-3). A study of the primary sensing elements used in agricultural engineering, their principles of operation and application. An introduction to signal conditioning and the use of digital techniques in instrumentation. Prerequisite: E E 405.

204.3.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis
AG EN 900 ★3 Directed Research Project Detailed report in the student's major area of interest in an MAg or MEng program.

FOREN 550 Problems in Forest Engineering
★3 (either term, 3-0-0). Directed study in forest engineering, including forest harvesting, road location and construction. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Agricultural Engineering and Forest Science.) [Forest Science]

AG EN 552 Advanced Irrigation and Drainage
★3 (either term, 3-1s-0). Studies of selected topics or special problems in irrigation and drainage. Prerequisite: AG EN 411 or AG EN 413.

FOREN 560 Trends and Problems in Wood Science I
★3 (either term, 0-3s-0). Individual study. Directed study in wood technology and forest products. Prerequisite: Consent of instructor. [Agricultural Engineering]

FOREN 561 Trends and Problems in Wood Science II
★3 (either term, 0-3s-0). Individual study. Directed study in wood technology and forest products. Prerequisite: Consent of instructor. [Agricultural Engineering]

AG EN 600 Agricultural Engineering Seminar
★0.0 (first term, 0-1s-0). Required of all graduate students.

AG EN 601 Agricultural Engineering Seminar
★0.0 (second term, 0-1s-0). Required of all graduate students.

AG EN 602 Selected Topics in Agricultural Mechanization I
★3 (either term, 3-0-0). Individual study. Application of statistical and mathematical techniques to selected problems in agricultural engineering.

AG EN 603 Agricultural Building Topics I
★3 (either term, 3-0-0). Individual study.

AG EN 604 Advanced Farm Power I
★3 (either term, 3-0-0). Individual study. Selected topics in agricultural power units.

AG EN 605 Project in Agricultural Machinery I
★3 (either term, 3-0-0). Individual study.

AG EN 606 Advanced Soil and Water Engineering I
★3 (either term, 3-0-0). Individual study.

AG EN 607 Data Analysis and Processing
★3 (either term, 3-0-3). Application of statistical techniques to experiments in agricultural engineering including dimensional analysis and curve fitting techniques. Data computation with graphical output.

AG EN 608 Selected Topics in Agricultural Mechanization II
★3 (either term, 3-0-0). Individual study. Application of statistical and mathematical techniques to selected problems in agricultural engineering.

AG EN 609 Agricultural Building Topics II
★3 (either term, 3-0-0). Individual study.

AG EN 610 Advanced Farm Power II
★3 (either term, 3-0-0). Individual study. Selected topics in agricultural power units.

AG EN 611 Project in Agricultural Machinery II
★3 (either term, 3-0-0). Individual study.

AG EN 612 Advanced Soil and Water Engineering II
★3 (either term, 3-0-0). Individual study.

FOREN 650 Selected Topics in Forest Engineering
★3 (either term, 3-0-0). Individual study. (Offered jointly by the Departments of Agricultural Engineering and Forest Science.) [Forest Science]

FOREN 660 Selected Topics in Wood Science I
★3 (either term, 0-3s-0). Individual study. [Agricultural Engineering]

FOREN 661 Selected Topics in Wood Science II
★3 (either term, 0-3s-0). Individual study. [Agricultural Engineering]

204.4 Anatomy and Cell Biology

Department of Anatomy and Cell Biology
514 Medical Sciences Building
University of Alberta
Edmonton, Alberta T6G 2H7

204.4.1 General Information

The Department of Anatomy and Cell Biology offers a program of course work and research leading to the degrees of MSc and PhD. Graduate work in the Department encompasses the broad spectrum of scientific applications inherent within cell biology, including light and electron microscopy, immunohistochemistry, molecular biology, and contemporary techniques in biochemistry.

Address all inquiries to the Graduate Coordinator, Department of Anatomy and Cell Biology.

Entrance Requirements:

Graduate programs are normally open to graduates of general and health-related science programs, provided students obtained a grade point average of 6.5 at the University of Alberta or an equivalent qualification from a recognized institution. Applicants with degrees in other fields will be considered. Where applicable, candidates must have a TOEFL score of not less than 550 (see §202.2.2).

Financial Assistance:

Financial assistance from within the Department is available for outstanding students and is awarded on the basis of merit. Further information regarding financial assistance will be supplied upon request.

204.4.2 The Degree of MSc

Program Requirements:

Candidates for the MSc must prepare an acceptable thesis presenting the results of original research conducted. Candidates will be examined orally on their thesis results by a committee formed according to Faculty of Graduate Studies and Research regulations. Course requirements will be determined by the student's graduate advisory committee in accordance with University regulations.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MSc will vary according to the previous training of the applicant. A minimum of two years is normally required.

204.4.3 The Degree of PhD

Program Requirements:

Students in the PhD program will take an oral candidacy and a final examination, supervised by a committee formed according to Faculty of Graduate Studies and Research regulations.

No language other than English is required for the PhD.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta. Course requirements will be determined by the student's graduate advisory committee in accordance with University regulations.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken. A minimum of three years beyond the MSc degree is normally required.

204.4.4 Graduate Courses

ANAT 612 Research Project
★3 (either term, 2-0-4). Prerequisite: Consent of department.

ANAT 613 Development and Molecular Neurobiology
★3 (first term, 0-3s-0). This course will explore nine topics in developmental neurobiology, including cell lineage, nerve growth and guidance, myelination, synapse formation, axonal transport and response to injury. In particular, the course will emphasize theoretical and experimental aspects, the expanding role of molecular biology in studies in this field, and areas of present and future research. Prerequisite: Consent of department. Note: Offered in alternate years (starting Fall 1989).

204.5 Animal Science

Department of Animal Science
Agriculture/Forestry Centre 310
University of Alberta
Edmonton, Alberta T6G 2P5

204.5.1 General Information

Graduate studies in animal science leading to the degrees of Master of Science, Master of Agriculture, and Doctor of Philosophy may be taken in animal biochemistry, biotechnology, breeding, genetics, growth and development, nutrition, physiology, production, or wildlife management. Domestic and non-domestic species of animals and poultry may be studied. The Department's laboratory complex is known internationally for its state-of-the-art equipment and well-developed support facilities. The Department also maintains a cattle ranch and feedlot, dairy, poultry and swine units, a wildlife field station, and the Laird McElroy Environment and Metabolism Centre.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with a grade point average of at least 7.0 in the last two years of undergraduate (or graduate) work at the University of Alberta or an equivalent qualification from a recognized institution. Where applicable (see §202.2.2), applicants must have a minimum TOEFL score of 550.

Financial Assistance:

Information regarding assistantships and other forms of financial assistance currently available to graduate students will be supplied upon request; address inquiries to the Graduate Coordinator of the Department.

204.5.2 The Degree of MSc

Program Requirements:

Normally, MSc students are required to complete two of the animal science graduate courses listed below plus at least two approved courses selected from the following areas: biochemistry, biometrics, chemistry, computing science, genetics, mathematics, microbiology, physiology, and zoology.

In addition, candidates for the MSc must prepare an acceptable thesis presenting results of research conducted. Candidates will be examined orally on their thesis results by committees formed according to Faculty of Graduate Studies and Research regulations.

There is no language requirement for the degree of MSc, but the thesis must be written in English.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete an MSc program varies according to the undergraduate training of the student and the nature of the research undertaken. Normally, two years are required to complete the degree program.

204.5.3 The Degree of MAg

Program Requirements:

For the MAg degree:

1. the applicant is normally expected to have completed three years of satisfactory professional experience;
2. the minimum residence requirement is one term of full-time attendance;
3. the degree program consists of the equivalent of 30 units of course weight in graduate level courses plus a project equivalent to three units of course weight.

204.5.4 The Degree of PhD

Program Requirements:

Courses for PhD students are selected according to the background and interests of the candidates.

All candidates for the PhD must prepare an acceptable thesis presenting results of research conducted. Candidates will be examined orally on their thesis results by committees formed according to Faculty of Graduate Studies and Research regulations.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

Normally, three years are required to complete the PhD.

204.5.5 Undergraduate Courses

The following may be taken for graduate credit:

POULT 459 Poultry Products and Technology
★3 (first term, 3-0-3). A study of the structure, chemical composition, nutritive value and preservation of eggs and egg products; factors affecting growth, carcass composition and quality of poultry meat; processing and marketing regulations. Prerequisite: Third year standing or higher.

AN SC 460 Fundamentals of Nutrition
★3 (first term, 3-0-0). The nutrients, their character and metabolism. Reading assignments in relevant literature. Prerequisite: Third year standing or higher.

SC 461 Ruminant Nutrition
(second term, 3-0-3). Application of energy metabo-, nutrient requirements, feed processing and feeding ctices. Laboratory exercises in feed formulation. Pre-isite: AN SC 460.

SC 463 Applied Monogastric Nutrition
(second term, 3-0-3). Energy and nutrients in the rition of poultry, swine and other monogastrics. Nutri- requirements and feeding practices. Laboratory ex-ses in feed formulation. Prerequisite: AN SC 460.

SC 470 Swine Production and Management
(first term, 3-0-3). Examination of the structure of the adian swine industry. Evaluation of breeding, feed- and management practices that optimize swine duction efficiency and profitability. Prerequisite: Third r standing or higher.

SC 472 Dairy Production and Technology
(first term, 3-0-3). Structure of the dairy industry. nciples, practices and problems associated with the duction of quality milk. Management, feeding and sing systems to optimize the efficiency of milk pro-tion. Dairy products and processing. Prerequisite: rd year standing or higher.

SC 477 Beef Cattle Production and Management
(second term, 3-0-3). Current practices, changes progress in beef cattle production. Prerequisite: rd year standing or higher.

SC 484 Animal Population Genetics
(first term, 1.5-2s-0). A lecture, library and discus-n course dealing with concepts in evolutionary and pulation genetics. Prerequisite: GENET 197 and third r standing or higher.

SC 485 Animal Improvement
(second term, 3-0-2). Application of genetic princi-s to the improvement of livestock and poultry. Prereq-site: GENET 197 and third year standing or higher.

SC 491 Animal Biochemistry
(second term, 3-0-3). Prerequisite: One single-term urse in introductory biochemistry.

SC 493 Physiological Chemistry of Muscle and at
(second term, 3-0-0). Structure, composition, devel-ment and metabolic role of muscle. Effects of hor-nes, nutrition, stress, slaughter and post-mortem tabolism. Prerequisite: One single-term course in roductory biochemistry.

04.5.6 Graduate Courses

THES 900 Thesis
THES 999 Thesis
AN SC 900★3 Directed Research Project

SC 501 Research Project
3 (either term, 0-3s-0). Individual study. A single-term urse; may be offered over the full session.

SC 510 Ruminant Physiology
3 (first term, 3-0-3). Selected topics in metabolic docrinology and environmental physiology of rumi-nts. Offered in odd-numbered years. Prerequisite: ngle-term courses in biochemistry and physiology.

SC 551 Grazing System Dynamics
3 (second term, 3-0-3). Application of the techniques systems analysis and computer simulation in search and management of livestock and wildlife oduction systems. Prerequisite: Consent of instructor. ffered in odd numbered years.

SC 580 Biometrical Techniques in Agricultural cience I
3 (either term, 3-0-3). Application of biometrical tech-ques to problems in agricultural science. Prerequisite: ourth year standing or higher. Three units of course eight in introductory statistics recommended.

SC 583 Biometrical Techniques in Agricultural cience II
3 (second term, 3-0-3). A continuation of AN SC 580 in e application of biometrical techniques to problems in gricultural science. Prerequisite: AN SC 580 recom-ended.

SC 587 Biometrical Techniques in Quantitative nimal Genetics
3 (second term, 3-0-3). Prerequisite: AN SC 580 rec-mmended. Offered in even-numbered years.

SC 600 Seminar
3 (0-3s-0). Required of all graduate students. A full-ession course; may be offered over a single term.

SC 611 Advanced Animal Bioenergetics
3 (second term, 3-0-0). A lecture and reading course in nimal bioenergetics. Offered in odd-numbered years. rerequisite: Single-term courses in animal physiology, utrition and biochemistry.

AN SC 614 Advanced Vitamin and Mineral Nutrition
★3 (first term, 3-0-0). A lecture and reading course in vitamins and minerals. Offered in odd-numbered years. Prerequisite: Single-term courses in nutrition and biochemistry.

AN SC 615 Advanced Reproductive Endocrinology
★3 (second term, 0-3s-0). A seminar and discussion course on recent developments in reproductive endocrinology with particular emphasis on aspects of domestic animal reproduction. Offered in even-numbered years. Prerequisite: INT D 544 or consent of instructor.

AN SC 616 Advanced Protein Nutrition
★3 (first term, 3-0-0). A lecture and reading course in protein nutrition. Offered in even-numbered years. Prerequisite: AN SC 460 and BIOCH 301 or equivalent.

204.5.7 Reserve List

The Department is unable to offer the following course regularly. Students should consult the Department and/or the University timetable.

AN SC 464 Nutritional Experimentation
★3 (first term, 2-0-3). Design, completion and analysis of nutrition experiments involving several species of animals. Familiarization with laboratory techniques, statistical analyses, literature review and citation and interpretation of experimental data.

204.6 Anthropology

Department of Anthropology
13-15 Tory Building
University of Alberta
Edmonton, Alberta T6G 2H4

204.6.1 General Information

The Department of Anthropology offers the Master of Arts and Doctor of Philosophy degrees. Students contemplating graduate work in anthropology should direct their inquiries to the Associate Chair of the Department.

Deadline for receipt of completed applications for admission is March 1. However, applicants for admission to the PhD program who wish to be considered for University of Alberta PhD Scholarships are encouraged to apply well in advance of March 1.

Entrance Requirements:

The Department's minimum admission requirements are a four-year undergraduate degree with a grade point average of 7.0 in the last two years of undergraduate (or graduate) work at the University of Alberta, or an equivalent qualification from a recognized institution. Individual or exceptional cases will be considered. Where applicable (refer to §202.2.2), candidates must have a TOEFL score of 550 or MELAB score of 85 or higher in order to be considered for admission.

Financial Assistance:

The Department has a number of teaching and research assistantships for which a student may apply.

204.6.2 The Degree of MA

Program Requirements:

In addition to satisfying the general requirements of the Faculty of Graduate Studies and Research, candidates for the MA degree must complete courses in four sub-areas and general theory:

(1) Area I: Biology, Environment, and Culture in Evolutionary Perspective
   a. Sub Area 1: Archaeology and Paleoenvironmental Studies
   b. Sub Area 2: Physical Anthropology and Primatology

(2) Area II: Socio-cultural Processes in the Contemporary World
   a. Sub Area 1: Culture Contact, Development, and World Problems
   b. Sub Area 2: Symbolic, Linguistic, and Cognitive Analysis

(3) Area III: General Theory

The minimum departmental requirement is that each MA candidate must have taken, prior to graduation, 18 units of course weight in the above sub-areas. The topic requirements may be met before entering the MA program as an undergraduate or as a special student.

In addition to the course requirements, candidates must prepare an acceptable MA thesis according to Faculty of Graduate Studies and Research regulations and Department expectations. Candidates must demonstrate to the satisfaction of the examining committee proficiency in the handling of any research tools necessary for the MA thesis.

The department requires that all candidates for the MA degree demonstrate proficiency in a language other than English (not including computer languages).

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

Normally, two years of study and research are needed to complete the requirements for the degree of MA. There is a four year time limit (§202.13).

204.6.3 The Degree of PhD

Program Requirements:

Students entering the program without an MA degree in anthropology must first satisfy the MA requirements.

Requirements for the PhD degree, in addition to those of the Faculty of Graduate Studies and Research, are:

(1) In consultation with the thesis supervisory committee, additional courses may be taken for graduate credit.

(2) Submission of a satisfactory research proposal and passing a candidacy examination.

(3) Submission of a thesis of publishable quality, based on original advanced research and theoretical interpretation.

(4) If the MA language requirement has not been met previously, it must be met prior to the Candidacy examination.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

Normally, all requirements for the degree of PhD can be completed in three years of study and research. There is a six-year time limit (see §202.13).

204.6.4 Undergraduate Courses

The following may be taken for graduate credit:

ANTHR 403 North American Prehistory
★3 (either term, 3-0-0). Prerequisite: ANTHR 306 or consent of Department. Note: Not open to students who have taken ANTHR 411.

ANTHR 405 Lower Paleolithic Prehistory
★3 (either term, 3-0-0). Prerequisite: ANTHR 306 or consent of Department.

ANTHR 406 Middle and Upper Paleolithic Prehistory
★3 (either term, 3-0-0). Prerequisite: ANTHR 306 or consent of Department.

ANTHR 407 Paleopathology
★3 (either term, 3-0-0). Prerequisite: ANTHR 390 or 490, or consent of Department.

ANTHR 410 Sex and Status in Comparative Perspective
★3 (either term, 3-0-0). Prerequisite: ANTHR 110 or consent of Department.

ANTHR 412 Slavery and Slave Societies
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department. Note: ANTHR 225, or 227, or 277 recommended.

ANTHR 414 Peasant Society and Culture
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 and one other senior-level course.

ANTHR 415 History of Anthropology
★3 (either term, 3-0-0). Prerequisite: ANTHR 201 and 307.

ANTHR 418 Political Anthropology
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 and one other senior-level course.

ANTHR 419 Pastoral Societies
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 421 Revitalization Movements in Anthropological Perspective
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 422 Ritual and Myth
★3 (second term, 3-0-0). Prerequisite: ANTHR 101, or 201, or 307, or consent of Department.

ANTHR 423 Ecological Anthropology
★3 (either term, 3-0-0). Prerequisite: ANTHR 306 or 307, or consent of Department.

ANTHR 424 Economic Anthropology
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 425 Anthropology of Work and Production
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 426 Anthropological Perspectives in Ethnomusicology
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 427 Creative Expression I
★3 (first term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 428 Creative Expression II
★3 (second term, 3-0-0). Prerequisite: ANTHR 427, or consent of Department.

ANTHR 431 Multilingualism
★3 (either term, 3-0-0). Prerequisite: ANTHR 308 or consent of Department.

ANTHR 433 The Ethnographic Study of Meaning
★3 (either term, 3-0-0). Prerequisite: ANTHR 308 or consent of Department.

ANTHR 435 Language Prehistory
★3 (either term, 3-0-0). Prerequisite: ANTHR 308, LING 101/102, or consent of Department.

ANTHR 441 Archaeometry
★3 (first term, 3-0-0). Analytical methodology for interpreting the material record of the past; the structures of materials at the microscopic and macroscopic levels; raw materials and production technologies; provenance; dating; prospection; sampling and measure. Archaeological case studies are used throughout. Prerequisite: ANTHR 306 or consent of Department.

ANTHR 442 Applications of Archaeometry
★3 (second term, 0-0-3). A project course concerned with the interpretation of the material record of the past. Exposure to archaeometric laboratory techniques, and to the interpretation of results. A specific research project is to be undertaken. Prerequisite: ANTHR 441 or consent of Department.

ANTHR 445 Circumpolar Prehistory
★3 (either term, 3-0-0). Prerequisite: ANTHR 246, one other course in anthropology, or consent of Department.

ANTHR 446 Circumpolar Ethnology
★3 (either term, 3-0-0). Prerequisite: ANTHR 246, one other course in anthropology, or consent of Department.

ANTHR 447 Culture and the Individual I
★3 (first term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 448 Culture and the Individual II
★3 (second term, 3-0-0). Prerequisite: ANTHR 447 or consent of Department.

ANTHR 450 Kinship and Marriage
★3 (either term, 3-0-0). Prerequisite: ANTHR 213 or 307, or consent of Department. Note: Not open to students with credit in ANTHR 413.

ANTHR 451 Social Structure
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or consent of Department. Note: Not open to students with credit in ANTHR 413.

ANTHR 455 Aboriginal Rights
★3 (either term, 3-0-0). Prerequisite: An introductory course in social or cultural anthropology, or history, or political science, or sociology, or consent of Department.

ANTHR 461 Theory in Social Anthropology
★6 (3-0-0). Prerequisite: ANTHR 307 or consent of Department.

ANTHR 463 The Origins of Food Production
★3 (either term, 0-3s-0). Prerequisite: ANTHR 306 or consent of Department.

ANTHR 465 Cultural Transmission
★3 (either term, 3-0-0). Prerequisite: ANTHR 307 or EDFDN 410 or consent of Department.

ANTHR 466 Theories of Culture Change
★3 (either term, 3-0-0). Prerequisite: ANTHR 101, or 201, or 307, or consent of Department.

ANTHR 467 Applied Anthropology
★3 (either term, 3-0-0). Prerequisite: ANTHR 101, or 201, or 307, or consent of Department.

ANTHR 470 American Indian Linguistics
★3 (either term, 3-0-0). Prerequisite: ANTHR 308, LING 203, or consent of Department.

ANTHR 471 Readings in Anthropology I
★3 (first term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 472 Readings in Anthropology II
★3 (second term, 0-3s-0). Prerequisite: Consent of department.

ANTHR 473 Dene Society in Anthropological Perspective
★3 (either term, 3-0-0). Prerequisite: ANTHR 101, or 201, or 307, or consent of Department.

ANTHR 478 Advanced Studies in Latin American Indian Communities
★3 (either term, 0-3s-0). Prerequisite: ANTHR 261, or 262, or another course on Latin America, or consent of Department.

ANTHR 479 Geoarchaeology
★3 (first term, 3-0-3). Prerequisite: ANTHR 306 and one of GEOL 102/103, 201/204, 292, GEOG 130/131, or 330. Not open to students who have taken ANTHR 498.

ANTHR 481 Development of Archaeological Method and Theory
★3 (either term, 3-0-0). A survey of the approaches and practices used in archaeology prior to 1960; concepts and models used for interpreting archaeological data and cultural history; the relation of culture historical explanations to general anthropological theory. Prerequisite: ANTHR 306 and three other 400-level units of course weight in Anthropology, or consent of Department.

ANTHR 484 Advanced Readings in Anthropology I
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 485 Readings in Social Anthropology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 486 Advanced Readings in Anthropology II
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 487 Readings in Regional Ethnology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 488 Quaternary Pollen Analysis
★3 (second term, 3-0-3). Prerequisite: Consent of Department.

ANTHR 490 Human Osteology for Archaeologists
★3 (either term, 0-3s-3). Prerequisite: Consent of Department.

ANTHR 491 Stone Tools
★3 (either term, 3-0-3). Prerequisite: ANTHR 306 and one other 400-level course in Anthropology, or consent of Department.

ANTHR 492 Problems in Primate Behavior
★3 (either term, 3-0-0). Prerequisite: ANTHR 392 or consent of Department.

ANTHR 493 Field Methods in Primate Studies
★6 (3-0-3). Prerequisite: ANTHR 392, or equivalent, and consent of Department.

ANTHR 494 Forensic Anthropology
★3 (either term, 0-3s-0). Prerequisite: ANTHR 390 or 490, or consent of Department.

ANTHR 495 Archaeological Methods
★3 (either term, 3-0-3). Prerequisite: ANTHR 306, and one other 400-level course in Anthropology, or consent of Department.

ANTHR 496 Advanced Readings in Anthropology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 497 Peopling of the Americas
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

204.6.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis

ANTHR 502 General Scope of Anthropology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 503 The Anthropology of Conflict
★3 (either term, 0-3s-0). Prerequisite: Consent of department. Restricted to graduate and fourth year honors students in anthropology; other students require consent of department.

ANTHR 506 Ethnological Research Methods, Socio-Cultural Processes in the Modern World
★3 (either term, 0-3s-0). Note: Not open to students with credit in ANTHR 504.

ANTHR 508 Methods in Linguistic Anthropology
★3 (either term, 0-3s-3). Prerequisite: Consent of Department.

ANTHR 509 Symbolic and Cognitive Analysis
★3 (either term, 0-3s-0). Note: Not open to students with credit in ANTHR 504.

ANTHR 510 Theory of Culture
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 511 Ethnographic Field Methods I
★3 (first term, 0-3s-0). Prerequisite: Consent of Department. Note: Not open to students with credit in ANTHR 505.

ANTHR 512 Ethnographic Field Methods II
★3 (second term, 0-3s-0). Prerequisite: ANTHR 511 or consent of Department. Note: Not open to students with credit in ANTHR 505.

ANTHR 513 The Transmission of Culture: Enculturation
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 514 The Transmission of Culture: Development and Change
★3 (either term, 0-3s-0).

ANTHR 516 Selected Problems of Modern East Asia
★3 (either term, 0-3s-0). Prerequisite: Consent of department. Restricted to graduate students in anthropology; other students require consent of Department.

ANTHR 521 Topics in Medical Anthropology
★3 (second term, 0-3s-0). Prerequisite: ANTHR 393 or 407; or consent of Department.

ANTHR 530 Comparative Agrarian Societies
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 535 Anthropology and the Nation-state
★3 (either term, 0-3s-0). Prerequisite: Consent of Department. Restricted to graduate students in Anthropology, Sociology, Political Science, or Economics.

ANTHR 537 Seminar in Anthropology of Development
★3 (either term, 0-3s-0). Prerequisite: Consent of Department. Restricted to graduate and fourth year honors students in anthropology.

ANTHR 540 Conference Course in Regional Ethnology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 541 Conference Course in Regional Archaeology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 542 Individual Research
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 544 Advanced Readings in Social Anthropology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 549 Advanced Readings in Regional Ethnology
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 550 Topics in Social and Cultural Anthropology I
★3 (first term, 0-3s-0). Prerequisite: Consent of Departmer

ANTHR 551 Topics in Social and Cultural Anthropology II
★3 (second term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 552 Topics in Archaeology and/or Physical Anthropology I
★3 (first term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 553 Topics in Archaeology and/or Physical Anthropology II
★3 (second term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 554 Seminar in Social and Cultural Anthropology I
★3 (first term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 555 Seminar in Social and Cultural Anthropology II
★3 (second term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 556 Seminar in Archaeology and/or Physical Anthropology I
★3 (first term, 0-3s-0). Prerequisite: Consent of Department.

ANTHR 557 Seminar in Archaeology and/or Physical Anthropology II
★3 (second term, 0-3s-0). Prerequisite: Consent of Department.

ITHR 558 Contemporary Problems in thropology I
(first term, 0-3s-0). Prerequisite: Consent of Depart-nt.

ITHR 559 Contemporary Problems in thropology II
(second term, 0-3s-0). Prerequisite: Consent of partment.

ITHR 581 Contemporary Archaeological Method d Theory
(either term, 0-3S-0). Prerequisite: ANTHR 481, or nsent of Department.

ITHR 591 Advanced Readings in Archaeology
(either term, 0-3s-0). Prerequisite: Consent of De-rtment.

ITHR 593 Evolution and Social Life
(either term, 0-3s-0). Prerequisite: Consent of De-rtment.

T D 594 Quaternary Environments
(3-0-0). Prerequisite: GEOL 492 or GEOG 432 or a ated 400-level course in Anthropology, Botany, Geol-y, Zoology, Forest Science or Soil Science. (Offered ntly by the Departments of Anthropology and Geol-y). [Geology].

NTHR 595 Seminar in Archaeology
(either term, 0-3s-3). Prerequisite: Consent of epartment.

NTHR 598 Prehistoric Cultural Ecology
(either term, 0-3s-0). Prerequisite: Consent of epartment.

NTHR 599 Seminar in Paleoenvironmental Studies
(second term, 0-3s-0). Prerequisite: ANTHR 488, d 498, or consent of Department.

NTHR 616 Topics in Social and Cultural nthropology I
(first term, 0-3s-0). Prerequisite: Consent of De-rtment.

NTHR 617 Topics in Social and Cultural nthropology II
(second term, 0-3s-0). Prerequisite: Consent of epartment.

NTHR 618 Topics in Archaeology and/or Physical nthropology I
(first term, 0-3s-0). Prerequisite: Consent of De-rtment.

NTHR 619 Topics in Archaeology and/or Physical nthropology II
(second term, 0-3s-0). Prerequisite: Consent of epartment.

NTHR 620 Seminar in Social and Cultural nthropology I
(first term, 0-3s-0). Prerequisite: Consent of De-rtment.

NTHR 621 Seminar in Social and Cultural nthropology II
(second term, 0-3s-0). Prerequisite: Consent of epartment.

NTHR 622 Seminar in Archaeology and/or hysical Anthropology I
(first term, 0-3s-0). Prerequisite: Consent of De-rtment.

NTHR 623 Seminar in Archaeology and/or hysical Anthropology II
(second term, 0-3s-0). Prerequisite: Consent of epartment.

NTHR 624 Contemporary Problems in nthropology I
(first term, 0-3s-0). Prerequisite: Consent of De-rtment.

NTHR 625 Contemporary Problems in nthropology II
(second term, 0-3s-0). Prerequisite: Consent of epartment.

04.7 Applied Sciences in Medicine

epartment of Applied Sciences in Medicine
0-102 Clinical Sciences Building
niversity of Alberta
dmonton, Alberta T6G 2G3

04.7.1 General Information

Research facilities and lecture courses for graduate rograms are offered by the Department of Applied ciences in Medicine. The Department offers programs leading to the degrees of Master of Science and Doctor of Philosophy, the latter being offered as a part of the PhD in medical sciences interdisciplinary program (see §204.49). By special arrangement, students may register in other departments but carry out their research and be co-supervised within the Department of Applied Sciences in Medicine.

The areas most actively encouraged for research and education are: medical physics, clinical and biomedical engineering, medical informatics, and medical instrumentation.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with a grade point average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from another institution, and a TOEFL score of 550 or higher where applicable (refer to §202.2.2).

Financial Assistance:

Financial assistance is available to students in the form of graduate research assistantships and through application to external agencies.

204.7.2 The Degree of MSc

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student; however, the MSc program offered by the Department normally consists of a minimum of 12 units of course weight in graduate courses and a thesis.

There is no language requirement for the MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of research undertaken; however, a minimum of two years is normally required.

204.7.3 The Degree of PhD

Program Requirements:

The PhD program is offered as part of the medical sciences interdisciplinary program and normally consists of five single-term graduate courses (or equivalent) and the preparation and defence of a dissertation on an approved topic.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

Normally, a minimum of three years are required to complete the PhD.

204.7.4 Undergraduate Courses

ASM 475 Introduction to Medical Physics
★3 (first term, 3-0-0). Gives an overview of the practical applications of physics in modern clinical medicine. Covers the use of radiation and radioisotopes in therapy and diagnosis, nuclear medicine, medical imaging (via x-rays, gamma rays, nuclear magnetic resonance, positron emission), bio-electricity and -magnetism, optics, acoustics, etc. Prerequisite: PHYS 271 or equivalent.

204.7.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis

ASM 501 Hospital Information Systems
★3 (either term, 3-0-0). Detailed study of an integrated hospital information system, for lessons in effectiveness, efficiency and elegance, as a vehicle for learning design. Covers program structures and algorithms, data representations and structures, user-visible aspects; stresses soundness and maintainability of programs. Involves a major creative project. Prerequisite: Graduate-level competence in Cobol.

ASM 509 Topics in Medical Informatics
★3 (either term, 3-0-0). Individual sections dealing with such topics as medical databases, biostatistical processing. Prerequisite: Consent of instructor.

EE AS 512 Physical Measurements in Medicine
★3 (either term, 3-1s-0). Properties of the cell membrane, Nernst-Planck equation, Donnan membrane, constant field membrane, membrane impedance. Action potentials, voltage clamp measurements, membrane conductance, H-H equations, nerve conduction. Mathematical models of the axon. Electrodes. Gas and blood gas analysis. The ECG, EEG, and EMG, origin and type of these signals, measurement techniques. Blood flow and blood pressure measurements (invasive and non-invasive). Safety aspects of electrical equipment in medicine. Prerequisite: Consent of Department.

ASM 513 Topics in Biomedical Engineering
★3 (either term, 3-0-0). Individual sections covering such topics as non-ionizing radiation, neurophysiological signal processing. Prerequisite: EE AS 512 or consent of instructor.

EE AS 540 Digital Computer Processing of Images
★3 (either term, 3-0-3). Extension of sampling theory and the Fourier transform to two dimensions, pixel operations including gray-level modification, algebraic and geometric transformations. The design of spatial filters for noise reduction, image sharpening and edge enhancement and some discussion of interpolation techniques. An introduction to the concepts of image restoration from known degradations and the reconstruction of images from parallel and fan projections. Prerequisite: E E 538 or consent of instructor.

ASM 575 Magnetic Resonance in Biology and Medicine I
★3 (first term, 3-0-0). The physical principles behind the application of nuclear magnetic resonance spectroscopy in fields from biochemistry to medicine. Topics include: Fourier transform NMR, multipulse techniques, 2-dimensional NMR, relaxation theory, *in vivo* spectroscopy, NMR imaging. Designed for advanced honors and graduate students interested in the application of NMR to biological systems. Intended to be followed by BIOCH 575. Offered in alternate years. Prerequisite: Consent of the instructor.

ASM 579 Topics in Medical Physics
★3 (second term, 3-0-0). Individual sections dealing with such topics as computed tomography, nuclear magnetic resonance, therapeutic radiation. Prerequisite: PHYS 475, 477 or consent of the instructor.

ASM 599 Project in Applied Sciences in Medicine
★3 (either term, 0-0-6). Practical application of science to problems in health care; involves report on problem and alternative solutions, plus complete demonstration and documentation of chosen solution. Prerequisite: Any ASM course or consent of department.

ASM 600 Seminars in Applied Sciences
★2 (0-2s/2-0). A series of seminars designed to expose graduate students to the various areas of research and to provide a forum for progress reports in individual areas. Seminars from research workers from inside and outside the University will be included. Seminars are held in an informal atmosphere with ample opportunity for discussion.

ASM 609 Advanced Topics in Medical Informatics
★3 (either term, 3-0-0). Prerequisite: Consent of department.

ASM 613 Advanced Topics in Biomedical Engineering
★3 (either term, 3-0-0). Prerequisite: Consent of department.

ASM 679 Advanced Topics in Medical Physics
★3 (either term, 3-0-0). Prerequisite: Consent of department.

204.8 Art and Design

Department of Art and Design
3-98 Fine Arts Centre
University of Alberta
Edmonton, Alberta T6G 2C9

204.8.1 General Information

The Department of Art and Design offers graduate programs leading to the Master of Visual Arts degree in a wide range of studio disciplines. The Department also offers graduate programs leading to the Master of Arts degree in history of art and design.

Programs leading to the MVA degree in studio are designed to provide advanced studies in industrial design, painting, printmaking, sculpture and visual communication design.

Programs leading to the MA degree in the history of art and design provide for advanced study and research with a concentration on the 19th and 20th centuries.

Graduate students in studio are provided with adequate independent working spaces and with access to all the equipment necessary to develop their studies and explorations. A well-endowed University library and a departmental slide library holding over 120,000 slides provide reference material. Twenty-five full-time members in the academic staff are available for supervision and discussion.

Inquiries should be addressed to the Coordinator of Graduate Studies, Department of Art and Design.

Entrance Requirements:

The Department's minimum admission requirements are a general undergraduate degree with a grade point average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (refer to §202.2.2).

Financial Assistance:

Graduate teaching and research assistantships and a number of scholarships are available to qualified students. For details, see the Awards section of the Calendar.

204.8.2 The Degree of MVA

Entrance Requirements:

An applicant must normally hold a bachelor's degree in fine arts (or its equivalent) from a recognized institution. Candidates who, in the view of the Department, need to make up prerequisite courses will normally spend one additional year in preparation.

Applicants will be required to submit visual records or a portfolio of work and documentation of their previous experience to the Department before February 15 of the year of application.

Program Requirements:

All candidates require credit in ART 630.

Candidates in fine arts programs require credit in two studio courses at the 600-level and two history of art and design courses chosen from 400 or 500 or 600-level courses with consent of the Department.

Candidates in design programs require credit in:

(1) either of DES 672 or DES 692 and either of DES 673 or DES 693;

(2) DES 675 or DES 695 or a history of art and design course chosen from a 400, 500 or 600 level course in aspects of design in the 19th or 20th centuries.

(3) a course chosen from selected courses offered by other departments, or from courses at the 400, 500 or 600 level in the history of art and design, or courses in studio or design theory and technology at the 400 or 500 level in an area other than the student's own division. Consent of the Department is required.

Course work must be completed before commencement of the thesis. First term studio courses may not be repeated; however, second term studio courses may be repeated with consent of the Department.

After all other program requirements have been satisfactorily met, candidates must make a major presentation of their creative work. Such a presentation will be considered the equivalent of a master's thesis. The Department of Art and Design reserves the right to select and retain up to two works from the final MVA thesis presentation.

There is no language requirement for the degree of MVA.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

Candidates will normally require two academic years to complete their program of studies.

204.8.3 The Degree of MA in the History of Art and Design

Entrance Requirements:

An applicant must normally hold an Honors degree in the History of Art (or its equivalent) from a recognized institution.

Applicants with a bachelor's degree other than History of Art will be considered for admission provided that an adequate background in the History of Art, equivalent to an Honors degree in the discipline, can be demonstrated.

Program Requirements:

Applicants who are accepted will normally require two academic years in residence to complete their program of studies. Exceptions to this regulation will require the consent of the Department and the Faculty of Graduate Studies and Research.

Candidates who, in the view of the Department, need to make up prerequisite courses will normally have to make up the deficiencies prior to acceptance into the graduate program.

The graduate program consists of two phases:

Phase I (first year)

In the first year of the program students will be required to take:

(1) 24 approved units of course weight chosen from History of Art and Design offerings at the 500- and 600-levels

(2) three units of course weight in a 600-level graduate seminar

(3) a translation test in a language other than English, normally French, German, or Italian.

Phase II (second year)

Admission to Phase II is contingent upon the satisfactory completion of all the requirements in Phase I. Course work from Phase I may not be repeated.

Phase II consists of the preparation, presentation and defense of a master's thesis on a topic approved by the Department.

Length of Program:

Applicants who are accepted will normally require two years to complete their program of studies. Candidates who, in the view of the Department, need to make up prerequisite courses will normally spend a longer period of time to complete their graduate program.

204.9 Biochemistry

Department of Biochemistry
474 Medical Sciences Building
University of Alberta
Edmonton, Alberta T6G 2H7

204.9.1 General Information

The Department of Biochemistry offers programs leading to the degrees of Master of Science and Doctor of Philosophy. Both require the completion of a research program and the preparation of a thesis.

The research interests of the faculty members cover a broad spectrum, including nucleic acid-protein interactions, regulation of gene expression, structure and function of proteins, muscle biochemistry, molecular virology, mechanisms of enzyme catalysis, lipid and lipoprotein metabolism, metabolic regulation, the structure, function and assembly of biological membranes, receptor-mediated endocytosis, and mechanisms of action of anti-cancer drugs.

The Department, which is mainly located on two floors (55,000 square feet) of the Medical Sciences Building, is extremely well-endowed in terms of both equipment and support facilities. These include state-of-the-art X-ray diffractometers and computer facilities, protein sequencers, amino acid analyzers, peptide synthesizers, analytical and preparative ultra-centrifuges, fluorimeters, spectropolarimeters, TEM/STEM electron microscope, scanning calorimeters, high-field NMR spectrometers, as well as numerous spectrophotometers, high-pressure liquid chromotography instruments, centrifuges, scintillation counters, and extensive tissue culture facilities. It is also the home of The MRC Group in Protein Structure and Function (Drs. Smillie, Kay, Sykes, James, Hodges) and to four members of the Lipid and Lipoprotein Research Group (Drs. Vance, Brindley, Schneider, Ryan). Research funding, primarily from agencies such as the Medical Research Council of Canada and the National Cancer Institute, amounts to over $4.1 million per year.

Entrance Requirements:

The Department generally does not consider accepting students with an overall grade point average of less than 7.0 in their undergraduate years at the University of Alberta, or an equivalent qualification from another institution, and (where applicable) a TOEFL score of 600 (see §202.2.2).

Financial Assistance:

Students who are accepted into the graduate program are encouraged to apply for studentships from either the

ical Research Council of Canada ($14,140 per
m) or the Alberta Heritage Foundation for Medical
earch ($14,140 per annum). All successful applicants
ither agency are eligible to receive a research
rance of $1,000 from the Heritage Foundation to
y costs (including travel to scientific meetings) of
research project. Graduate assistantships are also
able from the Department.

4.9.2 The Degree of MSc

gram Requirements:

Course requirements depend on the area of
ialization and the undergraduate background of the
ent. However, all students are required to take a
num of six units of course weight in senior-level
or 500 series) biochemistry courses, plus such
ional courses, offered by this or other departments,
e individual student's supervisor feels are relevant
e student's program. In addition, all students are
ired to enroll and present two seminars in BIOCH
(as an audit in the first and for credit in the second
of their program), and to participate in other seminar
ses (BIOCH 623, 626, 640) that are appropriate to
research program.
All candidates for the MSc degree must prepare an
ptable thesis describing the results of their research
ities, and be examined orally on the thesis by a
mittee formed according to FGSR regulations.
The Department does not require knowledge of any
uage other than English for the MSc degree.

gth of Program:

The time required to complete the program will vary
rding to the previous training of the applicant and
nature of the research undertaken, but normally, two
ree years of study and research is required.

4.9.3 The Degree of PhD

gram Requirements:

Course requirements depend upon the area of
cialization and the undergraduate background of the
ent. However, all students are required to take a
mum of 12 units of course weight in senior-level
or 500 series) biochemistry courses, plus such
tional courses, offered by this or other departments,
e individual student's supervisor feels are relevant
e student's program. In addition, all students are
ired to enroll and present two seminars in BIOCH
(as an audit in the first and for credit in the second
of their program), to participate in other seminar
ses (BIOCH 623, 626, 640) that are appropriate to
research program, and in the final year of the
ram, to present a BIOCH 671 seminar describing
results of their research program.
All candidates for the PhD degree must prepare an
ptable thesis describing the results of their research
vities, and be examined orally on the thesis by a
mittee formed according to FGSR regulations.
The Department does not require knowledge of any
uage other than English for the PhD degree.

gth of Program:

The time required to complete the PhD will vary
rding to the previous training of the candidate, but
nally, a minimum of four years of study and research
quired. Students already possessing an MSc degree
Biochemistry may be able to complete the PhD
gram within three years.

4.9.4 Graduate Courses

BIOCH 301 is a prerequisite to all graduate courses.
n the exception of BIOCH 501 and the seminar
rses (BIOCH 623, 626, 640 and 671), graduate
rses are offered in alternate years. Those which will
resented in 1990/91 are BIOCH 510, 511, 512, 581,

THES 900 Thesis
THES 999 Thesis

CH 450 The Molecular Biology of Mammalian
uses
(second term, 3-0-0). Prerequisite: BIOCH 301 or
ivalent and consent of department. Offered in alter-
e years.

CH 500 Physical Biochemistry
(3-0-0). Prerequisite: BIOCH 301 or equivalent, and
EM 270 or 372. Offered in alternate years.

CH 501 Advanced Laboratory
(0-0-8). Note: Available to fourth-year honors and
cialization in biochemistry students only.

D 510 Lipid and Lipoprotein Metabolism
(second term, 3-0-0). Prerequisite: BIOCH 301 or
ivalent. Offered in alternate years.

BIOCH 511 Enzymology
★3 (first term, 3-0-0). Prerequisite: BIOCH 301 or equivalent and CHEM 270 or 372, or consent of department. Offered in alternate years.

BIOCH 512 Genetic Control Mechanisms
★3 (second term, 3-0-0). Prerequisite: BIOCH 301 or equivalent. Offered in alternate years.

BIOCH 521 Nucleic Acids
★3 (first term, 3-0-0). Prerequisite: BIOCH 301 or equivalent. Offered in alternate years.

BIOCH 531 Protein Structure
★3 (second term, 3-0-0). Prerequisite: BIOCH 301 or equivalent, CHEM 270 or 372. Note: Designed for advanced Honors and Graduate students and offered in alternate years.

BIOCH 575 Magnetic Resonance in Biology and Medicine II
★3 (second term, 3-0-0). Prerequisite: ASM 575. Offered in alternate years.

BIOCH 590 Structure and Function of Biological Membranes
★3 (first term, 3-0-0). Prerequisite: BIOCH 301 or equivalent or consent of department.

BIOCH 609 Macromolecular Structure Analysis II
★3 (second term, 3-0-3). Prerequisite: Consent of the instructor. Maximum enrollment of 10 students. Offered in alternate years.

BIOCH 623 Special Topics in Research on Poly—nucleotides
★2 (0-1s-0).

BIOCH 626 Special Topics in Protein Research
★2 (0-1s-0). Prerequisite: BIOCH 511 and 531 or consent of department.

BIOCH 640 Special Topics in Research on Biomembranes
★2 (0-1s-0). Prerequisite: BIOCH 590 or consent of Department.

BIOCH 671 Recent Advances
★4 (0-2s-0).

204.10 Biology

204.10.1 General Information

A number of graduate courses in biology are offered by members of the Departments of Medical Microbiology, Botany, Entomology, Genetics, Microbiology, and Zoology. As there is, however, no formal graduate program in general biology, prospective students should apply to the department most appropriate to their interests.

204.10.2 Graduate Courses

BIOL 315 History and Theory of Biology
★3 (first term, 3-0-0). An outline of biological discovery from early times to the present, and of the principal ideas stemming from or influencing the life sciences; both in relation to social, historical and cultural developments. Especially recommended to honors and specialization students in the biological subjects, but open to other third and fourth year students interested in the history of science as a force in the development of culture. Prerequisite: A 200-level Biological Science course.

BIOL 445 Cell Physiology
★3 (second term, 3-0-0). Current advances in cell biology. The integration of biochemical and structural changes with cell function. Designed for third and fourth year honors and specialization students in the biological sciences. Prerequisite: A 300-level biological sciences course or consent of department.

BIOL 507 Taxometrics
★3 (first term, 3-0-0). Theoretical and practical aspects of quantitative classification. Relation of taxonomic systems to information retrieval and Infectious Diseases. Prerequisite: Consent of department of Medical Microbiology and Infectious Diseases.

BIOL 585 Electron Microscopy
★3 (second term, 0-0-6). Prerequisite: BIOL 584 strongly recommended; PHYS 319 recommended. Note: Enrolment strictly controlled due to limited facilities; consent of the instructor required.

BIOL 620 Seminar in Selected Topics of Modern Biology
★according to work done to a maximum of 3 (second term, 0-3s-0). Prerequisite: Consent of department.

BIOL 684 Current Topics in Cellular Organization
★3 (first term, 3-0-0). A discussion of current research on the correlation of structure and function of eukaryotic cells. Prerequisite: Consent of department.

204.11 Botany

Department of Botany
B414 Biological Sciences Building
University of Alberta
Edmonton, Alberta T6G 2E9

204.11.1 General Information

The Department of Botany offers programs leading to the degrees of Master of Science and Doctor of Philosophy.

The Department has a phytotron comprising 18 plant growth rooms, 23 greenhouses, 40 plant growth chambers, and numerous cold storage facilities. It has well-equipped research laboratories for investigations in the following fields: Structural Botany — studies of vascular plant development emphasizing seed plant embryology; light and electron microscopy, and histochemistry; Biochemistry — the biochemistry and molecular biology of seed germination; pathways for amino acid biosynthesis, studies of transmethylation and transamination reactions, intermediary metabolism of higher plant tissues; Bryology — monographic and evolutionary studies of mosses; ecology and taxonomy of arctic bryophytes; ecology and development of peatlands; Ecology — studies of aquatic, wetland, grassland, parkland, mountain, boreal, sub-arctic and arctic plant communities, with emphasis on structure, dynamics, classification, productivity, and physiological ecology; Morphogenesis — the control of growth and development in sun and shade conditions; Mycology — taxonomic and ecological studies emphasizing relationships with other plants; Paleobotany — studies of mega-fossils, with emphasis on vascular plants; Phycology and Limnology — productivity; ecological, physiological, paleolimnological and distribution studies of phytoplanktonic and benthic algae in lakes and rivers; ecological studies of submerged hydrophytes; Physiology — phytochrome and hormonal regulation of growth and development; Taxonomy — studies of western Canadian and arctic taxa using a variety of modern techniques including cytology and chemotaxonomy.

A number of undergraduate courses offered by the Department of Botany are also available and may be taken in conjunction with graduate courses. Senior and advanced courses offered by other departments in the Faculty of Science may be accepted as part of graduate programs in botany. The Chair of the Department of Botany must be consulted in the selection of such courses.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution. In order for a student whose first language is not English to be accepted into a graduate program in the Department formal evidence must be provided that the candidate has achieved a TOEFL score of 550 (600 to be considered for a teaching assistantship).

Financial Assistance:

Graduate assistantships are available for qualified students. Financial assistance is also available through research grants to staff members in some fields of botany.

204.11.2 The Degree of MSc

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student; however, the MSc program normally consists of three single-term courses and a thesis.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

Normally, three years of full-time study are required to complete the MSc.

204.11.3 The Degree of PhD

Program Requirements:

The PhD program normally consists of 12 units of course weight and the preparation and defence of a thesis on an approved topic.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, four years of full-time study are normally required.

204.11.4 Undergraduate Courses

The following undergraduate courses may be taken for graduate credit. Some courses may be offered only in alternate years.

BOT 302 Biology of Algae
★3 (first term, 3-0-3). Origins and evolution of algae; their comparative morphology, life histories and taxonomy; aspects of their ecology and physiology; adaptations to different habitats and environments; algae and symbiosis; economic aspects. Prerequisite: BOT 201. Offered in alternate years.

BOT 305 Biology of Bryophytes
★3 (second term, 3-0-3). The identification, classification and morphology of mosses, hepatics, and hornworts. Special emphasis is given to phylogeny and ecology of mosses. Lectures include such topics as botanical nomenclature and cladistics as applied to bryophytes, phytogeography, and origins of land plants. The laboratories stress the comparative structure of bryophyte families and genera. Prerequisite: BOT 201. Offered in alternate years.

BOT 306 Biology of the Fungi
★3 (first term, 3-0-3). A systematic review of the major divisions and orders of the fungi with special emphasis on the identification and characterization of fungal groups which are economically important or significant components of the mycroflora of Western Canada. Traditional methods of handling and classifying the fungi will be discussed with reference to recent investigations concerning structure, ultrastructure, biochemistry and genetics. Ecological strategies of saprophytic fungi, and mechanisms of pathogenesis in species parasitic on plants, mammals, fish, reptiles and other animals, will be surveyed and compared. Current theories on the origin and evolution of fungi will be discussed. Prerequisite: BOT 201 or PL SC 380. Offered in alternate years.

BOT 310 Morphology and Evolution of Seed Plants
★3 (second term, 3-0-3). A morphological and evolutionary survey of seed plants. Discussion based primarily on living plants but with the inclusion of paleobotanical evidence. Emphasis upon seed ferns, cycads, conifers, dicotyledonous and monocotyledonous plants. (Offered in alternate years). Prerequisite: BOT 210.

BOT 330 Vegetation Science and Mathematical Ecology
★3 (second term, 3-0-3). Methods course consisting of: description, classification, and ordination of plant communities; inventory and mapping of vegetation; detection and description of spatial patterns and associations within and among plant populations; theory and practice of sampling; interpretation of field data. Lab consists of 8 three-hour exercises. Prerequisite: BOT 230 and 231, MATH 115, STAT 237 or equivalents. Offered in alternate years.

BOT 411 Paleobotany
★3 (first term, 3-0-3). The fossil record of plants as it relates to the evolutionary history of existing groups. Prerequisite: A 300-level biological or earth sciences course. Offered in alternate years.

BOT 419 Plant Microtechnique
★3 (second term, 3-0-3). Theory and practice of preparing plant cells and tissues for observation with light and scanning electron microscopy. Fixation, dehydration, embedding, sectioning, standard staining procedures, some histo-chemistry, use of light microscope, introduction to modern embedment media. Prerequisite: BOT 219 and a 300-level Botany course. Any course in plant biology recommended. Offered in alternate years.

BOT 431 Ecophysiology Ecology
★3 (first term, 3-0-3). Theory and practice of ecophysiological research. Design of experiment instrumentation, measurement of environmental parameters. Study of physiological responses of plants. Data processing and interpretation of results. Experiments in field and lab (Phytotron). Prerequisite: BOT 230 or 231 and a 300-level Biological or Earth Sciences course. Offered in alternate years.

BOT 433 Lake and Peatland Development
★3 (first term, 3-0-3). An introduction to field and laboratory techniques in studying lake and peatland histories along with a critical evaluation of the parameters used to make interpretations about their history. Parameters discussed include physical, chemical (clastic, organic and fossil pigments), and biotic (bryophytes, pollen, seeds, diatoms, chrysophytes). Both natural development and modified systems will be discussed. Prerequisite: BOT 201 and a 300-level biological or earth sciences course. Offered in alternate years.

BOT 435 Plant Geography
★3 (second term, 3-0-0). The principles of plant geography. Patterns of plant distribution and their interpretation with respect to the evolution of floras. Prerequisite: BOT 210 or 230 or 231 and a 300-level biological or earth sciences course. Offered in alternate years.

BOT 440 Physiology of Growth and Development
★3 (first term, 3-0-0). Lectures and seminars on the involvement of plant growth substances and pigments in the regulation of plant growth and development. The influence of environmental factors on this regulation will be emphasized. Prerequisite: BOT 250 and a 300-level Botany course. Offered in alternate years.

INT D 455 Molecular Plant Development
★3 (second term, 3-0-0). Recent advances in plant molecular biology will be introduced through a study of plant development at the molecular level. The course will examine how developmental processes can be used as model systems to study gene expression in higher plants. Both developmental regulation and stress induced alteration of gene expression will be covered using specific examples. Prerequisite: BOT 382 or PL SC 301. GENET 270 recommended. Offered in alternate years (Offered jointly by the Departments of Botany and Plant Science.) [Botany].

BOT 490 Special Problems
★6 (3-0-3). Research project approved and supervised by a member of the Department of Botany. This is a required course for honors and specialization students to be taken in their final year. Both a report and a seminar discussing the research topic are required. Prerequisite: A 300-level Botany course. Available to fourth year students only.

BOT 491 Special Problems
★3 (either term, 3-0-3). A project approved and supervised by a member of the Department of Botany. Prerequisite: A 300-level Botany course.

BOT 492 Special Problems
★3 (either term, 3-0-3). A project, approved and supervised by a member of the Department of Botany. Note: This course would enable a student to take two one-term projects in the same term or one in each of two different terms. Prerequisite: A 300-level Botany course.

204.11.5 Graduate Courses

The following table lists renumbered graduate courses effective 1990-91:

Old	New	Old	New
BOT 504	BOT 506	BOT 532	BOT 505
BOT 509	BOT 409	BOT 551	BOT 540
BOT 511	BOT 530	BOT 552	BOT 542
BOT 514	BOT 520	BOT 553	BOT 543
BOT 531	BOT 504	BOT 561	BOT 511

The following table lists renumbered graduate courses effective 1991-92:

Old	New
BOT 409	BOT 509

THES 900 Thesis
THES 999 Thesis

Note: Graduate level course will be offered only if the numbers warrant. Contact the department.

BOT 504 Algae: Biology and Identification
★3 (first term, 3-0-3). Treatment of contemporary topics with the laboratory component emphasizing the freshwater biota, and techniques used to study and identify algae. Offered in alternate years.

BOT 505 Biosystematics of teh Mosses
★3 (second term, 3-0-0). Lectures, discussions and surveys of the literature of approaches and techniques for studying the phylogeny of mosses. The course will include a historical review of bryology and invited lectures on such topics as phylogenetics, nomenclature, phenetics, biometric analyses of population, experimental taxonomy and herbarium practices. Offered in alternate years.

BOT 506 Advanced Mycology
★3 (second term, 3-0-0). Reports and discussion of major and current research in the biosystematics and ecology of the fungi. Evaluation of methods of invesitgation in these areas. Offered in alternate years.

BOT 509 Advanced Structural Botany
★3 (second term, 3-0-0). Seminar discussion of current topics in Structural Botany including both research and technical advances. Offered in alternate years.

BOT 511 Advanced Paleobotany
★3 (second term, 3-0-3). Special problems in paleobotany involving laboratory techniques and readings of current literature and oral written presentation. Offered in alternate years.

BOT 520 Advance Taxonomy
★3 (second term, 3-0-0). Seminar course with assign reading, essays, and discussion of modern taxono its principles and problems. Offered in alternate year

BOT 530 Advanced Plant Ecology
★3 (second term, 3-0-0). Seminar discussion of ma and contemporary topics in plant ecology, using gene readings and students' abstracts of published pape Offered in alternate years.

BOT 540 Physiology of Plant Nutrition
★3 (second term, 3-0-0). A survey of the structure a function of plant organelles, tissues and organs as th relate to the long distance transport of nutrients. Partic lar emphasis will be placed on the transfer of materi through the phloem. The course will comprise lectures a written and oral presentations. Offered in alternate yea

BOT 542 The Mineral Nutrition of Plants
★3 (second term, 3-0-0). A broad treatment of t acquisition and utilization of mineral nutrients by high plants. Specific topics will include the effect of pla roots on the solubility and availability of soil minera the role of roots, root hairs, root nodules, and mycorrh in mineral acquisition, mechanisms of ion transp across the plasma membrane, functions of macronutrien micronutrients, and the beneficial elements, chemi composition of plant tissues,and response of plants mineral deficiencies and toxicities. Offered in alterna years.

BOT 543 Plant Stress
★3 (second term, 3-0-0). The response of plants environmental stress. The primary focus will be on me (Al, Mn, Cu, Pb, Ni, Zn) stress, arising from agricultu practices, industrial activity, waste disposal, and urba zation. Specific topics will include uptake and accumulati of toxic metals, the concept of toxicity thresholds, me interactions, the physiology of metal tolerance and to icity, the ecology of metal contaminated sites, evoluti and metal-tolerant ecotypes, the role of Al and Mn i agricultural productivity on acid soils, breeding for me tolerance in crop cultivars, and amelioration of me stress. Other types of plant stress will also be discusse Offered in alternate years.

INT D 551 Advanced Plant Biochemistry
★3 (second term, 3-0-0). Selected topics in plant m tabolism, with particular emphasis on mitochondrial electr transport, phosphorylation, and recent advances in c bon assimilation. Evaluation of current research a methods of investigation in these fields. Offered alternate years. Prerequisite: Consent of instructor; BIO 301 or PL SC 331 and 432. (Offered jointly by the Depa ments of Botany and Plant Science.) [Plant Science]

204.12 Business

Faculty of Business

University of Alberta
Edmonton, Alberta T6G 2R6

204.12.1 General Information

The Faculty of Business offers programs leading the degrees of Master of Business Administration a Master of Public Management, designed for stude preparing for careers in private or public manageme and a Doctor of Philosophy in Business Management

Entrance Requirements:

The minimum admission requirements of the Facu of Business are those of the Faculty of Graduate Studi and Research; namely, an undergraduate degree w an average of at least 6.5 in the last two years undergraduate work (or graduate work) at the Univers of Alberta, or an equivalent qualification from a recogniz institution.

All applicants are required to write the Gradu Management Admission Test, and have their scor forwarded to the appropriate individual (i.e. Associa Dean - MBA/MPM Programs; or the Director - P Program; Faculty of Business). Registration to write GMAT must normally be received by the Educatio Testing Service approximately eight weeks before t test date. Further information and application forms a available from the Student Access Centre, Administrati Building, University of Alberta, Edmonton, Alberta. Althou no arbitrary standard is employed, a score well abo 550 is desirable.

In addition to the above requirements, all stude for whom English is not their native language must w and pass the Test of English as a Foreign Langua Students must obtain a minimum score of 600 bef formal admission approval can be given. Further informat and application forms are available from the Stude Access Centre.

Additional entrance requirements are listed below, der the heading of the specific degree program.

nancial assistance: Master's Programs:

The Faculty of Business has a limited number of duate assistantships which range from $4,116 to 230 (1990-91 scale) depending on the academic tus of the student.

Most graduate assistantships awarded by the Faculty Business will be determined early in June. Applicants o are interested in being considered for such awards strongly urged to complete their applications not r than mid-April. In particular, the Graduate Management mission Test must have been written not later than March sitting of that test.

A limited number of fellowships and scholarships also available. All students applying for these awards ist submit their applications to the Office of Student vards by February 1st.

For more information write to the Associate Dean, BA/MPM Programs, or the Director, PhD Program, culty of Business.

Doctoral Program: The Faculty of Business offers duate assistantships up to a maximum of approximately 6,800 for three terms (1990-91 scale). A number of ractive fellowships are also available (see §206 of this lendar).

04.12.2 The Degree of MBA

ntrance Requirements:

Admission to a program of graduate studies in the culty of Business is based on the applicant's dergraduate grades, three letters of reference, a tement of purpose explaining how the MBA relates to applicant's career goals, and the applicant's Graduate nagement Admission Test score. For candidates erested in this program, work experience is also sirable.

rogram Requirements:

The two-year MBA program is designed for students m various educational backgrounds; no specific dergraduate major is required for entrance. A choice a course-based or thesis-based route is available to ndidates. Students admitted into the program will rmally be classified as Category B master's candidates llowing the definition set out in §202.4(4) of the lendar. Selected individuals who already possess a gnificant portion of the degree training (eg. transfer udents from other recognized MBA/MPM programs) ll be considered for recommendation as Category A aster's candidates. All MBA students are required to mplete a total of 57 units of course weight (including esis or project).

Phase one: The first year of the MBA program ovides an integrated foundation of core courses in havioural, quantitative, and social sciences, and an troduction to the functional areas of accounting, finance, d marketing. Students with a strong background in ny of these areas may be exempted through examination. owever, a student who is exempted from one or more quired first year MBA core courses must take rrespondingly more elective courses to leave the total ngth of the program unaffected. This policy is not tended to affect the programs of students who may ceive transfer credit from other institutions. Completion all 30 units of course weight in the core courses quires one full academic year.

The second phase of the program provides students ith the opportunity to pursue in some depth courses in elds of their choice.

Phase two: The course-based option consists of 27 nits of course weight. BUS 676 and either BUS 678 or IANEC 678 are required, along with 18 units of course eight in elective courses and a project which is equivalent 3 units of course weight.

The thesis-based option consists of 18 units of ourse weight. BUS 676 and either BUS 678 or MANEC 78 are required along with 12 units of course weight in lectives. The thesis is equivalent to nine units of course eight and is undertaken with the supervision of an dviser and a committee. With the approval of the ssociate Dean, up to nine units of course weight in raduate courses offered by other faculties may be aken as electives.

No language other than English is required for the IBA

ength of Program:

The equivalent of two full-time academic years are ormally required to complete the program.

For the thesis-based MBA, the minimum period of esidence is two four-month terms of full-time attendance. he course-based MBA may be taken on a part-time asis; however, the program must be completed within ve consecutive years from initial registration in the rogram.

204.12.3 The Degree of MPM

The Faculty of Business also offers a program which is the public management counterpart of the MBA program; this program leads to the degree of Master of Public Management. The progrm will prepare students for eventual senior management positions in municipal, provincial, and federal governments, and for other public enterprises in Alberta, Canada, and abroad. It will focus on both management theory and skills, and on public issues and policy formulation and implementation.

Entrance Requirements:

Admission to the MPM program in the Faculty of Business is based on the applicant's undergraduate grades, three letters of reference, a statement of purpose explaining how the MPM relates to the applicant's career goals, and the Graduate Management Admission Test score. For candidates interested in this program some work experience is desirable.

Program Requirements:

The MPM degree is a two-year full-time equivalent program designed for applicants with bachelor's degrees in any area. A choice of a course-based or thesis-based route is available. Students admitted into the program will normally be classified as Category B master's candidates following the definition set out in §202.4(4) of the Calendar. Selected individuals who already possess a significant portion of the degree training (eg. transfer students from other recognized MPM programs) will be considered for recommendation as Category A master's candidates. The MPM program normally consists of 60 units of course weight (including a thesis or project).

Phase one: The first phase of the MPM program is designed with core subjects which address the fundamental concepts underlying governmental management and decision-making. These foundation courses are intended to give the student a theoretic base and the tools of analysis upon which advanced classes are built. Students with a strong background in any of the core subject areas offered by the Faculty of Business may be exempted through examination. Completion of all 30 units of course weight in core courses requires the equivalent of one full academic year.

Phase two: The second phase of the program gives students an opportunity to develop some depth and specialization. Elective courses can be chosen from other faculties as well as from a wide range of courses within the Faculty of Business.

For the thesis-based route, the thesis is the equivalent of nine units of course weight counted within the 60 units of course weight requirement. Requirements for the course-based route are a supervised research paper which is the equivalent of one three-weight course, LAW 455, IND R 652, P MGT 654, 674, 676, ECON 558 or other graduate level economics course, and three elective courses.

No language other than English is required for the MPM.

Length of Program:

Two full-time academic years or equivalent are normally required to complete the program.

204.12.4 The MBA-LLB Joint Program

The Faculty of Business and the Faculty of Law offer a program of joint study which permits students to earn both the MBA and LLB degrees in four years.

Each student must apply separately to the Faculty of Law (for admission into the LLB program) and to the Faculty of Graduate Studies and Research (for admission into the MBA program).

In addition, each student must apply to the combined program by completing an MBA-LLB application form available from the Faculty of Law or the Faculty of Business.

In addition to new entrants, students in the first year of either the regular MBA program or the Faculty of Law are eligible to apply for the joint program.

Entrance Requirements:

Acceptance by the Faculty of Graduate Studies and Research (for admission into the MBA program) and by the Faculty of Law (for admission into the LLB program) separately, is a prerequisite for admission into the MBA-LLB program. Admission into each faculty will be determined by the same selection process and criteria as for other students. In addition, each student must be admitted into the combined program; in this case admission will be determined by a selection committee composed of representatives of the Faculty of Law and the Faculty of Business. Since this is a special program, particular attention in the selection process will be given to:

(1) the student's past academic achievement; and

(2) the student's maturity, interest and a rationale of how such a combined program will enhance the student's career and professional skills.

Program Requirements:

The first year of the joint program is taken entirely within one faculty (Law or Graduate Studies and Research), and the second year entirely within the other faculty. The course of study in the third year is divided between the two faculties, with the fourth (final) year's work done entirely in the Faculty of Law.

Academic Standing:

During the first year of the combined program, a student is subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty in which the student is registered.

Therefore, if the student registers in the Faculty of Law in the first year of the joint program, the student shall refer to that Faculty's academic standing regulations and right of appeal procedures.

If the student registers in the Faculty of Graduate Studies and Research in the first year of the joint program, the student shall refer to the Faculty of Graduate Studies and Research's academic standing regulations and right of appeal procedures.

In the second year of the joint program, a student is subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty in which the student is registered.

Therefore, if the student registers in the Faculty of Law in the second year of the joint program, the student shall refer to that Faculty's academic standing regulations and right of appeal procedures.

If the student registers in the Faculty of Graduate Studies and Research in the second year of the joint program, the student shall refer to the Faculty of Graduate Studies and Research's academic standing regulations and right of appeal procedures.

In the third year of the joint program, the student shall be subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty of Graduate Studies and Research.

Since the fourth year's work is done entirely in the Faculty of Law to complete the LLB degree, the student shall register in the Faculty of Law and shall be subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty of Law.

If a student withdraws from one of the degree programs or is required to withdraw because of unsatisfactory academic standing, but wishes to remain in the other degree program, the student may be permitted to continue the program of study in the Faculty in which the student retains good academic standing.

There is no language requirement for the MBA-LLB program.

Length of Program:

Students normally finish all the requirements for the MBA degree, by the end of the third year, and will be awarded the MBA degree at this time. All requirements for the LLB degree will be completed by the end of the fourth year.

204.12.5 The MPM-LLB Joint Program

The Faculty of Business and the Faculty of Law offer a program of joint study which permits students to earn both the MPM and LLB degrees in four years.

Each student must apply separately to the Faculty of Law (for admission into the LLB program) and to the Faculty of Graduate Studies and Research (for admission into the MPM program).

In addition, each student must apply to the combined program by completing an MPM-LLB application form available from the Faculty of Law or the Faculty of Business.

In addition to new entrants, students in the first year of either the regular MPM program or the Faculty of Law are eligible to apply for the joint program.

Entrance Requirements

Acceptance by the Faculty of Graduate Studies and Research (for admission into the MPM program) and by the Faculty of Law (for admission into the LLB program) separately, is a prerequisite for admission into the MPM-LLB program. Admission into each faculty will be determined by the same selection process and criteria as for other students. In addition, each student must be admitted into the combined program; in this case, admission will be determined by a selection committee composed of representatives of the Faculty of Law and the Faculty of Business. Since this is a special program, particular attention in the selection process will be given to:

(1) the student's past academic achievement; and

(2) The student's maturity, interest and a rationale of how such a combined program will enhance the student's career and professional skills.

Program Requirements:

The first year of the joint program is taken entirely within one faculty (Law or Graduate Studies and Research), and the second year entirely within the other faculty. The course of study in the third year is divided between the two faculties, with the fourth (final) year's work done entirely in the Faculty of Law.

Academic Standing:

During the first year of the combined program, a student is subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty in which the student is registered.

Therefore, if the student registers in the Faculty of Law in the first year of the joint program, the student shall refer to that Faculty's academic standing regulations and right of appeal procedures.

If the student registers in the Faculty of Graduate Studies and Research in the first year of the joint program, the student shall refer to the Faculty of Graduate Studies and Research's academic standing regulations and right of appeal procedures.

In the second year of the joint program, a student is subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty in which the student is registered.

Therefore, if the student registers in the Faculty of Law in the second year of the joint program, the student shall refer to that Faculty's academic standing regulations and right of appeal procedures.

If the student registers in the Faculty of Graduate Studies and Research in the second year of the joint program, the student shall refer to the Faculty of Graduate Studies and Research's academic standing regulations and right of appeal procedures.

In the third year of the joint program, the student shall be subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty of Graduate Studies and Research.

Since the fourth year's work is done entirely in the Faculty of Law to complete the LLB degree, the student shall register in the Faculty of Law and shall be subject to the academic standing regulations and routes of appeal for grades and for academic standing of the Faculty of Law.

If a student withdraws from one of the degree programs or is required to withdraw because of unsatisfactory academic standing, but wishes to remain in the other degree program, the student may be permitted to continue the program of study in the Faculty in which the student retains good academic standing.

There is no language requirement for the MPM/LLB program.

Length of Program:

Students normally finish all the requirements for the MPM degree by the end of the third year, and will be awarded the MPM degree at this time. All requirements for the LLB degree will be completed by the end of the fourth year.

204.12.6 The Degree of PhD

Information on the areas of faculty research and other information is contained in a brochure available from the PhD Program Director.

Entrance Requirements:

The program seeks prospective candidates with an excellent scholastic record and a strong interest in research related to their chosen field of business studies. Potential students must have at least a bachelor's degree, which may be from any undergraduate program. Students without an MBA degree are required to demonstrate or obtain competence in the course material of the first year of the MBA program. Applications are evaluated by an admissions committee on the basis of academic potential as evidenced through past grades, the GMAT, letters of recommendation, and a well-written statement of purpose. There are no fixed cut-off levels for consideration (beyond the FGSR minimum admission requirement) but as a guideline, past entrants have scored at least in the ninetieth percentile of the GMAT with a 7.0 grade-point average. International students, who do not have English as a first language, must submit scores on the Test of English as a Foreign Language. A minimum TOEFL score of 600 is required. There is no additional language requirement.

Program Requirements:

The Business PhD program is a research-oriented program which emphasizes knowledge of a major field of business studies, a cognate area, and strong analytical skills. The distinctive feature of business PhD programs, in general, is the concomitant study of related disciplines found in the University, as well as the study of functional fields of business. The program offered by the Faculty of Business at the University of Alberta consists of a major field of study chosen from accounting, finance, industrial relations, marketing, and organizational analysis. In addition, two minors are selected from disciplines which underlie the major field, and/or from functional areas of business which are complementary to the chosen major field.

There are three basic stages in the program. They are the breadth year of provisional candidacy (for students lacking an MBA degree), provisional candidacy (for completion of course work, comprehensive examinations, and the general oral examination), and candidacy (for thesis completion).

All students in the Business PhD program must maintain a minimum cumulative grade point average of 7.0 throughout the course of the program.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The program is a full-time program: candidates are expected to need two to three years to complete the required course work and comprehensive exams and one year to complete the PhD thesis.

204.12.7 The MBA-PhD Joint Program

The Faculty of Business offers a joint MBA-PhD program of study to provide students, who are admitted to the Business PhD program without an MBA degree, the opportunity of obtaining the MBA degree if the requirements of that degree are satisfied.

Admission decisions to each part of the joint program are made by the respective offices. For the PhD program the admission recommendation is made by the PhD office, while admission recommendations to the MBA program are made by the MBA office. Both are subject to the approval of the Faculty of Graduate Studies and Research.

Students are required to meet MBA requirements for qualifying year courses in the first year of the program. In addition, 18 elective units of course weight are required. A minimum of nine units of course weight must be 600-level Business courses. The remaining courses may be chosen, with the approval of the Associate Dean of the MBA Program, from 600-level courses outside the Business Faculty, or from the 700-level Business courses (selected from the approved lists of elective courses contained in a student's major and/or minor areas of PhD concentration). Students must also complete BUS 676, BUS 678 or MANEC 678, and BUS 900. In all cases, the distinct criteria for the MBA program and the PhD program must be met.

Student funding is provided by the PhD program, subject to available funds. In general, those students in the joint program doing MBA qualifying course work receive funding at the qualifying student rate. Until the MBA is completed, any locally-dispersed scholarships are at the master's rate.

The time limit for completion of both degrees is six years with the MBA portion to be completed within four years from initial registration. The combined program requires four years of fees.

Students in the combined MBA-PhD program are subject to the academic standing regulations and routes of appeal for academic standing of the Faculty of Graduate Studies and Research.

A recommendation to withdraw from the MBA-PhD program because of unsatisfactory academic standing shall be made by the Director of the PhD program to the FGSR.

If a student withdraws from the MBA-PhD program and wishes to complete the MBA program, the student must seek admission to the regular MBA program. At the time of withdrawal from the joint program, the student's status, relative to course requirements in the MBA program, will be the decision of the Associate Dean MBA program.

204.12.8 The MPM-PhD Joint Program

The Faculty of Business offers a joint MPM-PhD program of study to provide students, who are admitted to the Business PhD program without an MPM degree, the opportunity of obtaining the MPM degree if the requirements of that degree are satisfied.

Admission decisions to each part of the joint program are made by the respective offices. For the PhD program the admission recommendation is made by the PhD office, while admission recommendations to the MPM program are made by the MPM office. Both are subje to the approval of the Faculty of Graduate Studies a Research.

Students are required to meet MPM requiremen for qualifying year courses in the first year of th program. In addition, nine elective units of course weig are required. These should be 600-level Business cours which may, with the approval of the Associate Dean the MPM Program, be substituted with courses fro outside the Business Faculty, or from 700-level Busine courses (selected from the approved lists of electi courses contained in a student's major and/or min areas of PhD concentration). Students must also comple LAW 455, IND R 652, P MGT 674, P MGT 676, P MG 654, BUS 900, and ECON 558 or another graduate lev course. In all cases, the distinct criteria for the MP program and the PhD program must be met.

Student funding is provided by the PhD progra subject to available funds. In general, those students the joint program doing MPM qualifying course wo receive funding at the qualifying student rate. Until th MPM is completed, any locally-dispersed scholarshi are at the master's rate.

The time limit for completion of both degrees is s years with the MPM portion to be completed within fo years from initial registration. The combined progra will require four years of fees.

Students in the combined MPM-PhD program ar subject to the academic standing regulations and route of appeal for academic standing of the Faculty Graduate Studies and Research.

A recommendation to withdraw from the MPM-Ph program because of unsatisfactory academic standir shall be made by the Director of the PhD program to th FGSR.

If a student withdraws from the MPM-PhD progra and wishes to complete the MPM program, the stude must seek admission to the regular MPM program. the time of withdrawal from the joint program, th student's status, relative to course requirements in th MPM program, will be the decision of the Associa Dean MPM program.

204.12.9 Exchange Program

A joint arrangement between Université Laval a the University of Alberta allows students from o program to attend the other for one or two academ terms. Contact the Business PhD Program office f details.

MARK 615 Quantitative Marketing Management
★3 (second term, 3-0-0).

MARK 624 Consumer Behavior
★3 (first term, 3-0-0).

MARK 634 Communication Processes in Marketing
★3 (either term, 3-0-0).

MARK 644 International Marketing
★3 (either term, 3-0-0).

MARK 654 Strategic Marketing
★3 (either term, 3-0-0).

MARK 664 Product Management
★3 (either term, 3-0-0).

MARK 674 Marketing Public Programs
★3 (either term, 3-0-0).

MARK 686 Selected Topics in Marketing
★3 (either term, 3-0-0).

Organizational Analysis

ORG A 502 The Individual in Groups and Organizations
★3 (either term, 3-0-0).

ORG A 512 Organization Theory and Administrative Practice
★3 (either term, 3-0-0).

ORG A 604 Advanced Seminar in Leadership in Organizations
★3 (either term, 3-0-0).

ORG A 605 Interpersonal Communications and Conflict Management
★3 (either term, 3-0-0). Prerequisite: Completion of first year of MBA or MPM program.

ORG A 616 Seminar in the Management of Complex Organizations
★3 (either term, 3-0-0).

ORG A 624 Seminar in Personnel Administration
★3 (either term, 3-0-0).

ORG A 628 Gender Issues in Organizations
★3 (either term, 3-0-0). Prerequisite: Consent of instructor and MBA/MPM Office.

ORG A 670 Internal Corporate Venturing
★3 (Intersession, 3-0-0). Open to MBA/MPM students and students registered in graduate programs in Engineering. Prerequisite: Completion of first year of program and consent of instructor and MBA/MPM Office.

ORG A 672 New Ventures Management
★3 (either term, 3-0-0). Prerequisite: Completion of the first year of the MBA or MPM program.

ORG A 686 Selected Topics in Behavioral Sciences
★3 (either term, 3-0-0).

Political Science

POL S 528 The Politics of Public Administration
★3 (either term, 3-0-0). Prerequisite: POL S 425, or consent of department or the Associate Dean of the MPM program.

Public Management

P MGT 654 Management in Public Organizations
★3 (either term, 3-0-0).

P MGT 674 The Process of Making Public Policy
★3 (either term, 3-0-0).

P MGT 676 Issues in Canadian Public Policy
★3 (either term, 3-0-0). Prerequisite: POL S 528.

204.12.12 PhD Courses

Accounting

ACCTG 701 Introduction to Accounting Research
★3 (either term, 3-0-0).

ACCTG 702 Topics in Accounting Research
★3 (either term, 3-0-0).

ACCTG 703 Accounting Research Workshop
★3 (3-0-0).

ACCTG 704 Individual Research
★3 (either term, 3-0-0).

Finance

FIN 701 Advanced Seminar in Finance I
★3 (either term, 3-0-0).

FIN 702 Advanced Seminar in Finance II
★3 (either term, 3-0-0).

FIN 703 Advanced Seminar in Finance III
★3 (either term, 3-0-0).

FIN 704 Individual Research
★3 (either term, 3-0-0).

Industrial Relations

IND R 701 Seminar in Industrial Relations Foundations
★3 (either term, 3-0-0).

IND R 702 Seminar in Industrial Relations Processes
★3 (either term, 3-0-0).

IND R 703 Seminar in Industrial Relations Research Methodology
★3 (either term, 3-0-0).

IND R 704 Individual Research
★3 (either term, 3-0-0).

Management Science

MGTSC 701 Seminar in Mathematical Programming
★3 (either term, 3-0-0).

MGTSC 702 Seminar in Stochastic Processes
★3 (either term, 3-0-0).

MGTSC 703 Advanced Applications of Operations Research
★3 (either term, 3-0-0).

MGTSC 705 Multivariate Data Analysis I
★3 (either term, 3-0-3).

MGTSC 706 Multivariate Data Analysis II
★3 (either term, 3-0-3).

MGTSC 707 Analysis of Competitive Strategies
★3 (either term, 3-0-0).

Marketing

MARK 701 Research Methodology in Marketing
★3 (either term, 3-0-0).

MARK 702 Buyer Behavior
★3 (either term, 3-0-0).

MARK 703 Marketing Modeling
★3 (either term, 3-0-0).

MARK 704 Individual Research
★3 (either term, 3-0-0).

Organizational Analysis

ORG A 701 Seminar in Organization Theory
★3 (either term, 3-0-0).

ORG A 702 Seminar in Human Behavior in Organization
★3 (either term, 3-0-0).

ORG A 703 Seminar in Strategic Management
★3 (either term, 3-0-0).

ORG A 704 Individual Research
★3 (either term, 3-0-0).

Org A 705 Seminar in Contemporary Issues
★3 (3-0-0).

204.13 Chemical Engineering

Department of Chemical Engineering
536 Chemical/Mineral Engineering Building
University of Alberta
Edmonton, Alberta T6G 2G6

204.13.1 General Information

The Department of Chemical Engineering offers facilities for advanced training and research leading to the Master of Engineering, Master of Science and Doctor of Philosophy degrees in chemical engineering. Programs leading to Master of Science, Master of Engineering and Doctor of Philosophy in process control (chemical engineering) are also available for students wishing to specialize in this area.

General fields for research include fluid mechanics and rheology; reaction kinetics and catalysis; mass transfer and separation processes; heat transfer; thermodynamics, hydrocarbon P-V-T and phase equilibrium studies; polymer reactor engineering; computer process control; dynamic simulation; biotechnology, mathematical modelling and environmental engineering. Many research programs are oriented toward better utilization of natural resources in the province, e.g., upgrading of Athabasca bitumen and heavy oil feedstocks; processing of natural gas.

Emphasis is given to computer applications, both in the courses of instruction and in research. This is made possible through interest of the staff and through the facilities that are available in the Department's Data Acquisition Control and Simulation Centre and through the University's Computing Systems. Access to personal computers is also provided. Instruction is offered in computer-oriented mathematical techniques, modelling, advanced control strategies, digital computer simulation, systems engineering and real-time computer applications.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 600 where applicable (see §202.2.2). The Department will accept qualified applicants with degrees in other fields of engineering. Graduates with non-engineering backgrounds may be admitted under special arrangements which involve the completion of certain undergraduate engineering courses.

Financial Assistance:

Graduate assistantships are available for qualified students on a part-time or full-time basis, with remuneration according to the student's background and hours of service. Scholarships and fellowships are available for research in chemical engineering and process control.

204.13.2 The Degree of MSc

Program Requirements:

MSc programs normally consist of 18 units of course weight plus CH E 683 and 684, research, and a thesis. Certain graduate courses are mandatory. Details of all programs must be worked out in consultation with the Department.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full- time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken; however, an average of 18 months is normally required.

204.13.3 The Degree of MEng

Program Requirements:

For the Master of Engineering program, work equivalent to 30 units of course weight plus an engineering project equivalent to three units of course weight must be completed. The courses are of the same type and calibre as those taken by the MSc and PhD candidates. The project may be completed within a three to six week period following the regular Winter Session.

There is no language requirement for the MEng degree.

The minimum period of residence is one four-month term for a BSc graduate with at least one year of post-BSc experience.

Length of Program:

The maximum time permitted for completion of a Master of Engineering program is four years from the date of first registration; however, the program may be completed in a minimum of nine months of full-time study.

204.13.4 The Degree of PhD

Program Requirements:

For the PhD program, in addition to the requirements of the Faculty of Graduate Studies and Research, the Department requires the candidate to satisfactorily complete at least 27 units of course weight and obtain credit in CH E 683, 684, 685, and 686. At least 15 of the 27 units of course weight should be selected from courses offered by the Department of Chemical Engineering, and a minimum of six units of course weight must be selected from a faculty other than the Faculty of Engineering.

A student who intends to study for the PhD degree is required to pass a set of written PhD preliminary examinations. These examinations, which embrace the major areas of chemical engineering or process control, are normally taken by the student after one year of graduate studies. Although the timing depends on circumstances, PhD preliminary examinations are normally held in May and/or August.

There is no language requirement for the PhD degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the individual candidate and whether the PhD program follows the attainment of the BSc or the MSc degree. In the former case at least four years are usually required to complete the program.

204.13.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis
CH E 900 ★3 Directed Research Project

CH E 610 Advanced Mass Transfer Operations
□3.0 (either term,3-0-0). (★3)

CH E 612 Advanced Fluid Mechanics
□3.0 (either term,3-0-0). Potential, boundary layer, viscometrics, and secondary flows; application to multiphase phenomena. (★3)

CH E 613 Selected Topics in Mass Transfer
□3.0 (either term,3-0-0). A study of fundamental mass transfer with emphasis on gas-liquid and liquid-liquid dispersions, simultaneous mass transfer and chemical reaction and simultaneous heat and mass transfer. (★3)

CH E 614 Advanced Heat Transfer
□3.0 (either term,3-0-0). Design problems involving conductive, convective, and radiant heat transfer. (★3)

CH E 615 Advanced Separation Processes
□3.0 (either term,3-0-0). Characterization, selection and design of equilibrium and rate-governed separation processes. Topics include capacity and efficiency of mass transfer equipment and process energy requirements. (★3)

CH E 616 Selected Topics in Fluid Mechanics
□3.0 (either term,3-0-0). Problems in fluid mechanics associated with polymeric fluids, multiphase systems and flow through porous media. Prerequisite: CH E 612 or consent of instructor. (★3)

CH E 622 Advanced Physical Properties and Behaviour of Petroleum Fluids
□3.0 (either term,3-0-0). Physical and chemical properties of multicomponent hydrocarbon mixtures; experimental methods and property correlations. (★3)

CH E 624 Advanced Thermodynamics
□3.0 (first term,3-0-0). Principles of thermodynamics; properties of homogeneous fluid phases; phase and chemical equilibria; application to industrial problems. (★3)

CH E 634 Advanced Chemical Reactor Design
□3.0 (either term,3-0-0). Design of homogeneous and heterogeneous reactors for isothermal and non-isothermal operation; analysis of rate data; transport processes in heterogeneous catalytic systems. (★3)

CH E 636 Advanced Chemical Kinetics and Catalysis
□3.0 (either term,3-0-0). Gas phase reactions; kinetics in liquid solutions; characterization of catalysts; heterogeneous catalysts. (★3)

CH E 640 Real-Time Computer Applications
□3.8 (either term,3-0-3/2). Real-time sensor-based, micro and mini computer systems with emphasis on their applications in the process industries. Topics include: multi-tasking operating systems, process control applications, networks, data bases and industrial practice. Prerequisite: CH E 540 or permission of instructor. (★3)

CH E 646 Process Dynamics and Computer Process Control
□3.5 (first term,3-0-3/3). An introductory graduate level course in process dynamics and control. Topics include: dynamic process modelling, simulation, estimation, filtering, multiloop and multivariable control, plus stability and performance analysis. (★3)

CH E 649 Software Engineering and Management
□3.8 (either term,3-0-3/2). Current techniques as applied to the analysis, design, implementation, maintenance and management of large software systems for process engineering and control applications. Prerequisite: Programming experience plus an engineering background or consent of instructor. (★3)

CH E 654 Decision Analysis
□3.0 (either term,3-0-0). Applications of Bayesian statistical decision theory to general systems problems, using both analytical and computer-based numerical methods, with emphasis on formulating a proper utility function, building suitable mathematical models, and making Bayesian inferences from data. (★3)

CH E 662 Dynamics of Process Systems
□3.8 (second term,3-0-3/2). Analysis and simulation of the dynamics of chemical engineering systems; process identification techniques; on-line characterization of process dynamics. Prerequisite: CH E 646 or consent of instructor. (★3)

CH E 664 Advanced Process Control
□3.5 (first term,3-0-3/3). Selected topics related to multivariable control: continuous systems, discrete systems, frequency domain analysis, stability and/or robustness and performance. Emphasis will be on current developments in the literature, plus process applications. Prerequisite: CH E 646. (★3)

CH E 666 Adaptive Control
□3.0 (either term,3-0-0). Process identification and adaptive control techniques for single and multi-variable process systems with noise, time-delays, disturbances and model-process-mismatch. (★3)

CH E 674 Numerical Solutions of Engineering Problems
□3.0 (second term,3-0-0). Numerical solutions of engineering problems using linear and nonlinear sets of equations, ordinary and partial differential equations. (★3)

CH E 676 Applied Mathematics I
□3.0 (either term,3-0-0). Application of mathematics to engineering problems with emphasis on operator methods. (★3)

CH E 678 Applied Mathematics II
□3.0 (either term,3-0-0). Application of mathematics to engineering problems with emphasis on tensor analysis. (★3)

CH E 683 Graduate Seminar I
□0.5 (0-1s-0). Discussion of progress and problems in research in Chemical Engineering. (★1)

CH E 684 Graduate Seminar II
□0.5 (0-1s-0). Discussion of progress and problems in research in Chemical Engineering. Prerequisite: CH E 683. (★1)

CH E 685 Graduate Seminar III
□0.5 (0-1s-0). Discussion of progress and problems in research in Chemical Engineering. Prerequisite: CH E 684. (★1)

CH E 686 Graduate Seminar IV
□0.5 (0-1s-0). Discussion of progress and problems in research in Chemical Engineering. Prerequisite: CH E 685. (★1)

CH E 690 Engineering Aspects of Biotechnology
□3.0 (either term,3-0-0). The application of engineering principles to biological systems, with examples drawn from fermentation technology, food science, and medicine. The fundamental physical processes governing cell growth and metabolism are analyzed, including thermodynamics and energetics, membrane transport, mixing, oxygen uptake, and enzyme kinetics. Prerequisite: Consent of instructor. (★3)

CH E 694 Advanced Topics in Chemical Engineering
□3.0 (either term,3-0-0). An advanced treatment of selected chemical engineering topics of current interest to staff and students. (★3)

E 696 Special Topics in Process Dynamics and mputer Control
.0 (either term,3-0-0). Advanced treatment of selected ics in process dynamics and/or computer process trol of current interest to staff and students. (★3)

04.13.6 Reading Projects

Credit will be allowed up to a maximum of 3 units in one project.

E 713 Mass Transfer
.0 (either term,3-0-0). (★3)

E 714 Heat Transfer
.0 (either term,3-0-0). (★3)

E 716 Fluid Mechanics
.0 (either term,3-0-0). (★3)

E 724 Thermodynamics
.0 (either term,3-0-0). (★3)

E 736 Applied Kinetics and Catalysis
.0 (either term,3-0-0). (★3)

E 742 Process Dynamics
.0 (either term,3-0-0). (★3)

E 744 Process Control
.0 (either term,3-0-0). (★3)

E 754 Operations Research
.0 (either term,3-0-0). (★3)

04.14 Chemistry

partment of Chemistry
-43 Chemistry Centre
iversity of Alberta
monton, Alberta T6G 2G2

04.14.1 General Information

The Department of Chemistry has research laboratories d instructional facilities for at least 150 graduate udents proceeding to the MSc and PhD degrees in emistry.

The active research interests of the staff include:

) **Analytical:** Electroanalytical techniques; chemical modification of electrode surfaces; electrochemical sensors; analysis of substances of pharmaceutical and biological interest; inductively coupled plasma emission and mass spectrometry; application of electronic image sensors to spectrochemical measurements; acquisition and processing of analytical data with microprocessor systems, solvent effects on solute properties and reactions; applications of nonaqueous systems to analysis, chemical speciation, sampling liquid chromatography, solvent extraction, ion exchange and flow injection analysis; surface characterization of semiconductors.

) **Inorganic:** Transition metal organometallic chemistry; synthesis of hydrides, carbonyls, and metal-metal multiple bonds; organometallic photochemistry; organoactinide complexes; coordination and activation of small molecules; activation of carbon-hydrogen bonds; amino acid complexes; rates and mechanisms of electron transfer reactions of metal complexes; X-ray crystallography; X-ray and photoelectron spectroscopy; phosphines and phosphoranes with highly electronegative substituents; NMR studies of non-rigid molecules and complexes.

) **Organic:** Structural and synthetic studies on natural products; degradation of natural products; heterocyclic chemistry; mono- and di-saccharides, selective reductions; organometallic chemistry; pyrolysis mechanisms of pyrazolines and other organic compounds; mechanisms and stereochemistry of solvolytic reactions; small rings; reactive intermediates (ylides, carbenes, nitrenes); alkali metal aromatic complexes; organic photochemistry; acetylenes; allenes; free radicals; conformation and synthesis of carbohydrates; structure-activity correlations of antibiotics; synthetic and mechanistic investigations in heterocycles, with emphasis on the applications of NMR and EPR; mechanism of free radical reactions; photocycloaddition-fragmentation reactions; the invention of new reagents; mechanism and stereochemistry of enzymatic reactions; radiochemical synthesis; nucleic acid component chemistry; nucleoside antibiotics and bioactive analogues.

) **Physical:** Infrared and Raman spectra 4000 - 10 cm of solids and gases, high-pressure phases, dielectric relaxation; enzyme mechanisms, oxygen radicals in biology; radiation chemistry, behavior of electrons in liquids; electron spin resonance; mass spectrometry; electronic absorption and emission spectroscopy; chemistry of ions in gases, ion molecule reactions, chemical ionization; reaction dynamics by molecular beams, laser techniques and computer modelling; biophysical chemistry involving studies of substrate-metal ion-enzyme complexes using NMR and EPR techniques; molecular motion in fluids and chemical kinetics by NMR, 2D NMR; petroleum chemistry, free radical chemistry, photochemistry, photochemical synthesis, flash photolysis and flash spectroscopy.

(5) **Theoretical:** Excited state wave functions, theory of vibration-rotation; theoretical dynamics of unstable and oscillatory chemical reaction networks, statistical mechanics of fluctuations near instabilities; theoretical study of atomic and molecular structure; theory of atomic and molecular collisions, many-electron problem in solids, vibrational and vibronic dynamics.

Further information may be obtained by writing the Chair of the Department.

Entrance Requirements:

Candidates for the MSc and PhD degrees in chemistry should be graduates in chemistry or chemical engineering from recognized universities, and should have obtained a grade point average of at least 6.8 in the last two years of undergraduate (or graduate) work from the University of Alberta, or an equivalent qualification from a recognized institution. Where applicable (refer to §202.2.2) candidates must have passed a TOEFL examination with a minimum score of 550. To qualify as Teaching Assistants, candidates must have a TOEFL score of at least 570.

Financial assistance:

Financial assistance in the form of scholarships and graduate assistantships is normally available for all graduate students who maintain a satisfactory performance.

204.14.2 The Degree of MSc

Program Requirements:

A minimum of 12 units of course weight in graduate chemistry courses must be passed. In addition, a research project must be carried out, the results of which are to be presented in thesis form, followed by an oral examination.

Students must obtain a GPA of 6.5 or greater in their first year, and must maintain a cumulative GPA of 6.5 or greater in their second and subsequent years in order to remain in the graduate program.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The minimum time required to complete an MSc degree is 12 months after a four-year BSc degree in chemistry.

204.14.3 The Degree of PhD

Program Requirements:

For students in analytical, inorganic, and physical chemistry: 18 units of course weight, of which at least 15 are graduate courses in chemistry, must be included. In some circumstances, advance credit for graduate courses in chemistry taken elsewhere may be recommended by the Department to the Faculty of Graduate Studies and Research, up to a maximum of six units of course weight. Students in organic chemistry must take 12 units of course weight in graduate courses and write monthly cumulative examinations in organic chemistry (normally a maximum of 20 attempts) until seven have been passed.

In order to continue in the PhD program, a student must achieve a GPA of 6.5 or greater in all courses taken in the first year, and must maintain a cumulative GPA of 7.0 or greater in the second and subsequent years.

(**Note**: A special chemical-physics program is also available, which allows increased emphasis on physics and mathematics.)

Every student must present a seminar on a topic other than the students' research program.

A reading knowledge of one language other than English may be required depending on the program chosen by the student.

When these requirements are nearly completed, all PhD students must pass an oral candidacy examination in subjects relevant to their general field of research. Finally, the student will be required to present the results of the student's research in thesis form and orally to an examining committee, and as a seminar to the Department as a whole.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The minimum time required to complete a PhD degree is three academic years of study and research after a four-year BSc degree, or two academic years after an MSc degree.

204.14.4 Graduate Courses

The following table lists renumbered courses effective 1990-91:

Old	New	Old	New
CHEM 602	CHEM 502	CHEM 655	CHEM 569
CHEM 604	CHEM 504	CHEM 657	CHEM 567
CHEM 619	CHEM 523	CHEM 663	CHEM 563
CHEM 631	CHEM 531	CHEM 665	CHEM 565
CHEM 635	CHEM 535	CHEM 667	CHEM 557
CHEM 637	CHEM 543	CHEM 683	CHEM 583
CHEM 641	CHEM 541	CHEM 684	CHEM 584
CHEM 643	CHEM 545	CHEM 685	CHEM 579
		CHEM 699	CHEM 599

THES 900 Thesis
THES 999 Thesis
PROJ 900 Non-Thesis Project

CHEM 313 Instrumentation in Chemical Analysis
★3 (first term, 3-0-4). Prerequisite: CHEM 212; 270; one (1) FCE junior Physics.

CHEM 405 Special Topics in Chemistry
★3 (either term, 3-0-0). Prerequisite: A 300-level Chemistry course.

CHEM 407 Computing Applications in Chemistry
★3 (second term, 3-0-3/2). Prerequisite: MATH 215. Corequisite: CHEM 383.

CHEM 413 Electronics for Scientists
★3 (second term, 3-0-3). Prerequisite: A 300-level Chemistry course and consent of department.

CHEM 415 Analytical Electrochemistry
★3 (second term, 3-0-3). Prerequisite: CHEM 313.

CHEM 417 Analytical Spectroscopy
★3 (second term, 3-0-3). Prerequisite: CHEM 313.

CHEM 419 Advanced Analytical Chemistry
★3 (first term, 3-0-0). Prerequisite: CHEM 212, 260, and 270 and a 300-level Chemistry course.

CHEM 421 Analytical Separations
★3 (first term, 3-0-3). Prerequisite: CHEM 313 and consent of department.

CHEM 433 Structure in the Solid State
★3 (first term, 3-0-0). Prerequisite: CHEM 341.

CHEM 437 Transition Metal Chemistry
★3 (second term, 3-0-0). Prerequisite: CHEM 341.

CHEM 439 Inorganic Reaction Mechanisms
★3 (first term, 3-0-0). Prerequisite: CHEM 341.

CHEM 463 Chemistry of Carbohydrates
★3 (either term, 3-0-0). Pre- or co-requisite: CHEM 363.

CHEM 465 Theoretical Organic Chemistry
★3 (first term, 3-0-0). Prerequisite: CHEM 363.

CHEM 467 Advanced Organic Synthesis
★3 (second term, 3-0-0). Prerequisite: CHEM 363 and consent of department.

CHEM 469 Natural Products
★3 (first term, 3-0-0). Prerequisite: CHEM 363.

CHEM 477 Molecular Spectroscopy and Structure
★3 (either term, 3-0-0). Prerequisite: CHEM 383.

CHEM 479 Kinetics, Surfaces, and Catalysis
★3 (second term, 3-0-0). Prerequisite: CHEM 270, MATH 215, PHYS 237 and a 300-level Chemistry course.

CHEM 481 Chemical Thermodynamics
★3 (second term, 3-0-0). Prerequisite: CHEM 270, MATH 215, PHYS 238 and a 300-level Chemistry course.

CHEM 483 Magnetic Resonance and its Chemical Applications
★3 (first term, 3-0-0). Prerequisite: CHEM 383.

CHEM 491 Radiation Chemistry
★3 (first term, 3-0-0). Prerequisite: CHEM 270; a 300-level Chemistry course and consent of department.

CHEM 493 Molecular Spectroscopy
★3 (first term, 3-0-0). Prerequisite: CHEM 383.

CHEM 502 Departmental Research Seminar
★0 (0-2s-0).

CHEM 504 Advanced Research Seminar
★0 (0-2s-0).

CHEM 523 Special Topics in Advanced Analytical Chemistry
★3 (either term, 3-0-0).

CHEM 531 Organometallic Chemistry
★3 (second term, 3-0-0).

CHEM 535 Chemistry of the Metal Carbonyls
★3 (first term, 3-0-0).

CHEM 541 Spectroscopic Techniques in Inorganic Chemistry
★3 (either term, 3-0-0).

CHEM 543 The Chemistry of the Main Group Elements
★3 (second term, 3-0-0).

CHEM 545 Chemical Application of Photoelectron Spectroscopy
★3 (second term, 3-0-0).

CHEM 557 Free Radical Reactions in Organic Chemistry
★3 (second term, 3-0-0).

CHEM 563 Heterocyclic Chemistry
★3 (second term, 3-0-0).

CHEM 565 Chemistry of Nucleosides
★3 (second term, 3-0-0). Prerequisite: CHEM 551 and 555

CHEM 567 Physical Organic Chemistry
★3 (second term, 3-0-0).

CHEM 569 Physical Organic Chemistry
★3 (either term, 3-0-0).

CHEM 579 Solution Kinetics
★3 (first term, 3-0-0).

CHEM 583 Quantum Chemistry
★3 (first term, 3-0-0).

CHEM 584 Principles of Quantum Mechanics with Chemical Applications
★6 (3-0-0).

CHEM 585 Infrared and Raman Spectroscopy
★3 (second term, 3-0-0). Prerequisite: CHEM 493 or equivalent.

CHEM 587 Special Topics in Free Radical Chemistry
★3 (second term, 3-0-0). Prerequisite: CHEM 479. Prerequisite or corequisite: CHEM 493.

CHEM 589 Statistical Mechanics
★3 (first term, 3-0-0). Prerequisite: CHEM 383.

CHEM 595 Photochemistry
★3 (second term, 3-0-0). Prerequisite: CHEM 383 and CHEM 479.

CHEM 597 Chemical Reaction Mechanism Analysis
★3 (first term, 3-0-0). Prerequisite: CHEM 270.

CHEM 599 Chemical Applications of Mass Spectrometry
★3 (second term, 3-0-0).

204.15 Civil Engineering

Department of Civil Engineering
220 Civil/Electrical Engineering Building
University of Alberta
Edmonton, Alberta T6G 2G7

204.15.1 General Information

The Department of Civil Engineering offers programs of study leading to the advanced degrees of Master of Science, Master of Engineering and Doctor of Philosophy in civil engineering. Programs may be arranged for candidates who obtained their first degree in fields other than civil engineering; such programs lead to degrees in the area of specialization rather than in civil engineering (e.g. Master of Science in Environmental Sciences, Geotechnique, or Hydrology).

Programs are offered in the fields of engineering materials, highways and transportation, hydraulics and hydrology, environmental engineering, geotechnical engineering, structures and solid mechanics, welding engineering, and oil sands engineering.

Active research areas in the Department include various aspects of: geotechnical engineering; transportation engineering and highway materials; concrete and cementitious materials; structural behavior of concrete, masonry, steel, and timber members and frames; structural analysis and solid mechanics; hydraulics, hydrology and river behavior; environmental engineering. More detailed information on activities in each of these areas is available on request. Inquiries should be directed to the Chair of the Civil Engineering Department.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2). Note: The Department requires higher grades than the minimum standards of the Faculty of Graduate Studies and Research (outlined in §202.8) for continuance in a graduate program.

Financial Assistance:

Financial assistance is available through the Department in the form of a limited number of graduate assistantships. This funding is only available to MSc and PhD candidates. In addition, students whose research falls within an area of joint interest to the Department and the Centre for Frontier Engineering Research may be eligible for additional financial assistance from C-FER.

204.15.2 The Degree of MSc

Program Requirements:

Master of Science programs normally consist of a minimum of 24 units of course weight, 15 of which must be in the candidate's major field of interest, plus a thesis. Other weightings between course work and thesis may be arranged.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

A candidate may complete a Master of Science program in 12 months. However, a student normally spends two academic years, during which more time is devoted to the thesis topic. The maximum time permitted for completion of the program is four years from the date of first registration.

204.15.3 The Degree of MEng

Program Requirements:

Master of Engineering programs consist of a minimum of 30 units of course weight, plus a project that is approximately equivalent to three units of course weight.

MEng programs are offered in all Civil Engineering specializations.

There is no language requirement for the degree of MEng.

The minimum period of residence required is one four-month term for a BSc graduate with at least one year of post-BSc experience, and two four-month terms for a BSc graduate with less than one year of post-BSc experience.

Length of Program:

Candidates may complete the Master of Engineering program in a minimum of nine months. The maximum time permitted for completion of the program is four years from the date of first registration.

204.15.4 Some Special MEng Degrees

Some special programs of study leading to particular Master of Engineering degree designations can be arranged through various departments in the Faculty of Engineering. A description of two such degree programs follows. Unless otherwise noted the requirements for these degrees are identical to those specified in §204.15.3.

(1) **MEng Degree in Oil Sands Engineering**

a. Depending on the students' field of study for their bachelor's degree, they will be assigned to one of the departments of engineering as their home department. The degree designation will be Master of Engineering in "field of study" in "home department" (e.g., Master of Engineering in Oil Sands Engineering in Civil Engineering).

b. Eighteen of the 30 units of course weight must be taken from a list of core courses. Consult the Department for details.

c. Work on the required project may be conducted within the University environment or outside in industry; however, approval, control, and supervision will remain with the student's academic supervisor.

(2) **MEng Degree in Welding Engineering**

a. Depending on the student's field of study for their BSc degree, they will be assigned to either the Department of Civil Engineering, Mechanical Engineering, or Mining, Metallurgical and Petroleum Engineering as their home department. Degree designation will be Master of Engineering in "field of study" in "home department" (e.g., Master of Engineering in Welding Engineering in Civil Engineering).

b. Certain courses must be taken by all students in the program, regardless of educational specialty. Consult the Department for details.

c. A maximum of 50% of the total course load (15 units of course weight) and a minimum of 30% can be taken in the student's home department. All home department courses must be at the 600-level.

d. A student may be permitted to take a maximum of six units of course weight in appropriate 400- or 500-level undergraduate courses for credit toward the student's degree. Such courses cannot be part of the student's home department undergraduate core curriculum.

e. Work on the required project may be conducted within the University environment or outside in industry; however, approval, control and supervision will remain with the student's academic supervisor.

204.15.5 The Degree of PhD

Program Requirements:

Doctor of Philosophy programs are offered in most fields of civil engineering. Courses in a PhD program are assigned by the supervisory committee, in consultation with the student, to provide depth in a major area of study and a related minor area of study. There is no fixed number of required courses.

All candidates for the PhD must prepare and defend a thesis of high calibre on an approved topic.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of two years beyond the MSc is normally required.

204.15.6 Graduate Courses

THES 900 Thesis
THES 999 Thesis
CIV E 900 ★3 Directed Research Project

CIV E 601 Cement and Concrete Technology
□3.0 (either term, 3-0-0). Properties of plain concrete with emphasis on the physicochemical aspects of behavio (★3)

CIV E 608 Design of Civil Engineering Experiments
□3.0 (either term, 3-0-0). Introduction to experimentr design; design of experiments in environmental, trans portation and other civil engineering specialty areas analysis of experimental and survey data. (★3)

CIV E 609 Special Topics in Civil Engineering
□3.0 (either term, 3-0-0). (★3)

CIV E 610 Pavement Design
□3.0 (first term, 3-0-0). Pavement performance an evaluation; stresses and displacements in layered sys tems; theories and principles of flexible and rigid pav ment design and construction; rehabilitation of pavement and cost analysis. (★3)

CIV E 611 Pavement Materials
□3.0 (second term, 3-0-0). Source, manufacture, prop erties, tests and specifications of bituminous materials properties and testing of aggregate, bituminous an stabilized mixtures; construction and quality contro (★3)

CIV E 612 Transportation Design
□3.0 (first term, 3-0-0). Introduction to all modes transportation; principles of geometric design of trans portation facilities including highways, railways, airport and parking terminals; economics of location. (★3)

CIV E 613 Transportation Systems Analysis
□3.0 (second term, 3-0-0). Urban and regional transpo planning; travel demand forecasting; origin-destinatio analysis; trip distribution models; network analysis; ecc nomic principles in transportation; freight transport; strateg of transport planning. (★3)

CIV E 614 Transportation Engineering
□3.0 (first term, 3-0-0). Principles of traffic psychology introduction to theory of traffic flow; traffic capacity highways, interchanges and urban roads; traffic opera tions; traffic control devices and signal systems; princ ples of street illumination; principles of air traffic an railway traffic operations. (★3)

CIV E 615 Functional Planning and Geometric Desig
□3.5 (second term, 2-0-3). Types of interchanges, ne work planning and other facets of functional planning geometric design, merging and diverging movement environmental and safety factors. (★3)

V E 616 Public Transportation
3.0 (second term, 3-0-0). Public transport networks; opulation and transport network densities; traffic prediction and choice of transport mode; capacity and erating characteristics of various types of public transport; sign characteristics of various transit systems; integration th urban planning. (★3)

V E 617 Computer Applications in Transportation ngineering and Planning
3.0 (either term, 3-0-0). Computer modelling in transortation engineering. Application programs in traffic perations, urban transportation planning and transportion decision analysis. The course provides an opporunity to apply the concepts and modelling principles to actical situations and to acquire the necessary skills th a variety of programs used in transportation engineering research and practice. (★3)

V E 619 Advanced Topics in Transportation and ighway Engineering
3.0 (either term, 3-0-0). (★3)

V E 620 Environmental Engineering easurements I
4.5 (first term, 3-0-3). Theory and procedures for determining the quality of natural water, potable water, unicipal and industrial wastes. Fundamental parameters nd concepts for environmental quality evaluation. (★3)

V E 621 Municipal Distribution and Collection ystems
3.0 (second term, 3-0-0). Detailed and advanced design of water supply systems, sewerage and storm rains. Rates of flow, and hydraulics of networks and ewers, rainfall-runoff analysis, storm water storage, oads on conduits are examined. Solid waste collection nd processing systems. (★3)

V E 622 Physical/Chemical Water and Wastewater reatment
3.0 (first term, 3-0-0). Theory and design of chemical nd physical unit processes utilized in the treatment of ater and wastewater, sedimentation, flotation, coagulation, precipitation, filtration, disinfection, ion exchange, everse osmosis, adsorption, and gas transfer. (★3)

IV E 623 Industrial Water and Wastewater lanagement
3.0 (either term, 3-0-0). Industrial water quantity and uality requirements. Characteristics of wastes, inplant ontrols, product recovery; effluent characteristics, chemical nd toxic properties, pretreatment and treatment design heory and methodology, water reclamation and reuse egulations. (★3)

IV E 624 Biological Waste Treatment Processes
3.0 (second term, 3-0-0). Study of the theoretical and pplied aspects of wastewater treatment by activated ludge, fixed and moving biological films, conventional nd aerated lagoons, sludge digestion, septic tanks, and treatment, and nutrient removal. Guidelines, regulations and economics. System analysis and design of acilities. (★3)

IV E 625 Engineering Management of Water Quality
3.0 (either term, 3-0-0). Concepts, rationale, theory, nstitutions and engineering aspects of water quality management. Methods of water quality management; oxygen; chemical and microbial models, natural and nduced re-aeration techniques; thermal pollution and ce cover considerations. (★3)

IV E 626 Environmental Health Engineering
3.0 (either term, 3-0-0). Environmental contaminants: heir sources and effects on humans and other biota. Risk assessment. Air quality (health considerations and management). Radioactive wastes and their control. Noise sources, health considerations and control techniques. (★3)

IV E 627 Environmental Engineering Measurements II
3.0 (second term, 1-0-4). Laboratory experiments to present techniques for obtaining data and relationships needed for design of treatment facilities. Analytical approaches, data interpretation, presentation and design methods. Applications of experimental design principles. (★3)

IV E 629 Advanced Topics in Environmental Engineering
3.0 (either term, 3-0-0). (★3)

IV E 630 Open Channel Flow
3.0 (either term, 3-0-0). Steady and unsteady flow in open channels. (★3)

IV E 631 Engineering Fluid Mechanics
3.0 (first term, 3-0-0). Navier-Stokes equations and viscous flow. Turbulence and Reynolds equations. Potential flow. Boundary layers. Flow around bodies. Jets and wakes. (★3)

IV E 632 Hydraulic Structures
3.0 (either term, 3-0-0). Hydraulic design of water handling structures used for extraction, retention, conveyance, control, regulation, energy dissipation, drainage, navigation, flood control and other civil engineering schemes. (★3)

CIV E 633 Pipe Flow
3.0 (first term, 3-0-0). Steady and unsteady flow in pipe systems. Pipe networks. Slurry transport. Pump characteristics and pump-system interaction. Pipeline design. (★3)

CIV E 634 Numerical Methods in Hydraulics
3.0 (first term, 3-0-0). Finite difference, finite element and boundary integral methods. Applications of these methods. (★3)

CIV E 635 Advanced Environmental Fluid Mechanics
3.0 (second term, 3-0-0). Mixing processes and pollutant transport in rivers, lakes, estuaries, coastal waters and the atmosphere. Prerequisite: CIV E 631. (★3)

CIV E 636 Ice Engineering
3.5 (either term, 3-0-1). Elementary heat transfer analysis. Ice formation processes. Ice hydraulics. Ice mechanics. Interaction of ice and engineering structures. (★3)

CIV E 637 Coastal Engineering in Cold Regions
3.5 (either term, 3-0-1). Waves, tides and storm surges; estuarine hydraulics. Sea ice formation and processes. Interaction of waves and ice with structures. (★3)

CIV E 639 Advanced Topics in Fluid Mechanics and Hydraulics
3.0 (either term, 3-0-0). (★3)

CIV E 640 River Engineering
3.5 (either term, 3-0-1). Flow and sediment transport in alluvial channels; engineering geomorphology; river ecology; design of river engineering installations. (★3)

CIV E 641 Advanced Surface Water Hydrology
3.0 (either term, 3-0-0). Precipitation, evaporation, infiltration. Streamflow and hydrograph analysis. Hydrologic systems. Hydrologic routing. Simulation models. Statistical methods. (★3)

CIV E 642 Risk and Decision in Civil Engineering
3.0 (either term, 3-0-0). Analysis of data; models and solutions in respect to decision making for civil engineering problems such as quality control, safety of structures, traffic flow, transportation planning, watershed management, water supply, measurement theory, simulation, natural phenomena. (★3)

CIV E 643 Porous Media Hydraulics
3.5 (either term, 3-0-1). Saturated and unsaturated flow: infiltration, percolation seepage, drainage and aquifer hydraulics. (★3)

CIV E 649 Advanced Topics in Water Resources Engineering
3.0 (either term, 3-0-0). (★3)

CIV E 650 Advanced Topics in Photogrammetry
3.0 (either term, 3-0-0). Specialized photogrammetric techniques for use in engineering and scientific measurements. Emphasis on close-range and terrestrial photogrammetry, self-calibration modelling and special adjustment techniques. (★3)

CIV E 651 Advanced Topics in Surveying
3.0 (either term, 3-0-0). Study of modern survey techniques and their application. Emphasis on modern positioning systems, deformation monitoring, survey design and data analysis. (★3)

CIV E 652 Advanced Topics in Data Analysis and Adjustment
3.0 (either term, 3-0-0). Study of data analysis techniques. Regression and adjustment procedures for photogrammetric, surveying and engineering applications. (★3)

CIV E 660 Advanced Structural Analysis I
3.0 (first term, 3-0-0). Fundamentals of the classical flexibility and stiffness methods of structural analysis. Matrix techniques for structural analysis. (★3)

CIV E 661 Advanced Structural Analysis II
3.0 (second term, 3-0-0). Matrix analysis of three-dimensional structures. Matrix formulation for vibration and stability problems. Energy formulations. Prerequisite: CIV E 660 and CIV E 664 or consent of instructor. (★3)

CIV E 663 Design of Shell Structures
3.0 (either term, 3-0-0). (Offered alternate years.) Assumptions, derivation and limitations of shell theory as applied to the design of folded plate structures, storage structures consisting of shells of revolution; cylindrical and parabolic roof shells. Emphasis is placed on design problems. (★3)

CIV E 664 Introduction to Solid Mechanics
3.0 (either term, 3-0-0). Formulation of basic equations of elasicity in solid mechanics. Cartesian tensor notation. Variational principles. (★3)

CIV E 665 Introduction to the Finite Element Method
3.0 (second term, 3-0-0). Fundamentals of the formulation and application of the finite element method to problems of continuum mechanics, with special reference to civil engineering, including problems in solid mechanics and soil mechanics. Prerequisite: CIV E 664 or consent of instructor. (★3)

CIV E 666 Structural Concepts
4.0 (second term, 3-1s-1). Causes and characteristics of loads on buildings, bridges and other structures. Reasons for and calculations of load and resistance factors. (★3)

CIV E 667 Advanced Topics in the Finite Element Method
3.0 (first term, 3-0-0). (Offered in alternate years.) Convergence criteria, equilibrium and hybrid elements. Application of finite element methods to problems in stability, dynamics, plates and shells. Treatment of geometric and material nonlinearities. Prerequisite: CIV E 665 or consent of instructor. (★3)

CIV E 670 Behavior and Design of Steel Members
4.0 (first term, 3-1s-1). Material properties and plate buckling problems. Behavior and design of steel tension and compression members, beams and beam-columns. Behavior and design of welded and bolted connections. This course is designed to give the student an understanding of the individual members which form the steel structure. (★3)

CIV E 671 Behavior and Design of Steel Structures
3.0 (second term, 3-0-0). Brittle fracture and fatigue problems. Behavior and design of composite beams and plate girders. Discussion of frame behavior; overall buckling and instability concepts as related to the design of columns and bracing systems. This course is designed to build on the material contained in CIV E 670 and to give the student an insight into the behavior of the total structure. (★3)

CIV E 672 Behavior and Design of Concrete Members
4.0 (first term, 3-1s-1). Strength and behavior of simple reinforced concrete members. Relation between results of research and current design specifications. Material properties. Members subjected to flexure, axial compression, combined flexure and axial load, combined flexure and shear, torsion. (★3)

CIV E 673 Behavior and Design of Concrete Structures
3.0 (second term, 3-0-0). Strength and behavior of statically indeterminate reinforced concrete structures. Elastic and limit analysis and design considerations for continuous slab systems, frames and shear walls. (★3)

CIV E 674 Behavior and Design of Prestressed Concrete Structures
3.0 (second term, 3-0-0). (Offered alternate years.) Principles and methods of prestressing. Service load design and analysis. Behavior and strength design. Losses in pre-stress and anchorage zone stresses. Continuous beams and slabs. Discussion of design specifications. (★3)

CIV E 676 Behavior and Design of Masonry Structures
3.0 (either term, 3-0-0). (Offered alternate years.) Historical developments. Masonry units, mortars and grouts. Behavior, strength and stability of masonry under axial compression. Reinforced masonry in bending and combined axial load and bending. Ductility and joint control. Design application including discussion of code requirements. (★3)

CIV E 679 Advanced Topics in Structural Engineering
3.0 (either term, 3-0-0). (★3)

CIV E 680 Engineering Properties of Soils
4.0 (first term, 3-1s-1). Principle of effective stress, clay-water systems, soil compressibility and theories of consolidation. Pore pressure parameters. Strength of granular and cohesive media. Anisotropy of soils. Laboratory measurement of strength and deformation properties. Stress-strain relations. (★3)

CIV E 681 Seepage and Drainage
4.0 (first term, 3-1s-1). Elements of hydrogeology; regional groundwater flow, borehole logging methods. Theory of groundwater flow through soils and rocks, permeability, Darcy's law, field governing equations and their solution by approximate methods, finite difference and finite element methods, unsaturated flow. Civil engineering applications, seepage in earth structures, design of dewatering systems for excavations and slopes, field testing, grouting. (★3)

CIV E 683 Site Investigation Practice
3.0 (first term, 3-0-0). Techniques of site investigation for geotechnical engineering, *in situ* testing, instrumentation for field performance studies, case histories covering both rock and soil applications. (★3)

CIV E 684 Engineering Geology and Terrain Analysis
4.0 (second term, 3-1s-1). Information sources in engineering geology and terrain analysis, elements of the geology of sediments and glacial geology. Glacial and

periglacial land forms. Photogeology and airphoto interpretation applied to geotechnical engineering. Case histories based on specific materials and regional problems. (★3)

CIV E 687 Rock Engineering for Near Surface Structures
□3.0 (second term, 3-0-0). Deterministic and probabilistic design methods for rock slopes and foundations on rocks. Economic, operational and geological factors affecting design. Support and stabilization techniques, excavation methods, monitoring structures in and on rock, foundations for dams and for large loads. (★3)

CIV E 690 Advanced Foundation Engineering
□5.0 (second term, 4-1s-1). Theories of lateral pressures. Limit equilibrium methods, elasticity methods, semi-empirical methods. Soil anchors. Design of retaining walls and strutted excavations. Bearing capacity of shallow and deep foundations. Allowable settlement of structures. Analysis of settlement of shallow and deep foundations. Behaviour of pile groups. Design problems in foundation engineering. (★6)

CIV E 692 Tunnelling
□3.5 (second term, 3-1s-0). Methods of tunnelling, including excavation methods and support techniques, ground response, *in situ* and induced stress field, displacement field around deep and near surface tunnels, ground-support interaction, design criteria for tunnels in soil and rock, shaft design, site investigation practice and monitoring of tunnels. (★3)

CIV E 694 Permafrost Engineering
□4.0 (second term, 3-1s-1). Implications for northern development, extent, engineering classification, thermal regime, ground ice, genesis, site investigations, heat conduction in the ground, properties of frozen soil, thaw consolidation, freezing mechanisms, foundations in frozen ground; slope stability, highways and airfields, pipelines and earth dams in arctic and sub-arctic regions. Prerequisite: CIV E 590 or consent of Department. (★3)

CIV E 695 Soil Structures
□4.0 (second term, 3-1s-1). Stresses in slopes. Limit equilibrium methods of analysis. Landslides in soil. Design of earth dams and embankments. Case histories of earth and rockfill dams. Dam foundations. Soft ground tunnelling. (★3)

CIV E 696 Geotechnical Aspects in Highway Engineering
□3.0 (second term, 3-0-0). Terrain analysis for highway design, design and construction of highway embankments, quality control procedures, special treatments for soft foundations of embankments. Behaviour of compacted soils under repeated loading, swelling subgrade soils. Admixture stabilization using Portland cement, lime, bituminous materials or other chemicals. (★3)

CIV E 697 Rock Engineering
□4.0 (first term, 3-1s-1). Elements of structural geology, analysis of the geometry of rock defects, properties of intact rocks. Properties of rock masses and stresses in rock masses, stability of rock slopes. Rock foundations and underground excavations in rock. Case studies. (★3)

CIV E 698 Geotechnical Engineering of Oil Sands Development
□3.0 (either term, 3-0-0). Origin and distribution of oil sands; surficial geology, geomorphological setting and geology of oil sands deposits in Alberta; regional hydrogeology; material and geotechnical properties, and site investigation practice. Geotechnical engineering in surface mining projects; underground access projects; *in situ* recovery projects; plant site development, and development of infrastructures. (★3)

CIV E 699 Advanced Topics in Soil Mechanics
□3.0 (either term, 3-0-0). (★3)

204.16 Classics

Department of Classics
1-17 Humanities Centre
University of Alberta
Edmonton, Alberta T6G 2E5

204.16.1 General Information

The Department of Classics offers programs leading to the degrees of Master of Arts and Doctor of Philosophy.

The MA may be earned in Classics (Greek, Latin, and classical studies) in which some concentration is possible in ancient history, literature, or art and archaeology, or through specific specializations in Classical Literature, Classical Archaeology, or Ancient History.

The PhD may be earned in Classics (with concentration on language and specializations in literature, history, or archaeology) or in specific specializations in Ancient History, Classical Archaeology, or in a combination of fields (including Classical Literature and Classical Studies).

Requests for additional information should be addressed to the Chair, Committee on Graduate Studies, Department of Classics.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Financial Assistance:

Financial assistance in the form of graduate assistantships is available.

204.16.2 The Degree of MA

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student.

The minimum period of residence is one academic year of full-time attendance at the University of Alberta.

Program Requirements of the Various Specializations:

For an MA in Classics the entrance requirement is an Honors degree in Greek and Latin.

The length of the program is one year (based on a BA Honors degree in Classics) with the addition of a qualifying year if necessary.

The program requirements are 15 units of course weight and a thesis (normally not exceeding 50 pages), plus a modern language requirement of one of German, French, or Italian.

The course work consists of a minimum of six units of course weight from the Department's graduate course offerings, GREEK 599 translation (supervised reading, with exam), LATIN 599 translation (supervised reading, with exam), three units of course weight inside or outside the Department on a subject relevant to the student's major area of study, and the thesis.

For an MA in Classical Literature the entrance requirement is a bachelor's degree with 15 units of course weight in Classics at the 300-level or above and 30 units of course weight in Greek and Latin, with at least 12 units of course weight in the minor language.

The length of the program is normally one year with the addition of a qualifying year if necessary.

The program requirements are 15 units of course weight at the 400-500 level, a thesis of 50 to 100 pages, and a modern language requirement in one of French, German, or Italian. The courses will consist of six units of course weight dealing with the major area of literary interest in Latin, Greek, or Classics; three units of course weight in Latin and three units of course weight in Greek on Literary subjects; and three units of course weight inside or outside the Department on a subject relevant to the student's area of study.

For an MA in Classical Archaeology the entrance requirement is a bachelor's degree with 21 units of course weight in Classical Archaeology, Art, Ancient History, or Civilization at the 300-level or above; and 24 units of course weight in Greek or Latin or both.

The length of the program is normally 1 1/2 years including fieldwork, plus a qualifying year if necessary.

The program requirements are 15 units of course weight at the 400- level or above, a thesis of 50 to 100 pages, and a modern language relevant to the student's proposed area of study. The courses will consist of six units of course weight in Classical Archaeology, Ancient Art, or Ancient History; three units of course weight inside or outside the Department on a subject relevant to the student's area of study; three units of course weight in a prose seminar in Greek or Latin sources; and three units of course weight of archaeological fieldwork or equivalent.

Note: Any student who enters the program without a second Classical language must take the 100-level of that language before beginning the thesis.

For an MA in Ancient History the entrance requirement is a bachelor's degree with 15 units of course weight in Ancient History of Civilization at the 300-level or above; 30 units of course weight, including the 100-level courses, in both Latin and Greek, with at least 12 units of course weight in each.

The length of the program is normally one year with the addition of a qualifying year if necessary.

The program requirements are 15 units of course weight at the 400-, 500-, or 600-level; a thesis of 50 to 100 pages; plus a modern language requirement in French, German, or Italian. The courses will consist of 6 units of course weight dealing with the major area of historical interest in Latin, Greek, or Classics; three units of course weight in Latin and three units of course weight in Greek on historical subjects; and three units of course weight inside or outside the Department on a subject relevant to the student's area of study.

Note: Students who have not attained the 300-level in one of the languages may make up the deficiencies while in the qualifying year or while registered as probationary students.

204.16.3 The Degree of PhD

Program Requirements:

Course requirements, language proficiency and length of program depend to some extent on the student's previous training and on the student's anticipated needs for the chosen area of specialization.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Program Requirements of the Various Specializations:

For a PhD in Classics the entrance requirement is an MA in Classics or equivalent.

The length of the program is three to four years, depending on previous preparation. Course work including PhD reading lists, can normally be completed in two years.

The program consists of the following:

(1) Eighteen units of course weight, including GREEK 695 and LATIN 695, each of which is a course of three units of course weight designed to complete the PhD reading list requirement. Nine units of course weight must be taken from the Department's 500-600-level Greek, Latin, and Classics course offerings. Another three units of course weight must be taken inside or outside the Department on a subject relevant to the student's area of specialization.

(2) A modern language requirement of one of German, French, or Italian. Normally this will be taken as part of the course work of the first year.

(3) Departmental qualifying examinations (one each in Greek and Latin) will normally be taken by the middle of the third candidacy year.
The period examinations will consist of two four-hour examinations on a period of Greek History and Culture (514-404 BC) and a period of Roman History and Culture (63 BC - 37 AD). In each of these examinations the candidate will be expected to answer in a detailed manner two of three questions in the field of history. The examining committee in consultation with the candidate may substitute a question on art for a question on literature and a question on archaeology or some other aspect of antiquity for a question on history.

(4) To be advanced to candidacy, students must pass a candidacy oral examination on the subject relevant to their general field of research.

(5) Thesis:
For a PhD in Classical Archaeology the entrance requirement is an MA in Classical Archaeology or equivalent.

The length of the program is three to four years depending on previous preparation. Course work can normally be completed in one year, but for students deficient in a required language an additional year may be necessary.

The program requirements are 18 units of course weight, at least nine of which must be in the Department of Classics at the 500-600 level and three of which must be fieldwork or the equivalent. These requirements will normally be completed in the first year. The prerequisites for advancement to PhD candidacy are two author courses in Greek or Latin, whichever is the major language; a 300-level course in Greek or Latin, whichever is the minor language; demonstrated reading knowledge of two modern languages relevant to the student's field of study; successful completion of one PhD candidacy examination on the major ancient literary and archaeological sources relevant to the study of Classical or Hellenistic Greek art, monuments and topography; and successful completion of one PhD candidacy examination on the major ancient literary and archaeological sources relevant to the study of Roman Republican or Imperial art, monuments and topography.

The thesis will normally not exceed 300 pages.

For a PhD in Ancient History the entrance requirements are an MA in Ancient History or equivalent and consent of the Department based on promise in research.

The length of the program is normally three to four years.

The first candidacy year consists of 18 units of course weight from the Department's graduate course offerings in Ancient History or Archaeology; and a modern language requirement of one of German, French, or Italian, whichever has not been passed at the MA level.

In the second candidacy year very well qualified students may be able to begin tests on the PhD Reading Lists in September. Others may need to wait until April. The PhD Reading Lists will then be followed by tests on Greek History and Roman History and a candidacy examination.

The third candidacy year consist only of work on the thesis, if all the examinations have been completed.

For a PhD in Classical Studies the entrance requirement is an MA in Ancient History, Classical Archaeology, Classical Literature, or Classics, with the consent of the Department based on promise of research.

The length of the program is normally three to four years.

The first candidacy year normally consists of 18 units of course weight from the offerings of the Department at the graduate level in areas appropriate to the specialization of the student: three units of course weight at the graduate level, however, may be taken outside the Department in an area relevant to the student's specialization; and three units of course weight of German, French, or Italian which has not been taken at the MA level.

204.16.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis

Classics

CLASS 460 Topics in Ancient Near Eastern History
★3 (either term, 0-3s-0). Prerequisite: Any one of CLASS 369, 370, or consent of department.

CLASS 461 Topics in Roman Imperial History I
★3 (first term, 0-3s-0). Prerequisite: Any one of CLASS 365, 366, 371, 372, or consent of department.

CLASS 462 Topics in Roman Imperial History II
★3 (second term, 0-3s-0). Prerequisite: Any one of CLASS 365, 366, 371, 372, or consent of department.

CLASS 463 Topics in Roman Republican History I
★3 (first term, 0-3s-0). Prerequisite: Any one of CLASS 365, 366, 371, 372, or consent of department.

CLASS 464 Topics in Roman Republican History II
★3 (second term, 0-3s-0). Prerequisite: Any one of CLASS 365, 366, 371, 372, or consent of department.

CLASS 465 Topics in Hellenistic History I
★3 (first term, 0-3s-0). Prerequisite: Any one of CLASS 363, 364, or consent of department.

CLASS 466 Topics in Hellenistic History II
★3 (second term, 0-3s-0). Prerequisite: Any one of CLASS 363, 364, or consent of department.

CLASS 467 Topics in Early Greek History I
★3 (first term, 0-3s-0). Prerequisite: Any one of CLASS 363, 364, or consent of department.

CLASS 469 Topics in Classical Greek History I
★3 (first term, 0-3s-0). Prerequisite: Any one of CLASS 363, 364, or consent of department.

CLASS 470 Topics in Classical Greek History II
★3 (second term, 0-3s-0). Prerequisite: Any one of CLASS 363, 364, or consent of department.

CLASS 471 Regional Studies in Ancient History I
★3 (first term, 0-3s-0).

CLASS 472 Regional Studies in Ancient History II
★3 (second term, 0-3s-0).

CLASS 473 Topics in Greek and Italian Archaeology I
★3 (first term, 0-3s-0). Prerequisite: Any one of CLASS 363, 364, 367, or consent of department.

CLASS 474 Topics in the Archaeology of Italy and the Roman Empire
★3 (either term, 0-3s-0). Prerequisite: Any one of CLASS 365, 366, 368, 371, 372, or consent of department.

CLASS 475 Practical Methods in Classical Archaeology
★3, or ★6 (either term, 0-10L-0). Prerequisite: Consent of department. Note: Offered only for field work in the archaeology of the Greek and Roman world and restricted to those participating in an excavation sponsored by the Department.

CLASS 476 Advanced Field Techniques in Classical Archaeology
★3, or ★6 (either term, 0-10L-0). Prerequisite: CLASS 475 or equivalent and consent of department. Note: Offered in Summer only for field work in the archaeology of the Greek and Roman world and restricted to those participating in an excavation sponsored by the Department.

CLASS 477 Topics in Greek Art
★3 (first term, 0-3s-0). Prerequisite: CLASS 367 or consent of instructor.

CLASS 478 Topics in Roman Art
★3 (second term, 0-3s-0). Prerequisite: CLASS 368 or consent of department.

CLASS 481 Greek and Latin Epic I
★3 (first term, 0-3s-0). Prerequisite: Any one of the CLASS 359, 360, 379, or consent of department.

CLASS 483 Greek and Roman Tragedy I
★3 (first term, 0-3s-0). Prerequisite: Any one of the CLASS 359, 360, 380, or consent of department.

CLASS 484 Greek and Roman Tragedy II
★3 (second term, 0-3s-0). Prerequisite: Any one of the CLASS 359, 360, 380, or consent of department.

CLASS 497 Topics on Women in Classical Antiquity
★3 (either term, 0-3s-0). Prerequisite: CLASS 361 or any 300-level cross-listed course in Women's Studies, or consent of department.

CLASS 498 Individual Study of Literary Problems
★3 (either term, 0-3s-0). Prerequisite: Any one of CLASS 359, 360, 361, 379, 380, or consent of department.

CLASS 499 Individual Study of Historical Problems
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 510 Readings in Classical Archaeology
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 511 Topics in the Iron Age in Italy
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 512 Topics in the Archaeology of Magna Graecia
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 513 Topics in the Archaeology of Roman Italy
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 514 Topics in the Archaeology of Egypt and the Ancient Near East
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 515 Topics in the Archaeology of Greece
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 516 Topics in the Archaeology of the Roman Provinces
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 520 Readings in Historical Sources
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 522 Studies in Ancient History
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 525 Topics in Greek and Latin Literature
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

CLASS 601 Studies in Classical Archaeology I
★3 (either term, 0-3s-0).

CLASS 602 Studies in Classical Archaeology II
★3 (either term, 0-3s-0).

CLASS 699 Conference Course (Thesis)
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

Greek

GREEK 501 Greek Epic and Didactic Poetry
★3 (either term, 3-0-0).

GREEK 503 Greek Drama
★3 (either term, 3-0-0).

GREEK 505 Greek Poetry
★3 (either term, 3-0-0).

GREEK 507 Greek Historiography
★3 (either term, 3-0-0).

GREEK 509 Greek Prose Writers
★3 (either term, 3-0-0).

GREEK 511 Greek Prose Composition and Unseens
★3 (either term, 3-0-0). Prerequisite: GREEK 411 or consent of department.

GREEK 513 Topics in Greek Language
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

GREEK 551 Topics in Greek Literature
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

GREEK 599 Supervised Reading
★3 (either term, 3-0-0).

GREEK 600 Seminar
★3 (either term, 0-3s-0).

GREEK 695 Greek Reading List
★3 (either term, 3-0-0).

GREEK 699 Conference Course
★3 (either term, 3-0-0).

Latin

LATIN 502 Latin Epic and Didactic Poetry
★3 (either term, 3-0-0).

LATIN 504 Latin Drama
★3 (either term, 3-0-0).

LATIN 506 Latin Poetry
★3 (either term, 3-0-0).

LATIN 508 Latin Historiography
★3 (either term, 3-0-0).

LATIN 510 Latin Prose Writers
★3 (either term, 3-0-0).

LATIN 511 Latin Prose Composition and Unseens
★3 (either term, 3-0-0). Prerequisite: LATIN 411 or consent of department.

LATIN 513 Topics in Latin Language
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

LATIN 562 Topics in Latin Literature
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

LATIN 599 Supervised Reading
★3 (either term, 3-0-0).

LATIN 600 Seminar
★3 (either term, 0-3s-0).

LATIN 695 Latin Reading List
★3 (either term, 3-0-0).

LATIN 699 Conference Course
★3 (either term, 3-0-0).

204.17 Clothing and Textiles

Department of Clothing and Textiles
301 Printing Services Building
University of Alberta
Edmonton, Alberta T6G 2N1

204.17.1 General Information

The Department of Clothing and Textiles offers graduate work leading to the degrees of MA and MSc in Clothing and Textiles and the degree of MSc in Consumer Studies.

A postgraduate diploma in textile conservation and curatorship is also offered. The aim of the diploma program is to provide museum professionals, who have had some practical field experience, the opportunity to obtain additional theoretical knowledge in such areas as textile science, history of costume and textiles, and textile conservation and curatorship.

The research laboratories are well equipped with up-to-date, well maintained instruments. The library facilities in all areas of specialization are excellent. The Department possesses an outstanding collection of clothing and textiles from a variety of time periods and cultures.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and both a TOEFL score of 570 and a Test of Spoken English score of 200 where applicable (see §202.2.2). An applicant proceeding from either a three-year program in a related field or a four-year program in a different field may be admitted as a qualifying student.

Financial Assistance:

A limited number of teaching and research assistantships are available for well qualified applicants.

204.17.2 The Degrees of MSc and MA

Program Requirements:

Requirements for the master's degree include 18 units of course weight including CLTX 600, 619, and 620. Beyond the required 18 units of course weight students may enroll in additional courses depending on undergraduate background and the nature of the research problem under investigation. All candidates for the master's degree are required to conduct thesis research.

There is a residence requirement of two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time to complete the master's degree will vary with the individual candidate; however, a minimum of two years is normally required.

204.17.3 The Postgraduate Diploma Program

Entrance Requirements:

Students entering the program are required to have a grade point average of 6.5 in the final two years of a four-year degree in a field related to the conservation or curatorship of textiles from the University of Alberta or equivalent, two or more years of work experience in the museum field related to clothing and textiles, and one year each of college-level chemistry and history or art history. Applicants who have not completed a formal Museum Studies program will be advised to complete a museum studies course.

Program Requirements:

Students must successfully complete 21 to 30 units of course weight with an academic standing no less than that acceptable to the Faculty of Graduate Studies and Research. An individual program for each student based on needs and prior experience will be approved by the Department's graduate program committee.

No period of residence is required.

Length of Program:

The time required to complete the diploma program will vary; however, the diploma must be completed within four years from the first registration in the program.

204.17.4 Undergraduate Courses

The following table lists renumbered undergraduate courses effective 1991-92:

Old	New	Old	New
CL TX 400	CL TX 450	CL TX 408	CL TX 460
CL TX 402	CL TX 355	CL TX 409	CL TX 470
CL TX 403	CL TX 368	CL TX 410	CL TX 371
CL TX 404	CL TX 369	CL TX 411	CL TX 471
CL TX 405	CL TX 352	CL TX 418	CL TX 365
CL TX 406	CL TX 455	CL TX 419	CL TX 478

The following may be taken for graduate credit in Clothing and Textiles.

CL TX 352 Textile Design II
★3 (either term, 2-0-4). An advanced studio course in various methods of printing and dyeing textiles with a major component of independent study. Prerequisite: CL TX 252 and consent of instructor.

CL TX 355 Advanced Apparel Design and Construction
★3 (second term, 3-0-3). Application of advanced pattern making and construction techniques through the process of product design. Prerequisite: CL TX 255.

CL TX 365 Clothing and Textile Policy
★3 (first term, 3-0-0). Government policies and programs regarding consumer protection, worker protection and environmental protection as they affect the clothing and textile market; international trade agreements and commercial policies for the textile and apparel market. To be offered in alternate years. Prerequisite: CL TX 160 and ECON 102. Formerly CL TX 416. Note: May not be taken for credit by students with credit in CL TX 416.

CL TX 368 History of Costume
★3 (first term, 3-0-3). Evolution of Western fashionable dress from ancient times to the present. Emphasis on primary sources from the nineteenth and twentieth centuries. Prerequisite: Three single-term courses in history or art history or consent of instructor.

CL TX 369 Historic and Cross Cultural Textiles
★3 (second term, 3-0-3). Textiles from a variety of cultures and time periods; their social significance, production, structure design, and the influence on contemporary design. Prerequisite: Three single-term courses in history, art history, design history or anthropology or consent of instructor.

CL TX 371 Textile Performance Testing
★3 (second term, 3-0-3). Relationship of textile performance to end use. Physical testing and evaluation focusing on consumer products. Textile standards and specifications. Prerequisite: CL TX 271.

CL TX 450 Design in Everyday Living
★3 (either term, 3-0-3). Introduction to design at the senior level; development of visual awareness and aesthetic appreciation. Prerequisite: Graduate standing and permission of instructor. Note: May not be taken for credit by students with credit in CL TX 150.

CL TX 455 Clothing Construction
★3 (second term, 3-0-3). Application of basic principles of clothing construction and fitting to garments made of fabrics requiring special techniques. Prerequisite: Graduate standing and permission of instructor. Note: May not be taken for credit by students with credit in CL TX 301 and CL TX 303.

CL TX 460 Clothing and Textiles: A Social Science Perspective
★3 (first term, 3-0-0). Senior level application of a multidisciplinary, social science approach to the study of clothing and textiles. Prerequisite: Graduate standing and permission of instructor. Note: May not be taken for credit by students with credit in CL TX 160.

CL TX 470 Textile Science
★3 (second term, 3-1s-2). An introduction to textile concepts and principles. Prerequisite: Graduate standing and permission of instructor. Note: May not be taken for credit by students with credit in both CL TX 270 and CL TX 271.

CL TX 471 Advanced Textiles
★3 (second term, 3-0-3). Fiber microscopy, study of major classes of dyes, polymer formation, special polymers, and textile finishes. Chemical reactivity and specialized physical testing. Prerequisite: CL TX 271. Corequisite: CHEM 100.

CL TX 478 Preventive Textile Conservation
★3 (first term, 3-0-3). Theoretical and practical investigation of the preventive care of textiles and costumes in museums or related institutions. Topics include an overview of deteriorating factors, as well as procedures for handling, storage, display, and preventive treatment. Museum collections and personnel will augment university lecture, seminar, laboratory and study collection facilities. Prerequisite: CL TX 270, 368, and 369 or consent of instructor.

204.17.5 Graduate Courses

The following table lists renumbered graduate courses effective 1991-92:

Old	New	Old	New
CL TX 500	CL TX 590	CL TX 519	CL TX 578
CL TX 502	CL TX 592	CL TX 520	CL TX 619
CL TX 503	CL TX 593	CL TX 602	CL TX 692
CL TX 505	CL TX 594	CL TX 603	CL TX 668
CL TX 506	CL TX 595	CL TX 604	CL TX 694
CL TX 507	CL TX 598	CL TX 618	CL TX 665
CL TX 508	CL TX 599		

THES 900 Thesis
THES 999 Thesis

Clothing and Textiles

CL TX 578 Textile Conservation Theory and Practice
★3 (second term, 3-0-3).Theoretical and practical investigation of the degradation and treatment of historic textiles and costumes. Lecture and laboratory experience will include an in-depth study of factors affecting the degradation of fibres, as well as methods of cleaning, bleaching, and consolidation. Prerequisites: CL TX 271 and 478.

CL TX 590 Clothing and Textile Seminar
★3 (either term, 0-3s-0). Research reporting and information retrieval methods. Preparation and presentation of seminar based on an in-depth analysis of the research literature on selected topics. Open only to clothing and textiles students who have completed 90 course weights. Prerequisite: HEC 359.

CL TX 592 Independent Study I
★3 (either term, 0-0-6). Independent study planned by student in consultation with faculty from one of the following areas or suitable combination of areas: Textile Science; Housing; Interiors or Furniture Design; Textile or Apparel Design; History of Costume, Textiile or Furniture; Textile Conservation and Clothing for Special Needs. Prerequisite: Senior course(s) in respective area or consent of instructor.

CL TX 593 Independent Study II
★3 (either term, 0-0-6). Independent study planned by student in consultation with faculty from one of the following areas or suitable combination of areas: Textile Science; Housing; Interiors or Furniture Design; Textile or Apparel Design; History of Costume, Textile or Furniture; Textile Conservation and Clothing for Special Needs. Prerequisite: Senior course(s) in respective area or consent of instructor.

CL TX 594 Practicum in Selected Areas
★6 (either term, or full session). Supervised field experience. Open only to Clothing and Textiles students who have completed 90 credits. Prerequisite: CL TX 150, 155, 160, 271, H EC 300 and 359; senior course in respective area and consent of the Practicum Coordinator. Not allowed if student has credit in CL TX 595.

CL TX 595 Practicum in Selected Areas
★3 (either term, 0-1s-8). Supervised field experience. Open only to Clothing and Textiles students who have completed 90 credits. Prerequisite: CL TX 150, 155, 160, CL TX 271, H EC 300 and 359; senior courses in respective area and consent of the Practicum Coordinator. Not allowed if student has credit in CL TX 594.

CL TX 598 Historic Resources Internship I
★3 (0-1s-8). Internship with an institution involved in historic resources conservation. Normally offered in Intersession by special arrangement. Prerequisite: CL TX 578 or consent of Department.

CL TX 599 Historic Resources Internship II
★3 (0-1s-8). Continuation of CL TX 598. Normally offered in Intersession by special arrangement. Prerequisite: CL TX 598 and consent of Department.

CL TX 600 Clothing and Textile Graduate Seminar
★1 (either term, 0-1s-0). Required of all graduate students who may normally register up to three times for a maximum of three credits.

CL TX 619 Literature Review
★3 (first term, 3-0-0). A survey of the clothing and textiles research literature obtained from the application of information retrieval techniques to the numerous secondary services which cover the literature. Prerequisite: Graduate standing or consent of instructor.

CL TX 620 Research Methods in Clothing and Textiles
★3 (second term, 3-0-0). A study of various types of research in clothing and textiles and the development of a research proposal with specific attention to: objectives of study, theoretical framework, hypotheses, sampling, data collection, analyses and interpretation of findings. Prerequisite: A half course in statistics and CL TX 619 or consent of instructor.

CL TX 660 Research in Cross-Cultural Clothing and Textiles
★3 (either term, 0-3s-0). Focus to be in-depth and specific; topics selected will depend on the needs and interests of course participants and may be oriented to primary data (archival or field) and/or secondary sources. Prerequisite: Consent of instructor.

CL TX 665 Consumer Research in Textiles and Clothing
★3 (either term, 0-3s-0). A study of conceptual frameworks for consumer research. Familiarization with the consumer research literature in textiles and clothing, with emphasis on developments in theory. Prerequisite: MARK 422 or consent of the instructor.

CL TX 668 Curatorial Research in Clothing and Textiles
★3 (either term, 0-3s-0). Investigation of past, current and potential research of concern to museum curators. Prerequisite: CL TX 368, 369, 619 or consent of instructor.

CL TX 692 Independent Study III
★3 (either term, 0-0-6). Offered by permission of instructor only.

CL TX 694 Independent Study IV
★3 (either term, 0-0-6). Offered by permission of instructor only.

Home Economics

H EC 500 Perspectives in Home Economics/Human Ecology
★3 (either term, 3-0-0). Historical and philosphical perspectives about the nature and purpose of home economics/human ecology; exploration of professional issues and alternative modes of professional practice. Restricted to Graduate students only.

H EC 501 Independent Project in Home Economics
★3 (either term, 0-0-6). Independent study of topics in home economics planned by the student in consultation with the instructor. Prerequisite: Graduate standing.

H EC 600 Home Economics Graduate Seminar
★1 (either term, 0-1s-0).Graduate students may register up to three times for a minimum of three credits.

204.17.6 Reserve List

The following table lists renumbered reserve list courses effective 1991-92:

Old	New	Old	New
CL TX 407	CL TX 356	CL TX 433	CL TX 465
CL TX 414	CL TX 364	CL TX 434	CL TX 481
CL TX 417	CL TX 480	CL TX 510	CL TX 580
CL TX 430	CL TX 452	CL TX 511	CL TX 581
CL TX 431	CL TX 456	CL TX 512	CL TX 582
CL TX 432	CL TX 451	CL TX 517	CL TX 591

The Department is unable to offer the following courses regularly. Students should consult the Department for further information.

CL TX 356 Tailoring
★3 (first term, 3-0-3). Note: To be offered only when staffing allows. Prerequisite: CL TX 155 or consent of instructor.

. TX 364 Socio-Psychological Bases of Clothing
3 (either term, 3-0-0). Clothing as a stimulus and sponse in the establishment, maintenance and en-ncement of the self. Clothing as an expression of llective and individual behavior. Prerequisite: CL TX 0; and any two of SOC 100, SOC 102, PSYCO 104, SYCO 105; or consent of instructor.

. TX 451 Selected Topics in Housing
3 (3-0-3). Normally offered in Intersession.

. TX 452 Selected Topics in Textile Design
3 (3-0-3). Normally offered in Intersession.

. TX 456 Selected Topics in Apparel Design
3 (2-0-4). Normally offered in Intersession.

. TX 465 Selected Topics in Textile and Apparel erchandising
3 (3-0-0). Normally offered in Intersession.

. TX 480 Selected Topics
3 (either term, 3-0-0, or 3-0-3, or 2-0-4). Topics of rrent interest in clothing, textiles and design. Prereq-isite: Varies with specific offering.

. TX 481 Clothing and Textiles Study Tour
3 (1-1s-6). Normally offered in Intersession.

. TX 580 Current Issues in Clothing and Textiles I
1 (either term, 0-1s-0). Prerequisite: varies with offer-g. Note: The combination of all three of CL TX 580, 81, 582 constitutes the equivalent of a single term ourse of full weight.

. TX 581 Current Issues in Clothing and Textiles II
1 (either term, 0-1s-0). Prerequisite: varies with offer-g. Note: The combination of all three of CL TX 580, 81, 582 constitutes the equivalent of a single term ourse of full weight.

. TX 582 Current Issues in Clothing and extiles III
1 (either term, 0-1s-0). Prerequisite: varies with offer-g. Note: The combination of all three of CL TX 580, 81, 582 constitutes the equivalent of a single term ourse of full weight.

. TX 591 Selected Topics
3 (either term, 3-0-0, or 3-0-3, or 2-0-4). Topics of urrent interest in clothing, textiles and design. Prereq-isite: Senior courses(s) in respective area(s).

204.18 Comparative Literature

Department of Comparative Literature
47 Arts Building
University of Alberta
Edmonton, Alberta T6G 2E6

204.18.1 General Information

The Department of Comparative Literature offers programs leading to the degrees of Master of Arts and Doctor of Philosophy in all literatures taught at this University.

Inquiries concerning academic programs should be addressed to the Chair of the Department.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 7.0 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Applicants for graduate work in comparative literature should, in their previous programs, have concentrated on the literature of one or two languages. They must have a competent reading knowledge of at least one language other than English in order to undertake an MA program, and of at least two languages other than English in order to undertake a PhD program.

Financial Assistance:

Graduate assistantships, tenable in Comparative Literature or in a department corresponding to the language in which the student has specialized, as well as scholarships and fellowships are available to qualified students. For details see the Awards section of the Calendar.

204.18.2 The Degree of MA

Program Requirements:

In addition to the thesis, 24 units of course weight are normally required for an MA. The number of courses and their areas shall be determined individually.

For information on the language requirements for the MA program see "Entrance Requirements" above; details may be obtained by writing to the Chair of the Department.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

A candidate for the MA entering from a four-year specialized program and continuing work in the same field is normally required to complete the equivalent of one calendar year's work. Other candidates are normally required to complete the equivalent of two years' work.

204.18.3 The Degree of PhD

Program Requirements:

In addition to the thesis, 36 units of course weight in graduate courses are normally required for the degree of PhD. The PhD candidacy examination consists of a departmental examination (the description of which is available in the Department) and the oral (as described under §203.2.1(8)).

For information on the language requirements for the PhD program see "Entrance Requirements" above; details may be obtained by writing to the Chair of the Department.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time necessary to complete the requirements for the PhD depends upon the student's progress. For a student with a BA, the minimum requirement is three academic years of study and research, of which two academic years must be in residence at the University of Alberta. For a student with an MA, the minimum requirement is two years of study and research in residence at the University of Alberta. Details are determined by the Department, and an alternative method of meeting the residence requirement may be considered on recommendation of the Department to the Faculty of Graduate Studies and Research.

204.18.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis

C LIT 500 Literary Scholarship: Methods and Techniques
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 501 Studies in World Literature I
★3 (either term, 3-1s-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 502 Studies in World Literature II
★3 (either term, 3-1s-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 504 Studies in the Relationship of Literature with the Visual Arts
★3 (either term, 3-0-0). Prerequisite: One senior-level course in art history, one senior-level course in literature, and reading knowledge of one relevant language other than English. Corequisite: ART H 504.

C LIT 505 The Theory of the Study of Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 507 Literary Stylistics
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 510 Poetics: The Nature and Forms of Poetry
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 511 Comparative Studies in "Formalistic" Approaches to Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 512 Theory of Translation
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 514 Literature and Oral Tradition
★3 (either term, 3-0-0). Prerequisite: Reading knowledge of any relevant ancient or modern language other than English.

C LIT 515 Studies in Folklore: Prose Forms
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 516 Studies in Folklore: Poetic Forms
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 517 The Greek and Latin Tradition in European Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Some knowledge of Greek but more particularly of Latin, or consent of Department.

C LIT 518 The Biblical Tradition in Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 519 Comparative Studies in the Asian and Western Tradition
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English (e.g., German, French).

C LIT 520 Comparative Studies in Medieval Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of either Latin, or French or the consent of Department.

C LIT 521 Directed Reading Course I
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

C LIT 522 Directed Reading Course II
★3 (either term, 0-3s-0). Prerequisite: Consent of Department.

C LIT 529 Studies in Renaissance Literary Theory and Criticism
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 530 Comparative Studies in European Drama of the Sixteenth and Seventeenth Centuries
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 545 Comparative Studies in Eighteenth-Century Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 547 Studies in Western Tradition in Literary Criticism I
★3 (either term, 3-1s-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 548 Studies in Western Tradition in Literary Criticism II
★3 (either term, 3-1s-0). Prerequisite: C LIT 547, or consent of Department.

C LIT 549 Studies in Western Tradition in Literary Criticism III
★3 (either term, 3-1s-0). Prerequisite: C LIT 548, or consent of Department.

C LIT 550 Comparative Studies in Romantic Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 552 Comparative Studies in Realistic Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 553 Comparative Studies in Naturalistic Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 554 Comparative Studies in the Novel
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 555 Comparative Studies in Literature of the Late Nineteenth Century
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 556 Advanced Studies in Comparative Third-World Literatures
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of French, Spanish, or Portuguese, or consent of Department.

C LIT 560 Comparative Studies in Canadian Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 565 Comparative Studies in the Epic
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 567 The Romance
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 568 Comparative Studies in the Pastoral
★3 (either term, 3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 570 Comparative Studies in Comedy
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 575 Tragedy: A Theoretical Approach
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 580 Comparative Studies in Literary Parody
★3 (either term, 3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 585 Studies of Forms and Genres
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 590 Studies of Motifs and Themes
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one language other than English.

C LIT 595 Special Topics in Comparative Literary History
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English

C LIT 599 Tutorial
★0 (2-0-0). Prerequisite: Participation in a graduate degree program in Comparative Literature.

C LIT 609 Special Topics in Asian Literary Theory and Criticism
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 610 Special Topics in Literary Theory and Criticism
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 611 Marxist Literary Theory and Criticism
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of at least one relevant language other than English.

C LIT 612 Marxist Concepts of Literature in the Twentieth Century
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 628 Comparative Studies in Renaissance and Baroque Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 638 Avant-garde Trends in Twentieth-Century European and American Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 640 Socialist Realism: Theory and Practice
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 641 Surrealism: Theory and Practice
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 642 Literary Existentialism: Theory and Practice
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 645 Comparative Studies in Twentieth Century Literature
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 646 Comparative Studies in Modern Drama
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of one relevant language other than English.

C LIT 648 Comparative Studies in French and English Literature, 1830-1900
★3 (either term, 3-0-0) or ★6 (3-0-0).

C LIT 649 Franco-German Literary Relations during the Nineteenth Century
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of French and German.

C LIT 695 Anglo-German Literary Relations from the Sixteenth to the Nineteenth Centuries
★3 (either term, 3-0-0) or ★6 (3-0-0). Prerequisite: Reading knowledge of German.

C LIT 696 Seminar Course
★3 (either term, 0-3s-0) or ★6 (0-3s-0). Prerequisite: Reading knowledge of two languages other than English.

C LIT 697 Special Reading Course I
★3 (either term, 0-3s-0) or ★6 (0-3s-0).

C LIT 698 Special Reading Course II
★3 (either term, 0-3s-0) or ★6 (0-3s-0).

C LIT 699 Conference Course
★3 (either term, 0-3s-0) or ★6 (0-3s-0).

204.19 Computing Science

Department of Computing Science
615 General Services Building
University of Alberta
Edmonton, Alberta T6G 2H1

204.19.1 General Information

The Computing Science Department offers programs leading to the degrees of Master of Science and Doctor of Philosophy in a number of fields, including artificial intelligence, database management, design and analysis of computer algorithms, computer graphics, image processing, computer architecture, numerical analysis, operating systems, programming languages, simulation studies, software engineering, symbolic manipulation, and theory of computation.

The Department owns and operates a network of computers, including several CPU servers and a large number of SUN workstations, all running under UNIX. Other departmental facilities include Xerox Lisp machines, a variety of mini- and microcomputer systems and a number of graphics display and image processing systems. Besides these, the Department provides terminal access to the University's Amdahl 5870, which operates under the Michigan Terminal System (MTS), as well as IBM mainframes.

Further information may be obtained from the Chair, Graduate Committee, Department of Computing Science.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 600 where applicable (see §202.2.2).

A departmental admission requirement for non-Canadians, as well as Canadians with a degree from a non-Canadian university, is that they write the Graduate Record Examinations (verbal, quantitative and analytical [a minimum score of 1900], and if appropriate, advanced) administered by the Educational Testing Service (Princeton, NJ). The GRE is also recommended for students with backgrounds unrelated to Computing Science. The examinations should be written early enough so that scores will be available at the same time as the applicant's other supporting documents.

Students in all degree programs will be expected to satisfy the requirements currently in force with respect to attendance at departmental colloquia and seminars, and the public presentation of students' research results.

Financial Assistance:

Financial assistance is available throughout the calendar year in the form of graduate assistantships and research grant assistantships. In order to be considered for assistance, students must maintain satisfactory academic performance.

204.19.2 The Degree of MSc

Entrance Requirements:

Candidates for the MSc degree in computing science must have an Honors degree or the equivalent from a recognized university, with a background in computing science and mathematics at least equivalent to the computing science and mathematics courses required in the first three years of the Honors program in computing science at the University of Alberta. Students who do not meet these requirements must take additional courses to those required in the MSc program, either concurrently with the graduate program or in a year of study prior to admission as MSc candidates.

Program Requirements:

After acceptance into the MSc program, candidates will be required to take a minimum of 18 units of course weight in graduate courses and write a thesis. Students who do not obtain an average of 6.75 over the best four courses and an average of 6.5 over six courses in the first year of studies may be asked to withdraw from the graduate program.

No language other than English is required for the degree.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The program can be completed in about 20 months of full-time study.

204.19.3 The Degree of PhD

Entrance Requirements:

To be admitted as a provisional candidate for the PhD, a student must normally have an MSc degree in computing science or a related field. Unusually qualified applicants having the equivalent of a First-Class Honors BSc degree, or MSc candidates who perform unusually well in their first term (four months) of studies, may be admitted directly into the PhD program.

Program Requirements:

A PhD candidate with an MSc degree will be required to take a minimum of 12 units of course weight in graduate courses and satisfy the departmental breadth requirements. A PhD candidate who does not obtain an average of 7.5 over the best four courses in the first year of studies may be asked to withdraw from the doctoral program, but may be admissible to the MSc program. The major part of the student's program will consist of original research, the result of which will be presented in a doctoral thesis.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of 32 months is normally necessary.

204.19.4 Undergraduate Courses

Students entering the graduate program are expected to have an adequate background in computing science. Students lacking adequate background may be required to take one or more of the following courses in addition to their regular graduate program.

CMPUT 301 Software Engineering
★3 (either term, 3-0-3). The software lifecycle: specifications, design, coding, testing, documentation and maintenance. Project organization including development tools, resource estimation, team organization and review. The class will organize and implement a complete software project. Prerequisite: CMPUT 225.

CMPUT 304 Algorithms II
★3 (first term, 3-0-0). The second course of a two course sequence on algorithm design. Emphasis on principles of algorithm design. Categories of algorithms such as divide-and-conquer, greedy algorithms, dynamic programming; analysis of algorithms; limits of algorithm design; NP-completeness; heuristic algorithms. Prerequisite: CMPUT 204.

CMPUT 311 Introduction to Computer Graphics
★3 (either term, 3-0-3). Graphical input and output devices primitives; segments; interactive input techniques; user interface design; windowing and clipping. 2-D and 3-D transformation; 3-D modeling and viewing; hidden-line and hidden-surface removal. Prerequisite: CMPUT 280.

CMPUT 319 Numerical Analysis I
★3 (first term, 3-0-2). An introduction to selected topics in numerical analysis. Areas covered will include floating point arithmetic and error analysis, systems of linear equation, interpolation, approximation, numerical integration and roots of nonlinear equations. Prerequisite: CMPUT 204, MATH 120 and 215. Credit cannot be obtained for more than one of CMPUT 319, 340, 358, MATH 280 or 486.

CMPUT 329 Computer Design and VLSI Implementation
★3 (either term, 3-0-3). Design of digital circuits; functional and structural representations; VLSI implementations. Computer design languages. testing and verification. Digital arithmetic. Prerequisite: CMPUT 285.

CMPUT 334 Computer Systems and Architecture
★3 (either term, 3-0-3). An investigation of computer system design concepts including requirements, specifications, implementation and modification. Instruction sets, arithmetic/logic unit design, bus structures, I/O structures, control organization and implementation. Discussion and use of hardware description languages. Prerequisite: CMPUT 285.

MPUT 340 Introduction to Numerical Methods
(first term, 3-1s-3). Introduction to computer arithmetic d errors. The study of computational methods for solv- problems in linear algebra, non-linear equations, inter- ation and approximation, integration and ordinary differential uations. The aim is to teach the student how to use thematical subroutine packages currently available in mputer libraries. Prerequisite: CMPUT 172, MATH 120 d 214. Credit cannot be obtained for more than one of MPUT 319, 340, 358 or MATH 280 or 486.

MPUT 350 Introduction to Artificial Intelligence
3 (either term, 3-0-3). Problem representation, search, erence, and learning in intelligent systems; systems general problem solving, game playing, deduction, pert consultation, computer vision, concept formation, d natural language understanding. Prerequisite: CMPUT 4 and 225.

MPUT 374 Formal Languages, Automata, and omputability
3 (second term, 3-0-0). Formal grammars; normal rms; relationship between grammars and automata; gular expressions; finite state machines; state mini- ization; pushdown automata; Turing machines; comput- bility; the Halting Problem; introduction to recursive function eory. Prerequisite: CMPUT 204, MATH 223 or 382.

MPUT 379 Operating System Concepts
3 (either term, 3-0-3). Definition of a process; process tates and state transitions; process control block; op- rations on processes; interrupt processing; parallel rocessing; resource allocation; shared and unshared llocation; critical sections; semaphores; deadlock; deadlock revention, avoidance, detection and recovery; memory anagement; memory allocation schemes; virtual memory; aging and segmentation; page replacement strategies; orking sets; demand paging; job and processor sched- uling; scheduling levels, objectives and criteria; various cheduling algorithms; multi-processor considerations; le system functions; file organization; tree structured le systems; space allocation; file catalogs; file access ontrol mechanisms; operating systems security. Pre- equisite: CMPUT 204, 225, and 285.

MPUT 384 Systems Programming
3 (either term, 3-0-3). Introduction to VM/SP (the irtual machine concept); the IBM-370 architecture (a eminder); correlation between various components of a omputing system (CPU, memory, channels, I/o de- ices); interrupt handling (hardware prerequisites, inter- upt classes and priorities, programming interrupt handlers); simple operating system for the IBM-370 (processes, PU scheduling, SVC requests); memory organization mapping techniques, virtual memory); VM implementa- ion (virtual CPU states, shadow tables); other computer rchitectures and their specific operating system imple- mentation problems: machines without interrupts (CDC- 6000/7000 series), and supercomputers (Cray, Cyber 205). Prerequisite: CMPUT 204, 225, and 285.

CMPUT 391 Database Management Systems
★3 (either term, 3-0-3). Logical data modeling process, elational database design (normalization), query rocessing, transaction management, new technological rends (distributed databases, object-orientation, knowl- edge base systems). Prerequisite: CMPUT 291.

CMPUT 495 Honors Seminar
★0 (either term, 0-1s-0). Prerequisite: A 300-level Computing Science course. Note: Required of all Honors Computing Science students during their degree program.

204.19.5 Graduate Courses

Note: In all cases where prerequisite courses are specified, the phrase "or equivalent courses taken at the University of Alberta or at another university" is understood. Where students are uncertain whether they meet prerequisite requirements, they should consult with their program adviser, and if necessary, with the instructor of the graduate course.

THES 900 Thesis
THES 999 Thesis

CMPUT 501 Topics in Computing Science
★3 (first term, 3-0-0).

CMPUT 502 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 503 Topics in Computing Science
★3 (first term, 3-0-0).

CMPUT 504 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 505 Efficient and Optimal Algorithms
★3 (second term, 3-0-0). Models of computation. Upper and lower bounds on time and storage requirements. Problems from: sorting and order statistics, graph and combinatorial geometry, algebraic computation, cryptography, pattern matching and decision problems. P vs NP and related questions, and provably intractable problems. Prerequisite: CMPUT 304.

CMPUT 506 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 507 Topics in Computing Science
★3 (first term, 3-0-0).

CMPUT 508 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 509 Topics in Computing Science
★3 (first term, 3-0-0).

CMPUT 511 Computer Graphics
★3 (first term, 3-0-3). Graphics hardware and software, 3D geometry, modeling, user interface, data structures, image generation, illumination models, scan conversion, paint programs. Prerequisite: CMPUT 311.

CMPUT 512 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 513 Computer Networks
★3 (second term, 3-0-3). Review of: physical and data link layer protocols; transmission media and recent advances. Network, transport and higher layer protocols; satellite and packet radio networks. Local area networks: ring, bus, star. Design variables and performance measures. Prerequisite: CMPUT 313 and STAT 222 or 266 or CMPUT 322.

CMPUT 516 Topics in Operating Systems I
★3 (first term, 3-0-0). Prerequisite: CMPUT 416 or 385 or equivalent systems programming experience.

CMPUT 517 Topics in Operating Systems II
★3 (second term, 3-0-0). Prerequisite: CMPUT 516.

CMPUT 518 Topics in Numerical Analysis I
★3 (second term, 3-0-0). Prerequisite: CMPUT 419.

CMPUT 519 Topics in Numerical Analysis II
★3 (second term, 3-0-0). Prerequisite: CMPUT 518.

CMPUT 521 Computer Queueing Network Models 3
★3 (either term, 3-0-0). Overview of analysis for design and performance evalution of computer systems, networks, operating systems, databases and software. Open queueing models; concepts of stochastic processes, stationarity independence, Markovian properties, flow balance. Fundamental laws from operating queueing analysis, closed queueing networks; hierarchial modeling. Simulation of realistic applications. Prerequisite: CMPUT 322.

CMPUT 522 Topics in Performance Evaluation
★3 (first term, 3-0-0). Prerequisite: CMPUT 316 or 319 or 340; and STAT 222 or 266 or CMPUT 322.

CMPUT 525 Formal Syntax Analysis
★3 (first term, 3-0-0). Context-free grammars and other formalisms for describing syntax of programming languages. Regular grammars and finite state automata. Top-down and bottom-up parsing of context-free languages. Early's context-free parser. Precedence, LL(k), and LR(k) grammars. SLR(k), LALR(k), L(m)R(k) and LR(k) parsing techniques. Transduction grammars. Problems of embedding parsers into compilers. Error-recovery techniques. Prerequisite: CMPUT 315.

CMPUT 526 Advanced Programming Languages
★3 (first term, 3-0-0). The methodology, theoretical foundations, run-time structure and implementation of non-procedural programming paradigms and languages, functional object-based and logic-based programming paradigms. Prerequisite: CMPUT 315 or 379.

CMPUT 530 Advanced Compiler Design
★3 (first term, 3-0-0). Automated compiler construction, machine independent optimization, code generation, p-code, virtual machines, architectures, instruction sets and generation of code, parallel machines. Prerequisite: CMPUT 315.

CMPUT 535 Parallel and Multiprocessor Architectures
★3 (second term, 3-0-3). Advanced multiprocessor architecture projects course, emphasizing parallel and non-von Neumann architectures, storage hierarchies, pipeline and vector processors, parallel algorithms, interconnection structures, control mechanisms. Prerequisite: CMPUT 334 and 379.

CMPUT 551 Artificial Intelligence I: Reasoning
★3 (first term, 3-0-0). Review and analysis of general problems solving methods; advanced theorem proving methods, planning, skill aquisition, and knowledge representation and organization. Prerequisite: CMPUT 350.

CMPUT 552 Artificial Intelligence II: Semantic Information Processing
★3 (second term, 3-0-0). Knowledge representation and organization, inference structure, scene understanding, recent work on learning and concept formation, natural language syntax and semantics, Montague grammar, generalized phrase structure grammar, CF and deterministic parsing, milestone systems, pragmatics, role of inference, casual connections, goals, and plans in language understanding and conversation planning. Prerequisite: CMPUT 551.

CMPUT 566 Algebraic and Symbolic Computation
★3 (second term, 3-0-0). Symbolic and algebraic languages, representation and simplification of expressions. Transformation of representation: Chinese remainder, Hensel constructs, Padé fractions. Fast arithmetic. Greatest common division and factorization. Algebraic algorithms. Prerequisite: CMPUT 304. Corequisite: MATH 423 or 425.

CMPUT 572 Computability and Complexity Theory
★3 (second term, 3-0-0). Primitive recursive functions, recursive functions, unsolvability, reducibility, recursively enumerable sets. Predictably computable functions. Axiomatic complexity theory. Complexity classes and hierarchies. Simulation between computing models. Complexity of feasible computations. Prerequisite: CMPUT 374.

CMPUT 592 Advanced Topics in Data Management
★3 (second term, 3-0-0). Basic components of the relational model: structure, constraints and operations. Particular emphasis on constraints and operations. Topics emphasized: schema analysis and query optimization. Prerequisite: CMPUT 391.

CMPUT 593 Distributed Database Systems
★3 (first term, 3-0-3). Architecture of distributed database systems; management of distributed database systems; technical issues (design, query processing, concurrency control, etc.); overview of existing systems. Prerequisite: CMPUT 313 and 391.

CMPUT 601 Seminar
★3 (first term, 0-2s-0). Required of all graduate students.

CMPUT 602 Seminar
★3 (second term, 0-2s-0). Required of all graduate students.

CMPUT 618 Advanced Topics in Numerical Analysis
★3 (first term, 3-0-0).

CMPUT 619 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 651 Topics in Computing Science
★3 (first term, 3-0-0).

CMPUT 652 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 653 Topics in Computing Science
★3 (first term, 3-0-0).

CMPUT 654 Topics in Computing Science
★3 (second term, 3-0-0).

CMPUT 660 Computer Networks and Systems Design/Evaluation
★3 (first term, 3-0-0).

CMPUT 661 Seminar on Software Engineering
★3 (second term, 3-0-0).

CMPUT 662 Seminar in Computational Complexity
★3 (second term, 3-0-0).

CMPUT 663 Seminar in Automata and Computability
★3 (first term, 3-0-0).

CMPUT 664 Seminar in Knowledge-Based Systems
★3 (second term, 3-0-0).

CMPUT 665 Seminar in Artificial Intelligence
★3 (second term, 3-0-0).

CMPUT 666 Seminar in Adaptive Systems
★3 (first term, 3-0-0).

CMPUT 670 Coding and Storage in Information Retrieval
★3 (first term, 3-0-0).

CMPUT 671 Classification Problems in Information Retrieval
★3 (second term, 3-0-0).

204.20 Dentistry

Faculty of Dentistry
3032 Dentistry-Pharmacy Centre
University of Alberta
Edmonton, Alberta T6G 2N8

204.20.1 General Information

The Faculty of Dentistry has research laboratories and instructional facilities for a limited number of graduate students proceeding to the degrees of Master of Science and Doctor of Philosophy.

The research interests of the staff include: Anatomy: Human growth and development, embryonic induction of dental tissues and organs, evolution of dentitions; Biochemistry: Structure crosslinking of collagen, connective tissue research and calcification; Oral Pathology: Immunology and oral tumors, pulp capping agents; Physiology: Neuro-muscular function; Public Health and Community Dentistry: Health care, delivery systems, administration of public health programs; Clinical Dentistry: Studies in diagnosis, treatment and clinical trials; Biomaterials: Fluoride, physical properties of dentin, evaluations of dental materials.

It is possible to undertake a DDS and MSc (Oral Biology) combined program.

More detailed information can be obtained from the Director, Division of Graduate Studies and Research, Faculty of Dentistry.

Entrance Requirements:

The Faculty of Dentistry's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2). Students applying for admission to the MSc Clinical Sciences (Orthodontics) program require a minimum GPA of 7 or its equivalent. The normal closing date for receipt of applications to the MSc Clinical Sciences (Orthodontics) program is October 15.

Graduates in dentistry may undertake graduate programs in either oral biology or clinical science. Students with a BSc degree in biological or physical science are eligible for graduate study; however, in order to be accepted into the PhD program applicants must normally hold the equivalent of a four-year (Honors) BSc.

Financial Assistance:

Funding from fellowships and assistantships are available from external agencies on a competitive basis. Information can be obtained from the Director, Division of Graduate Studies and Research (Faculty of Dentistry).

204.20.2 The Degree of MSc

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student; however, the MSc program normally consists of course work equivalent to six credits and a thesis on an approved topic.

No additional language requirement other than English is required for the degree.

The minimum period of residence is one academic year of full-time attendance at the University of Alberta for candidates in a MSc program. Students enrolled in a MSc Clinical Sciences (Orthodontics) program also are required to complete a two-year clinical program leading to specialist certification.

Length of Program:

The time required to complete the MSc will vary according to the previous training of the individual candidate; however, a minimum of one calendar year is normally required for candidates with a first degree in dentistry and two calendar years for candidates with a first degree in another discipline.

204.20.3 The Degree of PhD

Program Requirements:

The PhD program normally consists of course work equivalent to a minimum of 12 units of course weight and the preparation and defence of a thesis on an approved topic.

No additional language requirement other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; normally a minimum of three calendar years of study and research is required.

204.20.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis

DENT 500 Oral Biology I
★3 (first term, 3-0-0). Functional anatomy of head and neck. Development, structure, function and biochemistry of connective tissues associated with the jaws. (For graduate students in Orthodontics.)

DENT 501 Oral Biology II
★3 (second term, 3-0-0). A continuation of Oral Biology I. Growth and development of skull. Anthropology. Selected topics in physiology.

DENT 502 Oral Biology (Applied Anatomy)
★3 (second term, 3-0-0). Consideration of developmental and gross anatomy related to the appreciation and practice of dentistry.

DENT 503 Advanced Oral Pathology
★3 (first term, 3-0-0). A review of diseases that affect the oral tissues and an exploration of recently acquired knowledge pertaining to them.

DENT 504 Oral Medicine
★3 (second term, 3-0-0). A study of the mechanisms of oral disease as a basis for rationale of treatment.

DENT 505 Recent Advances in Oral Medicine
★1 (first term, 1-0-0). Oral pathology is reviewed in a series of 14 lectures on the current status of oral medicine. Emphasis is on the application of new knowledge of the diagnosis and management of dental and paradental disease processes in adolescents.

DENT 506 Dental Biochemistry and Physiology
★2 (second term, 2-0-0).

DENT 520 Orthodontic Pre-clinical Lectures
★7 (2-0-0;5-0-0). The pre-clinical lecture series is designed to give the student entry-level skills for orthodontic case management. The second term is the beginning of a 40-week program designed to enhance diagnostic skills, treatment planning objectives and mechanics.

DENT 521 Orthodontic Pre-clinical Lectures
★3 (5-0-0). Intersession program of 10 weeks. A continuation of DENT 520.

DENT 522 Orthodontic Seminar
★4 (first term, 0-4s-0). Designed to provide knowledge base for ortho records and synthesize that knowledge base into treatment analysis.

DENT 523 Orthodontic Seminar
★4 (second term, 0-4s-0). A continuation of DENT 522. Orthodontic theory and practice including etiology and diagnosis of malocclusion.

DENT 524 Orthodontic Seminar
★3 (0-4s-0). Intersession program of 10 weeks. A continuation of DENT 523. Includes advanced treatment planning and different treatment philosophies.

DENT 525 Orthodontic Technique
★1 (first term, 1-0-0). Theory and biomechanical principles involved in orthodontic appliances are presented.

DENT 526 Cephalometrics Seminars
★3 (first term, 0-3s-0). Theory of cephalometrics and the various angular, linear and proportional measurements utilized to assist treatment planning are presented.

DENT 527 Surgical/Functional Appliances
★1 (second term, 1-0-0). Lectures alternate between surgical/ortho and functional appliances. Co-ordinate with the oral surgery division.

DENT 528 Surgical/Functional Appliances
★1 (1-0-0). Intersession program of 10 weeks. A continuation of DENT 527 which presents a more detailed knowledge base to allow comprehensive treatment planning.

DENT 529 Adult Orthodontics
★1 (1-0-0). Intersession program of 10 weeks. Preclinical lecture/seminar series to introduce the graduate student to adult orthodontics.

DENT 530 Orthodontic Clinic
★9 (0-3c-0; 0-15c-0). The clinical orthodontic experience to compliment DENT 520. The student commences treatment on 2-4 patients the first term with an additional 10-16 new patient starts in the second term.

DENT 531 Orthodontic Clinic
★5 (0-15c-0). Intersession program of 10 weeks. A continuation of DENT 530 during which active patients are transferred to junior students.

DENT 532 Growth and Development
★2 (second term, 2-0-0). A detailed review of the postnatal growth and development of human craniofacial structures. Longitudinal and cross sectional growth data are presented.

DENT 533 Research Methodology
★1 (first term, 1-0-0). Review of scientific methodology and direction of students in technic of evaluating dental literature. A research proposal or literature review is required as part of this course.

DENT 535 Orthodontic Technique Laboratory
★4.5 (first term, 0-0-9). Lab sessions allow the students to apply skills necessary to manipulate ortho material in addition to fabricating appliances required to treat simulated ortho clinical cases.

DENT 536 Cephalometrics Lab
★1.5 (first term, 0-0-3). A lab or technique course where the student applies the knowledge of DENT 526. Computerized cephalometrics and growth predictions based on cross sectional data is available to the students.

DENT 537 Surgical/Functional Appliances
★1.5 (second term, 0-3c-0). Clinical course to complement DENT 527. Assigned cases are treatment-planned, and appropriate appliance therapy is initiated.

DENT 538 Surgical/Functional Appliances
★1 (0-3c-0). Intersession program of 10 weeks. Clinical compliment to DENT 537. Transfer cases from senior to junior students. Alternate clinics.

DENT 539 Adult Orthodontics
★1 (0-3c-0). Intersession program of 10 weeks. Clinical component associated with DENT 529. Students will assist with, and later assume treatment responsibility during this transfer quarter.

DENT 540 Advanced Pedodontics
★11 (1-9c-0).

DENT 550 Statistics and Epidemiology
★2 (15-0-0). This course will develop principles of scientific methodology of problem solving, statistical terms and the qualitative and quantitative evaluation of oral disease. (Course offered in alternate years).

DENT 561 Orthodontic Seminar
★2 (second term, 0-2s-0). Seminars in the diagnosis and treatment of temporomandibular joint problems. Includes a comprehensive literature review. Emphasis placed on orthodontic considerations in the prevention and management of mandibular dysfunction.

DENT 570 Dental Materials
★2 (first term, 2-0-0). The course will cover the structure, properties and testing methods relative to dental materials. Specific materials and the clinical and biological significance of their properties will be discussed.

DENT 571 Orthodontic Clinical Research
★1.5 (second term, 0-3c-0). Participation in the clinical research project based at the University of Alberta Hospital.

DENT 601 Seminars in Oral Biology
★2 (0-1s-0). Seminars will include the major areas of research in the Department of Oral Biology. Students will present one seminar.

DENT 607 Conference Seminars in Oral Biology I
★3 (first term, 0-3s-0). This course will include seminars and conferences on selected aspects of oral biology. Continuous evaluation of student preparation and participation throughout the course will be used for assessment. This is an optional course open to students outside the Faculty of Dentistry by consent of the Chair, Department of Oral Biology.

DENT 608 Conference Seminars in Oral Biology II
★3 (second term, 0-3s-0). This is a continuation of DENT 607.

DENT 609 Connective Tissue Research
★2 (0-1s-0). This course will critically survey recent research on connective tissues and will aim to provide students practice in communicating research data.

DENT 620 Orthodontic Pre-clinical Lectures
★5 (first term, 5-0-0). This course contains the third and last block of the above 40-week program.

DENT 621 Orthodontic Seminar
★4 (first term, 0-4s-0). Continuation of DENT 524 where current pertinent literature review and post retention cases are discussed.

DENT 622 Adult Orthodontics
★2 (1-0-0). Continuation of DENT 529. Includes information on the treatment objectives and limitations associated with non-growing patients.

DENT 623 Adult Orthodontics
★1 (1-0-0). Intersession program of 10 weeks. Conclusion of the adult ortho theory seminar. Current pertinent literature is reviewed and critiqued.

DENT 624 Surgical/Functional Appliances
★2 (1-0-0). Continuation of DENT 528. Includes literature reviews as well as case analysis.

DENT 630 Orthodontic Clinic
★15 (0-15c-0). Continuation of DENT 531. Students have increased case loads to approximately 55 active patients which present a cross section of treatment stages.

DENT 631 Orthodontic Clinic
★5 (0-15c-0). Intersession program of 10 weeks. Continuation of DENT 630. The senior students gradually transfer caseloads to junior students.

DENT 632 Adult Orthodontics
★3 (0-3c-0). Continuation of DENT 539. Multi-discipline cases are given treatment priority. Caseload is 6-8 active patients.

DENT 633 Adult Orthodontics
★1 (0-3c-0). Intersession program of 10 weeks. Continuation of DENT 623. Transfer cases from senior to junior students.

DENT 634 Surgical/Functional Appliances
★3 (0-3c-0). Continuation of DENT 538. Each students has between 3-4 active cases in each sub-clinic.

DENT 635 Surgical/Functional Appliances
★1 (0-3c-0). Intersession program of 10 weeks. Cases transferred from senior to junior students.

DENT 640 Advanced Pedodontics
★11 (1-0-9).

f 699 Research Project
240 hours). Credit equivalent to a two-term course. work undertaken can include critical evaluation of a nated area of dentistry which may or may not de original research. The work completed will be ented in the form of a report to the dental depart- offering the program. No more than one project e undertaken by any student in a program leading raduate degree in oral biology or dentistry. Prereq- : Consent of department offering the graduate se.

f 800 Special Registration
either term, unassigned). Dentistry undergraduate nts registered in universities other than the Univer- f Alberta and who have been admitted to the U of A lty of Dentistry as a "Visiting Student" in accord- with the Faculty guidelines may be required to ter in this course for the purpose of entitlement to University library and registration in the Alberta al Association Education Register.

4.21 Drama

rtment of Drama
6 Fine Arts Building
ersity of Alberta
onton, Alberta T6G 2C9

4.21.1 General Information

The Department of Drama offers graduate programs ing to the Master of Fine Arts degree in design, ting or playwriting and to the Master of Arts degree ramatic literature, theatre history, dramatic theory criticism or dramaturgy.

The Department provides one fully-equipped studio tre and three experimental theatre facilities as dramatic laboratories available to graduate students. Two shops each for costume design and set design e graduate designers. The theatre collection in the ry is extensive. It offers particular opportunities for in expressionism; German, French, and Spanish na; and includes a substantial collection of research erials on Canadian theatre.

The aim of the MFA programs is to train candidates level of competency sufficient to enter the profession. The MA programs, essentially research oriented, offer training in dramaturgy as one of the means by h candidates may be actively involved in the creative uits of the Department.

Inquiries should be addressed to the Graduate rdinator, Department of Drama.

rance Requirements:

The Department's minimum admission requirements an undergraduate degree with an average of 6.5 in last two years of undergraduate work (or graduate k) at the University of Alberta, or an equivalent ification from a recognized institution, and a TOEFL re of 550 where applicable (see §202.2.2).

ancial Assistance:

Graduate assistantships are available to qualified dents.

4.21.2 The Degree of MFA

trance Requirements:

The undergraduate degree (see "General Information: rance Requirements", above) must normally be a r-year degree in theatre studies in order for the licant to be considered eligible for the MFA program. ddition, numerous practical theatre credits are required he applicant's intended area of specialization along three letters of recommendation on the applicant's fessional promise.

Between the academic and the artistic requirements idates must: demonstrate a fundamental knowledge the components of theatre art — acting, design, cting, and playwriting; have extensive training and erience in the area of their intended specialization; possess sufficient preparation in dramatic literature, atre history, and theatre aesthetics.

Interested applicants should write for further application ails as they relate to their intended area of specialization.

ogram Requirements:

Required courses depend on the area of specialization the undergraduate background of the student; however, MFA program normally consists of 33 units of course ight. In addition, an acceptable creative thesis project ist be presented in performance.

No language other than English is required for the gree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

Candidates are normally required to complete two years of study. In certain circumstances advanced standing may be accorded in the candidacy program for previous theatre work accredited by the Department.

204.21.3 The Degree of MA

Entrance Requirements:

A candidate must hold a bachelor's degree (or its equivalent) from a recognized institution. To be accepted, the candidate must demonstrate to the Department familiarity with the artistic and practical components of theatre art, as well as sufficient preparation in theatre history and criticism.

Program Requirements:

The MA program normally consists of some practical training in research skills and 24 units of course weight at the graduate level for those candidates who can show evidence through a diagnostic examination of an adequate historical and critical background. Candidates must present an acceptable thesis and defend it orally.

Candidates must demonstrate a reading knowledge of one approved language other than English.

The minimum period of residence is one academic year of full-time attendance at the University of Alberta.

Length of Program:

The program normally requires three academic terms of course work. Those students with insufficient historical and critical background may be required to take an additional term of course work.

DRAMA 601 Methods and Tools of Research
★3 (first term, 3-0-0).

DRAMA 604 Research in Theatre History
★3, or ★6 (either term, 3-0-0). Research in aspects of physical theatre and production.

DRAMA 605 Special Projects in Theatre
★3 (either term, 1-0-4). Prerequisite: Consent of department

DRAMA 607 Dramaturgy I
★3 (either term, 3-0-0).

DRAMA 608 Research Seminar
★6 (0-3s-0). Research in selected topics.

DRAMA 610 Applied Criticism
★3 (either term, 3-0-0). Critical analysis of theatre practice.

DRAMA 616 Research in Canadian Drama
★6 (3-0-0).

DRAMA 618 Advanced Research Seminar
★6 (0-3s-0). Advanced research in selected topics. Prerequisite: DRAMA 608 or consent of department.

DRAMA 660 Playwriting Projects
★6 (0-0-3). Prerequisite: Consent of department.

DRAMA 661 Advanced Playwriting Projects
★6 (0-0-3).

DRAMA 665 Special Projects in Dramatic Writing
★3 (either term, 1-0-4). Prerequisite: Consent of department

DRAMA 670 Advanced Theatre Design I
★6 (0-6L-0). Note: Restricted to MFA (Drama) students.

DRAMA 671 Advanced Theatre Design II
★6 (0-6L-0). Note: Restricted to MFA (Drama) students.

DRAMA 672 Design for Directors
★3 (0-4L-0). A single-term course offered over the full session. Corequisites: DRAMA 660, 661, 680 or 681. Note: Restricted to MA (Drama) students (with consent of department) and MFA (Drama) students.

DRAMA 673 Advanced Lighting Design
★3 (0-0-6). Note: A single-term course offered over the full session. Restricted to MFA (Drama) students.

DRAMA 674 Advanced Costume Techniques
★3 (0-0-6). Note: A single-term course offered over the full session. Restricted to MFA (Drama) students.

DRAMA 680 Styles of Directing
★6 (0-3s-6). Note: Restricted to MFA (Drama) students.

DRAMA 681 Advanced Projects in Directing
★6 (0-3s-6). Note: Restricted to MFA (Drama) students.

DRAMA 690 Topics in Applied Theatre Aesthetics
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

204.22 Economics

Department of Economics
8-14 Tory Building
University of Alberta
Edmonton, Alberta T6G 2H4

204.22.1 General Information

The Department of Economics offers programs leading to the Master of Arts and Doctor of Philosophy degrees. The MA degree may be taken by either the thesis route or the non-thesis route.

Entrance Requirements

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2). A GPA of 7.4 in MA work is required for admission to the PhD program.

Applicants whose most recent degree is from a non-Canadian university are required to write the Graduate Record Examinations (verbal, quantitative, and analytical sections) administered by the Educational Testing Service (Princeton, NJ). The examinations should be written early enough for scores to be available at the same time as the applicant's other supporting documents. No minimum cutoff score is specified, because GRE results are used only in conjunction with other indicators of potential academic success. The Graduate Coordinator will waive this requirement only in exceptional circumstances.

Students entering a graduate program in economics are required to have or to make up credit in a basic course in calculus and one in statistics. (Note: These courses are required in addition to the candidate's normal graduate program.)

Inquiries regarding details of programs offered within the Department should be directed to the Graduate Coordinator.

Financial Assistance:

The Department automatically considers all applicants for graduate teaching and research assistantships. To ensure consideration the candidate's application and supporting documents must be received by the Department before March 1. Applications received after that date will be considered for assistantships only if funds are still available. Details of scholarships and other sources of financial assistance are included in the Awards section of this Calendar.

204.22.2 The Degree of MA

Program Requirements:

The MA program normally consists of 21 units of course weight and a project equivalent to three units of course weight or 18 units of course weight and a thesis.

Detailed program requirements, including standards of performance, may be obtained by consulting the Department.

Except in special cases, no language other than English is required for the degree of MA.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of eight months is normally required.

204.22.3 The Degree of PhD

Program Requirements:

The PhD program consists of at least 27 units of course weight and a thesis.

Detailed program requirements, including standards of performance, may be obtained by consulting the Department.

Except in special cases, no language other than English is required for the PhD.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the individual candidate; however, a minimum of two years is normally required.

204.22.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis
ECON 900 ★3 Directed Research Project

ECON 501 History of Economic Thought
★3 (either term, 3-0-0). A survey of economic thought from Adam Smith to modern times, with particular attention to the theories of economic development and growth.

ECON 503 Microeconomic Theory I
★3 (either term, 3-0-0). Producer and consumer behaviour; partial equilibrium models of perfectly and imperfectly competitive markets; Walrasian general equilibrium; welfare economics. Prerequisite: ECON 386/387, 481/482.

ECON 505 Microeconomic Theory II
★3 (either term, 3-0-0). Choice under uncertainty; contingent claims and models of general equilibrium under uncertainty; markets with information asymmetries; non-cooperative game theory, games of incomplete information, repeated games, and bargaining theory. Prerequisite: ECON 503.

ECON 507 Econometrics I
★3 (first term, 3-0-0).Topics in statistical theory; distribution theory including transformation of random variables, the multivariate normal and associated quadratic forms, maximum likelihood estimation and associated asymptotic tests. Estimation and inference in the general linear model. Prerequisite: ECON 407/408 or equivalent.

ECON 508 Econometrics II
★3 (second term, 3-0-0). Single equation methods and problems. Estimation and inference in the simultaneous equations model. Prerequisite: ECON 507 or equivalent.

ECON 512 Economic Development I
★3 (either term, 3-0-0). The techniques of development planning; qualitative and quantitative problems associated with the drafting and implementation of plans and programs; assessment of internal and external resources available for development and problems of measurement and mobilization of resources.

ECON 513 Economic Development II
★3 (either term, 3-0-0). Economic policy alternatives in a context of growth and development; problems of inflation, balance of payments, disequilibrium, concentration of growth effects; the role of international aid and other external measures.

ECON 514 Economic Development of North America
★3 (either term, 3-0-0). A selective analysis of historical factors involved in the economic growth and development of North America. Particular attention is given to Canadian experience, and to the use of economic theory and statistical techniques in historical research.

ECON 516 European Economic Development
★3 (either term, 3-0-0). The application of economic theory and research methodology to selected topics in European economic development.

ECON 521 International Economics I
★3 (either term, 3-0-0). Prerequisite: ECON 481/482, ECON 421/422 recommended.

ECON 522 International Economics II
★3 (either term, 3-0-0).

ECON 523 The International Economy
★3 (either term, 3-0-0). Balance of payments, foreign exchange markets, foreign investment, trade and commercial policy, international economic institutions. Note: Designed for graduate students whose specialization is not Economics.

ECON 531 Labor Economics I
★3 (either term, 3-0-0). Factors influencing the supply of, and demand for, labor services and the process of relative wage determination in the long and short run. Determination of money wage levels, aggregate labor-force participation, and the level and structure of aggregate employment and unemployment.

ECON 532 Labor Economics II
★3 (either term, 3-0-0). Topics in manpower and human resource development economics. The role of human resources in economic growth, human resources viewed as capital, problems and policies in planning, forecasting, and utilizing manpower contexts, methods of evaluating specific manpower programs and projects; and relationships between poverty and manpower utilization.

ECON 540 Monetary Economics I
★3 (either term, 3-0-0). Prerequisite: ECON 481/482.

ECON 541 Monetary Economics II
★3 (either term, 3-0-0). Activities of financial intermediaries; evaluation of the effectiveness and the impact of monetary policy in both closed and open systems.

ECON 550 Public Expenditure
★3 (either term, 3-0-0). The theory of the role of the public sector in a market economy; market failures, income redistribution, public choice, and fiscal federalism.

ECON 552 Urban Economics
★3 (either term, 3-0-0). Prerequisite: ECON 481/482.

ECON 553 Economics of Taxation
★3 (either term, 3-0-0). Effects of taxes on allocation, distribution and stabilization objectives. Evaluation of major taxes with particular attention paid to efficiency and incidence considerations.

ECON 555 Applied Welfare Economics
★3 (either term, 3-0-0). Theoretical welfare economics, aspects of cost-benefit analysis, and policy evaluation.

ECON 558 Finance in the Public Sector
★3 (either term, 3-0-0). Note: Restricted to students in the MPM Program.

ECON 559 Health Care Economics
★3 (either term, 3-0-0). Problems of resource allocation in the health care sector with special reference to the Canadian economy.

ECON 561 Transportation Economics
★3 (either term, 3-0-0). Economic analysis of alternative transportation systems.

ECON 564 Regional Economics II
★3 (either term, 3-0-0). The role of inter-regional mobility and substitutability of factors of production in regional growth; regional production functions and the differential impact of technical change; studies in inter-regional trade and comparative advantage in production and marketing.

ECON 565 Resource Economics I: The Economics of Conservation and Resource Scarcity
★3 (either term, 3-0-0). Economic analysis of quantitative aspects of natural resource use and development; the economics of conservation; the role of resources in growth; resource scarcity; quantitative tools (benefit-cost and input-output analysis) in resources management; selected Canadian resource management; selected Canadian resource issues.

INT D 566 Resource Economics II: Economics of the Environment
★3 (either term, 3-0-0). Economic theory and policy relating to resource and environmental quality problems; welfare and public policy issues in resource decision-making; the relationships between economic growth and environmental preservation; externalities and public goods; economics of pollution; recreation economics; selected Canadian environmental issues. [Economics].

ECON 567 Canadian Energy Resources
★3 (either term, 3-0-0). An economic evaluation of the role of energy resources in the Canadian economy.

ECON 570 Industrial Economics I
★3 (either term, 3-0-0). Contemporary industrial structure, conduct and performance - Canadian and foreign; related public policies.

ECON 571 Industrial Economics II
★3 (either term, 3-0-0). Government enterprise, public regulation of private enterprise, and specific public policies concerning particular market elements, such as advertising, delivered pricing and patents.

ECON 581 Macroeconomic Theory I
★3 (either term, 3-0-0). An examination of the core topics in macroeconomic theory. These will generally include methods of modelling output, employment, prices, business cycles, and macroeconomic policy. Pre- or co-requisite: ECON 481/482 or equivalent.

ECON 582 Macroeconomic Theory II
★3 (either term, 3-0-0). This course extends the analysis of ECON 581 and introduces students to more advanced issues. Prerequisite: ECON 581 or equivalent.

ECON 586 Mathematical Economics
★3 (either term, 3-0-0). Applications and interpretations of tools used in economic analysis such as programming and game theory; inter-industry analysis, multi-sector growth models; mathematical approach to general equilibrium theory and other related areas. Emphasis on specific topics may vary from year to year. Prerequisite: ECON 386/387 or equivalent.

ECON 591 Comparative Economics
★3 (either term, 3-0-0). A survey of major contemporary systems of economic organization with emphasis on economic planning.

ECON 593 The Soviet Economy
★3 (either term, 3-0-0). A graduate survey of the theory of the Soviet economy; the Soviet enterprise and its behavior; Soviet planning and resource allocation; the problem of efficiency and pricing; Soviet national accounts, planning and overall economics performance; Soviet strategy of economic growth. International aspects of the Soviet economy. Soviet economic reform.

ECON 595 Computer Applications in Economics
★3 (either term, 3-0-0). An introduction to the relationship between economic analysis and modern high speed computers. Topics include computer techniques useful in economics, computerized statistical techniques, and examination of selected economic models of both a mathematical and stochastic nature.

ECON 599 Applied Econometrics
★3 (either term, 3-0-0). The role of economic theory in the process of specification and estimation of models. Interpretation and critical evaluation of applied work b means of selected topics in econometric theory. Prereq uisite: ECON 407/408 or equivalent, and ECON 481/48 or equivalent.

ECON 608 Topics in Econometrics
★3 (either term, 3-0-0).

ECON 612 Topics in Economic Development
★3 (either term, 3-0-0).

ECON 614 Topics in European and North American Economic Development
★3 (either term, 3-0-0).

ECON 620 Topics in International Economics
★3 (either term, 3-0-0).

ECON 630 Topics in Labor Economics
★3 (either term, 3-0-0).

ECON 640 Topics in Monetary Economics
★3 (either term, 3-0-0).

ECON 652 Topics in Public Economics
★3 (either term, 3-0-0). Topics available include: loca public finance, project evaluation, theory of public choice public enterprise pricing policies, health care econom ics, and fiscal systems.

ECON 664 Topics in Regional Economics
★3 (either term, 3-0-0).

ECON 672 Topics in Industrial Economics
★3 (either term, 3-0-0).

ECON 693 Topics in Comparative Economics
★3 (either term, 3-0-0).

ECON 699 Selected Research Topics in Economics
★3 (either term, 3-0-0).

204.23 Educational Administration

Department of Educational Administration
7-104 Education North
University of Alberta
Edmonton, Alberta T6G 2G5

204.23.1 General Information

The Department of Educational Administration offers programs of study and research leading to the degrees of MEd, EdD, and PhD, as well as a postgraduate diploma.

Research interests of the Department encompass both theoretical studies and field applications.

Prospective students should consult the Chair of the Department for further information on graduate programs. Applicants are also requested to inform the Chair of their tentative plans for attendance.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 600 where applicable (see §202.2.2). A GPA of 7.5 (or its equivalent) in master's degree work is required for admission to the doctoral program. An acceptable score on the Miller Analogies Test is required of all applicants. The operating guideline normally used is 50 for MEd and 55 for PhD studies.

Program Requirements:

Each student's program consists of required courses in educational administration and of electives available in the Department or in other departments in the University. Required courses provide the general theoretical framework for administration, while electives provide a degree of specialization related to research and/or future occupation. Further opportunities for specialization exist within a student's program; these may include supervised projects and such field experiences as can be arranged by staff to prepare the student for a variety of administrative positions in schools, school systems, colleges, universities and government, or as a teacher in colleges and universities.

Financial Assistance:

A number of assistantships in teaching and research are available for well-qualified candidates.

204.23.2 The Degree of MEd

Program Requirements:

The MEd degree may be taken by either the thesis-based route or the course-based (project) route. Each route offers opportunities for specializing in various aspects of educational administration. The number of required

urses depends on the area of specialization and the kground of the student; however, the MEd program mally consists of 16 three-weight course equivalents luding the thesis or project).

No language other than English is required for the gree. Taken by either route, the full-time MEd program uires two four-month terms of residence which normally accomplished by one Winter Session (eight months) of dy as a full-time student.

The requirements of a course-based MEd program units of course weight plus a project equivalent to six ts of course weight) may also be fulfilled through istration on a part-time basis only. Prospective ndidates must indicate when applying for admission that y wish to complete the program through part-time dy. The number of new admissions to the program ch year will be limited, and candidates must normally rt the program in either July or September. January missions are made in special cases. Candidates admitted the program must complete at least 24 units of course ight in the first two years. Students are expected to nain active in their programs, to maintain acceptable nding, and to complete programs within a four-year e limit. Programs completed through part-time studies considered by the Department and the Faculty of aduate Studies and Research to be equal in status to grams completed through fulfillment of a residence uirement.

ngth of Program:

The program may be completed in 14 months of ntinuous full-time study, extending from the beginning of e Summer Session to the termination of the next.

04.23.3 The Degree of EdD

This degree is offered in 1991/92 under special rangements. Please contact the Department for details.

rogram Requirements:

The EdD program normally consists of course work nd the preparation and defence of a thesis on an proved topic.

No language other than English is required for the gree. The minimum period of residence is two academic ars of full-time attendance at the University of Alberta.

ength of Program:

The time required to complete the EdD will vary cording to the previous education of the applicant and e nature of the research undertaken.

04.23.4 The Degree of PhD

The PhD program in educational administration mphasizes intensive development of conceptual, analytical, nd research skills as preparation for teaching and dministrative positions in various educational organizations. reas of specialization which may be developed within the amework of the general requirements include: (1) research nd project administration; (2) administrative behaviour nd supervision; (3) organizational studies; (4) adaptive nd planning functions; (5) general aspects of education olitical, social, legal and intercultural); (6) economics nd finance; (7) policy making; and (8) adult, continuing, nd post-secondary education. A program leading toward eneral educational administration is also acceptable.

Entrance Requirements:

The normal basic admission requirement is a suitable aster's degree, with excellent standing, from a recognized niversity. The Department also considers the applicant's eferences, career experiences, and scores on aptitude ests as factors that affect admissibility. Whenever feasible, hD applicants will be interviewed by a subcommittee of he admissions committee.

Program Requirements:

The PhD program normally consists of 42 units of ourse weight (some courses are required while others re selected in relation to an area of interest and pecialization) and a dissertation.

There is no language requirement for the degree of hD.

The minimum period of residence is two academic ears of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the individual candidate; however, a minimum of two years of full-time study and research is normally required.

204.23.5 Postgraduate Diploma Program

Entrance Requirements:

For admission into the postgraduate diploma program, an MEd degree or equivalent and experience in an administrative position is normally required. These requirements are in addition to the minimum admission requirements of the Department.

Program Requirements:

The program consists of 24 units of course weight in graduate-level courses in educational administration.

No language other than English is required for the postgraduate diploma.

There is no residence requirement.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research project undertaken; however, a minimum of one year is necessary if undertaken on a full-time study basis.

★3 (second term, 3-0-0).

EDADM 671 Issues in Administration of Postsecondary Education I
★3 (first term, 3-0-0). Prerequisite: Consent of department.

EDADM 672 Issues in Administration of Postsecondary Education II
★3 (second term, 3-0-0). Prerequisite: Consent of department.

EDADM 691 Supervised Individual Study I
★3 (either term, 3-0-0).

EDADM 692 Supervised Individual Study II
★3 (either term, 3-0-0).

204.24 Educational Foundations

Department of Educational Foundations
5-109 Education North
University of Alberta
Edmonton, Alberta T6G 2G5

204.24.1 General Information

The Department of Educational Foundations offers programs leading to the degrees of Master of Education and Doctor of Philosophy.

At the master's degree level the Department offers programs in the following fields: history of education, philosophy of education, sociology of education, international/intercultural education, and anthropology and education. At the doctoral degree level the Department offers programs in history of education, philosophy of education, sociology of education, and international/intercultural education.

The course work for graduate programs normally includes related courses offered by the Department of Educational Foundations and by other departments of the Faculty of Arts and the Faculty of Education.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 7.0 in the last two years of undergraduate work at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Financial Assistance:

A limited number of graduate assistantships are available to well-qualified candidates.

Inquiries concerning admission, programs and assistantships should be directed to the Chair of the Department.

204.24.2 The Degree of MEd

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student; however, the MEd program normally consists of 30 units of course weight and a thesis or 36 units of course weight and a project equivalent to six units of course weight.

There is no language requirement for the degree of MEd.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the individual candidate; however, 12 months full-time attendance is the minimal period normally required.

204.24.3 The Degree of PhD

Program Requirements:

The PhD program normally consists of two or three comprehensive examinations, depending on the area of study, and the preparation and defence of a dissertation on an approved topic.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of 20 months full-time attendance is normally required.

204.24.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis
EDFDN 900 ★6 Directed Research Project

EDFDN 500 Education Seminar
★0 Non-credit; hours to be arranged. Prerequisite: Consent of Department.

EDFDN 501 Conference Course on Selected Topics
★3 (either term, 3-0-0). Prerequisite: Consent of department.

EDFDN 502 Conference Course on Selected Topics
★6 (3-0-0). Prerequisite: Consent of department.

EDFDN 510 Education from an Anthropological Perspective
★3 (either term, 3-0-0).

EDFDN 512 Anthropological Theory and Education
★6 (3-0-0).

EDFDN 521 Studies of Educational Change in Developed Nations
★3 (either term, 3-0-0).

EDFDN 522 Functions of Education in the Development of Emerging Nations
★3 (either term, 3-0-0).

EDFDN 523 Development Theory and Education
★3 (either term, 3-0-0). An examination of the meaning of the concept "Societal Development". A review of theories of development put forward by selected writers, and an analysis of the role of education in the development process, with particular attention to the Third World. Prerequisite: Consent of department.

EDFDN 524 Strategies of Educational Reform and National Development in Socialist and Non-Socialist Third World Societies
★3 (either term, 3-0-0). A critical examination of strategies of educational reform and development in selected socialist and non-socialist societies in the Third World. Prerequisite: EDFDN 523 or consent of the instructor.

EDFDN 530 History of Education in Canada
★3 (either term, 3-0-0). A survey of studies in the history of formal and informal educational institutions in Canada, and their interrelationship with Canadian society.

EDFDN 532 Topics in the History of Education in Western Canada
★3 (either term, 3-0-0).

EDFDN 540 History of Modern Education
★3 (either term, 3-0-0).

EDFDN 541 History of Higher Education
★3 (either term, 3-0-0).

EDFDN 543 Research Methods and Theory in the History of Education
★3 (either term, 3-0-0).

EDFDN 544 History of Education as a Field of Study: Its Emergence and Development
★3 (either term, 3-0-0).

EDFDN 545 Studies in the History of Schooling and Curriculum
★3 (either term, 3-0-0).

EDFDN 546 Childhood and Childrearing in Western Culture: An Historical Perspective
★3 (either term, 3-0-0).

EDFDN 547 History of English Education Since the Industrial Revolution
★3 (either term, 3-0-0).

EDFDN 550 Philosophical Analysis and Education
★3 (either term, 3-0-0).

EDFDN 551 Philosophy of Education I
★3 (either term, 3-0-0).

EDFDN 553 Philosophical Analysis of Teaching
★3 (either term, 3-0-0).

EDFDN 554 Philosophical Foundations of Educational Research
★3 (either term, 3-0-0).

EDFDN 555 Moral Education: A Philosophical Perspective
★3 (either term, 3-0-0). An introduction to current philosophical research on moral education and the implications of that research for contemporary schooling.

EDFDN 556 The Educational Theory of a Selected Philosopher
★3 (either term, 3-0-0).

EDFDN 557 Learning and the Philosophy of Knowledge
★3 (either term, 3-0-0).

EDFDN 558 Religious Education: A Philosophical Perspective
★3 (either term, 3-0-0). Rival philosophical views on the aims and limits of religious education will be examined, with particular emphasis on the implications of such views for pedagogy and curricula in denominational and nondenominational schools.

EDFDN 559 Schooling and Social Justice
★3 (either term, 3-0-0). An examination of how educational practices may be assessed, and where necessary, changed, according to the standards of justice and respect for human rights.

EDFDN 560 Education from a Sociological Perspective
★3 (either term, 3-0-0).

EDFDN 561 Community Education: A Sociological Perspective
★3 (either term, 3-0-0). The organization and processes of community education at the local, provincial and national levels of social interaction as seen from the theory and research of contemporary sociology.

EDFDN 562 Development and Theory of Sociology of Education
★3 (either term, 3-0-0).

EDFDN 563 Research Methods in Sociology of Education
★3 (either term, 3-0-0).

EDFDN 564 Education and Social Change
★3 (either term, 3-0-0).

EDFDN 565 Sociology of Higher Education
★3 (either term, 3-0-0).

EDFDN 574 Current Developments in Native Education: A Social Science Perspective
★3 (either term, 3-0-0). A discussion of theoretical and methodological issues relating to Native education in Alberta together with an examination of relevant data-based studies. Prerequisite: EDFDN 432 or EDFDN 474 or consent of the instructor.

EDADU 577 Foundations of Adult and Higher Education
★3 (either term, 3-0-0). This survey course examines the various interpretations and paradigms of adult and higher education. Ways of studying adult and higher education are presented using concepts, analysis, theories, and methodologies from the various foundational disciplines.

EDADU 579 Sociology of Adult and Continuing Education
★3 (either term, 3-0-0). This course studies from a sociological perspective the role and function of adult education in industrial societies and in the Third World, the relationships between adult education, social stratification, and the workplace, and adult education as a profession. Prerequisite: EDADU 577 or consent of department.

EDFDN 601 Conference Course on Selected Topics
★3 (either term, 3-0-0).

EDFDN 602 Conference Course on Selected Topics
★6 (3-0-0).

EDFDN 611 Research Methods in Anthropology and Education
★6 (0-3s-0).

EDFDN 620 International/Intercultural Education: Disciplinary Geographic/Cultural Focus
★6 (0-3s-0).

EDFDN 621 International/Intercultural Education: Methods and Substantive Research Paper
★6 (0-3s-0).

EDFDN 640 History of Education
★6 (0-3s-0).

EDFDN 641 History of Education: Historiography
★6 (0-3s-0).

EDFDN 642 History of Education: Selected Areas
★6 (0-3s-0).

EDFDN 650 The Nature of Philosophy in Education
★6 (0-3s-0).

EDFDN 651 Traditional Philosophies of Education
★6 (0-3s-0).

EDFDN 652 Recent Philosophy of Education
★6 (0-3s-0). Prerequisite: Consent of department.

EDFDN 660 Sociology of Education
★6 (0-3s-0).

EDFDN 661 Sociological Theory in Education
★6 (0-3s-0).

EDFDN 662 Sociology of Education: Research Methodology
★6 (0-3s-0).

204.25 Educational Psychology

Department of Educational Psychology
6-102 Education North
University of Alberta
Edmonton, Alberta T6G 2G5

204.25.1 General Information

The Department offers programs leading to the degrees of MEd, EdD, and PhD in the following specializations: educational psychology, counselling psychology, school psychology, and special education. Included in the special education program are two separate programs: one in

af education, (meeting the requirements of ACEHI rtification); and another in severe disabilities. These ograms are designed to provide specialist training for achers, administrators, consultants, research personnel, d others requiring specialized skills in this area. These ograms can be combined with other areas of activity in e Department of Educational Psychology or with those other departments.

ntrance Requirements:

The Department's minimum admission requirements e a four-year undergraduate degree with a minimum erage of 7.5 in the last 2 years of undergraduate work r graduate work) at the University of Alberta, or an quivalent qualification from a recognized institution, and TOEFL score of 560 where applicable (see §202.2.2).

inancial Assistance:

The Department offers financial support in the form of raduate research assistantships through the Faculty of raduate Studies and Research and graduate teaching ssistantships through the Faculty of Education.

Initial inquiries about the Department's programs and out graduate assistantships should be addressed to the hair, Department of Educational Psychology.

04.25.2 The Degree of MEd

rogram Requirements:

In addition to completing a thesis, all candidates for he master's degree are required to demonstrate ompetence in research methods, personality theory, evelopmental psychology, learning theory, and social sychology. The required level of competence is usually emonstrated by completion of the core courses which nclude EDPSY 500, 501, 509 and 510. In exceptional ases the core areas can be satisfied by obtaining a credit hrough approved equivalents, or by special examination.

There is no language requirement for the MEd degree.

The minimum period of residence is one academic ear (eight months) of full-time attendance at the University f Alberta.

ength of Program:

Normally, the completion of the master's degree equires two to three years, at least one of which must be n residence.

204.25.3 The Degree of EdD

Program Requirements:

The EdD program consists of a minimum of 24 to 30 units of course weight and the preparation and defence of a thesis on an approved topic (24 units of course weight are normally required for the basic educational psychology and special education programs; 30 units of course weight for the school psychology and counselling programs).

There is no language requirement for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

Two years beyond the master's degree are normally needed to complete the requirements for the EdD.

204.25.4 The Degree of PhD

Program Requirements:

The PhD program consists of a minimum of 30 units of course weight and the preparation and defence of a thesis on an approved topic (24 units of course weight are normally required for the special education program; 30 units of course weight for the basic, school psychology, and counselling programs). For students in counselling, the 30 units-of-course-weight program is made up as follows: compulsory core courses — EDPSY 610, 612, 616, 697 (theory), 697 (practicum), 630 (a course of six units of course weight designating the internship); optional courses — a minimum of nine units of course weight to be selected in consultation with the academic adviser, three of which must be a research methodology course.

No language other than English is required.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta. In the Counselling and School Psychology programs, one year of supervised internship is required as part of the residency requirement.

Length of Program:

Candidates are normally required to spend a minimum of two years beyond the master's degree to complete the PhD.

204.25.5 Graduate Courses

Note: Consent of department is required for all 500 and 600-level courses.

THES 900 Thesis
THES 999 Thesis

EDPSY 500 Introduction to Data Analysis in Educational Research
★3 (either term, 3-0-3). Formerly EDPSY 501 before 1989/90.

EDPSY 501 Introduction to Methods of Educational Research
★3 (either term, 3-0-3). Prerequisite: EDPSY 500 or equivalent. Formerly EDPSY 503.

EDPSY 502 Single Subject Research Design
★3 (first term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Offered alternate years. Prerequisite: Consent of department. Formerly EDPSY 584 before 1989/90.

EDPSY 503 Qualitative Methods of Education Research
★3 (either term, 3-0-3). Prerequisite: EDPSY 501 or consent of department.

EDPSY 504 Non-parametric Statistical Inference in Educational Research
★3 (either term, 3-0-0). Formerly EDPSY 507 before 1989/90.

EDPSY 505 Advanced Univariate Statistics in Educational Research
★3 (first term, 3-0-3). Prerequisite: EDPSY 500 or equivalent.

EDPSY 506 Multivariate Statistical Methods in Education Research
★3 (second term, 3-0-3). Prerequisite: EDPSY 505 or consent of department.

EDPSY 507 Test Theory
★3 (first term, 3-0-0). Prerequisite: EDPSY 500 or equivalent, or consent of department. Formerly EDPSY 581 before 1989/90.

EDPSY 508 Seminar and Research in Educational Measurement
★3 (second term, 3-0-0). Prerequisite: EDPSY 507, or equivalent or consent of department. Formerly EDPSY 583 before 1989/90.

EDPSY 509 Advanced Educational Psychology: Development
★3 (either term, 3-0-0). Formerly EDPSY 569 before 1989/90.

EDPSY 510 Advanced Educational Psychology: Learning
★3 (either term, 3-0-0). Formerly EDPSY 571 before 1989/90.

EDADU 511 Instructional Design in Postsecondary Education
★3 (either term, 3-0-0).

EDPSY 511 Theories of Personality
★3 (either term, 3-0-0). Formerly EDPSY 515 before 1989/90.

EDPSY 512 Social Psychology and Education
★3 (either term, 3-0-0). Formerly EDPSY 591.

EDPSY 513 Psychology of Language, Cognition and Bilingualism
★6 (3-0-0). Formerly EDPSY 578 before 1989/90. Prerequisite: Consent of department.

EDPSY 514 Cross-Cultural Psychology
★3 (either term, 3-0-0). Formerly EDPSY 555 before 1989/90. Prerequisite: Consent of department.

EDPSY 515 Existential Phenomenological Psychology
★3 (either term, 3-0-0).

EDADU 521 Psychology of Learning and Teaching at the Adult Level
★3 (either term, 3-0-0).

EDPSY 522 Worklife and Career Development Issues: Theory and Research
★3 (second term, 3-0-0).

EDPSY 525 Religious and Moral Development and Education
★3 (either term, 3-0-0). Formerly EDPSY 517 before 1989/90.

EDPSY 526 Vocational Development and Choice
★3 (either term, 3-0-3). Formerly EDPSY 511 before 1989/90.

EDPSY 527 Seminar in Elementary School Counselling
★3 (second term, 0-3s-0). Formerly EDPSY 519 before 1989/90. Prerequisite: Consent of department.

EDPSY 528 Patterns of Interpersonal Relating
★3 (either term, 3-0-0). Formerly EDPSY 521 before 1989/90. Prerequisite: Consent of department.

EDPSY 529 Counselling for Personal Loss
★3 (either term, 3-0-3). Formerly EDPSY 525 before 1989/90. Prerequisite: Consent of department.

EDPSY 532 Systems of Counselling I
★3 (either term, 3-3s-0). This course will introduce students, with interests in counselling, to the major theories utilized in the counselling/psychotherapy area. Prerequisite or corequisite: EDPSY 511 or equivalent and consent of department. Formerly EDPSY 510 before 1989/90.

EDPSY 533 Basic Skills, Issues, and Attitudes in Counselling
★3 (either term, 2-1.5s-4). This course will focus on generic counselling skills and the enhancement of counsellor self-awareness. Prerequisite or corequisite: EDPSY 511 or equivalent or consent of department. Formerly EDPSY 512 before 1989/90.

EDPSY 535 Family Counselling: Advanced Practicum
★3 (either term, 3-0-3). Prerequisite: EDPSY 533 or equivalent and consent of department. Formerly EDPSY 523 before 1989/90.

EDPSY 537 Relaxation Approaches in Counselling
★3 (either term, 3-0-3). Prerequisite: EDPSY 532 and/or EDPSY 533 and consent of department. Formerly EDPSY 527 before 1989/90.

EDPSY 538 Seminar and Practicum in Group Counselling
★6 (0-3s-4). Prerequisite: EDPSY 533 or equivalent. Formerly EDPSY 518 before 1989/90.

EDPSY 539 Learning and Biofeedback
★3 (either term, 3-0-6). Formerly EDPSY 509 before 1989/90.

EDPSY 544 Principles of Psychological Testing and Assessment
★3 (either term, 3-0-1). Prerequisite: Consent of department. Formerly EDPSY 513 before 1989/90.

EDPSY 545 Individual Psychological Assessment
★6 (3-0-3). Prerequisite: Consent of department. Formerly EDPSY 524 before 1989/90.

EDPSY 546 Preschool Assessment Strategies
★3 (3-0-3). This course fits into diploma, masters and doctoral programs in basic educational psychology, school psychology, special education, and counselling psychology as an option in students' programs. As well, it serves as an option for students in other departments, i.e. early childhood education, psychology (developmental). Prerequisite or corequisite: EDPSY 509 and EDPSY 544 or EDPSY 549 and/or consent of department.

EDPSY 548 Psychology of Exceptional Children
★3 (either term, 3-0-0). An overview of the psychology of exceptional children with emphasis on intellectual and emotional deviance, learning disability, mental retardation, sensory deficits and the problems of deprivation. Formerly EDPSY 531 before 1989/90.

EDPSY 549 Advanced Course in Psychoeducational Diagnosis
★3 (first term, 3-0-1). To provide skill in administration and interpretation of a variety of psychoeducational measures which show potential in advancing our understanding of exceptional children. Prerequisite: EDPSY 255 or consent of department. Formerly EDPSY 533 before 1989/90.

EDPSY 550 Educational Programming from Psychoeducational Data
★3 (second term, 3-0-1). Prerequisite: EDPSY 549 or consent of department. Formerly EDPSY 535 before 1989/90.

EDPSY 551 Instructional Design in Special Education
★3 (either term, 3-1L-0). To provide skill in developing curriculum materials and instructional sequencing and criterion referenced tests through task analysis. Formerly EDPSY 537 before 1989/90.

EDPSY 552 Seminar and Practicum: Instructional Design in Special Education
★3 (either term, 1-3L-0). Prerequisite: EDPSY 551. Formerly EDPSY 557 before 1989/90.

EDPSY 553 Practicum in Special Education
★variable (variable). Supervised practicum in a variety of special education settings. Prerequisite: Consent of department. Formerly EDPSY 538 before 1989/90.

EDPSY 554 Behavior Management for Exceptional Individuals
★3 (either term, 0-4L-0). To provide skill in implementing behavior management practices in classroom settings as well as skills for assisting teachers to implement behavior management techniques. Formerly EDPSY 539 before 1989/90.

EDPSY 555 Seminar and Practicum in Behavioral Management
★3 (either term, 0-3L-0). Prerequisite: EDPSY 554. Formerly EDPSY 559 before 1989/90.

EDPSY 556 Problems and Issues in Special Education: High Incidence Groups and Service Delivery
★3 (first term, 3-0-0). Prerequisite: Consent of department. Formerly EDPSY 530 before 1989/90.

EDPSY 557 Problems and Issues in Special Education: Research and Professional Practice
★3 (either term, 3-0-0). Formerly EDPSY 540 before 1989/90.

EDPSY 558 Development and Learning of Exceptional Children and Adults
★3 (either term, 3-0-0). A consideration of the value of current theories in learning and development for understanding exceptional children. Prerequisite or corequisite: EDPSY 509, 548 and 510 or consent of department. Formerly EDPSY 541 before 1989/90.

EDPSY 559 Theory and Research in Mental Retardation
★6 (3-0-0). Prerequisite: Consent of department. Formerly EDPSY 542 before 1989/90.

EDPSY 560 Seminar on Research in Special Education
★6 (0-3s-0). Prerequisite or corequisite: EDPSY 501 or equivalent. Formerly EDPSY 544 before 1989/90.

EDPSY 561 Behavior Disorders of Childhood and Adolescence
★3 (2-1s-0). In depth treatment of basic topics, including definition, classification, models, assessment, education, treatment and prevention. Prerequisite: EDPSY 341 or equivalent or consent of department. Formerly EDPSY 546 before 1989/90.

EDPSY 564 Oral Communication in the Instruction of Hearing Impaired Students
★3 (either term, 2-1s-2). A practical course to develop speech teaching skills in intending teachers of hearing impaired students. Focuses on analytical and synthetical approaches to teaching speech and speech reading. Limited to Special Education students in the Hearing Impaired Program or practising teachers of the hearing impaired. Formerly EDPSY 543 before 1989/90.

EDPSY 565 Manual Communication in the Instruction of Hearing Impaired Students
★3 (either term, 2-1s-1). Develops skills in expressive and receptive manual communication in intending teachers of hearing impaired students. Focuses on the use of these skills in a classroom setting, rather than on the training of interpreters. Limited to Special Education students in the Hearing Impaired Program or practising teachers of the hearing impaired. Formerly EDPSY 545 before 1989/90.

EDPSY 566 Curriculum Design and Instructional Strategies for Hearing Impaired Students
★3 (either term, 2-1s-1). Explores the need for an integrated approach in planning and adapting existing curricula to meet the needs of hearing impaired students. The course will also explore the use of different instructional techniques with hearing impaired students. Formerly EDPSY 547 before 1989/90.

EDPSY 567 Social Psychology of Hearing Impairment
★3 (either term, 2-0-2). A course designed to develop an understanding of basic psychological social processes associated with deafness. It will emphasize preventative techniques in mental health and will foster empathy with the personal and social needs of deaf students. Formerly EDPSY 593 before 1989/90.

EDPSY 569 Language Development and Remediation with Hearing Impaired Students
★3 (either term, 1-1s-3). Application and development of the skills acquired in the two first level communication courses. Focuses on evaluation and analytical skills and on a diagnostic/prescriptive approach. Formerly EDPSY 549 before 1989/90.

EDPSY 570 Practicum in Education of Hearing Impaired Students
★variable (variable). Supervised placement in a classroom for hearing impaired students. Formerly EDPSY 548 before 1989/90.

EDPSY 571 Internship in Education of the Hearing Impaired Students
★variable (variable). Supervised placement for experienced teachers of hearing impaired students and other professionals experienced in this or a related area. Placement will be determined by the needs of each student registered in the course. Formerly EDPSY 548 before 1989/90.

EDPSY 572 Counselling Families of Hearing Impaired Students
★6 (2-1s-3). The traditional model used in "counselling" the families of deaf clients has a number of deficiencies. This course focuses on a psyco-social approach to counselling and draws more upon the techniques of "family therapy". It will not train counsellors, but it will orientate the student to the special needs of this group of clients. Formerly EDPSY 514 before 1989/90.

EDPSY 573 Counselling Hearing Impaired Students
★6 (0-0-6). The focus of this course is on a basic empathy and skill in instrumental and expressive support for hearing impaired students. It will survey a number of areas ranging from assessment to ethical constraints in working with hearing impaired students. More intensive work will focus on special areas (for example, vocational counselling). Post professional training for experienced teachers. Formerly EDPSY 516 before 1989/90.

EDPSY 577 Severe Disabilities: Orientation
★3 (either term, 0-0-3). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 565 before 1989/90.

EDPSY 578 Severe Disabilities: Behavior Management
★3 (either term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 575 before 1989/90.

EDPSY 579 Severe Disabilities: Assessment and Curriculum
★3 (either term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 561 before 1989/90.

EDPSY 580 Severe Disabilities: Instruction
★3 (either term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 573 before 1989/90.

EDPSY 581 Severe Disabilities: Sensory Deficits
★3 (either term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 563 before 1989/90.

EDPSY 582 Severe Disabilities: Communications
★3 (second term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Alternates between second and spring term. Prerequisite: Consent of department. Formerly EDPSY 585 before 1989/90.

EDPSY 583 Severe Disabilities: Introductory Practicum
★3 (either term, 0-0-3). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 586 before 1989/90.

EDPSY 584 Severe Disabilities: Physical Aspects
★3 (either term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 587 before 1989/90.

EDPSY 585 Severe Disabilities: Issues
★3 (second term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Offered alternate years. Prerequisite: Consent of department. Formerly EDPSY 582 before 1989/90.

EDPSY 586 Severe Disabilities: Vocational and Life Skills
★3 (either term, 3-0-0). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 589 before 1989/90.

EDPSY 587 Severe Disabilities: Advanced Practicum
★3 (either term, 0-0-3). Relates to profoundly or severely mentally retarded, multiply handicapped persons. Prerequisite: Consent of department. Formerly EDPSY 588.

EDPSY 589 Early Intervention Programs
★3 (either term, 0-0-4). An in-depth review and analysis of early intervention programs with at-risk and established-risk infants and young preschool children with a special emphasis upon family-based programs. Formerly EDPSY 551 before 1989/90.

EDPSY 592 Psychology and Education of Gifted Children
★3 (either term, 3-0-3). Formerly EDPSY 567 before 1989/90.

EDPSY 594 Core Seminar
★12 (0-6s-0). An integrated course limited to graduate students requiring the foundation normally provided through EDPSY 515, 569, 571, and 591. Subsequent registration in these courses will not be approved.

EDPSY 597 Special Seminars
★1, or ★2, or ★3, or ★4, or ★5, or ★6 (either term, variable). Content varies from year to year. Topics announced prior to registration period. The student's transcript carries title descriptive of content. May be repeated. Prerequisite: Consent of department.

EDPSY 599 Individual Directed Reading and Research
★3 (either term, 3-0-0). Prerequisite: Consent of department.

EDPSY 600 Doctoral Seminar in Educational Psychology
★6 (0-3s-0). Prerequisite: Consent of department.

EDPSY 602 Doctoral Research Seminar in Educational Psychology
★3 (0-1.5s-0). Prerequisite: Consent of department.

EDPSY 610 History and Systems
★3 (first term, 3-0-0).

EDPSY 612 Generic Orientation to Counselling Practice
★3 (first term, 3-3s-3).

EDPSY 616 Research in Counselling
★3 (first term, 3-0-0).

EDPSY 621 Advanced Psychological Assessment: Theories and Models
★3 (either term, 3-0-0). Prerequisite: EDPSY 545.

EDPSY 623 Advanced Personality Assessment: Objectives and Projective Testing
★3 (either term, 3-0-3). Prerequisite: EDPSY 545.

EDPSY 625 Applied Neuropsychological Assessment: Clinical Counselling and School
★3 (either term, 3-0-3). Prerequisite: EDPSY 545, 621, 623.

EDPSY 630 Doctoral Internship
★6 (0-6L-3). Prerequisite: EDPSY 612 or EDPSY 621/623.

EDPSY 640 Special Education
★6 (3-0-0).

EDPSY 660 Developmental Psychology
★3 (either term, 3-0-0).

EDPSY 676 Psychology of Learning
★3 (either term, 3-0-0).

EDPSY 680 Educational Measurement
★6 (3-0-3).

EDPSY 697 Special Seminars
★1, or ★2, or ★3, or ★4, or ★5, or ★6 (either term, variable). Prerequisite: Consent of department. Content varies from year to year. Topics announced prior to registration period. The student's transcript carries title descriptive of content. May be repeated.

EDPSY 699 Individual Directed Reading and Research
★3 (either term, 3-0-0). Prerequisite: Consent of department.

204.26 Electrical Engineering

Department of Electrical Engineering
238 Civil-Electrical Engineering Building
University of Alberta
Edmonton, Alberta T6G 2G7

204.26.1 General Information

The Department of Electrical Engineering offers graduate courses leading to the MEng, MSc, and PhD degrees to qualified graduates of recognized universities.

Research is being carried out in a number of areas, including biomedical engineering; electromagnetic heating in the recovery of fossil fuels, and in biological systems; integrated solid state sensors; ion accelerators and ion implantation; laser fusion; medical and industrial lasers; micro electronics and VLSI design; micro-processor applications; microwave power; optical fiber communications and microwave communications; plasmas; power electronics; power systems; radio astronomy; robotics; sampled data, adaptive and optimal control systems; signal processing; image processing; software engineering; photovoltaic power systems.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of full-time study (or equivalent) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 580 where applicable (see §202.2.2).

Financial Assistance:

Financial assistance can be arranged in the form of graduate assistantships, scholarships and research grant assistantships. Details are found in the Awards section of the Calendar.

204.26.2 The Degree of MSc

Program Requirements:

Normal requirements for the MSc degree are 18 units of course weight in graduate courses plus E E 600 and a thesis. Of the 18 units of course weight required, 12 must be from those offered by the Department of Electrical Engineering. Of the remaining courses, six units of course weight should normally be taken outside the Department. MSc candidates take E E 600 (Research Project Definition) in the second term of their program.

The minimum period of residence is two consecutive four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MSc will vary according to the previous training of the applicant and the nature of the research undertaken; however, a typical time of two years is normally required.

204.26.3 The Degree of MEng

Program Requirements:

The Master of Engineering program consists of 24 units of course weight plus a project which is equivalent to six units of course weight.

The minimum period of residence is one four-month term of full-time attendance at the University of Alberta.

Length of Program:

A candidate may complete the Master of Engineering program in a minimum of nine months. The maximum time permitted for the completion of the program is four years from the date of the first registration.

204.26.4 The Degree of PhD

Program Requirements:

For the PhD program, course requirements depend upon individual circumstances and must be approved by the Department. Emphasis is on research leading to a thesis of high calibre. The student's supervisory committee will recommend courses to be taken by the student to make up for course deficiencies and to support thesis research. All PhD candidates must take E E 609 and submit a research proposal.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary with the individual candidate.

204.26.5 Undergraduate Courses

The following senior undergraduate courses may be taken for graduate credit. Students wishing to take these courses must consult with the Deparment of Electrical Engineering.

E E 507 High Voltage Engineering
□3.8 (either term, 3-0-3/2). High voltage phenomena, dielectric breakdown, effects of high fields, Corona, lightning, switching surges, insulation coordination, grounding. (★3)

EE AS 512 Physical Measurements in Medicine
★3 (either term, 3-1s-0). Prerequisite: Consent of Department.

E E 514 Reliability Engineering
□3.0 (either term, 3-0-0). Study of how and why electrical and mechanical systems and components fail; Murphy's law; definitions of reliability and failure modes; practical statistical distributions and frequency and duration approach for designing and evaluating system and component reliability levels; repairable, non-repairable and standby systems. Prerequisite: E E 487 or equivalent. (★3)

E E 525 Power Systems II
□3.0 (either term, 3-0-0). Faults and unbalanced operation of systems, symmetrical components, stability and control, circuit breakers, tie line control, overvoltages, lightning and switching surges. Prerequisite: E E 521 or consent of Department. (★3)

E E 527 Industrial Power Distribution
□3.0 (either term, 3-0-0). Fundamentals of engineering design of electrical distribution systems for buildings and electrical plants. Current design practices and engineering methods. Prerequisite: E E 431. (★3)

E E 531 Power Electronics
□4.5 (either term, 3-0-3). Characteristics of power devices; BJT, MOSFET, SCR, GTO, Diode, R, L and C. Electronic power conversion techniques; choppers for DC/AC conversion, rectifiers for AC/DC conversion, inverters for DC/AC conversion, cycloconverters for AC/AC conversion. Applications in variable speed drives, switchmode power supplies, UPS and pulsed power. Prerequisite: E E 356, E E 471. (★3)

E E 533 Electrical Energy Sources
□3.0 (either term, 3-0-0). Energy consumption and reserves. Growth and usage characteristics. Electrical energy sources and costs, fossil, hydro nuclear and other sources. Economic planning of future sources and allocation of load among existing sources. (★3)

E E 537 Advanced Digital Topics
□3.0 (second term, 1-0-4). Microprocessor circuitry and applications, with emphasis on laboratory construction. Prerequisite: E E 471, 479 and 535. Enrollment by consent of Department. (★3)

E E 539 Digital Filter Realization
□3.4 (either term, 3-0-3/4). Approximation and finite-word length effects in digital filters. Digital filter implementation. A/D and D/A converters. Distributed arithmetic digital signal processors. FFT hardware realization. Noise in digital filters. Limit cycles and overflow oscillations. Prerequisite: E E 535 and 538. (★3)

EE AS 540 Digital Computer Processing of Images
★3 (either term, 3-0-3). Prerequisite: E E 538 or consent of instructor.

E E 545 Electrical Instruments and Relays
□4.5 (either term, 3-0-3). A study of modern AC instruments, relays, and applications. (★3)

E E 550 Analog Filter Design
□3.0 (either term, 3-0-0). Filter types. Operational Amplifier Circuits. Butterworth and Chebyshev response. Bi-quad, Sallen and Key and Delyannis filters. Frequency transformations. Ladder networks. Switched capacitor filters. Op-amp oscillators. Prerequisite: E E 460. (★3)

E E 552 Computer Aided Circuit Design
□3.5 (either term, 3-1s-0). Study of circuit design with emphasis on the implementation of digital computer techniques. Principles of modelling of electrical components and devices. Network function evaluation, linear frequency domain circuit analysis, transient analysis, DC analysis of circuits. Sensitivity, circuit optimization. Prerequisite: E E 451. (★3)

E E 561 Control Systems II
□3.8 (either term, 3-0-3/2). Important nonlinearities in systems; describing function method. State space method to describe systems; the phase plane method. Economic systems, ecological systems. System dynamics approach. Simulation, digital systems and design of digital controllers. Prerequisite: E E 560. Corequisite: E E 538. (★3)

E E 571 Electronics IV
□4.5 (either term, 3-0-3). Operational amplifier techniques, active filters, small-signal models for bipolar and field-effect transistors, tuned and untuned amplifiers, sinusoidal oscillators, modulation and demodulation techniques, device and system noise. Prerequisite: E E 460 and 570. (★3)

E E 572 Physical Electronics
□3.0 (either term, 3-0-0). Crystalline solids; quantum and wave theory of solids, electrons in periodic lattices; semiconductors; metal-metal structure; metal-insulator-semiconductor structure; high electric fields in semiconductors and failure mechanisms of semiconductor devices. Prerequisite: E E 423. (★3)

E E 573 Introduction to Integrated Circuits
□3.0 (either term, 3-0-0). Models for bipolar IC devices. Bipolar IC technology. Components of bipolar IC. Single and two transistor amplifiers. Current sources. Output stages. Models for MOS devices. CMOS technology. Scaling down the dimensions of MOS devices. Basic MOS analog circuits. Elemental bipolar and MOS digital circuits. Prerequisite: E E 470. Pre or corequisite: E E 471. (★3)

E E 575 Generation of High Frequencies
□3.8 (either term, 3-0-3/2). Fundamentals of microwave amplifiers and oscillators. Introduction to the principles of operation and the properties of important microwave tubes and microwave semiconductor devices. Prerequisite: E E 416. (★3)

E E 577 Pulse and Waveshaping Circuits
□3.0 (either term, 3-0-0). Waveshaping circuits using passive elements and active devices; pulse generating circuits, mainly multivibrators and blocking oscillators; generation of linear voltage and current sweeps; other topics such as counting circuits, gating circuits, applications to computers, television, etc. Prerequisite: E E 471. Corequisite: E E 570. (★3)

E E 583 Introduction to Plasma and Fusion
□3.0 (either term, 3-0-0). Energy sources and conditions for nuclear fusion. Behavior of plasma. Collision phenomena. Boltzmann equation, transport properties, electrical breakdown of gases. Hydrodynamic and individual particle methods. Current experimental approaches to fusion — steady state and pulsed. State-of-the-art in confinement and heating of plasma. (★3)

E E 585 Acoustics
□3.0 (first term, 3-0-0). General laws; impedance; transducers; enclosures; room acoustics; etc. (★3)

E E 586 Introduction to Optical Fibre Communications
□3.0 (either term, 3-0-0). Properties of optical communication systems; dispersion, attenuation and physical properties of single mode and multimode fibres; LED and laser diode sources; photodetectors; optical coupling; system design; latest developments. Prerequisite: E E 471 and 489 or consent of Department. (★3)

E E 588 Communication in Noise
□3.0 (either term, 3-0-0). Probability, random variables and processes, Gaussian noise, noise in AM and FM Systems, data transmission, information theory and coding. Prerequisite: E E 487 and 489. (★3)

E E 589 Telecommunication Systems
□3.5 (either term, 3-1s-0). Common-carrier telecommunication systems (including telephone networks); signal quality and systems specifications; exchange switching and queuing; distortion and signal-to-noise ratio; multiplexing, modems and frequency converters; transmission media, digital transmission methods, and system constraints; signal conditioning; field trips. Prerequisite: E E 489. (★3)

E E 591 Antennas and Propagation
□3.0 (either term, 3-0-0). Introduction to radiation, antenna fundamentals, self- and mutual-impedances of linear antennas, arrays of linear antennas, practical considerations and feeding arrangements. Friis transmission equation, propagation between elevated antennas over a lossy earth, Fresnel zones and the effect of obstacles, earth curvature and the effects of normal refraction and ducting, tropospheric scatter, propagation in an ionized medium, ionospheric critical frequency and MUF. Prerequisite: E E 356 and 416. (★3)

E E 593 Advanced Topics in Engineering Electromagnetics
□3.0 (either term, 3-0-0). Engineering aspects of wave propagation in ionized gases, waves in anisotropic media (including ferrites), magnetohydrodynamics, space charge waves, travelling wave tubes, accelerators, periodically loaded structures, surface waveguides, forces on dielectric and magnetic materials in non-uniform fields and their biomedical and industrial applications, perturbation theory. (★3)

E E 596 Introduction to Principles and Physics of Lasers
□3.0 (either term, 3-0-0). Interaction of radiation with atoms, laser oscillations and threshold conditions, 3- and 4-level laser systems, rate equations, special properties of laser light, cavity Q and photon lifetime, optical resonators and lens waveguides, Gaussian beams, gain saturation, Q-switching, mode locking, interaction of light and sound, holography. Description of various lasers: solid, gas, semiconductor, dye, Raman and chemical. Laser applications. Prerequisite: E E 416 or equivalent. (★3)

E E 597 Microwave Engineering
□3.8 (either term, 3-0-3/2). Properties of transmission media, synthesis of impedance transformers, microwave junctions, scattering matrix and scattering parameters, properties of microwave cavities, filters, ferrite circulators and isolators. Prerequisite: E E 416. (★3)

E E 598 Special Problems I
□3.0 (first term, 3-0-0). (★3)

E E 599 Special Problems II
□3.0 (second term, 3-0-0). Courses E E 598 and 599 are intended to enable individuals or a small group of students to study topics in their particular field of interest under the supervision of a member of the Faculty. (★3)

204.26.6 Graduate Courses

Note: The following courses will be offered on a regular basis, subject to demand.

THES 900 Thesis
THES 999 Thesis
EE 900 ★6 Directed Research Project

E E 600 MSc Research Project Definition
□0.5 (second term, 0-1s-0). Preparation of a report defining the proposed MSC thesis research. (★0)

E E 601 Special Topics in Electrical Engineering I
□3.0 (first term, 3-0-0). Intended to enable individual students to study special topics under the supervision of a member of the faculty. (★3)

E E 602 Special Topics in Electrical Engineering II
□3.0 (second term, 3-0-0). Same as E E 601, except this course number is to be used during the second term. (★3)

E E 609 PhD Research Project Definition
□0.5 (either term, 0-1s-0). Preparation of a report defining the proposed PhD thesis research. (★0)

E E 619 Microelectronics Process Technology
□3.0 (second term, 3-0-0). The VLSI integrated circuit fabrication process. Overview of processing steps.

Basic semiconductor physics. Silicon wafer material. Oxidation. Photolithography. Diffusion. Ion implantation. Chemical vapour deposition. Metallization. Process model. Yield, packaging and assembly. (★3)

E E 620 Solid-state Sensors
□3.0 (second term, 3-0-0). Sensors and actuators in measurement, control, and robots. Sensor technologies. Silicon microtransducers. Integration of microelectronic sensors and signal processing circuits. Magnetic field sensors. Optoelectric transducers. Pressure, temperature, chemical and biochemical sensors. Actuators and displays. (★3)

E E 622 Power System Problems I
□3.0 (first term, 3-0-0). Selected power system topics, such as stability, circuitbreaking, economic scheduling of generation, overvoltages, digital and analogue approaches to analysis. (★3)

E E 623 Power System Problems II
□3.0 (second term, 3-0-0). A continuation of E E 622, considering topics such as tie line control, excitation and its effect on the system. The application of control systems is emphasized. (★3)

E E 624 Advanced Power Electronic Conversion
□3.0 (second term, 3-0-0). Interactions between the utility system and naturally commutated AC/DC converters; improved converter structure using forced commutation, resonant mode power converters; voltage and harmonic control using PWM techniques; analysis of current and voltage course inverter drives; principles of HVDC conversion and static VAR compensation. Prerequisite: E E 531 or equivalent. (★3)

E E 628 Radio Astronomy Techniques
□3.0 (second term, 3-0-0). Radiometry; galactic background and sources; antennas and arrays as spatial frequency filters; aperture synthesis; earth-rotation synthesis; interferometry; correlation receivers. (★3)

E E 631 Analogue Integrated Circuit Design
□3.0 (first term, 3-0-0). Models for bipolar, JFET and MOS transistors; basic single transistor stages, cascode stage; differential stage with bipolar, JFET, MOS transistors, device mismatch, offset and drift; current sources for biasing; current sources as active loads; supply independent bias, voltage sources and voltage references; level shifters; input stages of operational amplifiers; output stages and protection circuits; monolithic operational amplifier, tutorial study and design example. (★3)

E E 632 Design with Analogue Integrated Circuits
□3.0 (second term, 3-0-0). Basic application of integrated operational amplifiers, inverting and noninverting modes, errors; difference and AC amplifiers, current sources; integration, differentiator, dynamic errors: sample and hold amplifiers; frequency compensation of operational amplifiers; comparators, limiters, waveform generators; multipliers, phaselock loops, design and applications; wideband amplifiers; noise in integrated circuits. (★3)

E E 633 Analogue MOS LSI Circuit Design
□3.0 (either term, 3-0-0). MOS transistor operation and models. Bias in MOS analogue integrated circuits. MOS transistor operation amplifier, its design and limitations. Comparators. Multipliers and sensors. Switch-capacitator filters, biquad realization and realization of complex filters. Dynamic MOS transistor converters. (★3)

E E 635 Logical Design of Digital Computers
□3.0 (first term, 3-0-0). A continuation of E E 379; design and realization of synchronous and asynchronous sequential circuits in checking the design of controller; using standard integrated circuits and MSI devices. (★3)

E E 638 Microelectronic Devices
□3.0 (first term, 3-0-0). Physical Electronics of Solids. PN Junctions. Currents in PN Junctions and bipolar transistors. Properties of the Oxide-Silicon system. MOS capacitors and charge-coupled devices. The MOSFET; charge-control and distributed models. Threshold control. (★3)

E E 641 High Vacuum Technology
□3.8 (either term, 3-0-3/2). Gas kinetics; gas flow; pumping speed theory; pumping methods; pressure, measurement; vacuum system design; leak detection techniques; residual gas analysis; sorption processes. (★3)

E E 645 Selected Laser Topics
□3.0 (either term, 3-0-0). Design, construction and operational aspects of various types of lasers; principles of modulation and detection; transmission medium effects; optical components and concepts; information systems; noise and quantum considerations; special applications. (★3)

E E 653 Integrated Circuit Design
□3.0 (either term, 3-0-0). Electrical characteristics of MOSFET devices and circuits. Simulation of MOSFET circuits. Integrated circuit fabrication. Design and layout of CMOS digital integrated circuits. Use of a computer layout system. Architecture of LSI and VLSI systems. Digital system timing and timing simulation. Computer aids for integrated circuit design. (★3)

E E 655 Introduction to Modern Control Theory
□3.0 (first term, 3-0-0). System concepts. Classical and modern control system theories. Matrix calculus. Eigenvalues and eigenvectors. Formulation and solution of state equation of continuous and discrete systems. Controllability and observability. Lyapunov stability of linear and nonlinear systems. Design of controllers for pole placement by state and output feedback. Observer design. (★3)

E E 656 Statistical Communications
□3.0 (second term, 3-0-0). Random processes; correlated function and power spectrum of stationary processes; optimal receivers in the presence of noise; coding for noise immunity; implementation of coded systems; Fano decoding algorithm. (★3)

E E 660 Optimal Control Systems
□3.0 (second term, 3-0-0). Optimal control problem statement. Use of calculus of variations to solve optimal control problems. Continuous system linear regulator problem. Control constraint and Pontryagin's Minimum Principle. Time-optimal control. Dynamic programming and discrete linear regulator. Kalman Filtering for discrete systems. Extended Kalman Filter for nonlinear systems. Prerequisite: E E 655 or equivalent. (★3)

E E 662 Discrete Data Control Systems I
□3.0 (first term, 3-0-0). Introduction to sampled-data and computer controlled systems. Difference equations representation. Z transforms. Block diagrams and transfer functions. Mason's gain formula. Digital redesign of analogue systems. Design of digital controlleres using root-locus in the z-plane. State space models of sampled data control systems. Design of state feedback controllers for pole placement in discrete systems: Ackermann formula. State estimators (full order and reduced order observers). Servo controller design with and without observers. (★3)

E E 663 Discrete Data Control Systems II
□3.0 (either term, 3-0-0). Implementation of digital controllers. Sources of errors. Quantization effects. A/D conversion noise. Product roundoff noise. Parameter truncation; limit cycles. System identification; different methods of parameter estimation. Adaptive control: different approaches. Prerequisite: E E 662 or equivalent. (★3)

E E 670 Electromagnetic Theory
□3.0 (first term, 3-0-0). Review of electrostatics, magnetostatics, Maxwell's equations, wave equation; relation of microscopic to macroscopic fields; Maxwell stress tensor, particle dynamics, ponderomotive forces on material bodies, field momentum, energy densities; properties of electric and magnetic materials; antennas and radiation; propagation in anisotropic media. (★3)

E E 682 Microwave Circuit Theory
□3.0 (first term, 3-0-0). Scattering and impedance matrices of microwave junctions; microwave filter design, discontinuities in transmission lines; non-uniform transmission lines; non-reciprocal microwave elements. (★3)

E E 683 Optical Fibre Communications
□3.0 (first term, 3-0-0). Semiconductor laser structures; analysis of spectra, modulation characteristics and coupling. Fibre wave analysis, attenuation, dispersion, taps. Detector noise considerations and receiver circuit design. System options and design, coding. Heterodyning, electro-optical switching and recent developments. (★3)

E E 693 Elements of Plasma Theory
□3.0 (first term, 3-0-0). The theoretical background for investigating plasmas developed from kinetic theory. Topics include Saha's equation; Debye potential; Liouville's equation; the BBGKY kinetic theory; the moment equations, including magnetohydrodynamic problems; the Vlassov theory, with examination of plasma oscillations and Landau damping. (★3)

E E 695 Plasma Devices and Diagnostics
□3.0 (second term, 3-0-0). Methods of obtaining plasmas; shock tubes; discharges, etc.; plasma diagnostics including electric, magnetic and optical probing of plasmas. (★3)

204.26.7 Advanced Topics Courses

E E 629 Advanced Topics in Power Systems
□3.0 (either term, 3-0-0). (★3)

E E 639 Advanced Topics in Electronics
□3.0 (either term, 3-0-0). (★3)

E E 649 Advanced Topics in Lasers
□3.0 (either term, 3-0-0). (★3)

E E 659 Advanced Topics in Controls
□3.0 (either term, 3-0-0). (★3)

E E 669 Advanced Topics in Biomedical Engineering
□3.0 (either term, 3-0-0). (★3)

E E 671 Advanced Topics in Electromagnetics
□3.0 (first term, 3-0-0). (★3)

E E 679 Advanced Topics in Communications
□3.0 (either term, 3-0-0). (★3)

E E 689 Advanced Topics in Microwaves
□3.0 (either term, 3-0-0). (★3)

E E 699 Advanced Topics in Plasma
□3.0 (either term, 3-0-0). (★3)

204.26.8 Supplementary Courses

Note: The following courses are not offered on a regular basis. Check with the Department.

E E 603 Departmental Research Seminar I
□0.5 (first term, 0-2s-0). (★0)

E E 642 Special Topics Using High Vacuum Technology
□3.0 (second term, 3-0-0). Ion bombardment of solid and thin film surfaces; sputtering of thin films; growth; structure and properties of thin films; field ion microscopy. (★3)

E E 651 Network Synthesis I
□3.0 (first term, 3-0-0). Energy functions; positive real functions; driving point function synthesis of 2 element and 3 element 1-port passive networks; introduction to transfer function synthesis of passive 2-port networks; determination of network functions; introduction to approximation. (★3)

E E 657 Advanced Communication Theory
□3.0 (second term, 3-0-0). Principles of optimum receiver design, signal coding for noisy channels, channel reliability, selected topics in communication system design. (★3)

E E 665 Biosystems Modeling and Analysis
□3.0 (either term, 3-0-0). Principles of modelling, control theory, system identification, related to biological systems; applications to modelling and analysis of selected biological systems. (★3)

E E 666 Nonlinear Systems Theory
□3.0 (either term, 3-0-0). Analysis of nonlinear systems with deterministic and random inputs, using state space methods, perturbation methods, averaging methods, describing function methods, functional analysis; topics in stability theory. (★3)

E E 680 Microwave Measurements and Techniques
□2.8 (second term,2-0-3/2). Measurement of power; impedance and frequency; representation and measurement of microwave circuits; resonant cavity characteristics; microwave properties of dielectrics; noise in microwave communications systems. (★3)

E E 681 Semiconductor Microwave Electronics
□3.0 (first term, 3-0-0). Review of semiconductor physics; high field conduction in semiconductors; IMPATT and TRAPATT diodes, barrier (or Punch-through) injection and transit time diodes; transferred electron (Gunn) diodes, p-i-n diodes, varactors, Schottky-barrier diodes; transistors and circuits; detectors and mixers — theory and design considerations. Two-port oscillators — theory, design and injection-locking; theory of parametric systems. (★3)

E E 694 Advanced Topics in Plasma Theory
□3.0 (second term, 3-0-0). (★3)

204.27 Elementary Education

Department of Elementary Education
551 Education South
University of Alberta
Edmonton, Alberta T6G 2G5

204.27.1 General Information

The Department of Elementary Education offers graduate programs leading to the degrees of MEd, EdD, and PhD. These programs are designed to help prepare consultants and supervisors, master teachers, and personnel for teacher education institutions.

Application forms for admission to graduate programs can be secured by writing to the Chair of the Department.

Entrance Requirements:

The Department's minimum admission requirements include a valid teaching certificate, and an undergraduate degree equivalent to a BEd degree from the University of Alberta with a minimum grade point average of 7.0 on the last 60 units of course weight completed of undergraduate (graduate) work. Successful teaching experience is also required, and where applicable (see §202.2.2) candidates must have a TOEFL score of at least 550.

To be admitted to the EdD or PhD program a candidate is normally required to have the equivalent of a University of Alberta MEd degree. Under certain circumstances it is possible to enter with the equivalent of the BEd degree, but in such instances potential candidates must plan at least three years of continuous attendance.

Successful teaching experience is also a prerequisite for admission into an EdD or a PhD program.

ancial Assistance

A number of graduate assistantships are available.

4.27.2 The Degree of MEd

ogram Requirements:

Two routes to the MEd degree are available: a thesis-ed route and a course-based route. Requirements for thesis-based MEd degree normally include courses ivalent to 30 units of course weight plus a thesis (18 s of course weight). Requirements for the course-ed MEd degree normally include course work equivalent 9 units of course weight plus a major project (six units ourse weight).

There is no language requirement for the degree.

The minimum period of residence for the thesis-based te is one academic year of full-time attendance at the versity of Alberta. There is no residence requirement the course-based master's.

ngth of Program:

The time required to complete the MEd program ies with the individual candidates and the route selected. e minimum time required to complete the MEd program 4 consecutive months of full-time registration.

04.27.3 The Degree of EdD

ogram Requirements:

The EdD program requirements are individually defined d normally range from 36 to 48 units of course weight is a dissertation.

There is no language requirement for the EdD.

The minimum period of residence is two academic ars of full-time attendance at the University of Alberta.

ength of Program:

The time required to complete the EdD program will ry with the individual candidate; however, normally a nimum of 30 months is required.

04.27.4 The Degree of PhD

rogram Requirements:

The PhD program requirements are individually defined d normally range from 36 to 48 units of course weight is a dissertation.

No language other than English is required.

The minimum period of residence is two academic ars of full-time attendance at the University of Alberta.

ength of Program:

The time required to complete the PhD will vary cording to the previous training of the applicant and the ture of the research undertaken; however, normally a inimum of 30 months of study and research is required.

04.27.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis
ED EL 900 ★6 Directed Research Project

D EL 500 Program Development and Research in lementary School Art: Performance
3 (either term, 3-0-0). Prerequisite: ED EL 400 or nsent of department.

D EL 501 Program Development and Research in lementary School Art: History and Criticism
3 (either term, 3-0-0). Prerequisite: ED CI 400 or con-ent of department.

D EL 505 Theories of Language Processing
3 (either term, 3-0-0). Prerequisite: One-half course quivalent in reading education and one-half course equivalent language education, or consent of department.

D EL 506 Theories of Language Development: The lementary School Child
3 (either term, 3-0-0). Prerequisite: One-half course quivalent in each of reading and language curriculum nd instruction, or consent of department.

D EL 507 Issues in Developmental Literacy
3 (either term, 3-0-0). Prerequisite: One-half course in eading education and one-half course in language ducation, or consent of department.

D EL 508 Diagnosis and Remediation of Reading nd Writing Problems I
3 (either term, 3-0-3). Prerequisite or corequisite: D EL 505 or equivalent.

D EL 509 Diagnosis and Remediation of Reading nd Writing Problems II
3 (either term, 3-0-3). Prerequisite ED EL 508.

D EL 510 Curriculum and Instruction in Children's Literature for Elementary Schools
3 (either term, 3-0-0). Prerequisite: One-half course equivalent in each of language and reading education or consent of department.

ED EL 511 Elementary Language Arts Programs: Development and Supervision
★3 (either term, 3-0-0). Prerequisite: One-half course equivalent in each of reading and language curriculum and instruction, or consent of department.

ED EL 512 Oral Language: Content and Context of the Classroom
★3 (either term, 3-0-0). Prerequisite: One-half course equivalent in language education or consent of department.

ED EL 513 Speech and Oral Language Disorders — Implications in the Elementary Classroom
★3 (either term, 3-0-0).

ED EL 516 Program Development in Elementary School Mathematics I
★3 (either term, 3-0-0). Prerequisite: ED EL 415 or consent of department.

ED EL 517 Research in Mathematics Education I
★3 (either term, 3-0-0). Prerequisite: ED EL 415 or consent of department.

ED EL 520 Program Development in Elementary School Physical Education (Movement Education)
★3 (either term, 3-0-0). Prerequisite: Diploma or Graduate Students only.

ED EL 521 Implementation of Elementary School Physical Education (Movement Education) Programs
★3 (either term, 3-0-0). Prerequisite: Diploma or Graduate Students only.

ED EL 525 Program Development in Elementary School Music
★3 (first term, 3-0-0). Prerequisite: ED EL 326 or consent of department.

ED EL 526 Research in Elementary School Music
★3 (second term, 3-0-0). Prerequisite: ED EL 525 or consent of department.

EDADU 530 Literacy in Adult Education
★3 (either term, 3-0-0). Coordinated by the Department of Elementary Education.

ED EL 530 Research in Elementary School Science
★3 (either term, 3-0-0). Prerequisite: ED EL 430 or 431 or consent of department.

ED EL 531 Program Development in Elementary School Science
★3 (either term, 3-0-0). Prerequisite: ED EL 430 or 431 or consent of department.

ED EL 535 Program Development in Elementary Social Studies I
★3 (either term, 3-0-0). Prerequisite: ED EL 435 or consent of department.

ED EL 536 Program Development in Elementary Social Studies II
★3 (either term, 3-0-0). Prerequisite: ED CI 535 or consent of department.

ED ES 541 School Library Collection Development
★3 (either term, 3-0-0). Prerequisite: ED ES 443 or consent of department.

ED ES 543 School Library Programs
★3 (second term, 3-0-0). Focus on cooperative planning and implementation of school library programs. Prerequisite: ED ES 443 or consent of department.

ED EL 545 Program Development in Second Language Education
★3 (either term, 3-0-0).

ED EL 546 Teaching and Learning Strategies in Second Language Education
★3 (either term, 3-0-0).

ED ES 546 School Library Information Materials
★3 (either term, 3-0-0). Prerequisite or corequisite: ED ES 443 or consent of department.

ED ES 547 Organization of School Library Materials
★3 (either term, 3-0-2). Prerequisite or corequisite: ED ES 443 or consent of department.

ED ES 548 Directed Study in School Library Research
★3 (second term, 3-0-0). Prerequisite or corequisite: ED ES 443 and 543 or consent of department.

ED EL 550 Problems in the Teaching of English as a Second or Other Language
★3 (either term, 3-0-0). Prerequisite: ED EL 450 and 451 or equivalent.

ED EL 551 Program Development in the Teaching of English as a Second or Other Language
★3 (either term, 3-0-0). Prerequisite: ED EL 450 and ED EL 451 or equivalent.

ED ES 551 Curriculum Design
★3 (either term, 3-0-0). The application of curriculum theory to a specific task; the planning of a curriculum which can be used by teachers as a point of departure for their teaching.

ED EL 555 Early Childhood Education: Home/School/Community Relations
★3 (either term, 3-0-0). This course is designed to investigate the teacher's role in improving communication among the school, home, and community.

ED EL 556 Program Development in Early Childhood
★3 (either term, 3-0-0). Prerequisite: ED EL 457 or consent of department.

ED EL 557 Research in Program Development in Early Childhood Education
★3 (either term, 3-0-0). Prerequisite: ED CI 556 or consent of department.

ED EL 560 Foundations of Curriculum Development
★3 (either term, 3-0-0). A study of educators' views of knowledge, society, and the learner and the effect of those views on curriculum development.

ED EL 561 Processes of Curriculum Development
★3 (either term, 3-0-0). A study of the ways in which curricula are produced, implemented, and evaluated.

ED EL 565 Research and Support Services and Skills
★3 (0-1s-0; 0-2s-0). Reports and discussion by staff and graduate students to provide candidates for advanced degrees with experience in the selection and evaluation of research problems and procedures.

ED EL 566 Issues in Designing and Conducting Educational Research
★3 (either term, 0-3s-0). Prerequisite: ED EL 567 or consent of department.

ED EL 567 Introduction to Educational Research
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

ED EL 568 Introduction to Qualitative Research Methods in Education
★3 (either term, 3-0-0).

ED EL 570 Instructional Practices in the Elementary Classroom
★3 (either term, 3-0-0).

ED EL 571 Models of Teaching
★3 (either term, 3-0-0).

ED EL 590 Directed Individual Study in Elementary Education
★3 (either term, 3-0-0). Prerequisite: Consent of department.

ED EL 591 Directed Individual Study in Elementary Education
★6 (variable). Prerequisite: Consent of department.

ED EL 595 Seminar in Elementary Education — Selected Topics
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

ED EL 596 Special Seminars in Elementary Education
★Variable (either term, variable). Prerequisite: Consent of department.

ED EL 600 Research in Art Education
★6 (3-0-0).

ED EL 605 Theories and Models of Reading Process
★3 (either term, 3-0-0).

ED EL 606 Research I: Bases of Knowledge for Reading Research
★3 (either term, 3-0-0).

ED EL 607 Research II: Recent Research in Reading
★3 (either term, 3-0-0).

ED EL 608 Evaluation and Administration of Remedial Procedures
★3 (either term, 3-0-3).

ED EL 609 Research in Language
★6 (3-0-0).

ED EL 615 Program Development in Elementary School Mathematics II
★3 (either term, 3-0-0).

ED EL 616 Research in Mathematics Education II
★3 (either term, 3-0-0).

ED EL 635 Research in Elementary School Social Studies
★3 (first term, 3-0-0).

ED EL 636 Planning Research in Elementary School Social Studies
★3 (second term, 3-0-0). Prerequisite: ED EL 635.

ED ES 649 Curriculum Evaluation
★3 (first term, 3-0-0). An inter-departmental seminar devoted to an examination of evaluation in the broad perspective of its place in education.

ED ES 650 Curriculum Evaluation Practicum
★3 (either term, 3-0-0). The preparation and implementation of an evaluation study in the field. Prerequisite or corequisite: ED ES 649.

ED EL 690 Individual Project
★3 (either term, variable). Comprehensive problems in Curriculum and Instruction — Elementary. Includes preparation of final report.

ED EL 691 Individual Project
★6 (variable). Comprehensive problems in Curriculum and Instruction — Elementary. Includes preparation of final report. May be offered in a single term.

ED EL 695 Seminar in Elementary Education
★3 (either term, 0-3s-0, or 0-1.5s-0). Discussion of perennial issues and current solutions to problems in elementary education. Compulsory for all doctoral students.

ED EL 696 Conference Course in Elementary Education
★6 (variable). May be offered in a single term.

ED EL 697 Symposium in Elementary Education
★3 (either term, 3-0-0, or 1.5-0-0). Research reports by staff and students. Compulsory for all doctoral students.

204.27.6 Reserve

ED EL 546 Teaching and Learning Strategies in Second Language Education
★3 (either term, 3-0-0).

ED EL 660 Curriculum and Instruction Laboratory
★0. Discussion and supervision of experiences designed to prepare doctoral students for pre-service and in-service education of Elementary School teachers. Compulsory for all doctoral students.

204.28 English

Department of English
3-5 Humanities Centre
University of Alberta
Edmonton, Alberta T6G 2E5

204.28.1 General Information

The Department of English offers graduate work leading to the Master of Arts and Doctor of Philosophy degrees in English language and literature. The Department also offers a postgraduate diploma in English.

The Department is large and various, and offers courses in all areas of English language and literature, from Old English to contemporary British, American, and Canadian writing. It is particularly strong in Renaissance, nineteenth-century, and Canadian literature, and in creative writing.

The University's libraries contain a 5,000,000 volume equivalent, and holdings in English, Canadian, American, and Commonwealth literature totalling more than 150,000 volumes. Special collections in English literature include early editions of Bunyan and Milton; facsimiles of the Dove Cottage Wordsworth papers; first and rare editions of Scott, Thackeray, Dickens (including serial parts); Emily Dickinson manuscript facsimiles; exceptionally large holdings in Lawrence, Yeats, and Joyce; and manuscripts and archives in the literature of Canada, including the manuscripts of the poetry of Dorothy Livesay from 1919-1974.

Entrance Requirements:

The normal requirements for admission to the MA program include an Honors degree in English or its equivalent in number of courses (60 units of course weight), coverage (six units of course weight in each of the major periods and figures: Old and Middle English, including Chaucer; early Renaissance, including Shakespeare; later Renaissance, including Milton, and/or Restoration and Eighteenth Century Literature; Romantic and Nineteenth Century Literature; Modern British and/or American Literature; and Canadian Literature [though this will not be required of students from outside Canada]), and high academic standing (a 7.5 GPA in courses in English). Where applicable a TOEFL score of 600 is required (see §202.2.2).

Financial Assistance:

The Department has regular provision for graduate assistantships. (Part-time, course-based MA students are ineligible for Department financial support.) Application should be made, if possible, by February 1.

204.28.2 The Degree of MA

Program Requirements:

For a student with an Honors BA in English (or its equivalent) the MA program will consist of one of two options: 18 units of course weight in graduate courses in the Department, some practical training in bibliography, a thesis, and an oral defence of the thesis; or 24 units of course weight in graduate courses in the Department, some practical training in bibliography and a project equivalent to six units of course weight which is a graduating seminar paper involving a public presentation and a private defence. The course-based option may be pursued on a part-time basis. The MA program of a student without an Honors BA in English may require more courses, depending upon the number of English courses that have been taken as an undergraduate.

A reading knowledge of one language other than English will be required of all students (normally French or German, although other languages may be approved).

For full-time MA students the minimum period of residence is two four-month terms of full-time attendance at the University of Alberta for candidates with an Honors degree in English (or its equivalent); for candidates without an Honors BA in English the residence requirement may be somewhat longer.

Length of Program:

The time required to complete the MA will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of 12 months is normally required.

204.28.3 The Degree of PhD

Program Requirements:

A student with an MA in English (or its equivalent) may be admitted as a provisional candidate for the PhD degree. The program of a provisional candidate will normally include 18 units of course weight in graduate courses (three of which may be taken outside the Department of English), as well as departmental examinations, and an oral candidacy examination.

The student must demonstrate a reading knowledge of two languages other than English (usually French and German). After a student has passed all examinations, the student will become a candidate for the PhD and will then submit a thesis and make an oral defence of the thesis.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary with the individual candidate; however, a minimum of two years of study and research is normally required.

204.28.4 Postgraduate Diploma

Program Requirements:

Note: Effective 1990-91 no new students are being admitted into the program. Once those already in the program have completed their requirements, the program will be discontinued.

The postgraduate diploma program normally consists of four full-year courses.

No language other than English is required.

There is no residence requirement, and the diploma may be taken on a part-time basis.

Length of Program:

The time required to complete the diploma program will vary; however, a minimum of 18 months is normally required.

204.28.5 Graduate Courses

Selected courses from the following list will be offered each year. Details of each year's program may be obtained early in the preceding spring from the Chair of the Graduate Committee.

THES 900 Thesis
THES 999 Thesis
ENGL 900 ★6 Directed Research Project

ENGL 540 The Theory and Practice of Expository Writing
★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Program.

ENGL 541 Forms of English Prose
★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Program.

ENGL 542 Forms of English Poetry
★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Program.

ENGL 543 Forms of English Drama
★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Program.

ENGL 544 The Canadian Literary Tradition
★6 (3-0-0). Note: Restricted to students in the Postgraduate Diploma Program.

ENGL 545 Prose for Children and Young Adults
★6 (3-0-0). Note: Restricted to students in the Pc graduate Diploma Program.

ENGL 546 Poetry for Children and Young Adults
★6 (3-0-0). Note: Restricted to students in the Pc graduate Diploma Program.

ENGL 553 Directed Reading
★6 (3-0-0).

ENGL 554 Directed Reading
★3 (first term, 3-0-0).

ENGL 555 Directed Reading
★3 (second term, 3-0-0).

ENGL 560 Bibliography and Methods of Research
★0 (1-0-0).

ENGL 561 Introduction to the Teaching of Freshman English
★0 (either term, 1-0-0).

ENGL 562 Uses of the Computer in Literary Studies I
★0.

ENGL 563 Uses of the Computer in Literary Studies II
★0.

ENGL 567 Studies in Literary History
★3 (either term, 3-0-0).

ENGL 569 Studies in Literary Criticism
★3 (either term, 3-0-0).

ENGL 570 History of Literary Criticism
★6 (3-0-0). Not to be taken by students with credit ENGL 568.

ENGL 571 Critical Theory
★6 (3-0-0). Not to be taken by students with credit ENGL 568.

ENGL 576 The English Language
★6 (3-0-0).

ENGL 577 Studies in the English Language
★3 (either term, 3-0-0).

ENGL 584 Creative Writing
★6 (3-0-0).

ENGL 586 Studies in American Literature
★3 (either term, 3-0-0).

ENGL 587 Nineteenth-Century American Literature
★6 (3-0-0).

ENGL 589 Twentieth-Century American Literature
★6 (3-0-0).

ENGL 590 Canadian Literature
★6 (3-0-0).

ENGL 591 Studies in Canadian Literature
★3 (either term, 3-0-0).

ENGL 592 Old Norse Literature
★6 (3-0-0).

ENGL 601 Editing Literary Texts in English
★6 (3-0-0).

ENGL 603 Children's Literature
★6 (3-0-0).

ENGL 610 Old English Literature
★6 (3-0-0).

ENGL 611 Studies in Old English Literature
★3 (either term, 3-0-0).

ENGL 614 Middle English Literature
★6 (3-0-0).

ENGL 615 Studies in Middle-English Literature
★3 (either term, 3-0-0).

ENGL 616 Chaucer
★6 (3-0-0).

ENGL 628 Medieval Drama
★6 (3-0-0).

ENGL 634 Renaissance Literature
★6 (3-0-0).

ENGL 635 Studies in Renaissance Literature
★3 (either term, 3-0-0).

ENGL 640 Shakespeare
★6 (3-0-0).

ENGL 641 Elizabethan and Jacobean Drama
★6 (3-0-0).

ENGL 646 Seventeenth-Century Poetry and Prose
★6 (3-0-0).

ENGL 647 Studies in Seventeenth-Century Literature
★3 (either term, 3-0-0).

ENGL 652 Milton
★6 (3-0-0).

GL 654 Restoration and Eighteenth-Century ama
(3-0-0).

GL 658 Restoration and Eighteenth-Century erature
(3-0-0).

GL 659 Studies in Restoration and Eighteenth-ntury Literature
(either term, 3-0-0).

(either term, 3-0-0).

GL 696 Studies in Individual Authors
(either term, 3-0-0).

4.29 Entomology

partment of Entomology
Earth Sciences Building
versity of Alberta
nonton, Alberta T6G 2E3

4.29.1 General Information

The Department of Entomology offers programs leading the degrees of MSc and PhD. Laboratory space is ilable for about 18 students. A broad range of facilities research in insect biology is available including the ckland Museum, two scanning electron microscopes, trolled environment chambers, and laboratories for chemistry, gel electrophoresis, histology, trophysiology, and analytical chemistry. The Depart-nt's George Lake Field Site, about 80 km northwest of nonton, provides accomodation and facilities for field dy of freshwater and terrestrial insects. Strong ties are ntained with both the Faculty of Agriculture and Forestry the Faculty of Science. This provides an excellent ironment for research in basic entomology, agricultural omology and forest entomology.

The Department is especially interested in receiving lications from students wishing to work on: comparative and developmental aspects of morphology, systematics and natural history of most groups of insects, but ecially Thysanoptera, Gerridae (Hemiptera), and ulliidae (Diptera); physiology of chemosensory systems; ect-plant relationships of Chrysomelidae (Coleoptera); siology and genetics of tsetse flies; insect pathology; experimental analysis of species interactions in freshwater ponds; and general ecology and behavior of insects of forest and prairie.

Independent research is strongly encouraged, and prospective students are invited to present research proposals at the time of application. Inquiries may be addressed, at any time, to individual faculty members or to the Chair.

Entrance Requirements:

The Department normally does not accept students with an overall grade point average of less than 6.5 in their undergraduate work at the University of Alberta, or an equivalent qualification from a recognized institution. Where applicable, a TOEFL score of 550 is required (see §202.2.2).

Financial Assistance:

Financial assistance is available from several sources and is awarded on an individual basis according to merit. Acceptance does not imply that financial assistance is available, but a clear statement regarding personal financial support will be given at the time of acceptance. Support for research is the responsibility of the supervisor and the student.

204.29.2 The Degree of MSc

Program Requirements:

The primary requirement is a successfully defended thesis on an original research topic. Courses will depend on the area of specialization and the undergraduate background of the student. Normally, an MSc student takes no less than 12 units of course weight in addition to the graduate seminar (ENT 601/602).

There is no language requirement other than English.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MSc will vary with the individual candidate; however, a minimum of two years is normally required.

204.29.3 The Degree of PhD

Program Requirements:

The primary requirement is a successfully defended thesis on an original research topic. Courses will depend on the area of specialization and the student's background. The graduate seminar ENT 601/602 is a required course; additional courses will usually be required. Normally, a PhD student takes no less than 12 units of course weight during the program.

There is no language requirement other than English.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of three years is normally required.

204.29.4 Undergraduate Courses

The following table lists renumbered courses effective 1991-92:

Old	New	Old	New
ENT 400	ENT 300	ENT 421	ENT 321
ENT 401	ENT 301	ENT 470	ENT 370
ENT 408	ENT 308	ENT 471	ENT 371
ENT 417	ENT 317	ENT 560	ENT 460
ENT 419	ENT 319		

The following may be taken for graduate credit:

ENT 300 Project in Basic Entomology
★6 (0-1s-6). Individual study. Provides students with an opportunity to pursue an area of interest in detail. This is accomplished through guided reading, discussions with a faculty member and usually conducting a limited research project. Students must have the agreement of at least one faculty member who will act as supervisor for the course. As the project may require summer collecting or field work, students are strongly encouraged to find a faculty member who agrees to supervise their work, at least six months prior to enrolling in the course. Prerequisite: Any three units of course weight in Entomology at the 200-level or higher.

ENT 301 Project in Basic Entomology
★3 (either term, 0-1s-6). Individual study. Provides students with the opportunity to investigate through guided reading and discussion with a faculty member of their choice, the literature on one or more topics in basic entomology. According to circumstances and inclination, limited experimental work might be undertaken. Prerequisite: Any three units of course weight in Entomology at the 200-level or higher.

ENT 308 Principles of Insect Pest Management
★3 (first term, 3-0-3). Application of ecological principles and pest management tactics in development of integrated control strategies. Biological characteristics of pests and use of population models are emphasized. Economic considerations in pest management. Term paper required. Prerequisite: Any three units of course weight in Entomology at the 200-level or higher, an Introductory course in ecology, a course in Computing Science, and a course in Statistics.

ENT 317 Comparative Morphology
★3 (first term, 3-0-3). Comparative morphology of the major orders of insects and the evolution of some of their structures. Prerequisite: ZOOL 252 and 253.

ENT 319 Insect Development
★3 (second term, 3-0-3). Reproduction, embryonic and postembryonic development in insects. Prerequisite: BIOL 202 or ENT 317.

ENT 321 Insect Function
★3 (second term, 3-1s-3). Life processes at the molecular, cellular, and organ levels, emphasizing those characteristics of insects and their relatives. Prerequisite: CHEM 160 and six units of course weight in Entomology and/or Zoology at the 200-level or higher.

ENT 370 Project in Applied Entomology
★6 (0-1s-6). Individual study. Provides student with an opportunity to pursue an area of interest in detail. This is accomplished through guided reading, discussions with a faculty member and usually conducting a limited research project. Students must have the agreement of at least one faculty member who will act as supervisor for the course. As the project may require summer collecting or field work, students are strongly encouraged to find a faculty member who agrees to supervise their work, at least six months prior to enrolling in the course. Prerequisite: Three units of course weight in Entomology at the 200-level or higher.

ENT 371 Project in Applied Entomology
★3 (either term, 0-1s-6). Individual study. Provides students with the opportunity to investigate through guided reading and discussion with a faculty member of their choice, the literature on one or more topics in applied entomology. According to circumstances and inclinations, limited experimental work might be undertaken. Prerequisite: Three units of course weight in Entomology at the 200-level or higher.

ENT 427 Insect Taxonomy
★3 (second term, 2-0-6). The higher taxa of insects and their relationships. Practice in identification. Prerequisite: ENT 317.

ENT 460 Insect Ecology
★3 (first term, 2-0-4). Relationships of insects to their environment. Community interactions. Laboratory will consist of field trips. Prerequisite: ZOOL 331 or ENT 308 and three units of course weight of animal ecology.

204.29.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis

ENT 527 Insect Taxonomy
★3 (second term, 3-0-3). Literature of insect taxonomy. Principles and procedures. Speciation, phylogeny and zoogeography. Preparation of taxonomic papers. Prerequisite: Consent of instructor; ENT 427 recommended.

ENT 561 Advanced Insect Ecology
★3 (second term, 2-0-4). Behavioral aspects of insect ecology. Responses of insects to the biological and physical environment. Circadian activity rhythms. Prerequisite: ENT 460.

ENT 601 Seminar
★3 (first term, 0-2s-0). Required of all graduate students in each year.

ENT 602 Seminar
★3 (second term, 0-2s-0). Required of all graduate students in each year.

ENT 610 Project in Insect Morphology and Histology
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: Consent of instructor.

ENT 621 Project in Insect Taxonomy
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: Consent of instructor.

ENT 650 Project in Insect Physiology
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: ENT 321 and consent of instructor.

ENT 660 Project in Insect Ecology
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: ENT 460 or 561 recommended.

ENT 670 Project in Insect Toxicology
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: Consent of instructor.

ENT 680 Project in Forest Entomology
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: ENT 280 recommended.

ENT 692 Project in Medical Entomology
★6 (0-1s-6). Individual study. Guided reading and short research project. Prerequisite: Consent of instructor.

204.30 Family Studies

Department of Family Studies
3-38 Assiniboia Hall
University of Alberta
Edmonton, Alberta T6G 2E7

204.30.1 General Information

The Department of Family Studies offers Master of Science programs in general family studies, family life education, and consumer studies. Students complete the required course work and theoretical- or research-oriented thesis.

Students come from a variety of academic and career backgrounds and, upon graduation, have taken employment in a wide range of careers in social service agencies, government, research, and teaching.

Entrance Requirements:

Candidates should hold a four-year Bachelor's degree. A candidate proceeding from a program in a completely different field may be admitted as a qualifying student. Students must also meet the requirements of the Faculty of Graduate Studies and Research. A minimum grade point average of 7 (on a 9-point scale) in the last two years of the student's undergraduate program is required.

Where applicable, candidates must obtain a minimum TOEFL score of 580 before official admission will be considered (see §202.2.2).

Financial Assistance:

Limited research and teaching assistantships are available. Full-time appointments require twelve hours of work per week. Regular tuition fees must be paid. Some students are supported on professors' research grants.

204.30.2 The Degree of MSc

Program Requirements:

All MSc students must complete the research and theory component plus courses in their specialization. Many courses have prerequisites as noted in the calendar.

Research and Theory: FAM 610, 611, 612, six units of course weight in Statistics at the 400-, 500-, or 600-level and a thesis.

a) General Family Studies: FAM 310, 614, SOC 578 and one option.

b) Family Life Education: FAM 680, 613, 681 and one option.

c) Consumer Studies: FAM 630, remainder of program to be designed in conjunction with adviser.

Elective courses in Marriage and Family Therapy: EDPSY 511, 532, 533, 535. These courses are available by special permission to a limited number of students and may be taken only after completion of the required courses. Students planning to take the family counselling courses should be aware that Family Studies does not have a Family Therapy Program and graduation with an MSc in Family Studies does not result in AAMFT certification or licensure as a psychologist. The Department has an agreement with the Department of Educational Psychology whereby two Family Studies students each year may request entrance into their counselling courses. Educational Psychology grants the final acceptance into these courses.

There is a residence requirement of two, four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MSc will vary with the individual candidate; however, a minimum of two years is normally required.

204.30.3 Undergraduate Courses

The following table lists renumbered undergraduate courses effective 1991-92:

Old	New	Old	New
FAM 431	FAM 321	FAM 444	FAM 480
FAM 440	FAM 430	FAM 445	FAM 481
FAM 441	FAM 420	FAM 448	FAM 310
FAM 442	FAM 410	FAM 450	FAM 330
FAM 443	FAM 380	FAM 452	FAM 412

FAM 310 Understanding Family Communication
★3 (either term, 3-0-0). The synthesis of knowledge of communication with knowledge of family relationships and the application of that combination to the student's experience. Emphasis is placed on the effect of communication on individual behavior and family patterns. Prerequisite: FAM 110 or 211 or SOC 271 or consent of instructor.

FAM 321 Development During School Years and Adolescence
★3 (either term, 3-0-0). Advanced study of child development in the family during school age and adolescent years. Major emphasis will be placed on integrating basic theory and research with practical issues facing children and families. Students will be required to perform 10-15 hours of observation within an appropriate real-world setting. Prerequisite: FAM 320 or 343 or PSYCO 223 or EDPSY 163 or consent of instructor. Not open to students who have taken FAM 347. (Formerly FAM 347).

FAM 330 Family Finance
★3 (first term, 2-1.5s-0). Principles of money management applied to family income and expenditure. Budgeting and management of savings will be important. Special emphasis will be placed on the management of credit, investment, insurance, housing. The particular needs of low income money management will be stressed. Prerequisite: FAM 230 and ECON 101/102 or consent of instructor.

FAM 380 Issues in Family Life Education
★3 (first term, 3-0-0). An introduction to family life education as an applied area of family studies. A review of relevant literature in the field as well as study and practice in program planning and evaluation for community family life education programs. Prerequisite: FAM 110 or 211 or SOC 271.

FAM 410 The Aging Family: Needs and Resources
★3 (either term, 3-0-0). An exploration of the interpersonal, personal and physical needs of the aging family throughout the latter stages of the family life cycle beginning at the empty nest stage. Course content will include an assessment of services to older families in Alberta. (Formerly FAM 433).

FAM 411 Family Policy
★3 (either term, 3-0-0). Introduction to the concepts of policy development and policy analysis with an examination of the impact of current policies on the Canadian family. Prerequisite: FAM 110 or FAM 211 or SOC 271. Offered as staffing and resources permit.

FAM 412 Family and Special Needs Children
★3 (either term, 3-0-0). The focus of this course in on the impact of a special needs child on family functioning and family adjustment. The socio-psychological literature will provide an overview of both theoretical and practical issues with respect to family functioning under various conditions. Families with special needs will be compared to other families. Note: To be offered as staffing will allow. Formerly FAM 442 (Family and Special Needs Children).

FAM 420 The Aging Individual
★3 (first term, 3-0-0). An introduction to the normal aging process of the individual beginning at late middle age. The older person's developmental needs and community resources to meet these needs will be emphasized. Prerequisite: FAM 321 or 343 or PYSCO 353 or EDPSY 263 or consent of department .

FAM 430 Consumer Problems
★3 (either term, 3-0-0). An analysis of problems faced by the family as consumer, within the framework of the economic, sociological, psychological and legal factors which create these problems. Sources of information and aid for the consumer. Prerequisite: ECON 101/102 or completion of an approved economics module available from the campus bookstore. This course will only be offered in alternate years. The prerequisite courses must be completed or the module completed and evaluated prior to the start of the term in which the student is registered to take the course.

FAM 480 Methods in Human Service Agencies
★3 (first term, 1.5-0-3). Methods in the development of administrative and interpersonal skills in human service agencies. Open to senior Family Studies majors; other Home Economics majors, with consent of instructor.

FAM 481 Practicum in Family Services
★6 (second term, 0-1.5s-16). Students will be placed in one of a variety of family related agencies for two full days per week during the second term. In addition, attendance at one seminar per week is required. Prerequisite: FAM 480. Note: Open only to senior Family Studies majors. Must be taken during the same year as FAM 480.

204.30.4 Graduate Courses

The following table lists renumbered graduate cou effective 1991-92:

Old	New	Old	New
FAM 500	FAM 610	FAM 559	FAM 551
FAM 527	FAM 615	FAM 560	FAM 651
FAM 540	FAM 630	FAM 600	FAM 612
FAM 541	FAM 620	FAM 645	FAM 616
FAM 543	FAM 680	FAM 649	FAM 650
FAM 547	FAM 681	FAM 659	FAM 613
FAM 551	FAM 614	FAM 660	FAM 652
FAM 553	FAM 611		

FAM 551 Independent Study I
★3 (either term, 0-0-6). Independent study of topic family studies including independent laboratory an brary research. Prerequisite: Students must rec consent from instructor prior to registration.

FAM 610 Introduction to Family Studies
★3 (first term, 0-3s-0). A review of the basic content philosophy of the study of the family from the partic emphasis of the Family Studies Department. Gradu students from other faculties admitted with conser instructor.

FAM 611 Applied Theory and Research in Marria and Family
★3 (first term, 0-3s-0). The consideration of theor marriage and the family as it relates to family prac and research in Family Studies. Prerequisite or corequi FAM 610 or consent of the intructor.

FAM 612 Seminar: Methods in Family Studies Research
★3 (second term, 0-3s-0). An investigation of fa research methodology and the development of a search proposal for the student's thesis. Prerequisit graduate level statistics course, FAM 610 and 611.

FAM 613 Graduate Practicum in Family Studies
★3 (either term, 0-0-6). Selected practicum placem to integrate theory and practice in a variety of fa agencies. Prerequisite: Consent of supervisor and department.

FAM 614 Seminar in Family Crisis
★3 (either term, 0-3s-0). An analysis of the proces involved in family crisis. Family disorganization, r ganization, and change associated with various cr are considered. Prerequisite: FAM 110 or 211 or S 271 or consent of the instructor.

FAM 615 The Family in Contemporary Society
★3 (second term, 0-3s-0). An interdisciplinary stud the family in modern western society. The nature of relationship between the family system and sele systems in society will be considered. Prerequisite: F 110, or 211 or SOC 271 or consent of instructor.

FAM 616 Seminar in Applied Theory in Marriage and Family Counselling
★3 (either term, 0-3s-0). Selected theories in marri and family counselling are examined in terms of t their underlying assumptions and their general appl bility in promoting effective counselling outcomes. permission of instructor only.

FAM 620 Seminar in Human Sexuality
★3 (either term, 0-3s-0). Emphasis on socio-psyc cultural factors in development of human sexuality, consideration given to research findings and their pra cal application, i.e., sex education. Prerequisite: F 322 or equivalent.

FAM 630 Seminar: Consumer Studies
★3 (either term, 0-3s-0). Examination of the resea and theory related to consumer behavior, the applica of these to consumer problems and the implications consumer education. Prerequisite: FAM 430 or cons of the instructor.

FAM 650 Seminar in Family Studies: Selected Topics
★3 (either term, 0-3s-0). This course will be offered staff and time permit. By permission of instructor on

FAM 651 Independent Study II
★3 (either term, 0-0-6).

FAM 652 Independent Study III
★3 (either term, 0-0-6).

FAM 680 Seminar in Family Life Education
★3 (either term, 0-3s-0). Examination and analysi the basic issues facing family life education and edu tors in the various settings of home, school and com nity. Prerequisite: FAM 380 or equivalent.

FAM 681 Family Intervention Program Developm and Evaluation
★3 (either term, 0-3s-0). This course is designed graduate students whose professional goals are in area of family life education. It will focus on the des implementation and evaluation of educational inter tion programs such as marriage enrichment, fa

richment, parent education. Emphasis will be educa-nal, rather than remedial. Prerequisite: FAM 680 or nsent of instructor. (A practicum experience may be anged to be taken in conjunction with this course der FAM 613). To be offered as staffing allows.

me Economics

EC 500 Perspectives in Home Economics/Human ology
(either term, 3-0-0).

EC 501 Independent Project in Home Economics
(either term, 0-0-6). Prerequisite: Graduate standing.

EC 600 Home Economics Graduate Seminar
(either term, 0-1s-0).Graduate students may register to three times for a maximum of three credits.

04.30.5 Reserve List

e following table lists renumbered course effective 91-92:

d	New
M 446	FAM 482
M 449	FAM 550
M 460	FAM 413

The Department is unable to offer the following urses regularly. Students should consult the Depart-nt for further information.

M 413 Family and Consumer Law
(either term, 3-0-0). An exploration of family and nsumer law from a user's perspective. (To be taught cooperation with the Faculty of Law.) This course will offered during intersession only.

M 482 Practicum in Program Planning
(either term, 3-0-3). Application of program planning d evaluation principles in actual program planning uation. (To be offered as faculty resources permit). erequisite: FAM 380.

M 550 Family and Human Development: Selected pics
(either term, 3-0-0). Students may enrol in this urse more than once provided that each time it is en the topic is different. Note: To be offered as ffing allows.

04.31 Food Science

partment of Food Science
06 Agriculture-Forestry Building
iversity of Alberta
monton, Alberta T6G 2P5

04.31.1 General Information

The Department of Food Science offers programs ading to the degrees of MSc, MAg, MEng (food process gineering), and PhD.

The fields of study open for research in the Department food science, food chemistry, food microbiology, food ocessing, and food process engineering. Prospective ndidates should consult the Chair of the Department garding research facilities and course requirements.

trance Requirements:

The Department's minimum admission requirements an undergraduate degree with an average of 6.5 in the st two years of undergraduate work (or graduate work) at University of Alberta, or an equivalent qualification m a recognized institution, and a TOEFL score of 550 ere applicable (see §202.2.2).

nancial Assistance:

A limited number of graduate assistantships and monstratorships are available.

04.31.2 The Degree of MSc

ogram Requirements:

The minimum course load in the MSc program is 12 its of course weight as recommended by the supervisor. addition, FD SC 600 and 601 and a thesis are required all students in MSc programs.

There is no language requirement for the degree of Sc.

The minimum period of residence is two four-month rms of full-time attendance at the University of Alberta.

ngth of Program:

The time required to complete the program will vary cording to the previous training of the applicant and the ture of the research undertaken; however, a minimum of months is normally required.

204.31.3 The Degree of MAg

Program Requirements:

Normally, 30 untis of course weight taken for graduate credit and a project equivalent to at least three units of course weight are required for the MAg degree.

No language other than English is required.

The minimum period of residence is one four-month term of full-time attendance at the University of Alberta. Applicants normally are expected to have completed three years of satisfactory professional experience.

Length of Program:

The time required to complete the MAg program will vary; however, a minimum of 10 months is normally required.

204.31.4 The Degree of MEng

To qualify for admission to the MEng program candidates must possess a bachelor's degree in engineering.

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student; however, the MEng program normally consists of 30 units of course weight and a project equivalent to at least three units of course weight.

No language other than English is required.

The minimum period of residence is one four-month term of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MEng will vary with the individual candidate; however, a minimum of 10 months of study and research is normally required.

204.31.5 The Degree of PhD

Program Requirements:

The PhD program normally consists of FD SC 600, 601, a thesis and such course work as is recommended by the supervisor.

There is no language requirement for the PhD.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary with the individual candidate; however, a minimum of three years is normally required.

204.31.6 Undergraduate Courses

The following table lists renumbered courses effective 1991-92:

Old	New	Old	New
DAIRY 400	DAIRY 300	FD SC 463	FD SC 363
FD SC 402	FD SC 302	FD SC 471	FD SC 372
FD SC 453	FD SC 353	FD SC 502	FD SC 402
FD SC 454	FD SC 354	FD SC 504	FD SC 404
FD SC 461	FD SC 361		

The following may be taken for graduate credit:

DAIRY 300 Fundamentals of Dairy Science
★3 (first term, 3-2s-0). Physiology of lactation. Biosynthesis and properties of milk components. Physical, chemical, microbiological, technological and nutritional aspects of milk quality. Prerequisite: Six units of course weight in biochemistry.

FD SC 302 Quality Control
★3 (second term, 3-0-3). Statistical methods in quality control, sampling plans, objective and subjective measurements of food quality attributes. Formerly called FD SC 402. Prerequisite: Three units of course weight in introductory statistics (STAT 236 recommended).

FD SC 353 Unit Operations in Food Processing I
★3 (first term, 3-0-3). Processes used in food manufacturing. Size reduction, mixing, emulsification, separation, extraction, distillation, sedimentation, centrifugation, crystallization and filtration. Prerequisite: FD SC 283.

FD SC 354 Unit Operations in Food Processing II
★3 (second term, 3-0-3). Processes used in food preservation. Dehydration, refrigeration and freezing, sterilization and canning, irradiation. Effect of processing on food properties. Prerequisite: FD SC 283.

FD SC 361 Food Microbiology
★3 (first term, 3-0-3). Environmental factors affecting the growth, activity and destruction of microorganisms in food. Sanitizing and disinfection. Food-borne infections and intoxications. Open only to students registered in the Faculties of Agriculture and Forestry or Home Economics; or students registered in Microbiology Specialization and Honors programs; or Medical Laboratory Science. Given concurrently with FD SC 363, not open to students with credit in FD SC 363. Prerequisite: MICRB 193.

FD SC 363 Food Microbiology
★3 (first term, 3-0-0). Environmental factors affecting the growth, activity and destruction of microorganisms in food. Sanitizing and disinfection. Food-borne infections and intoxications. Given concurrently with FD SC 361, not open to students with credit in FD SC 361. Prerequisite: MICRB 193.

FD SC 372 Food Chemistry I
★3 (first term, 3-1s-0). Chemistry and biochemistry of food constituents. Usually taken concurrently with FD SC 371. Prerequisite: CHEM 100 or 104; and 160 or 260.

FD SC 402 Brewing and Enology
★3 (second term, 3-1s-0). Biological, biochemical, chemical and technical aspects of malting, brewing, winemaking and allied industries. Offered in alternate years. Formerly called FD SC 502. Prerequisite: BIOCH 301 and MICRB 193.

DAIRY 403 Processing of Milk Products
★3 (first term, 3-1s-0). Principles and processes for fluid milk and fluid milk products, including cream, evaporated, dried and concentrated milk. Pasteurization, homogenization, membrane separation, UHT processes. Prerequisite: FD SC 361 and 372.

FD SC 404 Meat and Meat Products
★3 (second term, 3-0-3/2). Biological, biochemical, chemical, and technological aspects of the processing of meat and meat products. Offered in alternate years. Prerequisite: MICRB 101 or 193 and BIOCH 301.

FD SC 405 Processing and Storage of Vegetables
★3 (first term, 3-0-3/2). Biological, biochemical, chemical, and technological aspects of the processing of fruits and vegetables. Offered in alternate years. Prerequisite: Three units of course weight in introductory biochemistry.

FD SC 406 Processing and Storage of Cereals and Oilseeds
★3 (first term, 3-0-3/2). Biological, biochemical, chemical, and technological aspects of the processing of cereals and oilseeds. Offered in alternate years. Prerequisite: Three units of course weight in introductory biochemistry.

DAIRY 413 Processing of Dairy Products
★3 (second term, 3-0-3). Principles of manufacturing cheese, ice cream, fermented milk, butter. Prerequisite: DAIRY 403.

FD SC 455 Special Project/Research
★6 (0-1s-0;0-1s-10). Directed laboratory studies under supervision of staff members. Note: Primarily for senior specialization students. Prerequisite: Consent of department.

FD SC 472 Food Chemistry II
★3 (second term, 3-0-0). A continuation of FD SC 372. Prerequisite: FD SC 372.

204.31.7 Graduate Courses

THES 900 Thesis
THES 999 Thesis
FD SC 900 ★3 Directed Research Project

FD SC 554 Food Processing Project
★3 (either term, 1-0-5). Laboratory and pilot plant studies of selected food preservation techniques. Evaluation of effects of processing on food characteristics. Prerequisite: Consent of instructor.

FD SC 573 Food Analysis
★3 (second term, 3-0-3). Classical and modern methods for the chemical analysis of foods and food ingredients. Prerequisite: Consent of instructor.

FD SC 587 Food Engineering Laboratory
★3 (either term, 1-0-3). Experiments in Food Engineering. Prerequisite: Consent of instructor.

FD SC 588 Heat and Mass Transfer in Food Engineering
★3 (first term, 3-1s-0). Basic heat and mass transfer theories in solid and liquid foods. Application to selected unit operations. Prerequisite: Consent of instructor.

FD SC 600 Seminar
★1 (0-1s-0). Required during each year of all graduate students. A full-session course; may be offered over a single-term.

FD SC 601 Topics in Food Science
★1 (either term, 0-1s-0). A lecture and discussion course on topics of current interest in Food Science. Required each year of all graduate students.

FD SC 602 Advances in Food Science
★3 (either term, 3-1s-0). A required course for Food Science graduate students that emphasizes current research developments in the principal disciplines; food

chemistry, food engineering, food processing, and food microbiology, with emphasis on food safety and government regulations. Prerequisite: Consent of department.

FD SC 660 Advanced Applied Microbiology
★3 (either term, 3-0-0). A lecture and discussion course on topics of current interest in applied microbiology with readings of original literature. Prerequisite: Consent of instructor.

204.31.8 Reserve List

The Department is unable to offer the following courses regularly. Students should consult the Department and/or the University timetable.

FD SC 566 Advanced Food Microbiology
★3 (second term, 1-0-4). Advanced techniques and recent developments in food microbiology. Emphasis on epidemiology, etiology and control of food and waterborne illness. Prerequisite: FD SC 361.

FD SC 586 Food Process Evaluation
★3 (first term, 3-3s-0). In-depth study of optimization and cost analysis of selected food processes. Prerequisite: Consent of instructor.

FD SC 671 Advanced Food Chemistry
★3 (either term, 3-0-0). Selected topics in food chemistry. Note: A student may obtain credit in this course more than once. Prerequisite: Consent of instructor.

204.32 Foods and Nutrition

Department of Foods and Nutrition
308 Home Economics Building
University of Alberta
Edmonton, Alberta T6G 2M8

204.32.1 General Information

The Department of Foods and Nutrition offers graduate work leading to the degree of MSc in foods, nutrition, and foods and nutrition.

The Foods and Nutrition Department encompasses excellent research facilities for the testing of sensory apsects of food, and for conducting human metabolism studies and small animal research. The facilities include food laboratories, a computerized sensory panel room, analytical laboratories, and a metabolic research unit. The laboratories are well-equipped with instrumentation for the evaluation of food quality and for biochemical assays and analyses. A food microbiological laboratory is fully accessible. The library facilities in all areas of specialization are excellent.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 560 where applicable (see §202.2.2). An applicant proceeding from either a three-year program in a related field or a four-year program in a different field may be admitted as a qualifying student.

Financial Assistance:

A number of teaching and research assistantships are available for well qualified applicants.

204.32.2 The Degree of MSc

Program Requirements:

In the Department of Foods and Nutrition there are four major areas of study:
1) Food: its quality and safety
2) Sensory methodology and taste perception studies
3) Nutrition and metabolism
4) Nutrition in health and disease

Other emphasis may be planned on an individual basis, depending on the interests and background of a student and the time and expertise of staff. Programs of study include course work (with a minimum of 18 units of course weight required), the evaluation of pertinent literature through written and oral presentations and the selection, planning, writing, and oral defence of a research problem.

There is a residence requirement of two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MSc will vary with the individual candidate; however, a minimum of two years is normally required.

204.32.3 Undergraduate Courses

The following table lists renumbered courses effective 1991-92:

Old	New
FDN 406	FDN 468
FDN 445	FDN 502
FDN 466	FDN 503

FD NU 427 Consumer Acceptance of Foods
★3 (first term, 3-0-3). Factors influencing consumer acceptance of foods with special reference to food safety, quality control, toxicological implications of intentional and incidental food additives and implications of product development for the consumer. Prerequisite: FD NU 320 and 321 or consent of instructor.

FD NU 429 Experimental Foods
★3 (first term, 3-0-3). Application of the experimental method to food problems. Sensory and objective evaluation of food properties. Development of an individual research problem. Prerequisite: FD NU 320 and 321 or consent of instructor.

FD NU 461 Foodservice Systems Management
★3 (second term, 3-0-4). Operational techniques and special problems encountered during the preparation and service of food in quantity, in both commercial operations and foodservice establishments. The laboratory sessions will provide experience in quantity food production. Prerequisite: FD NU 320 and FD NU 321.

FD NU 463 Foodservice Facilities: Planning and Design
★3 (first term, 3-0-0). The systems approach in planning foodservice facilities. The interrelationship between the scientific approach, the management approach and quantity food production technique in planning and designing foodservice systems. Prerequisite: FD NU 461.

FD NU 465 Nutrition
★3 (either term, 3-0-3). The principles of nutrition applied to feeding of individuals of various ages under normal conditions with emphasis on vitamins and minerals. Prerequisite: FD NU 364. For FD NU majors only.

FD NU 468 Clinical Dietetics
★3 (second term, 3-0-3). Basic principles of nutrition in clinical situations. The role of diet in the management of various diseases. The laboratory sessions include practical experience in interviewing patients. Prerequisite: FD NU 364. Corequisite: FD NU 465 or consent of instructor.

204.32.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis

FD NU 502 Coordinated Practical Program
★3 (second term, 0-1s-8). Supervised practical experience in selected areas of interest. Note: For senior foods and nutrition majors.

FD NU 503 Project Course
★3 (either term, 0-0-6). Advanced library and laboratory study with a written report on selected problems in human nutrition or foods. Prerequisite: Consent of instructor.

FD NU 504 Experimental Techniques
★3 (either term, 0-0-6). Application of chemical methods and bioassays to research in nutrition. Prerequisite: CHEM 212.

FD NU 506 Advanced Clinical Dietetics
★3 (first term, 3-0-3). The principles of diet therapy in selected areas of current interest. Emphasis on case studies, research and practical problems in diet therapy. Prerequisite: FD NU 468.

FD NU 507 Nutrition in the Community
★3 (second term, 3-0-3). Examination of nutrition problems in contemporary communities. The application of basic concepts of food and nutrition to community nutrition problems. Discussion of nutrition programs and resources. Prerequisite: FD NU 364 and 465.

FD NU 508 Advanced Nutrition
★3 (first term, 3-0-0). A lecture and reading course. Prerequisite: FD NU 364 and 465 or consent of instructor.

FD NU 509 Advanced Nutrition
★3 (second term, 3-0-0). A lecture and reading course. Prerequisite: FD NU 364 and 465 or consent of instructor.

FD NU 510 Food Safety and Hygiene
★3 (second term, 3-0-0). The rationale of Public Health, Consumer and Corporate Affairs and Food and Drug regulations related to Foods and Nutrition, with special emphasis on institution management. Care and handling of foods in the retail store, institution and the home. Prerequisite: FD SC 461 or consent of instructor.

FD NU 511 Advanced Foods
★3 (second term, 3-0-0). Quality characteristics of foods. Current scientific information about foods used in the home and institutions with emphasis on quality factors such as color, texture and flavor. Prerequisite: FD NU 320, 321, and BIOCH 301 or consent of instructor.

FD NU 512 Selected Topics: (In Foods and Nutrition)
★3 (either term, 3-0-0). Students may enroll in this course more than once provided that each time it is taken the topic is different.

FD NU 514 Current Issues in Foods and Nutrition I
★1 (either term, 0-1s-0). Prerequisite: Varies with offering. Note: The combination of all three of FD NU 514, 515, 516 constitutes the equivalent of a single term course of full weight.

FD NU 515 Current Issues in Foods and Nutrition II
★1 (either term, 0-1s-0). Prerequisite: Varies with offering. Note: The combination of all three FD NU 514, 515, 516 constitutes the equivalent of a single term course of full weight.

FD NU 516 Current Issues in Foods and Nutrition III
★1 (either term, 0-1s-0). Prerequisite: Varies with offering. Note: The combination of all three of FD NU 514, 515, 516 constitutes the equivalent of a single term course of full weight.

FD NU 600 Foods and Nutrition Seminar
★0 (0-1s-0). Required both terms of all graduate students.

FD NU 602 Research Project in Nutrition or Foods
★3 (either term, 0-0-6).

FD NU 603 Further Research in Nutrition or Foods
★3 (either term, 0-0-6).

Home Economics

H EC 500 Perspectives in Home Economics/Human Ecology
★3 (either term, 3-0-0). Historical and philosphical perspectives about the nature and purpose of home economics/human ecology; exploration of professional issues and alternative modes of professional practice. Restricted to Graduate students only.

H EC 501 Independent Project in Home Economics
★3 (either term, 0-0-6). Independent study of topics in home economics planned by the student in consultation with the instructor. Prerequisite: Graduate standing.

H EC 600 Home Economics Graduate Seminar
★1 (either term, 0-1s-0).Graduate students may register up to three times for a maximum of three credits.

204.33 Forest Science

Department of Forest Science
855 General Services Building
University of Alberta
Edmonton, Alberta T6G 2H1

204.33.1 General Information

The Department of Forest Science offers programs leading to the degrees of Master of Science and Doctor of Philosophy in forest science, as well as a specialization leading to the degree of Master of Science (wildland recreation).

Graduate studies in the Department of Forest Science encompass the broad spectrum of scientific and management applications inherent in wildland resources stewardship. Areas of interest include: forest resource management, forest measurements/biometrics, forest ecology, forest genetics, silviculture, forest biology, forest fire management, forest hydrology, forest harvesting/operations, and wildland recreation and interpretation, conservation biology, tree physiology, social forestry, protected area management, and wildlife management. Inquiries should be directed to the Chair, Department of Forest Science.

Prospective students should note that the forestry program is integrated within the Faculty of Agriculture and Forestry. Opportunities for graduate study are also available in such fields as wood utilization, forest operations, wildlife management, forest entomology, forest pathology, range management, forest economics, and forest soils, in cooperation with the Departments of Agricultural Engineering, Animal Science, Entomology, Plant Science, Rural Economy and Soil Science. Courses and programs of study offered through these departments are listed under their respective headings in this calendar. General inquiries should be sent to the appropriate department chair or to the Chair, Department of Forest Science.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution. However, the Department generally does not accept students with an overall GPA of less than 6.5 in their undergraduate years, with a 7.0 GPA in the last two years at the University of Alberta, or its equivalent. All applicants seeking admission to Forest Science whose native language is not English must obtain

a TOEFL score of 550 or an equivalent score on an approved English Language examination (see §202.2.2). Note: A BSc in forestry or its equivalent is the undergraduate degree normally required for admission; however, programs may be developed for applicants with other qualifications.

Financial Assistance:

Financial assistance is available for some students; assistance is awarded to applicants on the basis of merit.

204.33.2 The Degree of MSc

Program Requirements:

Course requirements for the MSc are based on the student's previous training and the anticipated needs in the student's area of specialization. Minimum requirements are 12 units of course weight acceptable for graduate credit. Courses may be drawn from those listed for the Department of Forest Science below, and from other departments within the University. Students in the MSc program also must participate in the forestry seminar (FOR 600) each year and must take an advanced statistics and/or experimental design course.

In addition, candidates for the degree of MSc must prepare an acceptable thesis presenting results of research conducted. Candidates will be examined orally on their thesis results by committees formed according to §203 of this Calendar.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

Normally, at least two academic years plus one summer of research are required to complete the MSc.

204.33.3 The Degree of PhD

Program Requirements:

Course requirements for the PhD will be based on the student's previous training and anticipated needs in the student's area of specialization, the total course load being at the discretion of the student's supervisory committee. There is no fixed minimum course requirement for students who hold a master's degree. Students entering the PhD program will be expected to complete at least 12 units of course weight that are acceptable for graduate credit.

Students in the PhD program must pass an oral candidacy exam, supervised by a committee formed according to Faculty of Graduate Studies and Research regulations. The exam is generally scheduled when course work has been completed.

All candidates for the PhD must prepare an acceptable thesis presenting the results of their research. Candidates will be examined orally on their thesis results by committees formed according to calendar §203.

No language other than English is required for the PhD.

The minimum residence requirements are three academic years of study and research for a student with a bachelor's degree, and two academic years of study and research for those with a master's degree.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of three years is normally required.

204.33.4 Undergraduate Courses

The following table lists renumbered undergraduate courses effective 1991-92:

Old	New	Old	New
FOR 411	FOR 433	FOR 450	FOR 350
FOR 412	FOR 439	FOR 451	FOR 405
FOR 415	FOR 420	FOR 452	FOR 450
FOR 417	FOR 427	FOR 454	FOR 401
FOR 422	FOR 490	INT D 470	INT D 460
FOR 427	FOR 421		

The following may be taken for graduate credit:

FOR 350 Forest and Range Hydrology
★3 (first term, 3-0-3). The role of forest and range vegetation in determining the hydrologic function of a watershed; natural storage phenomena of the forest and surface and ways it can be modified; field trips. Prerequisite: FOR 314.

FOR 401 Special Topics in Forest Resources
★3 (either term, 3-0-0). Studies in the multiple aspects of forest management, including wildlife, recreation, watershed, range and timber. Prerequisite: Consent of instructor.

FOR 405 Intermediate Forest Problems
★3 (either term, 0-3s-0). Individual study. Problems in specialized areas of forest science. Prerequisite: Consent of instructor.

FOR 410 Principles of Remote Sensing
★3 (first term, 3-0-3). Basic principles of spectral reflectance and emittance, and atmospheric effects as they apply to the acquisition and analysis of imagery; application to renewable resource inventory and management. Prerequisite: A 300-level course in at least one of the natural sciences. [Soil Science]

FOR 413 Integrated Wildland Resource Assessment
★3 (first term, 3-0-3). An examination of information requirements, inventory procedures, data storage and retrieval systems, and data use for integrated land use planning. Prerequisite: FOR 110.

FOR 420 Advanced Dendrology
★3 (second term, 3-0-0). Studies of woody plant vegetation of the world, especially temperate and boreal regions; evolution of, and genetic relationships among, tree and shrub genera and species; historical development of woody plant vegetation; optional field trip. Prerequisite: Consent of instructor. Offered alternate years.

FOREN 421 Simulation Methods in Forest Engineering
★3 (second term, 3-0-3). Continuous and discrete simulation methods applied to the study of processes in forest operations. Prerequisite: Introductory courses in computing science and calculus. Not open to students with credit in AG EN 421. [Agricultural Engineering]

FOR 421 Tree Physiology
★3 (first term, 3-0-3). Study of physiological processes of forest trees; relationship of environment and structure to function; emphases on growth processes, primary production processes, reproduction, dormancy; influence of silvicultural practices on growth and physiological processes. Prerequisite: Consent of instructor. Offered in alternate years.

FOR 427 Tree Seedling Production
★3 (second term, 3-0-3). Theory and current practice of the production of tree seedlings. Includes discussion of seed collection and handling, seedling ecophysiology in relation to the nursery environment, hardening and storage of container and bare root seedlings. Will include guest speakers and student seminars. Offered alternate years. Prerequisite: Consent of instructor.

FOR 430 Forest Resources Management I
★3 (second term, 3-0-3). Analytical techniques used by renewable resource managers for management of wildland areas for single or multiple outputs; problems of defining optimality when confronted with competing uses and multiple outputs. Prerequisite: CMPUT 251, FOR 210, and FOREC 345.

FOR 431 Forest Resources Management II
★3 (first term, 3-0-3). The use of simulation, mathematical programming, and systems analysis by resource managers as decision-making aids. Application of techniques covered in Forest Resources Management I to case study problems. Prerequisite: FOR 301, 321, and 430.

INT D 432 Forest Administration and Policy
★3 (second term, 2-1s-0). Analysis of how forest resources policies are developed, and criteria for evaluation. Historical review to illustrate how policies and programs evolved as they have. Review of current policy issues. Outline of principles of organization for resource administration. Lectures, student seminars and assigned reading. Prerequisite: Open only to students in final year of their programs. (Offered jointly by the Departments of Forest Science and Rural Economy.) [Forest Science]

FOR 433 Forest Growth and Yield Prediction
★3 (first term, 3-0-3). Selected topics in forest mensuration, regression analysis, growth and yield prediction. Sampling methods, growth models and data management. Prerequisite: FOR 210.

FOREN 435 Advanced Transportation of Forest Products
★3 (second term, 3-0-3). Advanced studies in the methods and systems of movement of wood and wood products. Equipment for primary and secondary transportation of timber. Planning and cost analysis of logging operations and equipment. Forest roads and bridges. Prerequisite: FOREN 335. (Offered jointly by the Departments of Agricultural Engineering and Forest Science.) [Forest Science]

FOR 439 Timber Management Planning
★3 (second term, 2-2s-2). Management of forests with fiber production as the primary objective: decision-making techniques; implementation and control of plans; and integration with other forest uses. Emphasis on timber harvest scheduling techniques. Prerequisite: FOR 430 and 431.

FOREC 445 Forest Production Economics
★3 (second term, 3-0-0). Production principles applied to the use of resources in forestry. Prerequisite: Consent of instructor; FOREC 345 recommended.

FOR 450 Forest Watershed Management
★3 (second term, 3-0-3). Principles and methods involved in managing forest and range land to obtain optimum production and regulation of water yields while maintaining soil stability; watershed management as a component of integrated forest resources management; field trips. Prerequisite: FOR 350. Offered in alternate years.

INT D 460 Heritage Interpretation Field Trip
★3 (either term, 0-2s-6). Extended field trip to examine comparatively the philosophies, approaches and applied methodologies of a diverse range of institutions and agencies engaged in the practice of heritage interpretation. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Forest Science and Recreation and Leisure Studies. [Forest Science]

FOR 462 Wildland Recreation Management
★3 (first term, 3-0-3). Principles and methods of management of National and Provincial Parks, and forest recreational systems; wilderness management; the integration of biological and sociological criteria in park and recreational management. Field trips. Prerequisite: FOR 260.

FOR 463 Wildland Recreation Planning
★3 (second term, 3-0-0). Survey of current principles and practices relevant to the planning of parks, wilderness areas and recreational environments in wildland settings. Emphasis on current case studies. Prerequisite: FOR 260 or 462.

FOR 464 Conservation and Management of Endangered Species
★3 (first term, 3-0-0). Theoretical and applied considerations for maintaining wildlife populations considered endangered, threatened or rare. Global, national and provincial strategies for species conservation. Contributary factors of declines, extinctions, and species recovery. Special reference to forestry practices that can be used to help maintain or improve populations of species of concern. Case studies and field trips. Prerequisite: One of FOR 260, AN SC 350, ZOOL 467.

INT D 467 Methods of Heritage Interpretation
★3 (either term, 3-3s-0). Application of principles of interpretation of natural and historic resources. Focus on management techniques and development of interpretative programs. Case studies and field trip. Prerequisite: Consent of instructor; INT D 466 recommended as complementary. (Offered jointly by the Departments of Forest Science and Recreation and Leisure Studies.) [Forest Science]

FOR 475 Vegetative Reclamation of Forest Lands in Alberta
★3 (second term, 3-0-3). Topics include reclamation legislation, environmental impact statements, and the resource development process in Alberta. Operational implementation of revegetation principles related to reclamation, reclamation machinery, including seed mixture design, ecology of reclamation plants, plant succession on reclaimed sites, and the restoration of native plant communities. Computer assisted retrieval of reclamation information is taught in lecture and lab. Lab exercises cover principles of plant establishment and identification of reclamation plant species. Prerequisite: A course in ecology, FOR 120, FOR 314, and CMPUT 251.

FOR 490 Forest Tree Improvement
★3 (second term, 3-0-3). Application of principles of inheritance as related to trees and in the management of forested lands; natural variation and ecological differentiation of woody plant populations; reproductive biology; methods of tree improvement. Prerequisite: Consent of instructor.

204.33.5 Graduate Courses

The following table lists renumbered graduate courses effective 1991-92:

Old	New	Old	New
FOR 500	FOR 610	FOR 522	FOR 590
FOR 503	FOR 501	FOR 525	FOR 502
FOR 517	FOR 523	FOR 526	FOR 522
FOR 520	FOR 503	FOR 590	FOR 690

THES 900 Thesis
THES 999 Thesis

FOR 501 Special Topics in Forestry
★3 (either term, 3-0-0). Prerequisite: Consent of instructor.

FOR 502 Problems in Forest Ecology
★3 (either term, 0-3s-0). Individual study. Directed study in forest ecology. Prerequisite: Consent of instructor.

FOR 503 Problems in Silviculture
★3 (either term, 0-3s-0). Individual study. Directed study in silviculture. Prerequisite: Consent of instructor.

FOR 522 Advanced Forest Ecology
★3 (first term, 3-0-0). Studies of the ecology of the major forested ecosystems of Canada, particularly composition,

physical and biological factors of importance, variability within regions, silvicultural techniques, management problems; limiting factors, productivity, special adaptations, role of man; term project required. Optional field trip. Prerequisite: Consent of instructor. Offered alternate years.

FOR 523 Advanced Silviculture
★3 (second term, 3-0-3). Various topics including forest tree nursery locations, cycles, stock, types, instrumentation requirements and problems; advanced aspects of silvicultural planning related to integrating silvicultural considerations into woods operations. Two or three field trips may be scheduled for weekends or lab time. Prerequisite: Consent of instructor.

FOR 535 Problems in Forest Resources Management
★3 (either term, 0-3s-0). Individual study. Directed study in forest resources management. Prerequisite: Consent of instructor.

FOR 545 Problems in Forest Fire
★3 (either term, 0-3s-0). Individual study. Directed study in forest fire. Prerequisite: Consent of instructor.

FOREC 545 Economics of Timber Utilization
★3 (second term, 3-0-0). Concerns introduction of wood processing industries into areas of predominantly old growth stock; optimum depletion rates and sustention of yield, development of infrastructure; siting mills; transportation and the pattern of development of wood processing industries; the role of the forest industries in regional development. Prerequisite: Consent of instructor; FOREC 445 recommended. [Rural Economy]

FOR 546 Advanced Fire Ecology
★3 (first term, 3-0-0). The role of fire as an abiotic input in wildland environments. Its effect on plant succession; primary producers, consumers, decomposers; from an autecological and synecological perspective. Prerequisite: Consent of instructor.

FOREN 550 Problems in Forest Engineering
★3 (either term, 3-0-0). Directed study in forest engineering, including forest harvesting, road location and construction. Prerequisite: Consent of instructor. (Offered jointly by the Departments of Agricultural Engineering and Forest Science.) [Forest Science]

FOR 555 Problems in Forest Hydrology
★3 (either term, 0-3s-0). Individual study. Directed study in forest hydrology. Prerequisite: Consent of instructor.

FOREN 560 Trends and Problems in Wood Science I
★3 (either term, 0-3s-0). Individual study. Directed study in wood technology and forest products. Prerequisite: Consent of instructor. [Agricultural Engineering]

FOREN 561 Trends and Problems in Wood Science II
★3 (either term, 0-3s-0). Individual study. Directed study in wood technology and forest products. Prerequisite: Consent of instructor. [Agricultural Engineering]

FOR 565 Problems in Forest Recreation
★3 (either term, 0-3s-0). Individual study. Directed study in forest recreation. Prerequisite: Consent of instructor.

FOR 590 Seminar in Tree Improvement
★3 (second term, 0-3s-0). Reports and discussion of current literature and advanced topics in forest genetics and tree improvement. Prerequisite: Graduate standing and consent of instructor; FOR 490 and GENET 197 recommended.

FOR 600 Forestry Seminar
★1.5 (either term, 0-2s-0). Reports by students, staff and visitors on studies of the literature, current research, and thesis projects. Required of all graduate students. Prerequisite: Consent of department.

FOR 601 Forest Biology
★3 (first term, 0-3s-0). Seminar presentations and discussions by students on the biology and environment of forest ecosystems. The objective of this course is to develop a broader and greater holistic understanding of the biota and physical environments of forest ecosystems. Course team taught by Department of Forest Science staff. Prerequisite: Consent of department.

FOR 602 Forest Resources Management
★3 (second term, 0-3s-0). Seminar presentations and discussions by students on the management of forest ecosystems for traditional and non-traditional values. The objective is to examine human, resource, economic, and policy problems of integrated forest management. Course team taught by Department of Forest Science staff. Prerequisite: Consent of department.

FOR 610 Research Methods in Forestry
★3 (second term, 3-2s-0). Use of the scientific method in forestry research, formulation of hypotheses, design of experiments, interpretation of data. Prerequisite: Consent of the instructor.

FOREN 650 Selected Topics in Forest Engineering
★3 (either term, 3-0-0). Individual study. (Offered jointly by the Departments of Agricultural Engineering and Forest Science.) [Forest Science]

FOREN 660 Selected Topics in Wood Science I
★3 (either term, 0-3s-0). Individual study. [Agricultural Engineering]

FOREN 661 Selected Topics in Wood Science II
★3 (either term, 0-3s-0). Individual study. [Agricultural Engineering]

FOR 690 Evaluation and Implications of Alternative Tree Improvement Strategies
★3 (either term, 0-3s-0). Analyses of various tree improvement strategies; modeling alternative at progressive steps in typical tree improvement programs. Modeling will include the biological and management/economic components. Students will develop a group model to assist in the analyses of alternatives. Seminar/discussion section with considerable outside-of-class work. Prerequisite: Consent of instructor.

204.34 Genetics

Department of Genetics
G216 Biological Sciences Building
University of Alberta
Edmonton, Alberta T6G 2E9

204.34.1 General Information

The Department of Genetics offers programs leading to the Master of Science and Doctor of Philosophy degrees.

Current research activities in the Department are in the areas of cytogenetics, developmental genetics, genetic recombination, molecular genetics, mutagenesis and plant genetics. There is some opportunity for research in conjunction with adjunct members of the Department. Eligible applicants will be admitted for graduate work only if facilities and supervision are available for the project they propose to undertake.

The Department houses a containment area for recombinant DNA research and ample facilities for plant rearing. The sixty-acre Ellerslie experimental station is about ten miles from campus.

Students should nominate their permanent supervisor as soon as possible. Potential applicants, applicants and newly admitted students are encouraged to contact possible supervisors at any time.

Upon arrival, all students are supervised by the Provisional Supervisory Committee (in conjunction with their supervisor, if known). Normally, students are released to the full supervision of their supervisor and a definitive supervisory committee after an assessment examination toward the end of their first year.

Inquiries should be directed to the Graduate Coordinator, Department of Genetics.

Entrance Requirements:

The Department generally does not accept students with less than an overall grade point average of 7.0 in their undergraduate years at the University of Alberta, or an equivalent qualification from a recognized institution. (It may help students from other universities to know that 7.5 is required for First Class Honors at the University.) A TOEFL score of 550 is required, where applicable (see §202.2.2).

Financial Assistance:

Financial assistance is available for some students; it is awarded to students able to teach undergraduate laboratory courses, and on the basis of academic merit. Students working within the Department may be eligible for NSERC and AHFMR graduate studentships.

204.34.2 The Degree of MSc

Program Requirements:

Students in the MSc program are required to produce a thesis and to register in GENET 601, GENET 602 and GENET 605 during each term of full-time attendance at the University. Additional course requirements are determined according to past training and anticipated needs. All candidates for the MSc are required to take an assessment examination toward the end of their first year.

Regardless of their source of support, MSc students are required to instruct the equivalent of two half-year laboratory sections during their program.

Students are required to present a thesis seminar prior to their final thesis defence.

No language other than English is required for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

A minimum of two years is normally required. The department generally considers that a satisfactory student should complete the MSc degree within a period of three years.

204.34.3 The Degree of PhD

Program Requirements:

Students in the PhD program are required to produce a thesis and to register in GENET 601, GENET 602 and GENET 605 during each term of full-time attendance at the University. Additional course requirements are determined according to past training and anticipated needs. Students in the program are required to take an assessment examination toward the end of their first year unless they have previously completed an MSc in the department.

Regardless of the source of support, PhD students are expected to instruct the equivalent of three half-year laboratory sections during their program.

Students are required to present a thesis seminar prior to their final thesis defence.

No language other than English is required for the degree of PhD.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

A minimum of three years is normally required. The department considers that a satisfactory student should complete the PhD degree within a period of five years.

204.34.4 Graduate Courses

Note: Not all courses are offered every year. The following may be taken for graduate credit:

THES 900 Thesis
THES 999 Thesis

GENET 300 Genome Organization
★3 (second term, 3-0-0). Prerequisite: GENET 2 (BIOCH 301 is recommended).

GENET 304 Gene Expression and its Regulation
★3 (second term, 3-0-0). Prerequisite: GENET 270.

GENET 308 Replication, Repair and Recombinatio
★3 (first term, 3-1s-0). Prerequisite: GENET 270. No This course is normally recommended for 4th y students.

GENET 312 Genetic Control of Development
★3 (first term, 3-1s-0). Prerequisite: GENET 275 a GENET 270.

GENET 315 Cytogenetics
★3 (first term, 3-1.5s-0). Prerequisite: GENET 275.

GENET 318 Human Genetics
★3 (second term, 3-1s-0). Prerequisite: GENET 275 a GENET 280.

GENET 364 Plant Genetics
★3 (first term, 3-0-0). Prerequisite: GENET 270.

GENET 371 Immunogenetics
★3 (first term, 3-0-0). Prerequisite: GENET 270 or 3 One course in Immunology is recommended.

GENET 381 Population Genetics
★3 (second term, 3-1s-0). Prerequisite: GENET 280.

GENET 390 Biochemical Genetics of Microorganisms
★3 (either term, 3-0-0). Prerequisite: GENET 270, BIO 301, MICRB 193.

GENET 406 Reading Project
★3 (either term, 3-0-0). Prerequisite: A 300-le Genetics course.

GENET 407 Research Project
★3 (either term, 0-0-6). Prerequisite: A 300-le Genetics course.

GENET 420 Research Techniques in Molecular Genetics
★6 (either term, 0-0-12). Prerequisite: GENET 300 a 304 and consent of department. Designed for und graduate and graduate students in Genetics progra and other programs with molecular biological orientati

GENET 421 Research Techniques in Classical and Molecular Cytogenetics
★6 (0-0-6). Prerequisite: GENET 315 and consent department.

GENET 530 Topics in Recombination and Repair
★3 (second term, 3-0-0). Prerequisite: GENET 308.

GENET 531 Current Topics in DNA Replication
★3 (second term, 3-0-0). Prerequisite: GENET 308 consent of department.

GENET 546 Current Topics in Molecular Genetics
★3 (second term, 3-0-0). Prerequisite: GENET 300.

GENET 581 Topics in Population Genetics
★3 (second term, 3-0-0). Prerequisite: GENET 381.

GENET 587 Genetics and Development
★3 (second term, 3-0-0). Prerequisite: GENET 312.

GENET 601 Genetics Seminars
★3 (either term, 0-0-6).

GENET 602 Advanced Perspective on Genetics
★3 (either term, 0-0-6).

GENET 605 Invited Speaker Seminar Series
★6 (0-1s-0).

204.35 Geography

Department of Geography
3-32 Tory Building
University of Alberta
Edmonton, Alberta T6G 2H4

204.35.1 General Information

The Department of Geography offers the degrees of Master of Arts, Master of Science and Doctor of Philosophy. In addition, the Department cooperates with the Departments of Civil Engineering and Geology in a joint program leading to the degree of MSc in geomorphology. Graduate work for each of these degrees includes presentation of an acceptable thesis. The Department will approve only thesis topics which lie within the research specialty of one or more of its staff members.

Facilities in the Department include: office space, a drafting room, photographic darkroom and equipment: a computer mapping laboratory provides access to a Sun 386i system networked to a variety of personal computers and a digitizing workstation, a complete image processing system, and a desktop map publishing system. A microcomputer lab houses 12 computers and is used as both a teaching laboratory and a general processing facility. Various equipment is available for research in cartography, biogeography, geomorphology, meteorology and hydrology. The Department houses the University map library and an extensive collection of air photos. Assistance is available from technical staff in computer programming, cartography and meteorology.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Financial Assistance:

A number of assistantships are available for qualified students, both through University funds and through research funds at the disposal of the Department.

204.35.2 The Degree of MA

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student; however, the MA program normally consists of 18 units of course weight and a thesis.

A reading knowledge of a foreign language is not a formal requirement, although candidates may be required to acquire a language skill if it is appropriate to their particular programs.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MA will vary with the individual candidate; however, a minimum of two years is normally required.

204.35.3 The Degree of MSc

Program Requirements:

The MSc program normally consists of 18 units of course weight taken for graduate credit and a thesis.

A reading knowledge of a foreign language is not a formal requirement, although candidates may be required to acquire a language skill if it is appropriate to their particular programs.

The minimum period of residence for the degree of MSc is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of two years is normally required.

204.35.4 The Degree of PhD

Program Requirements:

The PhD program normally consists of six units of course weight and the preparation and defence of a thesis on an approved topic. PhD candidates' programs will be prepared under the general regulations for that degree.

A reading knowledge of foreign languages is not a formal requirement, although candidates may be required to acquire language skills if these are appropriate to their particular programs.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of three years of study and research is normally required.

204.35.5 Graduate Courses

The following table lists renumbered courses effective 1991-92:

Old	New	Old	New
GEOG 431	GEOG 530	GEOG 435	GEOG 533
GEOG 432	GEOG 531	GEOG 440	GEOG 540
GEOG 434	GEOG 532	GEOG 447	GEOG 537

THES 900 Thesis
THES 999 Thesis

Geography

GEOG 425 Application of Quantitative Methods and Computer Programming in Geography
★3 (either term, 3-0-0). Corequisite: GEOG 420 and consent of department.

GEOG 452 Tundra Ecology/Biogeography
★3 (first term, 3-0-0). Prerequisite: BOT 230 or 231 or GEOG 331 or ZOOL 231.

GEOG 459 Seminar in International Development, Natural Resources and Environmental Hazards
★3 (either term, 3-0-0). Prerequisite: GEOG 439 and the consent of department.

GEOG 461 Research in Physical Geography I
★3 (either term, 3-0-0). Prerequisite: A 300-level Geography course.

GEOG 462 Research in Physical Geography II
★3 (either term, 3-0-0). Prerequisite: A 300-level Geography course.

INT D 464 Northern Studies
★3 (second term, 3-0-0). Prerequisite: GEOG 466 or ZOOL 466. Corequisite: GEOG 466 or ZOOL 366. (Offered by the Boreal Institute for Northern Studies and the Department of Geography.) [Geography]

GEOG 501 Air Photo Interpretation
★6 (3-0-3). Prerequisite: GEOG 217.

GEOG 502 Reading and Seminar Course I
★3 (either term, 0-3s-0).

GEOG 503 Reading and Seminar Course II
★3 (either term, 0-3s-0).

GEOG 505 Models of Public and Private Facility Location
★3 (either term, 3-0-0). Prerequisite: Consent of department.

GEOG 523 Geographic Theory
★3 (first term, 3-0-0). Prerequisite: Consent of the instructor.

GEOG 527 Geophotography
★3 (either term, 0-3s-0). Prerequisite: Consent of the instructor.

GEOG 530 Advanced Fluvial Geomorphology
★3 (either term, 3-0-0). The study of alluvial terrace development and alluvial stratigraphies in a variety of river and stream environments. Strong emphasis is placed on local fieldwork. Prerequisite: A 300-level Geography course. It is recommended that students audit GEOG 430 if it, or equivalent, has not been taken.

GEOG 531 Advanced Glacial Geomorphology
★3 (first term, 3-0-0). Selected aspects of alpine-glacier and ice-sheet landform developments. Strong emphasis is placed on fieldwork. Prerequisite: A 300-level Geography course.

GEOG 532 Periglacial Geomorphology
★3 (either term, 3-0-0). A study of cold-climate landforms and their genesis. Contemporary theories and studies of periglacial phenomena will be critically evaluated. Prerequisite: A 300-level Geography course.

GEOG 533 Advanced Climatology
★3 (first term, 3-0-0). A study of recent developments in climatology. Climate models and their use in examining past of future climates. Interactions between the atmosphere and terrestrial systems. Prerequisite: GEOG 334 and GEOG 433.

GEOG 537 Circumpolar Quaternary Environments
★3 (second term, 3-0-0). Past activity of high latitude ice sheets with particular emphasis on the development of field research conducted on northern mainland Canada and the adjacent Arctic islands. Similar research in Greenland, Spitzbergen and the USSR is also presented. The understanding of late Cenozoic environments is highly interdisciplinary and topics include: glacial and marine stratigraphy, glacio-isostasy, sea level fluctuations, biological refugia and theories of climatic change. The course is designed to provide a thorough understanding of environmental change in high latitudes and students from different disciplines are encouraged to participate. Prerequisite: GEOG 330 or GEOL 380 or 382.

GEOG 540 Advanced Topics in Geomorphology
★3 (second term, 3-0-0). Prerequisite: A 300-level course in geomorphology.

GEOG 550 Research in Regional Geography I
★3 (either term, 0-3s-0).

GEOG 552 Research in Human Geography I
★3 (either term, 0-3s-0).

GEOG 554 Advanced Population Geography
★3 (second term, 3-0-0). Prerequisite: GEOG 354 or consent of instructor.

GEOG 556 Research in Human Geography II
★3 (either term, 0-3s-0).

GEOG 557 Special Research Problems II
★3 (either term, 0-3s-0).

GEOG 561 Rural Development and Planning I
★3 (first term, 3-0-0). Prerequisite: GEOG 460.

GEOG 562 Rural Development and Planning II
★3 (second term, 3-0-0). Prerequisite: GEOG 460, 561.

GEOG 564 Research in Regional Geography II
★3 (either term, 0-3s-0).

GEOG 566 Geography of Outdoor Recreation
★3 (either term, 0-3s-0). Prerequisite: Consent of instructor.

GEOG 568 Water Resources I
★3 (first term, 3-0-0). Prerequisite: Consent of instructor.

GEOG 569 Water Resources II
★3 (second term, 3-0-0). Prerequisite: Consent of the instructor. GEOG 568 is not essential but is highly recommended.

GEOG 581 Physical Structure of the City
★3 (first term, 0-3s-0). Prerequisite: GEOG 481 or equivalent.

GEOG 582 Social Geography of the City
★3 (second term, 0-3s-0). Prerequisite: GEOG 481 or equivalent.

GEOG 588 Political Urban Geography
★3 (first term, 0-3s-0). Prerequisite: One of GEOG 470, 481, 389, or consent of department.

GEOG 589 Urban Land Use Planning
★3 (second term, 0-3s-0). Prerequisite: GEOG 389 or consent of the instructor.

GEOG 630 Advanced Research in Regional Geography I
★3 (either term, 3-0-0).

GEOG 631 Advanced Research in Physical Geography I
★3 (either term, 3-0-0).

GEOG 632 Advanced Research in Regional Geography II
★3 (either term, 3-0-0).

GEOG 633 Advanced Research in Physical Geography II
★3 (either term, 3-0-0).

GEOG 680 Advanced Research in Human Geography I
★3 (either term, 3-0-0).

GEOG 681 Advanced Research in Urban Geography I
★3 (either term, 3-0-0).

GEOG 682 Advanced Research in Human Geography II
★3 (either term, 3-0-0).

GEOG 683 Advanced Research in Urban Geography II
★3 (either term, 3-0-0).

GEOG 690 Seminar on Geographic Thought I
★3 (either term, 0-3s-0).

GEOG 691 Seminar on Geographic Thought II
★3 (either term, 0-3s-0).

GEOG 696 Special Problems I
★3 (either term, 3-0-0).

GEOG 697 Special Problems II
★3 (either term, 3-0-0).

Cartography

CART 445 Digital Remote Sensing
★3 (second term, 3-0-3). Prerequisite: CART 345 or FOR 410.

CART 465 Introduction to Geographic Information Systems
★3 (first term, 3-0-3). Prerequisite: CART 365 or equivalent; familiarity with a programming language, preferably Basic or Fortran.

CART 499 Senior Project in Geoprocessing
★6 (3-0-0). Prerequisite: CART 445 or CART 465.

CART 545 Advanced Techniques in Raster Mapping
★3 (first term, 3-0-0). Prerequisite: CART 445; familiarity with a programming language. Offered in alternate years.

CART 565 Techniques in GIS
★3 (second term, 3-0-0). Prerequisite: CART 465; familiarity with a programming language, preferably Fortran.

CART 585 Readings in Geoprocessing
★3 (either term, 3-0-0). Prerequisite: Consent of instructor.

CART 595 Research in Geoprocessing
★3 (either term, 3-0-0). Prerequisite: Consent of instructor.

CART 601 Advanced Cartography
★3, or ★6 (either term, 3-0-0).

204.36 Geology

Department of Geology
126 Earth Sciences Building
University of Alberta
Edmonton, Alberta T6G 2E3

204.36.1 General Information

The Department of Geology has research laboratories and instructional facilities for 70 resident graduate students proceeding to the MSc and PhD degrees.

The active research fields include mineralogy, igneous, sedimentary and metamorphic petrology, diagenesis, geochemistry, geochronology, isotope geology, metalliferous mineral deposits, volcanology, experimental petrology, sedimentology, stratigraphy, coal and petroleum geology, invertebrate and vertebrate paleontology, engineering geology, quaternary and glacial geology, geostatistics, hydrogeology, geotectonics and structural geology.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Financial Assistance:

In addition to scholarships administered by the University a number of graduate assistantships are awarded by the Department.

Inquiries should be made to the Graduate Adviser, Department of Geology. Telephone (403) 492-3265.

204.36.2 The Degree of MSc

Program Requirements:

Requirements for the degree include satisfactory completion of a thesis and at least nine units of course weight.

There is no language requirement for the degree of MSc.

The minimum period of residence is one to two academic years of full-time attendance at the University of Alberta.

Length of Program:

An MSc program should normally be completed in two academic years of work beyond a four-year Honors or Specialization degree from the University of Alberta, or an equivalent degree from another institution.

204.36.3 The Degree of PhD

Program Requirements:

The essential requirement for the degree of PhD is the planning, execution and reporting of high quality research. A candidacy examination is taken as soon as possible, normally eight to 12 months after admission to the program, in order to ensure that a student has the necessary knowledge, background and ability to complete a PhD thesis. Normally, before taking the candidacy examination a student will have credit in at least eight single-term courses beyond the four-year baccalaureate degree.

A knowledge of languages other than English may also be required.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The PhD program should normally be completed in three to four academic years of work beyond the MSc degree in geology.

204.36.4 The Postgraduate Diploma in Exploration Geology

The Department of Geology has a program of studies leading to the postgraduate diploma in exploration geology. The program is designed to meet the needs of (1) earth scientists wishing to switch into coal, mineral or petroleum exploration; (2) exploration geologists with several years of experience who want to bring themselves up to date; and (3) graduate geologists from overseas who, under the auspices of foreign aid, wish to become familiar with the latest developments in exploration geology.

Entrance Requirements:

Admission to the program requires some industrial experience as well as a four-year degree in geology, geophysics, or mineral engineering from the University of Alberta, or an equivalent qualification from another institution.

Program Requirements:

Each program is individually tailored to suit a candidate's academic background, experience and interests; however, each must contain at least 21 units of course weight in graduate courses. A thesis is not required. No languages other than English are required for the diploma.

There is no specified residence requirement.

Length of Program:

The requirements for the postgraduate diploma can normally be completed in two four-month terms.

204.36.5 Graduate Courses

The following table lists renumbered graduate courses effective 1990-91:

Old	New	Old	New
GEOL 601	GEOL 501	GEOL 640	GEOL 540
GEOL 607	GEOL 506	GEOL 644	GEOL 544
GEOL 612	GEOL 512	GEOL 649	GEOL 549
GEOL 613	GEOL 513	GEOL 650	GEOL 550
GEOL 621	GEOL 521	GEOL 651	GEOL 551
GEOL 622	GEOL 522	GEOL 652	GEOL 552
GEOL 623	GEOL 520	GEOL 654	GEOL 554
GEOL 624	GEOL 514	GEOL 655	GEOL 555
GEOL 625	GEOL 515	GEOL 660	GEOL 560
GEOL 626	GEOL 516	GEOL 670	GEOL 572
GEOL 627	GEOL 517	GEOL 680	GEOL 580
GEOL 628	GEOL 518	GEOL 683	GEOL 583
GEOL 630	GEOL 535	GEOL 684	GEOL 582
GEOL 632	GEOL 536	GEOL 685	GEOL 585
GEOL 633	GEOL 537	GEOL 686	GEOL 586
GEOL 639	GEOL 539	GEOL 687	GEOL 587

Graduate courses in the Department of Geology are divided into core courses, which are offered each year, and more specialized courses marked with a †, which are offered less frequently when the demand arises. Incoming students are expected to enrol in a required seminar and are strongly encouraged to enroll in the core courses offered in their subdivision of the department.

Core Courses

Mineralogy — Petrology — Geochemistry — Ore Deposits: GEOL 435, 549, 550, 551, 555.
Terrain Science: GEOL 501, 550, 582, 586, INT D 594.
Paleontology — Stratigraphy — Sediments — Coal — Petroleum: GEOL 522, 514, 515.

THES 900 Thesis
THES 999 Thesis

GEOL 421 Subsurface Geologic Methods
★3 (first term, 3-0-3). Methods of acquiring geologic data from beneath the surface by remote means: drilling, sampling, coring, logging; significance of geophysical techniques; presentation of subsurface information. Prerequisite: GEOL 323, 347, and 360.

GEOL 424 Petroleum Geology I
★3 (first term, 3-0-3). Origin and distribution of petroleum. Geochemistry and maturation of organic matter; microbiological and thermal degradation of hydrocarbons, conventional and unconventional source and reservc rocks; principles of primary and secondary migratio diagenesis of carbonate and clastic reservoir rocks, wi reference to seals and traps. Prerequisite: GEOL 346, 35

GEOL 425 Petroleum Geology II
★3 (second term, 3-0-2). Basin analysis, Trap type tectonic, structural, stratigraphic, sedimentologi geothermal and hydrogeological characteristics petroliferous basins. Exploration and development hydrocarbon plays using seismic, core and wire lin logging, thin section petrography, correlation and ma ping, sequence stratigraphy, palinspastic an paleogeographic reconstruction. Prerequisite: GEOL 32 360, 421, 424, 442.

GEOL 426 Coal and Industrial Minerals
★3 (first term, 3-0-3). Composition and origin of coa diagenesis and metamorphism; macrolithotypes an macerals; coal analysis, classification and uses; co resources and reserves; occurrence, origin and use non-metalliferous industrial rocks and minerals. Prere uisite: GEOL 347, 360.

GEOL 427 Petroleum Hydrogeology
★3 (second term, 3-0-3). Principles of hydrogeolog subsurface hydrodynamics and basinal fluid flow; eval ation and interpretation of subsurface hydrodynam data of extended regions; hydraulics and hydrodynamic of petroleum entrapment; review of migration and acc mulation theories; hydrogeologic indicators of petroleu accumulations; field examples. Prerequisite: GEOL 42 GEOL 488 is recommended.

GEOL 428 Precambrian Geology
★3 (first term, 3-0-0). Precambrian geologic record wit special reference to the stratigraphy, structure, petro ogy, mineral deposits, geochronology and metamo phism of the Canadian Shield and Western Canadia Cordillera. Prerequisite: GEOL 323, 347.

GEOL 432 Metalliferous Mineral Deposits
★3 (first term, 3-0-3). An introduction to the geolog characteristics and distribution of the principal metalli erous mineral deposits. Prerequisite: GEOL 347, 360.

GEOL 433 Ore Petrology
★3 (second term, 3-0-0). Mineralogy and petrogenesis metalliferous deposits; mechanism of hydrothermal trans port and deposition; metamorphic and igneous processe of ore segregation and modification; application of isotop data to the study of ores. Prerequisite: GEOL 432.

GEOL 435 Rock-Forming Minerals
★3 (first term, 3-0-3). Structure, composition, optic and physical properties, phase relationships an paragenesis of some important rock-forming mineral and mineral groups. Prerequisite: GEOL 335 and a 30 level Geology course.

GEOL 442 Sedimentary Facies
★3 (first term, 3-0-3). Processes of clastic and chemic sedimentation, and diagenesis; sedimentary environ ments and facies; laboratory techniques in the study sedimentary rocks. Prerequisite: GEOL 346, 347.

GEOL 443 Petrogenesis of Igneous and Metamorphic Rocks
★3 (second term, 3-0-3). Origin and formation igneous and metamorphic rocks in the light of fiel mineralogical, chemical and experimental evidenc Prerequisite: GEOL 347 and 352.

GEOL 454 Inorganic Geochemistry
★3 (second term, 3-0-3). Applications of geochemistr to rock- and ore-forming processes. Significance an use of minor elements and isotopes as geological trac ers. Prerequisite: GEOL 352.

†GEOL 463 Structural Geology II
★3 (second term, 3-0-3). Regional structural geology wit special emphasis on the Cordilleran, Innuitian, Appalachian Caledonian, and Alpine orogenic belts, analysis of strain computer-based procedures for determining the geometr of faults and folds. Prerequisite: GEOL 360.

GEOL 470 Geotectonics
★3 (first term, 3-0-0). Fundamentals of plate tectoni theory and the evolution of the Earth. Application plate tectonics to the theory of sedimentary basins an orogenic belts. Tectonics of western North America Prerequisite: GEOL 347, 360.

GEOL 488 Introduction to Hydrogeology
★3 (first term, 3-0-3). Occurrence, distribution, move ment and chemistry of groundwater as a function of th geological environment; groundwater as a geologic agent methods of collection, organization and use of hydrogeologi data; case histories. Prerequisite: MATH 115 and a 300 level course in Geology.

†GEOL 492 Photogeology and Remote Sensing
★3 (second term, 3-0-3). Application of aerial photo graphs to geological mapping and terrain analysis; inter pretation of geological structure and landforms; remot sensing in geology; sensor principles and capabilities analysis of imagery. Prerequisite: A 300-level Geolog course and consent of department.

GEOL 501 Environmental Geology
★3 (second term, 3-0-0).

GEOL 506 Geologic Research
★3 (either term, 0-0-8).

GEOL 512 Selected Topics in Paleontology
★3 (either term, 4-2s-0).

GEOL 513 Principles of Ichnology
★3 (first term, 3-0-0). Introduction to animal-sediment relationships in both modern and ancient environments; principles of classification and taxonomy, environmental significance of trace fossils in facies analysis. Prerequisite: GEOL 210 and 442.

GEOL 514 Process Sedimentology
★3 (second term, 3-0-0). Concepts and applications of process sedimentology with emphasis on shallow marine processes of sedimentation and facies relationships for modern and ancient continental margin depositional systems. Prerequisite: GEOL 442 or equivalent or consent of instructor.

†GEOL 515 Advanced Carbonate Sedimentology
★3 (3/2-0-0). Course will cover aspects of carbonate mineralogy, formation of carbonates, role of biological activity, classification of carbonates, depositional environments of carbonates, diagenesis (including dolomitization) and reefs. Practical part of course consists of a 10-day field trip in an area of modern carbonate deposition.

GEOL 516 Fossil Energy Resources
★3 (either term, 0-3s-0).

GEOL 517 Selected Topics in Clay Geology
★3 (3/2-0-3/2). Structure and classification of clay minerals; identification and analysis of clay minerals, chemistry of clay minerals, geology of clays and clay minerals, isotope studies of clay minerals, clay minerals in reservoir engineering, oil sands and heavy oil deposits, research project in clay mineralogy. Prerequisite: Consent of instructor.

GEOL 518 Geology in Oil Sands Deposits
★3 (first term, 3-3s-0). Basic introduction to stratigraphy and sedimentation of Alberta oil sands deposits, with emphasis on sedimentary processes, facies analysis and environments of deposition. Introduction to basic petroleum geology, with emphasis on detailed geology of Alberta heavy oil deposits. Labs will include regional log correlations, core descriptions, sedimentary facies interpretations and analysis of tar sands. Prerequisite: Consent of department.

GEOL 520 Physical and Chemical Diagenesis of Sedimentary Rocks
★3 (second term, 3-0-0). An introduction to the physical, chemical and biological processes that cause changes in sediments or sedimentary rocks following deposition in water. The mineralogy and geochemistry of the products of diagenesis in clastic and carbonate rocks. Implications of diagenesis in petroleum geology, reservoir engineering, hydrogeology and other aspects of economic geology. Artificial diagenesis in heavy oil and oil sand deposits. Research techniques in diagenesis. Prerequisites or corequisites: GEOL 650 or consent of department.

GEOL 521 Sedimentary Dynamics
★3 (3/2-0-0). Sediment transport; bedform dynamics; origins of sedimentary structures, fabrics and textures; hydraulics of sedimentation. Prerequisite: GEOL 442 or consent of the instructor.

GEOL 522 Historical Geology Seminar
★3 (0-1s/2-0). Selected topics in historical geology and stratigraphy. Prerequisite: GEOL 323.

GEOL 535 Selected Topics in Mineralogy
★3 (either term, 0-3s-0).

GEOL 536 Advanced Ore Petrogenesis
★3 (second term, 0-3s-0).

GEOL 537 Economic Geology
★3 (second term, 3-0-0). The economics of exploration and exploitation with respect to metalliferous raw materials. Exploration logistics and planning. Property evaluation. Drilling and sampling techniques. Reserve and grade estimation.

GEOL 539 Theory and Practice of Electron Microbeam Analysis
★3 (first term, 3-0-3). Instrumentation, theory and applications in the Earth Sciences, with particular reference to electron microprobe analysis.

†GEOL 540 Chemical Petrology
★3 (second term, 2-2s-0). Advanced chemical petrology of either igneous or metamorphic rocks.

GEOL 544 Selected Topics in Petrology
★3 (either term, 0-3s-0).

GEOL 549 Mineralogy—Petrology—Geochemistry Seminar
★3 (either term, 0-3s-0). Selected topics in mineralogy, petrology and geochemistry presented and discussed by students and staff.

GEOL 550 Low Temperature Geochemistry
★3 (first term, 3-0-0). Theories of transport in geological systems with a description of the major physical, chemical and biological processes. Equilibrium and non-equilibrium fluid-rock interactions with emphasis on solubility relationships, carbonate equilibria, ion complexes, and clay-dominated systems. Characterization of low temperature environments. Eh-pH diagrams, and sampling and analyses of fluids. Prerequisite: GEOL 352 or equivalent.

GEOL 551 High Temperature Geochemistry
★3 (either term, 3-0-0). Geometrical, thermodynamical and kinetical treatment of solid-liquid-gas equilibria and their application to metamorphic and igneous processes. Properties of silicate melts, crystallization, element partitioning, solutions. Geothermometry and geobarometry. Isotopes as tracers in petrogenesis. Prerequisite: GEOL 352 and 443 or equivalent.

†GEOL 552 Advanced Geochemistry
★3 (second term, 3-2s-0). Special topics in inorganic geochemistry and isotope geology, with particular reference to the mantle and the evolution of the crust. Prerequisite: GEOL 551 or consent of the instructor.

GEOL 554 Isotope Geology: Radioactive Systems
★3 (first term, 3-0-0). Theory and systematics of radioactive decay, geochronology using K-Ar, Rb-Sr, U-Pb, Pb-Pb, Fission track; carbon-14, U-series disequilibrium and Sm-Nd systems; applications of natural radioactive isotope variation to geologic problems such as basalt genesis, formation of the crust, calibration of the Phanerozoic time scale and the nature of meteorites. Prerequisite: GEOL 352 or equivalent.

GEOL 555 Isotope Geology: Stable Isotope
★3 (second term, 3-0-0). Theory of light isotope fractionation, D and ^{18}O fractionation in the hydrologic cycle; carbonate paleothermometry; δD and $\delta^{18}O$ variation in igneous metamorphic and sedimentary rocks; δS^{34}, δD and δD^{18} variations in ore deposits; Biogeochemistry. Prerequisite: GEOL 352 or equivalent.

GEOL 560 Selected Topics in Structural Geology
★3 (second term, 3-0-0). Special topics in structural geology, from mesoscopic strain and kinematic indicators to orogenic belts; terrane analysis and comparative tectonics, with emphasis on the contribution of North American Phanerozoic orogens to current theory; lectures by instructor, and student research and seminar presentations. Prerequisite: Consent of department.

†GEOL 572 Geotectonics
★3 (first term, 3-0-0). Study of contemporary theory of global tectonics.

GEOL 580 Quantitative Geomorphology
★3 (second term, 3-0-3).

GEOL 582 Terrain Science Seminar
★3 (either term, 0-3s-0). Topics in terrain science to be discussed by students and staff.

†GEOL 583 Selected Topics in Quaternary Geology
★3 (second term, 0-3s-0). Prerequisite: INT D 594.

†GEOL 585 Contaminant Hydrology
★3 (second term, 3-0-3). Overview of contaminant hydrology with emphasis on the theory of contaminant migration and dispersion, field methodologies, and transport models. Exercises will involve problem solving and case histories. Prerequisite: GEOL 488 or consent of department.

†GEOL 586 Quantitative Hydrogeology
★3 (second term, 3-0-3). Detailed examination of the theory and application of computer modeling techniques. Finite difference, integrated finite difference and finite element techniques as applied to groundwater flow. Familiarization with computer codes and problem solving. Prerequisite: GEOL 588 or consent of Department.

GEOL 587 Regional Groundwater Flow
★3 (second term, 1-3s-0). Principles of regional groundwater flow. Basinal flow as a geologic agent. Implications regarding hydrology, geomorphology, geothermics, pedology, soil mechanics, mineral deposits, petroleum geology and so on. Introductory lectures by instructor followed by students' seminar presentations. Prerequisite: GEOL 488 or equivalent.

204.37 Geophysics

The Department of Physics offers programs leading to the MSc and PhD degrees with specialization in solid earth physics and space physics. See §204.66.1 for a more detailed description of the courses and the program.

204.37.1 Graduate Courses

The Department of Physics offers programs leading to the MSc and PhD degrees with specialization in solid earth physics and space physics. See §204.66 for a more detailed description of the courses and the programs.

THES 900 Thesis
THES 999 Thesis

GEOPH 421 Seismology and Physical Structure of the Earth
★3 (second term, 3-0-0). Seismology; Infinitesimal strain theory; elastic stress and moduli of elasticity; plane waves in isotropic layered media; imperfectly elastic media; earthquake mechanisms. Physical structure of the earth; seismometers. Prerequisite: MATH 300 or 437.

GEOPH 424 Electromagnetic and Potential Methods of Exploration
★3 (second term, 3-0-0). Theory and application of Maxwell's equations. Potential theory as applied to gravity, magnetic and electrical studies. Interpretation of field data. Direct and indirect methods of inversion to obtain model structures. Prerequisite: GEOPH 325 or consent of department, and MATH 300 or 437. Corequisite: GEOPH 428.

GEOPH 426 Time Series in Applied Seismology
★3 (first term, 3-0-0). Application of time series analyses to seismic data processing. Fast Fourier transforms; Z transformation, spectral analyses, band pass and velocity filtering, deconvolution, auto and cross correlation; analog to digital conversion, wave propagation in layered media. Prerequisite: GEOPH 326 or equivalent. Corequisite: GEOPH 428.

GEOPH 428 Application of Methods of Exploration Geophysics
★6 (0-0-6). A ten day field camp held before the beginning of the fall term provides data for interpretation during the fall and winter terms. Problems associated with the analysis of real data are discussed in a weekly seminar. Prerequisite: MATH 300. Note: Restricted to geophysics honors and specialization students.

GEOPH 429 Upper Atmosphere and Space Physics
★3 (second term, 3-0-0). Generation of the solar wind; the interplanetary plasma and field environment; the solar-terrestrial interaction; magnetospheric substorms; the aurora borealis; magnetosphere-ionosphere interactions; effects of magnetospheric storms on man-made systems; use of natural electromagnetic fields for geophysical exploration. Prerequisite or corequisite: PHYS 382.

GEOPH 620 Geodynamics
★3 (either term, 3-0-0). To include emphasis on: I: paleomagnetism; II: rheology; III: tectonic theories; IV: heat flow; or V: elastodynamics.

GEOPH 621 Geomagnetism I or II
★3 (either term, 3-0-0).

GEOPH 623 Time Sequence Analysis
★3 (first term, 3-0-0).

GEOPH 624 Theoretical Seismology I or II
★3 (second term, 3-0-0).

GEOPH 625 The Physics of In-situ Heavy Oil Recovery
★3 (either term, 3-0-0).

GEOPH 626 I: Isotopic Studies of Stable and Radiogenic Elements; II: Mass Spectroscopy — Instumentation and Techniques
★3 (either term, 3-0-0).

GEOPH 628 Topics in Solar-terrestrial Relationships I or II
★3 (either term, 3-0-0).

GEOPH 631 Advanced Topics in Plasma and Space Physics I or II
★3 (either term, 3-0-0).

204.38 Germanic Languages

Department of Germanic Languages
300 Arts Building
University of Alberta
Edmonton, Alberta T6G 2E6

204.38.1 General Information

The Department of Germanic Languages offers graduate work leading to the MA and PhD degrees with a concentration in either German literature or Germanic linguistics and philology.

Among the areas for which the Department is especially qualified, through staff and library resources, to direct work leading to graduate degrees, are Germanic philology and linguistics, medieval literature, the age of Goethe, romanticism, and nineteenth and twentieth century literature. The University Library is especially rich in primary and secondary sources, including periodicals, of the post-naturalistic period; it is fortunate in having the Georg

Kaiser Collection which offers a rare opportunity for research into the life and work of this author, using photocopies of original material, much of which is still unpublished.

Entrance Requirements:

The minimum admission requirements are outlined under the appropriate degree headings below.

Financial Assistance:

Financial assistance is available in the form of fellowships and graduate assistantships.

For further information on graduate programs and financial assistance contact the Chair of the Department.

204.38.2 The Degree of MA

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2).

Program Requirements:

There are two routes leading to the MA degree: thesis-based and course-based.

The minimum period of residence for the thesis-based MA degree is one year of full-time attendance at the University of Alberta. There is no residence requirement for the course-based MA.

(1) **Thesis-based MA**

a. For students with a three-year BA, 36 to 48 units of course weight are required in a two-year program, the first of which is a qualifying year; for students with a four-year bachelor's degree, other than Honors German, 36 units of course weight are normally required in a two-year program; and for students with a BA Honors degree in German 18 units of course weight are required in a one-year program.

b. All candidates for the thesis-based MA must normally take GERM 411, GERM 593, and the non-credit course GERM 515, unless fulfillment of equivalent requirements can be demonstrated. Each program will be decided upon in consultation with the Department.

c. All candidates for the thesis-based MA are required to take a final oral examination, which is a defense of their thesis.

(2) **Course-based MA**

a. For students with a three-year BA, 42 to 54 units of course weight are required in a two-year program, the first of which is a qualifying year; for students with a four-year bachelor's degree other than Honors German, 42 units of course weight are normally required in a two-year program; and for students with a BA Honors degree in German 24 units of course weight are required in a one-year program.

b. In addition all candidates for the course-based MA must normally take GERM 531 and the non-credit course GERM 515, unless fulfillment of equivalent requirements can be demonstrated. Each program will be decided upon in consultation with the Department.

c. In addition, all candidates for the course-based MA are required to submit a directed research project (equivalent to six units of course weight) which will be evaluated by two readers on a pass/fail basis. Candidates are also required to give a presentation or lecture on their research project.

Length of Program:

Candidates will normally spend one year in a one-year MA program and two years in a two-year MA program in full-time study to complete the requirements for the degree.

204.38.3 The Degree of PhD

Entrance Requirements:

For admission as a provisional candidate for the PhD degree, in general, the University of Alberta MA in German or its equivalent (including Staatsexamen) will be required. Students with a course-based MA (non-thesis) degree will be required to write an extended term paper in one of their graduate courses during the first term of their first year of doctoral studies. Students must also demonstrate their proficiency in oral and written German. A minimum TOEFL score of 550 is required where applicable (see §202.2.2).

Program Requirements:

The requirements for the PhD degree are as follows:

(1) In addition to the requirements for the MA, candidates must complete the equivalent of 36 units of course weight. In each case, the student's program will be decided upon in consultation with the Department.

(2) Candidates must demonstrate reading proficiency in an approved language other than German or English.

(3) All candidates for the PhD must pass a candidacy examination, consisting of a written Departmental examination and a Faculty oral examination.

(4) A dissertation of publishable quality on an approved topic must be submitted by all candidates.

(5) Candidates must pass a final oral examination, which is a defense of the dissertation.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of three years is normally required.

204.38.4 Graduate Courses

The following list represents the graduate course and seminar offerings of the Department from which a selection will be made for a given year.

All registrations must be approved by the Department.

Courses and/or Seminars marked ★3 or ★6 carry a weight of either three or six depending on whether the length of the course and/or seminar is one or two terms.

German

THES 900 Thesis
THES 999 Thesis
GERM 900 ★6 Directed Research Project

GERM 500 Reading Course
★6 (3-0-0). This course is designed for graduate students who wish to satisfy the language requirement of their department. An intensive study of essential grammar, reading of graded texts, and translation of texts from the student's own field. Note: Not open to undergraduates.

GERM 511 Composition and Conversation
★3 (first term, 3-0-0).

GERM 512 Advanced Composition and Conversation
★3 (second term, 3-0-0).

GERM 515 Teaching Strategies for College and University Teachers
★0 (1-0-2).

GERM 520 Cultural and Political Topics in German Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 540 Old High German
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 550 Gothic
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 560 History of the German Language
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 580 Comparative Germanic Grammar
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 590 Old Saxon
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 593 Bibliography and Methods of Literary Scholarship
★3 (first term, 3-0-0).

GERM 603 Early Middle High German Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 604 Studies in Middle High German Lyric Verse
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 605 The Nibelungenlied
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 606 Hartmann von Aue
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 607 Wolfram von Eschenbach
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 609 Gottfried von Strassburg
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 611 Walther von der Vogelweide
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 612 Late Middle High German Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 613 Early New High German Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 615 Studies in Seventeenth-Century Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 616 Studies in Eighteenth-Century Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 617 Lessing
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 618 Enlightenment
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 619 Sturm und Drang
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 620 Classicism
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 622 Goethe
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 624 Schiller
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 625 Romanticism
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 626 Studies in the Literature of the Age of Goethe
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 633 Drama of the Nineteenth-Century
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 634 Prose of the Nineteenth-Century
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 635 Realism
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 637 Naturalism
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 639 Expressionism
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 645 Modern German Literature (up to 1945)
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 650 Contemporary German Literature (from 1945 to the Present)
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 655 Studies in German Poetry
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 665 Studies in the German Novel
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 675 Studies in the German Novelle
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 685 Studies in German Drama
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 696 Conference Course in Germanic Linguistics and Philology
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 697 Special Topics in Germanic Linguistics and Philology
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 698 Special Topics in German Literature
★3 (either term, 3-0-0) or ★6 (3-0-0).

GERM 699 Conference courses
★3 (either term, 3-0-0) or ★6 (3-0-0). Detailed study of an author, period, genre, or any literary problem not dealt with in the Honors or Graduate courses listed above. Designed to meet the needs of individual students.

Scandinavian

SCAND 550 Old Icelandic Philology
★6 (3-0-0).

204.39 Health Services Administration and Community Medicine

Department of Health Services Administration
and Community Medicine
13-103 Clinical Sciences Building
University of Alberta
Edmonton, Alberta T6G 2G3

204.39.1 General Information

The Department of Health Services Administration and Community Medicine offers a two-year program leading to the degree of Master of Health Services Administration and a one-year program leading to the postgraduate diploma in health services administration.

Students may select either a thesis-based or a course-based route to the degree of MHSA. The thesis-based option emphasizes the development of research and planning expertise relevant to efficient and effective delivery of health and social services. The course-based option emphasizes the development of administrative expertise relevant to programs and agencies in the health and social

ervices fields. The MHSA program is acceptable to the Council of the Royal College of Physicians and Surgeons of Canada as a portion of a specialty training program in Community Medicine.

Entrance Requirements:

The Department's minimum admission requirements are those set out as minimum acceptable standards by the Faculty of Graduate Studies and Research. These include a baccalaureate degree with a grade point average of at least 6.5 on the 9-point grading system in the work of the last two years of university education at the University of Alberta, or an equivalent qualification from another institution, and a TOEFL score of 550 where applicable (see §202.2.2).

The Department also requires:

1) three letters of reference;

2) Miller Analogies Test (MAT) results;

3) personal curriculum vitae (in addition to the vitae form attached to the application form), including copies of any relevant articles or student papers;

4) advice regarding any time limitation relating to the application (for example, notice to employer);

5) a statement of intent which includes the following information:

   a. why the student is interested in the Health Services Administration program;

   b. career plans upon completion of the program;

   c. a description of the student's employment experience relevant to health and social services administration, and;

   d. any additional information the student feels is pertinent and useful to the Selection Committee's consideration of the application;

6) in addition to the above, applicants for the Postgraduate Diploma Program must have had three year's experience in the health or welfare field;

7) applicants for the Postgraduate Diploma in Health Services Administration will be required to submit (in the letter of intent) the classes they plan to take, and to indicate the relevance of the proposed coursework to the applicant's career. This statement will be used in assessing the application and the acceptability of proposed exemptions or advanced credit.

Financial Assistance:

The University of Alberta Student Awards office can provide information concerning specific awards and scholarships for which graduate students in the Department are eligible to apply. Of particular interest are the Alberta Heritage Scholarships. Students may also be eligible for professional training grants or bursaries that are administered by various provincial departments of health or social services or both.

In addition, the Department of Health Services Administration and Community Medicine has a limited amount of student aid in the form of graduate assistantships which are awarded to candidates in September of each year.

If the thesis option is selected students may apply for a National Health Student Fellowship from the National Health Research and Development Program of Health and Welfare Canada and for Province of Alberta Graduate Scholarships.

Requests for further information and application forms should be forwarded to the Department of Health Services Administration and Community Medicine.

204.39.2 The Degree of MHSA

Program Requirements:

(1) **Qualifying year:** The details of a student's course requirements are determined by the faculty of the Department; consideration is given to the student's prior course work and experience as well as the student's career plans. The typical qualifying year course requirements are as follows:

Required:

H S A 400, 401, 420, 430, 431, 450, 470, and 499; plus one of: H S A 421, 513; plus two of: HSA 435, 460, 471;

Note: The department does not require Qualifying students to take courses listed above in which they have developed competence at least equal to the level offered in this program as judged by the instructor concerned.

(2) **Candidacy Year:** Requirements in the candidacy year will vary according to the student's interests and needs, as will the selection of either the thesis-based or course-based route. The focus and variety of course work must represent a logically coherent preparation in reference to the student's career interests, research plans, and the needs of the field.

Consideration may be given to modifications in the course work outlined below where special circumstances of prior education, work experience and/or career interests are present.

a. Thesis-based Route: In addition to the thesis, students must normally complete two pairs of courses from the following list, one pair of which must be H S A 530/531 or HSA 560/561: two pairs of H S A 510/610; 530/531; 535/610; 550/551; 560/561; 570/571; 600/601; and 520/610 (if available).

b. Course-based Route: Normally, students must complete one of the above pairs of courses plus:

   1) six units of course weight in additional, approved graduate level H S A courses (preferably a linear pair);

   2) 12 units of course weight in additional approved electives; six units of course weight must be graduate level courses; at least three units of course weight should be an H S A course;

   3) a Major Paper Project.

No language other than English is required for the degree of MHSA.

The minimum period of residence is two, four-month terms of full-time attendance at the University of Alberta. A part-time, course-based MHSA program is also offered (see §123.6.2).

Length of Program:

To complete degree requirements in the shortest possible time, students should expect to work on the major paper or thesis during the May to August period of the second year. All degree requirements must be completed within four years of the time when the student first registered as a candidate.

204.39.3 The Postgraduate Diploma in Health Services Administration

The purpose of the diploma is to provide high quality post-baccalaureate educational experience in health services administration to a larger number of health care personnel than is currently possible within the framework of the master's program. This course of studies will be of particular interest to health and welfare executives seeking mid-career educational opportunities.

Diploma students and graduates may apply for admission to the Master of Health Services Administration program and, if accepted, health services administration courses which have been completed with a grade of 6 or better may be credited towards the qualifying year of the master's degree. Diploma graduates can normally complete the master's program in one year. Any diploma student or graduate intending to apply for admission to the MHSA program must do so by December 1 of the preceding year in order that a placement for the field practicum (HSA 499) in the following summer can be arranged.

Requests for further information and application forms should be forwarded to the Department of Health Services Administration and Community Medicine.

Entrance Requirements:

To be admissible to the diploma program, the applicant must have had three years' experience in an administrative, clinical or research position in the health or welfare field and must meet all other departmental admission standards as set out in §204.39.1 above. Applicants are required to also submit a statement regarding why they wish to take the Diploma program, the classes they plan to take, and the relevance of the proposed coursework to their career.

Program Requirements:

(1) Required courses: Two (six units of course weight)

   a. HSA 400 Health and Welfare Delivery Systems

   b. HSA 401 Problems and Issues in Health and Welfare Delivery

(2) 24 units of course weight in elective courses at the 400-level or higher:

   a. At least 18 units of course weight in these electives are to be H S A courses at the 400-level or higher.

   b. Of the above 24 units of course weight, there shall normally be two linear pairs of courses. In addition to the apparent linear pairs of courses such as HSA 420/421 or 470/471, the following shall be considered to be linear: HSA 420/513, 450/460, and 435/535.

(3) Transfer Credit and Exemptions:

   a. Transfer credit can be recommended for any approved course provided it (a) was not taken for credit toward another earned degree or diploma, and (b) was taken for credit in the previous five years.

   b. A maximum of two exemptions will be allowed for prior equivalent HSA coursework.

   c. Within the above context, a minimum of 18 units of course weight in the Diploma Program, including courses for which transfer credit is granted, must be taken at the University of Alberta.

   d. Normally, only courses taken within the five years prior to admission to the postgraduate diploma program may be considered for credit toward diploma course requirements.

   e. Consideration may be given to modifications in the course work outlined above in exceptional circumstances of prior education, work experience, and/or career interest.

   f. No language other than English is required for the postgraduate diploma.

   g. There is no minimum period of residence.

Length of Program:

The diploma may be completed on a full-time or part-time basis, but must be finished within four academic years of initial registration. It can be completed in one academic year of full-time attendance.

204.39.4 The Joint PhD Program in Health Care Planning and Evaluation

The University of Alberta offers a doctoral program with a specialization in Health Care Planning and Evaluation jointly administered by the Department of Sociology and the Department of Health Services Administration and Community Medicine (see also §204.78.3). There is a possibility that joint programs may be arranged with other departments.

The doctoral program is designed to prepare teachers and researchers in health care planning and evaluation by providing an optimal combination of academic and practical experience. The PhD program will require two or three calendar years for completion, depending on the student's academic and practical experience.

Students interested in the joint doctoral program should contact the Department of Health Services Administration and Community Medicine.

204.39.5 Graduate Courses

Note: Courses marked with an astersik (*) may not be offered in a given year. Courses offered will be determined by student interest and available faculty resources.

THES 900 Thesis
THES 999 Thesis
H S A 900 ★6 Directed Research Project Preparation of a major research paper under faculty supervision.

H S A 400 Health and Welfare Delivery Systems
★3 (first term, 3-0-0). A review of the development of the Canadian health and welfare system and of its contemporary structure and functions.

H S A 401 Problems and Issues in Health and Welfare Delivery
★3 (second term, 3-0-0). An analysis of selected problems in the delivery of health and welfare services.

H S A 420 Structure and Process in Health and Welfare Service Agencies
★3 (first term, 3-0-0). An introduction to organizational theory and its application to the management of health and welfare agencies.

H S A 421 Management of Health and Welfare Service Agencies
★3 (second term, 3-0-0). Applications of social science theory and research findings to the administration of health and welfare agencies. Lectures and field projects.

H S A 430 Methods and Statistics in Health Services Administration I
★3 (first term, 3-0-0). An introduction to statistical models and research design as they relate to research and decision making in health service agencies.

H S A 431 Methods and Statistics in Health Services Administration II
★3 (second term, 3-0-0). An introduction to basic methodological procedures fundamental to research and decision making in health services administration.

H S A 435 Survey of Epidemiology
★3 (first term, 3-0-0). An introduction to the principles of epidemiology and the sources of data concerning the etiology and prevention of disease, with special reference to the planning of health programs.

H S A 450 Health Services Accounting and Finance
★3 (either term, 3-0-0). An introduction to managerial accounting with emphasis on understanding financial

statements and their interpretation. This course will include budgeting and other managerial control techniques in the health care field.

H S A 460 Information Systems and Data Management in Health Services Administration
★3 (either term, 3-0-0). Introduction to computer systems, data structure, and computer files; use of packaged programs for efficient file management and data analysis; issues in health information systems and problem oriented medical information systems; review of selected hospital and other health information systems.

H S A 470 Introductory Health Care Economics
★3 (first term, 3-0-0). An introductory survey of macroeconomic, microeconomic, and public finance models relevant to the health care field.

H S A 471 Application of Economic Principles to Health Services Administration
★3 (second term, 3-0-0). A survey of health care economic theory and empirical studies. Topics and areas covered include (a) demand, supply, and utilization; (b) production and costs; (c) resource allocation in health care labour markets; (d) selected facets of health care planning; and (e) benefit-cost analysis. The empirical studies examined in this course require an understanding of simple and multiple regression techniques.

H S A 499 Field Practicum
★6 (Intersession, May 1-Aug 31). A four month summer field experience practicum supervised by the faculty.

H S A 510 Ethical and Legal Issues in Health Services Administration
★3 (either term, 3-0-0). An examination of ethical and legal principles as they relate to health care with analysis of selected ethical and legal issues pertinent to health care administrators, researchers, and policy-makers.

H S A 513 Nursing Service Administration
★3 (second term, 3-0-0). Advanced analysis of major components in nursing service administration in diverse and rapidly changing health care systems, with particular emphasis on the changing role of chief nursing executives in health care agencies.

H S A 520 Advanced Topics in the Structure and Process of Health and Social Service Agencies
★3 (either term, 3-0-0). Topics in organizational theory related to health and social service agencies. Emphasis both on the evaluation of research findings and their application to management and policy. Prerequisite: H S A 420 or permission of instructor.†

H S A 530 Statistics for Health Services Administration
★3 (first term, 3-0-0). Intermediate level coverage of statistical methods for health services planning and research as applied to administrative planning, research, and problem solving in health service agencies. Prerequisite: H S A 431 or equivalent.

H S A 531 Research Methods in Health Services Administration
★3 (second term, 3-0-0). An overview of research needs, priorities, and approaches in health services planning and research. Emphasis on a practical, systematic and valid approach to improving the quality and quantity of health and welfare services. Prerequisite: H S A 530.

H S A 535 Problems and Issues in Epidemiology
★3 (second term, 3-0-0). Review and discussion of contemporary epidemiological problems from the viewpoint of multi-factorial etiology, and the application of epidemiological principles to the study of chronic disease and accidents.

H S A 550 Health Services Finance
★3 (first term, 3-0-0). Cost accounting and budget applications in health and welfare service agencies. Methods of formulating and implementing organization policy in the context of contemporary health and welfare financial structures and policies.

H S A 551 Problems and Issues in Health Services Finance
★3 (second term, 3-0-0). Critical analysis of selected issues and problems in health and welfare services finance.

H S A 560 Systems Analysis and Planning in Health Services Administration
★3 (first term, 3-0-0). Systems approach and management science, classification of patients and hospitals, hospital service population, survey designs and forecasting methods.

H S A 561 Operations Analysis and Planning in Health Services Administration
★3 (second term, 3-0-0). Operations research in the health care field: decision analysis, mathematical programming as applied to resource allocation and scheduling, elements of games theory as related to labour relations; queuing models and simulation techniques in planning and administration of health care delivery.

H S A 570 Health Care Economics
★3 (first term, 3-0-0). Methods of allocating resources to the health care sector of the economy. The role of individuals and organizations in the decision process.

H S A 571 Problems and Issues in Health Care Economics
★3 (second term, 3-0-0). Critical review and discussion of contemporary issues and problems in Canadian health care economics.

H S A 599 Research Practicum
★6 (Intersession, May 1 - Aug. 31). A four month research experience practicum supervised by the faculty.

H S A 600 Seminar on Policy and Planning Issues in Canadian Health and Social Services
★3 (first term, 0-3s-0). Canadian health and social service policy and planning issues are analyzed in an international context.

H S A 601 Project on Policy and Planning in Canadian Health and Social Services
★3 (second term, 0-3s-0). A field project devoted to the development of a long-term strategic plan for a health or social services agency.

H S A 610 Individual Directed Reading and Research
★3 (either term, 0-3s-0). Prerequisite: consent of department. May be repeated.†

204.39.6 Reserve List

The Department is unable to offer the following courses regularly. Students should consult the Department for further information.

H S A 300 Health Care in Modern Society
★3 (either term, 3-0-0). An introduction to the structure and functions of the modern health care system.†

H S A 310 Hospital Organization and Management
★3 (either term, 3-0-0). An introduction to the principles and problems of organization and management of the modern hospital.†

H S A 350 Accounting and Finance in Health Service Agencies
★3 (either term, 3-0-0). An introduction to the principles and methods of accounting and finance in health and welfare organizations.†

H S A 351 Managerial Accounting in Health Service Agencies
★3 (either term, 3-0-0). The utilization of accounting and financial data for optimizing the efficiency and effectiveness of health services.†

H S A 410 Hospital Organization and Management
★3 (second term, 3-0-0). The historical, contemporary, and emergent structure, functions, and problems of the hospital as a community health resource.†

H S A 411 Medical Care Administration
★3 (second term, 3-0-0). The development of modalities for the delivery of medical care and their contemporary and emergent structure, functions, and problems.†

H S A 412 Social Welfare Administration
★3 (second term, 3-0-0). An introduction to the structure and functions of social welfare programs.†

H S A 451 Application of Managerial Accounting to Health Service Agencies
★3 (second term, 3-0-0). A review of budgeting and cost control techniques in health and welfare service agencies.†

H S A 500 Advanced Problems in Health Care Delivery
★3 (first term, 3-0-0). Critical analysis of contemporary policy problems and emerging trends in the structure of the health and welfare delivery system in Canada.†

H S A 511 Special Seminar in Health Services Administration
★3 (second term, 0-3s-0). Selected topics in quantitative methods as applied to research in health services administration.†

H S A 521 Advanced Health Services Administration
★3 (second term, 3-0-0). A study of the application of principles and procedures reviewed in H S A 520 to problems of health service management.†

H S A 630 Quantitative Techniques in Health Services Planning and Evaluation I
★3 (first term, 3-0-0). The application of quantitative techniques to the planning and evaluation of health services with particular emphasis on intra-institutional problems.†

H S A 631 Quantitative Techniques in Health Services Planning and Evaluation II
★3 (second term, 3-0-0). Application of quantitative techniques to the planning and evaluation of health services with particular emphasis on inter-institutional and systematic problems.†

204.40 History

Department of History
2-28 Tory Building
University of Alberta
Edmonton, Alberta T6G 2H4

204.40.1 General Information

The Department of History offers instruction leadin to the degrees of Master of Arts and Doctor of Philosophy.

MA programs are offered in several fields of Africa Asian, British, Canadian, European, Latin American an United States history. PhD programs are offered in certai areas of these fields in which adequate library resource and supervision are available.

The application deadline for September admission i June 15. Applicants seeking assistantships are required t submit complete applications no later than April 1.

Entrance Requirements:

The Department's minimum admission requirement are an undergraduate degree with an average of 7.0 in th last two years of undergraduate work (or graduate work) a the University of Alberta, or an equivalent qualificatio from a recognized institution, and a TOEFL score of 58 where applicable (see §202.2.2).

All candidates for the MA and all provisional candidate for the PhD must demonstrate competence in reading language other than English by passing an examinatio administered by the Department. For all graduate student specializing in Canadian history the language must b French; the specific language requirement for others wi be decided in consultation with the student's supervisor. I addition, the Department expects every candidate for a advanced degree to be proficient in any language o languages necessary for carrying out the candidate's thesis research. A candidate for the MA must satisfy th language requirement before being permitted to procee to the thesis examination; a provisional candidate for th PhD must satisfy the language requirement before bein permitted to take the candidacy examination. Exemption from language examinations may be granted under certai specific conditions. Further details on languag requirements are found in the departmental brochur "Higher Degrees in History", available from the Departmen

Financial Assistance:

The Department annually appoints a number o graduate research and teaching assistants. Graduat students in history are also eligible for various Universi fellowships and bursaries. For details see the Award section of this Calendar.

Application forms, information about fellowships, bu saries, etc., may be obtained from the Chair, Graduat Studies Committee, Department of History.

204.40.2 The Degree of MA

Entrance Requirements:

A student holding a four-year Honors or special BA history from the University of Alberta, or a comparabl degree from another university, may be admitted to th status of candidate for the MA degree. A student wh lacks the above qualification, but who holds an acceptabl bachelor's degree (or its equivalent), may be admitted as qualifying graduate student; as such, the student will b expected to complete additional courses before proceedin to the MA program proper.

A student admitted as a qualifying graduate studen must normally take 30 units of course weight, at least 18 which are history courses, and must attain a grade poi average of 7.0, with no single grade below 6. The course will usually be senior undergraduate courses at the 300 400-level, chosen in consultation with the Chair of th Department's Graduate Studies Committee. Advancemen to candidacy status may be delayed until the student ha passed the language examination.

Program Requirements:

There are two programs available to the studen admitted to the MA in History. Either may be subsequent used as a qualification for application to the PhD program Students must declare which program they intend to follo at the beginning of their graduate studies. Any studen wishing to change their program must seek the approval the graduate committee. Such approval is not normally be expected without compelling reason.

(1) **Thesis MA**

A student entering this program must:

a. take and pass two of HIST 601 ★3, 603 ★3, 60 ★3, or 605 ★3 if the student does not alread have credit in an equivalent course or course acceptable to the Department.

b. take and pass HIST 609 ★3.

c. take and pass three additional 600-level ★3 courses. With the approval of the student's supervisor and the graduate committee arrangements may be made for the student to obtain credit for a maximum of six units of course weight in another department (excluding courses taken to achieve second language proficiency).

d. pass a language examination administered by the Department if this has not been already done.

e. write a thesis, the text of which should normally be not more than 100 pages in length.

The student should take two, and no more than three, units of course weight in the area of concentration most relevant to the student's thesis.

2) **Course-based MA**

A student entering this program must:

a. take and pass two of HIST 601 ★3, 603 ★3, 604 ★3, or 605 ★3 if the student does not already have credit in an equivalent course or courses acceptable to the Department.

b. take and pass an additional 18 units of course weight at the 600-level, no more than six of which may be from any one area of concentration. Arrangements may be made for the student to obtain credit for a maximum of six units of course weight in graduate courses in another department (excluding courses taken to achieve second-language proficiency).

c. pass a language examination administered by the Department if this has not already been done.

d. complete a research paper (HIST 900) equivalent to six units of course weight, which normally should not exceed 50 pages in length but which should reflect a significant use of primary research. The paper will be assessed by two readers normally from within the Department.

e. it is expected that this degree will be completed in one to two years and the Department will normally provide supervisory services for a maximum of two registrations in the project.

Successful completion of the MA program does not guarantee admission to the doctoral program. Students wishing to go on to a PhD must make formal application.

Additional information on language requirements for the degree of MA are outlined above, under "General Information."

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the MA will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of 12 months is normally required.

204.40.3 The Degree of PhD

Entrance Requirements:

A student proposing to enter a PhD program is expected to hold an acceptable MA degree or its equivalent. In exceptional cases a student admitted as a candidate for the MA may subsequently be permitted to enter the PhD program without writing a master's thesis.

Program Requirements:

All students proposing to proceed to the PhD are admitted initially as provisional candidates. A provisional candidate must:

(1) take and pass 12 units of course weight in 600-level history courses;

(2) take and pass two of History 601 ★3, 603 ★3, 604 ★3, 605 ★3 if the student does not hold credit in equivalent courses acceptable to the Department;

(3) pass a graduate language examination administered by the Department, if the student has not previously done so. In addition, the student may be required to pass a second language examination, but the Department never requires any student to pass examinations in more than two languages other than English;

(4) submit a thesis proposal of five to eight pages based on some preliminary research.

When a provisional candidate has completed the requirements outlined above (normally not later than 18 months after entering the program), the candidate will be expected to pass written comprehensive examinations in two fields. The comprehensive examination in each field will consist of two three-hour parts which must be written within five days of each other. One part will test the student's knowledge of the general field; the other will test the student's depth of knowledge in a special area of that field, defined in advance in consultation with the student's supervisory committee. These examinations are administered during two periods each year, in September or October and in March or April.

If the provisional PhD candidate passes written comprehensive examinations in both fields, the candidate will be permitted to proceed to the oral candidacy examination. The two written examinations and the oral examination must all be attempted within the space of one month. Upon successful completion of the oral examination, the student will be advanced to formal candidacy for the PhD.

A student who has been admitted to candidacy for the PhD may proceed to the degree by completing a thesis, the text of which should normally be not less than 250 nor more than 400 pages in length.

The minimum period of residence for the PhD is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken; however, four to six years are normally required.

204.40.4 Graduate Courses

Previous study in the area is prerequisite for each course.

THES 900 Thesis
THES 999 Thesis
HIST 900 ★6 Directed Research Project.

HIST 550 Advanced Topics in Historical Study
★3 (either term, 0-3s-0).

HIST 600 Conference Course
★6 (0-3s-0).

HIST 601 Philosophy of History and Methodology
★3 (either term, 0-3s-0).

HIST 603 History of Historical Writing
★3 (either term, 0-3s-0).

HIST 604 The Application of the Social Sciences to History
★3 (either term, 0-3s-0).

HIST 605 Topics in the Nature of Historical Controversy
★3 (either term, 0-3s-0).

HIST 607 Methods of Quantification for Historians
★6 (0-3s-0).

HIST 609 Directed Study
★3 (either term, 0-3s-0). This is a credit/fail course. Not open to students in the non-thesis program.

HIST 613 Selected Aspects of Later Medieval France
★3 (either term, 0-3s-0).

HIST 616 Power Politics in Germany and Its Neighboring States
★3 (either term, 0-3s-0).

HIST 618 French Revolutions, 1789-1871
★3 (either term, 0-3s-0).

HIST 619 France During the Second World War
★3 (either term, 0-3s-0).

HIST 620 Urbanization in Modern France
★3 (either term, 0-3s-0).

HIST 622 European International Relations Since 1870
★3 (either term, 0-3s-0).

HIST 630 Problems in Imperial Russian History
★3 (either term, 0-3s-0).

HIST 633 Socialism and Nationalism in Eastern Europe
★3 (either term, 0-3s-0).

HIST 640 Rural Society in Medieval England
★3 (either term, 0-3s-0).

HIST 643 The Institutional and Legal History of Early-Modern England
★3 (either term, 0-3s-0).

HIST 645 Britain: The First Industrial Nation
★3 (either term, 0-3s-0).

HIST 647 The Scottish Enlightenment
★3 (either term, 0-3s-0).

HIST 648 Revolution and Imperial Expansion in Hanoverian Britain
★3 (either term, 0-3s-0).

HIST 651 The History of the Development of American Indian Policy
★3 (either term, 0-3s-0).

HIST 655 Slavery and Anti-Slavery in the United States
★3 (either term, 0-3s-0).

HIST 659 American National Security Policy and Relations with Canada from the Second World War to the Cold War
★3 (either term, 0-3s-0).

HIST 663 Change and Continuity in the Pre-Settlement West
★3 (either term, 0-3s-0).

HIST 666 Social and Intellectual History of British North America
★3 (either term, 0-3s-0).

HIST 669 Topics in the History of Canadian Regionalism
★3 (either term, 0-3s-0).

HIST 671 Social Conditions and Social Welfare in Canada since 1867
★3 (either term, 0-3s-0).

HIST 674 Topics in the History of French Canada
★3 (either term, 0-3s-0).

HIST 676 Social and Cultural History of Canada Since 1918
★3 (either term, 0-3s-0).

HIST 678 History of Crime in Selected Western Societies Since 1500
★3 (either term, 0-3s-0).

HIST 681 Documentary Chinese for Historians
★6 (0-3s-0). Prerequisite: Previous training in the Chinese language and consent of department.

HIST 685 Tradition and Modernity in Asia
★3 (either term, 0-3s-0).

HIST 686 Peasant Movements in Asia
★3 (either term, 0-3s-0).

HIST 687 Modern Japan and the World
★3 (either term, 0-3s-0).

HIST 689 Documentary Japanese for Historians
★6 (0-3s-0). Prerequisite: Previous training in the Japanese language and consent of department.

HIST 691 Topics in Latin American History to 1850
★3 (either term, 0-3s-0).

HIST 692 Topics in Latin American History Since 1850
★3 (either term, 0-3s-0).

HIST 695 Slavery in Africa
★3 (either term, 0-3s-0).

HIST 699 Research Seminar
★3 (0-1.5s-0).

HIST 800 Conference Course
★6 (0-3s-0). Not open to graduate students in the Department of History.

HIST 850 Advanced Topics in Historical Study
★3 (either term, 0-3s-0). Not open to graduate or honors students in the Department of History.

204.41 Immunology

Department of Immunology
860 Medical Sciences Building
University of Alberta
Edmonton, Alberta T6G 2H7

204.41.1 General Information

The Department of Immunology offers programs leading to the degrees of Master of Science and Doctor of Philosophy. The latter is offered as part of the PhD in medical sciences interdisciplinary program (see §204.49). Both programs require course work, completion of a research project and preparation of a thesis.

The staff of the Department of Immunology is currently carrying out research in various aspects of cellular, molecular, reproductive and tumor immunology. These include Immunoregulation, T cell recognition, T cell activation and deletion, regulation of T cell receptor gene expression, bone marrow transplantation, autoimmune diabetes, heamotopoiesis, carbohydrate tumor antigens, immunoregulation in myeloma patients, transplantation (MHC) antigens, analysis of T cell receptor usage and immunodominant epitopes on protein antigens, signal transduction and adhesion molecules, cytokines and their role in immunoregulation, maternal-fetal interaction, macrophage production, and B cell activation.

The Department is well equipped with the modern facilities required for immunological research. These include facilities for tissue culture, radioactive, biohazard and biochemical work, computing facilities, and a departmental library. Various laboratories in the Department also use molecular cloning, peptide synthesis, high pressure liquid

chromatography, ultra-centrifuges, cell counters, X-ray radiation machine, fluorescence activated cell sorter, spectrophotometers, etc.

Prospective candidates should consult the Chair or the Graduate Coordinator for further information.

Entrance Requirements:

The Department generally does not accept students with less than an honors grade (7.0 at the University of Alberta) in their undergraduate degree, or an equivalent qualification from another recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2). GRE scores are also considered in some circumstances in addition to the above requirements.

Financial Assistance:

Students accepted into a graduate program are encouraged to apply for studentships through the Department to outside agencies such as the Medical Research Council, the Alberta Heritage Foundation for Medical Research, CIDA, the National Cancer Institute, etc. In addition, a very limited number of graduate assistantships are available from the Department.

204.41.2 The Degree of MSc

Program Requirements:

All graduate students must first register as MSc candidates. Course requirements depend on the area of specialization and the undergraduate background of the student; however, all students are required to take IMMUN 500 and 501 for credit. Neither of these two courses can be audited unless approved in writing by the Department Chair. Additional courses offered by this and other departments may be included in a student's program if the student's supervisory committee so desires. In addition, each student is required to present a research seminar and a presentation to the Journal Club, once each year, on topics of current scientific interest.

A candidate for the MSc degree must submit an acceptable thesis and defend it orally before a committee formed according to Faculty of Graduate Studies and Research guidelines.

No language other than English is required for the degree.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

Normally, a minimum of three years of study and research is required for the MSc degree.

204.41.3 The Degree of PhD

Program Requirements:

All graduate students in the Department of Immunology must first register as MSc candidates. At an appropriate time the student's supervisory committee will make recommendations to the Medical Sciences PhD Committee concerning the elevation of the candidate to the PhD program. Course requirements depend on the area of work and the academic background of the student. All students are usually required to take 15 units of course weight in graduate courses (400- or 500-level) for credit. Additional courses offered by this or other departments may be required if recommended by the Medical Sciences PhD Committee. All students must take IMMUN 500 and 501 for credit as part of their course work. None of these courses can be audited without the written permission of the Department Chair. In addition, each student is required to present, at least once each year, (a) a research seminar and (b) a discussion of research publications in the Journal Club on topics of current scientific interest.

A candidate for the PhD degree must submit an acceptable thesis and defend it orally before a committee formed according to Faculty of Graduate Studies and Research guidelines. The candidate will also be required to present a final seminar describing the candidate's research project to the Department.

There is no language requirement for the PhD.

The minimum period of residence is three academic years of full-time attendance at the University of Alberta.

Length of Program:

Normally, a minimum of four years of study and research are required for the PhD degree.

204.41.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis

IMMUN 500 Basic Immunological Principles
★3 (first term, 3-0-0). A survey course consisting of lectures based on original factual and theoretical literature. Topics include the origin of antibody diversity, receptors on B and T cells, humoral and cell-mediated immunity, activation of lymphocytes, cellular collaboration, positive and negative regulatory mechanisms in immunity, phylogeny and ontogeny, self tolerance, unresponsive states, major histocompatibility complex antigens, autoimmunity, transplantation, and immunogentics. Offered alternate years. Prerequisite: IMMUN 450 or consent of Department.

IMMUN 501 Current Concepts in Immunology
★3 (second term, 0-3s-0). Lecture and seminar course on three to four areas of immunology of current interest based on original literature. The course will emphasize interpretation of published evidence based on theoretical models in the literature and will involve student participation. Offered sequentially with IMMUN 500 in alternative years. Prerequisite: IMMUN 500 or consent of department.

IMMUN 502 Selected Topics in Immunology
★3 (either term, 2-1s-0). Lecture and Seminar course covering a particular area of Immunology in depth. Offered in alternate years. Prerequisite: IMMUN 500 or consent of Department.

204.42 Interdisciplinary Courses

Courses listed below are the joint concern of more than one department. Instruction will be offered by members of one or more departments or faculties listed. The department responsible is indicated. For additional information please consult this department or other participating departments.

INT D 407 Intermediary Metabolism
★3 (first term, 3-0-0). A detailed description of enzymatic reactions in biosynthetic pathways of carbohydrate, amino acid, vitamin and coenzyme metabolism, emphasizing interrelationships among microbial and animal cells. Offered in alternate years. Prerequisite: BIOCH 301 and MICRB 311. [Microbiology]

INT D 421 Peatlands
★3 (first term, 3-0-3). Climatic, geologic and hydrologic factors of peatland development; ecosystem dynamics of peat formation including flora and fauna, biogeochemical cycles, and energy fluxes; stratigraphy and evolution; classification; utilization in forestry, agriculture, horticulture and as fuel. Two one-day field trips on Saturdays. Offered in alternate years. Prerequisite: A 100-level or higher ecology course and a 300-level Soils course. (Offered jointly by the Departments of Botany and Soil Science.) [Soil Science]

INT D 443 The Soviet North and Siberia: Native Communities
★3 (either term, 3-0-0). The economy, political administration, and the social development of the native peoples of Siberia and the Soviet North. Prerequisite or corequisite: An area-related course in one of Geography, Political Science, Economics, or consent of department of Slavic and East European Studies. (Other participating units normally include the Departments of Anthropology, Economics, and Geography). [Slavic and East European Studies]. Note: This course will not fulfill the Language other than English requirement of the BA degree.

INT D 444 Ukraine
★3 (either term, 3-0-0). Major social, economic, political, and cultural trends in the Ukrainian SSR in the post-World War II period. Prerequisite or corequisite: An area-related three-weight course in one of geography, history, political science, or Ukrainian, or consent of department of Slavic and East European Studies. (Other participating unit normally includes the Department of History). [Slavic and East European Studies]. Note: This course will not fulfill the Language other than English requirement of the BA degree.

INT D 445 Poland
★3 (either term, 3-0-0). The political, social, economic, and cultural developments in post World War II Poland. Prerequisite: INT D 346, or POLSH 304, or equivalent, or demonstration to the Department of Slavic and East European Studies of sufficient background in the area. (Other participating units normally include the Departments of Economics, Fine Arts, Geography and Sociology). [Slavic and East European Studies]. Note: This course will not fulfill the Language other than English requirement of the BA degree.

INT D 447 Soviet Political Thought
★3 (either term, 3-0-0). Consideration of Russian and Soviet critical political thought, and current discussions in the USSR and abroad on a wide range of political topics, from the organizaitoh of state power, interpretations of the history of the USSR and its ideology, to people's rights and freedoms, to nationality issues, and other current political problems. Prerequisite: A course in the Soviet/Russian area, or permission of Instructor. Note: Not to be taken by students with credit in INT D 447 (Soviet Dissent). (Offered jointly by the Departments of Political Science and Slavic and East European Studies). [Slavic and East European Studies].

INT D 455 Molecular Plant Development
★3 (second term, 3-0-0). Recent advances in plan molecular biology will be introduced through a study c plant development at the molecular level. The cours will examine how developmental processes can be use as model systems to study gene expression in highe plants. Both developmental regulation and stress ir duced alteration of gene expression will be covere using specific examples. Prerequisite: BOT 382 or P SC 301. GENET 270 recommended. Offered in alternat years (Offered jointly by the Departments of Botany an Plant Science.) [Botany].

INT D 456 Rural Social Problems and Public Policy
★3 (either term, 3-0-0). Social problems in Canadia rural life; analysis of policy making processes related t these problems. Prerequisite: Consent of instructo INT D 356 recommended. (Offered jointly by the Depar ments of Rural Economy and Sociology.) [Rural Economy

INT D 458 Socioeconomic Development of Western Canadian Agriculture
★3 (first term, 3-0-0). The economic and social origins c Western Canadian agricultural development. A chrono logical examination of farm and political organization and other agrarian social movements influencing th farming sector. The growth of public policy and develop ment of the institutional framework supporting agriculture Discussion of past and present issues in Western Cana dian agricultural development, including such factors a land settlement, transportation and farming support services Prerequisite: R SOC 355, or one of SOC 100 or 300 (Offered jointly by the Departments of Rural Economy and Sociology.) [Rural Economy]

INT D 460 Heritage Interpretation Field Trip
★3 (either term, 0-2s-6). Extended field trip to examin comparatively the philosophies, approaches and applie methodologies of a diverse range of institutions an agencies engaged in the practice of heritage interpreta tion. Prerequisite: Consent of instructor. (Offered jointl by the Departments of Forest Science and Recreation and Leisure Studies. [Forest Science]

INT D 464 Northern Studies
★3 (second term, 3-0-0). An examination of curren environmental research in the Canadian North. Semi nars are presented by government and industry profes sionals engaged in various facets of northern research Prerequisite: GEOG 466 or ZOOL 466. Corequisite: GEOG 466 or ZOOL 366. (Offered by the Canadian Circumpolar Institute and the Department of Geogra phy.) [Geography]

INT D 465 Natural Resource Utilization
★3 (either term, 3-0-0). Economics of utilizing and conserving land, water and energy resources in Agricul ture and Forestry. Prerequisite: INT D 365. [Rural Economy

INT D 467 Methods of Heritage Interpretation
★3 (either term, 3-3s-0). Application of principles o interpretation of natural and historic resources. Focus on management techniques and development of inter pretative programs. Case studies and field trip. Prereq uisite: Consent of instructor; INT D 466 recommended as complementary. (Offered jointly by the Department of Forest Science and Recreation and Leisure Studies. [Forest Science]

INT D 468 Principles of International Humanitarian Law
★3 (either term, 3-0-0). Historical background; humani tarian intervention; human rights; law of war; interna tional criminal law. Prerequisite: Consent of Faculty o Law or Department of Political Science. [Political Science]

INT D 479 Honors Thesis
★3 (either term, 3-0-0). Directed Honors thesis re search. Note: Required of all BA (Honors) Students majoring in Slavic and East European Studies who are in their final year of study.

INT D 486 Livestock and Meat Marketing
★3 (second term, 3-0-1). Marketing problems, potentials and principles studied through in-depth analysis of the red meat industry. Prerequisite: AG EC 384. Note: Limited enrollment, preference given to fourth year agricultura students. (Offered jointly by the Departments of Rura Economy and Animal Science.) [Rural Economy]

INT D 499 Conference Course (Soviet Union and Eastern Europe)
★3, or ★6 (either term, 3-0-0). Seminar for advanced students in Slavic and East European Studies designed to introduce fundamental questions in the field. [Slavic and East European Studies]. Note: This course will not fulfill the Language other than English requirement of the BA degree.

INT D 510 Lipid and Lipoprotein Metabolism
★3 (second term, 3-0-0). An advanced course which focuses on the metabolism of lipids and lipoproteins in eucaryotic cells and animal systems. Topics to be covered include regulation of fatty acid, triacylglycerol, phospholipid, cholesterol, sphingolipid 4nd lipoprotein metabolism. In addition, the assembly of lipids and

oteins into membranes and lipoproteins, secretion of poproteins, the dynamics of lipoproteins in circulation d the role of lipids and lipoproteins in atherosclerosis ill be covered. Prerequisite: BIOCH 301 or equivalent. ffered in alternate years.

T D 540 Seminar on Comparative, Legal, onstitutional, and Federal Studies
6 (0-3s-0). Prerequisite: Consent of department. (Offered jointly by the Departments of History and Political cience.) [Political Science].

T D 543 Current Problems in Neuroendocrinology
3 (second term, 3-0-3). Discussion of selected topics neuroendocrinology. Credit for this course may be btained more than once. Offered alternate years. Prerequisite: ZOOL 343 or PHYSL 401.

T D 544 Physiology of Reproduction
3 (second term, 3-0-0). [Zoology]

T D 545 Physiology of Transport Systems
3 (second term, 3-1s-0). A consideration of trasnport echanisms primarily from the physiological rathern han biochemical viewpoint. Major models considered re the vertebrate erythrocyte and avariety of epithelia rom vertebrates and invertebrates. Designed for adanced undergraduate and graduate students. Offered n alternate years. Prerequisite: PHYSL 310 or 352 or OOL 241 or 242. [Physiology]

T D 546 East European and Soviet Studies
*6 (3-0-0). An interdisciplinary seminar. (Offered jointly by the Departments of Slavic and East European Studies, Comparative Literature, Economics, Geography, History, Political Science, Sociology.) [Slavic and East European Studies]. Note: This course will not fulfill the Language other than English requirement of the BA degree.

T D 551 Advanced Plant Biochemistry
*3 (second term, 3-0-0). Selected topics in plant metabolism, with particular emphasis on mitochondrial electron ransport, phosphorylation, and recent advances in carbon assimilation. Evaluation of current research and methods of investigation in these fields. Offered in alternate years. Prerequisite: Consent of instructor; BIOCH 301 or PL SC 331 and 432. (Offered jointly by the Departments of Botany and Plant Science.) [Plant Science]

T D 594 Quaternary Environments
*6 (3-0-0). A comprehensive survey of the Quaternary period; dating methods, paleoclimates, vertebrates, case studies in stratigraphy and paleoecology. Note: Not open to students with credit in ANTHR 594. Prerequisite: GEOL 492 or GEOG 432 or a related 400-level course in Anthropology, Botany, Geology, Zoology, Forest Science or Soil Science. (Offered jointly by the Departments of Anthropology and Geology). [Geology].

T D 653 Regionalism and Urban Planning
*3 (either term, 3-0-0).

204.43 Law

University of Alberta
Edmonton, Alberta T6G 2H5

204.43.1 General Information

The Faculty of Law offers programs of graduate study leading to a master's degree and a postgraduate diploma in laws. The Faculty also offers programs of joint study with the Faculty of Business leading to a combined MBA-LLB or MPM-LLB program.

Entrance Requirements:

The minimum admission requirements of the Faculty of Law are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 550 where applicable (see §202.2.2). Specific requirements are found below, under the appropriate degree heading.

Financial Assistance:

Financial assistance, including intersession term graduate fellowships, may be available to suitably qualified candidates. Such assistance will involve candidates in the performance of certain teaching or research duties in the Faculty of Law, although such duties will not impede candidates in the pursuit of their own studies.

The Honourable ND McDermid Graduate Scholarships in Law in the amount of $10,000 each are available to two graduate students based upon academic excellence and proven ability in their area of study.

In addition, the University of Alberta offers certain scholarships to candidates of sufficiently high academic merit.

Inquiries regarding programs, courses and financial assistance other than University scholarships should be made to the Director of Graduate Studies, Faculty of Law.

204.43.2 The Degree of LLM

Entrance Requirements:

Applicants for this program must hold the degree of LLB or its equivalent from this or some other university, of sufficient standard to satisfy the Graduate Studies Committee of the Faculty of Law that they will be capable of undertaking and profiting by the program.

Program Requirements:

All candidates must complete at least one academic year (ie., normally one academic session from September to May) in residence at the University. To obtain the degree of Master of Laws, candidates must submit and defend a thesis on a topic selected in consultation with the candidate's supervisor and with the approval of the Chair of Graduate Studies. In addition each candidate will attend courses throughout the academic session, the number and character of such courses to be determined in consultation with the Director. Candidates may select courses from a broad spectrum of legal subjects offered in the Faculty of Law, as well as relevant subjects in other faculties.

Length of Program:

The time required to complete the LLM will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of 12 months is required, and candidates must complete requirements within four years. Extensions may be granted in exceptional circumstances.

204.43.3 MBA-LLB Joint Program and MPM-LLB Joint Program

The Faculty of Business and the Faculty of Law offer a program of joint study which permits students to earn both the MBA and LLB degrees or the MPM and LLB degrees in four years.

Students in the first year of either the regular MBA or MPM program or the Faculty of Law, as well as new entrants, are eligible to apply for the joint program.

Entrance Requirements:

Each student must apply separately to the Faculty of Law and to the Faculty of Graduate Studies and Research (the latter for admission into the MBA or MPM program).

In addition, each student must apply to the combined program by completing a special MBA-LLB or MPM-LLB application form available from the Faculty of Law or the Faculty of Business.

Acceptance by the Faculty of Graduate Studies and Research (for admission into the MBA or MPM program) and by the Faculty of Law (for admission into the LLB program) separately, is a prerequisite to admission into the MBA-LLB or MPM-LLB program. Admission into each faculty will be determined by the same selection process and criteria as for other students. In addition, each student must be admitted into the combined program; in this case admission will be determined by a selection committee composed of representatives of the Faculty of Law and the Faculty of Business. Since this is a special program, particular attention in the selection process will be given to:

(i) a student's past academic achievement; and

(ii) the candidate's maturity, interest, and rationale on how such a combined program will enhance the candidate's career and professional skills.

Program Requirements:

Required courses depend on the area of specialization and the undergraduate background of the student. The Law portion of the program consists of approximately 75 hours of course work. In addition, candidates are required to complete course work in the Faculty of Business and to prepare a thesis or research project on an approved topic.

Except in special cases, no language other than English is required for the degree.

Length of Program:

The time required to complete the combined program will vary with the individual candidate; however, a minimum of four years is normally required.

204.43.4 Graduate Courses

Graduate Studies Seminar

During the first term beginning in September, LLM students will be enrolled in the graduate studies seminar. The seminar will provide an advanced analysis of different orientations to doctrinal, empirical, and fundamental research. It will provide the participans with an opportunity to study and respond to current debates about the nature of legal scholarship and to exchange ideas on their own developing theoretical and technical approaches to a legal topic.

Other Courses:

In addition to the Graduate Studies Seminar, students may take courses offered in the Faculty of Law, and related disciplines, which have been selected by a candidate in consultation with his or her supervisor, and which have the consent of the Director.

204.43.5 Postgraduate Diploma Program

The postgraduate diploma program offered by the Faculty of Law during the fall and winter terms may be of interest to members of Canadian law societies and other legally qualified persons.

The program was designed to provide an extensive exposure to a limited area of the law and to help prepare candidates as specialists in that area. The program will also provide candidates with an opportunity to become familiar with the most modern developments and to bring practitioners and other members of the legal profession up to date.

The following are the subject areas in which a diploma in law may be earned:

(1) criminal law
(2) land use planning
(3) the law of oil and gas
(4) international law
(5) public law
(6) the law of taxation
(7) antitrust and combines law
(8) labor law
(9) commercial law
(10) divorce and matrimonial causes
(11) constitutional law
(12) the law of torts
(13) health law

Inquiries regarding programs, courses and admissions should be made to the Faculty of Law.

Entrance Requirements

Applicants for the diploma program must hold the degree of LLB or its equivalent from an approved university and must have had a minimum of two years experience in the practice of law or in a related field. Admission to the program will be determined by the Faculty of Graduate Studies and Research in consultation with the Committee of Postgraduate Diploma Studies of the Faculty of Law.

Program Requirements:

The diploma program requires the satisfactory completion of a minimum of six units of course weight and a research paper, which must be of a calibre suitable for publication in a law journal. The six units of course weight will normally be single-term courses offered by the Faculty of Law, selected through consultation between the candidate and the Chair of the Postgraduate Diploma Studies Program. The courses normally should reflect a concentration in one area of the law.

Candidates for the postgraduate diploma will not normally be permitted to take courses they completed for the degree of LLB. This will apply to graduates of other universities as well as to graduates of the University of Alberta. With the permission of the Chair and Committee on the Postgraduate Diploma Program, however, a candidate may be permitted to take certain courses (e.g., taxation, land use planning) where the content has changed significantly since the candidate completed his or her LLB degree.

No language other than English is required for the diploma.

Length of Program:

The time required to complete the diploma program will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of one year is normally required, and candidates must complete all the requirements within four years.

204.44 Library and Information Studies

Faculty of Library and Information Studies
3-20 Rutherford South
University of Alberta
Edmonton, Alberta T6G 2J4

204.44.1 General Information

The Faculty of Library and Information Studies offers the Master of Library and Information Studies degree, and is the only such professional program in the prairie provinces. The MLIS program was accredited by the Committee on Accreditation of the American Library

Association in 1970, 1979, and again in 1986, and is recognized by the American and Canadian Library Associations.

As the first professional degree, the MLIS is a program designed to develop the knowledge, understanding, attitudes and skills that will prepare graduates for positions of responsibility in academic, public, school and special libraries and throughout the information industry.

The Faculty of Library and Information Studies maintains a Library/Laboratory which provides space for individual and small group study. The Library houses print and non-print materials reserved for specific courses of study, representative materials for children and young adults, library annual reports and selected index, acquisition, reference tools, and software.

The Lab also has a variety of computer terminals and microcomputers, which are available to faculty members and students for instruction, research and demonstration, using both the University's computing facilities and external databases. Access is provided to external services such as Dialog, Orbit, UTLAS, CAN/OLE, ENVOY, and others.

Entrance Requirements:

An applicant with a four-year undergraduate degree from the University of Alberta, or a comparable degree from another accredited university, who has obtained a minimum grade point average of 6.5 (or its equivalent) in the last two years of academic studies may be admitted as a Category B candidate for the MLIS degree. Applicants who lack these qualifications are advised to make up any deficiency in consultation with the Faculty of Library and Information Studies in order to be considered for admission as a candidate for the MLIS.

All non-Canadians for whom English is not the major language must write and pass satisfactorily either the Michigan English Language Assessment Battery (MELAB) or the Test of English as a Foreign Language (TOEFL), before formal admission is granted (see §202.2.2). The passing score for the MELAB is 90 and for the TOEFL is 600.

Applicants with degrees only from other countries may be required to take the Graduate Record Examination aptitude tests administered by the Educational Testing Service. Students should arrange for the testing agency to report results to the Faculty of Library and Information Studies, which will judge whether or not the results are satisfactory. Acceptable scores are 600 in the Verbal Section, 525 in the Quantitative Section, and 600 in the Analytical Section.

Preference is given to applicants who have had library experience under professional supervision before registration. Such experience tests a candidate's aptitude for library work and provides the candidate with some knowledge of library terminology and processes.

Applicants are judged not only on their academic record but also by their professional promise as indicated in three letters of reference. A personal interview, arranged at a time and place convenient to the applicant, may also be required.

The deadline for application to the Faculty of Library and Information Studies is June 15.

Financial Assistance:

Inquiries regarding program and course details, and financial assistance other than University scholarships should be made to the Dean of the Faculty of Library and Information Studies. Inquiries about University scholarships should be addressed to the Student Awards Office.

204.44.2 The Degree of MLIS

Program Requirements:

The minimum requirement for the MLIS degree is either 39 units of course weight in graduate courses and a thesis, or 48 units of course weight in graduate courses. Students may, with approval, include up to nine units of course weight offered by a Faculty other than the Faculty of Library and Information Studies.

The first term of study, during which 12 units of course weight in required courses are normally taken, must be spent in full-time attendance. A second term of full-time attendance, as defined by the Faculty of Graduate Studies and Research (being nine units of course weight), is required to complete the residence requirement.

Students who cannot enroll in at least nine units of course weight per term (full-time attendance), and whose employment relates directly to their academic studies, may petition the Faculty of Graduate Studies and Research to have the normal residence requirement waived. Petitions must be made through the Dean of the Faculty of Library and Information Studies.

Credit for courses taken elsewhere may be granted as transfer credit by the Dean of the Faculty of Graduate Studies and Research, on the recommendation of the Faculty of Library and Information Studies, provided that the courses have not been counted towards a previous degree or diploma. Students with a BLS degree (or its equivalent) from an accredited library school or its equivalent may be given credit for up to eight three-weight graduate courses.

Length of Program:

A full-time student who is registered for the MLIS program normally will be able to complete the degree requirements in two years. Students with a BLS degree should be able to complete the program work in one year.

204.44.3 Graduate Courses

All the following courses may not be offered each year. Interested students should contact the Faculty of Library and Information Studies for scheduling information. LIS 501, 502, 503 and 504 are prerequisites to the program as a whole.

THES 900 Thesis Topic to be approved by the Faculty of Library and Information Studies. Prerequisite: LIS 505, 597.

THES 999 Thesis Topic to be approved by the Faculty of Library and Information Studies. Prerequisite: LIS 505, 597.

LIS 900 ★3 Directed Research Project Topic to be approved by the Faculty of Library and Information Studies. Prerequisite: LIS 505.

LIS 412 Storytelling
★3 (either term, 3-0-0). To examine the past and present forms of storytelling, including the oral tradition, the function of the storyteller, the selection of material and the techniques of telling stories and listening to stories.

LIS 432 Survey of Children's Literature
★3 (either term, 3-0-0). A survey of literature for children from infancy through the elementary school years. The emphasis is on books currently read by children. Principles of evaluation, children's reading needs and interests, and current issues and trends will be examined. This course is not open to MLIS students.

LIS 501 Introduction to Library and Information Studies
★3 (first term, 3-1s-0). To provide an overview of the historical, current and potential roles of library and information professionals in western society. To introduce the study of environmental factors affecting library and information services. Economic, social, legal, political, technological and professional factors will be examined. Required course.

LIS 502 Organization of Knowledge and Information
★3 (first term, 3-1s-0). To introduce students to the organization of knowledge and information, including bibliographic control, classification, indexing and abstracting. Required course.

LIS 503 Library Materials and Information Services
★3 (first term, 3-1s-0). To understand the function of information services programs, to examine policies designed to build materials collections in support of such programs, and to become familiar with examples of major reference/information sources. Required course.

LIS 504 Management Principles for Library and Information Services
★3 (first term, 3-1s-0). To introduce principles of management applicable to the organization of library and information services. Required course.

LIS 505 Research Methods for Library and Information Studies
★3 (second term, 3-0-0). To develop an ability to understand the nature of research and its methodologies and techniques used in library and information studies. Required course.

LIS 506 Introduction to Automation and Bibliographic Information
★3 (second term, 3-0-1). To provide an introduction to, and an understanding of the general field of automation and its implications for library and information services. Required course.

LIS 511 Adult Materials
★3 (second term, 3-0-0). To develop an awareness of the recreational, educational and professional library and information needs of adults (including the less specialized needs of the high school, college and university communities), and of the materials available to meet the needs.

LIS 512 Information Resources in the Social Sciences
★3 (either term, 3-0-0). To understand the nature, function and communication patterns of the social sciences and to be able to select, organize and effectively use relevant information resources.

LIS 513 Resources in the Humanities and Fine Arts
★3 (second term, 0-3s-0). To examine and to develop an understanding of the nature of the humanities and fine arts, and of the types of library materials and information services necessary to support scholarship, research, and general information-seeking in these disciplines.

LIS 514 Scientific Information Resources
★3 (second term, 3-0-0). To introduce the nature of science and its information resources.

LIS 515 Survey of Materials for Young Adults
★3 (either term, 3-0-0). To survey print and non-print materials for young adults of junior and senior high school age. To examine young adults "reading interests and current trends and issues in young adults" literature.

LIS 516 Canadian Materials
★3 (second term, 3-0-0). To survey, analyze, and examine print and non-print materials available for building Canadiana collections, and to consider issues in the development of such collections.

LIS 517 Government Publications
★3 (either term, 3-0-0). To examine Canadian government publications and to investigate methods of control and dissemination as a model applicable to all political jurisdictions.

LIS 518 Information Materials for Children and Young Adults
★3 (first term, 3-0-0). To survey information materials that children and young adults use and the ways in which these materials are used. Prerequisite: Either LIS 432 or 515.

LIS 519 Introduction to Children's Literature
★3 (second term, 3-0-0). An introduction to literature for children from infancy through the elementary school years. Principles of evaluation and selection will be developed, and current issues and trends will be examined.

LIS 531 Collection Management
★3 (first term, 3-0-0). To develop an analytical approach to collection management including the acquisition, review and evaluation of collections.

LIS 532 Cataloguing and Classification
★3 (either term, 3-0-0). To prepare students to construct a catalogue and to describe and classify various forms of materials for either manual or computerized situations.

LIS 533 Advanced Cataloguing and Classification
★3 (second term, 3-0-0). To prepare students to specialize in cataloguing and classification work in a traditional or computerized setting. Prerequisite: LIS 532.

LIS 535 Indexing and Abstracting
★3 (either term, 3-0-0). To examine the principles and practice of indexing and abstracting in a traditional or computerized centre.

LIS 536 Advanced Information Services
★3 (either term, 3-0-0). To consider the varied means used to disseminate information, and to become familiar with more advanced types of information sources.

LIS 537 Management of Information Technology
★3 (first term, 3-0-1). To identify areas of library and information operations suitable for computer applications and to evaluate them critically. Emphasis on: microcomputer applications, information technology such as CD-ROM, software evaluation, and installation.

LIS 538 Automation in Libraries and Information Centres
★3 (first term, 3-0-1). To develop students' ability to design and implement typical automated procedures related to library and information studies. Includes computer programming, file organization, and data structures.

LIS 540 School Media Centres
★3 (either term, 3-0-0). To examine the concept and organization of media resource centres in elementary and secondary schools. Prerequisite: Teaching Certificate.

LIS 541 Public Libraries
★3 (second term, 3-0-0). To develop an understanding of public libraries and public library systems, their structure and management.

LIS 542 Academic Libraries
★3 (second term, 2-1s-0). To develop an understanding of the nature and functions of university, community college, and technical college libraries.

LIS 543 Special Libraries and Information Centres
★3 (second term, 3-0-0). To develop an understanding of the special libraries and information centres, their purpose, structure and management with an emphasis on service.

LIS 544 Special Collections Librarianship
★3 (second term, 3-0-0). To develop an understanding of the nature and importance of special collections in libraries, and to consider primary aspects of the administration of such collections.

LIS 545 Management of Human Resources in Library and Information Services
★3 (either term, 3-0-0). To introduce the field of personnel management as an area of critical importance.

LIS 546 Marketing Library and Information Services
★3 (either term, 3-0-0). To develop an understanding of the principles of marketing and public relations for nonprofit organizations with an emphasis on library and information services.

LIS 547 Financial Management of Library and Information Services
★3 (second term, 3-0-0). To provide the student with a

basic understanding of trends and issues in the financial management of libraries and information services as an integral part of the planning and political process.

LIS 548 Library Services to Children and Young People
★3 (second term, 0-0-0). To develop a knowledge of the principles and practices of programming library services for children and young adults. Prerequisite: One of LIS 432 or 515.

LIS 581 Bibliography: Systematic, Historical, Analytical and Descriptive
★3 (second term, 0-3s-0). To study the field of bibliography from intellectual to physical aspects affecting the transmission of the text. Prerequisite: LIS 586.

LIS 582 Contemporary Issues in Library and Information Studies
★3 (first term, 0-3s-0). To consider new and continuing topics of concern or debate in the library and information professions and how they influence information attitudes and programs.

LIS 583 Comparative Librarianship
★3 (first term, 0-3s-0). To develop an understanding of the nature of comparative librarianship as a discipline, and to enable the students to apply principles to practice.

LIS 584 Library and Information Systems and Networks
★3 (first term, 3-0-0). To develop a basic understanding of library cooperation and the management of systems and networks.

LIS 586 History of the Book
★3 (first term, 3-0-0). To describe the historical, esthetic and economic bases of the book and its role in the recording and preservation of information and ideas.

LIS 587 Library Buildings
★3 (first term, 3-0-0). To study various types of library building needs, the involvement of librarians and architects in the planning process, and various contemporary building styles.

LIS 588 Communications
★3 (second term, 3-0-0). To develop an understanding of the communication process and the role of librarians and information professionals.

LIS 591 Publishing
★3 (either term, 3-0-0). To examine the organized business of writing, manufacturing and marketing books and other media.

LIS 593 Archives Administration
★3 (either term, 3-0-2). To develop an understanding of archival records and their role in the preservation of information resources.

LIS 594 Records Management
★3 (either term, 3-1s-0). To develop an understanding of records management.

LIS 597 Advanced Research Methods for Library and Information Studies
★3 (first term, 0-3s-0). In-depth examination of research methodologies relevant to the field of library and information studies and to the research interests of students pursuing doctoral programs, thesis-route master's programs, and other advanced projects.

LIS 598 Special Topics
★3 (either term, 3-0-0). A current topic of significance to, or a special aspect of library and information studies may be examined as demand and resources permit.

LIS 599 Directed Study
★3 (either term, 0-3s-0). To assist students in further study of special topics and issues based on knowledge acquired in previous courses or on significant prior experience. Topic to be approved by the Faculty. Prerequisite: LIS 505.

204.44.4 Cognate Courses in Education

The following courses in the Elementary Education Department of the Faculty of Education are also available as part of the MLIS program:

ED ES 443 School Librarianship
★3 (first term, 3-0-0). Introduction to the philosophy and administration of school library programs. Prerequisite: Successful completion of practicum requirements or teaching experience.

ED ES 541 School Library Collection Development
★3 (either term, 3-0-0). Prerequisite: ED ES 443 or consent of department.

ED ES 543 School Library Programs
★3 (second term, 3-0-0). Focus on cooperative planning and implementation of school library programs. Prerequisite: ED ES 443 or consent of department.

ED ES 546 School Library Information Materials
★3 (either term, 3-0-0). Prerequisite or corequisite: ED ES 443 or consent of department.

ED ES 547 Organization of School Library Materials
★3 (either term, 3-0-2). Prerequisite or corequisite: ED ES 443 or consent of department.

ED ES 548 Directed Study in School Library Research
★3 (second term, 3-0-0). Prerequisite or corequisite: ED ES 443 and 543 or consent of department.

204.45 Linguistics

Department of Linguistics
4-32 Assiniboia Hall
University of Alberta
Edmonton, Alberta T6G 2E7

204.45.1 General Information

The Department of Linguistics offers graduate programs in linguistics leading to the degrees of Master of Science and Doctor of Philosophy. Candidates for either degree may specialize in experimental phonetics or psycholinguistics.

The Department maintains laboratory facilities and extensive instrumentation for a wide range of research in phonetics, psychoacoustics, and psycholinguistics.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 600 where applicable (see §202.2.2).

In addition, candidates must have completed, to the satisfaction of the Department, certain core courses in linguistics or their equivalents. Candidates who lack this preparation may expect to undertake a year of qualifying studies before being admitted to a degree program.

All graduate students are encouraged to develop special interests through attendance at the departmental research seminar and participation in departmental research.

Financial Assistance:

The Department offers a limited number of graduate assistantships. Graduate students are also eligible for various University fellowships, scholarships and bursaries.

Further information concerning programs in linguistics and financial aid may be obtained from the Chair of the Department.

204.45.2 The Degree of MSc

Program Requirements:

Two routes to the MSc are available: a thesis-based and a project-based route.

Requirements for the thesis-based MSc include a minimum of 21 units of course weight plus a thesis. Specific courses must be chosen in consultation with the student's supervisory committee. The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Requirements of the course-based MSc consist of a minimum of 27 units of course weight including four required courses (LING 601, 602, 603, 604) and a directed research project (LING 900). There is no residence requirement.

There is no language requirement for the degree of MSc.

Length of Program:

The time required to complete the MSc will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of two years should be expected.

204.45.3 The Degree of PhD

Program Requirements:

Requirements for the PhD include completion of the MSc degree in linguistics or its equivalent and a minimum of 21 units of course weight plus a thesis. Specific courses must be chosen in consultation with the student's supervisory committee. The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

There is no language requirement for the degree of PhD.

The minimum period of residence is two academic years of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the PhD will vary with the individual candidate; however, a minimum of two years should be expected.

204.45.4 Graduate Courses

THES 900 Thesis
THES 999 Thesis
LING 900 ★3 Directed Research Project

LING 601 Seminar in Phonology and Morphology
★3 (first term, 0-3s-0). Critical examination of selected theoretical issues and related experimental studies in phonology and morphology. Prerequisite: LING 410.

LING 602 Seminar in Syntax
★3 (second term, 0-3s-0). Current issues in functional and experimental syntax. Prerequisite: LING 409.

LING 603 Quantitative Methods in Linguistics
★3 (either term, 3-0-0). Analysis of variance and experimental design in relation to problems in experimental linguistics. Prerequisite: A course in elementary statistics or consent of department.

LING 604 Seminar in Psycholinguistics
★3 (either term, 3-0-0). A review of the broad range of current theories and research in psycholinguistics. Prerequisite: LING 400.

LING 605 Seminar in Experimental Phonetics
★3 (either term, 3-0-0). A survey of the present state of knowledge in speech production and perception. Prerequisite: LING 412.

LING 610 Formal Grammatical Theory
★3 (either term, 3-0-0). Current approaches in formal grammatical theory.

LING 611 Formal Phonological Theory
★3 (either term, 3-0-0). Current approaches in formal phonological theory.

LING 612 Advanced Quantitative Methods in Linguistics
★3 (either term, 3-0-0). Prerequisite: LING 603 or consent of department.

LING 614 Methods in Experimental Phonetics
★3 (either term, 0-1s-3). Theoretical and practical training in experimental phonetics. Emphasis on practical experience with on-going research. Prerequisite: LING 412.

LING 615 Methods in Experimental Psycholinguistics
★3 (either term, 0-1s-3). Theoretical and practical training in experimental psycholinguistics. (Emphasis on practical experience with on-going research). Note: This course should be taken late in the MSc program. Prerequisite: LING 603.

LING 616 Methods in Experimental Phonology
★3 (either term, 0-1s-3). Theoretical and practical training in experimental phonology. Emphasis on practical experience with on-going research. Prerequisite: LING 603.

LING 635 Topics in Psycholinguistics
★3 (either term, 3-0-0). Prerequisite: Consent of department.

LING 636 Analysis of Meaning
★3 (either term, 3-0-0). Prerequisite: Consent of department.

LING 637 Discourse Analysis
★3 (either term, 0-3s-0). An examination of a variety of topics in the area of discourse including discourse structure, pragmatics, discourse-conditioned grammatical alterations, and discourse models. Prerequisite: Consent of department.

LING 643 Language Acquisition
★3 (either term, 0-3s-0). Prerequisite: Consent of department.

LING 645 Linguistic Analysis of Aphasic Language
★3 (either term, 3-0-0). Prerequisite: Consent of department.

LING 647 Typology
★3 (either term, 3-0-0). Topics of current interest in typology. Prerequisite: LING 407 or equivalent.

LING 655 Instrumentation in Experimental Linguistics I
★3 (either term, 3-0-0). Prerequisite: LING 312/412, MATH 117/118 or consent of department.

LING 656 Instrumentation in Experimental Linguistics II
★3 (either term, 0-3s-0). Prerequisite: LING 655 or consent of department.

LING 667 Articulation Control Mechanisms
★3 (either term, 3-0-0). Prerequisite: LING 655/656 or consent of department.

LING 669 Speech Perception Mechanisms
★3 (either term, 3-0-0). Prerequisite: Consent of department.

LING 675 Foundations of Linguistic Theory
★3 (either term, 3-0-0). Prerequisite: Consent of department.

LING 683 Conference Course I
★3 (first term, 0-3s-0).

LING 684 Conference Course II
★3 (second term, 0-3s-0).

204.46 Mathematics

Department of Mathematics
632 Central Academic Building
University of Alberta
Edmonton, Alberta T6G 2G1

204.46.1 General Information

The Mathematics Department offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy in a number of fields including algebra, approximation theory, classical analysis, continuum mechanics, control theory, combinatorics and graph theory, harmonic analysis, optimization, ordinary and partial differential equations, functional analysis, number theory, relativity, topology, mathematical biology.

Entrance Requirements:

The Department generally does not accept students with an overall grade point average of less than 7.0 in their undergraduate years at the University of Alberta, or an equivalent qualification from another institution. Where applicable (see §202.2.2), a minimum TOEFL score of 575 is required for all graduate students with Teaching Assistantships. Otherwise, the minimum TOEFL score for graduate students without Teaching Assistantships is 550. Additional information on specific requirements for admission to the MSc and PhD programs is found below, under the respective degree headings.

Financial Assistance:

Graduate teaching assistantships are available for candidates working toward a higher degree. They involve at most 12 hours of work per week including teaching, class preparation and working time. All students whose native language is not English or who do not hold a degree from a Canadian, American, or other English-speaking university, will normally be required to take at least one English language course offered by the Faculty of Extension. Assistantships will normally be limited to five years for students in the PhD program and to three years for students in the MSc program. Research grant assistantships are also available.

Prospective graduate students should consult both the Chair of the Department and the staff member in charge of the field in which they are particularly interested.

204.46.2 The Degree of MSc

Entrance Requirements:

Candidates for the MSc must have an Honors degree or equivalent from a recognized university, with a strong background in mathematics. Candidates whose background in mathematics is deemed to be deficient will be required to register as qualifying students and take additional courses.

Program Requirements:

The minimum requirement for the MSc degree is either 18 units of course weight in graduate courses and a thesis, or 24 units of course weight in graduate courses and a project equivalent to six units of course weight. Approval of the Chair of the Mathematics Department is needed to take graduate courses that are not in mathematics.

There is no language requirement for the degree of MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The MSc program will normally be completed in 20 months; however, it can be done in a minimum of one year.

204.46.3 The Degree of PhD

Entrance Requirements:

To be admitted as a provisional candidate for the PhD a student must normally hold the equivalent of the MSc in mathematics from the University of Alberta.

Program Requirements:

In addition to the examinations called for by the general regulations, a qualifying exam must be taken at the end of the student's first year as a provisional candidate. The principal requirement for the PhD is a substantial contribution to knowledge, embodied in a thesis. Except in very special cases every PhD student will be required to take a minimum of 36 units of course weight in graduate courses after the BSc (Honors) degree or equivalent. In any case, six units of course weight must be in mathematics courses at the 500-level or 600-level, in areas other than that of the student's thesis. The program of a full-time student who is a provisional candidate for the PhD shall normally include at least three mathematics courses, or courses in approved or allied fields (graduate or undergraduate) in each term of the first year, at least two in each term of the second year, and at least one in each subsequent term.

Candidates for the PhD degree must satisfy the Department that they have a competent reading knowledge of one of French, German and Russian.

To satisfy the residence requirement for the PhD, candidates must spend at least two years in advanced study and research after the master's degree.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken; however, a minimum of three years is normally required after the BSc or two years after the MSc.

204.46.4 Programs in Mathematical Physics

The Master of Science and Doctor of Philosophy degrees in mathematical physics may be taken in the Mathematics Department by a student with a good background in both mathematics and physics.

Candidates with an Honors degree in mathematics will be required to complete a thesis or project on some topic in the field of theoretical, rather than experimental physics, or in applied mathematics. The program of graduate courses will be selected in consultation with the Chairmen of the Departments of Mathematics and Physics.

Candidates who have a BSc in the mathematics pattern of the general program, with three or more courses in physics, may be accepted for a two-year MSc program in mathematical physics. The general program requirements of the MSc in mathematics listed above will apply.

204.46.5 Graduate Courses

THES 900 Thesis
THES 999 Thesis
MATH 900 ★6 Directed Research Project

Mathematics

A selection of courses, depending on demand, will be made from the following list:

MATH 500 Theory of Functions of a Complex Variable
★6 (3-0-0). Complex numbers. Complex series. Functions of a complex variable. Cauchy's theorem and the calculus of residues. Integral functions. Conformal representation. The Laplace and Fourier transforms. Note: Only one of MATH 500 and 506/507 may be taken for credit towards a degree. MATH 500 is not open to graduate students in Mathematics. Prerequisite: MATH 401/402 or equivalent.

MATH 503 Special Functions
★3 (either term, 3-0-0). The Gamma and Hypergeometric Functions. The classical orthogonal polynomials, and the Bessel functions. Prerequisite: MATH 412 and MATH 418 or equivalent.

MATH 504 Integral Transforms
★3 (second term, 3-0-0). An introduction to the Laplace, Fourier, Mellin, and Hankel Transforms with a survey of their basic properties and certain applications. Prerequisite: MATH 412 and 417/418 or equivalent.

MATH 506 Complex Variables IIA
★3 (first term, 3-0-0). Cauchy's Theorem, analytic continuation, Riemann surfaces and the monodromy theorem. Normal families, Schlicht functions, conformal transformations and Riemann mapping theorem. Symmetry principle of Schwarz. Prerequisite: MATH 512.

MATH 507 Complex Variables IIB
★3 (first term, 3-0-0). Modular functions, Picard's theorem, Bloch's theorem, entire and meromorphic functions. Dirichlet series, selected topics from analytic number theory, approximation theory and potential theory. Prerequisite: MATH 506.

MATH 511 Elementary Number Theory II
★3 (first term, 3-0-0). Arithmetic functions, Dirichlet and unitary convolution, generating series, average order of magnitude of some standard functions. Distribution of the primes, theorems of Chebychev and Mertens, Selberg's Theorem, elementary proof of the prime number theorem, primes in arithmetic progressions. Partitions: generating functions and combinatorial methods. Prerequisite: MATH 324 or equivalent.

MATH 512 Algebraic Number Theory
★3 (second term, 3-0-0). Valuations and their extensions, ramifications; integral dependence, algebraic number fields, ideals and divisors, class number. Prerequisite: MATH 427.

MATH 513 Additive Number Theory
★3 (second term, 3-0-0). Addition of sequences, density theorems, essential components, complementary sequences, bases, B2 sequences, representation theorems, arithmetic progressions. Prerequisite: MATH 324 or 511.

MATH 514 Analytic Number Theory
★3 (second term, 3-0-0). Analytic proof of the prime number theorem, Weiner-Ikehara theorem; the Hardy Ramanujan circle method and its applications to partitions and Waring's problem. Prerequisite: MATH 412 and MATH 324 or 511.

MATH 517 Introduction to Functional Analysis
★3 (first term, 3-0-0). Metric spaces. Completeness and compactness. Fixed points. Continuous operators and metric spaces. Linear and Non-linear spaces. Hilbert spaces. Linear operators and functionals. Approximate solutions of functional equations. Note: MATH 517 is no open to Honors or Graduate students of Mathematics Prerequisite: MATH 414.

MATH 518 Functional Analysis I
★3 (either term, 3-0-0). Locally convex spaces, metrizability Normed linear spaces and examples. Hahn-Banach theorem. Open mapping theorem. Principle of uniform boundedness. Weak and weak* topologies on Banach spaces. Reflective Banach spaces. Hilbert space theory. Prerequisite: MATH 418.

MATH 519 Functional Analysis II
★3 (either term, 3-0-0). Spectrum and resolvent. Fredholm theory of compact operators. Spectral theorem for bounded self-adjoint linear operators. Banach algebras. Operator algebras. Weak compactness and geometry of Banach spaces. Prerequisite: MATH 518 and MATH 543.

MATH 521 Differential Manifolds
★3 (first term, 3-0-0). Manifolds, differentiable structures and maps, vector bundles, vector and tensor fields exterior calculus, integral manifolds, integration, basic properties of Lie groups and Lie transformation groups Prerequisite: MATH 446 or 448.

MATH 522 Differential Geometry
★3 (either term, 3-0-0). Riemannian geometry: metrics connections, geodesics, curvature, de Rham theorem General theory of connections: principal bundles, linear and affine connections, holonomy groups. Lie transformation groups. Selected topics from: Singularities of maps, global analysis, G-structures, symmetric spaces applications to partial differential equations, physics Prerequisite: MATH 521.

MATH 524 Ordinary Differential Equations IIA
★3 (either term, 3-0-0). Existence and uniqueness theory linear systems, dependence on initial conditions and parameters; stability; phase plane analysis. Prerequisite: MATH 334 or equivalent.

MATH 525 Ordinary Differential Equations IIB
★3 (second term, 3-0-0). Asymptotics; boundary value problems; Poincare-Bendixson theory. Additional material will be chosen from among the following topics at the option of the instructor: separation; dichotomies; comparison and oscillation theory; bifurcation theory nonautonomous systems; dynamical systems; functional differential equations; contingent equations; differential equations in Banach spaces. Prerequisite: MATH 524 or equivalent.

MATH 526 Introductory Partial Differential Equations
★3 (either term, 3-0-0). Introduction to partial differential equations. First order equations. Classification of higher order equations. Hyperbolic (wave) equations. Elliptic equations and potential theory (Laplace equation). Parabolic (heat and diffusion) equations. Note: This course is intended primarily for students in Science or Engineering, and concentrates on the practical construction of solutions as well as the determination of general properties of solutions. Graduate students in Mathematics who wish to obtain credit for this course must have consent of department. Prerequisite: MATH 201 or 300 or 334 or equivalent.

MATH 527 Intermediate Partial Differential Equations
★3 (either term, 3-0-0). Introduction to the theory of generalized functions. Sobolev spaces; Garding's inequality, existence and regularity theory for elliptic operators Energy estimates; existence and uniqueness theory for hyperbolic operators. Qualitative properties of solutions. Note: This course is intended primarily for students in Mathematics. It is more theoretically oriented than MATH 526. Prerequisite: MATH 436; Corequisite: MATH 518.

MATH 528 Partial Differential Equations
★3 (either term, 3-0-0). Continuation of MATH 526 or MATH 527. Selection of topics will be at the instructor's option in consultation with the students, and may be chosen from the following: further study of elliptic, hyperbolic, and parabolic equations; systems of equations; integral transform methods of solution; integral equation methods; applications to boundary — and initial — value problems; nonlinear operators; approximation methods. Prerequisite: MATH 526 or 527.

MATH 529 Graph Theory
★3 (either term, 3-0-0). Graphs, subgraphs, trees, connectivity, paths and cycles, matchings, chromatic number, independent sets and cliques, Ramsey Theory, planar graphs, directed graphs, algebraic graph theory. Prerequisite: MATH 421 and MATH 426.

MATH 532 General Topology I
★3 (first term, 3-0-0). Elementary concepts of topology, nets and filters. Continuity homeomorphisms, product and quotient spaces. Axioms of separation and countability. Compactness, metrization, connectedness. Prerequisite: MATH 417 or 447.

MATH 533 Algebraic Topology I
★3 (second term, 3-0-0). Elementary concepts of homotopy theory; fundamental groups and covering spaces. Simplicial homology. Prerequisite: MATH 447.

MATH 534 Introduction to the Theory of Approximation
★3 (first term, 3-0-0). Polynomial interpolation, remainder formulae and error bounds. Best approximations in C, Lp and other norms. Degree of approximation by polynomials and trigonometric polynomials. Spline interpolation and approximation. Numerical differentiation, quadrature formulae and other applications to numerical analysis. Prerequisite: MATH 418.

MATH 535 Linear and Non-Linear Approximation
★3 (second term, 3-0-0). Linear operators. Best approximation in general normed linear spaces. Rational interpolation and approximation. Splines and approximation of linear functionals. Computational aspects, Remes and Polya algorithms. Prerequisite: MATH 534.

MATH 538 Techniques of Applied Mathematics
★3 (either term, 3-0-0). Continuation of asymptotic expansion of integrals. Perturbation theory, asymptotic matching, perturbative eigenvalue problems. Boundary layer theory. W.K.B. theory. Prerequisite: MATH 438.

MATH 542 Fourier Analysis
★3 (either term, 3-0-0). Trigonometric series. Norm and pointwise convergence theorems. Fourier integral. Inversion theorems. Plancherel's theorem. Hausdorff-Young theorem. Summability of Fourier series. Wiener's Tauberian theorem. Prerequisite: MATH 418.

MATH 543 Measure Theory
★3 (either term, 3-0-0). Abstract measures. Integration. L^p spaces. Radon-Nikodym theorem. Hahn and Lebesgue decompostion theorems. Product measures. Fubini's theorem. Prerequisite: MATH 418.

MATH 550 Applications of Differential Geometry to Mechanics
★6 (3-0-0). Configuration spaces as smooth manifolds, contangent bundles as phase spaces, vector fields on manifolds and tangent bundles, differential forms, integration. Review of variational calculus, Lagrangians, Hamiltonians, Legendre maps, symplectic and contact structures, Liouville theorem. Additional topics from Riemann and Finsler geometry, connections, dynamical systems with symmetry groups, Arnold's theory of Lagrangian singularities, ergodicity, geometric quantization. Prerequisite: MATH 446 or 448 or MA PH 443.

MATH 554 Theory of Elasticity
★6 (3-0-0). Stress, strain, stress-strain relations. Stretching, bending, torsion, and flexure of cylinders. Two-dimensional problems with an introduction to the work of Muskelvili. Introduction to three-dimensional problems. Variational methods. Prerequisite: MATH 311 or 412 or 500.

MATH 555 Fluid Dynamics
★6 (3-0-0). Fundamentals including stress tensor, invariants, stream functions; basic equations, equations relative to a rotating system, energy equation; general theorems for flow of an inviscid fluid including general results for rotating fluids; irrotational flows of an inviscid fluid of constant density including conformal mapping and the Joukowsky airfoil; waves in an incompressible fluid including surface waves of small amplitude, nonlinear surface waves, internal waves in a continuously stratified fluid and inertial waves; dynamics of inviscid compressible fliuds including shocks both normal and oblique, subsonic and supersonic flows; effects of viscosity including Darcy's law and Hele-Shaw cells; introduction to hydrodynamic stability and turbulence. Prerequisite: One of MATH 311, 407, 411, and MATH 436 or consent of the instructor.

MATH 560 Optimization Techniques
★3 (second term, 3-0-0). An advanced treatment of the theory and applications of modern techniques in optimization: dynamic programming, sequential techniques, duality, convexity, mathematical programming. Prerequisite: MATH 418 or MATH 414 or equivalent.

MATH 581 Group Theory and Field Theory
★3 (first term, 3-0-0). Solvable, nilpotent and free groups. Galois theory and valuation theory of fields. Further topics from the theory of groups and fields which may vary from year to year. Prerequisite: MATH 425.

MATH 582 Rings, Modules and Categories
★3 (second term, 3-0-0). Noetherian rings, primary decomposition, localization. Injective and Projective Modules. Artin-Wedderburn theorem. Topics from homological algebra and category theory which may vary from year to year. Prerequisite: MATH 425.

MATH 600 Reading in Mathematics
★3 (either term, 3-0-0). Students registered in this course are supervised by individual staff members in areas of interest of the staff members. Students will be allowed to take this course only in exceptional circumstances and with the permission of the Chairman of the Department. This course shall not be counted against the minimum course requirement for graduate students.

MATH 601 Morse Theory and Its Applications I
★3 (either term, 3-0-0). Banach manifolds, tangent bundles, vector fields, semi-flows, implicit function theorem, submanifolds and transversity theorem. Riemannian manifold and Finsler structure. Deformation lemmas. Mountain Pass Theorem, Lusternik-Schnirelman theory. General Morse Lemma, critical groups and Morse inequalities, continuity of critical groups. Applications to Differential Equations and Boundary Value Problems. Prerequisite: MATH 518 and MATH 533 or consent of department.

MATH 602 Morse Theory and Its Applications II
★3 (either term, 3-0-0). Homology and Hilbert manifold structure of path space and loop space, classical morse theory, geodesics and Jacobi fields on Finsler n-manifolds, finite and infinite dimensional Cartan-Hadamard theorem. Novikov's multivalued Morse theory for 1-forms and applications to mathematical physics. Prerequisite: MATH 601 and MATH 522 or consent of department.

MATH 605 Mathematical Logic
★4 (2-0-0). Sentential calculus; lower predicate calculus; Bolean algebra; structures, Godel's completeness theorem.

MATH 617 Topics in Functional Analysis I
★3 (first term, 3-0-0).

MATH 618 Topics in Functional Analysis II
★3 (second term, 3-0-0).

MATH 626 Topics in Number Theory I
★3 (first term, 3-0-0).

MATH 627 Topics in Number Theory II
★3 (second term, 3-0-0).

MATH 629 Topics in Combinatorics
★3 (either term, 3-0-0).

MATH 632 Algebraic Topology II
★3 (first term, 3-0-0).

MATH 633 General Topology II
★3 (second term, 3-0-0).

MATH 635 Fiber Bundles and Characteristic Classes
★3 (either term, 3-0-0). Prerequisite: Algebraic Topology (MATH 533).

MATH 638 Nonlinear Waves
★3 (either term, 3-0-0).

MATH 641 Banach Space Theory
★3 (either term, 3-0-0). Prerequisite: MATH 519.

MATH 642 Abstract Harmonic Analysis
★3 (either term, 3-0-0). Prerequisite: MATH 519.

MATH 643 Topics in Analysis
★3 (either term, 3-0-0).

MATH 644 Topics in Measure Theory
★3 (either term, 3-0-0).

MATH 645 Lattice Theory
★3 (either term, 3-0-0).

MATH 663 Topics in Applied Mathematics I
★3 (first term, 3-0-0).

MATH 664 Topics in Applied Mathematics II
★3 (second term, 3-0-0).

MATH 666 Topics in Mathematical Modelling
★3 (either term, 3-0-0). Topics on standard mathematical methods used in modelling, selection at the option of the instructor. Various methodologies or philosophies of model building, techniques for simulation of dynamic systems and axiomatic approaches will be discussed. The course may be run in seminar fashion with an accent on reading current research literature and guest lectures from among the science faculty.

MATH 667 Topics in Differential Equations I
★3 (first term, 3-0-0).

MATH 668 Topics in Differential Equations II
★3 (second term, 3-0-0).

MATH 676 Topics in Geometry I
★3 (first term, 3-0-0).

MATH 677 Topics in Geometry II
★3 (second term, 3-0-0).

MATH 678 Ring Theory I
★3 (first term, 3-0-0).

MATH 679 Ring Theory II
★3 (second term, 3-0-0).

MATH 681 Topics in Algebra
★3 (first term, 3-0-0).

MATH 682 Topics in Algebra
★3 (second term, 3-0-0).

MATH 692 Topics in Group Theory
★3 (first term, 3-0-0).

MATH 693 Topics in Group Theory
★3 (second term, 3-0-0).

MATH 695 Advanced Relativity Theory
★6 (3-0-0).

Mathematical Physics

MA PH 343 Classical Mechanics I
★3 (first term, 3-0-0). Review of fundamental principles; Lagrange's equations derived from Newton's Laws and D'Alembert's Principle; Variational Principles; Hamilton's Equations; Canonical Transformations; Small Oscillations. Prerequisite: PHYS 244 or MATH 376; MATH 215 or 317.

MA PH 344 Classical Mechanics II
★3 (second term, 3-0-0). Non-Conservative and Non-Holonomic Systems; motion of a rigid body in Non-Inertial Systems; Hamilton-Jacobi equation; principles of fluid mechanics. Prerequisite: MA PH 343.

MA PH 451 Mathematical Methods of Physics I
★3 (first term, 3-0-0). Application to problems in physics of: method of steepest descent; Fourier and Laplace transforms; boundary-value problems, integral equations and Green's functions. Prerequisite: PHYS 372 and 382.

MA PH 453 Mathematical Methods of Physics II
★3 (second term, 3-0-0). Application to problems in physics of: contour integral solutions of linear differential equations; Legendre, Bessel and hypergeometric functions with complex arguments; applications to the differential and integral equations of mathematical physics; perturbation theory; calculus of variations; conformal mapping; elements of group theory. Prerequisite: MA PH 451.

MA PH 467 Mechanics of Deformable Media
★3 (second term, 3-0-0). Stress and strain in continuous media; elasticity; mechanics of fluid flow in 2 dimensions using complex variables; 3 dimensional fluid flow using Eulerian and Lagrangian reference frames; thermodynamics and mechanics of compressible and viscous flows; onset of turbulence, convection and instability. Examples from geophysics, oceonography and atmospheric physics. Prerequisite: PHYS 211, MATH 334, MA PH 343, MATH 411, or 311.

MA PH 468 Introduction to Relativity
★3 (second term, 3-0-0). Special Relativity, principle of equivalence, Einstein field equations, stationary and static fields, Schwarzschild metric, experimental tests, black holes, linearized equations, gravitational collapse, cosmology. Prerequisite: MATH 446 or equivalent.

MA PH 669 General Relativity
★6 (3-0-0). Algebraic analysis of the field equations, Cauch initial value problem, gravitational radiation, algebraically special fields, conservation laws, gravitational collapse and black holes. Relativistic astrophysics, cosmological models, global structure of space-time. Prerequisite: MATH 466 or conset of both Departments.

Physics

Note: The following courses are given in the Physics Department. Some of these may be selected as part of a graduate progam in mathematics.

PHYS 676 Nuclear Structure I
★3 (either term, 3-0-0).

PHYS 677 Nuclear Structure II
★3 (either term, 3-0-0).

PHYS 680 Advanced Quantum Mechanics
★6 (3-0-0).

PHYS 682 Advanced Electromagnetic Theory I
★3 (first term, 3-0-0).

PHYS 683 Statistical Mechanics
★3 (first term, 3-0-0).

PHYS 684 Advanced Electromagnetic Theory II
★3 (second term, 3-0-0).

PHYS 685 Quantum Field Theory I or II
★3 (second term, 3-0-0).

PHYS 688 Solid State Theory
★6 (3-0-0).

PHYS 699 Selected Topics in Theoretical Physics
★3 (either term, 3-0-0). I — Scattering theory; II — Green's function; advanced solid state theory; III — mechanics of fluids and other continua.

204.47 Mechanical Engineering

Department of Mechanical Engineering
4-9 Mechanical Engineering Building
University of Alberta
Edmonton, Alberta T6G 2G8

204.47.1 General Information

The Department of Mechanical Engineering offers graduate courses and provides research facilities for well qualified students of recognized universities who wish to pursue advanced studies leading to the MEng, MSc, and PhD degrees in Mechanical Engineering. In addition, programs leading to the Master of Engineering and Master of Science in Engineering Management are also available for students wishing to specialize in this area.

The general fields for studying and research include solid mechanics, dynamics, vibration, thermodynamics, fluid mechanics, heat transfer, combustion, computer applications and biomedical engineering. The general areas within engineering management encompass engineering economics, operations management and operations research.

The more specialized program of MEng in Welding Engineering is also supported by the Department according to the guidelines established by the Faculty of Engineering.

While the general guidelines for entrance and program requirements are listed below, details of these specific requirements for each of these degrees can be obtained from the Department. As well, the currently active areas of research are documented in a brochure available from the Department of Mechanical Engineering.

Entrance Requirements:

The Department's minimum admission requirements are an undergraduate degree with an average of 6.5 in the last two years of undergraduate work (or graduate work) at the University of Alberta, or an equivalent qualification from a recognized institution, and a TOEFL score of 580 where applicable (see §202.2.2).

Financial Assistance:

Financial assistance is available in the form of scholarships and fellowships (see Awards section of this Calendar) and through the Department in the form of graduate assistantships and contract research (available for Canadian students and students holding valid work permits). The assistantships are available on a full-time or part-time basis with remuneration according to the student's qualifications and hours of service. Summer assistance can usually be arranged for students without scholarship support who continue their research through the summer months.

204.47.2 The Degree of MSc

Program Requirements:

For the Master of Science program the candidate must have satisfactorily completed a minimum of 15 units of course weight in graduate courses, MEC E 601, (additional courses may be required on advice of the student's supervisory committee), plus a thesis acceptable to the Department of Mechanical Engineering and the Faculty of Graduate Studies and Research.

There is no language requirement for the MSc.

The minimum period of residence is two four-month terms of full-time attendance at the University of Alberta.

Length of Program:

The time required to complete the program will vary according to the previous training of the applicant and the nature of the research undertaken. Normally, it will take 18 to 24 months to complete the MSc.

204.47.3 The Degree of MEng

Program Requirements:
